"You can always depend on her to make the discussion extremely long and to ensure that decisions once taken have to be retaken," the French president said.

#90178u1150 06/27/1990 ~United Press International

ATLANTA (JUNE 27) UPI - Nelson Mandela came to the cradle of America's non-violent civil rights movement Wednesday, one day after telling Congress the ''weapons of war'' are necessary to secure the inalienable rights of blacks in South Africa.

Despite Mandela's reluctance to embrace Martin Luther King Jr.'s unconditional rejection of violence, disciples of the civil rights martyr put aside their philosophical differences to roll out a hero's welcome for the African National Congress leader.

Mandela stepped slowly from a chartered jetliner emblazoned with the logo of financially troubled tycoon Donald Trump and was greeted by King's widow, Coretta Scott King, former Atlanta Mayor Andrew Young, Southern Christian Leadership President Joseph Lowery, Georgia Gov. Joe Frank Harris and other civic and civil rights leaders.

Mandela, Atlanta Mayor Maynard Jackson and Mrs. King held up clenched fists as an 80-piece band played a Zulu folk song called ''Prayer for Africa'' and the anthem of Mandela's African National Congress.

''The weather and the landscape, the warmth of the people evoke memories for us of home,'' Mandela said under a pounding Georgia sun. ''But unlike you, we are still under the grip of white supremacy.

''When we landed here, one of the issues that struck us was the fact that we are in a home of liberty, equality and fraternity - at least in law, if

not in practice.

''Whether we are among whites or blacks, we feel we are among our comrades in arms, among our brothers and sisters,'' he said. ''It is a great honor and pleasure to be in the place where Dr. Martin Luther King Jr. was born and brought up, and we look forward to paying our respects ... to his memory.''

Following the brief airport ceremony, Mandela's entourage departed for historic Auburn Avenue to lay a wreath at King's white-marble crypt.

The tomb is situated between the Ebenezer Baptist Church, where King preached non-violence, and the Martin Luther King Jr. Center for Non-Violent Social Change, a shrine of his crusade and headquarters for those working to keep his principles alive.

Armies of blue-uniformed police and throngs of cheering onlookers lined Mandela's motorcade route along Auburn Avenue, decorated with banners bearing his portrait and the colors of the African National Congress flag.

Most businesses on the street closed in honor of the South African opposition leader's visit, and the stores remaining open were peddling Mandela T-shirts and other mementoes.

Following the wreath-laying ceremoney, Mandela was to address a civil rights tribute at Big Bethel A.M.E. Church a few blocks away and then close out his Atlanta trip with a sold-out rally at Georgia Tech University's football stadium.

The itinerary called for him to fly late Wednesday to Miami, where the governor and Cuban-American mayors in the area have denounced him for his support of Cuban leader Fidel Castro.

Jewish groups in Florida have objected to Mandela's praise for Palestine Liberation Organization Chairman Yasser Arafat, and black leaders have reacted with outrage to the criticif the ANC deputy president.

The most pointed criticism of Mandela's unwillingness to renounce violence came from Hosea Williams, a King associate who planned a march through downtown Atlanta for the homeless to protest the lack of any free events open to the public during Mandela's visit.

''I think the South African struggle would be better off adopting the strict adherence to non-violence as taught by Martin Luther King,'' Williams said. ''I think it would bring them even greater international sympathy and moral standing, just as it did for our movement here. There's never a time when violence is the best way to go.''

Rejecting pleas from President Bush and other leaders to denounce the use of violence in South Africa's struggle for racial equality, Mandela insisted his organization will resort to violence when left with no alternative.

Echoing phrases from the Declaration of Independence, Mandela said his nation seeks a time when those the government will not turn its weapons against citizens ''simply because the citizens assert that equality, liberty and the pursuit of happiness are fundamental human rights which are not only inalienable but must, if necessary, be defended with the weapons of war.''

Mandela, released Feb. 11 after 27 years in prison for treason, was only the third private citizen from another country ever to address such a session and received a hero's welcome from all but a handful of members.

WASHINGTON (JUNE 27) UPI - President Bush will nominate George Murphy Jr. to be inspector general of the United States Information Agency, the White House announced Wednesday.

Murphy, if confirmed by the Senate, would succeed Anthony Gabriel.

Since 1988, Murphy has served as deputy director for the U.S. Arms Control and Disarmament Agency in Washington. He has also held positions on congressional oversight committees and in the Central Intelligence Agency.

#90178u1173 06/27/1990 ~United Press International

(JUNE 27) UPI - The Commerce Department issued a report on the Index of Leading Economic Indicators showing an eight-tenths of one percent increase last month... after a one-tenth of one percent drop in April. Private analysts expected a seven-tenths of one percent jump in the index, which predicts future economic activity. Analysts at Fuji Securities in Chicago say the report ''foreshadows further sluggish economic growth.''

The Southwest continues to broil in temperatures well into the triple-digit figures. Both Los Angeles and Phoenix set all-time heat records yesterday... L-A at 112 degrees and Phoenix at 122 degrees. The National Weather Service reports that the mercury topped the 100-degree mark in 24 other U-S cities... and there seems NO relief in sight. Today's forecast calls for more of the same.

In Arizona, six volunteer firefighters from a state prison crew were killed yesterday when a wildfire tore through a national forest. The five

inmates and their correctional officer died when the erratic winds re-directed the blaze. A forestry spokeswoman says the fire ''blew up and overran them.'' Firefighters fear dry lightning strikes may spark other fires as the dry heat continues.

Nelson Mandela plans to lay a wreath at the grave of Martin Luther King Junior in Atlanta today. The South African black nationalist left Washington this morning for a stopover in the Georgia capital before going on to Miami, Florida. His pilgrimmage to King's grave has prompted criticism that Mandela and the African National Congress should... like King... embrace NON-violence.

#90178u1183 06/27/1990 ~United Press International

LINCOLN, Neb. (JUNE 27) UPI - Business aircraft estimated to be worth $50 million to $60 million were scheduled to be auctioned Wednesday by Sotheby's.

Buyers, dealers, and business aircraft owners from across the United States, Mexico, and Germany were expected to attend the unique auction.

The auction was the idea of Duncan Aviation President Robert Duncan, who commissioned Sotheby's to auction the business jets at Duncan headquarters in Lincoln.

''This is a first for business aircraft where we've collected a whole group of high-quality business aircraft,'' Duncan said Tuesday. ''There is the ability to come to one place and see 20 planes at one time and the ability to buy at fair market value.''

About 20 jet and turboprop-powered aircraft were up for sale Wednesday after two were sold under contract.

The planes to be auctioned included 10 Learjets, with a Learjet 55C estimated to sell for $5.7 million to $6.4 million, two Gulfstream IIs estimated at $4.6 million to $5.25 million, a 1977 Westwind 1124, estimated at $1.9 million to $2.2 million, and several turboprop aircraft with estimates ranging from $300,000 to $1.2 million.

Duncan said his company, which inspected all the planes up for sale, typically sells one aircraft at a time or multiples to one customer.

''This (auction) is just a different way of selling, and there is interest in this process,'' Duncan said.

David Collogan, editor of The Weekly of Business Aviation in Washington, said the auction's impact on the industry would depend on the outcome of

Wednesday's action.

''I don't know whether it's going to make a great and everlasting change because it is costing a lot of money to put this thing on,'' Collogan said. ''This is all very first class and obviously expensive.''

Collogan said aircraft auctions around the country offer only single-engine and twin-engine aircraft.

Another industry observer, Fred George of Flying magazine, said the auction's most important function would be to establish fair market value for the aircraft.

''The main purpose of the auction is to establish parity between asking prices for business jets, and selling prices,'' said George, technical editor for the New York-based publication who was in Lincoln for the auction. ''This will be the first time I know of that buyers and sellers will get together as a group and determine the fair market value of these aircraft.''

Duncan said he was comfortable with the auction process when he bought other items ''knowing I was buying it at fair market price at that time. There were other bidders under me, and I felt good about the price I paid.''

The market for used aircraft in the United States is active, Collogan said.

''There's a continuing market for used aircraft in this country, and they turn over and over. Sometimes a company buys one and has a sudden financial reversal or a change in the chief executive and he'll decide they don't need the airplane or decide they don't need two,'' he said.

''There's just a lot of reasons why aircraft change hands. For one thing, they've been a pretty good investment over the past 10 years or so, and have held their value if they've been well-maintained.''

Collogan, also in Lincoln for the auction, said the industry was curious about Duncan's plan.

(JUNE 27) UPI - Iran's news agency reports that three survivors were found under rubble in quake-ravaged northwestern Iran. There's word that at least 50 after-shocks rumbled across the area overnight, rattling a village where a 40-year-old woman and her 12-year-old son were found alive yesterday. They were rushed to a hospital. A third survivor, a woman, was found uninjured yesterday in the same area, 145 miles northwest of Tehran.

The White House says President Bush will deliver a major policy address this afternoon to unveil a shift from aid to trade to help the economies of Latin America and the Caribbean. Spokesman Marlin Fitzwater says Bush will announce a shift in the focus of U-S policy for the Caribbean region. He says it comes after a three-month government review of U-S policy on Latin America and the Caribbean.

White House and congressional negotiators meet today in the on-going bi-partisan budget summit. House Democratic leader Richard Gephardt, who chairs the summit, told reporters yesterday that it is possible to cut federal red ink by 50-BILLION dollars in the 1991 fiscal year, beginning October 1st. He says a plan that also would cut the deficit by 550-BILLION over five years will be presented during today's session. It would balance the budget by 1995.

#90178u1221 06/27/1990 ~United Press International

LONDON (JUNE 27) UPI - Prime Minister Margaret Thatcher pledged Wednesday $9 million to a fund aimed at helping developing countries stop producing chemicals that deplete the ozone layer that shields the planet from the sun's ultraviolent rays.

Thatcher told delegates from 75 countries attending an international conference on ozone depletion it was imperative for all nations to act together on issue, particularly because recent assessments showed a deep decline in winter ozone levels in the northern hemisphere.

''Even if all chemicals which damage the ozone layer were banned tomorrow, ozone depletion would continue to get worse for more than a decade,'' the prime minister warned.

Her speech, constituting one of her more strident addresses on an environmental issue, opened a three-day gathering of environment ministers from around the world.

Delegates from the 59 nations that signed the 1987 Montreal Protocol on Ozone Depletion and 16 non-signatory observer countries, have tried to finalize a plan about how the fund would be managed.

The ozone issue has been unique in arousing a unanimity of world opinion about the need to stop production of chloroflurocarbons and halons, which are primarily found in aerosols, refrigerators and foams. The chemicals attack the planet's ozone belts, which lie about 20 miles above Earth and block cancer-causing ultraviolet light.

Delegates apparently have not finalized how to administer the ozone fund,

or reconciled the degree of obligation developed nations have to assist third world countries.

The United States is considering providing 25 percent of the $160 million to $220 million fund, to be administered by the U.N. Environment Program and the World Bank. But the United States has been demanding a greater say in how the money should be spent, a stance so far rejected by other nations.

Thatcher said Britain, as the first nation to pledge money to the fund, would raise its $9 million contribution to $15 million if other major consumers of the chemicals joined the Montreal Protocol.

Her reference apparently was to China and India, which are expected to become major CFC and halon producers. The two countries believe the protocol is discriminatory, because it will deny developing countries access to chemicals that the West has used to develop its industries.

''We need to speed up action, and set ourselves higher targets and shorter deadlines for reducing and eventually eliminating CFCs and halons, and extend the Montreal Protocol to cover other substances,'' Thatcher said.

''So far, we've done well, but, as many of us used to have written on our school reports, 'could do better,''' she said.

Many of the delegates and environment ministers are believed to favor replacing the current protocol target of a 50 percent cutback on the use of CFCs with a proposed total phase out by the year 2000.

Richard Smith, a U.S. undersecretary of state, said Washington's delegation was confident the conference would achieve its goals.

''What I hope for is a basic agreement to amend the protocol, eventually phasing out CFCs and other ozone-depleting products by the end of the century, (and) on the setting up of the fund and mechanisms for developing countries,'' Smith said.

Outside the conference, about 20 protesters dressed as penguins and toxic waste handlers paraded on the pavement calling for even more stringent ozone-saving measures.

''I'm dressed as a penguin to show that the Antarctic has the most severe ozone depletion and ultraviolet light, which puts all animal and marine life at risk,'' said Mick O'Connell, a Friends of the Earth member wearing a black and white penguin costume with a yellow beak and sunglasses.

''We're trying to impress upon the delegates that we want a much tougher protocol than it looks like their going to provide us with,'' another

demonstrator said.

#90178u1233 06/27/1990 ~United Press International
MOSCOW (JUNE 27) UPI - Politburo member Vadim Medvedev said Wednesday that Communist Party officials should not postpone a crucial meeting next week that is expected to be a showdown between Mikhail Gorbachev and his conservative rivals.

The official news agency Tass said the only the party's leading Central Committee could make a ''final decision'' on whether to postpone the congress, and cited Medvedev in saying a Central Committee plenum would take place Friday on the issue.

Medvedev told a news conference the 28th Party congress should go ahead next week rather than delay it until the fall as suggested by Communists from the Russian Federation, largest of the 15 Soviet republics.

''My personal view is that we should stick to the date,'' Medvedev said.

Tuesday, Russian Federation President Boris Yeltsin counseled a postponement of the 5,000-delegate Congress to start Monday and to run 10 days in what Western diplomats are forecasting will be a major conflict between conservatives and those backing Gorbachev's perestroika reforms.

Medvedev said Russian Communists suggested the postponement because they felt the people are tired of endless discussions without any visible action.

The Russian Communists pointed to the simultaneous sessions last month of the federal Supreme Soviet, the Russian Federation's parliament and the Russian Congress party. All the sessions were televised.

At times, even the sessions of the Moscow City Soviet were broadcast live last month.

Medvedev said the Communist leadership sought the opinions of Communist chiefs in the republics and different regions.

''The majority of those republics and regions were in favor of going on with the dates (as scheduled),'' he said. ''From my point of view, the congress will open July 2.''

The Central Committee will also discuss the party program to be adopted at the congress and Yeltsin on Tuesday forecast a ''real battle'' at the plenum.

A draft of the party program, published in the daily Communist Party paper Pravda on Wednesday, was unsurprising save a sole reference to ''workers' private property'' - a concept once anathema in the socialist Soviet Union where all means of production are state-owned in the name of the people.

Last year, a law on property passed by parliament studiously avoided use of the term ''private property,'' but conceded it in all but in name.

The rather conservative party program published Wednesday leaves untouched the omnipresent role of the Communist Party in both the army and the KGB.

Communists of the Democratic Platform bloc, a small faction, want Communist influence removed from the military and security agencies. They also want the Communist Party to change its name and renounce Marxism-Leninism in favor of social democratic principles.

Party congresses bringing together 5,000 delegates from across the country are held every five years to map policy for the next half-decade and the next one had been scheduled for early 1991.

But Gorbachev last year had advanced the 28th Congress from its earlier slated date when he believed the conclave would be dominated by reformers.

However, the just-concluded Russian Republic Communist Party Congress of 2,600 members was dominated by conservatives who even demanded Gorbachev's ouster as general secretary, or leader, of the Communist Party.

Even if Gorbachev were removed or volunteered to step down as leader of the party, he would remain executive president of the country, a post he created for himself last March, giving him immunity from being toppled from power.

Under the amended Soviet Constitution, Gorbachev will have to face the voters in four years to seek re-election as president. His first election was by parliament.

#90178u1236 06/27/1990 ~United Press International

LONDON (JUNE 27) UPI - Human rights have deteriorated under Sudan's military government, which tortures and kills political foes in secret detention centers and holds others without trial, Amnesty International charged in a report prepared for release Thursday.

A second report released by Africa Watch, another human rights group, also claimed an escalation of state-backed brutality by the Sudanese regime of Lt. Gen. Omar Hassan al Bachir.

It said the government of the northeast African country ''is controlled by militant Moslem fundamentalists determined to create, at any price, their own version of an Islamic state in Sudan.''

Amnesty International said that, during the past six months, more than 60 prisoners have been tortured in Khartoum in secret interrogation centers controlled by a government agency called Security of the Revolution.

More than 200 prisoners of conscience are in detention without charge or trial, it said. Africa Watch said about 1,500 ''suspected opponents of the regime'' were in jail.

Since a June 30, 1989, military coup that ousted Prime Minister Sadiq al Mahdi, ''hundreds of political opponents have been detained and many others have been executed or extrajudicially killed,'' Amnesty International said.

Amnesty International reported that summary executions and killings committed by government forces and armed civilian militias in southern Sudan, which began before the coup, continue under the military rule.

''In October and November, more than a hundred civilian noncombatants were deliberately killed by pro-government militia in areas of armed conflict '' the London-based organization said. It reported that 42 people of southern origin ''disappeared'' after their arrest in Khartoum last October.

Amnesty International said 28 officers charged with plotting to overthrow the government were executed in April this year after ''unfair trials,'' without full legal representation and with no option to appeal.

The organization said that only a few of the hundreds arrested after the coup have gone to court, despite al Bachir's pledge to conduct fair trials.

Amnesty International rejected claims by Sudanese authorities that all political prisoners had been freed with the release of 90 detainees early this year.

It said more than 200 suspected government opponents arrested in Juba in February included trade unionists, academics, political leaders, lawyers and human rights activitists.

Emergency legislation imposed after the coup dissolved the parliament and suspended the constitution, allowing authorities to ban all political parties, trade unions and newspapers and make strikes illegal, the organization said.

Amnesty International reported that the military government had extended

the scope of the death penalty to include crimes such as possession of foreign currency and organizing strikes.

The human rights watchdog organization criticized conditions at Shalla prison in western Sudan, where, it said, 70 political prisoners live with poor food and water, unsanitary conditions and no medical facilities.

Africa Watch reported similar human rights violations, and said the new government had destroyed opportunities for ending the nation's civil war, in which it was using a scorched earth policy and halting all relief efforts to assist people in the south.

#90178u1243 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - The Supreme Court ruled Wednesday that closed-circuit television testimony by alleged child abuse victims may be used at trial if the testimony is found to be both reliable and subject to cross-examination.

The high court, in a 5-4 opinion, held that criminal defendants are not guaranteed an ''absolute right'' to face their accusers in such cases where the state has an interest in protecting the welfare of the child victim.

The trial court, however, must first hear evidence and determine whether the closed-circuit television procedure is necessary to protect the witness's welfare and find that the child would be traumatized by the defendant's presence.

In a separate case involving child abuse victims, the court ruled that a child's hearsay statements are not admissible at trial unless the prosecution demonstrates the unavailability of the child witness and proves the statement is reliable.

In a 5-4 ruling also delivered by O'Connor, the court held that the defendant's right to confrontation is not violated when incriminating statements from a child who is unavailable to testify at trial are admitted under a hearsay exception.

The two cases originated from Maryland and Idaho.

In the first ruling involving the use of closed-circuit television, the court said testimony presented in such a way at trial would not violate a defendant's Sixth Amendment right to confront his accuser.

''We have never held ... that the confrontation clause guarantees criminal defendants the absolute right to a face-to-face meeting with witnesses

against them at trial,'' the court said in an opinion by Justice Sandra Day O'Connor.

''The central concern of the confrontation clause is to ensure the reliability of the evidence against a criminal defendant by subjecting it to rigorous testing in the context of an adversary proceeding before the trier of fact.

''Although we are mindful of the many subtle effects face-to-face confrontation may have on an adversary criminal proceeding, the presence of these other elements of confrontation - oath, cross-examination and observation of the witness' demeanor - adequately ensures that the testimony is both reliable and subject to rigorous adversarial testing in a manner functionally equivalent to that accorded live in-person testimony.''

The case was brought before the court by the state of Maryland after the appeals court overturned a woman's conviction on child sex abuse charges, saying she was denied her right to confront the child in court.

Sandra Craig was convicted in 1987 of sexually, psychologically and physically abusing the 6-year-old girl at Craig's Country Pre-School in Clarksville, Md. She was sentenced to 10 years in prison but remained free during the appeal. The state appeals court threw out the convictions last summer.

Her day-care center closed in 1986 after abuse allegations emerged, and Craig moved to New York, where she works as a department store manager. She faces charges of child abuse involving 12 other youngsters.

Maryland's appeals court found that Craig's rights were violated because the child testified by a live television hookup. Craig was not in the same room with the child but could see the testimony on a television monitor.

The court found that Maryland judges must question youngsters at some point in a trial in the presence of the defendant.

Justice Antonin Scalia, in a dissent joined by Justices William Brennan, Thurgood Marshall and John Paul Stevens, said the court's reasoning in allowing televised testimony ''is wrong because the confrontation clause does not guarantee reliable evidence; it guarantees specific trial procedures that were thought to assure reliable evidence, undeniably among which was face-to-face confrontation.''

Maryland Attorney General J. Joseph Curran Jr. called the ruling ''a great victory for children'' and said he will seek to reinstate Craig's convictions.

''Maryland has come home with a winner and we're excited for child advocates,'' he said. ''We will now be able to bring to justice child abusers.''

The Idaho case involved a woman, Laura Lee Wright, who was charged with two counts of lewd conduct with her 5 1/2- and 2 1/2-year-old daughters. At trial, the court found the younger daughter was not ''capable of communicating to the jury,'' but admitted under the state's hearsay exception certain incriminating statements she made to a pediatrician. Wright was convicted.

The Idaho Supreme Court found that Wright's Sixth Amendment right to confront her accuser was violated when the trial court judge allowed testimony from the pediatrician, who recounted the statements. The child did not testify at the trial.

The lower court found that the pediatrician's statements lacked reliability because he failed to record his interview with the girl, used leading questions, and had a preconceived idea of what the child would disclose.

Idaho, however, contended the state Supreme Court erred in that finding by failing to take into account other facts and evidence in the case that bolstered the reliability of the pediatrician.

#90178u1280 06/27/1990 ~United Press International

ATLANTA (JUNE 27) UPI - The Peace Corps program in the Philippines will be suspended immediately and volunteers serving there will be brought back to the United States, the program's director announced Wednesday.

U.S. officials began evacuating the volunteers to Manila last week but did not announce the move until Tuesday. The officials said the 261 Peace Corps volunteers were recalled after intelligence information showed they

had been added to the list of Americans the guerrillas planned to kill.

''As director of the Peace Corps, my foremost concern is the health and security of our volunteers,'' Paul Coverdell said. ''All of the volunteers are safe and this is strictly a precautionary measure.''

Coverdell made the announcement at Hartsfield International Airport, where he flew from Washington. The director was scheduled to speak at a Rotary Club in Columbus, Ga., Wednesday.

More than 7,500 Americans have worked in the Philippines with the Peace Corps since the corps was founded in 1961, working with Filipinos in agriculture, nutrition, public health, education and environmental protection.

''It is my belief that Peace Corps will be able to return to the Philippines to continue its work in the near future,'' Coverdell said.

Coverdell said it was a difficult decision to order volunteers out of the country because the Filipino government always has welcomed the program, whether it was the government of Ferdinand Marcos or Corazon Aquino.

All the volunteers were expected to be in Manila by Wednesday and the director said they will leave the country Thursday. Coverdell said the Manila office will remain open.

The director was to go to Hawaii Saturday to meet with the volunteers and direct their return to the United States.

''So far, we've done well, but, as many of us used to have written on our school reports, 'could do better,''' she said.

Many of the delegates and environment ministers are believed to favor replacing the current protocol target of a 50 percent cutback on the use of CFCs with a proposed total phase out by the year 2000.

Richard Smith, a U.S. undersecretary of state, said Washington's delegation was confident the conference would achieve its goals.

''What I hope for is a basic agreement to amend the protocol, eventually phasing out CFCs and other ozone-depleting products by the end of the century, (and) on the setting up of the fund and mechanisms for developing

countries,'' Smith said.

Outside the conference, about 20 protesters dressed as penguins and toxic waste handlers paraded on the pavement calling for even more stringent ozone-saving measures.

''I'm dressed as a penguin to show that the Antarctic has the most severe ozone depletion and ultraviolet light, which puts all animal and marine life at risk,'' said Mick O'Connell, a Friends of the Earth member wearing a black and white penguin costume with a yellow beak and sunglasses.

''We're trying to impress upon the delegates that we want a much tougher protocol than it looks like their going to provide us with,'' another demonstrator said.

#90178u1289 06/27/1990 ~United Press International

BOGOTA, COLOMBIA (JUNE 27) UPI - The cocaine war has made the first half of 1990 the bloodiest in the history of Colombia - a murder every 24 minutes, police statistics show.

There were 10,488 murders in Colombia from Jan. 1 to June 25, or 59 a day, according to statistics compiled by the Investigative and Judicial Police.

Medellin, headquarters of the warring Medellin cartel of cocaine traffickers, experienced 2,824 murders through June 25, making it the deadliest city in this violence-torn nation, according to the statistics published by the Bogota newspaper El Tiempo.

Most of the murders in Medellin, 160 miles northeast of the capital, have been blamed on hitmen linked to the Medellin cartel.

If the murder rate continues, there will be 21,750 people murdered in 1990 in this nation of 30 million people. That would make it the bloodiest year for murders in recent history. There were 19,462 people murdered in 1988, police said.

The agency also reported that kidnappers snatch someone every seven hours in Colombia. Through June 25, there were 584 people kidnapped by cocaine gangs, guerrillas or common criminals.

Medellin Mayor Omar Florez also said he had received a letter from 200 young cocaine hitmen calling for peace talks.

Officials would study ways to respond to the letter and begin the talks, Florez said.

#90178u1303 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - When most Americans talk taxes they think about their annual income tax returns, but President Bush and Congress can look in an almost infinite number of other places for more money.

Here's a sampling of some of the taxes they could raise in their search for new federal dollars.

INCOME TAXES: This is the broadest tax in the country and can be raised in several ways. The individual tax rates - currently 15 percent, 28 percent and 33 percent - could be increased, or Congress and the president could lower the income level necessary to move a person from a lower tax bracket to a higher one.

Also, Congress and the president could eliminate or tighten tax deductions making more of a person's income taxable. In 1986, for example, one of the biggest fights in Washington was over whether people, on their federal tax returns, should still be allowed to deduct the state and local taxes they pay. The eventual compromise allowed them to deduct state and local income and property taxes, but not sales taxes.

Because income taxes are paid by almost everyone, major changes can raise large amounts of money. However, for that same reason they are also among the most politically sensitive taxes.

Before he became Senate Democratic leader, George Mitchell of Maine made an unsuccessful push to increase the top tax rates on the wealthy. He later abandoned that effort, but it could resurface this year, especially

if, as expected, Democrats try hard to put most of the new tax burden on businesses and the wealthy.

TIGHTEN SPECIAL TAX BREAKS: Even though Congress passed a major tax revision in 1986, the federal tax code is still full of special tax breaks for many things not applicable to average Americans - everything from chicken farms to vacation homes. Congress could limit those breaks. However, even though most Americans do not use those tax advantages, they still could feel the pinch of their elimination. For example, dropping some of the tax breaks for vacation homes could prompt the homeowners to raise the rents they charge.

BUSINESS TAXES: Businesses and corporations generally work under different tax rules than individuals and are often a favorite target of lawmakers who want to avoid raising individual taxes. However, others often argue that business taxes are counterproductive because they put strain on the economy and hurt job creation. They also contend that in reality, business taxes are always passed on to the consumer in the higher cost of goods.

NATIONAL SALES TAX: This idea has surfaced in varying forms in recent years and is attractive to some because it would raise huge amounts of money.

However, many people complain that a simple sales tax is very ''regressive'' and would hurt the poor and middle class far more than it would harm the wealthy. For example, a person who is barely above the poverty level would have to pay the same tax on a purchase as a billionaire buying the same item.

Some lawmakers have also suggested what they call a ''value added tax'' in which a special tax would be placed on an item at varying levels of its production. Because that tax is certain to be passed on to consumers in the final cost of the goods, many people view it a hidden sales tax.

GAS TAX: Increasing taxes on gasoline has also been a popular item for discussion in recent years, but moving beyond that point might be difficult.

Supporters of the tax hike argue that not only would it raise more money, but that it would also help conserve energy and improve the environment by cutting unneccesary automobile driving. However, that position is bitterly opposed by lawmakers from largely rural states where driving is more of a necessity than it is in urban areas.

Also, some states have begun to look at gasoline taxes to fund projects such as road improvements. A high federal gasoline tax would put pressure on those states to lessen their levy.

SIN TAXES: These are taxes on so-called sin items such as alcohol and tobacco and may be popular taxes to raise because they are targeted at non-essential products. They also are being used increasingly by states.

CAPITAL GAINS: Bush has long argued that cutting the capital gains tax - the levy paid on profits from the sale of things such as stocks and real estate - would spur economic activity. That increased activity, Bush contends, would create more tax revenue. However, many Democrats dispute that contention. Bush has included a capital gains cut in his budget and it is unclear whether he will stick to the idea.

INCREASED TAX COLLECTIONS: This is a favorite item used by lawmakers to close revenue gaps, at least on paper. Under the theory, Congress approves additional resources for the Internal Revenue Service to crack down on tax cheats and then estimates how much money will be saved.

#90178u1309 06/27/1990 ~United Press International

JOHANNESBURG, SOUTH AFRICA (JUNE 27) UPI - Grenades exploded outside a police station and a police constable's house overnight, causing slight damage but no casualties, police said Wednesday.

Police also reported the arrest Monday of Shirley Gunn, 34, an anti-apartheid activist suspected of bombing trade union offices in 1987 and 1988 and on the run for two years, but made no link between the latest incidents and the capture.

No one claimed responsibility for the overnight attacks, which a police statement condemned as ''cowardly.''

One grenade shattered windows of a police station and damaged a patrol vehicle in Khayelitsha black township near Cape Town, and another detonated in front of an officer's house in Kagiso township, west of Johannesburg. A second grenade thrown at the house failed to explode and was found in the garden.

Policemen ''are friends of the public,'' the statement said. ''They are not political instruments in the hands of the government.''

Politically motivated actions against police were stepped up following the 14th anniversary of the June 16 bloody anti-government uprising in Soweto township.

Assailants killed four policemen in the 24 hours into June 17 and have since randomly attempted attacks on police targets nationwide.

The arrested anti-apartheid activist, Gunn, is a trained operative of the African National Congress, which with rival black anti-apartheid group the Pan Africanist-Congress has vowed to continue a 29-year armed struggle against white minority rule.

But the movements' insurgencies have been regarded only as nominal since the February launch of President Frederik de Klerk's racial reforms.

ANC officials privately speculate hardline splinter groups or renegade guerrillas disgruntled with the slow pace of change may be responsible for the latest attacks.

#90178u1316 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - Federal regulators Wednesday said they will seek to recover millions of dollars lost by failed thrifts in investments with the bankrupt Drexel Burnham Group Inc. and Drexel's junk bond king Michael Milken.

The Federal Deposit Insurance Corp. said it will create a special task force of lawyers with the Resolution Trust Corp. as part of intensified efforts to recover money that taxpayers otherwise would have to foot.

The task force will also consider possible referrals to the Justice Department.

The FDIC is the government agency that insures bank and thrift deposits and manages the RTC, which was created by Congress last year to sell or merge hundreds of failed thrifts at a cost of billions of dollars to taxpayers.

''The FDIC always investigates failed institutions for signs of wrongdoing that may have contributed to the failure,'' said FDIC general counsel Alfred Byrne.

Drexel filed for Chapter 11 protection from creditors in U.S. Bankruptcy Court in New York last February. The court set a Nov. 15 deadline for asserting claims against Drexel and its subsidiaries - spurring the FDIC to accelerate efforts to resolve claims stemming from Drexel's collapse.

Byrne said the federal regulators intend ''to recover the maximum amount possible for our insurance funds and, ultimately, for the American taxpayer.

''In fact, we believe that the FDIC and the RTC may be among the largest creditors in the Drexel bankruptcies,'' he said.

Milken, who led Drexel's junk bond activities in Beverly Hills, Calif., and who is credited with creating almost singlehandedly the market for the high-yield, high-risk paper, pleaded guilty to six felonies in April and agreed to pay $400 million in restitution. The funds would be available to injured parties, the FDIC said.

Savings and loans were major investors in junk bonds.

''We have preliminary information that links Drexel and Milken to millions of dollars lost by a number of failed thrifts in junk bonds,'' Byrne said.

After a series of insider-trading scandals involving Drexel officials, the Securities and Exchange Commission filed a Sept. 7, 1988, civil complaint charging Drexel, Milken, and others with fraud, insider trading, stock manipulation and other securities law violations.

On Dec. 21, 1988, Drexel agreed to plead guilty to six felony counts and pay $650 million in penalties and fines.

The FDIC noted that the SEC is holding pools of $350 million for claimants of Drexel and the $400 million for claimants of Milken.

Drexel owes about $2 billion to its creditors.

''Although we have been investigating the link between Drexel and failed thrifts for some time now, the Nov. 15 date set by the bankruptcy court is prompting us to step up our effort to nail down these claims,'' Byrne said.

#90178u1319 06/27/1990 ~United Press International

CANBERRA, AUSTRALIA (JUNE 27) UPI - The government Wednesday announced it will grant four-year temporary residence permits to some 20,000 Chinese students who were in Australia at the time of China's crackdown on student demonstrators in Beijing.

Prime Minister Bob Hawke said the Chinese students could be granted permanent residence in Australia if human rights in China remained at risk at the end of the four-year permit period.

The four-year permits would be granted only to the 20,000 students who were in Australia at the time of the Chinese crackdown, following the killing of hundreds, and possibly thousands, of pro-democracy demonstrators near Tiananmen Square in Beijing. The permits would not be granted to Chinese students who arrived in Australia after the June 20, 1989, massacre.

The action came during a revision of Australia's immigration laws, which

aim to reduce illegal immigration and will cut the number of immigrants allowed each year to 126,000 from the current level of 140,000.

The government said it would respond with humanitarian commitment to the resettlement of refugee boat people from Indo-China. The statement appeared to be a softening of a harder-line policy toward Indo-Chinese refugees.

The leader of the conservative opposition in Australia, Dr. John Hewson, criticized the government's new immigration positions, saying they showed a ''dangerous lack of consistent standards'' in granting Chinese students a special status as refugees and not boat people.

#90178u1328 06/27/1990 ~United Press International

FORT LAUDERDALE, FL (JUNE 27) UPI - When there's no restaurant around and cold sandwiches just won't do it, road crews along Interstate 95 roast their foil-wrapped lunches in steaming mounds of wet asphalt.

''It really cooks as well as a microwave,'' said Bill McCord, a senior roadway inspector on the I-95 expansion project.

According to Wednesday's Fort Lauderdale Sun-Sentinel, paving workers wrap hot dogs, pork chops or leftovers in two or three layers of aluminum foil and bury the packets in a mound of 300-degree asphalt.

The steaming asphalt, which has the consistency of wet sand, is so hot it doesn't stick to the foil and workers can easily wipe it away.

''It usually takes a lot of salt and pepper. When it's cooking, the juices start coming,'' said Reggie Akins, a paver for Weekly Asphalt Paving. ''I told my wife, she think's it's crazy.''

The workers said they could cook hot dogs, pork chops and sausages in 15 to 30 minutes, baked potatoes in 25 to 30 minutes, and ribs, chicken and steaks in about 90 minutes. Leftovers are ready to eat in just 10 minutes but a whole roast chicken can take two hours.

''It beats eating cold lunch all the time,'' said company foreman Tim Johnson, who carries salt, pepper, utensils, hot sauce, barbecue sauce and napkins in his truck.

Workers insist there is no asphalt taste to the food.

The pavers said asphalt cuisine is common among road workers, especially those working 12 hours a day in areas where there are no restaurants nearby.

Gourmet chefs said they had never heard of the roasting technique, but didn't find it odd.

''You cook on charcoal, why not on the asphalt?'' said chef Henry Janneau of the Casa Veccia restaurant in Fort Lauderdale.

Said chef Wending Cyrille of La Vielle Maison in Boca Raton, ''If it's wrapped very, very good, as long as nothing goes into the meat, why not?''

The only drawback appeared to be the distracting aroma.

''When you cook it you can smell it a long ways,'' said road paver Willie Butts. ''Especially when you get sausage with onions and bell pepper.''

#90178u1357 06/27/1990 ~United Press International

COLOMBO, SRI LANKA (JUNE 27) UPI - The army pounded Tamil rebel positions with heavy artillery and jets flew bombing runs Wednesday as the military continued trying to relieve 400 police and soldiers trapped in a 310-year-old Dutch fort on the northern Jaffna peninsula, a military source said.

Highly placed security sources claimed Tuesday that more than 100 rebels had been killed in fighting around the fort.

''We have caused more enemy casualties today, too,'' a military source said Wednesday. He was not specific.

The military efforts were aimed at relieving 400 police and soldiers trapped in Jaffna Fort, which has been under attack since fighting erupted June 12 between government forces and the Liberation Tigers of Tamil Eelam.

The star-shaped fort, built by the Dutch in 1680 and surrounded by a moat, is 600 yards from the center of Jaffna, the largest city on the peninsula and the capital of the northern district.

The military source said army forces pounded rebel positions with heavy artillery and the air force flew sorties over the area. But it was not clear if the city, 190 miles north of Colombo, was badly damaged or whether there were heavy civilian casualties.

Fighting began June 12 when the rebels staged simultaneous attacks on four military camps in eastern Sri Lanka, killing at least 66 soldiers.

Since then, more than 600 soldiers, police, rebels and civilians have been killed and more than 183,000 people left homeless.

The Tigers demand an independent Tamil homeland in the northern and eastern provinces of Sril Lanka because they believe the Tamil minority, predominantly Hindu, has been discriminated against by the nation's Sinhalese majority, which is mostly Buddhist.

JAKARTA (JUNE 27) UPI - The government is finding some success in shifting oil exploration to the eastern part of the country, where labor and equipment shortages have prevented the exploitation of abundant reserves, officials said Wednesday.

The Indonesian government has encouraged the move by using the state-owned Pertamina oil company to provide financial incentives and facilities for companies moving to the east, said Wibowo Sudiro, the official in charge of exploration and development of foreign contractors.

One of the foreign oil companies that has switched its exploration to eastern Indonesia is Mobil Oil Indonesia, which has a large operation in the eastern-most province of Irian Jaya, Sudiro said.

"The special incentives including the granting of a bigger percentage of gains, both with regard to onshore and offshore," Sudiro was quoted as saying by the official Antara news agency . The usual split for foreign oil contractors operating in western and central parts of Indonesia is 80-20 in favor of Pertamina.

Sudiro said the government also was providing certain data to the foreign contractors, although he gave no further details. The eastern parts of Indonesia hold extensive oil and gas reserves, but the area lacks sufficient labor and means of communication.

Sudiro said most of the 151 drilling projects planned by foreign contractors in 1990 still are located in the western and central parts of the country. Eleven production-sharing contracts have been awarded this year so far, with the majority for the western and central parts of Indonesia.

A company source said there were nearly 40 new applications for exploring oil in Indonesia, and that they would be redirected toward the eastern part of the country. He said Pertamina was scheduled later this year to sign nine contracts for the exploration and production of oil and gas in the country.

#90178u1367 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - The former model who lured Mayor Marion Barry into a drug sting five months ago testified Wednesday she and Barry used cocaine ''more than 100 times'' in a three-year period, during most of which they were lovers.

''There was so much drug use during that time and I was losing myself,'' said Rasheeda Moore, 39, the star witness at Barry's drug and perjury trial.

Moore, dressed entirely in black, said she and the mayor were lovers from June 1986 to June 1988, but continued using drugs together for another year after breaking up.

Moore said Barry even knew how to make crack from powder in a freebase technique. He would cook powder cocaine with baking soda and solidify it with cold water, she testified.

Moore cooperated with authorities to set up Barry's arrest in January, when he allegedly was videotaped smoking crack in her hotel room.

Barry appeared to listen intently during Moore's testimony but showed no emotion. At one point during testimony Barry looked at his wife, Effi, who was sitting in court, and she shook her head side to side.

Moore, who now lives in Los Angeles, testified that Barry often stopped by her home in Washington after meetings or after work and used drugs with her.

She also named more than a dozen other places in the Washington area, including her mother's home and a number of hotels, where she said she shared crack or powder cocaine with the mayor.

Moore said the two used powder cocaine until February 1988, when they began using crack together. She testified they also used opium and marijuana together.

Asked how often the two used cocaine during the three years, Moore testified, ''more than 100 times.''

Moore, who said she is religious, broke up their ''intimate relationship'' in June 1988 because of concerns about her children and problems with her conscience about having an affair with a married man, she testified.

''He told me it was divine providence that we were together,'' Moore testified in a husky voice. ''He told me I had to learn to separate my religious and spiritual beliefs.''

Moore said that ''once we stopped the intimate relationship, we continued to use drugs together.''

Moore, a Washington native, said she first heard from Barry in 1976, when he saw her picture on the cover of Essence magazine and called her in New York to invite her to dinner.

They became lovers in 1986 after Barry had helped her become director of Project Me, a summer youth program for the city to build young people's self-esteem, she testified.

Moore, who is heavier now than she was in her modeling days, said she started to smoke crack to lose weight at the suggestion of her manicurist but did not tell the mayor ''because I knew what it was doing to me.''

After Barry discovered Moore used crack, the two began smoking that drug three to four times a week, she testified. ''He would come past after a meeting a take a hit off the pipe.''

Moore said Barry was very paranoid about getting caught using drugs, and said early in their relationship they kept cocaine under a carpet in a Washington apartment, which he told her he was renting.

Moore said she, Barry and former city worker Charles Lewis smoked marijuana in a June 1986 boat trip off the Virgin Islands, corroborating testimony from Lewis and another woman who took the stand Monday.

Jurors Wednesday heard a brief segment from tapes of Barry's 1989 testimony before a federal grand jury, before Moore took the stand.

Tuesday, jurors heard the mayor claim on the tapes that he did not use drugs with Lewis, the basis of the three felony perjury charges.

Lewis, a convicted drug dealer, testified last week that he and Barry shared crack at a downtown Ramada Inn on four different days in December 1988.

Moore lured Barry to the Vista International Hotel Jan. 18 as part of an FBI-police sting operation. Barry was allegedly videotaped smoking crack cocaine that night. Jurors were expected to view the tape later in Moore's testimony.

Barry is charged with three felony counts of perjury, 10 misdemeanor counts of cocaine possession and one misdemeanor count of conspiracy to possess cocaine. If convicted of all charges he faces a maximum 26 years in prison and $1.85 million in fines.

#90178u1381 06/27/1990 ~United Press International
(JUNE 27) UPI - President Bush is expected to announce a new trading policy with Latin America and the Caribbean today. White House news secretary Marlin Fitzwater says the plan is centered on the idea that- in his words- ''prosperity in our hemisphere is based on trade, NOT aid ... and requires more of an economic partnership.''

Japanese and American trade talks in Tokyo have hit brick wall and a senior U-S administration official wants to bring Japanese political leaders in on the negotiations. The official says higher-level input on both sides is needed, but that President Bush has already made an important contribution by suggesting the possibility of a U-S tax hike.

The government's Index of Leading Economic Indicators shot up eight-tenths of one percent during May, in line with private analysts' expectations. Chicago analysts at Fuji Securities say the report ''foreshadows further sluggish economic growth, but does NOT portend recession.'' The index predicts future economic activity.

Liberian troops opened fire to stop a march in the capital by demonstrators demanding the resignation of President Samuel Doe. A U-S Embassy spokesman in Monrovia says that several people were wounded by gunfire. NO deaths could be immediately confirmed. But by afternoon, the situation appeared to be winding down.

(JUNE 27) UPI - Chinese President Yang Shangkun reportedly is in the hospital recovering from an acute appendicitis. The official Chinese news agency reports that Yang could NOT attend a welcoming ceremony for a visiting dignitary because of his condition. The military chief played a key role in last year's Tiananmen Square massacre.

A Brooklyn jury is into the third day of deliberations in the trial of John Vento, who is accused of acting ''in concert'' with a gang of white youths who killed a black teen-ager in Bensonhurst last year. Observers say the jury seems to be focusing on lesser charges, a sign it has already decided on the second-degree murder charge.

Two male joggers attacked in New York's Central Park are expected to testify today at the trial of three youths accused in the gang rape of a 29-year-old Wall Street investment banker. It is NOT known whether the woman jogger herself will testify. Two other victims of the gang of youths testified yesterday.

The trial of former Philippines first lady Imelda Marcos is winding down. A defense lawyer yesterday portrayed her as woman who ''comitted NO crime, but loving a man for 35 years, raising his children'' and receiving ''lavish gifts.'' Ma'cos is charged with fraud and obstruction of justice for allegedly plotting to divert 200-Million dollars stolen from Manila into New York property.

#90178u1398 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - The Supreme Court, signaling at the end of its 1990 term that it has not abandoned racial preferences, upheld Wednesday a federal affirmative action program favoring minority applicants for broadcast licenses.

The court, which in recent years has demonstrated hostility to such programs, reversed course on a 5-4 ruling by Justice William Brennan that upheld a Federal Communication Commission policy of giving preference to minorities seeking to operate radio and television stations.

''The commision's minority ownership policies bear the imprimatur of longstanding congressional support and direction and are substantially related to the achievement of the important governmental objective of broadcast diversity,'' Brennan said in the two cases from Florida and Connecticut.

Justice Byron White split from his conservative brethren to give Brennan the majority.

Chief Justice William Rehnquist and Justices Sandra Day O'Connor, Antonin Scalia and Anthony Kennedy dissented from the ruling that was announced on the last day of the court's 1989-90 session.

In a sharp rejoinder to the majority, Kennedy compared the court's ruling to its infamous 1896 decision in Plessy vs. Ferguson, which upheld a Louisiana law requiring separate accommodations for ''white'' and ''colored'' railroad passengers.

''The fundamental errors in Plessy, its standard of review and its validation of rank racial insult by the state, distorted the law for six decades before the court announced its apparent demise in Brown vs. Board of Education,'' Kennedy said.

''Plessy's standard of review and its explication have disturbing parallels to today's majority opinion that should warn us something is amiss here.''

Kennedy attacked the court for allowing racial preferences and said he ''cannot agree with the court that the Constitution permits the government to discriminate among its citizens on the basis of race in order to serve interests so trivial as 'broadcast diversity.'''

Thomas Hart, who filed a brief supporting the programs for the Committee to Promote Diversity, said the ruling ''underscores ... important principles in the country.

He said the ''approval of limited affirmative action programs ... not only benefits minorities but benefits non-minorities as well by diversifying the airwaves.''

Burt Neubourne, a New York University law professor who filed a similar brief on behalf of the ACLU and other groups, expressed relief at the court's action: I'm pleased in that a reasonable and important affirmative action policy was upheld.''

He said the court seems to have adopted a ''dual standard'' for reviewing affirmative action plans - one that gives Congress greater leeway than state and local governments to adopt such plans.

The court, under the leadership of conservative Chief Justice Rehnquist and with the urgings of the Reagan-Bush administrations, has issued a number of decisions that have distressed civil rights activists. Last year the court struck down a minority set-aside program from Richmond, Va., that gave preferences to minority contractors.

As a result, many feared the court would strike down the FCC programs.

In other action, the court:

-Ruled that closed-circuit television testimony by alleged child abuse victims may be used at trial under certain circumstances.

-Ruled that the Postal Service can ban solicitation from sidewalks on postal property.

-Ruled that an environmental group could not establish standing to sue by relying on an affidavit that a member of the organization makes use of property ''in the vicinity'' of land affected by a government decision.

At issue in the minority preference cases was an FCC policy to increase minority participation in broadcasting by giving preference to minorities seeking licenses to operate radio and television stations.

The FCC also has other programs benefitting minorities and women. The policy for women was brought up in the Florida case, but the court noted that the gender policy was not ''before us today.''

During the Reagan administration, the FCC sought to repeal the preferences for women and minorities, but was stopped by Congress, which must reconsider the subject by the end of fiscal 1990 and has already held hearings on the matter.

The Florida challenge to the policy stems from a 1982 decision to allow a new UHF television channel in Orlando, Fla.

The license was originally awarded to Metro Broadcasting, but the FCC Review Board reversed that decision and awarded the license to a minority-run company called Rainbow Broadcasting, a Hispanic-owned partnership.

Metro challenged the reversal, which was eventually upheld by the appeals court.

The Connecticut case concerns attempts by Alan Shurberg, a longtime resident of the Hartford area, and Shurberg Broadcasting Company of Hartford Inc., to replace Faith Center Inc. as the licensee of Channel 18

in Hartford. Astroline Communication Co., whose prinicpial partner is Hispanic, intervened to acquire the license and the FCC granted it.

#90178u1419 06/27/1990 ~United Press International

NEW YORK (JUNE 27) UPI - The City Planning Commission Wednesday unanimously approved Columbia University's controversial plan to build a bio-medical research center at the Audubon Ballroom, site of Malcolm X's assassination.

But the commission placed major restrictions on the project, ruling that the university must preserve about 40 percent of the ballroom, including the stage where Malcolm X was slain and the building's original decorative facade.

It also set limits on the level of hazardous materials used at the medical facility.

The plan now goes before the Board of Estimate for final review.

A coalition of community residents and black activists has protested repeatedly against the project, arguing that the ballroom in Washington Heights is a historic site and that any changes would be a desecration of Malcolm X's memory.

They argue that the now dilapidated ballroom should be preserved as a historic landmark and renovated as a memorial to the black leader who was killed as he made a speech there in February 1965.

Columbia contends that the bio-medical research facility will bring badly needed jobs to the community.

And in a compromise backed by the city administration and Malcolm X's widow, Betty Shabazz, Columbia has agreed to save large portions of the ballroom and erect a memorial in the entranceway.

The plan calls for a $25 million research facility across from Columbia-Presbyterian Hospital.

The unanimous vote came at the last session of the Planning Commission, which is being replaced under the revised City Charter.

BOSTON (JUNE 27) UPI - A new blood test that identifies a gene associated with juvenile diabetes should allow doctors to more accurately predict which children may get the disease, scientists said Wednesday.

Researchers at the University of Texas Southwestern Medical Center in Dallas said the test is five times more accurate than existing genetic screens for juvenile diabetes, which affects about one in 200 people in the United States.

However, Dr. J. Donald Capra cautioned that the test can determine only whether a child has a higher than usual chance of developing the disease - not whether he or she definitely will get it.

Juvenile diabetes, also known as insulin-dependent diabetes, occurs when cells that are part of the body's immune system destroy cells of the pancreas, making the organ unable to produce the hormone insulin. With insufficient insulin, the body cannot properly process glucose - frequently leading to such complications as weight loss, kidney failure and blindness.

Using the test, Capra and colleagues found that a gene that appears to offer protection against juvenile diabetes was almost never found among those who had the disease, but was present in more than one-third of people who were free of diabetes.

Among 266 patients with juvenile diabetes, only six had a so-called ''dominant protection'' gene which appears to guard against the development of the disease, the researchers said in The New England Journal of Medicine.

But among 203 people who were in normal health, 74 had the gene. Capra said the finding means children who have the gene are very unlikely to develop juvenile diabetes, which usually appears between the ages of 8 and 16.

In contrast, a gene associated with greater susceptibility to juvenile diabetes was found in 154 of the diabetes patients but only 38 of those without the disease, the study said.

Capra said the research indicates the population can be divided in thirds, with one-third unlikely to develop juvenile diabetes because of genetic makeup and one-third facing a five to 10 times increased risk because of the presence of a susceptibility gene. He said the remaining third fall into a genetic neutral zone, with neither heightened risk nor increased susceptibility.

Because previous research has shown that even an identical twin of a person with juvenile diabetes has only 50-50 chance of developing the disease, Capra said no genetic test ever will be able to predict whether a person will get diabetes with any certainty. He said the fact that a genetically identical twin does not always get the disease means something other genetic makeup is involved.

However, he said the new test can show that a child who has the susceptibility gene and also has a brother or sister or a parent with the disease faces one chance in four or five of developing juvenile diabetes.

As a result, he said it may be advisable for children who have a close relative with the disease to be tested. ''In a family, the results may mean that in one case, you might have a child who you do not need to watch for signs of diabetes, or that you a have a child who does need to be watched. Our experience is that mothers want to know that,'' said Capra, who is associated with the Texas university's Center for Diabetes Research.

Although there is no way at present to prevent the development of juvenile diabetes, Capra said researchers hope that a drug eventually will be developed that will prevent the immune system from turning on itself and destroying pancreatic cells. He said such a drug might be given to a child who is known to have an increased risk for juvenile diabetes at the first signs of the disease, before it damages organs.

#90178u1426 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - Congressional Democrats, saying mismanagement in federal agencies has triggered ''an unprecedented wave of incompetence, fraud and greed,'' Wednesday called for the creation of a select committee to investigate and prevent government scandals.

The lawmakers said a failure by the Bush and Reagan administrations to properly regulate the savings and loan industry, the Department of Housing and Urban Development, and the Pentagon has made it necessary for Congress to establish an oversight process.

''There is something dramatically wrong in government when right under our noses there is a savings and loans scandal that will cost taxpayers hundreds of billions of dollars, when HUD officials shell out billions in grants to their political friends, and when 33 people are now under indictment for defense procurement scams,'' said Rep. Byron Dorgan, D-N.D.

''This is an unprecedented wave of incompetence, fraud and greed,'' Dorgan said. ''The question is what happened, what's wrong, how do we fix it, and more importantly, how extensive is it?''

Rep. Paul Kanjorski, D-Pa., who has introduced legislation to create the Select Committee to Investigate Financial Institutions Fraud, Mismanagement, Oversight and Supervision, said the extent of such problems as the S&L scandal is beyond the resources of any one standing committee in Congress.

Kanjorski said the select committee would be modeled after the panel that investigated the Iran-Contra scandal, and would draw members from several committees, including Banking, Ways and Means, and Judiciary.

''Instead of looking at all these scandals as entirely unrelated, we should be able to get an objective view of how the process has failed us and how we can make it better,'' said Rep. Marty Russo, D-Ill.

#90178u1430 06/27/1990 ~United Press International

EAST BERLIN (JUNE 27) UPI - Preparations for introduction of the West German currency in East Germany are almost complete, East German Finance Minister Walter Romberg said Wednesday.

''Through my visits to numerous banks in the country in the past days I have been convinced that the change of currencies will be achieved smoothly,'' Romberg said at a routine government news conference. The change is scheduled to occur Sunday.

East German banks will open at 9 a.m. Sunday to begin paying out the hard West German currency, the Deutsche mark, to East Germans whose bank accounts for the past 42 years have been denominated in soft East German marks.

The finance minister also rejected speculation that East Germans will shop in West Germany because of an 11 percent import tax the East German government wants to levy on luxury items.

''I can imagine that this might be the case with particularly expensive goods. But with basic consumer goods, this should be no problem,'' he said.

''I hope that consciousness among our people will grow and that they will realize that they have to buy East German goods to protect our jobs,'' he said.

In recent months, East Germans have overwhelmingly rejected the often shoddy or overpriced East German products in favor of imported goods from the West.

Romberg said that East German prices soon would be similar to West German prices, except in areas such as housing, energy and public transport, where the old state subsidies will remain in place through the end of 1990.

He said that for the second half of 1990, subsidies would total $600 million for energy, $1.6 billion for public transport and $4.6 billion for the construction and maintenance of apartments.

#90178u1442 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - U.S. efforts to stamp out Bolivia's coca crop are tripping over a ban on subsidizing foreign crops, congressmen were told Wednesday, prompting one of them to fret that U.S. farmers may be seen as shirkers in the war on drugs. "This is not a position that is going to serve American agriculture well," said Rep. Glenn English, D-Okla.

Administration officials said the conflict over "crop substitution" in Bolivia illustrated the need to change U.S. laws. The Bush administration has proposed language that would allow use of foreign aid money to help other nations increase their farm and manufacturing output as a way to divert people from growing drugs. Currently, money cannot be used to encourage foreign farmers to grow crops that would compete with U.S. crops.

The Agriculture Department successfully objected early this year to a Food for Peace program proposal to assist wheat growers in the Santa Cruz region of Bolivia out of a concern the growers also would produce more soybeans for export. Soybeans are a major U.S. export crop. The Bolivian farmers use soybeans as a rotation crop with their wheat.

According to the Agency for International Development, Bolivia produces an estimated one-third of the coca leaf in the world. The wheat project was proposed as a way to boost economic growth in the Santa Cruz region and lure coca growers out of the mountainous Chapare region.

During a joint meeting of two House Agriculture subcommittees, Democratic members criticized the department for its actions. Republicans questioned whether the crop substitution plan would have worked and suggested their colleagues were overly dramatizing the incident.

"As long as drugs remain the scourge they are to this country, they must be of highest priority, especially when the threat of competition to U.S. farm interests is minimal, as appears the case in this instance," said Rep. Dan Glickman, D-Kan.

"If we cast around for a whipping boy, we can find it anywhere," countered Rep. Ron Marlenee, R-Mont., who said the war on drugs should be waged directly. "Let's not do it on the back of agriculture."

James Lee Adams, chairman of the American Soybean Association, said his group did not lobby the Agriculture Department over the Bolivian proposal. However, congressional auditors said the group "was actively involved in presenting its views" to the department during the time of the conflict.

Congressmen indicated they regarded the contact as routine lobbying. English, however, said he was "amazed, dumbfounded" by the turn of events. "It would be very damaging, indeed, for any commodity group to be seen as shirkers" in the war on drugs, he said.

An AID official, Frederick Schieck, said Bolivia holds far less than a one percent share of the world soybean market and "is likely to remain an insignificant player."

The Agriculture Department said it recently established a task force to study which crops would be the most economic alternative to coca for Bolivian farmers. The study will include soybeans.

"To portray this as a soybean vs. coca issue is to focus too narrowly," said Christopher Goldthwait, assistant administrator of the Foreign Agricultural Service. "(The department) has expressed its desire to help in Bolivia's economic development process. ... We expressed our willingness to revisit the soybean issue."

#90178u1451 06/27/1990 ~United Press International

BELGRADE, YUGOSLAVIA (JUNE 27) UPI - About 500 opposition protesters Wednesday rallied at Belgrade television headquarters to denounce state control of the Serbian media and a referendum abruptly called by the republic's ruling communists in an apparent bid to retain power.

''We may have different ideas about the future of Serbia, but we are all united against the communists,'' declared Vojislav Seselj, the leader of the Chetnik Party, an extreme Serbian nationlist group that is demanding the return of the monarchy.

The boisterous crowd gathered below the high-rise building housing

Belgrade Television, chanting ''The communists lie'' and ''Red bandits'' and waving banners reading ''Serbia wants a free TV'' and ''Everybody pays for TV, but you only give the communists a say.''

About 500 people attended the protest, originally called to demand a free media in Serbia, the largest of Yugoslavia's six republics. But it quickly turned into a general anti-government demonstration, with speakers condemning a referendum set for Sunday and Monday by the ruling communists.

The referendum, first publicized only Tuesday, seeks approval of a communist plan to amend the republic's constitution before holding its first free assembly elections since the end of World War II in 1945.

The plan appears designed to shore up dwindling support for the communists and brighten their election hopes by permitting them to enact a constitution that would eliminate virtually all autonomy for the province of Kosovo.

Kosovo, which borders Albania, is regarded as the birthplace of Serbian heritage. But it has been racked for years by a bloody movement by ethnic Albanians demanding greater self-rule, which Serbs consider a prelude to a declaration of secession.

Yugoslavia's 8.5 million Serbs constitute the nation's largest ethnic group, but there are now only 200,000 in Kosovo, compared to 1.7 million ethnic Albanians.

The opposition is demanding that elections be held before a new constitution is drafted, fearing enactment of a communist-inspired constitution.

Opposition groups have been steadily gaining ground in Serbia on a wave of nationalist sentiment. The sentiment is fueled by the April defeat of communists by nationalist parties in the republics of Croatia and Slovenia in the first free elections held in Yugoslavia since 1945.

The communists contend that the constitution must first be changed because under the current system, Kosovo would have to hold balloting for a new provincial legislature, which could bring pro-secessionist Albanians into power and inspire a declaration of independence.

Opposition leaders point out that recent amendments to the existing constitution give the republic's communist government the power to suspend voting in Kosovo.

Leaders of several opposition parties, appearing at a news conference, denounced the referendum as ''illegitimate'' because it will be run by communist-controlled electoral committees.

''They could have announced the results of the referendum yesterday,'' said Vuk Draskovic, head of the right-wing Serbian Revival Movement.

#90178u1478 06/27/1990 ~United Press International

WIMBLEDON, ENGLAND (JUNE 27) UPI - The final point of Hana Mandlikova's career proved she is right - the time has come to step to the sidelines.

The former winner of the U.S., Australian and French Opens completed her singles career Wednesday with a dispirited 6-3, 6-3 second-round loss at Wimbledon to Ann Henricksson.

On match point, Mandlikova hit her service return to Henricksson's backhand, came to net and then, without movement or regret, watched Henricksson's shot pass her down the line.

''I felt relieved and I felt sad,'' Mandlikova said afterward. ''On the other hand, I felt free. I'll never have to be nervous and never have to practice as hard as I did.''

The winner of more than $3 million in prize money, Mandlikova, 28, was one of the most talented women's players but she lacked the grim determination of Martina Navratilova and Chris Evert. Instead, like Evonne Goolagong Cawley, she possessed the capacity for brilliance but not the mental discipline for consistency.

Mandlikova's interest in a match could vary from set to set or point to point. Against Henricksson, she rarely pursued any ball that was not close to her and, when at net, never ran back for a lob, just turned and watched the verdict of the bounce.

Mandlikova had always prided herself on giving a full effort.

''If you don't try your best at Wimbledon, that's really bad,'' she said.

In 1980, the Czechoslovakia native won the Australian Open and followed that with a French Open triumph in 1981. Clearly, she was capable of joining Evert and Navratilova at the top of women's tennis.

Her smooth strokes, especially a backhand of flowing grace, were likely the finest of any woman playing in the 1980s. Her father was an Olympic sprinter and Mandlikova's athleticism was always evident - rarely caught off-balance, she seemed capable of reaching any shot.

She was a success when she put her mind to it. Mandlikova says the highlight of her career was the 1985 U.S. Open, when she beat Evert and

Navratilova on successive days to win the crown.

''I have never played for the money, I have always played for the titles '' she said, ''and so it's not interesting for me anymore if I know that honestly I cannot win another Grand Slam.''

Grass suited her style of play but Mandlikova could only manage a pair of runners-up finishes at Wimbledon. In reviewing her career, ''the only thing I will regret is not ever winning here, because it has always been my dream since childhood ... the other Grand Slams I have won, but this one is so special to me always.''

At the end, Mandlikova's best memory of Wimbledon was her first, from a juniors tournament.

''My main memory is the first time I stepped here on the grass,'' she said. ''I was so amazed and so scared. I was afraid to even walk on the grass, (thinking) 'I'm going to damage it and somebody is going to say, 'You cannot do this.' I still remember that and then I said, 'Oh, the guys are playing on it, you can too. Don't be afraid.' It was so special.''

#90178u1512 06/27/1990 ~United Press International

(JUNE 27) UPI - Coretta Scott King... the widow of Martin Luther King Junior... was one of many civic and civil rights leaders on hand to greet Nelson Mandela as he arrived in Atlanta this morning. The South African black nationalist stopped over in the Georgia capital en route to Miami, Florida. While in Atlanta, Mandela will lay a wreath at the grave of the slain U-S civil rights leader.

The Supreme Court today narrowly upheld Federal Communications Commission policies that give preference to women and minorities seeking radio and television licenses. Justice William Brennan... writing for the slim 5-4 majority... says preferential treatment for women and minorities is needed to encourage ''broadcast diversity.'' The case involved lower court rulings from Florida and Connecticut.

The Supreme Court upheld U-S Postal Service regulations limiting solicitation on sidewalks on postal property. In a 5-4 ruling in a case from Maryland, Justice Sandra Day O'Connor says the regulations pass what she called ''constitutional muster under the court's usual test for reasonableness.'' At issue was whether a ban on leafletting and fund raising on postal property violated the First Amendment guarantee of freedom of speech.

President Bush readied a call for strengthen economic partnership with Latin America. Bush scheduled an afternoon speech at the White House,

where he's expected to unveil key elements of an economic initiative that includes debt relief, trade and investment for Latin America. The plan wraps up three months of study by the Bush administration.

#90178u1521 06/27/1990 ~United Press International

PARIS (JUNE 27) UPI - Rank-and-file members of the French right-wing political opposition reacted favorably Wednesday to the creation of a U.S.-style primary and convention system to choose a single conservative presidential candidate.

The leaders of France's two largest conservative political groupings, the Rally for the Republic Party and the Union for French Democracy coalition, also agreed Tuesday to create a confederation called Union for France that will pick candidates for all public offices except the presidency.

The creation of the Union for France is an attempt to end the fratricidal wars of recent years among the different components of the French right and to isolate the extreme right-wing National Front Party of Jean-Marie Le Pen, according to French political analysts.

The analysts say that the right lost the 1981 and 1988 presidential races to Socialist Francois Mitterrand in large part because of internal rivalries involving Rally for the Republic leader and Mayor of Paris Jacques Chirac, former President Valery Giscard D'Estaing, the leader of the Union for French Democracy and former Prime Minister Raymond Barre.

Most conservative rank-and-file members Wednesday expressed support for the confederation. Charles Millon, president of the Union for French Democracy group in the National Assembly, called the idea ''a point of departure'' that ''does not prohibit competition between men and programs.''

But Francois Leotard, President of the Republican Party, one of the parties that make up the Union for French Democracy, said the new confederation will not resolve what he called the problems of discipline, credibility, and confidence faced by the right.

''Whatever the circumstances, the confederation will only support candidates sharing the same political and moral values,'' Chirac said, drawing a distinction between most conservative parties and Le Pen's National Front.

A spokesman for Le Pen said the confederation was only an attempt ''to paper over the deep divisions between the Union for French Democracy and the Rally for the Republic.''

In recent years the growing strength of Le Pen's National Front has deeply divided the right between those who urge co-operation with Le Pen to beat left-wing candidates and those who refuse any compromise even at the risk of losing elections.

Earlier this month, Grenoble Mayor Alain Carignon was suspended from the Rally for the Republic for urging voters to support the Socialist Party candidate against the National Front in a local by-election.

Under the new plan, a commission made up of members of the two conservative parties will choose candidates for public office.

The conservative candidates for the presidency will be picked through a system of U.S.-style primaries culminating in a national convention, with the losing aspirants having previously committed themselves to supporting the winner against Socialist, Communist and other party candidates.

Local officials and members of the two large conservative parties will make up the delegates to the convention that will choose the presidential candidate. The number of pre-convention primaries and how they will be organized remains to be worked out, party officials said.

#90178u1532 06/27/1990 ~United Press International

PHILADELPHIA (JUNE 27) UPI - The owner of a finger bowl auctioned off recently to a White House agency has made a tidy profit.

The White House Historical Association, a non-profit agency that publishes educational material, paid $6,000 for the antique, whose owner bought it for $20 in 1971, the Philadelphia Inquirer reported Wednesday.

The agency will return the bowl to the White House which originally acquired the bowl in 1861 when Abraham Lincoln was president.

The bowl was sold for only $20 in 1971 because the seller thought it dated back the early 1900s when Theodore Roosevelt was president, the Inquirer said.

Roosevelt gave the bowl to a relative who lived in Ambler and the bowl had remained in the area until the June 16 auction at the Ludwigs Corner firehouse,

The seller of the bowl was not identified.

The purchase by the White House agency was part of an ongoing effort to reclaim household furnishings that administrations had discarded until Congress banned the practice in 1961.

#90178u1534 06/27/1990 ~United Press International
ROME (JUNE 27) UPI - West Germany sustained its first loss of the World Cup Wednesday, and it's a big one.

FIFA suspended star striker Rudi Voeller for the quarterfinal against Czechoslovakia Sunday in Milan because of the red card he received in the last match against Holland.

Voeller and Dutch defender Frank Rijkaard were both ejected but the West Germans protested because they didn't believe Voeller's red card was warranted. They also protested the yellow card given midfielder Lothar Matthaeus. FIFA's disciplinary committee stood firm on the decisions, and West German Coach Franz Beckenbauer did not appeal.

Rijkaard received a stiff three-match suspension for Holland's next international appearances.

Voeller, who has scored three goals in the tournament, will probably be replaced by Karlheinz Riedle.

Wednesday was the first of three rest days for the World Cup quarterfinalists. The Irish team spent the day looking for divine intercession entering its match Saturday in Rome with World Cup co-favorite Italy.

The team attended a general audience with Pope John Paul II at the Vatican. After the audience, attended by more than 10,000 pilgrims and tourists, the pope shook hands with those in the Irish delegation.

John Paul felt a special bond with Pat Bonner, regarded as the most devout Catholic on the team and dubbed ''God's Goalkeeper'' by the Irish press.

''You're the goalkeeper,'' the pope said upon meeting Bonner. ''I was a goalkeeper too when I was young.''

When the pope was introduced to Coach Jack Charlton, an English Protestant he said: ''Oh yes, the boss.''

Charlton, a member of the 1966 World Cup champion England team, has taken Ireland farther than expected in the republic's first appearance in the World Cup finals.

The team's inability to score in the first round and its penalties victory over Romania after completing extra time 0-0, however, is evidence Ireland will have trouble against Italy. The Italians haven't yielded a goal in

four matches and are unscored upon since last Oct. 15.

Italy seems to have solved its scoring problems since inserting strikers Salvatore Schillaci and Roberto Baggio into the lineup. Schillaci has been a big star of the World Cup with three goals. Gianluca Vialli, Italy's top striker entering the tournament, has missed the last two games because of a thigh injury. He also missed training Wednesday because of a slight fever and a sore throat.

West Germany, the other co-favorite, and Czechoslovakia are both healthy entering their quarterfinal. The teams met in a warmup about two weeks before the World Cup, and West Germany dominated the match. The Germans kept the ball in the Czechoslovak end at will and won 2-0.

Czechoslovakia, led by five-scorer Tomas Skuhravy, has played well against teams on its own level this tournament, but in its toughest match against Italy, the disparity in talent showed.

Even without Voeller, West Germany is loaded with explosive players. Matthaeus has three goals and Juergen Klinsmann has two.

Cameroon has four times the problems of West Germany. Four Redoubtable Lions will serve match suspensions Saturday against England because they all have received two yellow cards of the tournament.

England has steadily improved its play and the time could be ripe for the English to eliminate the tournament's surprise team. England became the eighth quarterfinalist when substitute David Platt scored seconds before extra time expired to beat Belgium 1-0.

That goal will probably earn the Aston Villa midfielder a start against Cameroon in Naples.

''There are 21 players here in the squad but only 11 can play at once,'' Platt said. ''I'll just have to wait and see if I'm picked against Cameroon.''

Defending champion Argentina, which has avoided elimination from the start of the tournament, meets Yugoslavia Saturday in Florence. The opening loss to Cameroon is a distant memory and Argentina enters this match with renewed confidence after beating Brazil 1-0 despite being totally outplayed.

''We're playing for the honor of South America,'' said Argentine star Diego Maradona, referring to the fact Argentina is the only one of four South American teams remaining.

#90178u1547 06/27/1990 ~United Press International
WASHINGTON (JUNE 27) UPI - The Supreme Court upheld Wednesday Arizona's capital sentencing laws and ruled that states are free to define and structure their own system of aggravating factors that give a judge guidance and discretion to impose the death penalty.

The court, in ruling on two separate but related cases from Arizona, rejected arguments by two convicts who charged that the state's sentencing laws involving statutory aggravating circumstance - that the crime was "especially heinous, cruel, or depraved," warranting the death penalty - limits a judge's sentencing discretion in imposing capital punishment.

In a 5-4 ruling delivered by Justice Byron White, the court rejected arguments by murderer Jeffrey Walton that his death sentence be overturned because the state did not distinguish his case from others in which death was not imposed.

"Recognizing that the proper degree of definition of an aggravating factor of this nature is not susceptible of mathematical precision, we conclude that the definition given to the especially cruel provision by the Arizona Supreme Court is consitutionally sufficient because it gives meaningful guidance to the sentencer," the court said.

The court also rejected Walton's arguments that Arizona's laws violate the Eighth and 14th Amendments by requiring courts to impose the death penalty when the government proves at least one aggravating circumstance and the defendant does not prove any mitigating circumstances - such as self-defense - that may spur the judge to be lenient and instead impose life imprisonment.

In the other case, murderer Jimmie Wayne Jeffers charged that Arizona's death sentencing laws were cruel and unusual because they were imposed arbitrarily and capriciously.

He said the court had not defined "especially heinous or depraved" in such a way that there was a substantial difference between capital offenders who are sentenced to death and those who are not. The appeals court vacated Jeffers' death sentence, saying the "especially heinous" provision was unconstituonally vague.

The high court, in a 5-4 ruling issued by Justice Sandra Day O'Connor, reversed the lower court and remanded the case. The justices said that "given the evidence that while Jeffers was beating the victim he called her a bitch and a dirty snitch ... we think the Arizona Supreme Court's finding that (Jeffers) relished the killing is one that a rational factfinder could have made."

Jeffers, a heroin addict, was convicted of killing his former girlfriend because he suspected she gave information to the police. A witness watched as Jeffers injected the girl with heroin, strangled her, and beat her.

In the other case, Walton was sentenced to death for murdering a Marine on leave in the desert outside of Tuscon in 1986. He and two others robbed the Marine and Walton shot him in the head, then drove away assuming he was dead. The Marine, Thomas Powell, regained consciousness but got lost in the desert for about a week before dying from exposure and pneumonia.

#90178u1553 06/27/1990 ~United Press International

ROCHESTER, NY (JUNE 27) UPI - Police investigated dozens of telephone tips Wednesday hoping for leads in a $10.8 million cash heist from an armored car.

The two guards held up by a shotgun-toting bandit Tuesday while they stopped for coffee were not considered suspects, police said. It was the second largest armored car robbery in U.S. history.

FBI agents and detectives from the Monroe County Sheriff's Department worked in teams chasing down telephone leads and interviewing witnesses and employees who may have seen something in Tuesday's heist of an Armored Motor Services of America truck in the suburb of Henrietta.

The armored truck guards, a man and a woman, were accosted by the shotgun-wielding robber who forced them to drive the truck to a remote area where they were tied up and blindfolded.

The gunman was apparently joined by an accomplice, and the two loaded the 1,600 pounds of cash into a van and escaped.

The guards were not injured. They later freed themselves and returned to their headquarters. Their names were not released.

Sheriff's Lt. Michael Broida said police had received ''about 50 telephone tips'' from citizens in their efforts to break the case. He said the two guards, who were given lie detector tests, were not suspected to have taken part in the caper.

''We did question them and both have been released,'' Broida said. He said the possibility of the heist being an inside job ''is being investigated, as well as any other possibility.''

''There is nothing at this point that leads us in that direction,'' he added.

The gunman held up the guards after they had stopped at a convenience mart for coffee on their way to the Federal Reserve Bank in Buffalo. A spokesman for the armored car company said the coffee stop made the truck more vulnerable, but was not against company policy.

''There is no prohibition against stopping,'' AMSA controller George Clark said. ''It is strongly disciuraged from a security standpoint.''

Police said the robbery appeared to be well planned, and that the two guards could not identify the robbers because they were told not to turn around.

James Aston, vice president and branch manager of the Federal Reserve Bank in Buffalo, said the branch supplies money to banks throughout the region. He said $10.8 million ''was not an extraordinary figure'' for an armored car to be carrying.

The largest armored car heist in the United States occurred in the Bronx, Dec. 12, 1982, when $11 million was stolen from Sentry Armored Car-Courier.

OTTAWA (JUNE 27) UPI - Canadian independent truckers threatened Wednesday to set up blockades at U.S. border points during the coming Canadian holiday weekend to force officials to address their grievances, a government spokesman said.

Helene Ouellet, spokesman for federal Transporation Minister Doug Lewis, said the truckers, who set up a similar blockade in May, made the threat at a meeting with government officials but refused to discuss their grievances.

''They had a list of complaints and they said, 'Fix it by tomorrow or there'll be another blockade,' but they wouldn't give us the list,'' Ouellet said.

Lewis told reporters he would not be able to address the concerns of the

independent truckers.

''(Last month) I made a committment to examine what I could examine as a federal minister. I've done that,'' Lewis said. ''They wanted to further those discussions, bring up new ideas and have me turn handsprings overnight and I can't do that. They would put a blockade in force in 48 hours. Well, I'm sorry, I'm just not able to respond in that manner.''

The independent truckers were meeting privately to discuss their plans. This weekend is a long weekend in Canada, celebrating Sunday's observance of Canada Day, the nation's 123rd birthday.

Independent truckers last month choked traffic for several days at border crossing points in Quebec, Ontario, and British Columbia, costing an estimated millions of dollars in lost business and forcing the auto industry to lay off workers because of a lack of parts.

The truckers were angry that U.S. truckers and firms hauling freight into Canada can undercut rates because of lower taxes and cheaper fuel, insurance, repair and financing costs.

Oullet said Lewis announced Wednesday that an investigation concluded that federal taxes weren't a ''significant factor'' in fuel price differences between Canada and the United States.

Lewis also said that Canadian trucking has grown rapidly in recent years, leading to an ''overabundance'' of truckers which has outstripped demand for their services.

Government officials met separately Wednesday with a group of independent truckers and a group of Teamsters union representatives.

The Teamsters group agreed to join a government task force that will meet in August to examine problems in the trucking industry, but the independent truckers balked.

Among the independents at the meeting was Wayne Whitney, a Windsor, Ontario, trucker who organized the blockade last month at the Ambassador Bridge between Windsor and Detroit.

Employment and Immigration minister Barbara McDougall said in a statement Wednesday there is a crackdown under way on ''cabotage'', in which truckers who are not Canadian citizens or permanent residents pick up goods in Canada for movement to another point in the country. McDougall said such an offense is punishable by up to six months in jail and the equivalent in Canadian money of a $1,700 fine.

#90178u1566 06/27/1990 ~United Press International
LONDON (JUNE 27) UPI - Trading in shares on London International stock exchange was uneasy Wednesday as the markets were reacted to possible tax increases in the U.S. to help cut the budget deficit, analysts said.

The Financial Times Stock Exchange 100-share index closed at 2,373.5 points, down 26.3 points. The narrower Financial Times 30 index stood at 1,902.6 points, down 24 points. Volume was a modest 389 million shares, compared with 461.2 million.

Traders said prices were vulnerable in the absence of incentives from other sources which may have alleviated the effect. The schedule of updated U.K. indicators is particularly thin, they said.

Analysts said they did not think the markets would test the 2400 points mark on the FTSE 100 index again this week.

Much of the day's trading centered around company news with a profit warning by Burton affecting the clothing retail business sector. Burton's shares dropped 26 cents to $2.56, Kingfisher were down 22 cents to $6.10, and Marks and Spencer lost nine cents to $4.11 in sympathy.

Fears that the alcoholic beverage sector would be a prime target for the U.S. taxman sent Grand Metropolitan shares down 31 cents to $11.05 and Allied-Lyons shares down 17 cents to $8.60.

British Aerospace fell nine cents to $9.33 as the European Commission ordered the company to repay all the subsidies it received from the British government in the deal to buy the Rover car company in 1988.

On the upside were Mecca who was up seven cents to $1.51 as the leisure company recommended acceptance of the bid offer from the Rank Organisation whose own shares fell two cents to $14.85 after being 19 cents higher.

#90178u1573 06/27/1990 ~United Press International
WASHINGTON (JUNE 27) UPI - A Senate panel approved Wednesday a controversial food safety bill intended to keep cancer-causing pesticides off crops but agreed to continue discussions with the Bush administration to iron out differences.

The legislation, passed on a voice vote by the Senate Labor and Human Resources Committee, would establish a ''negligible'' or acceptable risk standard to regulate pesticides in food. Under the standard, the Environmental Protection Agency would not allow pesticides to be used on agricultural crops if they posed at least a one-in-a-million risk of

causing cancer.

''This negligible risk standard is based on a National Academy of Sciences standard,'' said Sen. Edward Kennedy, D-Mass., committee chairman.

The bill does not include a federal pre-emption clause that the administration has been seeking. The administration feels pre-emption would eliminate a patchwork of differing state laws on the matter.

But the U.S. Public Interest Research Group contends a uniform standard would pre-empt the right of states to set stricter food safety standards than the federal government standard.

Kennedy, saying the bill has been scheduled for a committee vote four times previously, insisted on voting the bill out of committee Wednesday. But he promised to continue discussions with the White House to try to achieve a consensus before the bill reaches the Senate floor.

#90178u1579 06/27/1990 ~United Press International

NEW YORK - Three waterway development projects totaling $300 million helped raise the total of May new construction nationwide 6 percent over April, but the year to date is still running nearly 10 percent less than 1989, F.W. Dodge reported Wednesday.

''May's firmer rate of contracting brought current construction activity back to the level that prevailed during the first quarter,'' said George Christie, vice president and chief economist of the McGraw-Hill division.

''It appears that the recent slide of construction contracting may be stabilizing at about 10 percent below last year's value,'' he said.

Despite the rise in May, total 1990 contracting to date remained 7 percent less than a year ago - $97.3 billion vs. $105 billion - with the biggest decline being the 24 percent drop in the Northeast, the construction-data service said.

The North Central and South regions showed five-month declines of 5 and 10 percent, respectively, while the West remained at the same level, it said.

In May, ''nonbuilding'' public works and utilities' construction was up 12 percent over April to its best level so far in 1990, Dodge said.

Nonresidential building contracting advanced 6 percent while residential construction rose 4 percent during the month, it said.

Dodge identified the three waterway projects as U.S. Corps of Engineers'

lock/dams being built in Oregon, West Virginia, and Pennsylvania.

#90178u1610 06/27/1990 ~United Press International

CHICAGO (JUNE 27) UPI - Forecasts for hot weather in the central part of the nation through the weekend supported corn and soybean futures Wednesday on the Chicago Board of Trade.

The market made session highs about midday, but gave up most of the gains to profit-taking and liquidation during the closing prices of trading.

December corn made a contract high of $2.88 3/4 per bushel in active trading, while November soybeans rallied to $6.39 1/2 which was the high for the week.

Both corn and soybeans were supported by predictions of 90-degree weather at least through Sunday over much of the Grain Belt.

Reports the Soviet Union was interested in buying soybean meal from the United States contributed to the strength in the soy complex.

Some positioning was evident ahead of the acreage and grain stocks reports to be released Thursday afternoon.

Wheat was fractionally lower, but had underlying support on reports of wheat sales to China, Japan and South Korea.

Basis levels were mostly steady.

At the close, corn was up 1 1/4 to off 1/2, soybeans unchanged to up 1 1/2 wheat down 1 to up 1/2 and oats unchanged to off 1 1/4.

#90178u1618 06/27/1990 ~United Press International

LINCOLN, NE (JUNE 27) UPI - Bidders seemed reticent as 20 planes valued at more than $50 million were wheeled before them Wednesday, but organizers were generally pleased with the world's first-ever auction of executive aircraft.

Five of 20 planes auctioned at Duncan Aviation Wednesday sold for a total of $7.9 million. Another two were sold under contract, which brought the total sale to more than $20 million, said John L. Marion, chairman and chief auctioneer of Sotheby's, North America.

The auction was a joint venture between Duncan and Sotheby's. It was the first time executive jets were sold at auction, which was considered an experiment for the aviation industry. Marion said that may have contributed to some hesitency by the bidders.

"This was a very innovative sale," he told reporters after the 45-minute event. "This process was a new one for a lot of people in the audience. We just have to give them a little more practice."

Despite the quietness of the bidders, Marion said: "We are happy with the number of transactions." However, the results of the auction will be reviewed to determine whether such an event would be staged again, he said.

J. Robert Duncan, president of Duncan Aviation, said he is hopeful there will be similar auctions at Duncan, a world-recognized leader in business aviation. "I'm enthused about the whole idea. There is a market for this kind of thing," he said.

The 20 jets were wheeled before about 500 spectators, including some 70 bidders - buyers, dealers, and business aircraft owners from across the United States and some foreign countries.

The planes put on the auction block included ten Learjets, with a Learjet 55C estimated to sell for $5.7 million to $6.4 million, two Gulfstream IIs estimated at $4.6 million to $5.2 million each, a 1977 Westwind 1124, estimated at $1.9 million to $2.2 million, and several turboprop aircraft with estimates ranging from $300,000 to $1.2 million.

The jets sold at the auction included a 1982 Learjet 35A for $2.5 million; a 1980 Piper Cheyenne I for $309,750; a 1980 Learjet 25D for $806,000; a 1981 Learjet 35A for $2.1 million and a 1980 Westwind 1124 for $2.2 million.

The two jets that sold privately were a 1988 Canadair Challenger 601-3A

with an estimated value of $14 million to $15 million and a 1977 Learjet 24E with a value of $550,000 to $700,000. Marion declined to disclose the specific selling price of the planes sold on contract.

Marion started bidding on each plane by shouting out a figure that was about 80 percent of the estimated value. Planes were not sold when the bid was not close enough to the estimated value. The unsold jets were returned to the consigners and will continue to be marketed, Duncan said.

Sotheby's is the world's largest auction house specializing in the sale of fine art and antiques. Marion said he thought the auction featuring planes went "remarkably smooth."

The auction was the idea of Duncan, who commissioned Sotheby's to auction the business jets at Duncan headquarters. "This is a first for business aircraft where we've collected a whole group of high-quality business aircraft," Duncan said Tuesday. "There is the ability to come to one place and see 20 planes at one time and the ability to buy at fair market value."

David Collogan, editor of The Weekly of Business Aviation, in Washington, said the auction's impact on the industry would depend on the outcome of Wednesday's auction.

"I don't know whether it's going to make a great and everlasting change because it is costing a lot of money to put this thing on," Collogan said. "This is all very first class and obviously expensive." Collogan said aircraft auctions around the country offer only single-engine and twin-engine aircraft.

Another industry observer, Fred George of Flying magazine, said the auction's most important function would be to establish fair market value for the aircraft.

#90178u1626 06/27/1990 ~United Press International

DETROIT (JUNE 27) UPI - A non-profit environmental group Wednesday charged General Motors Corp. led the industry lobby in spending over $2.8 million since 1981 to block strong, effective federal Clean Air legislation.

The Public Interest Research Group in Michigan cited reports filed with the Federal Election Commission showing the giant automaker spent more than $1.8 million in lobbying Congress against revision of the Clean Air Act from 1981 through April 1990.

GM's Political Action Committee also made over $1 million in contributions to congressional campaigns during that same period, the Ann Arbor, Mich., group said.

PIRGIM has started collecting signatures to urge congressional leaders and President Bush to pass a strong, effective Clean Air Act. More than 160,000 signatures are expected to be collected nationwide within the next two weeks.

The House and Senate Clean Air bills are expected to go to conference committee this summer for final reconciliation before being sent to Bush for signing.

"For more than a decade, GM has deployed a fleet of high-priced lobbyists to oppose lower toxic emissions standards," said Andy Buchbaum, PIRGIM's program director. "We're calling on GM to get back on track with Clean Air."

"There are several versions of the Clean Air act now in Washington, and some are a lot stronger than others," PIRGIM spokesman Karen DeCamp said. "GM has generally supported the weaker compromises that makes it impossible to bring air quality back within health standards."

GM spokesman William Noack, who noted PIRGIM made the same allegations last summer, said the money spent by the automaker on lobbying was to "represent our interest in this argument to our elected officials.

"What we have said is that we have been working for legislation that promotes clean air without the unneeded disruption of the economy," Noack said from GM's Washington D.C. office. "GM has supported more stringent standards in the most recent clean air debate, including tighter tailpipe standards, tighter rules for evaporative emissions, and a workable alternative fuel program."

Yet industry analysts say automakers in general have had to be virtually forced into meeting most federal standards, including ones on emissions, safety and fuel efficiency.

"We were forced to invent our way into compliance in the 1970s," Noack said, noting that GM pioneered the development of catalyst technology that has brought about reductions of 96 percent of exhaust emissions since then.

"No other industry has made as much progress in controlling emissions from their products, and we've got a record to be proud of," he said. "Unfortunately... we have picked all the low hanging fruit and achieving further gains will be costly."

Like other automakers, GM opposes federally mandated sales of alternative fuel vehicles, that would most likely run on a blend of methanol and gasoline. Automakers must now sell a combined 300,000 alternative fuel cars a year by 1997 in California, Noack said. "Mandated sales are very

difficult to do," he said. "You have to have some kind of incentive," he said.

BONN, WEST GERMANY (JUNE 27) UPI - The border dividing East and West Germany will almost dissolve Sunday, allowing Germans to freely cross the border for the first time since World War II ended, officials said.

West German government spokesman Hans Klein said Wednesday the government had ratified an agreement with East Germany that guarantees Germans free and uncontrolled passage across the inner-German border.

Two hundred people have died along the border, many trying to escape communist rule, Klein quoted West German Chancellor Helmut Kohl as saying. Many successfully escaped from East to West, as well. And the dividing line, which has separated Germany for 46 years, recently has been the locale of emotional reunions between families separated by the Iron

Curtain.

The border-passage agreement goes into effect Sunday to coincide with the start of economic union between the countries. The West German mark will be introduced in East Germany that day.

The Bundesrat, the council of West German state, still will need to give formal approval to the border agreement.

Interior Minister Wolfgang Schaueble and his East German counterpart Peter-Michael Diestel are due to sign the agreement July 1.

Meanwhile, the East and West German Social Democratic parties Wednesday strongly rejected suggestions that general elections be held in the two states before unification.

Party officials in Bonn said the suggestion amounted to ''a two-class electoral system'' and paved the way for electoral manipulations.

Schaeuble Tuesday said East Germany should join West Germany's federal republic immediately after the two states hold separate general elections.

A consensus is emerging in both Germanys to hold elections - and complete the process of unification - by December.

Kohl has proposed Dec. 9 as a date for all-German elections.

But East German officials have indicated there may be some delays.

A government spokesman said one of the priorities Germany now faces is re-establishment of the five former East German states, abolished in 1952 by the Communists to centralize power.

But he said that because of organizational problems, elections in the five states will not be held Sept. 23, as originally planned.

''State elections can be held in October at the earliest,'' the spokesman said.

WASHINGTON (JUNE 27) UPI - The Interamerican Development Bank announced Wednesday a $330 million loan to help Mexico finance an investment program in the country's electricity sector.

The two-year program, to be carried out by the Mexican Federal Electricity Commission, will have a total price tag of $5.88 billion, the IDB said. The loan will be use to finance equipment and material for transmission and distribution works and for power plant rehabilitation, the IDB said.

CAPE CANAVERAL, FL (JUNE 27) UPI - Engineers made final preparations Wednesday to pump liquid hydrogen rocket fuel aboard the shuttle Atlantis Thursday to make sure no leaks are present like the one that grounded Columbia last month.

The critical test was scheduled to begin around 4 p.m. EDT Thursday, weather permitting, when supercold rocket fuel begins flowing through Atlantis's three main engines and into its giant external fuel tank.

Top NASA managers were on hand for the unusual test, which was scheduled for the first day of a flight readiness review to clear Atlantis for launch around July 15 on a classified military mission.

Assuming no leaks are found, Atlantis and its five-man, all-military crew will be cleared for launch to ferry a secret Pentagon payload into orbit. But if a leak like Columbia's shows up, NASA's shuttle launch schedule would be faced with a major disruption.

Columbia's launch last month on a 10-day astronomy mission was called off when sensors detected explosive hydrogen gas spewing into the ship's engine room during fueling six hours before the planned May 30 liftoff.

After extensive tests, engineers traced the leak to somewhere inside a massive 17-inch-wide ''disconnect'' fitting where the fuel line enters the belly of the orbiter. The disconnect fitting allows the line to come apart in space so the tank can be jettisoned.

Columbia was hauled off the launch pad and taken back to its hangar for inspections and tests to pinpoint the precise location of the leak.

A critical 17-inch valve assembly on the tank side of the fitting passed a series of tests over the weekend, prompting NASA managers to order Columbia's disconnect hardware removed and replaced with a valve assembly built for the new shuttle Endeavour.

If all goes well, Columbia could be ready for another launch try as early as Aug. 12.

#90178u1730 06/27/1990 ~United Press International
OAKLAND, CA (JUNE 27) UPI - Jose Canseco, the gifted yet unpredictable Oakland Athletics superstar, Wednesday signed the highest-paying contract in baseball history for $23.5 million over five years.

Canseco's signing bonus of $3.5 million combined with his current contract of $2 million makes him the first player in baseball history to make $5 million in a single season.

''When I signed the contract, I felt like I was getting married again,'' Canseco said. ''The money that they are paying me has been dictated by the market and the bare facts of what I have done for the A's.''

Agreed A's Vice President of Baseball Operations Sandy Alderson: ''It reflects his ability as a player and the dramatic change in the marketplace the last year.

''The contract, and our commitment to Jose, reflects another step in our goal of remaining competitive into the 1990s.''

Canseco has contributed greatly to Oakland's rise from mediocrity to a two-time American League titlist and defending World Series champion. He accomplished baseball's first 40 homer-40 steal season in 1988 and averaged over 30 homers and 113 RBI from 1986-88.

Trouble began, however, in 1988 when baseball columnist Tom Boswell suggested on a nationally televised talk show that Canseco was using steriods. The charge was never proven but it cost Canseco at least two high-profile endorsements.

Last season, Canseco ran afoul with the law for operating his vehicle at high speeds and for carrying a loaded handgun. On the field, he was sidelined for half the season with a hand injury but still managed to hit 17 homers and drive in 57 runs in 65 games.

''I think the A's took into consideration what I can do on the field,'' Canseco said. ''And not what I do off the field. People come to the park to see Jose Canseco play baseball.''

Canseco and Alderson feuded during the offseason wrangling over his 1990 contract. The A's hitting star accused Alderson of taking ''cheap shots'' at him by bringing up Canseco's highly publicized off-the-field troubles. The sides finally agreed on a $2 million contract for this season.

''Those are not carried over to our personal lives,'' he said of the dispute. ''Business is business. Negotating tactics are negotiating tactics.''

The hassle made Canseco, who is batting .313 with 20 home runs and 50 RBI this year, consider leaving the A's, even hinting that he may try to catch on with the New York Yankees when he became eligible for free agency after the 1991 season.

Canseco's new contract is expected to make him baseball's richest player, surpassing Yankees first baseman Don Mattingly, who has a five-year deal worth $19.6 million.

It may also disgruntle fellow A's star Rickey Henderson, who would likely ask the A's to renegotiate his contract.

''If it comes like I hear it's coming, it's going to mean a lot to me. It's going to mean a lot to my pride in playing this game,'' said Henderson, who has already complained about the rash of big contracts that came after he signed a four-year $12 million package last November.

''He's going to sign that contract, then I'll probably feel that I'm way underpaid, that I deserve more.''

Henderson said he turned down an offer of $2 million more from the Los Angeles Dodgers to sign with the A's.

However, Alderson said he had discussed what the A's were going to offer to Canseco with Henderson.

''I talked with Rickey myself, he is aware of what we are giving Jose,'' Alderson said. ''We also told him how this relates to him and he understood.''

For his part, Canseco seemed unconcerned about his teammates' reactions.

''For the players, it's a great win,'' he said. ''Once you drive salaries up, it makes it easier for other players to get better contracts.''

Canseco's pact makes the A's payroll the highest in the league and that worries Alderson. Henderson has a $3 million-a-year pact while pitcher Dave Stewart is in the range of $2 million a season.

''There is no question our payroll is getting to the point of some limitations,'' Alderson said. ''We were seventh or eighth in the league before this contract and now we are either first or second by some distance. I feel we have been one of the best teams in the majors the last years. And we are taking steps to remain as competitive as possible for as long as possible. But we are also going to try to maintain the team's (economic) viability in Oakland.''

(JUNE 27) UPI - Armies of police and throngs of cheering onlookers lined Atlanta's famed Auburn Avenue this morning for the motorcade of Nelson Mandela . Most businesses along the street closed to honor the South African activist. Mandela is scheduled to fly to Miami, Florida, later today.

The one and one-half-BILLION-dollar Hubble Space Telescope apparently is out-of-focus, and researchers suspect a problem with its high-tech mirror system. Engineers at Goddard Space Flight Center in Greenbelt, Maryland, conducted tests during the past few days to focus the telescope's optical system. NASA says the situation indicates a major problem. The Hubble telescope was launched last April from the space shuttle Discovery.

The Commerce Department says the Index of Leading Economic Indicators rose eight-tenths of one percent in May, attributed in part to a revival in manufacturing. Private analysts had predicted the jump in the index, which indicates future economic activity. But a Chamber of Commerce analyst says his findings show that consumers are becoming pessimistic, leaving future economic growth in doubt.

Another series of aftershocks in Iran. The nation's official news agency says seismologists recorded a cluster of tremors overnight in the northwest. At least 350 aftershocks have hit the area since last week's

devastating earthquake. The agency also says rescuers found a woman and her son alive beneath the rubble of a village yesterday... although hopes have all but faded for finding any more survivors.

#90178u1740 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - President Bush signed legislation Wednesday to establish the 7,369-acre Petroglyph National Monument outside of Albuquerque, N.M., to protect ancient Pueblo Indian and Spanish rock carvings.

The legislation also authorizes expanding the 365-acre Pecos National Monument in Pecos, N.M., into the 5,865-acre Pecos National Historical Park.

''I wholeheartedly support the measures ... because they will ensure the protection of rich and natural cultural resources within the state of New Mexico that are now seriously threatened,'' Bush said in a statement.

The government will contribute $58 million for establishment of the Petrogylph National Monument, with the state of New Mexico and the city of Albuquerque covering the rest of the $90 million cost.

The area contains 15,000 to 17,000 petroglyphs, designs carved into the rock.

Sen. Pete Domenici, R-N.M., chief sponsor of the legislation first introduced in 1988, said: ''This is a great and historic day for Albuquerque, and all of New Mexico.''

He said, ''I am extremely pleased that the petroglyphs will have the protection that they so despeately need to prevent further vandalism and destruction.''

#90178u1745 06/27/1990 ~United Press International

NEW YORK (JUNE 27) UPI - Women are finding it increasingly hard to obtain abortions in rural America, sometimes traveling hundreds of miles as facilities decrease sharply, a survey reported Wednesday.

The abortion facilities that are available are frequently subject to demonstrations and patients are often harassed and embarrassed, the report said.

Between 1985 and 1988, such facilities declined 19 percent in rural areas, said the survey by the Alan Guttmacher Institute.

There are no abortion providing facilities at all in 83 percent of U.S. counties, the report by the independent, nonprofit research group said.

While the total number of abortions remained steady nationwide at just under 1.6 million per year, the loss of facilities and medical personnel pose health risks for women who might delay or forgo getting services, the report said.

''The AGI surveys have shown that gaps in service caused by the unwillingness of most hospitals and physicans to perform abortions have been partly filled by freestanding clinics and by a few private physicians who perform the procedure in their office,'' it said.

The reported added, however, ''in many geographic areas, women live dozens or even hundreds of miles from the nearest abortion provider.''

Alice Kirkman, spokeswoman for the National Abortion Federation in Washington, D.C., commented, ''We're very concerned about the trend. This seems to verify what we had heard anecdotally from our membership throughout the country,''

The number of rural abortion facilities has fallen by 51 percent to 2,582, since its peak in 1977, the report said.

There also were sharp drops in state abortion rates of 25 percent or more in six states with already low rates - Alaska, Idaho, New Hampshire, South Dakota, West Virginia and Wyoming.

In those states, physicians or clinics that had been major abortion service providers retired or closed, the report said, citing the retirement of a South Dakota physician who had been one of just two doctors willing to perform abortions.

In Minnesota, where the AGI survey found 13 doctors who perform abortions, the only clinic in Duluth is swamped, with many women driving all day to reach it from neighboring states, the clinic's executive director said.

''I had a woman come in the other day from Michigan's Upper Penninsula,'' said the Women's Health Center executive director, Tina Welsh.

''She drove seven hours down to Appleton, Wis., and there were so many picketers there, she was too frightened. So the next day she drove five to six hours further to Duluth so she could get an abortion.''

The woman was in her early 20s and traveled alone, Welsh said.

''None of the local doctors will touch these women with a 10-foot pole,''

she said, adding that her clinic has lost many doctors who feared negative publicity might hurt their private practices.

''Harassment is a major problem'' for rural facilities, the report's co-author Stanley Henshaw said in a telephone interview.

''Our findings clearly show that access to abortion which was already a tremendous problem for women living outside of the metropolitan areas of our country, is getting worse, even without additional state restrictions that may result from any new legislative activity,'' he said.

Louisiana legislators on Tuesday approved a virtual ban on abortions, although it is not likely to survive the governor's promised veto.

On Monday, the Supreme Court upheld Minnesota's and Ohio's parental notification requirements for minors seeking abortions.

#90178u1753 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - The administration emphasized that a record number of poor women and children will be helped by the WIC program this year, but members of a House task force said a money crunch is forcing people off the rolls.

''This program faces a dire crisis,'' Rep. Barbara Boxer, D-Calif., said at a meeting held one day after WIC supporters said up to 280,000 people would be dropped from the program because of unexpectedly high food costs.

The Agriculture Department, which runs the government's public feeding programs, has reallocated $11 million to partially counter the shortfall in funding. However, a spokesman said the department would not ask for additional money for the Women, Infants and Children program.

Betty Jo Nelson, head of the department's Food and Nutrition Service, told a House Budget Committee task force that WIC would serve a record 4.4 million women and children this year although ''some states will experience caseload declines.''

Nelson said despite recent economizing, the program would continue to serve high-priority pregnant women and breast-feeding mothers and high-priority infants.

''In all but one or two states, new applicants are being added to the program rolls,'' she said in a statement.

WIC provides supplemental food, health care referrals and nutrition education to low-income pregnant women, new mothers and children up to age

5. Due to limited funding, WIC serves about 60 percent of the eligible women and children.

Robert Greenstein of the Center for Budget and Policy Priorities said a survey completed in the past few days indicated 27 states were reducing their WIC caseloads and up to 280,000 people could be cut from the program from March through September.

''The situation now is even worse than we first thought,'' said Rep. Tony Hall, D-Ohio, chairman of the House Hunger Committee.

Boxer, who chaired the hearing, said the shortfall, estimated to run as high as $73 million, meant thousands of people were being cut from the program or would see a reduction in benefits.

''This ($11 million) reallocation isn't nearly enough,'' Boxer said.

The WIC program was allotted $2.16 billion for this fiscal year.

Supporters said there could be additional funding shortages later this year because manufacturers of infant formula are reducing the size of rebates given to states for bulk purchases.

#90178u1782 06/27/1990 ~United Press International
WIMBLEDON, England (JUNE 27) UPI - Defending champions Boris Becker and Steffi Graf, immune to the upsets which swept through Wimbledon's opening days, Wednesday put their grasscourt skills on display during second-round victories.

Becker combined precision passing shots with his powerful serve to overcome Australia's Wally Masur 6-7 (5-7), 6-2, 6-3, 6-2. Graf relied more upon her baseline consistency, only occasionally venturing to net during her 6-3, 6-0 defeat of 92nd-ranked Meredith McGrath of the United States.

Graf has dropped only three games in each of her first two matches, which lasted just 51 and 44 minutes. Her last two tournaments, the German and French Opens, were losing causes on clay, in which she twice lost straight-set finals to Monica Seles. Graf, whose slice backhand was especially troublesome for McGrath, is happy to be on the fast grass of the All England Club.

''I'm glad to be back, I think you can see it,'' she said. ''It's different for me to be here, it seems that when I go onto the court, that I'm a different person. I enjoy it very much.''

In Wimbledon's opening two days, three of the women's seeds and a record six men were upset, among them No. 4 John McEnroe.

Becker, despite dropping his first set to Masur, was confident he would not join the list of surprised victims.

The Australian's game is well-suited to grass, he had trained hard for Wimbledon and in the first set he was the equal of the three-time champion. Through the first 12 games, each man held serve. The decisive mini-break came on the 10th point of the tie-breaker, when the West German double-faulted, giving Masur a 6-4 lead. After a Becker service winner, Masur took the set with a volley winner.

In the second set, Masur failed to hold serve and his net-rushing tactics were bold but increasingly ineffective as Becker consistently stroked passing shots down the sidelines. In each of the final three sets, the defending champion won four of the first five games. Becker's serve was overwhelming in the final two sets, as he won all nine service games while dropping just five points.

Afterwards, the second seed said he was not worried about Masur's strong start, ''He could not play the whole match like he did the first set, otherwise he would be in the top 10 almost.''

If the men's seedings had held up, McEnroe would have played Becker in the semifinal. Although the West German may be the prime beneficiary of the American's departure, he regretted the loss of the three-time winner.

''He has a past here and it's never good to see him go (out) early ... he makes Wimbledon a bit more special,'' said Becker.

On the women's side, French Open titlist Monica Seles, the third seed, rallied from a 4-1 deficit in the second set to post her 34th consecutive match victory, a 6-3, 7-5 second-round triumph over Camille Benjamin of the United States.

The 16-year-old Seles has been on the pro circuit for less than two years but said her experience made the second-set comeback easy.

''Last year, if I was down 4-1, I would have panicked a little bit,'' she said. ''This year, no.'' In the French Open final, Seles won the first set against Graf by saving four straight set points. She has now won six consecutive tournaments.

Former U.S., Australian and French Open champion Hana Mandlikova, who announced before Wimbledon that this would be her last singles tournament, was dispatched 6-3, 6-3 by American Ann Henricksson.

''I felt relieved and I felt sad,'' said Mandlikova after the final point. The 28-year-old said that declining motivation is the cause for her retirement.

Twelfth seed Jennifer Capriati, the 14-year-old who on Tuesday became the youngest player ever to win a Wimbledon match, won her second-round pairing with France's Julie Halard 6-2, 7-6 (7-2). The American sensation, often cited as the sport's next great player, was hailed Wednesday by Mandlikova, who said, ''She's not a champion yet - but she has that little something extra in her.''

In other results on the men's side, No. 7 Brad Gilbert of the United States, No. 10 Jonas Svensson, Sweden, and No. 11 Guy Forget, France, all advanced to the third round, as did American Derrick Rostagno, who upset McEnroe in the opening round. Rostagno, ranked No. 129, eliminated Jeremy Bates, the only remaining British player in the draw, in four sets.

Pat Cash, the 1987 champion and a wild-card entrant this year, also advanced in straight sets.

Advancing among the women were No. 5 American Zina Garrison, No. 10 Helena Sukova and No. 13 Jana Novotna, both of Czechoslovakia.

Defending men's doubles titlists Anders Jarryd and John Fitzgerald were forced to retire midway through their first-round match Wednesday. The doubles partners collided while going after a shot and Jarryd injured a rib. Because the Swede could not continue, opponents Jonathan Canter and Bruce Derlin advanced to the next round.

#90178u1785 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - A group of staunch movement conservatives, who have long been leery of George Bush, bitterly broke with the president Wednesday because of his call for new taxes and predicted he would be challenged by the right wing in 1992.

They also charged that by retreating from his ''no new taxes'' campaign pledge. Bush had seriously harmed the chances of Republican candidates in 1990 and had forever abandoned conservatives who provided the core support for Ronald Reagan.

''Yesterday, George Bush said to conservatives, 'Drop dead,''' said Richard Viguerie of the United Conservatives of America.

''He has stabbed his fellow Republicans in the back, robbing them of the best issue they had - the tax-and-spend Democratic Congress. Now it turns out that we have a tax-and-spend Republican White House as well,'' Viguerie added. ''I think this assures a serious challenge from conservative in 1990.''

''Millions of Americans who voted Republican in 1988 can only conclude that they have become victims of an unprincipled presidential sting operation,'' added Howard Phillips of the Conservative Caucus.

''The real choice for those who disagree with President Bush's decision to break his word is not to punish anti-tax hike congressional candidates in 1990, but to choose someone else for the presidency in 1992,'' noted Phillips.

''If George Bush believes that conservatives will follow his lead on new taxes, he is sadly mistaken,'' said Brent Bozell of the Conservative Victory Committee. ''We have no choice but to fight him and we will fight him.''

Also included among the conservatives were David Keene of the American Conservative Union and Alan Keyes of Citizens Against Government Waste. Noticeably absent were any elected officials who still must work with Bush on a variety of matters.

The hard-line conservatives are part of the right wing movement that gave Reagan his base support. They have always been more dedicated to ideology than to practical politics and even took issue with Reagan toward the end of his term because he had dealt with the Soviet Union.

They have never truly trusted Bush, seeing him more as a moderate, ''country-club'' Republican and not a solid believer in conservative values.

Keyes, who was considered by Bush for a Cabinet post, took a less hard-line stance than his colleagues, stressing he was not certain Bush was locked into new taxes and may back away from the position if there was a public outcry.

''It is inconceivable and impractical to believe the American people will stand for this abandonment,'' said Keyes.

Bozell added that his group was also considering a national advertising campaign urging people to call the White House and protest Bush's tax move.

-30- 2994

#90178u1792 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - Rep. Lynn Martin, R-Ill., Wednesday introduced a bill imposing mandatory jail time and hefty fines on those found guilty of violating federal financial institutions laws.

"The Depository Institutions Civil and Criminal Enforcement Act" imposes a mandatory two-year jail term and a fine equalling 25 percent of the

violator's net worth. Current law imposes a fine of no more than $1 million and carries no provisions for mandatory jail terms.

"For many of the S&L violators, the current maximum $1 million fine is small change," Martin said in explaining why she introduced the bill. "My bill will ensure that violators will feel the pinch and begin to compensate the innocent taxpayers for the costs associated with their greedy deeds."

Martin said the civil penalties included in the bill would apply to those who violated laws governing the savings and loan industry before the enactment of the legislation. The bill requires that in calculating net worth, trusts and other financial shelters created to protect pilfered dollars be included.

"These violators can never fully compensate for the harm they have done," Martin said. "They should not be allowed to return to a life of luxury while the taxpayers are left footing the bill."

Scores of U.S. savings and loan institutions went into bankruptcy because of poor lending practices and apparent fraud during the 1980s. Experts estimate bailing out the industry will cost some $500 billion.

#90178u1801 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - The Supreme Court Wednesday upheld Arizona's capital sentencing laws and ruled that states are free to define and structure their own system of aggravating factors that give a judge or jury guidance and discretion to impose the death penalty.

The court, in ruling on two separate but related cases from Arizona, rejected arguments by two convicts who charged that the state's sentencing laws involving statutory aggravating circumstance - that the crime was ''especially heinous, cruel or depraved,'' warranting the death penalty - limits a judge's or jury's sentencing discretion in imposing capital punishment.

In a 5-4 ruling delivered by Justice Byron White, the court rejected arguments by murderer Jeffrey Walton that his death sentence be overturned because the state did not distinguish his case from others in which death was not imposed.

''Recognizing that the proper degree of definition of an aggravating factor of this nature is not susceptible of mathematical precision, we conclude that the definition given to the especially cruel provision by the Arizona Supreme Court is constitutionally sufficient because it gives meaningful guidance to the sentencer,'' the court said.

The Ninth U.S. Circuit Court of Appeals had ruled Arizona's death penalty statute unconstitutional because it claimed juries, not judges, had to make the determination of aggravating circumstances that may warrant capital punishment.

''We now have a legal death penalty,'' said Arizona Assistant Attorney General Paul McMurdie. He said the state's 88 death row prisoners are now subject to execution, the last of which occurred in 1963.

''We're happy with the ruling,'' he said. ''The federal court can no longer say whether they thought a crime was 'depraved;' that's no longer the test. Now they look for support of the facts of what the (trial) court did. They can only look to see if any judge would find aggravating circumstance.

''Of the 37 states that have capital punishment, two of those - Texas and Oregon - could not impose death without proving aggravating circumstances. Now, with the ruling, it can be imposed and it will not be subject to extensive federal review,'' McMurdie said.

The court also rejected Walton's arguments that Arizona's laws violate the Eighth and 14th Amendments by requiring courts to impose the death penalty when the government proves at least one aggravating circumstance and the defendant does not prove any mitigating circumstances - such as self-defense - that may spur the judge to be lenient and instead impose life imprisonment.

In the other case, murderer Jimmie Wayne Jeffers charged that Arizona's death sentencing laws were cruel and unusual because they were imposed arbitrarily and capriciously.

He said the court had not defined ''especially heinous or depraved'' in such a way that there was a substantial difference between capital offenders who are sentenced to death and those who are not.

The appeals court vacated Jeffers' death sentence, saying the ''especially heinous'' provision was unconstitionally vague.

The high court, in a 5-4 ruling issued by Justice Sandra Day O'Connor, reversed the lower court and remanded the case. The justices said that ''given the evidence that while Jeffers was beating the victim he called her a bitch and a dirty snitch ... we think the Arizona Supreme Court's finding that (Jeffers) relished the killing is one that a rational factfinder could have made.''

Jeffers, a heroin addict, was convicted of killing his former girlfriend because he suspected she gave information to the police. A witness watched

as Jeffers injected the girl with heroin, strangled her and beat her.

In the other case, Walton was sentenced to death for murdering a Marine on leave in the desert outside of Tuscon in 1986. He and two others robbed the Marine and Walton shot him in the head, then drove away assuming he was dead.

The Marine, Thomas Powell, regained consciousness but got lost in the desert for about a week before dying from exposure and pneumonia.

BATON ROUGE, LA (JUNE 27) UPI - Gov. Buddy Roemer again threatened Wednesday to veto legislation that would make Louisiana the toughest place in the nation to get a legal abortion.

Roemer told a news conference he is against the bill because it does not contain exceptions for rape and incest. He predicted that the Legislature would not be able to overturn his decision.

The bill passed the all-male Senate 24-15 Tuesday, only four votes over majority and two less than the 26 needed to override a gubernatorial veto. Earlier, the House also passed the bill but it still need to concur on a Senate amendment.

At least three senators and five members of the House have said that while they voted for the bill, they would vote against an override.

The weak Senate vote leaves Roemer in better position to have his veto stick. Prior to the upper chamber action, lawmakers said Roemer could face the prospect of becoming the first governor in state history to have his veto overridden.

Roemer said he now believed there were enough votes in the Senate to kill an override effort.

''I believe the vote in the Senate showed that there will be sufficient votes there to sustain the veto,'' Roemer said. ''But that will be their decision. I'll honor it either way.''

Following the news conference, a senator who asked his name not be used agreed with the governor.

''We're dead. There's just no way we're going to be able to override,'' he said.

Roemer has 10 days to sign the bill once it has finished legislative action, and each chamber of the Legislature then would have to give two-thirds approval to an override.

Should the House concur on the bill, Roemer would not receive the bill until Thursday. If he waited the full 10 days, the governor could veto the bill less than 72 hours before the Legislature by law must adjourn its session - giving supporters little chance to try to move another bill through the process if an override was not possible.

Should the bill die on the governor's desk, it could mark the last major effort by anti-abortion forces nationwide to test the Supreme Court's willingness to further modify abortion statutes.

Under the legislation, any doctor performing an abortion would be subject to a fine of up to $100,000 and a jail term of up to 10 years. The only exception in the proposed law would be if the woman's life were endangered by the pregnancy.

FARMINGTON, CT (JUNE 27) UPI - Heublein Inc. has purchased the trademarks to ''Cocktails for Two'' prepared drinks from Schenley Industries Inc. of Dallas, company executives said Wednesday.

The sale will allow Schenley to focus on its major branded spirits lines, which include Dewar's White Label scotch and Gordon's Gin and Vodka, the executives added.

Terms of the sale were not disclosed. Heublein, which is based in Farmington, produces and imports wines and spirits, including Smirnoff Vodka and Inglenook and Almaden wines.

Schenley is an affiliate of United Distillers, the spirits company of Guinness PLC of London. Heublein is a unit of International Distillers and Vintners, a division of Grand Metropolitan PLC of London.

JAKARTA, INDONESIA (JUNE 27) UPI - Security officials are investigating reports of a foreign connection to recent violence in a western, strongly Islamic province, news reports said Wednesday.

The reports quoted Armed Forces Cmdr. Gen. Tri Sutrisno as saying Indonesian security officials are investigating the possibility that violence in Aceh province, which resulted in at least nine deaths in the past two months, may have a foreign link, possibly in Libya.

The most recent incident occured at dawn June 17 when villagers were shot while watching a broadcast of World Cup soccer. One villager was killed and two others were badly injured in the incident.

The attackers were said to have run away after the shooting.

''We are still investigating about this,'' Sutrisno told the weekly news magazine Editor.

The general said he would visit Aceh province in the near future to meet local officials and Moslem leaders. He said he planned to try to persuade residents to spurn any incitement to violence.

The gunmen believed to be responsible for the violence are said to be led by a military deserter in the region named Robert.

However, Sutrisno said there is no political background behind the incidents.

''It's just criminal or bandit activities,'' Sutrisno said.

''We will punish them, whoever is disturbing the national development,'' Sutrisno said.

#90178u1884 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - Senate and House education committees approved legislation Wednesday over administration objections that would offer incentives to encourage people to become teachers, including college loan forgiveness.

''For years, we have looked the other way while the teaching profession has suffered falling recruitment, low retention and a serious loss of status,'' said Sen. Edward Kennedy, D-Mass., chairman of the Senate Labor and Human Resources Committee. ''Whatever else we do in education reform, we will not improve American schools unless we ensure that there are talented, well-trained teachers in American classrooms.''

President Bush said during the campaign he would be the ''education

president,'' but his administration opposes the measures.

An Education Department official, who did not wish to be named, contended there are ''scattered shortages but in general, across the country, it's not at all what a lot of folks make it out to be.''

Both Senate and House bills provide for student loan forgiveness if the recipients agree to teach for a certain number of years in areas with a high number of poor children or in geographically isolated areas.

In the Senate bill, the federal government would forgive 65 percent of a Stafford loan - formally called guaranteed student loan - if the recipient teaches up to five years. The House bill would create a new loan program and 100 percent would be forgiven if the person teaches for three years.

Both bills also provide grants to encourage minorities to enter the teaching profession and establish Professional Development Academies to allow current teachers to improve their skills in specific disciplines.

The Senate committee passed the National Teacher Act on a 15-1 vote, with Rep. Strom Thurmond, R-S.C., voting against the measure. The bill's fiscal year 1991 price tag is $215 million.

The House Education and Labor Committee's Equity and Excellence in Education Act, passed by a 29-5 vote, also includes programs to improve literacy and would put into law many of Bush's education goals. The bill's fiscal year 1991 price tag is $1 billion.

Education Secretary Lauro Cavazos, in a letter to the Senate committee's ranking Republican member, Sen. Orrin Hatch of Utah, said the goals are worthy but the strategies ineffective.

The administration's biggest problem is the loan forgiveness program.

''Studies indicate that special scholarships and loan forgiveness strategies attract few people to teaching who do not already intend to become teachers,'' Cavazos said. ''As a result, loan forgiveness is more likely to provide a windfall to those students who had intended to become teachers, rather than induce additional students to enter teaching.''

Cavazos also said the bill's proposed professional development schools and academies are already available at the state, local and national levels and ''would not address the need to improve the initial preparation of teachers.''

(JUNE 27) UPI - Nelson Mandela is getting a taste of Southern hospitality today. The South African leader is in Atlanta, where some businesses closed in his honor and throngs of cheering well-wishers turned out to greet him. Mandela planned to lay a wreath at the grave of Dr. Martin Luther King.

An advertising executive testified today that a gang of youths tried to pull her off her bike, apparently just before they allegedly gang-raped and beat a woman jogger in Central Park last year. Patricia Dean told a New York jury that she and her fiance were riding a tandem bike when the youths attacked, pushing her shoulders and pulling at her legs.

There won't be a Peace Corps program in the Philippines... at least NOT for a while. The program's director says he is withdrawing all Peace Corps volunteers from the country after intelligence information showed that guerrillas planned to kill the Americans. The volunteers will be flown out tomorrow.

The former model who lured Washington, D-C, Mayor Marion Barry into an F-B-I drug sting five months ago gave some damaging testimony today during Barry's cocaine and perjury trial. Rasheeda Moore says she and Barry used cocaine ''more than 100 times'' during the three-year period from June 1986 to June 1989.

President Bush is turning his attention away from Eastern Europe toward Latin America today. Bush is preparing to announce a strengthened economic partnership with the region... key elements of which will be debt relief, trade and investment. The plan is designed to steer away from direct monetary assistance.

#90178u1898 06/27/1990 ~United Press International

SAN SALVADOR, El Salvador (JUNE 27) UPI - A Salvadoran judge Wednesday ordered the arrest of a high-ranking officer accused of attempting to cover up military involvement in the slaying last November of six Jesuit priests.

''The judge of the Fourth Penal Court decreed the order for provisional detention of Lt. Col. Carlos Camilo Hernandez for the crime of concealment '' a court document said.

Two members of the Salvadoran military - one of them a lieutenant who is among nine members of the military charged with murder in the case - have implicated Hernandez in the destruction of evidence at the military academy, from where the mission to kill the priests was launched.

It is the first time Hernandez has been formally charged in the case.

Members of the military shot and killed the six Jesuit priests, their housekeeper and her teenage daughter last Nov. 16 under cover of a major rebel offensive on San Salvador. The government's failure to resolve the case has drawn international criticism and threats in the U.S. Congress to cut military aid.

Judge Ricardo Zamora, in charge of the case, said ''an immediate order has been sent to the security forces for Hernandez's capture.''

Hernandez served as second-in-command under Col. Guillermo Alfredo Benavides at the Salvadoran military academy at the time of the killings, but has since been promoted from the rank of major to lieutenant colonel and given the No. 2 post in an elite combat battallion.

Lt. Yusshi Mendoza, who served under Hernandez at the military school and is being held on murder charges, testified before Zamora that Hernandez ordered him to burn log books from the academy that Zamora had requested as evidence in the case.

A captain in charge of archives at the military school also said Hernandez gave the order to burn the books, although Hernandez has denied involvement in the case.

According to statements made to investigators by several of the soldiers charged in the case, close to 50 members of the Salvadoran Armed Forces launched the mission from San Salvador's military academy.

Benavides has been accused of ordering the crime, although the armed forces have denied charges that he was acting on orders from higher up.

An estimated half of the 72,000 people - mostly civilians - killed in 10

years of civil war in El Salvador were victims of right-wing death squads that have been linked to the military and the ruling party, the Nationalist Republican Alliance.

Despite this, no officer has ever been convicted of such a crime.

Resolving the case is among the demands by rebels of the Farabundo Marti National Liberation Front, who are negotiating with the government to bring an end to the 10-year-old civil war.

#90178u1924 06/27/1990 ~United Press International

CALGARY, ALBERTA (JUNE 27) UPI - Queen Elizabeth II flew Wednesday to Canada in the midst of a unity crisis over French-speaking Quebec's drive for greater autonomy.

On July 1, the Queen will preside over Canada Day celebrations marking the nation's 123 birthday.

The collapse last week of a constitutional amendment aimed at preventing Quebec's secession, reportedly required a hasty rewrite of the Queen's arrival speech.

''It's not really the role of the Queen to get involved in any internal political matters in Canada,'' said Clement Tousignant, a spoksman for the federal government department organizing the royal tour.

Tousignant said the Queen's secretary was advised of constitutional developments by federal government officials, including Prime Minister Brian Mulroney's office.

Thousands of well-wishers took the afternoon off from work to welcome the queen on her arrival in Calgary. Events scheduled during the five-day visit include a tour of the pediatric wing of the Red Deer Hospital, about 100 miles north of Calgary, and the Queen Elizabeth II show-jumping competition at the Spruce Meadows equestrian stables.

The Canada Day celebrations have been marred by the failure of the

so-called Meech Lake constitutional amendment. Quebec refused to sign the 1982 constitution and ignored an elaborate ceremony in the nation's capital which the Queen also attended.

Quebec said it would sign the constitution only if the Meech Lake accord recognizing the province as a distinct society and giving it powers to promote and protect the French language and culture was approved by all 10 provinces.

Last week, Manitoba and Newfoundland adjourned their legislatures without voting on the amendment. As a result, Quebec is seeking greater autonomy from the federal government by gaining control over immigration and communications.

The Queen's visit, which was intended mainly to celebrate Quebec's signing of the constitution, will cost Canadian taxpayers $360 million.

The Queen as constitutional monarch is well protected in the 1982 constitution, according to legal experts. The role of the Queen cannot be changed without the unanimous consent of the federal government and 10 provinces.

#90178u1943 06/27/1990 ~United Press International
ATLANTA (JUNE 27) UPI - Predominatly black crowds Wednesday cheered South African anti-apartheid hero Nelson Mandela, who came to the Deep South to honor Martin Luther King Jr., martyred in America's own struggle for racial justice.

Hundreds waited patiently for a glimpse of the Marxist revolutionary who spent 27 of his 71 years behind bars and has staunchly refused to renounce violence.

The de-facto leader of the African National Congress came to the city to lay a wreath at the white marble crypt that holds King's remains and bears an inscription that holds out the promise of his fondest dreams: ''Thank God Almighty, free at last.''

Men, women and children spent most of the day waiting patiently at the Martin Luther King Jr. Center for Non-Violent Social Change under bright sunlight, interrupted at high noon by a brief, driving shower so heavy it doused the ''eternal flame'' at the gravesite.

Many in the crowd brought brightly colored parasols to shield themselves

from the pounding sun and the noontime shower.

Onlookers peered across a courtyard at the tomb, situated on an island in a reflecting pool between the King Center and the Ebenezer Baptist Church, where King and his father spent their careers preaching non-violence and racial equality.

A mighty cheer erupted from the throng as Mandela's motorcade pulled up to the King Center and the smiling South African opposition leader stepped from his limousine and waved.

Janet Pace, a 34-year-old letter carrier from Atlanta, took the day off to bring her sons, Bernard, 14, and Jamal, 3, for a look at Mandela.

''We're here because this is important to my kids,'' she said. ''This is history. This man spent all those years in jail and he still came out strong. I can't think of a better way to spend a summer day.''

Pace said she saw no contradiction in admiring both Mandela and King, who never embraced violence as a tactic in his long struggle for civil rights.

''I supported King and his philosophy of non-violence,'' Pace said .''But I also know you have to do whatever is necesary to win.''

Nearby, young people in the crowd were singing and swaying to the haunting strains of ''We Shall Overcome,'' the anthem of the civil rights struggle of the 1960s.

Sandra Gordon, 38, a housewife, said she drove here with her family from Mauldin, S.C., 150 miles northeast of Atlanta.

''I've heard about Mr. Mandela all my life,'' she said. ''I just wanted to see him in person and be a part of all this.''

Anthony Wilson, 17, was in a group of teenagers who came from Jacksonville Fla., hoping to see Mandela.

Mandela ''just wants everybody to come together,'' he said.

Ralph Ector, 56, a postal clerk in Atlanta said, ''I grew up in this city and I never even saw King, but I want to see Mandela.

''He's a very strong man,'' said Ector, who served in the Air Force during the Korean War, ''He's got a lot of courage.''

Former Atlanta Mayor Andrew Young, an associate of King who is running for governor of Georgia, pulled up in a van and began working the crowd shortly before Mandela's arrival.

''I just told him we were glad to have you here in Atlanta and glad to see you out of jail,'' Young said when asked about his conversation with Mandela at the airport.

Young said King and Mandela ''both were willing to do whatever was necessary'' for the cause of racial justice. ''Martin gave his life. Nelson gave 27 years in prison.''

''They were both children of the middle class and therefore could have escaped'' from poverty and racial strife, Young said.

On Mandela's refusal to officially renounce violence in the South African struggle for racial equality, Young said, ''Nelson Mandela has never lifted a finger against a soul. Dr. King never told people not to defend their homes, and that's what they're doing over there.''

#90178u1945 06/27/1990 ~United Press International

GREENBELT, Md. (JUNE 27) UPI - One or both of the $1.5 billion Hubble Space Telescope's critical mirrors are incorrectly shaped, producing blurry images and crippling the glitch-plagued observatory's ability to probe the universe, officials said Wednesday.

It is the most serious problem to affect the showcase satellite since its launch from the shuttle Discovery April 25. And while officials were hopeful the trouble ultimately can be corrected, the telescope's cameras cannot perform much better than those on far cheaper Earth-based instruments.

As a result, Hubble's ability to probe the cosmos will be sharply reduced until second-generation cameras currently under development can be installed over the next few years that are capable of compensating for the ''spherical aberration'' that is crippling the space telescope's performance.

''HST was and is a difficult challenge,'' said Hubble project scientist Edward Weiler. ''It would be dishonest for me to say the mood of the scientists is very happy right now. We're all very frustrated.

''But we should be able to fix it. Nobody's walking away. I think we're all commited to working on it and doing it right.''

Spherical aberration results when a mirror's shape is such that light striking different areas of the reflecting surface is brought to a focus at different points. The result is an out-of-focus image and officials were at a loss to explain how such a defect made it into a $1.5 billion

telescope.

Hubble's wide-field planetary camera, which was to have accounted for 40 percent of the telescope's early science operations, is virtually useless with such aberration, preventing the instrument from taking spectacular, long-awaited photographs of the heavens from above Earth's obscuring atmosphere.

Lennard Fisk, associate administrator for space science and applications, said a special review board, chaired by Jet Propulsion Laboratory director Lew Allen, will be formed to investigate what caused the problem in the first place.

The problem came to light after engineers at the Goddard Space Flight Center finished a series of tests to focus the high-tech telescope's optical system by making tiny changes in the position of a critical relay mirror mounted in front of the instrument's 94.5-inch primary mirror.

After each tiny movement, a sensitive camera took a photograph to assess how the image quality had changed, a direct indication of the quality of the telescope's focus. It soon became apparent Hubble had a major problem.

''We got a very clear and distinct characteristic, a textbook characteristic, of an optical system that had a significant amount of spherical aberration,'' said deputy project manager Jean Olivier. ''We are in the process of evaluating the ramifications of this.''

The Hubble Space Telescope, the most expensive satellite ever built, is a cassegrain design, that is, light enters its tube, bounces off a primary mirror and then up to a smaller, secondary mirror mounted near the opening of the tube.

From there, the light is reflected back through a hole in the primary mirror and brought to a focus. The concentrated light then is fed into instruments mounted around the ''focal plane.''

Hubble's supposedly near-perfect parabolic primary mirror was designed to bring light to a single, precise focus. With a mirror that suffers spherical aberration, light rays do not converge at a single point. Instead, they converge to a series of points depending on how far from the center of the mirror the light struck.

Olivier said the aberration seen in Hubble's optical system is so perfect it must have been caused when the telescope's mirrors were being machined years ago by what is now Hughes Danbury Optical Systems Corp. of Danbury, Conn.

''What we suspect is that in the ... techniques used to measure the figure

of the mirror and polish it and hold it steady while you're doing that ... somewhere in this chain, there was a mistake or error made that resulted in the mirror being very precisely made but ultimately to the wrong figure '' he said.

Specifications called for the telescope to focus 70 percent of a star's light into a certain area. As it stands, only 20 percent to 30 percent of the energy falls in the specified area.

Ever since Hubble's launch from Discovery, engineers have been struggling to resolve a variety of problems that have slowed the telescope's activation.

Unexpected wobbling motions, trouble with data relay antennas and problems with the telescope's ultra-precise tracking system have caused repeated delays for the observatory's checkout, but the mirror problem is the most serious threat yet to the costly instrument.

Second-generation instruments currently under construction will be modified to compensate for the poor focus, but such instruments are not scheduled for launch until 1993 or 1994.

Weiler said engineers at the Jet Propulsion Laboratory have been asked to look into speeding up development of the follow-on planetary camera. In the meantime, the telescope will be used to study ultraviolet emissions and other phenomena that are not affected by the focus problem.

#90178u1947 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - The House, yielding to a veto threat from President Bush, voted Wednesday against providing money for family planning services in Romania through two international organizations that support abortion.

The two groups are the only family planning organizations currently active in the Eastern European country but the House decided that the money should go to other family planning groups that do not support abortion.

''This is the first victory of this Congress for the pro-life side,'' said Rep. Christopher Smith, R-N.J., sponsor of an amendment to deny the money to the pro-abortion groups.

The issue was considered as the House debated a $15.8 billion foreign aid bill that cuts military assistance from last year's levels as part of a Democratic effort to change aid priorities to reflect the end of the Cold War.

The bill also includes a 50 percent cut in military aid to El Salvador. Bush has said he would veto the bill if it included that reduction but Republicans decided against challenging the provision in a sign that talks underway between the White House and Congress on a compromise were making progress.

House Speaker Thomas Foley of Washington told reporters he would support smaller reductions. The New York Times reported the admistration would sign on to a cut of between 15 percent and 30 percent.

Still be decided by the House was a controversial amendment cutting aid to the non-communist rebels in Cambodia.

In Romania, nearly all family planning had been banned by the government of Nicolae Ceausescu. Following the dictator's ouster and execution last year, press accounts detailed the suffering of thousands of unwanted children, some with AIDS, languishing in filthy orphanages.

The question facing the House was how to provide $1.5 million to set up family planning services in Romania. Current law bars money from going to the family planning groups now active in that country - the U.N. Population Fund, because it also is active in China; and the International Planned Parenthood Federation, because some of its affiliates perform abortions.

Bush said he would veto the bill if it included the provision sending the $1.5 million to the organizations. Last year, he vetoed a foreign aid bill because it would have restored money to the U.N. group.

The House voted 224-198 for an amendment offered by Smith that denied the money to the two organizations in favor of four other family planning groups.

Rep. David Obey, D-Wis., argued that the House had to compromise, saying, ''The president in our system is the biggest gorrilla on the block.''

''What we're talking about is politics, and politics in its ugliest form '' Obey said. ''The politicians deliver the rhetoric and the kids get stuck with the consequences.''

Opponents of the Smith amendment said the other family groups were unprepared to move into Romania. They said 3,000 abortions are being performed daily in that country and the best way to set up family planning services was to turn to groups already active.

''If you want to stop abortion, go with the people who are prepared,'' argued Rep. Jim Moody, D-Wis.

But Rep. Henry Hyde, R-Ill., said the U.N. and Planned Parenthood groups are ''in the abortion business'' and that including money for them would only delay the bill and any possible relief for Romania.

The overall bill provides $9.7 billion in economic aid, $5.3 million in military money and $800 million in export assistance.

The military aid cuts $382 million from Bush's request and $193 million from last year's levels. The administration agreed to the reductions, but said it would seek more money when the bill reaches the Senate.

The bill includes nearly $240 million more than the administration requested for sub-Saharan Africa and nearly $200 million more than the White House sought for Eastern European initiatives.

(JUNE 27) UPI - More bombings are reported in South Africa. Police say grenades were thrown at a police station near Cape Town and at a police constable's house near Johannesburg. NO casualties were reported. Black leaders privately suspect that hard-line splinter groups disgruntled with the slow pace of reform may be to blame for the recent increase in attacks.

Margaret Thatcher today gave a big boost to the effort to save the ozone layer. The British prime minister pledged nine-Million dollars to a fund aimed at helping developing countries stop producing chemicals that deplete the Earth's protective layer. Thatcher says all nations must work in concert on the issue.

The United Nations division of population says some significant changes are in store for the world's population. The division says 92-Million people this year will join the five-point-three-BILLION already inhabiting Earth. It says the world's population also will be re-distributed by the year 2025... with only 15 percent of the people living in developed countries.

Colombian police reveal a staggering murder rate in the South American

country during the first half of this year. Figures show that Colombia's cocaine war has contributed to a murder every 24 minutes during the first six months of 1990. There were 10-thousand 488 murders during that period... an average of 59 each day.

The streets of Lusaka, Zambia, are swarming with police guarding against fresh outbreaks of violence following nearly three days of anti-government riots. The fighting, street rampages and looting began on Monday as a student protest against food price hikes. As many as 30 people were killed and at least 200 injured in the disturbance.

#90178u1975 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - Urging ''a new economic partnership,'' President Bush prescribed a hemispheric free-trade zone, incentives for internal reforms and innovative debt relief Wednesday to spur the economies of Latin America.

In an overture for which he sought backing from U.S. allies, Bush proposed attacking barriers to trade, obstacles to investment and ''the crushing burden of debt'' to create ''the first fully free hemisphere in all of history.''

Speaking to Latin American diplomats, American business executives and other VIPs at the White House, Bush pledged the United States will not ''shift our attention away from Latin America'' in the rush to rebuild Eastern Europe.

With the U.S. foreign aid budget stretched beyond fiscal limits, Bush proposed a series of multilateral measures to bolster emerging democracies and developing market economies through measures other than direct assistance.

Key among them were efforts to further integrate Latin America into the world trading system, lower tariffs on major Latin American exports and turn the Americas ''into a free-trade zone stretching from the port of Anchorage to Tierra del Fuego.''

After agreeing earlier this month to negotiate a free-trade agreement with Mexico, Bush extended a similar offer to other groups like the Central American nations, which recently agreed to increased economic cooperation.

Bush proposed that the Inter-American Development Bank (IDB) adopt lending practices that encourage market reforms needed to attract foreign investment and debt-for-equity and debt-for-nature swaps to give debt-burdened nations ''economic breathing room to enact bold reforms.''

Bush said the United States is prepared to provide $100 million toward creation of a fund to provide up to $300 million a year in grants to encourage market reforms and would seek ''matching contributions from Europe and Japan.''

With some countries already participating in deals that enable them to sell off some of their debt for environmental programs, Bush said unconventional arrangements are needed to supplement debt restructuring and renegotiation.

On ''a case-by-case basis,'' the White House said Bush would ask Congress for authority to write off or otherwise reduce some $7 billion in loans from U.S. aid or food programs in exchange for economic or environmental reforms.

In some cases, he said, ''the heaviest official debt burdens'' in Latin America, where almost $12 billion is owed to the U.S. government and billions more are owed to banks, fall on small countries least able to benefit from more traditional approaches.

''The need for new economic initiatives is clear and compelling,'' he said. ''All signs point to the fact that we must shift the focus of our economic interaction toward a new economic partnership, because prosperity in our hemisphere depends on trade, not aid.''

The plan announced by Bush, which reiterated longstanding U.S. calls for the nations of Latin America to reform their economies, was the culmination of a three-month review of U.S. policy and hemispheric economic relations.

It also was timed to coincide with preparations for the July 9-11 Economic Summit in Houston of the G-7 group of major industrialized democracies, where Latin America will compete with the Soviet Union for aid and attention.

In addition to recognizing budget realities, it was intended to respond to pleas that the United States not abandon Latin America at a time when global economic concerns seem directed at Eastern Europe and the Soviet Union.

''I assure all of you here today, as I've assured many democratic leaders in Central and South America, the Caribbean and Mexico, the United States will not lose sight of the tremendous challenges and opportunities here in our own hemisphere,'' Bush said.

Latin American leaders were recently consulted on a coordinated international program to promote trade, investment and other forms of assistance, modeled after the G-24 group of industrialized countries that

last year raised billions of dollars for Poland and Hungary.

Bush, however, had little in the way of direct aid to offer. His proposals were conditioned on acceptance by international financial institutions and vulnerable to the same bickering and complexities plaguing efforts to set new world trade rules for more open markets by the end of the year.

Though not entirely new, Bush's initiative was welcomed by Guatemalan Ambassador John Schwank as ''at least the first ... with a comprehensive plan'' and one that may ''get a better reaction'' from European and Asian investors.

John Reed, chairman of Citicorp, which has $8 billion in loans in Latin America, said the plan could instill the kind of economic confidence needed to establish ''a better base'' for foreign business involvement.

Even Bush seemed to acknowledge the limitations in noting that ''there is no blueprint, no one-size-fits-all'' answer and that ''the primary responsibility for achieving economic growth lies with each individual country.''

''We must all recognize that we won't bring down barriers to free trade overnight,'' he said. ''Changes so far-reaching may take years of preparation and tough negotiations. But the payoff, in terms of mutual prosperity, is worth every effort.''

UNITED AUTO WORKERS MAY ASK GENERAL MOTORS FOR 'NO LAYOFFS' PLEDGE

DETROIT (JUNE 27) UPI - The United Auto Workers union will ask General Motors Corp. to virtually eliminate all job layoffs in contract bargaining that begins July 18, union leaders predicted.

The union also will ask the giant carmaker to have its executives forego bonuses in the years when hourly workers get little or no profit sharing, UAW leaders said during a strategy meeting Tuesday.

Chrysler Corp. already has such an agreement on profit sharing in place.

GM workers tooj dome an average $50 this year in profit sharing based on the carmaker's 1989 U.S. earnings, down from an average $254 the year before. Top executives, however, were paid millions of dollars in bonuses, raising the ire of UAW officials.

While the union would like to restore the traditional wage increases abandoned during the early 1980s, the top priority in this year's labor talks with GM - as well as with Ford Motor Co. and Chrysler Corp. - is job security.

Current contracts covering nearly 500,000 hourly workers at the Big Three automakers expire Sept. 14.

Union members at GM are expected to vote later this week on a 72-page contract resolutions booklet distributed at the GM/UAW council meeting.

If the resolutions are passed in present form, the union will ask GM to eliminate layoffs unless ''the long-term financial viability of the company is threatened.''

The UAW already has such agreements with GM's Saturn Corp., Mazda Motor Manufacturing (USA) in Flat Rock, Mich., and New United Motor Manufacturing Inc. (NUMMI), GM's joint venture plant with Toyota Motor Co. in California.

GM declined comment on the proposed demands.

#90178u2020 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - President Bush's decision to accept a tax increase as part of a package to slash the federal deficit spurred stalled budget talks Wednesday and prompted two key Democrats to offer new proposals.

House Budget Committee Chairman Leon Panetta, D-Calif., said he and House Democratic leader Richard Gephardt of Missouri would offer new proposals on cutting entitlement program spending and may, if time allows, make new proposals on defense spending cuts as well.

Panetta credited Bush's statement Tuesday that ''tax revenue increases'' were among the elements needed in a serious deficit reduction with clearing the way for him to present a plan.

''Yeah, I think what it did is it basically cleared the way to ... get into serious negotiations,'' he said of Bush's statement. ''I think that that's the case and we ought to follow through on that today.''

House Speaker Tom Foley, D-Wash., expressed hope that agreement on a plan to cut the deficit could be reached by mid-July.

''The president's statement ... will permit an increase in minimum activity in the budget summit,'' Foley said.

Sen. Phil Gramm, R-Texas, said at the start of the talks Wednesday that Bush's statement on taxes was ''intended to make it easier for the Democrats to come forward with a new proposal.''

''The bottom line is it's time to summit or get off the pot,'' Gramm said.

Democrats have insisted that Bush be the first to blink on the volatile tax issue and demanded that he be the first to put a budget plan on the

bargaining table to help slash a deficit that could reach a staggering $250 billion next year.

He has now done both.

The Panetta-Gephardt proposal was the first Democratic-sponsored plan to be offered as the bipartisan budget talks entered their sixth week.

''What I want to do is explore the entitlement area and see whether we can make some changes there,'' Panetta said of the programs, such as Medicare and farm supports, that are paid according to formulas and that are supported by large, politically vocal constituencies. ''I think it's time that we get down to serious negotiation.''

He said ''Gephardt and I are basically going to start the discussion.''

Foley said he is not yet concerned about the protests from some House Republicans, who began circulating a letter Tuesday vowing to fight any tax hike. Ninety House Republicans - a majority of the 176 GOP House members - have signed the letter so far.

Foley said ''a deficit reduction package requires the votes of a majority of both parties'' and said he was not yet writing off chances for a successful summit because most House Republicans oppose new taxes.

''Members have got to see the (final deficit reduction) proposal in its whole form'' before making up their minds, Foley said.

And they must decide between that package and the alternative - steep, automatic, across-the-board spending cuts split between defense and domestic programs that would be required if Congress does not meet the fiscal 1991 deficit target of $64 billion.

Foley called those automatic cuts ''horrendously destructive.''

Asked what Bush's tax statement meant for Republican candidates - many of whom have already locked into a ''read my lips - no new taxes'' position, Senate Republican leader Bob Dole of Kansas urged them to ''buy some lip balm.''

WASHINGTON (JUNE 27) UPI - The nation's leading food industry association Wednesday told a Senate subcommittee that it is recommending that food manufacturers packaging foods in lead-soldered containers.

Dennis Heldman, executive vice president for Scientific Affairs for the National Food Processors Association, said the recommendation applies to domestic production and to canned foods imported by NFPA members.

Heldman said the number of domestically produced lead-soldered cans has been reduced from 90 percent of domestic production in 1979 to 3.07 percent in 1990.

Heldman testified before the Senate Subcommittee on Toxic Substances, Environmental Oversight and Research Development on proposals to reduce overall lead levels from all sources.

He said the food industry believes legislation is not needed, since voluntary lead reduction efforts have been successful.

#90178u2087 06/27/1990 ~United Press International

SACRAMENTO (JUNE 27) UPI - Environmentalists and the chairman of the state Senate Natural Resources Committee joined Wednesday to back bills in Congress to require ''negative labeling'' of tuna caught in ways that kill dolphins.

They said the proposed legislation would ease the threat to dolphins but could raise the price of tuna by between 2 cents and 10 cents a can.

It would require the words ''caught with technology known to kill dolphins'' on the label of any can of tuna sold in the United States, unless the canner can prove the tuna was taken in ways that didn't endanger dolphins. Other tuna would be labeled ''dolphin safe.''

The problem stems from the scientific finding that the east side of the Pacific off California is the only place in the world's seas that dolphins and tuna are known to swim together.

As a result, American and foreign fishermen who use large nets and purse nets on tuna also kill thousands of dolphins in the process, said Sen. Dan McCorquodale, D-San Jose.

McCorquodale spoke at a news conference in support of his bill, SJR64, a resolution to put the state on record in support of two pieces of federal legislation on the tuna issue.

McCorquodale's measure is due on the floor of the Senate for a possible vote on Thursday. The two Congressional bills are one in the House of Representatives, HR2926, by Rep. Barbara Boxer, D-Calif., and a similar Senate bill, SB2004, by Sen. Joseph Biden, D-Del. So far, 22 of the 45 Californians in the House have endorsed Boxer's bill. The Biden measure has not yet won the support of either of California's two senators, Republican Pete Wilson or Democrat Alan Cranston.

Three major American food companies have pledged not to market any more tuna caught with technology that also threatens dolphins.

Amy Halloran, spokeswoman for Greenpeace, an environmental lobby active in fishing issues, said American tuna fishing vessels now have full scrutiny by federal inspectors. She said foreign fishing vessels operating in the eastern Pacific are only about 30 percent inspected. Halloran singled out Japan, Korea and Taiwan as the worst offenders.

Mark Palmer, conservation director of Ocean Alliance, said that ''90 percent of the tuna caught in the world don't affect dolphins because the dolphins aren't there.'' Palmer and Halloran said the eastern Pacific is the only place where tuna-dolphin association is seen.

They said the eventual goal of the environmental movement is to outlaw all

killing of dolphins.

The environmentalists said both tuna and albacore, a related species in the Pacific, can be caught by fishing lines without the use of nets. However, net fishing is favored by some boat operators because it requires fewer employees and is more economical.

NEW YORK (JUNE 27) UPI - Walt Disney Co. said Wednesday it will soon start shipping a new talking software package to teach basic reading and counting skills to children aged two to five on their parents' personal computer. The new venture marks Disney's entry in the software publishing business.

Developed by Walt Disney Computer Software Inc., the new system includes a voice and music generator called the Sound Source, based on a technology developed by Electronic Speech Systems Inc., of Hayward, Calif.

The Sound Source is a small device that can be hooked up to any IBM personal computer or clone, and which reproduces the voice of Mickey Mouse and other Disney characters as well as background music and sound effects that usually accompany cartoons.

The Disney characters actually talk to the children via the Sound Source and guide the preschoolers through three programs to learn how to read, count, and identify shapes and colors on a computer monitor.

The Sound Source is also equipped with an exclusive Disney chip which controls the commands on a computer keyboard so that children can move from one step of the program to the other by hitting one letter or one figure at a time.

Disney's three preschool teaching software programs - Mickey's ABC's, Mickey's 1-2-3's and Mickey's Colors and Shapes - are loaded on the PC drive to display a cartoon-like animated program on the color monitor.

For instance, as Mickey gets out of bed and into the bathroom, a child can hit the letter "B" and the word "brush" appears on the screen while the world's most famous mouse energetically brushes his teeth with a loud background sound.

There are 26 sets of words starting with each letter of the alphabet for any situation that unfolds during the program, so that, whenever a child hits a key, a word comes on the screen, accompanied by the corresponding situation or object.

When Mickey goes shopping, the child can decide which toys and candies Mickey should pick, and the figure as well as the number of items chosen appear on the screen. Mickey's voice simultaneously spells out the figure.

Disney's proprietary chip controls the computer keyboard so that no other key except the letters and figures can be activated by the child, even if he hits the "enter" or "return" key by mistake.

Walt Disney is introducing the package on the U.S. market in August and said the Sound Source will sell for an initial retail price of $34.95, while each of the three software programs will sell for $49.95.

"We will be demonstrating the system at malls in 15 cities in major markets around the United States from mid-August to mid-November," said Ralph Giuffre, director of marketing for Walt Disney Computer Software. "We will demonstrate the system on IBM's latest line of personal computers the PS/1."

International Business Machines Corp. Tuesday introduced its new powerful and easy-to-use PCs, priced from $999 to $1,999. Walt Disney will also sell or ship for $5.95 a video-tape explaining to parents the benefits of the programs for their children. The cost of the tape is deductible from the software price if parents decide to buy it.

"The software and Sound Source can run on a standard PC with as little as 512 kilobytes of memory and a color monitor," Giuffre said. "The system is made to run on affordable home units."

Walt Disney tested the package with very young children who responded well to the combination of visual and audio incentives. The company estimated that 1.3 million households in the United States have a PC and at least one child between two and five years old. Other software packages are in the works, including programs in foreign languages for overseas markets.

NEW YORK (JUNE 27) UPI - CBS Sports acquired the broadcast rights to a second major golf tournament when it reached agreement Wednesday to televise the PGA Championship for four years beginning in 1991.

The network, which also televises The Masters and 16 other PGA Tour events will begin its PGA Championship coverage under the agreement with the 1991 tournament at Crooked Stick Golf Club in Carmel, Ind.

CBS plans a late-night highlight program for the first and second rounds and live 18-hole coverage of the third and fourth rounds. ABC Sports

currently holds broadcast rights to the tournament.

LOS ANGELES (JUNE 27) UPI - The state of California filed a $300 million civil suit Wednesday against the parent company of Lincoln Savings & Loan, accusing it of ''sucking'' the thrift dry and conning investors out of millions of dollars.

The suit, filed by state Attorney General John Van de Kamp, also named as defendants American Continental Corp. chairman Chairman Charles H. Keating Jr.; the accounting firm of Arthur Young & Co., and a former Arthur Young employee, Jack Atchinson.

''This is an extraordinarily complicated and heavily publicized case,'' Van de Kamp said at a news conference to announce the filing of the suit.

''But at bottom, it is simple,'' he said. ''Charles Keating and his associates ... were running a huge financial con game, and sucking the assets out of Lincoln Savings to sustain their operations.''

The suit, filed in Orange County Superior Court, seeks restitution for investors who lost $250 million and civil penalties that could amount to more than $50 million. The Lincoln case, due to cost taxpayers $2 billion, has become the most expensive thrift bailout in the nation.

It also seeks an injunction to stop Arthur Young, which has offices in Orange County, from conducting allegedly fraudulent audits of thrifts that would mislead the public.

The suit was filed following a six-month investigation by Van de Kamp's office. A criminal investigation by the district attorneys of Los Angeles and Sacramento counties is still under way.

Lincoln, based in Irvine, mounted an aggressive campaign in 1987 and 1988 to market what are now worthless American Continental bonds through its 29 Southern California branches, allegedly without telling some 22,000 investors, many of them elderly, that the bonds were not federally insured.

American Continental, based in Phoenix, filed for bankruptcy in April 1989 and federal regulators seized Lincoln Savings soon after.

Specifically, the suit claims that American Continental and Arthur Young used misleading and improper accounting procedures to overstate American Continental's earnings, which were posted as more than $26 million for 1987.

Van de Kamp said Lincoln's parent company actually lost money during that period.

None of the defendants were available for comment.

Van de Kamp said that, because Keating and American Continental have been named in a number of other major suits in connection with the scandal, there is little hope for recovering the money from them.

However, he said he hoped the suit will force Arthur Young, a leading national accounting firm now doing business as Ernst & Young, to return to bondholders the money they lost as a result of the firm's allegedly illegal conduct.

''The deep pocket here is Arthur Young & Co.,'' Van de Kamp said. ''If investors had known the truth, no one would have invested a dime in those bonds. But with Arthur Young standing behind them, the bonds sold easily.''

Atchison was the Arthur Young employee who handled the American Continental account. Van de Kamp said Atchison was subsequently hired by American Continental at a salary of $900,000 a year, a 400 percent increase over his pay at Arthur Young.

Keating and American Continental have been named in class-action suits filed by the bondholders, a $1.1 billion federal racketeering suit, and a fraud suit filed by the California Department of Corporations, which has come under criticism for its role in approving the bond sales.

WILMINGTON, DEL (JUNE 27) UPI - The Du Pont Co. said Wednesday it has received another U.S. patent for a high-temperature superconducting material.

The company said the new material contains thallium, barium, copper and oxygen, and is structurally similar to thallium-lead superconducting materials that the company already has patented.

The difference is that the new material contains a single copper-oxygen layer rather than multiple layers.

The new material is superconductive at temperatures in the range of 90 degrees Kelvin, or minus 300 degrees Farenheit.

The company said the new material was developed at Du Pont's Experimental Station in New Castle County. Du Pont now holds seven U.S. patents in high-temperature superconductivity, the most of any company working in the field.

Superconductive materials conduct electricity without resistance below their critical temperature. Potential commercial applications for the materials include electrical power storage and generation, electronics and communications.

Du Pont currently is involved in a three-year superconductivity project with Hewlett-Packard Co. and the Los Alamos National Laboratory in New Mexico. The project aims at developing thin-film high-temperature superconductors for electronic components.

TOLEDO, OHIO (JUNE 27) UPI - The Champion Spark Plug Co. said Wednesday improvements to its treatment facility will eliminate most dangerous heavy metals it dumps into Toledo's sewage system.

The Ohio Public Interest Research Group filed a suit in U.S. District Court over the issue, along with a notice of a consent decree that is expected to resolve the issue.

In its suit, the advocacy group alleged Champion violated the Clean Water Act by not removing heavy metals from water used in the metal finishing process.

Terry Rife, manager of environmental services for Champion, said the company has acted on the year-old complaint by spending $38,000 for a study by Mech-Chem Associates Inc.

He said Champion was also working closely with the city of Toledo and the operators of its treatment plant.

The consent decree will not become final for 45 days to allow the U.S. EPA and the Justice Department time to comment. But Anna Aurilio, a spokeswoman for the advocacy group, said there appeared to be little opposition to the settlement.

''We don't think there's going to be a problem with it,'' Aurilio said.

The consulting firm's six-month study includes recommendations for improvements at the company's treatment plant, including the installation of a sodium sulfide treatment system, he said.

The company's current equipment is capable of removing the objectionable heavy metals under normal circumstances. But he said $100,000 worth of improvements to the treatment plant will eliminate any discharges above federal standards.

''We have not had a violation since December,'' Rife said.

The improvements are expected to be complete during plant shutdowns in July and August, he said.

The company treats its metal finishing waste products before it sends the effluent to the city's treatment facility.

The advocacy group said in a suit filed in U.S. District Court this week that Champion is contaminating the Maumee River and Lake Erie with metal finishing by-products, including various heavy metals such as zinc, chromium, and cyanide, because Toledo's treatment plant cannot properly handle them.

In addition to unspecified financial damages, the Public Interest Research Group, which claims 8,000 members in Ohio, asked the court to declare Champion in violation of the Clean Water Act and enjoin it from further discharges.

The suit also asks Champion to provide the court with an outline of measures it will take to correct the problem and arrange for independent monitoring of its discharges.

Aurilio said the consent decree calls for Champion to adhere to the stipulations presented in the suit.

#90178u2195 06/27/1990 ~United Press International
(JUNE 27) UPI - The Supreme Court today ended its 1990 term with a ruling that signals that it has NOT abandoned the idea of racial preferences in limited affirmative action programs.

The court has shown hostility toward such programs in recent years... but today reversed course with a 5-4 ruling upholding a program favoring women and minority applicants for broadcast licenses.

Justice Anthony Kennedy blasted the decision... comparing it to the infamous 1896 Plessy-versus-Ferguson decision that upheld what it termed separate ''white and ''colored'' accommodations on Louisiana railroads.

Kennedy attacked the court for allowing racial preferences in favor of what he calls ''such a trivial interest as broadcast diversity.''

A number of briefs were filed with the court... supporting broadcast diversity as being good for whites as well as minorities.

In other court action today... the justices ruled that courts may use closed-circuit television testimony of alleged child-abuse victims in some cases... and that the Postal Service can ban solicitation on its property.

Democrats on Capitol Hill are calling for the creation of a select committee to investigate and prevent government scandals.

The Democrats say such a committee is necessary because of recent

mismanagement in federal agencies that has triggered what one representative calls ''an unprecedented wave of incompetence, fraud and greed.''

The lawmakers say the Bush and Reagan administrations' failure to properly regulate certain branches of the government produced the need for Congress to establish an oversight process.

They pointed to the problems currently plaguing the savings and loan industry... and the scandals in the Housing Department and Pentagon.

Representative Paul Kanjorski of Pennsylvania introduced legislation to create the select committee.

The panel would be modeled after the one that investigated the Iran-Contra scandal and would be made up of members from several congressional committees.

#90178u2203 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - An administration official Wednesday labeled as unnecessary a retraining and benefits plan for the tens of thousands of federal civilian employees expected to lose jobs in military base closings saying existing programs likely will be adequate.

Constance Berry Newman, director of the Office of Personnel Management, told the House Post Office and Civil Service Comittee's subcommittee on human resources that the government has in place programs to handle job placement for workers displaced in planned base closings, including hiring in other government agencies.

Newman opposed legislation sponsored by the subcommittee's chairman, Rep. Paul Kanjorski, D-Pa., to provide job training, priority government rehiring, extended health insurance benefits and supplemental wage allowances for displaced workers. The legislation does not affect displaced military personnel.

Defense Secretary Dick Cheney is considering plans to close nearly two dozen military bases in nine states and restructure scores of others nationwide.

FORT LEONARD WOOD, MO (JUNE 27) UPI - Investigators from the U.S. Army were in southern Missouri on Wednesday to determine what caused an armored earthmover to overturn, killing two soldiers from New York, Army officials said.

The conditions of two other soldiers injured in Tuesday's incident improved Wednesday, the Army said.

The Army identified the dead soldiers as Sgt. 1st Class Herbert Revill, 43 of Grand Island, N.Y., and Sgt. 1st Class Philip Struebel, 40, of Kenmore N.Y.

The two injured soldiers were listed in serious but stable condition Wednesday at hospitals near the fort, officials said.

Sgt. 1st Class John Wanat of Cheektowaga, N.Y., and Sgt. Jerry Davis of Fort Leonard Wood were taken to General Leonard Wood Army Community Hospital. Wanat later was evacuated to the University of Missouri Hospital and Clinics in Columbia.

The wreck occurred about 10 a.m. Tuesday on a gravel range road near the Normandy training area at Fort Leonard Wood, a base for the U.S. Army Engineers, according to a statement issued by the Army.

An armored combat earthmover carrying the four soldiers left a gravel road used for maneuvers, went down an embankment and overturned.

Revill, Struebel and Wanat were training with the Army Reserve's 98th Division (Training), with headquarters in Rochester, N.Y. Davis, who originally is from Mullins, S.C., is an instructor assigned to the 87th Engineer Battalion at Fort Leonard Wood, officials said.

Army officials said Wednesday they still were investigating what caused the tracked vehicle to leave the road.

The acccident occurred in the central part of Fort Leonard Wood on one of several unpaved roads used by tracked vehicles at the base, which covers about 80 square miles in southern Missouri, officials said. The fort is about 110 miles southwest of St. Louis.

FAYETTE, NY (JUNE 27) UPI - A replacement Greyhound driver apparently fell asleep at the wheel Wednesday, causing the bus to overturn in a cornfield injuring 14 passengers.

The driver, Anthony Earle, 29, of Brooklyn, was thrown through the vehicle's windshield but was not injured, said Sgt. Donald Hoyt of the Seneca County Sheriff's Department.

Earle was one of 4,000 replacement workers hired after Greyhound's unionized employees went on strike March 2.

The most serious injury in the accident on state Route 96A was a lacerated hand, Hoyt said.

Sheriff's deputies received a telephone call reporting the accident at about 6 a.m., and found the bus overturned in a cornfield, Hoyt said.

''It is believed that the driver of the bus fell asleep for a split second and, as he attempted to recover from the shoulder of the road, lost control,'' Hoyt said.

The bus, carrying 22 passengers, was traveling from New York City to Buffalo when it went off the road in the rural Finger Lakes town about 45 miles southeast of Rochester.

Earle was issued a summons for not keeping his driver's logbook up to date but Hoyt said no other tickets or charges were filed.

Ed Barr, a striking Greyhound driver at Amalgamated Transit Union, Local 1610, headquarters in Syracuse, said Earle was a replacement driver.

''The replacement drivers are not qualified. Whether the gentleman has been working two months or four months, he is still not qualified. There is so much training that goes on with the drivers,'' Barr said.

Bill Kula, a Greyhound spokesman in Dallas, said the bus company was still trying to obtain information about the crash, but confirmed the driver was

a ''newly hired replacement.''

NEW YORK (JUNE 27) UPI - The dollar was mixed to higher in New York trading Wednesday as foreign exchange dealers - some hoping for a rally - bought it in a correction from a mainly technical correction of the day before.

But currency traders said it was difficult to discern a clear pattern in the thin, month- and quarter-end market. Early summer doldrums and caution ahead of Sunday's launch of German monetary union were factors in the mixed results, they said.

Technical chart analysts looked for indications that the dollar had bottomed out and was ready to test the top of its range. "I think it's a consolidation (of the dollar's position) today," said Albert Soria, a senior foreign exchange manager with the Kansallis Osake Pankki investment bank in New York.

In late New York trading, the dollar was quoted at 1.6645 West German marks, up from 1.6615 marks late Tuesday, and was trading at 154.45 Japanese yen, off slightly from 154.50 yen.

Soria said that if the dollar stayed above 1.6550 West German marks, it had a chance of "a very big bounce" up to 1.76 marks.

The day before, the dollar had plunged on expectations of lower U.S. interest rates. President Bush hinted federal taxes could rise in a budget deal between the White House and the Democratic-controlled Congress.

"Considering how it didn't do so great yesterday, I'm actually bullish from this level," said Michael McGuinness of the Harris Trust and Savings Bank in Chicago.

He said the dollar was being "held hostage" amid a flurry of cross-trading - dealings which do not directly involve the dollar. McGuinness and Soria both noted that the British pound was showing strength.

Other dollar rates: 1.41 Swiss francs, up from 1.3972; 5.5940 French francs, ahead from 5.5750; and 1,221 Italian lire, up from 1,216.50. The pound edged up to $1.7425 from $1.7420 Tuesday.

In Europe, the dollar had a quiet day against the major currencies after big declines in previous sessions on President Bush's statement that higher tax revenues had to be part of a budget solution.

Analysts said the dollar moved within very tight boundaries as dealers waited to see what would happen next in the States.

"The market wants to hear more on the Bush proposals. Higher taxes do not necessarily mean the Fed will cut interest rates," said economist Jeremy Hawkins of the Bank of America.

"People are feeling that maybe yesterday's sell-off was overdone on the basis of incomplete information," he said.

In Frankfurt, the dollar closed lower at 1.6630 deutsche marks against 1.6770 at close Tuesday.

The mark strengthened on remarks by Bundesbank board member Hans Tietmeyer. He said raising German interest rates would be an appropriate tool to keep inflation down after Sunday's monetary union.

The dollar was down in Zurich at 1.4075 Swiss francs against 1.4125 the day before. In London, the pound closed higher at $1.7430 compared to $1.7375 Tuesday.

The U.S. unit closed lower in Paris, Brussels and Milan, at 5.5855 francs against 5.6315, 34.18 Belgian francs comparedagainst 1,229.25 at Tuesday's close.

Earlier in Tokyo, the dollar plunged against the yen on expectations of lower U.S. interest rates after Bush's remarks. It finished at 154.35 yen, down nearly a yen from the previous close of 155.23.

In Zurich, gold was higher at $350.50 an ounce against $349.50. It also was higher in London at $350 compared with $349.75.

Republic National Bank in New York closed cash gold at $350.25 an ounce, unchanged from Tuesday. The New York Commodity Exchange settled gold at $351.40 an ounce, up $1 from $350.40.

Silver rose in Zurich to $4.85 an ounce compared with $4.80. It also was up in London to $4.83 an ounce against $4.79.

Republic closed cash silver at $4.815 an ounce, down from $4.85, while the Comex settled silver at $4.794 down from $4.82.

(JUNE 27) UPI - More Hubble trouble.

NASA officials say the space telescope appears to be unable to focus light properly, possibly because of a glitch in its mirror system.

The problem could be the most serious blow to date for the one-point-five-BILLION-dollar telescope.

Engineers at the Goddard Space Flight Center in Greenbelt, Maryland, discovered the problem while conducting a battery of tests during the past few days.

The study involved focusing the high-tech optical system by making tiny changes in the position of a critical relay mirror.

After each tiny movement, a sensitive camera took a photograph to assess how the image quality had changed... but NASA engineers say there was NO change... that the image remained foggy and out-of-focus.

Officials say it's too soon to say what impact the focusing problem might have on science operations or what might ultimately have to be done to correct the problem.

Negotiators for NATO and the Warsaw Pact cleared a major hurdle in conventional arms reduction talks today.

They finally struck a deal on the technical definition of a tank and a proposed ceiling for armored combat vehicles.

Both sides agreed in principle several months ago to a proposed ceiling of 20-thousand tanks each, but could NOT agree on what types of vehicles would fit in that classification.

But with the new wording hammered out, the two sides have set a limit of 30-thousand armored combat vehicles apiece.

The agreements... confirmed by U-S officials at the Vienna talks... came less than two weeks after the Soviet delegation reversed itself at the last minute and rejected what was essentially the same deal.

NATO officials had feared the Soviet back-peddling would stall negotiations.

Both sides say they are working toward a formal treaty by the end of the year.

#90178u2272 06/27/1990 ~United Press International

(JUNE 27) UPI - A Soviet Politburo member says a Central Committee plenum will be held on Friday to decide whether to postpone next week's Party Congress.

The Party Congress is expected to be a showdown between Soviet President Gorbachev and his conservative rivals... and some reform politicians have called for it to be postponed.

Gorbchev would be removed as party chief at next week's session but would maintain power through his position as executive president... a post he

created for himself last March.

The official news agency Tass says the decision to postpone the meeting can only be decided by the Central Committee.

Politburo member Vadim Medvedev announced Friday's plenum. Medvedev says next week's crucial Party Congress should NOT be put off.

Medvedev says the meeting is necessary for the Communist leadership to hear the opinions of leaders in different republics and regions.

He says Russian Communists... led by reform politician Boris Yeltsin... suggested the postponement because they feel Soviet citizens are tired of endless discussions with NO visible action.

There is new hope for those suffering with muscular dystrophy.

Doctors in Canada and the United States say that a new treatment seems safe and appears to help build muscle strength.

The experimental procedure involves transplanting healthy muscle cells into stricken muscles.

A team of researchers in Montreal today reported the first successful transplant into large muscles of three boys stricken with the fatal disease.

Three weeks ago, researchers from the University of Tennessee in Memphis reported encouraging findings using a similar approach on small muscles.

Doctors injected muscle cells into a small foot muscle on a boy's big toe... and three months later the boy's treated toe muscle was 20 percent stronger than his untreated muscles.

Even better, his toe was producing dystrophin, a vital protein missing in the muscles of muscular dystrophy patients.

Researchers say it's too early to tell if patients of the Montreal team will react the same way, but doctors say they are optimistic.

#90178u2287 06/27/1990 ~United Press International

SAVANNAH, GA (JUNE 27) UPI - A prototype of the world's first supersonic business jet could be in the air by 1993, with production starting three to four years later, developers of the $1 billion project said Wednesday.

Gulfstream Aerospace Corp. and its Soviet partner, the Sukhoi Design

Bureau, finalized several specifications for the supersonic jet after six days of talks at Gulfstream's Savannah headquarters. The 117.7-foot-long aircraft, with a wingspan of 63 feet, will cruise at Mach 2, or twice the speed of sound, and travel from the East Coast to the Pacific Rim in four hours or less.

The three-engine jet, known as the SSBJ, will carry up to eight passengers and a crew of two, and will have a range of 4,000 nautical miles.

Gulfstream Chairman Allen Paulson and Sukhoi General Designer Mikhail Simonov said discussions with potential customers indicate there is a demand in the corporate world for supersonic flight.

''This is a very attractive idea,'' Simonov said through an interpreter. ''(We're) quite sure that this project is realistic and we shall soon be issuing working drawings and have a go-ahead.''

The $1 billion cost of developing the aircraft will be shared equally by Gulfstream and Aeroconversion, a Soviet corporation set up to handle civilian aircraft projects such as the SSBJ. Aeroconversion includes Sukhoi, the Soviet Union's Lyulka Design Bureau, and several aviation manufacturing facilities, Simonov said.

Simonov said an unidentified Soviet bank is an investor in Aeroconversion.

''This project is a large-scale one from the point of view of investment '' Simonov said. ''If we (Aeroconversion and Gulfstream) share it between us, it's easier to survive,'' he said.

Simonov said he and Paulson were also considering setting up some type of joint investment venture to help finance the project.

Rolls-Royce is participating in the venture as co-designer of the SSBJ's engines with Lyulka.

Simonov said the jet's development is part of Sukhoi's transition, under Soviet President Mikhail Gorbachev's economic and political reforms, from a designer and producer of military aircraft to civilian aircraft.

''We're facing a new stage and the situation is changing. We must devote these capabilities to civilian projects now and in this way contribute to detente,'' he said. ''And, the building of civilian aircraft should contribute to the relationship between the two nations.''

Simonov said the aircraft's designers are focusing on reliability and environmental sensitivity. He said the engines will be quieter than those of existing supersonic planes, and emissions of carbon and nitrogen will be ''the lowest possible.''

With a cruising altitude of 51,000 to 61,000 feet, the SSBJ will fly well above the ozone layer, he said.

Simonov said he expected a prototype to be flying by 1993, with production beginning three to four years later.

Gulfsteam and Sukhoi signed a memorandum of understanding June 15, 1989, in Paris to jointly study the feasibility of a supersonic business jet, the first time that Soviet and American companies have worked together in a civil aviation project, Gulfstream officials said.

''We have united our efforts and we are trying to bring to life a child,'' Simonov said. ''This project looks very attractive and it's going to be successful.''

#90178u2294 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - In victories for President Bush, the House voted Wednesday in favor of financing the non-communist guerrillas in Cambodia and against sending foreign aid to international groups supporting abortion.

The issues were considered as the House debated a $15.8 billion foreign aid bill that cuts military assistance from last year's levels as part of a Democratic effort to change aid priorities to reflect the end of the Cold War.

The bill also includes a 50 percent cut in military aid to El Salvador. Bush has said he would veto the bill if it included that reduction but Republicans decided against challenging the provision in a sign that talks between the White House and Congress on a compromise were making progress.

House Speaker Thomas Foley of Washington said he would support a smaller reduction, and The New York Times reported the administration would back a cut of 15 percent to 30 percent. Such a compromise could be added to the bill when it reaches the Senate or later in a House-Senate conference committee.

By a 260-130 vote, the House voted for an amendment sponsored by Rep. Stephen Solarz, D-N.Y., and backed by Bush adding $7 million to the bill for the non-communist groups fighting the Vietnamese-installed government of Cambodia.

The government is fighting three groups. Two are non-communist and the third is the Khmer Rouge, which killed more then a million Cambodians in the ''killing fields'' of the mid-1970s. Both opponents and supporters of

the amendment said their goal was to keep the Khmer Rouge from returning to power.

Solarz argued U.S. funding was necessary to keep the non-communist rebels strong enough to influence negotiations leading to elections. He said it was ''flatly untrue'' that U.S. money was reaching the Khmer Rouge and promised to lead the fight to cut off the money if that could be proved.

But Rep. Robert Mrazek, D-N.Y., claimed the United States was covertly supporting the Khmer Rouge, saying, ''This great nation has lived a lie before in Southeast Asia and now we're doing it again.''

Rep. David Obey, D-Wis., charged that the opposition groups were virtual ''puppets'' of ''Red China'' and that he feared Bush was caving in to the Chinese.

Earlier, the House, yielding to a veto threat, voted 224-198 against providing $1.5 million for family planning services in Romania through two international organizations that support abortion.

The two groups are the only family planning organizations currently active in Romania but the House decided that the money should go to four other family planning groups that do not support abortion.

Current law bars money from going to the U.N. Population Fund because it also is active in China and to the International Planned Parenthood Federation because some of its affiliates perform abortions.

''This is the first victory of this Congress for the pro-life side,'' said Rep. Christopher Smith, R-N.J., sponsor of an amendment to deny the money to the pro-abortion groups.

In Romania, nearly all family planning was banned by the regime of Nicolae Ceausescu. Following the dictator's ouster and execution last year, press accounts detailed the suffering of thousands of unwanted children, some with AIDS, languishing in filthy orphanages.

Opponents of the Smith amendment said the four other groups were unprepared at this time to provide services in Romania, but Obey argued that the House had to give in to Bush or risk further delays.

''What we're talking about is politics, and politics in its ugliest form '' he said. ''The politicians deliver the rhetoric and the kids get stuck with the consequences.''

The bill provides $9.7 billion in economic aid, $5.3 million in military money and $800 million in export assistance.

The military aid cuts $382 million from Bush's request and $193 million from last year's levels. The administration agreed to the reductions, but said it would seek more money when the bill reaches the Senate.

The bill includes nearly $240 million more than the administration requested for sub-Saharan Africa and nearly $200 million more Eastern European.

FORT ORD, CA (JUNE 27) UPI - Army Pfc. Mark McMonagle was sentenced to seven years in prison and dishonorably discharged Wednesday for the fatal shooting of a woman during the U.S. invasion of Panama.

An eight-member court-martial panel met for two hours before handing down the sentence, Col. Richard Dahlinger, the military judge who presided over McMonagle's trial, said.

McMonagle was reduced in rank to Pvt. 1, forfeited all pay, dishonorably discharged from the Army and ordered to the federal prison in Fort

Leavenworth, Kan., where he will serve his sentence, Dahlinger said.

McMonagle, of Philadelphia, the second of three American soldiers accused in the Jan. 25 fatal shooting, was convicted by a general court-martial Tuesday of unpremeditated murder. McMonagle, 20, also was convicted in the two-day trial of five additional charges including conspiracy and disobedience of orders.

A member of Fort Ord's 7th Light Infantry, McMonagle and two others faked a gunfight in which Leila Diaz de Panay, 50, was fatally shot in the abdomen while taking a bath outside her Panama City home, court-martial testimony disclosed.

Investigators said the defendants had said they were going to a McDonald's restaurant but, instead, went to a brothel a block from the school where their company was stationed.

During the episode one of them lost a 9mm Baretta pistol. According to the prosecution, they went outside the brothel and began firing rifle shots so they could say the handgun was lost in battle. Other soldiers came to their aid and fired shots at the roof of a building across the street.

McMonagle's defense contended there were snipers in the area and anybody could have fired the bullet that killed the woman. However, the prosecution convinced the court that the bullet was fired by McMonagle.

Another defendant, Sgt. Paul Finsel, 25, Arkoma, Okla., was scheduled to go on trial Friday on a charge of murder by discharge of a weapon with wanton disregard for human life.

A third defendant, Pfc. Marc M. Gussen, 19, Teaneck, N.J., was not charged with murder but was previously convicted of obstructing justice, wrongful discharge of a weapon and illegal use of alcohol. He was sentenced to two years in prison and a dishonorable discharge.

The Army claims there were only 202 Panamanian civilians killed in the Dec. 20 invasion. But that's four times the 50 Panamanian soldiers killed in the invasion, code named operation ''Just Cause.''

-30- 2684

#90178u2346 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - Amid ''heated disagreement'' within the agency over its safety, the Nuclear Regulatory Commission announced a new policy Wednesday deregulating disposal of certain low-level radioactive waste deemed non-hazardous.

The ''below regulatory concern'' policy would allow nuclear plant

operators, hospitals and other generators of very low-level radioactive waste to ask the NRC for exemptions from federal rules requiring disposal in dumps with stringent environmental safeguards.

The exemptions would allow waste generators to send slightly radioactive materials to regular municipal trash dumps or even recycle them in consumer products.

NRC officials said wastes potentially qualifying for exemptions would include protective clothing worn by nuclear plant workers, medical instruments containing small amounts of radioactive material and slightly contaminated bodies of laboratory animals.

The NRC adopted the policy despite protests from environmentalists and several states who said exemptions for numerous wastes could result in large cumulative radiation doses to the public. Maine, Minnesota, Vermont, Iowa and Virginia already have taken action against the new NRC policy.

Environmental Protection Agency officials, who had strongly criticized earlier draft versions of the NRC policy, reserved comment on final product.

NRC officials said they would tightly control the number of exemptions granted to guard against the possibility of excessive cumulative doses, but some within the agency questioned whether the NRC had adequate safeguards.

Robert Bernero, director of the NRC's Office of Nuclear Material Safety and Safeguards, readily acknowledged the turmoil within the NRC over the policy, saying: ''There has been disagreement, even heated disagreement.''

Among others, NRC Commissioner James Curtiss, in a partial dissent to the NRC decision, said the collective radiation dose allowed under the new policy could cause between five and 10 ''excess'' - or above expected - cases of illness each year.

''I view this level to be unacceptably high,'' Curtiss wrote.

Curtiss also said the radiation exposures permitted under the policy would be roughly 10 times than the collective dose from all releases from all 105 operating U.S. reactors in 1986.

NRC Chairman Kenneth Carr rejected Curtiss's concerns about ''excess'' health effects, saying there were large uncertainties about health risk analyses estimating cancer deaths from very small doses of radiation delivered to large populations.

Carr said the policy would not endanger the public because the agency

would grant exemptions only to products posing dangers equivalent to ''exceedingly small'' radiation risks faced everyday by Americans.

For example, he said household smoke detectors contained small amounts of radiative materials and people who took cross-country airplane flights were exposed to slightly increased amounts of cosmic radiation.

''We must each realize that when we buy our smoke detectors or choose to take a cross-country flight, we are already making decisions about radiation exposure that are like 'below regulatory concern,''' Carr told reporters.

''The levels of radiation we are talking about here, while not zero, are exceedingly small.''

For comparison's sake, Carr noted the average American routinely received about 360 millirems of radiation each year due to cosmic radiation, medical X-rays, radon and other natural sources.

He said the new policy would deregulate only those wastes carrying radiation of 10 millirems or less. Items that might involve exposure of large numbers of people - such as recycled consumer products - would be limited to one millirem, although the NRC indicated it might raise that limit in the future.

A millirem is a measurement of the biological effect of radiation, which can cause cancer and genetic defects.

Carr said the policy did not represent a change in NRC policy, noting that his agency has granted numerous ''below regulatory concern'' exemptions over the last 20 years for products such as smoke detectors.

Carr said the new policy was needed to free his agency from regulating non-hazardous wastes, allowing the NRC to focus more attention on other nuclear activities posing ''much more significant risks.''

The policy also effectively sets cleanup standards for decommissioning of nuclear power plants when they reach the end of their operating life.

The policy could save the nuclear power industry $50 million a year in disposal costs because up to one-third of its low-level waste could receive an exemption.

However, industry officials have not decided whether to seek exemptions, citing concerns it might anger the public. Industry officials were to decide Thursday whether to seek an exemption.

#90178u2398 06/27/1990 ~United Press International

LOS ANGELES (JUNE 28) UPI - Security Pacific National Bank said Wednesday that it has won the bidding to buy the assets of Gibraltar Savings, one of the largest thrifts operating under government supervision.

The bank did not disclose the price it is paying for the thrift, which was seized by regulators in March 1989 because it was being run in an ''unsafe'' manner although it was still technically solvent.

Security Pacific, the California banking unit of Security Pacific Corp., said it would announce further details later this week when it completes the definitive agreement with the Resolution Trust Corp., the federal agency set up last summer to sell sick thrifts and their assets.

Security Pacific said it will assume about $3.9 billion in core deposits and $2.7 billion of residential loans. The deal will include Gibraltar's 83 branches in California, Security Pacific spokesman Dick Warner said.

Gibraltar, which had assets of $7.1 billion on Dec. 31, also has 25 branches in Florida and Washington.

''The deal may give Security Pacific a presence in some areas of northern and southern California where they have been weak,'' said Tony Howard, a banking analyst with Crowell Weedon & Co. Security Pacific operates 560 branches already in California.

But Howard said that he could not make an evaluation of the deal until more details are released.

Critics of the RTC have said that the agency was moving too slowly in making deals for some of its more valuable franchises such as Gibraltar.

Reports had said there were several other interested bidders for Gibraltar including Wells Fargo Bank and several major thrifts: Great Western Bank, First Nationwide Bank, American Savings Bank, Citicorp Savings and First Nationwide Bank.

In March, Gibraltar unloaded the largest problem asset on its books with the $65 million sale of the Hyattt Grand Champions Resort in Indian Wells, Calif. to the Japanese real estate firm Maruko Inc. The hotel was one of the largest assets that the RTC had put on the block.

Gibraltar lost nearly $250 million in 1987 and 1988 as rising interest rates cut its profits and many of its large real estate development loans developed problems. It lost $399 million in the first two quarters of last year.

The parent company, Gibraltar Financial Corp., sued the government over the seizure, noting that the thrift should not have been seized while still solvent. But regulators contended that the thrift was effectively bankrupt because assets were being carried at values well above market values.

#90178u2418 06/27/1990 ~United Press International

(JUNE 27) UPI - The chairman of a House sub-committee has issued what he called ''a very friendly warning'' to Israel. Wisconsin Democrat David Obey says he will lobby to slash aid to Israel unless the country stops settling Jews in the occupied territories.

The former head of a failed savings and loan pleaded innocent today to 38 counts of conspiracy and misuse of funds. Donald Ray Dixon is allegedly the hand behind one of the worst cases of abuse in the Texas S-and-L industry.

The Chinese government says it will grant four-year temporary residence permits to some 20-thousand Chinese students in Australia at the time of the Tiananmen Square massacre. But Australia may grant them permanent residence.

A federal judge has ruled that a treasure chest of World War Two archives... including four watercolors painted by Adolf Hitler... are worth about six-point-eight-Million dollars. The ruling clears the way for the owner to collect damages from the U-S government, which held the works for years.

#90178u2439 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - Protection the northern spotted owl stands to gain as a threatened species could be substantially undermined by a legislative package the adminstration is contemplating to blunt job losses in the timber industry.

Even as some environmental groups were praising the White House on its decision to suspend the planned sale of undersea oil tracts coast to coast they expressed outrage at the administration's spotted owl strategy.

A centerpiece of that strategy is a proposal to insulate federal forest-management plans in the Pacific Northwest from court challenges seeking stronger safeguards for the owl under the Endangered Species Act.

A second key piece of the package is a proposal to bolster the only part of the 17-year-old law that allows economic interests to be weighed against science in devising conservation measures for imperiled species.

This approach is aimed at achieving President Bush's goal of balancing preservation of the spotted owl and its ancient forest habitat with the interests of a timber industry that depends heavily on those same forests.

But conservation groups and their allies in Congress say the administration's position may render the owl's threatened status as meaningless and do little to help the logging towns of Oregon, Washington and northern California.

''Real biology led to the spotted owl being placed on the endangered species list. Voodoo biology is how the Bush administration plans to save it from extinction,'' said Michael Fischer, executive director of the Sierra Club.

''This administration tells Congress it intends to break the law or ignore the law, asks us to bless that and then asks us to immunize them from lawsuits,'' said Rep. Gerry Studds, D-Mass., chairman of the House

subcommittee that oversees wildlife protection.

''They're going to ask us to make fundamental changes in the (Endangered Species) Act, and that's something I don't think there is support for in the country or in the Congress,'' he said.

The element of the administration plan drawing the most fire is a proposal to expand the powers of a rarely convened Cabinet-level appeals committee created under the Endangered Species Act during the controversy over the snail darter.

The Endangered Species Committee currently can override the biological judgment of the U.S. Fish and Wildlife Service and grant exemptions - on economic grounds - to federal actions that otherwise would be prohibited.

In the case of the spotted owl, the administration intends to call on the so-called ''God squad'' to exempt any federal timber sale that fails to pass muster.

But the White House strategy announced Tuesday by Agriculture Secretary Clayton Yeutter and Interior Secretary Manual Lujan goes further still.

A statement issued by the two Cabinet members said their aim is ''to broaden the mandate of the Endangered Species Committee to allow it to develop a more balanced long-term forest management plan for the (Northwest) region.''

Doing so would change the purpose of the committee from one of an appeals board of last resort to one of a policy-making body.

''We believe it is essential for policymakers at this level to evaluate the entire picture'' of forest management in the Northwest, rather than one timber sale at a time, Yeutter said Tuesday in explaining the proposal.

Additionally, Yeutter and Lujan said they would ask Congress to pass legislation adopting the administration's immediate owl conservation plans and prohibiting court challenges by environmentalists who may find those plans inadequate.

A short-term owl plan for national forests in the Northwest, which cover most of the bird's prime habitat, has yet to be offered. It is to be drawn up over the next two months by a ''high-level interagency task force'' led by Yeutter.

The Endangered Species Committee has been assembled only twice before, in 1979, and on both occasions at the direction of Congress rather than the executive branch. Each of those cases dealt with the impact of federal dam projects on an endangered species - the snail darter and the whooping

crane.

The outcomes were mixed. The panel sided with the snail darter but against the crane.

SAN PEDRO DE LOVAGO, NICARAGUA (JUNE 27) UPI - Contra Commander in Chief Israel Galeano surrendered his rifle Wednesday to President Violeta Chamorro and declared that the U.S.-funded war against the Nicaraguan government ''has finished.''

Galeano, popularly known as Commander Franklin, handed in his rifle along with 200 other rebel commanders at the town of San Pedro de Lovago, 100 miles northeast of Managua.

The Contras, funded and advised by the U.S. government since 1981, fought for nine years in an unsuccessful bid to oust the Sandinista government, which lost elections in February to Chamorro's 14-party coalition.

The ceremony was attended by Chamorro, the U.S. and Soviet ambassadors to Nicaragua, foreign diplomats and representatives of the United Nations and the Organization of American States.

''The war has finished in Nicaragua with the handing in of this weapon. We are demonstrating that we do not want war, we are in favor of peace,'' Galeano said.

Galeano and Oscar Sovalbarro, known as Commander Ruben, handed their weapons to Chamorro along with the pale blue and white Nicaraguan flag.

''We are complying with the accords, we are complying with peace,'' Galeano told Chamorro.

The Contras reached agreements with the Sandinistas and Chamorro's government to disarm by June 10 after moving into security zones by April 25, the day Chamorro took office.

The disarming process was much slower than planned, but a U.N. spokesman in New York said that by Tuesday, 18,197 Contras had handed in weapons to peace-keeping forces.

A first group of some 700 rebels, most of them wounded or crippled during the civil war, handed in a batch of useless weapons to U.N. forces in neighboring Honduras April 18, although the majority had already moved into Nicaragua after Chamorro's election victory.

On Tuesday, the Contras handed in 62 missiles, but they were not ceremoniously destroyed as the other weapons - mostly AK-47 rifles - had been.

''The U.S. government, through its military attache in Nicaragua Dennis Twinn, supervised the handing in of the Contras' most sophisticated weaponry, the 'Red Eye' surface-to-air missiles,'' the Sandinista newspaper Barricada said.

Galeano said Twinn was present at the ceremony because the missiles were provided under a law approved by the U.S. Congress, according to Barricada.

Galeano said he hoped that with the Contras handing in their weapons, the civilian militias set up under the Sandinista government would also lay down their weapons ''to reach a total disarmament in Nicaragua.''

#90178u2523 06/27/1990 ~United Press International

(JUNE 27) UPI - Wildfires raged on in the West Wednesday, leveling dozens of summer homes in Arizona and blackening thousands of acres of brush and timberland in other states.

The fire in Arizona's Tonto National Forest, which resulted in the deaths of six firefighters Tuesday, gutted 60 homes in an area known as Bonita Creek Estates and charred 15,000 acres.

Dewain Koon of the Prescott Hot Shots, an elite firefighting crew, described how he watched a column of fire burst from a canyon, trap the prison crew and destroy the homes. ''It was just like a monster,'' he said. ''It just stood up and stepped on everything you could see.''

Officials said 70 other homes were in ''immediate danger.''

''The fire made a major run overnight,'' U.S. Forest Service spokesman Ken Palmrose said, adding that the east flank of the fire, sparked by lightning strikes Monday, swept across some seven miles between midnight and 2:30 a.m. Wednesday.

An army of more than 1,200 firefighters was battling the blaze, but the situation seemed grim with temperatures soaring past the century mark, less than 10 percent humidity and forecasts for more dry lightning strikes and thunderstorms.

At least six air tankers dropping slurry, a fire retardant, and six helicopters dropping water were drafted in the effort.

Palmrose estimated that 800 people had been evacuated from cabins that dot

the area. The residents of Payson, the nearest town to the fire 100 miles northeast of Phoenix, opened their homes to the evacuees.

The six firefighters killed included five Arizona prison inmates and one correctional officer. They were members of a 19-man crew from the state prison at Perryville that was sent to the scene.

Four other inmate-firefighters were injured and flown to the Maricopa County burn unit in Phoenix - three suffering smoke inhalation and one critically burned.

Those killed were trapped by flames that jumped fire lines near Bonita Creek Estates after being driven by erratic winds.

Other wildfires were raging Wednesday in the wilderness areas of southern New Mexico and in west Texas, where officials feared for the safety of the endangered black bear and peregrine falcon that live in the Guadalupe Mountains National Park.

Forest Service spokesman Jim Payne said 450 firefighters were fighting the ''Frijole'' fire in the national park, which was sparked by a lightning strike Monday and had raced across 1,000 acres by Wednesday.

Lightning strikes were also blamed for 11 fires in the Gila National Forest in southern New Mexico. None of those fires involved more than 50 acres each.

In Los Angeles - where triple-digit temperatures held the area under a sweltering blanket for a second day Wednesday - a string fires damaged at least a half-dozen homes Tuesday.

Up the coast in Ventura County, about 500 firefighters early Wednesday fought to control a 530-acre blaze in the outskirts of Ojai. The fire briefly threatened some homes, but no damage was reported.

In San Diego County, air tankers and helicopters joined the battle against a 300-acre brush fire at the Rincon Indian Reservation. No buildings were threatened and the fire was expected to be contained by midnight. A second fire was reported nearby Wednesday morning but details were sketchy.

In Utah, Forest Service and State Prison crews doused a 12,000-acre fire on Antelope Island, a state park in the Great Salt Lake, and by early Wednesday had gained the upper hand on other smaller fires in various parts of the state.

#90178u2525 06/27/1990 ~United Press International

(JUNE 27) UPI - President Bush has alienated a group of staunch conservatives with his retreat from the campaign promise of NO new taxes. The United Conservatives of America bitterly split with Bush today... saying his stance has seriously harmed the chances of Republican candidates in 1990. The group charges that Bush wiped out the G-O-P advantage of a tax-and-spend Democratic Congress by creating a tax-and-spend Republican White House.

Another witness testified today how he was terrorized by a gang of youths who led a rampage through New York's Central Park last year. David Lewis says he barely managed to escape the pack of youths, who tried to beat him. Lewis was allegedly the gang's fifth of nine victims during a moonlit crime spree. Three of the gang members are accused of the rape and attempted murder of a woman jogger.

A new study says the soaring number of child abuse and neglect cases now being reported constitutes a national emergency. The U-S Advisory Board on Child Abuse and Neglect released a report today that shows that ''hundreds of thousands of kids are ''starved and abandoned, burned and severely beaten, raped and sodomized'' each year. The report called the nation's indifference to child abuse a ''moral disaster.''

The stage is set for approval for the first major housing bill in 10 years. Adminstration officials and Senate leaders have agreed on compromise legislation to reform federal housing policy. The bill is designed to provide decent and affordable housing for moderate- and middle-income families. Senators say they expect the measure to pass before they leave on Friday on a week-long July 4th recess.

#90178u2526 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - The chairman of a key House subcomittee issued a ''very friendly warning'' to Israel Wednesday that he would back an aid cut to the Jewish state next year if it expands settlements in the occupied territories.

Shortly after Rep. David Obey, D-Wis., made the promise, the House by a 308-117 vote approved a $15.6 billion foreign aid for the 1991 fiscal year that gives the Bush administration its full $3 billion request for Israel.

Obey said an increasing number of House members told him they would oppose the bill to protest Israeli policies in the West Bank and Gaza Strip and he pledged to support aid cuts for the 1992 fiscal year if Israel expands Jewish settlements in the territories, occupied in the 1967 Middle East War.

''I simply want to express a very friendly warning to the Israeli

government,'' said Obey, whose appropriations subcommittee is the first House stop for any foreign aid bill.

''I want to make clear that Israel will always be able to count on this Congress to defend her security; they will always be able to count on this Congress for whatever help she needs in an hour of need,'' he said.

''But I want to make quite clear, if Israel expands their settlements in any way or if they add any new settlements, I will make a flat committment right now that I will support any request made by the administration to reduce aid in next year's bill to reflect that expansion.''

Obey said a statement by Israeli Housing Minister Ariel Sharon, an outspoken supporter of expanding the settlements, that Soviet refugees would not be moved into the occupied territories was ''constructive.''

But Obey warned that the U.S. position always has been to support the trading of land for peace ''provided that the security arrangements are sound.''

''I think we have a right to expect cooperation and candor, not foot-dragging and obfuscation on the part of any Israeli government when it comes to the peace process,'' he said.

''Israel is a sovereign country. It has the right to do anything it wants domestically and in pursuit of its own foreign policy. But the United States government has no obligation to fund, either directly or indirectly settlements which we believe to be an impediment to the peace process.''

In issuing his warning, Obey also condemned the foiled May 30 Palestinian terrorist attack against Israel that led to a suspension of the 18-month dialogue between the United States and the Palestine Liberation Organization.

Obey called tha attack ''incredibly stupid'' and called on PLO leaders to take actions that will make it easier for Israel to talk about peace.

#90178u2530 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - A piece of concrete fell from a column at the Jefferson Memorial Wednesday, striking and injuring a maintenance worker, U.S. Park Police said.

A National Park Service worker was moving temporary scaffolding near the top portion of one of the memorial's columns when a piece of decorative scroll fell, striking the man on the head, said U.S. Park Service spokeswoman Sandra Alley.

The victim was transported to George Washington University Hospital. His name and condition were not released.

Alley said the maintenance worker was part of a team of experts conducting a study to determine the degree of preservation work needed at the Jefferson and Lincoln memorials.

#90178u2551 06/27/1990 ~United Press International

NEW YORK (JUNE 27) UPI - Five victims assaulted within minutes of the gang rape of a woman jogger in Central Park testified Wednesday about their terror and outrage during attacks by the marauding pack of youths.

''I was terrified. I thought I was going to die,'' said Robert Garner, 30, of London, who was forced off a running path and beaten by the gang at about 9:25 p.m. on April 19, 1989.

Garner said about 20 black and Hispanic teenagers surrounded him, hit him in the back of the head with a rock and manuevered him down a small embankment.

''There was one of the group in particular who was hitting me in the face and torso,'' Garner said in a thick British accent at the trial of three youths in state Supreme Court in Manhattan.

Garner, a corporate researcher for British Airways who was living in Manhattan at the time, said the youth punching him ''had a grin on his face. He was smiling.''

The attack on Garner came moments after the group harassed another male jogger, David Good, 34, who was hit in the leg with a 3-foot-long branch thrown by one youth. The wounded Good sprinted away, and said he shouted back angrily to his assailant.

Good encountered the youths moments after they charged a third man jogging aroung the reservoir, David Lewis, 31, a commercial banker.

''I just panicked. I ran by them and I tried to get by the person immediately in front of me,'' recalled a shuddering Lewis. ''As I went by him, he hit me in my arm, my right arm. I got by him. I was just sprinting as fast as I could,'' Lewis testified.

A teacher in his 40s, John Loughlin, the last person to be attacked in the rampage and the most seriously injured next to the woman jogger, was scheduled to testify Thursday when proceedings resumed at 10 a.m.

The assault on the running path around the reservoir about 9:30 p.m. on April 19, 1989, came immediately after the attack on the woman, who was dragged off another running path about a quarter mile north. The woman was beaten in the head with a metal pipe and a rock and left for dead.

Lewis was the gang's fifth of nine victims attacked in the moonlit park during a random crime spree - known in local slang as ''wilding.''

Antron McCray, 16, Yusef Salaam, l6 and Raymond Santana, 15, are the first of the youths accused in the attack to go on trial.

It was not known whether the woman jogger, whose name has not been used by the media because of the nature of the crime, would go on the witness stand.

The detailed confessions of the three defendants were considered the strongest evidence against them. They are charged with 13 criminal counts, including attempted murder, rape and sodomy.

If convicted, each faces a maximum sentence of five to 10 years imprisonment. All three were juveniles at the time of the attack.

Lewis said he was running around the northern end of the reservoir track when he noticed two black youths about 11 years old crouched ''in a football stance'' in bushes alongside the path.

''I said, 'You want to race?''' Lewis testified.

''They said, 'Yeah, we'll race all right.' I turned my attention back to the path in front of me. That's when I saw more of them. There were about five bodies coming out of the trees.''

He said one youth, larger than the rest, blocked his path and then struck him as he sprinted past.

Earlier Wednesday, a woman testified that the gang tried to pull her off the back of a tandem bike.

Patricia Dean said she was riding with her fiance, Gerald Malone, and noticed a group of teenagers lunge into the roadway in front of them.

''They were making animal noises, grunting,'' recalled Dean.

She said three teenagers grabbed her from the right side and one grabbed her from the left and began pushing at her shoulders and pulling at her legs.

''They almost ripped me off the bike,'' said Dean. ''I was terrified so I

started pedaling very hard.''

Dean said the reason the youths couldn't pull her from the bike was that she was hooked onto the pedals with toe clips.

#90178u2584 06/27/1990 ~United Press International

NEW YORK (JUNE 27) UPI - The attorney for Adnan Khashoggi, accused of racketeering with Imelda Marcos, Wednesday told jurors there was no evidence to make a felon of the former Saudi Arabian arms dealer.

''Khashoggi didn't do anything but lose on this whole thing,'' said James Linn, in his final summations in U.S. District Court in Manhattan.

''Is he the kind of guy who is going to secretly buy multi-million dollar buildings that are losing a million a month?'' asked Linn of the the man once billed as one of the world's richest.

Khashoggi, 53, is charged with obstruction of justice and fraud for allegedly helping the Marcoses hide the purchase of four prime pieces of real estate in Manhattan.

Marcos, 60, is charged with fraud and obstruction of justice for allegedly plotting with her husband, ousted Philippine President Ferdinand Marcos, to divert more than $200 million stolen from the treasury in Manila into fraudulent real estate and art investments in New York and around the world.

The jury was expected to start deliberations Thursday, after government rebuttal and the judge's charge on the law.

Linn's style differed markedly from that of flamboyant Jackson Hole, Wyo. attorney Gerry Spence, representing Marcos.

He said there just was no evidence to back up the government's charges.

''So let's try them on lifestyle,'' Linn said the government pondered, then decided, ''Why don't we?''

''Let's get Khashoggi on his yacht and airplane and Mrs. Marcos on her shopping and shoes,'' said the lawyer. ''If an American jury convicts on that, anyone could be convicted for differences - a different religion or color.

''And God forbid, it could be you in this courtroom.'' he warned.

''Art has nothing to do with this case (and) they want you to believe

banks lost something'' on the buildings, Linn said, denying they lost anything.

Reminding the jury to use their common sense, he said, ''The government can't tell you that and maintain its credibility. If they can, then we're all in trouble.''

Spence Tuesday portrayed Marcos as a wife of 35 years who was unfamiliar with her husband's dealings and who was not a thief.

Assistant U.S. Attorney Charles LaBella rebutted that charge by reading excerpts from the trial transcript, saying ''that's testimony, not fantasy.''

''The question is whether the fantasies lay at this table or here at this table,'' said the prosecutor, alternately slapping the government's table and one of the defense tables.

LaBella's throughness caused heads in the hot courtroom to nod. Khashoggi uncharacteristically pulled the knot of his tie down, loosened his collar and tried to rub the sleep off his face.

At one point, LaBella plunked down about 20 stacks of wrapped pesos on the jury railing, saying the bills came from 24 boxes seized upon the Marcoses' 1986 entry in the United States where they lived in exile in Hawaii.

''Did she look or consciously avoid learning where these pesos came from?'' he asked, in an apparent attempt to shoot down a defense claim that she was unaware of her husband's financial dealings.

Winding up his rebuttal, LaBella pleaded with the jury to take the evidence and ''strain it through your common sense,'' stressing that both defendants were knowing partners in the alleged scheme.

#90178u2624 06/27/1990 ~United Press International

LOS ANGELES (JUNE 27) UPI - While there was no rush to buy bullets, gun dealers expressed little faith in a ban that went into effect Wednesday on the sales of ammunition in the week before the Fourth of July.

The prohibition, the first of its kind in the nation, was adopted in hopes of curtailing random gunplay that has become a dangerous holiday tradition during Independence Day as well as New Year's Eve.

It was unanimously approved by the City Council in May despite predications from some gun enthusiasts and dealers that it would have

little effect since bullets could still be purchased outside the city limits.

''If a guy wants to buy ammo to shoot up in the air on the Fourth of July, he'll drive 15 miles to get it,'' said Bob Bower, owner of Bower Wholesale Inc., one of the largest ammunition dealers in Los Angeles. ''I don't think it will be effective - it is too easy to go outside of the city.''

But Mayor Tom Bradley and Police Chief Daryl Gates, appearing at a news conference outside a South Central Los Angeles store that voluntarily cut off ammunition sales Tuesday, predicted the ban would help decrease the gunplay.

''I want to ensure this holiday will not be a day dedicated for the trigger-happy people who see this time as a way to legitimately open fire with a firearm,'' Bradley said. ''This ban is not a punishment for ammunition shops but simply a way of preventing tragedy from happening to the lives of the innocent.''

During the final hours before the ban took effect, gun owners seemed to be either unconcerned or unaware that Tuesday was the last day they could buy ammunition prior to the holiday and a sampling of Los Angeles gun stores found no rush to buy ammunition.

''We're busy, but nobody's coming in buying tons of ammo,'' said a clerk at Paul Cole's Target Range and Gun World in Van Nuys who declined to give his name.

Tommy Frely, one of small number of customers at Western Surplus in South Central Los Angeles Tuesday, said he had bought a box of .22-caliber rounds for use at a target range, but predicted the ban ''ain't going to stop nothin', man.''

But police, citing the death of at least one person by random gunfire over the years and the wounding of dozens of others, say the law was desperately needed.

Gates said during last New Year's Eve, a police station in South Central Los Angeles ''sounded as if it were in a war zone'' and ''bullets flew through the air the entire evening.''

''Such a casual attitude toward the use of a firearm is terrifying,'' Gates said.

-30- 2764

#90178u2660 06/27/1990 ~United Press International

WASHINGTON (JUNE 27) UPI - President Bush's decision to accept a tax

increase to help slash the federal deficit spurred Democratic budget negotiators Wednesday to respond with a long list of possible cuts in programs popular with Democratic constituencies.

''Whatever the deadlock was on negotiations seems to have disappeared,'' said Sen. Pete Domenici, R-N.M., who joined in what participants called a more ''free-ranging'' discussion about possible deficit cuts than has occurred since talks began May 15.

One negotiator said attitudes were so relaxed Wednesday that for the first time participants felt comfortable using the word ''taxes.''

Senate Budget Committee Chairman James Sasser, D-Tenn., said Democrats were rewarding Bush for opening the door to new taxes by raising a difficult political issue for Democrats - cutting entitlement programs such as Medicare, farm programs and other federal payments set by formula.

''The president raised the issue of taxes, which I think is very sensitive for the administration and for the Republicans generally,'' Sasser said.

''Today, we Democrats are raising the whole question of entitlement payments. That's a very sensitive area for Democrats so we're trying to be evenhanded about it, tit for tat.''

He said ''the whole host of entitlements, running all the way down from Medicare reductions to reductions in various federal employee health benefit plans'' were being discussed but that ''we've got a ways to go.''

Other budget summit participants said after talks ended for the day that virtually every entitlement program - including a politically volatile freeze on annual Social Security cost of living increases - was discussed in the context of how much money could be saved if reductions were made.

Sen. Robert Packwood, R-Ore., said discussions about possible entitlement cuts also included food stamps and other programs aimed at poor people.

Sen. Wyche Fowler, D-Ga., a negotiator, said while participants talked about cuts that could be achieved, ''nobody has said yet (that) this is a proposal that I think should be done.''

''We have not reached that stage yet - we could (Thursday),'' he said.

However, before the afternoon negotiating session began, House Budget Committee Chairman Leon Panetta, D-Calif., said he and House Democratic leader Richard Gephardt of Missouri, the chairman of the talks, would offer new proposals to cut entitlements.

Panetta said he also had new proposals on defense spending cuts but

participants said defense did not come up.

The Panetta-Gephardt proposal was the first Democratic-sponsored plan to be offered as the bipartisan budget talks entered their sixth week.

''What I want to do is explore the entitlement area and see whether we can make some changes there,'' said Panetta, who suggested increasing entitlement cuts from the $3.8 billion contained in a House-passed budget plan to about $5.6 billion.

''I think it's time that we get down to serious negotiation,'' Panetta said. ''Gephardt and I are basically going to start the discussion.''

Panetta said Bush's statement Tuesday that ''tax revenue increases'' were among the elements needed in a serious deficit reduction plan ''basically cleared the way'' for him to present his proposals.

House Speaker Tom Foley, D-Wash., expressed hope that agreement on a deficit pacakge could be reached by mid-July.

''The president's statement ... will permit an increase in minimum activity in the budget summit,'' Foley said.

Sen. Phil Gramm, R-Texas, said Bush's statement on taxes was ''intended to make it easier for the Democrats to come forward with a new proposal.''

''The bottom line is it's time to summit or get off the pot,'' Gramm said.

Democrats have insisted that Bush - who pledged ''read my lips - no new taxes'' in the 1988 campaign - had to be the first to blink on the explosive issue and demanded that he be the first to put a budget plan on the bargaining table to help slash a deficit that could reach a staggering $250 billion next year.

He has now done both.

Foley said he is unconcerned that some House Republicans began circulating a letter to Bush Tuesday vowing to fight any tax hike. At least 90 House Republicans - a majority of the 176 GOP House members - signed the letter.

Foley insisted, however, that ''a deficit reduction package requires the votes of a majority of both parties.''

''Members have got to see the (final deficit reduction) proposal in its whole form'' before making up their minds, Foley said.

And they must decide between that package including new taxes and the alternative - steep, automatic, across-the-board spending cuts split

between defense and domestic programs that would be required if Congress does not meet the fiscal 1991 deficit target of $64 billion.

Foley called those automatic cuts ''horrendously destructive.''

#90178u2669 06/27/1990 ~United Press International

NEW YORK (JUNE 27) UPI - The New Jersey Nets, spurning trade offers for weeks from around the league, selected 6-foot-10 power forward Derrick Coleman of Syracuse Wednesday night with the first pick in the NBA draft.

Coleman was announced as the opening pick of the two-round draft by Commissioner David Stern at 7:44 p.m. EDT.

Coleman, who finished his college career as the most prolific rebounder in NCAA history, joins a team that finished with the worst record in the leauge at 17-65. That mark was below even the expansion Orlando Magic and Minnesota Timberwolves.

Coleman will add rebounding and a strong inside game to a team sorely in need of help in every area. The Nets acquired the rights to their first overall No. 1 pick when they won the lottery on May 20.

The Nets had been leaning toward selecting Coleman since getting the first pick, but also wanted to test the trade market. They listened to offers from just about every team, but when they failed to get an enticing enough deal, went with the Syracuse forward.

Coleman can also provide scoring punch as he set the school scoring record with 2,143 points. He is also an excellent player and ballhandler for a forward and may play some at shooting guard.

The Nets have been in the process of revamping a team lacking on-court leadership, acquiring shooting guard Reggie Theus on Monday and trading Dennis Hopson to Chicago on Tuesday for the 22nd pick in the first round. Hopson led the Nets in scoring last year with a 15.8 average.

The Seattle SuperSonics selected Gary Payton of Oregon State with the second selection. The 6-foot-4 guard, second in NCAA history in assists and steals, is an outstanding ballhandler, passer and shooter. He should have an immediate impact.

The Denver Nuggets, who traded two first-round picks for Miami's third pick, used the selection on guard Chris Jackson of Louisiana State. Jackson, who averaged 29 points per game at LSU, decided to bypass his final two years of eligibility for the pros. The 6-1 guard, who suffers from Tourette Syndrome, has had his defensive skills and shooting ability

questioned as the draft neared.

The Orlando Magic took 6-8 swingman Dennis Scott of Georgia Tech with the fourth selection. Scott, the ACC's Player of the Year last season, helped lead the Yellow Jackets to the Final Four. Scott, who skipped his senior year to enter the draft, is a tremendous outside shooter. At 230 pounds, he can also rebound. Orlando finished 18-64 in its initial NBA season.

The Charlotte Hornets selected Kendall Gill of Illinois with the fifth pick, making him the third guard selected. Gill, 6-5, led Big Ten in scoring as a senior with 20 points, but is just as solid on defense. An intelligent player, Gill is a better-than-average shooter and outstanding jumper.

The Minnesota Timberwolves used the sixth pick to make 7-footer Felton Spencer of Louisville the first center taken. Spencer played backup to last year's overall No. 1 pick, Pervis Ellison, for three seasons. As a senior he led the Cardinals in scoring (14.9), rebounding (8.5), blocked shots (69), and field-goal percentage (.681.). The Timberwolves also just completed their first season, finishing 22-60.

The Sacramento Kings, who completed a flurry of trades over the last two days, used their first of four first-round picks on 6-7 forward Lionel Simmons of La Salle with the seventh selection. Simmons, UPI's college player of the year, finished as the third leading scorer in NCAA history with 3,217 points. He averaged 24.6 points and 10.9 rebounds for his career.

The Los Angeles Clippers selected guard Bo Kimble of Loyola-Marymout with the eighth pick. Kimble, who led the nation in scoring last season at 35.3 points, pocketed $100,000 Monday by winning a one-on-one challenge. At 6-4 he can shoot, play defense and handle the ball.

#90178u2764 06/27/1990 ~United Press International

MINNEAPOLIS (JUNE 28) UPI - International Dairy Queen Wednesday reported increased earnings in the second quarter ended June 1.

Earnings were $7.8 million, or 86 cents a share, up from $7.1 million, or 76 cents a share, for the same period last year.

Revenues were $83.5 million compared with $74.4 million for the second quarter of 1989.

Operations for the six months ended June 1 resulted in earnings of $12 million, or $1.30 a share, up from $10.5 million, or $1.11 a share, for the comparable period in1989.

Revenues for the six-month period were $141.1 million compared with $125.7 million for the first six months of 1989.

IDQ develops, licenses, and services a system of more than 5,200 Dairy Queen stores in the United States, Canada and other foreign countries featuring hamburgers, hot dogs, various dairy desserts and beverages.

The company also operates more than 630 Orange Julius stores in the United States and Canada and other foreign countries, featuring blended drinks made from oranges and other fruit flavors.

#90178u2802 06/27/1990 ~United Press International

LOS ANGELES (JUNE 27) UPI - A convicted drug trafficker testified Wednesday that U.S. drug agents pressured him to ''tell lies'' about a former Mexican president's brother-in-law now on trial in the murder of Enrique Camarena.

David Macias Barajas testified that he never knew defendant Ruben Zuno Arce, a prominent Mexican businessman, in Mexico.

Zuno, one of four men on trial, is charged with drug trafficking and conspiracy to kidnap Camarena, who was abducted, tortured and killed in February 1985.

At one point during his testimony, Macias broke into tears while describing a ''punishment cell'' at Terminal Island, the federal prison in Los Angeles where he said he was incarcerated earlier this year after refusing to testify untruthfully about Zuno.

Macias testified that U.S. Drug Enforcement Administration agents had offered to provide him a home and money for his family to come and live in the United States if he ''cooperated with them.''

At one point, Macias testified that he told the agents ''that was a good offer and I would like my son to be raised in this country, but that I could not testify against another person, much less tell lies.''

An agent then told Macias that if he ''did not cooperate with them,'' he would be kept in prison, the witness testified.

Macias is the third defense witness whose testimony contradicts that of a key prosecution informant in the case.

The informant, Hector Cervantes Santos, testified last month that Macias was Zuno's chauffer in 1984 and 1985 and that he once accepted a briefcase

full of cash, presumably money obtained in drug deals, on behalf of Zuno during a visit at a Guadalajara house owned by a trafficker who employed Cervantes.

But Macias replied ''no'' Wednesday to a string of questions about whether he had dealings with Zuno, and said he had never met Zuno until he encountered him at a downtown jail in February.

Macia testified that Cervantes and he had dealt marijuana together for about nine months in 1987, but had a falling out. ''He tried to steal an amount of money from me and I looked him up and I beat him up and I never wanted to have anything else to do with him,'' Macias said.

Macias testified that he was convicted on a heroin trafficking charge in 1986 and served several months in jail in New Mexico. He was convicted a second time on charges of importing 110 pounds of marijuana into Texas and sentenced to more than two years in prison.

While serving time at the federal penitentiary in Leavenworth, Texas, Macias said he was abruptly transfered in January to an Oklahoma facility and then brought to Los Angeles.

For several weeks, Macias said, he was not told why he had been transferred to the downtown Metropolitain Detention Center, but in February he had two interviews with DEA agents and one with Assistant U.S. Attorney Manuel Medrano, the prosecutor in the Camarena trial.

Macias testified that the DEA agents threatened that he would spend the rest of his life in jail ''if I did not cooperate with them'' and tell ''the truth'' about being Zuno's chauffer.

Macias testified that Medrano told him that he was brought to Los Angeles because ''someone had said I worked with Ruben Zuno Arce.'' The witness told Medrano that ''they were lying to him, whoever it was that told him (he worked for Zuno).''

Macias said that he told Medrano ''if I knew anything, I would cooperate with them because I did not want to spend the rest of my life in jail,'' and said he volunteered to take a lie detector test.

On trial along with Zuno are convicted drug kingpin Juan Ramon Matta Ballesteros and two other Mexican men, Juan Jose Bernabe Ramirez and Javier Vasquez Velascoged, alleged bodyguard for Mexican drug traffickers.

Camarena was tortured for more than 30 hours at house in Guadalajara before being killed, partially in retribution for DEA raids on marijuana fields in the Mexico.

#90178u2820 06/27/1990 ~United Press International
ELMENDORF AIR FORCE BASE, ALASKA (JUNE 27) UPI - When Soviet jet fighters landed at a U.S. Air Force base Wednesday, the pilots were hailed as ''comrades'' and a high-ranking NORAD officer termed this latest Soviet military visit a symbol of newfound cooperation.

Two MiG-29 jet fighters and an IL-76 transport plane stopped at Elmendorf Air Force Base with 40 Soviet dignitaries, pilots, mechanics and officials from the Mikoyan (MiG) Design Bureau on their way to a July 1 Canada Day air show in Ottawa, followed by air shows in Kalamazoo, Mich., Rockford, Ill., and possibly Dayton, Ohio, if some last minute red tape can be cut.

The MiGs made their first North American appearance here last August en route to another Canadian air show. Two weeks ago Soviet Su-27 fighters made their debut on the continent refueling here on the way to an Oklahoma City air show.

For that June 11 visit, the Air Force assigned eight F-15 jet fighters to escort three Soviet military aircraft to Elmendorf, but Wednesday two F-15s were deemed sufficient to bring in the Soviets.

After a brief fly-by to show off their aircraft, the famous Soviet planes landed and Air Force personnel, including armed military police, swarmed around the crooked-nose Cold War fighters, posing for pictures. One person noted feathers on a wing and said the MiG hit a bird coming in. MiGs are also part of air forces in Cuba, East Germany, India, North Korea, Syria and Yugoslavia, according to an Air Force fact sheet.

''Just three years ago I never would have thought in 100 years I'd see Soviet aircraft here like this,'' said Maj. Jon ''Jaws'' Waldrop, organizer of Soviet stopovers at Elmendorf, headquarters for the Alaskan Air Command, which keeps an eye on Soviet training off Alaska and intercepts Soviet aircraft veering too close.

''We look at this (visit) as, we are their comrades and they are our comrades,'' Waldrop said.

The Soviets were greeted by the highest-ranking Canadian military official in Alaska, where Canada has a contingent of officers working for NORAD, the North American Aerospace Defense command. Since the Soviets go to Canada after refueling in Alaska, officials said it was fitting to have Canada's top gun greet the Soviet delegation.

Brig. Gen. Larry Doshen, deputy commander of the Alaska NORAD region, said he found the Soviet visit ''significant in that it demonstrates greater cooperation and a dialogue between East and West and between the United

States and the Soviet Union whereas in the past it was an adversarial relation.''

This Soviet visit, with a smaller escort force, was an indication of ''reduced tensions,'' Doshen said. ''We're more relaxed. We know more what to expect.''

Doshen was particularly pleased to have the Soviets coming for his country's national holiday and said, ''They're helping Canada celebrate Canada Day.''

Organizers of the Soviet visits, Lawrence Blackmar and Mike Crawford of Leading Edge Productions, a Lake Oswego, Ore. documentary production company that has joint ventures with the Soviets, said the Soviets would then go to air shows in Kalamazoo and Rockford near Chicago. They said arrangements were under way to add Dayton, making the Soviet visit a full month.

#90178u2845 06/27/1990 ~United Press International

(JUNE 27) UPI - The Supreme Court today ruled against two convicted murderers in a decision upholding Arizona's capital punishment laws. The justices voted 5-4 in ruling that states can determine their own factors that decide when a judge or jury should impose the death penalty. The convicts claimed Arizona rules about the cruelty of a crime forced judges and jurys to impose the death sentence.

A woman wounded in last week's shooting spree by a lone gunman at a Jacksonville, Florida, auto loan office has died- raising the death toll to 10- and making the incident the worst mass murder committed by a single person in Florida history. 50-year-old Jewel Belote was the ninth victim of James Pough to die. Pough committed suicide to end the spree.

Queen Elizabeth the Second is traveling to Canada to preside over celebrations marking the nation's 123rd birthday. But the queen's visit comes amid a crisis in Canada over the French-speaking province of Quebec and its drive for greater autonomy. The queen was to give a speech marking Quebec's signing of Canada's 1982 constitution... but the province refuses to sign the document until given more autonomy.

The Senate and House education committees have ignored the White House in passing legislation that they hope will encourage people to become teachers. The bill allows for student-loan forgiveness if a person teaches a certain amount of time in poor or isolated areas. President Bush, who promised to be the education president on the campaign trail, is opposed to the bill.

#90178u2847 06/27/1990 ~United Press International

ATLANTA (JUNE 27) UPI - Civil rights veteran Hosea Williams was arrested Wednesday outside a crowded football stadium where South African black leader Nelson Mandela was to speak at a mass rally.

Williams, a friend and colleague of slain civil rights leader Martin Luther King Jr., was leading a group of demonstrators protesting Mandela's lack of public access to poor people during his visit to Atlanta.

Mandela made only one public appearance during his daylong trip to the nation's civil rights capital, and that appearance - the stadium rally - required a $5 ticket.

Williams and seven other marchers crossed a police line and tried to get into the sold-out 50,000-seat arena at Georgia Tech university.

They were stopped by police and refused orders to leave the restricted security area.

Deputy Police Chief Eldrin Bell said Williams resisted arrest and was charged with obstruction of an officer. All eight protesters were taken to jail.

A handful of other protesters remained outside the police barricades, carrying signs saying: ''Mandela Remember the Poor People.''

Williams led a march of poor people from downtown Atlanta to the campus stadium.

Earlier in the week, Williams decried Mandela's failure to schedule a function in Atlanta that was free to the public.

The African National Congress leader is touring the United States to raise money for his organization's struggle against Pretoria's white-minority government and its denial of political rights to blacks.

Williams also has criticized Mandela's refusal to embrace King's policy of non-violence.

''I think the South African struggle would be better off adopting the strict adherence to non-violence as taught by Martin Luther King,'' Williams said. ''I think it would bring them even greater international sympathy and moral standing, just as it did for our movement here.

''There's never a time when violence is the best way to go.''

Mandela has steadfastly refused to rule out violence in his struggle for black political rights.

''When a government decides to ban political organizations of the oppressed, intensifies oppression and does not allow any free political activity, no matter how peaceful and non-violent, then the people have no alternative but to resort to violence,'' Mandela said.

#90178u2989 06/27/1990 ~United Press International

(JUNE 28) UPI - SPORTS DIGEST

Basketball

The Women's Professional Basketball League will begin in January with 12 to 16 franchises. Atlanta, New York, Richmond and Florida will be in the East; Chicago, Cedar Rapids, Indianapolis and Ohio in the Midwest; and Los Angeles, San Francisco, Sacramento and Seattle in the West. ... The Italian club Il Messaggero temporarily dropped its tampering suit against the Boston Celtics, but said it intends to keep guard Brian Shaw from returning to the NBA next season. A day earlier a Boston judge upheld a five-year, $6.2 million contract Shaw signed with the Celtics in January during the first season of a two-year contract with Il Messaggero. ... An arbitrator ruled Cavaliers forward John ''Hot Rod'' Williams is a restricted free agent. Cleveland can match any offer extended to the 6-foot-11 Tulane product whose contract expired at the end of the year.

Boxing

Manager Mike Jones, who helped Gerry Cooney get a shot at the heavyweight title, died of complications from cancer at age 55. Jones also managed former junior welterweight champion Billy Costello and current contenders Alex Stewart, a heavyweight, and Glenwood Brown, a welterweight.

Games

The Goodwill Games wants a federal judge to prohibit the sale of unauthorized clothing, hats and other merchandise related to the event, which will be held July 20-Aug. 5 in Seattle.

Horse Racing

Pennsylvania became the 10th state to adopt off-track betting. The state's four tracks - the Meadows, Penn National, Philadelphia Park and Pocono - are allowed to own and operate six OTB facilities. Tracks, horsemen, the state breeding association and state government will share the take.

Marathon

More than 1,000 runners from Europe and Africa are expected to take part in Kenya's Mombasa International Marathon July 8. The marathon is the east African country's only major event of its kind.

Soccer

Thousands of Belgian fans gave their World Cup team a rousing welcome at the Brussels airport. Belgium lost 1-0 to England Tuesday in the second round.

Track and Field

Ireland's John Doherty ran a best-of-the-year 5,000 meters race and Romania's Viorica Ghican set a seasonal best in the women's 10,000 at the World Games in Helsinki. Hollis Conway, a 1988 Olympic silver medalist, high jumped 7-9 1/4 and Mike Powell long jumped 27-1 1/4 to cap a fine night for Americans, who won seven of the 18 events.

#90178u3043 06/27/1990 ~United Press International
(JUNE 27) UPI - The one-point-five-BILLION dollars spent on the Hubble Space Telescope may have gone to waste- for now. NASA officials say at least one of the telescope's two critical mirrors appears to be incorrectly shaped and the observatory can perform NO better than cheaper Earth-based telescopes. The Hubble will continue producing blurry images until second-generation cameras currently under development can be installed over the next few years.

The House late today passed a 15-point-six-BILLION-dollar foreign aid bill for fiscal 1991. The measure, approved by a 308-117 vote, contains money for the NON-communist Cambodian rebels and denies it to groups that support abortion. The bill also cuts military aid from last year's levels and shifts money to Africa and Eastern Europe in a Democratic effort to change foreign aid priorities to reflect the end of the Cold War.

The budget talks between White House and congressional negotiators are moving along after President Bush yesterday sparked new proposals with his decision to accept a tax increase. Two key Democrats today offered plans... including one on cutting spending for entitlement programs such as Medicare and farm support. One Democrat expressed hopes that an agreement on deficit reduction plan can be reached by mid-July.

Rasheeda Moore took the stand today in the trial of Washington, D-C, Mayor Marion Barry and offered damaging testimony on Barry's adulterous affairs and drug use. The 39-year-old former model who lured Barry into an F-B-I

drug sting at a downtown hotel said she and Barry were lovers for a two-year period from 1986 to 1988. She says that over the course of their relationship, the two used cocaine- quoting- ''more than 100 times.''

-30- 1913

#90178u3104 06/27/1990 ~United Press International

(JUNE 27) UPI - Czechoslovakia has a new government. President Vaclav Havel today named a new NON-communist coalition to run the country led by his Civic Forum Party. The Civic Forum joins with the Public Against Violence and Christian Democratic Movement parties in assuring Havel of the three-fifths majority needed to push economic and constitutional reforms through the parliament.

Louisiana Governor Buddy Roemer repeated today he will veto pending legislation that would make Louisiana the toughest place in the nation to get an abortion. The state Senate passed the bill last night, but NOT by the two-thirds majority needed to override a veto. Roemer opposes the measure because it does NOT allow for abortions in the case of rape or incest.

Lloyd's of London and the Armored Motor Services of America are offering a 250-thousand-dollar reward for information concerning yesterday's armored car heist in upstate New York near Rochester. The robbers made off with 10-point-eight-Million dollars- the second-largest armored car heist in U-S history. Authorities believe they may have already discovered the van used in the robbery.

A University of Cambridge study published today reveals a significant thinning of the Arctic ice cap. The British researcher in charge of the study says the thinning may be an early consequence of global warming. The study based on British submarine data shows the thickness of the ice cap has reduced by as much as seven-and-a-half feet in some spots between 1976 and 1987.

-30- 1690

#90178u3262 06/27/1990 ~United Press International

(JUNE 27) UPI - Major problems with the Hubble Space Telescope... Nelson Mandela visits Martin Luther King's tomb... new rules on disposal of low-level nuclear waste... and a record-breaking early summer heat wave. U-P-I has it all, next:

NASA officials have discovered a new problem with the one-point-five-BILLION-dollar Hubble Space Telescope, and it's NO small glitch that can be fixed with electronic tinkering.

NASA officials said today that at least of one the telescope's mirrors is

incorrectly shaped, and perhaps both are. The telescope is producing blurry images NO better than those taken from telescopes on Earth.

Hubble's project scientist describes the problem as ''bad myopia,'' or near-sightedness. It's the most serious in a series of problems the telescope has endured since its launch in April.

NASA hopes the problem can eventually be repaired. A second-generation camera could be installed to account for the mirror's so-called ''spherical aberration.'' A space-shuttle repair mission is already scheduled for next April, but it's NOT known if the new camera can be ready in time.

-30- 1280

#90178u3316 06/27/1990 ~United Press International

(JUNE 27) UPI - President Bush told Latin American diplomats at the White House today the United States will NOT abandon their countries in a rush to help rebuild Eastern Europe.

Bush is calling for a new economic partnership and suggests a hemispheric free-trade zone to boost Latin American economies.

The president also proposes innovative debt relief programs and incentives for internal reforms. The measures are designed to bolster the Latin American economies without the United States providing direct financial assistance.

The Bush plan does call for the United States to provide 100-Million dollars toward the creation of a fund to provide grants for market reforms. He says he will seek matching contributions from Europe and Japan.

But all of today's proposals are contingent on the acceptance of international financial institutions.

Guatemalan Ambassador John Schwank praised the Bush plan as being well mapped out and having a chance of attracting European and Asian investors.

The House has approved a 15-point-six-BILLION-dollar 1991 foreign-aid bill.

The 308-117 vote gives President Bush a pair of political victories.

The bill added funding for NON-communist rebels in Cambodia, and sidestepped a controversial funding request for a family-planning program in Romania.

The House set aside seven-Million dollars in NON-lethal aid for rebels battling the Vietnamese-installed government of Cambodia. The proposal

passed over objections that the funding would benefit the brutal Khmer Rouge guerrillas.

The House axed a one-point-five-Million-dollar family-planning program for Romania. The program would have been administered by two international organizations that support a woman's right to an abortion.

President Bush had threatened to veto the bill over the issue.

In general, the aid allotment sets higher funding levels for eastern Europe and Africa, reflecting changing attitudes with the apparent end of the Cold War.

-30- 2158

#90178u3340 06/27/1990 ~United Press International

(JUNE 27) UPI - President Bush is taking the political heat for dropping his campaign pledge NOT to raise taxes. But his willingness to accept new forms of revenue had an immediate effect on budget talks with members of Congress.

Democrats today responded by putting their politically cherished entitlement programs on the table for possible reductions. House Budget Committee Chairman Leon Panetta of California says he and House Democratic leader Richard Gephardt of Missouri were willing to make new proposals to cut entitlement spending. They may also offer new plans to cut defense spending.

Senate Budget Committee Chairman James Sasser of Tennessee compared the president's willingness to accept new taxes with the Democrats' willingness to cut entitlements. Said Sasser... ''We're trying to be even-handed about it, tit for tat.'' But he added... ''We've got a ways to go.''

The star witness in Marion Barry's cocaine and perjury trial today linked the Washington, D-C, mayor to several years of drug use.

Rasheeda Moore says she and Barry used cocaine more than 100 times during a three-year period from 1986 to 1989... a period during most of which they were lovers.

The former model who lured Barry into an F-B-I drug sting five months ago says he admitted to her that he was addicted... and even had her bring cocaine to his City Hall office on one occasion.

Moore also testified that Barry hit her on one occasion when she refused to have sex with him... telling her she brought out the worst in a man.

Barry appeared to listen closely to the testimony, but showed NO emotion. At one point he looked at his wife, Effi, who just shook her head from side to side.

Barry has pleaded innocent to three felony counts of perjury, 10 misdemeanor counts of cocaine possession and one misdemeanor count of conspiracy to possess cocaine.

-30- 2043

#90178u3352 06/27/1990 ~United Press International

(JUNE 27) UPI - Another day of record-setting heat was made worst today by wildfires that destroyed dozens of summer homes in the West, charring thousands of acres of brush and timberland.

The Southwest and southern California baked in the 100-degree temperatures today... causing residents to push electrical usage to peak levels. Arizona, Nevada, Texas, Colorado and South Dakota all had triple-digit readings on thermometers.

One death in Los Angeles and one near Phoenix are being blamed on the heat wave... which is also suspected in at least three other deaths.

The dry hot weather fueled wildfires in Arizona, southern New Mexico and west Texas.

60 summer homes in Arizona's Tonto National Forest were gutted by flames... and officials say 70 other buildings are in immediate danger. The fires also engulfed 15-thousand acres of land.

Hundreds of firefighters are battling flames that have raced across thousands of acres in New Mexico and Texas.

-30- 1128

#90178u3459 06/27/1990 ~United Press International

(JUNE 27) UPI - The first major housing legislation in a decade passed 96-1 tonight in the Senate. The complex measure would create more housing for the very poor. It also includes a new program... proposed by President Bush... that gives low- and moderate-income families a chance to own their own homes.

HUD Secretary Jack Kemp hailed the bill... saying it does more in the fight against ''homelessness, hopelessness, despair and poverty'' than any legislation passed in 25 years. The bill now goes to the House.

U-S and Japanese trade negotiators meeting in Tokyo worked into the wee hours Thursday and are said to be near agreement on a package of reforms

aimed at bringing down the U-S trade deficit. Reports say a final draft of their recommendations will be released later.

Scientists are ''frustrated'' following news that one or both of the Hubble Space Telescope's critical mirrors seem to be incorrectly shaped... making the primary camera virtually useless. A shuttle flight to service the telescope is set for April 1991, but a replacement camera may NOT be ready that soon.

Another day of 100-degree-plus temperatures baked the Southwest and Southern California today. One death in Los Angeles and one near Phoenix are blamed on the record heat. And the heat is suspected in three other deaths in Phoenix.

The hot weather has turned forests into tinderboxes. A fire in Arizona's Tonto National Forest has gutted 60 homes and charred 15-thousand acres. Other wildfires continue to burn in southern New Mexico and west Texas.

Nicaraguan government officials say two military helicopters carrying 20 local and foreign journalists and six crew members collided in flight today. All 26 aboard were injured, at least four seriously. There were NO fatalities.

The journalists had just witnessed the final disarmament of the Nicaraguan Contra rebels in a mountain village and were on the way back to Managua when the collision occurred.

At the disarmament ceremony, the Contra's commander-in-chief surrendered his rifle to President Violeta Chamorro and declared the U-S-funded war against the Nicaraguan government ''has finished.''

-30- 2349

#90178u3471 06/27/1990 ~United Press International

(JUNE 27) UPI - The Louisiana House tonight approved amendments to a tough anti-abortion bill added by the state Senate and sent the measure to Governor Buddy Roemer. But Roemer says he'll veto the legislation and predicts lawmakers woN'T be able to overturn his decision.

The head of the Peace Corps says the program in the Phillippines has been suspended and volunteers are returning to the United States. The move follows intelligence information that Peace Corp volunteers had been added to the list of Americans the Philippine guerrillas planned to kill.

A court-martial panel at Fort Ord, California, today sentenced a soldier to seven years in prison for the fatal shooting of a woman during the U-S invasion of Panama. The soldier also was dishonorably discharged.

Police in Fayette, New York, say 14 people were hurt today when the Greyhound bus in which they were riding overturned. Authorities say the bus was being driven by a replacement worker who apparently fell asleep at the wheel, causing the accident. NONE of the injuries were serious.

Park Police in Washington, D-C, say a maintenance worker was hurt today when he was hit by a piece of concrete that fell from a column at the Jefferson Memorial. The worker was part of a team determining the amount of preservation work needed at the Jefferson and Lincoln memorials.

-30- 1514

#90178u3628 06/27/1990 ~United Press International

(JUNE 27) UPI - U-S Forest Service officials say the National Guard has joined efforts to control a killer wildfire raging through Arizona's Tonto National Forest. The flames have charred 15-thousand acres and destroyed 60 summer homes. Another 70 homes are in immediate danger... as are two major electrical transmission lines and a cabin used by the late western novelist Zane Grey. Governor Rose Mofford has declared a state of emergency in Gila County because of the fire.

Engineers today announced the most serious problem yet for the glitch-plagued Hubble Space Telescope. Officials say the one-point-five-BILLION-dollar device is producing blurred images because at least one of its two mirrors appear to be incorrectly shaped. Scientists compare the problem to near-sightedness and say replacement cameras to fix the flaw may NOT be ready for an April 1991 mission to service the Hubble.

Nelson Mandela's appearance this evening at a crowded football stadium in Atlanta sparked controversy even before he spoke. Civil rights activist Hosea Williams and seven others were arrested outside the stadium as they protested Mandela's lack of public access to poor people during his day-long trip to Atlanta. The stadium appearance was Mandela's only public appearance during his visit, and tickets were five dollars each.

The president and prime minister of Lithuania held a surprise 90-minute meeting with Soviet President Gorbachev today before returning home. The Lithuanian parliament is reported to be at work on a moratorium on the republic's declaration of independence. Lawmakers are striving to find wording that would both satisfy Gorbachev and allow the Baltic republic to save face.

-30- 1884

#90178u3650 06/27/1990 ~United Press International

(JUNE 27) UPI - The House passed a 15-point-six-BILLION-dollar foreign aid bill tonight, granting President Bush his full request of

three-BILLION dollars in aid for Israel. But Wisconsin Democrat David Obey issued Israel what he called a ''very friendly warning.'' Obey says there is widespread support for a cut in aid to Israel next year if the Jewish state continues building settlements in the occupied territories.

A high-ranking Salvadoran military officer is being sought in last November's slaying of six Jesuit priests. A judge in El Salvador today ordered the arrest of a lieutenant colonel accused of attempting to cover up military involvement in the murders. Two members of the military... including one charged in the deaths... implicated the officer in the destruction of evidence in the case.

A new law banning sales of gun ammunition during the week before the Fourth of July has gone into effect in Los Angeles. The law was passed earlier this year in an attempt to halt the rash of shooting incidents that have troubled the city on past Independence Days. But L-A gun-shop owners are skeptical. One says- ''If a guy wants to buy ammo to shoot up in the air on the Fourth of July, he'll drive 15 miles to get it.''

New York authorities have charged a 27-year-old man in the gruesome murders of his elderly adoptive parents. Police say Thomas Camerlengo allegedly killed his parents yesterday... decapitating them in the basement of their Staten Island home and throwing their heads in a sewer. Police are investigating reports Camerlengo had been hospitalized in the past for mental problems.

SAN DIEGO (JUNE 28) BUSINESS WIRE - Medical Imaging Centers of America Inc. (NASDAQ: MIKA) commenced a public offering of 2,450,000 shares of common stock, at $12.125 per share, of which 1,961,429 shares were sold by the company and 488,571 are being offered by selling shareholders (no shares are being offered by officers, directors or employees of the company).

Smith Barney, Harris Upham & Company Inc. and Volpe, Welty & Co. are acting as managing underwriters in connection with this offering. A copy of the prospectus relating to this offering may be obtained from Smith Barney, Harris Upham & Co. Inc., 1345 Avenue of the Americas, New York, N.Y. 10105.

The company will use the net proceeds from the sale of its shares to retire indebtedness incurred in connection with its recent acquisition of Quantum Imaging. The balance of the proceeds will be used to purchase imaging and other high technology medical equipment, for working capital purposes and for possible acquisitions.

Antone J. Lazos, chairman of the board and chief executive officer of the company, stated: ''This offering will significantly strengthen MICA's balance sheet and better position the company to pursue its long term growth objectives.''

MICA is engaged in providing high technology medical services to hospitals and physicians. The company to date has focused on the diagnostic imaging market and believes that it is one of the largest independent providers of diagnostic imaging services in the United States.

#90179b0014 06/28/1990 ~Business Wire

DENVER (JUNE 28) BUSINESS WIRE - Hamilton Oil Corp. Thursday announced test results from a horizontal well drilled on Block 9/28a in the United Kingdom sector of the North Sea.

Well 9/28a-16 is the first horizontal well drilled by Hamilton in the North Sea and is located in the Crawford field. Approximately 2,000 feet of horizontal section was drilled in the Triassic reservoir. Drilling was carried out by the Sedco 703 semi-submersible drilling rig.

The well flowed oil at the rate of 6,900 barrels per day through a 72/64 inch choke at stabilized rates. The well will now be tied back to the Northsea Pioneer floating production facility by subsea pipeline.

Well 9/28a-16 has the potential of significantly increasing production rates in the Crawford field which currently averages 5,500 barrels of oil per day. The Crawford field lies in 370 feet of water and is located 190 miles northeast of Aberdeen, Scotland. Owners of Block 9/28a are:

Hamilton Oil Corp. (operator)	36.33 percent
BP Petroleum Development Ltd.	30.33 percent
Elf Oil and Gas Ltd.	23.33 percent
Ultramar Exploration Ltd.	8.34 percent
Monument Resources Ltd.	1.67 percent

PALO ALTO, CA (JUNE 28) BUSINESS WIRE - Tab Products Co. (ASE:TBP) reported revenues and earnings for Fiscal 1990.

Revenues were $137,747,000, up 6 percent from the $130,143,000 registered the year before. Net earnings of $4,551,000, or 68 cents per share, were up 9 percent from the $4,178,000, or 64 cents per share reported in the prior year.

Revenues of $33,472,000 for the fourth quarter were down 1 percent from the $33,787,000 reported during the like period last year. Net earnings for the quarter of $703,000 declined 36 percent from the $1,104,000 achieved a year ago. On a per-share basis, fourth quarter earnings were 10 cents, down from the 17 cents for the like period last year.

Headquartered in Palo Alto, Tab manufactures and markets office filing and furniture systems which are sold worldwide.

PORTLAND, OR (JUNE 28) BUSINESS WIRE - Hastings & Humble Public Relations Inc. announced it has completed a management buyout, making it independent of its parent company Young & Roehr Inc., a Northwest advertising agency.

In addition, the firm is changing its name to Hastings, Humble, Giardini & Freeman Inc. The new name reflects the four shareholders and principals -- Victoria S. Hastings, Charles F. Humble, Delayne Giardini and Sherida E. Freeman.

Also effective with the buyout and name change, the agency moves to new offices in the Albers Mill building July 2, more than doubling its floor space to 7,500-sq-ft. to accommodate an expanding client base in both Oregon and California.

Young & Roehr formed Hastings & Humble in 1985 as a public relations subsidiary by providing venture capital, office space and management support. Since then, the agency's revenues have grown at a compound rate of 56 percent. With 17 employees and $1.8 million in annual capitalized billings, it is Portland's second largest public relations firm.

''The results-oriented strategic planning, market analysis and creative problem solving -- coupled with our extensive computer industry contacts -- has been the foundation for our success,'' said Hastings. ''The new management team and larger quarters position us well for continued growth and the expansion of our client base among leading technology companies in

the West.''

Hastings, Humble, Giardini & Freeman Inc. is a full-service public relations firm specializing in advanced technology. In 1986, the firm was named by the Portland Chamber of Commerce as one of Portland's 10 fastest growing corporations.

Hastings, Humble, Giardini & Freeman serves a number of Oregon-based clients, including Intel Personal Computer Enhancement Operation (PCEO), Tektronix Graphics Printing & Imaging Division, TriQuint Semiconductor, Electro Scientific Industries and Graphic Software Systems, as well as the California-based GO Corp.

The new address for Hastings, Humble, Giardini & Freeman is 1200 N.W. Front Avenue, Suite 310, Portland, Ore., 97209. The new telephone number is 503/221-1063.

#90179b0022 06/28/1990 ~Business Wire

IRVING, TX (JUNE 28) BUSINESS WIRE - On July 5, GTE Telephone Operations begins offering Cerritos, Calif., residents programming from the world's largest pay-per-view system.

Called Center Screen (sm), GTE's service will give subscribers access to 28 channels, or more than 300 programs, 24 hours a day.

Center Screen is one of the services being tested in GTE's Cerritos Project, a technological and marketing test of voice, data and video services over differing transmission networks, including fiber optics, coaxial cable and twisted pair telephone wire.

''We're pleased that through the Cerritos Project, our partnership with Apollo CableVision has brought to Cerritos residents not only cable television but also innovative services such as Center Screen,'' said Don Bache, general manager-GTE Advanced Operations Testing.

As the owner of the 170-mile coaxial cable network that serves Cerritos, GTE California leases half of the network's bandwidth to Apollo CableVision to provide cable TV. On the remaining half, GTE is testing new services including Center Screen and GTE Main Street, an interactive television service. Center Screen offerings are purchased by customers through Apollo CableVision.

''We designed Center Screen to provide something for everyone,'' said

Center Screen independent programming consultant Maggie McDermott, principal, McDermott & Associates. ''We're premiering in July with box office hits including ''Steel Magnolias,'' ''Back to the Future II'' and ''Tango & Cash.''

All Apollo CableVision customers will be able to select programs from the system's 28 channels at a cost of $4.95 per program. Two free promotional channels, one showing movie previews and instructions on how to order, and another with a movie schedule, will be part of the service.

Special features will give customers control over what's viewed in their homes. Parental View Lock lets the customer restrict the previewing of certain programs. Parental Buy Lock restricts the purchase of certain programs. GTE will offer both features free of charge.

Later this year, GTE will provide Center Screen customers with special-interest channels, McDermott said. Plans are to offer an Asian-language channel featuring programs in Korean, Chinese and Japanese, as well as a family/educational channel with travel programs, cartoons and instructional programs such as cooking and fishing.

''We're excited about offering the Center Screen service to our Apollo CableVision customers,'' said Apollo CableVision Chairman Charlotte Robak. ''Center Screen is an excellent example of how the customer can benefit when we maximize the capabilities of the cable TV network.''

GTE Telephone Operations provides local phone service to 14.4 million customers through 15.1 million access lines in portions of 31 states and two foreign countries.

FREMONT, CA (JUNE 28) BUSINESS WIRE - DSP Technology Inc. (NASDAQ:DSPT/DSPTU) announced Thursday a $400,000 order for its combustion analysis system to be installed for the research and development of the next generation of automotive power systems at one of the nation's largest automotive manufacturers.

F. Gil Troutman, president, said, ''This order is the first phase of a contract valued at $600,000 for multiple combustion analysis systems and includes two high-speed spark analysis subsystems. These will be the

first DSP systems incorporating our new, fully integrated, proprietary software.''

He said these products will be used in the research and development of cleaner, more efficient and powerful engines for the cars of tomorrow.

Troutman noted that the company's strategy has been to focus on the automotive market with its data acquisition equipment for crash testing and proprietary systems for real-time combustion analysis. He added that DSPT's combustion analysis systems are targeted to the more than 2,000 potential installations engaged in the development of internal combustion power plants.

DSP Technology designs, manufactures and markets electronic instrumentation and data acquisition systems to automobile manufacturers, major research and development, government-funded national and university research laboratories. Its products enable research and product development engineers to capture data from occurrences lasting millionths of a second or spanning several days.

#90179b0052 06/28/1990 ~Business Wire

LOS ANGELES (JUNE 28) BUSINESS WIRE - Telecredit Inc. (NASDAQ:TCRD) announced Thursday that net earnings for the year ended April 30, 1990, rose 15 percent to a record $28,547,000, or $2.57 per share, as revenues increased 5 percent to a record $167,598,000. For fiscal 1989, net earnings were $24,909,000, or $2.26 per share, including earnings of $2.39 per share from Telecredit's payment services businesses and a loss of 13 cents per share for Light Signatures Inc. (LSI), on revenues of $159,433,000.

Lee A. Ault III, chairman, noted that these results reflect a 17 percent after-tax return on revenues and a 33 percent after-tax return on average stockholders' equity.

Ault added that Telecredit's financial position improved with cash and short-term marketable securities rising to $87,049,000 at April 30, 1990, compared to $64,525,000 at April 30, 1989. The balance sheet also reflects a current ratio of 3.7-to-1, no funded debt and stockholders' equity of $96,154,000.

The face amount of checks purchased in connection with Telecredit's check services rose 15 percent to approximately $8 billion for fiscal 1990. Pre-tax earnings from check services increased 12 percent in

fiscal 1990 as operating revenues rose 8.5 percent. Ault explained that the check business is the major contributor to Telecredit's revenues and earnings.

Operating revenues from card processing services increased 1 percent while pre-tax earnings declined 13 percent in fiscal 1990, due to the loss of approximately 45 percent of the company's credit union customer base when the processing contract with Payment Systems for Credit Unions (PSCU) which expired on September 30, 1989, was not renewed.

For the three months ended April 30, 1990, net earnings were $6,622,000 or 59 cents per share. Net earnings for the three months ended April 30, 1989, were $5,980,000 or 54 cents per share, including a loss of 4 cents per share attributable to LSI. Revenues were $38,385,000 in the fourth quarter of fiscal 1990 as compared with $38,221,000 in the comparable quarter of fiscal 1989.

The proposed merger is subject to negotiation and execution of a definitive agreement between the parties and approval by the board of directors and stockholders of Equifax and Telecredit, among other conditions, and to certain regulatory approvals.

#90179b0055 06/28/1990 ~Business Wire

SAN DIEGO (JUNE 28) BUSINESS WIRE - ASDAR Group's (NASDAQ:ASDRC) common stock will continue to be included for quotation in the National Association of Securities Dealers' Automated Quotation System (NASDAQ) via an exception from the capital and surplus requirement.

While ASDAR failed to meet this requirement as of Dec. 31, 1989, the NASD has granted a temporary exception from this standard subject to ASDAR meeting certain conditions. While the company believes that it can meet these conditions, there can be no assurance that it will do so. If at some future date the company's securities should cease to be quoted in the NASDAQ system, they should continue to be quoted in the over-the-counter market.

For the duration of the exception the company's NASDAQ symbol will be ASDRC.

The temporary exception was granted after ASDAR presented its annual report on Form 10-K for the year ended Dec. 31, 1989, its quarterly report on Form 10-Q for the period ended March 31, 1990, and a current report on Form 8-K dated June 13, 1990, to an NASD hearing panel at a hearing in New York City on June 14, 1990.

At such hearing, these documents established to the satisfaction of NASD officials that the company's previously announced merger with Unitex Inc. would allow the company to meet NASDAQ's minimum maintenance requirements.

However, since the merger would not be complete until Unitex shareholders approved the transaction at the meeting of the shareholders

of Unitex scheduled for June 27, 1990, and the company subsequently filed the certificate of merger with the state of Utah (the state of Unitex's

incorporation), the company would be required to operate under exception until the acquisition was finalized by such meeting and filing.

Wednesday, at the Unitex shareholders' meeting in Irvine, the merger was approved by the Unitex shareholders. ASDAR management expects Unitex to file the certificate of merger with the state of Utah on Tuesday, July 3, 1990, which will finalize the merger.

At that time ASDAR's management intends to file a new current report on Form 8-K reporting the filing of the certificate of merger and including

pro forma consolidated financial statements for the combined entity at May 31, 1990, which will demonstrate that the new entity meets NASDAQ's minimum maintenance requirements.

TORRANCE, CA (JUNE 28) BUSINESS WIRE - Precision Health Care Systems Inc. has been formed here to purchase the business and carry on the activities of the former Brentwood Instruments Inc., manufacturer and marketer of medical instrumentation to physicians' offices around the United States.

Torrance-based Brentwood was an industry leader among medical instrumentation companies, appearing among the Inc. 100 fastest-growing U.S. publicly held companies in 1986, 1987 and 1988.

It sold more than 12,000 instruments from a single Japanese supplier, which decided to establish its own U.S. distribution network and terminate its exclusive distribution agreement with Brentwood, said Delbert A. Freeman, president of the new company and former head of Brentwood. With the supply line severed, Brentwood was forced to cease operations, said Freeman.

Establishment of Precision Health Care Systems retains jobs in the area while providing uninterrupted service and a regular source of supplies for medical instruments, said Freeman. The new company is based at 3425 Lomita Blvd., Torrance.

With 30 sales representatives covering the nation, Precision Health Care Systems is ''well funded, prepared to become a leader in the field and expects to seriously challenge its former supplier,'' said Freeman.

Precision Health Care Systems purchased the right to use the Brentwood label. Among other diagnostic systems, it is marketing its own California-made proprietary products: a pulmonary function analyzer and a holter monitoring system. Other new medical instrumentation is being evaluated, said Freeman.

CHICAGO (JUNE 28) BUSINESS WIRE - A veteran spokesman for Sears, Roebuck

and Co. and former Ohio newsman, Ernest L. Arms, is retiring next month after nearly 31 years with Sears.

Arms has served as national news director of Sears since 1966 and director of public relations for Sears Tower, the world's tallest building, since 1972.

He plans to form a new communications firm offering editorial services to corporations and professional firms, specializing in business-financial communications.

Arms began his newspaper career with the Akron Beacon-Journal as a copyboy and later became a reporter. After military service, he joined the Columbus Citizen, a Scripps-Howard newspaper, in 1946.

He served as a reporter, copy editor, feature editor, news editor, business-financial editor and automotive columnist during his 12 years there. In 1958 he joined the journalism staff of The Ohio State University, serving as assistant to the director and supervisor of its daily student newspaper.

He joined Sears in 1959 as a member of its national media relations staff.

#90179b0065 06/28/1990 ~Business Wire

SCOTTS VALLEY, CA (JUNE 28) BUSINESS WIRE - Seagate Technology (NASDAQ:SGAT) has again set new standards of disc storage performance with Thursday's introduction of the ST1480 and ST1400 hard disc drives designed for the demanding desktop and downsized workstation market, network file servers and array applications.

Utilizing Seagate's patented ''Zone Bit Recording'' (ZBR), the new high-performance 3.5-inch products offer 426 and 331 formatted megabytes of data storage, respectively. Both products are differentiated by a Seagate-unique spindle rotation speed of 4400 RPM allowing for the industry's fastest data access due to a reduced latency of 6.8 milliseconds.

Coupled with a 14-millisecond average seek time for both read and write commands, and data transfer rates to and from the disc as high as 25 megabits per second, the ST1480 and ST1400 become the industry's 3.5-inch performance leader.

Both new models are available with an embedded SCSI-2 or AT interface and provide AT bus transfer rates of up to eight megabytes per second, and

synchronous SCSI bus transfer rates of up to five megabytes per second.

With typical power consumption of 11 watts idle and 12 watts seeking, the ST1480 and ST1400 disk drives are ideal for high performance PC's with 386/486 processors, network file servers and workstations requiring a 3.5-inch form factor. Synchronized spindle capability makes the drive ideally suited for array applications.

In announcing the new products, Alan Shugart, Seagate's chairman and chief executive officer stated that with the company's 124 megabyte ST1144A now shipping in volume, and the recently announced one-inch high, 42 megabyte ST351A/X, the ST1480 and ST1400 provide a natural extension to Seagate's already broad 3.5-inch product line.

Seagate's 3.5 inch line now features more than 46 models ranging in capacity from 20 to 426 megabytes with a selection of interfaces including ST412, embedded XT and AT, SCSI, SCSI-2 and ESDI.

Designed and manufactured in Oklahoma City, the new ST1480 and ST1400 are built upon the highly successful, field-proven WREN disc drive technology.

Seagate Technology is the world's leading supplier of disc storage products to original equipment manufacturers and remarketers.

#90179b0068 06/28/1990 ~Business Wire

HOUSTON (JUNE 28) BUSINESS WIRE - Florida Gas Transmission Co., Southern Natural Gas Co., Tennessee Gas Pipeline Co., Texas Eastern Transmission Corp., and ANR Pipeline Co. filed a settlement proposal Thursday with the Federal Energy Regulatory Commission (FERC) to jointly build an onshore pipeline to transport up to 900 million cubic feet (MMcf) of natural gas per day from the Mobile Bay area of Southern Alabama.

Upon federal approval of the proposal, the companies will withdraw their previously filed alternate onshore Mobile Bay applications.

''The proposal represents a comprehensive settlement covering our respective onshore projects proposed for the Mobile Bay area,'' said Stanley C. Horton, president of Florida Gas. ''By combining our projects, we have reduced the amount of proposed onshore capacity resulting in a much more efficient system that will provide even greater market access to producers in the Mobile Bay area through the construction of a single pipeline.''

The settlement resolves all non-environmental issues in the companies' onshore proceedings. The companies have proposed the issuance of a conditional certificate delaying the commencement of construction until the FERC's environmental review is complete.

Under the joint proposal filed Thursday, Southern Natural, Tennessee Gas, Texas Eastern, and ANR will own the Mobile Bay Pipeline. It will be constructed by Southern Natural and operated by Florida Gas. The $48 million, 52-mile, 36-inch diameter pipeline will be built from various onshore natural gas processing plants in the Mobile Bay area including those existing or proposed by Mobil, Shell, Exxon and the Jubilee Pipeline Co.

The line will extend from the Mobile Bay area to an interconnection with the Florida Gas line near Citronelle, Alabama.

Florida Gas, Southern Natural, and Tennessee Gas will each have capacity of 200 MMcf/d in the pipeline, and Texas Eastern and ANR will each have capacity of 150 MMcf/d. Southern Natural, Tennessee Gas, Texas Eastern, and ANR will lease capacity in Florida Gas' pipeline equivalent to their respective capacities in the Mobile Bay Pipeline through which they will connect with their existing systems. ANR Pipeline is a subsidiary of The Coastal Corp., a Houston-based energy holding company.

Florida Gas Transmission is a wholly owned subsidiary of Citrus Corp. which is jointly owned by Enron Corp. and Sonat Inc.

Southern Natural Gas, a Birmingham, Ala.-based subsidiary of Sonat Inc., is the major pipeline supplier of natural gas to the Southeast.

Tennessee Gas Pipeline is a subsidiary of Tenneco Gas, a unit of Tenneco, Inc., headquartered in Houston.

Texas Eastern is a subsidiary of Panhandle Eastern Corp. which operates one of the nation's largest interstate natural gas pipeline systems, providing natural gas to the Midwest and Northeast markets.

INGLEWOOD, CA (JUNE 28) BUSINESS WIRE - Locus Computing Corp. Thursday announced the appointment of Richard P. Corben to vice president of strategic planning and business development.

In his new post, Corben will report to Martin C. Waters, president and CEO of Locus.

''Corben has a wealth of experience in the open systems market,'' said Waters. ''His established presence in the industry will provide Locus with the opportunity to expand alliances with major UNIX systems developers in areas such as joint ventures and business partnerships.''

Corben wrote the original proposal for the creation of the Open Software Foundation and was also an X/Open board member while he was the director of planning for research and development in the Apollo Division of Hewlett-Packard.

Previously, he worked at Digital Equipment Corp. in a number of capacities including manager of TOPS 10 operating system development, product manager for DECNET and manager of corporate product management.

''I am very excited by the opportunities at Locus,'' said Corben. ''Locus has unique strengths in heterogenous distributed computing and UNIX at just the time when the market demand for those capabilities is growing dramatically.

''Locus has been the leader in transparent distributed computing since its founding. In combination with its strength in mainframe UNIX and DOS/UNIX connectivity, it is well-positioned for growth in the expanding open systems market.''

Corben holds an M.B.A. in finance from Columbia University and a B.A. in politics from Princeton University.

Locus Computing Corp. is the largest independent developer in UNIX-based connectivity and distributed computing software. The company specializes in developing transparent connections between dissimilar operating environments. More than 150,000 computer installations worldwide incorporate Locus technology and products.

Locus Computing Corp. headquarters are located in Inglewood.

SOQUEL, CA (JUNE 28) BUSINESS WIRE - Network Real Estate of California Inc. Thursday announced that Ed Gresham, former president of the ERA National franchise, joined Network as President/COO effective July 1.

According to Lee J. Danna, ERA network chairman and chief executive officer, ''Ed's knowledge of the ERA system and his national reputation in the real estate industry will be a tremendous asset to Network's growth strategy.''

On May 30, Network became the nation's first publicly traded real estate franchisee.

Gresham was president of ERA National from June 1984 to March 1989. During that time, ERA grew from 1,650 members to 2,000 and was the country's second largest real estate franchise. Prior to joining ERA, Gresham spent 17 years with IBM as a sales representative, branch manager and regional manager.

He served six years in the financial services business with Commercial Credit Co. (now Primerica). Gresham has been a member of ERA Network's board of directors since March 1989.

''The opportunity for Network to build a unique real estate company throughout California is outstanding,'' Gresham said.

''I've known Lee Danna and the Network organization for four years. In my opinion, Network is delivering the kind of support, services and direction to its branch offices and the agents that real estate 'franchises' should be providing. When you combine that with the company's total focus on customer satisfaction, you have a unique consumer services company. This is the place to be!''

Network Real Estate, headquartered in Soquel, began operations four years ago. Today Network has 30 offices and 250 agents throughout Northern California.

According to Danna, Network plans to build a 3,000-agent company throughout California over the next five years.

''Being on the Board of Directors of Network gave me the opportunity to watch the vision of the company become a reality,'' Gresham said.

''The growth of Network into the East Bay and the Sacramento area, the introduction of the Home Services and International Estates Divisions and the stock purchase plan for managers, agents and employees position Network Real Estate as the real estate company for the consumer as well as the career-minded real estate professional. I'm proud to be part of this Network team.''

#90179b0096 06/28/1990 ~Business Wire
LIVERMORE, CALIF. (JUNE 28) BUSINESS WIRE - Twelve oil companies are expected to sign up for the Petroleum Geochemistry Consortium as it enters its second two-and-a-half-year research project in July.

The consortium, which was formed two and a half years ago, is an agreement to help fund Lawrence Livermore Laboratory researchers in continuing their efforts to develop software that will aid in locating oil deposits.

The consortium, when it was formed, included four oil companies -- Exxon, Arco, Chevron and Norsk Hydro of Norway. Since then another four companies have signed up -- Saga, Statoil and IKU of Norway and Japan National Oil. Marathon, Texaco, Conoco and Mobil are expected to sign contracts by July 1.

Under the terms of the new agreement, each oil company will pay $15,000 a year to help fund research to develop computer models. In return, each sponsor receives regular reports on research progress, has access to laboratory data and software, and has direct interaction with LLNL researchers and with each other.

The work over the past three years has concentrated on developing three computer programs, KINETICS, EASY-PERCENT-Ro, and PYROL. Together these programs use data from laboratory experiments at LLNL and elsewhere to determine where and when oil and gas are formed in the subsurface over geologic time.

The reliability of these programs are being tested in various petroleum basins around the world, including the Maracaibo Basin in Venezuela and the Uinta basin in Utah.

''In the future we will be looking to test these models at Williston Basin in North Dakota,'' said Project Leader Alan Burnham of LLNL's Earth Sciences Department.

#90179b0099 06/28/1990 ~Business Wire
EL SEGUNDO, CA (JUNE 28) BIZWIRE - Merisel (previously

Softsel/Microamerica)(NASDAQ:SOFS) Thursday announced an agreement with Digital Equipment Corp. to distribute the company's full line of RISC-based workstation products to U.S. resellers by the end of July.

In this landmark agreement, Digital becomes the first workstation vendor to align itself with a major national computer products distributor in the explosive workstation market.

As the only major wholesale distributor to carry Digital's workstations, Merisel's new Workstation Division will support Digital's products with a large dedicated sales and technical support team, including system engineers, trainers and support staff.

Earlier this month, Merisel announced the creation of a new Workstation Division to support such an agreement as workstation vendors position themselves to establish alternate, two-tier distribution channels.

The agreement with Digital should make a significant contribution to Merisel's sales over the coming years as the Workstation Division focuses exclusively on selling and supporting workstation VARs. The Digital agreement establishes Merisel as the leader in the explosive workstation arena. Digital, with headquarters in Maynard, Mass., is the leading worldwide supplier of network computer systems and services.

Merisel Vice President Kris Rogers now heads the new Workstation Division which is staffed primarily with former Microamerica employees who are experienced in UNIX systems sales to VARs. ''We've accelerated the division's organizational efforts in order to support Digital's products by the time we start shipping in July,'' said Rogers. ''Desktop Presentation and CAD are two of the many markets we will be targeting to maximize Digital product sales.''

Merisel, formerly Softsel/Microamerica, is one of the largest distributors of microcomputer hardware and software products to computer resellers worldwide. The company presently stocks over 7,000 products from more than 400 hardware and software vendors for sale to approximately 30,000 computer resellers in the United States.

International operations account for approximately 30 percent of sales and consist of seven wholly owned subsidiaries serving resellers in Canada, Europe, Latin America, South America and Australia. The company supplies products for microcomputer platforms including Apple Macintosh, IBM and compatibles, and a variety of UNIX systems, in addition to offering a wide range of services to help resellers support these products.

SCOTTSDALE, AZ (JUNE 28) BUSINESS WIRE - Kroy Inc. Thursday announced that it has has reached an agreement with its major unsecured lender.

The agreement is integral to Kroy's plan to successfully restructure its indebtedness under Chapter 11 proceedings.

The existing plan of reorganization filed by Kroy and one of its European subsidiaries will be amended immediately to reflect this agreement.

Kroy and Kroy (Europe) presently anticipate that they will successfully emerge from Chapter 11 proceedings in August 1990. Kroy filed the original petition for protection May 15.

Kroy's reorganization plan calls for an infusion in excess of $5 million for working capital and research and development. The plan will reduce a substantial portion of the more than $60 million in senior and subordinated debt incurred by Kroy and Kroy (Europe) as part of a leveraged buyout in 1986.

Headquartered in Scottsdale, Ariz., Kroy designs, manufactures and markets a high-quality line of visual communications products including labeling, lettering and printing products, signs and supplies. Kroy products are used in government and industry by architects, designers, engineers, printers, secretaries and retail customers. Kroy has major facilities in Osceola and St. Croix Falls, Wis., and Scottsdale, as well as overseas operations in Reading, England; Hannover, West Germany; and Paris.

SAN JOSE, CALIF. (JUNE 28) BUSINESS WIRE - The 12th annual San Jose Club Murphy Awards were announced with Darien & Morra the only agency to receive two of the coveted five Murphys, from a total of 470 entries.

Murphys are granted for exceptional creative work, and are considered Silicon Valley's most prestigious creative awards. In total, Darien & Morra received 2 Murphy's, 3 golds and 3 bronze awards.

Darien & Morra received two Murphys and two gold awards for a single television spot and a television campaign for Taylor Made Office Systems, the exclusive distributor of Canon copiers in the Bay Area. The campaign emphasized the special services and product benefits of Taylor Made and

Canon copiers: Taylor Made's five-year warranty, unique service guarantees and Canon as the recipient of Datapro and Buyer's Laboratory awards for best quality and best copier of the year, through three 30 second TV spots.

Additionally, in package design, Darien & Morra picked up a gold and a bronze for Accolade, a leading entertainment software company, and two bronze awards for a single radio spot and a radio campaign for Westech ExpoCorp., the premier leader in career fairs in the western United States.

The judging panel for this year's Murphy Awards consisted of a distinguished group of creative directors from leading agencies around the nation, including DDB Needham, New York; Bozell Jacobs, Los Angeles; D'Arcy Masius, Chicago and Young & Rubicam, New York.

Darien & Morra was only one of two agencies to receive more than one gold award. Gold award winners are the only awards to be considered for Murphys, a special distinction handed out for the highest quality creative work.

Driven to deliver gutsy and fresh approaches, Darien & Morra is one of the premier advertising and design agencies based in Silicon Valley. Darien & Morra is the recipient of local and national creative awards including: Clios, ADDYS, Murphys, NY and LA Art Director Clubs and Copy Chasers.

Clients include fast-growing consumer, retail and business-to-business companies throughout California. For more information contact Darien & Morra Inc., 2150 N. First St., San Jose, Calif., 95131. Phone, 408/436-0900. FAX 408/436-0959.

SAN FRANCISCO (JUNE 28) BUSINESS WIRE - Jerry Borrell, editor-in-chief of Macworld magazine, announced Thursday that Supermac Technology and Macworld magazine will cosponsor a meeting on ELF emissions.

The meeting will take place the week of July 23, 1990, the tentative date is July 24, in San Jose, Calif.

Borrell said, ''The purpose of the meeting is to establish a working group

or some more permanent body, within the computer industry that will focus on the issue of ELF (extremely-low-frequency) emissions produced by computer monitors.''

The sponsors of the meeting hope to establish a means of tracking information on ELF emissions, a means through which information about ELF issues can be shared among the attendees, and they hope to set up a subsequent meeting of this group with display manufacturers to discuss the ELF issue.

After this initial meeting, Macworld magazine will cease to act in an organizing role and will pursue the findings of the group as a member of the press.

Invited companies and their representatives include: John Akers, chairman of the board, IBM; Ken Olsen, president, DEC; Rod Canion, president and chief executive officer, Compaq; John Sculley, chairman, president and CEO, Apple; Ed McCracken, president and CEO, Silicon Graphics; Scott McNealy, president and CEO, Sun; Mike Boich, president, Radius; Keith Sorenson, CEO and president, Raster Ops Corp.; Steve Vollum, president, E-Machines; ThinhTran, president, CEO and chairman of the board Sigma Designs; Diane Scott, CEO, MegaGraphics; John Young, president and CEO, Hewlett-Packard.

DENVER (JUNE 28) BUSINESS WIRE - Associated Natural Gas Inc. (ANGI), which is the principal operating subsidiary of Associated Natural Gas Corp. (NYSE:NGA), announced Thursday that it has reached agreement with Chevron U.S.A. Inc. to gather coalbed methane gas produced from Chevron's 100-well drilling program in Alabama's Black Warrior Basin.

Initially, all coalbed methane gas production from a four township area will be transported on a new 50-mile 12-inch pipeline connecting Chevron's central batteries to ANGI's two existing gathering systems.

Terms of the agreement were not disclosed.

Methane is a major component of natural gas and is found in large volume in Alabama's massive coal deposits. The University of Alabama and others developed a method to capture the gas for commercial use, and now the Black Warrior Basin is the leading area for coalbed methane development in North America.

The ANGI/Chevron agreement will expand ANGI's gathering system capabilities in Pickens, Lamar, Tuscaloosa, Fayette and Walker Counties in Alabama to approximately 120 miles of pipeline interconnected with Tennessee Gas Pipeline Co. and Southern Natural Gas Co. ANGI anticipates having the entire integrated system operational by Nov. 30, 1990.

DENVER (JUNE 28) BUSINESS WIRE - Daniels & Associates closed a record $1.2 billion worth of cable brokerage and investment banking transactions -- including several of the industry's largest deals -- during the first half of the year, the company reported this week.

Daniels, the nation's oldest cable financial services firm, has closed 20 transactions so far this year, including 14 cable brokerage deals valued at $991 million and six investment banking deals amounting to $193 million.

Daniels' first-half performance is a record. For the comparable period in 1988, Daniels closed 24 transactions valued at $399 million. In the first-half a year ago, the company closed 33 transactions valued at $429 million.

According to industry analysts, Daniels was involved in several of cable's most significant transactions.

Daniels represented InterMedia Partners in its acquisition of Cooke CableVision systems serving 66,150 subscribers in Georgia, Arizona and South Carolina. Daniels represented First Americable Corp. in its sale of 14,350 subscribers in Ohio, Kentucky and Nevada to TCI Holdings Inc.

Daniels' largest financings included a $60 million revolving line of credit and term loan for Service Electric Cable TV Inc., a $45 million revolving credit for Northeast Cable Inc., and a $40 million credit agreement for Adelphia Cablevision.

Daniels has 65 additional transactions in the pipeline involving 846,200 subscribers.

''Despite tougher economic times, we're pleased with our record of getting both investment banking and brokerage deals closed,'' said Brian Deevy, Daniels president and chief operating officer.

''Lenders are tougher, but there's money available, and while it's taking a bit longer to push brokerage deals through, we look forward to the second half with confidence,'' Deevy said.

''The credit crunch and uncertainities about re-regulation just require a more tenacious effort on our part, and that's what we do best,'' Deevy said.

HOUSTON (JUNE 28) BUSINESS WIRE - Continental Airlines Thursday announced that it is extending its Independence Day fare sale, allowing ticket purchases through June 30 instead of the original June 28 ticketing deadline.

''The Independence Day sale has produced a strong reaction in the marketplace,'' a Continental spokesman said. ''This 48-hour extension will allow travelers nationwide to make a last-minute decision in favor of taking a vacation trip.''

The reduced fares offer savings of as much as 51 percent for travel during the Fourth of July holiday period. Travel is $119 or less, each way, anywhere in the mainland U.S.

The sale fares are $49, $79, $99 or $119 each way, depending on the route. The fares apply to travel that begins July 1, 2, 4, 6 or 7, and returns July 4 or later. Otherwise there are no minimum stay requirements.

For a transcontinental trip, the sale fare of $119 each way is 44 percent less than the regular lowest fare of $213 each way.

Tickets must be purchased by June 30, and within 24 hours of making a reservation. They are nonrefundable.

Continental Airlines Independence Day Sale
SAMPLE ROUTES AND FARES

Sample route	Sale Fare	Regular Low Fare	Savings
Denver-Boston	$ 99	$ 192	48 %

LITTLE ROCK, ARK (JUNE 28) BUSINESS WIRE - Worthen Banking Corp. (ASE:WOR) announced Thursday that its Little Rock affiliate, Worthen Bank & Trust Co., N.A., has entered into an agreement with the Resolution Trust Corp.(RTC) to acquire certain assets and liabilities of Independence Federal Bank, FSB (Independence), headquartered in Batesville, Ark., and to operate its 20 offices around the state as branches of Worthen Bank.

Worthen Banking Corp. also announced that Arkansas State Bank Commissioner Bill Ford filed a motion in federal court today to prevent the RTC from consummating the transaction, contending that it would be a violation of state law, which prohibits banks from acquiring and operating branches located outside of the bank's home county.

''We have stated publicly many times that Worthen Banking Corp. is interested in pursuing the prudent purchase of insolvent S&Ls that would allow us to expand our branch network and customer base around the state '' said Curt Bradbury, chairman, president and chief executive officer.

''We are also strongly committed to assisting in the resolution of the S&L crisis in Arkansas and have therefore requested that the RTC use the federal powers granted to it in the Financial Institution Reform, Recovery Enforcement Act of 1989 to override the state restrictions,'' Bradbury

stated.

''Commissioner Ford is a dedicated public servant for the State of Arkansas and is doing his duty as he sees it in attempting to enforce the state bank branching laws,'' Bradbury stated. ''However, Worthen Banking Corp. believes that the RTC is correct in its position that the federal government has the right to override state law to expedite the resolution of the national S&L crisis,'' Bradbury said.

''Beneficial consolidation and strengthening of the financial services industry is needed and is rapidly taking place throughout the country, and we regret that current Arkansas law restricts this process,'' Bradbury said. ''If Arkansas is to grow, Arkansas companies must be allowed to be the driving force in our own state's development,'' Bradbury stated.

Worthen Banking Corp. owns 10 banks and other financial subsidiaries throughout the State of Arkansas and has total assets of $1.8 billion.

SAN DIEGO (JUNE 29) BUSINESS WIRE - Michael A. Sunstein, chairman and chief executive officer of MRI Medical Diagnostics Inc., a wholly owned subsidiary of MRI Medical Technologies Inc., announced Wednesday that negotiations are in process for acquisition of a NASDAQ-listed company in the health care industry.

Potential companies have been identified and are being investigated at this time.

Final documents have been signed with Linc Scientific Leasing for MRI Medical Diagnostics' acquisition of two established diagnostic imaging centers. Closing is expected this week for the following centers:

-- Grossmont Imaging Center, at Fletcher Parkway, in San Diego, is an existing center that is being purchased from Merrill Lynch Imaging Partners of New York. This center presently incorporates a GE 9800 computer tomography (CT), general radiology, mammography, portable X-ray and ultrasound. It is expected to add an average of $400,000 net income the first year to MRI MD's profits and increase to over $850,000 net revenue per year with the addition of Magnetic Resonance Imaging capability.

-- Fort Union Imaging Center, in Midvale, Utah. This center has been operational for three years and is being purchased from Linc Scientific of

Chicago. The center incorporates computer tomography and mammography imaging capability. Management expects that with strong marketing programs the center should generate $300,000 net revenue for MRI MD per year.

Management expects accelerated revenues and profitability for the remaining third and fourth quarters. At least five additional centers are scheduled for opening, which should allow MRI MD to achieve its projected pro forma of $3.5 million net revenues for 1991, or approximately 35 cents per share earnings.

MRI Medical Technologies Inc. is proud of its growth and continues to dedicate itself to developing cost-effective diagnostic care facilities for the public, both domestically and internationally.

CARMEL, IN (JUNE 28) BUSINESS WIRE - Conseco Inc. (NYSE:CNC), a financial services company headquartered in Carmel, announced today that Conseco Capital Partners L.P. (CCP) has completed its previously-announced acquisition of Great American Reserve Insurance Co. (GARCO) from Temple-Inland Inc. for $150 million.

GE Capital provided $98 million in senior and subordinated debt financing for the transaction. GE Capital also is a limited partner in CCP, which provided an equity investment of $7.5 million for the transaction. GE Capital is one of the nations's largest diversified financial insitutions, with assets of $59 billion.

GARCO, rated A+ by A.M. Best Co., markets a diverse portfolio of life insurance and annuity policies, primarily through a career agency force operating in 48 states and the District of Columbia. GARCO had total assets at Dec. 31, 1989 of approximately $890 million and 1989 revenues of approximately $134 million. CCP has closed GARCO's offices in Dallas and will administer GARCO's business through Conseco's insurance operations headquarters in Carmel.

Conseco Chairman Stephen C. Hilbert said, ''We are pleased that GARCO -- already a dynamic, profitable company -- has become CCP's first acquisition. Conseco will begin immediately to enhance GARCO's value by focusing the company's marketing efforts, by consolidating and streamlining its administrative operations, and by actively managing its high-quality investment portfolio. Over the long term, we believe Conseco's shareholders will benefit not only through Conseco's equity interest in CCP, but also through the fees Conseco will receive to manage

all partnership acquisitions and their investments.''

CCP is a Delaware limited partnership to which Conseco Inc. and several institutional investors have committed $70 million in equity capital for the purpose of acquiring and operating life insurance companies.

#90179b0604 06/28/1990 ~Business Wire

TEMPE, AZ (JUNE 28) BUSINESS WIRE - Throughout the last year, IBM has enhanced and expanded its AS/400 product line and began delivering OfficeVision, its new generation of SAA applications software for office requirements.

While it appears that these moves have been a succcess in terms of keeping IBM's competition at bay, it has taken its toll on the overall cost of owning IBM's flagship office systems.

For work groups of 8, 16, 32, 50 and 100 users, the five-year cost of owning IBM systems has increased significantly over 1989. According to the study, this is a result of increases in the price of peripherals, including PCs, and PC software as a percentage of overall system costs.

In addition, IBM's concept of documentation provides only online computer-aided instruction for its host-based applications; insufficient, according to Sierra Group's research with IBM users. Meeting the real documentation requirements of users will significantly add to the cost of owning these systems.

Sierra Group's report, "IBM AS/400 Cost of Ownership," illustrates that in following IBM's strategic lead by implementing graphical OfficeVision, users can expect to incur additional costs ranging from $75,000 ot $400,000 on a 100-user configuration. Given this scenario, IBM will have some serious marketing to do to get graphical OfficeVision accepted in the marketplace.

"Users should fully consider the potential costs involved in choosing graphical OfficeVision," cautions the report, "the investment at the desktop will rise significantly with its addition, but there will be no compensatory drop in the requirement for processing power at the AS/400."

"IBM AS/400 Cost of Ownership," is part of an annual study conducted by the Sierra Group that evaluates the costs of systems offered by leading industry suppliers, including IBM, Digital Equipment Corp., Hewlett-Packard, Unisys, NCR and Wang Laboratories.

Sierra Group is an independent marketing research firm that provides research on computer industry requirements to Fortune 1000 corporations and computer industry manufacturers and to Wall Street, through its research partnership with The First Boston Corp.

DENVER (JUNE 28) BUSINESS WIRE - Nevada Goldfields announced that in a special meeting the holders of the company's 10 percent convertible subordinated debentures, approved a two year interest moratorium on the debentures for the period of Dec. 16, 1989, to Dec. 15, 1991.

In consideration of the forgiveness of approximately US $1.8 million in interest payments during the moratorium, the company will reduce the debenture conversion price from Can $2.65 to Can $1.65. The company will allow any debentureholders to convert at a price of Can $1.40 prior to Aug. 31, 1990.

Of the Can $5,092,000 of debentures voted at the special meeting, approximately 98 percent voted in favor of the moratorium and reduced conversion price.

Nevada Goldfields anticipates that the majority of the debentureholders will convert their debentures to common stock at the reduced conversion rates. The company presently has 9,314,882 common shares outstanding.

Nevada Goldfields Corp. is a Canadian public company that trades on The Toronto Stock Exchange under the symbol NGF, on the NASDAQ under the symbol NGFCF, and on the Stuttgart Exchange, West Germany under the symbol NGF SG.

SAN JOSE, CA (JUNE 28) BUSINESS WIRE - Fujitsu Microelectronics Inc. (FMI), Thursday announced the election of a new executive vice president and chief operating officer, Mitsumasa Ashida, who will assume his new responsibilities by the end of August.

Ashida will replace Taro Okabe, the current executive vice president and chief operating officer of FMI, who will return to Fujitsu Ltd. in Tokyo,

responsible for international marketing support of the Electronic Devices Group.

Ashida has served as general manager of the international technical marketing division of the Electronic Devices Group of Fujitsu Ltd. Prior to this position, he served as the general manager of the international engineering support division.

In addition to Ashida's election, FMI also announced changes to the boards of directors at FMI and its wholly owned subsidiary, Fujitsu Component of America (FCA).

At FMI, Ashida, Rich Christopher and Jun-ichi Mogi will join the board. Christopher is senior vice president and general manager of the integrated circuits division of FMI and FCA. Mogi is deputy general manager of the Electronic Devices Group of Fujitsu Ltd. The change results in an increase of two directors.

At FCA, current board members Matami Yasufuku and Okabe will resign. Yasufuku will remain as president of FMI and vice chairman of Fujitsu Ltd. Hikotaro Masunaga, vice general manager of the Electronic Devices Group and a member of the board of directors of Fujitsu Ltd., will become a member of the board of directors of FCA. Ashida and Christopher will also join the FCA board.

FCA also announced the election of new key officers. Masunaga replaces Yasufuku as president, and Ashida replaces Okabe as executive vice president and chief operating officer.

Headquartered in San Jose, Fujitsu Microelectronics Inc. designs, develops manufactures and markets a broad line of standard and custom semiconductor products and electronic components.

FMI, a wholly owned subsidiary of Fujitsu Ltd., was founded in 1979. The company employs more than 1,300 people with sales of $544 million in fiscal year 1989. FMI has one subsidiary, Fujitsu Component of America, and six operating divisions, including two manufacturing divisions in Gresham, Ore., and San Diego, Calif.

VENTURA, CA (JUNE 28) BUSINESS WIRE - Benton Oil and Gas Co. (OTC:BNTN) announces a revised payable date for its previously announced 2-for-1 split of its common stock.

The split will occur in the form of a 100 percent stock dividend to holders of record of Benton's common stock on July 2. It is now anticipated that the shares will be mailed from the transfer agent by July 9, approximately two weeks earlier than the previously announced payable date.

''We have arranged with our transfer agent to accelerate the distribution of the new shares to our stockholders,'' said John T. Moore, executive vice president. ''This revised date will allow the market to absorb and reflect the increased float and decreased trading prices earlier than we had previously anticipated. The ex-dividend date will be July 10.

''Investors who buy and settle their shares before that date will be entitled to receive the stock dividend.''

Benton Oil and Gas, based in Ventura, is an independent oil and gas exploration and production company with operations in California, Colorado Oklahoma, Texas and Louisiana.

STAMFORD, CT (JUNE 28) BUSINESS WIRE - NYCOM INFORMATION SERVICES INC. (NASDAQ:NYCM) announced Thursday that the company anticipates its first profitable quarter in the quarter ending June 30, 1990, on revenues in excess of $10 million.

This will be the first full quarter of consolidated operations since the company acquired American Network Exchange Inc. on March 29, 1990.

David Lyons, chairman and chief executive officer of NYCOM, said: ''Combining the operations has allowed us to achieve economies of scale and elimination of duplicate overheads resulting in reduced costs. Our ongoing efforts in this direction, along with intensified sales efforts, make the future appear bright.''

NYCOM is a telecommunications company which offers a broad spectrum of standard and enhanced information and operator services to meet the needs of the transient telephone user in the payphone, hotel, hospital and interexchange carrier marketplace.

#90179b0620 06/28/1990 ~Business Wire

LOS ANGELES (JUNE 28) BUSINESS WIRE - Leo's Industries Inc. (ASE:LI) net income for the fiscal year ended March 31, rose to $3,674,000 or 90 cents per share, on revenues of $82,743,000, up from a loss of $2,410,000 or 59 cents per share, on revenues of $65,855,000 a year earlier, Paul M. Cohen, Leo's CEO reported Thursday.

The 1989 results included a loss of $2.9 million from the disposal of an unprofitable manufacturing subsidiary.

Earnings improvements were primarily the result of Leo's strong cellular telephone performance. The company launched its reseller operations on Nov. 1, 1989, recording $2.3 million in gross revenues and a small profit for the March 31 fiscal year. The company's reseller subsidiary, Twentieth Century Cellular, currently has a net base of more than 10,000 subscribers and is adding approximately 1,650 new telephones per month to its reseller base Souther California and another 200 telephones per month as an agent out of its Sacramento, Calif. locations. Twentieth Century Cellular is now generating in excess of $1,250,000 per month in revenues.

The fourth quarter, historically the poorest quarter of the year, reached an approximate breakeven in fiscal 1990, as compared to a substantial loss the year before. ''It is important to note that this year's fourth quarter did not have the benefit of the more than $1 million in cellular agency commissions earned in the fourth quarter last year,'' Cohen stated. ''As a reseller we no longer receive the up-front agency commissions, but we achieve gross profits equal to 24 per cent of our customer's monthly telephone bill for the life of the phone. We estimate that it will take one year for our reseller base to become large and mature enough to offset the monthly new activation commissions received as an agent until November 1989.''

Leo's Industries entered the cellular telephone field some 18 months ago initially as an agent for L.A. Cellular (a cellular telephone carrier in the Greater Los Angeles area). The company subsequently acquired a PUC-certified reseller, commencing operations in November 1989 in Southern California. The company continues to operate as an agent in Northern California.

As an agent Leo's received a significant up-front commission and a small ongoing monthly royalty payment, but did not own the telephone numbers. As reseller, Leo's purchases telephone time wholesale from the carriers and then resells it to its customers.

According to Cohen, the company recently completed an approximately $7 million private placement of stock, primarily to European institutions, the proceeds of which will make it possible to improve and expand both the company's retail and reseller operations.

Leo's Industries Inc. operates Twentieth Century Cellular Inc., a certified reseller of cellular telephone service in California, as well as Leo's Stereo Inc., a 40-store retail consumer electronics chain. These stores feature a diverse selection of brand name audio/video merchandise, but specialize in cellular telephones and in the installation of car stereos and alarms.

SALT LAKE CITY (JUNE 28) BUSINESS WIRE - Utah Medical Products Inc. (NASDAQ: UTMD), a manufacturer and marketer of proprietary medical products for use primarily in the critical care areas of hospitals, announced Thursday a new international distribution agreement.

Utah Medical Products recently signed a new three-year agreement with the Japanese Division of Baxter International (Baxter Japan Ltd.; NYSE: BAX) for approximately $5 million, in which they have purchased exclusive distribution rights in Japan for Utah's Deltran disposable blood pressure transducer.

This exclusivity is based upon minimum guaranteed volumes through 1992.

Invasive blood pressure monitoring is a routine practice in critical care medicine in Japan, as it is in the United States. This exclusive arrangement will enable Baxter Japan Ltd. to solidify an already strong presence into a dominant market share position in this rapidly growing market for critical care products.

Utah Medical is also having discussions with an additional Asian medical products firm to assess potential future joint manufacturing and distribution efforts. This firm is based in Tokyo and has a newly completed manufacturing facility in Singapore. Such an arrangement could also enhance Utah Medical's future distribution of its original critical care products throughout Asia and the Pacific Rim.

LAS VEGAS (JUNE 28) BUSINESS WIRE - Western Acceptance Corp. (WACO), a leader in non-standard insurance premium financing, announces the completion of its acquisition of Citizen Discount and Investment Corp. (Citizens).

Pursuant to a Plan of Reorganization already approved by the creditors of Citizens and confirmed by the U.S. Bankruptcy Court in Missouri, Western Acceptance Corp. will issue approximately 30 million shares of its common stock in return for all the outstanding common stock of Citizens, thereby making Citizens a wholly owned subsidiary of Western Acceptance Corp.

Citizens currently has total assets of approximately $1.7 million and stockholder's equity of approximately $850,000. The Plan of Reorganization became effective on June 27, 1990 as a result of the Missouri Division of Securities granting approval for the sale of $4 million of Secured Investment Certificates by Citizens Discount and Investment Corp.

In an unrelated transaction consummated on June 7, 1990, Western Acceptance Corp. acquired substantially all the assets of Auto Prem Plan, a Texas partnership and one of the oldest insurance premium finance companies in Texas.

Western Acceptance Corp. acquired approximately $2,116,000 in total assets consisting mainly of insurance premium finance receivables for consideration of 11,533,658 shares of the company's common stock and $1,009,000 of the company's two years 10 percent convertable notes and $751,000 of the company's two years 10 percent secured notes.

Robert J. Jirovec, president and chief executive officer stated, ''With the consummation of these two transactions and having our experienced management team in place, WACO is now in a position to begin an aggressive strategy of growth by acquisition of the highly segmented non-standard insurance premium finance industry.''

Western Acceptance Corp. has consolidated total assets of approximately $8.4 million and a shareholders' equity of approximately $2,690,000.

COLUMBUS, OH (JUNE 28) BUSINESS WIRE - Goal Systems International Inc. Thursday announced that on June 25, 1990, CA Management Inc., a wholly-owned subsidiary of Computer Associates International Inc. (CA) filed a lawsuit against Goal, J. William Bennett Co. Inc. and Jerry Bennett.

The suit alleges the violation of copyright, trade secret and ownership rights associated with CA's job rerun product, CA-11, which competes with Goal's RUNTRAC product.

Goal Systems acquired JOBTRAC and RUNTRAC from J. William Bennett Co. Inc. in November of 1988. JOBTRAC is an automated production control system for the MVS operating system. RUNTRAC, a companion product, automates job rerun and restart. Bennett was the owner of J. William Bennett Co. Inc. and became an employee of Goal Systems.

In the suit, CA seeks unspecified monetary damages, an accounting for profits and injunctive relief preventing, among other things, the future marketing or distribution of Goal's JOBTRAC and RUNTRAC products. A hearing on the plaintiff's motion for preliminary injunction is scheduled for July 6, 1990.

While Goal is not yet in a position to judge the merits of CA's claims, the company has voluntarily ceased distribution of RUNTRAC and suspended Bennett without pay.

''Our top priority is taking care of our customers and insulating them from the effects of this suit,'' said Goal Systems President and CEO David C. Wetmore. ''We at Goal have always prided ourselves on our integrity, and we will diligently pursue this matter to its conclusion. Until we resolve this issue to our satisfaction, we will not market RUNTRAC in its current form.''

Goal Systems management estimates that revenue attributable to RUNTRAC during the fiscal year ended Jan. 31, 1990, was less than $1 million.

Goal Systems (NASDAQ:GOAL) designs, develops and markets software grouped into two product lines. The Data Center Management Division consists of a broad range of systems software products for IBM and compatible mainframe computers which allow users to manange, automate, monitor and analyze the use, cost and performance of their data processing resources. The Information Technology Division offers performance support products including computer-based training and computer-based reference software and associated courseware and professional services. Revenue for the fiscal year ended Jan. 31, 1990 was $86.6 million.

NEW YORK (JUNE 28) BUSINESS WIRE - S. Bernstein Enterprises Inc. has acquired the auto lease loan portfolio of New York's Lincoln Savings Bank for $42 million, Stuart Bernstein, the company's principal, announced Wednesday.

Manufacturers Hanover Trust Co. served as investment banker for the Lincoln transaction.

Bernstein, formerly the owner of the largest luxury car leasing company on the East Coast, said he is negotiating to acquire the leasing businesses and loan portfolios of other banks, including ailing savings and loans, banks selling assets to meet capital reserve requirements and banks taken over by the Resolution Trust Co.

According to Bernstein, many banks are finding the leasing business which they entered during the 1980s unprofitable. In competing directly with leasing companies, they offered lower leasing rates but overestimated the residual value of the cars at the end of the lease term.

Consequently they are incurring substantial losses in disposing of the overpriced and unsold cars at the end of the lease period.

Stuart Bernstein was president from 1967 to 1984 of Aleet Leasing Co., which had $100 million a year in luxury automotive leasing business when he sold the company in 1984. S. Bernstein Enterprises is a New York and Florida company.

#90179b0628 06/28/1990 ~Business Wire

DAYTON, OH (JUNE 28) BUSINESS WIRE - NCR today announced new data acquisition software which will integrate applications in NCR TOWER-based systems.

The software, NCR DCF (Data Control Facility), provides end users and systems integrators with standard programming interfaces necessary to automate data collection applications.

''In today's world of open computing, NCR looks to independent software vendors to provide application solutions,'' said Terry Hofmann, industry director for NCR's manufacturing systems. ''We are marketing tools that enable customers, software vendors and systems integrators to create their own solutions.''

With DCF as an application enabler, an application solution can be created or integrated using many of the languages and data base management systems supported on the NCR TOWER UNIX platform.

DCF is system software for the NCR TOWER platform. It inegrates NCR TOWER UNIX functionality, NCR 284X and NCR 2735 data collection terminal support and industry standard TOWER communications into one product. In addition, third party devices such as radio-frequency terminals can be integrated as well.

DCF equips users to collect and route transactions, manage a data collection network, communicate with network services, conduct master clock synchronization and control, and supports application interfaces for integrating data collection in a CIM environment.

DCF also provides a system administrator with a central point of control over a network of data collection devices. Functions that can be performed are: configuration management, data and time control, network status monitoring, program download and diagnostics.

In the area of network services, DCF software allows the TOWER system to communicate with other systems in the CIM environment. The communications facility can be used for sending completed transactions to other systems, or for receiving information downloads to update the local TOWER application database.

Service and maintenance support will be provided by NCR's 15,000 field and software engineers, at 1,300 locations worldwide in 120 countries.

NCR, based in Dayton, develops, manufactures, markets and supports business information processing for worldwide markets.

SAN FRANCISCO (JUNE 28) BUSINESS WIRE - VIVRA Inc. (NYSE:V) Thursday announced that it had earned $2,473,000, or 53 cents per share on revenues of $28,381,000 for the second quarter ended May 31.

This compares to earnings of $2,637,000 on revenues of $23,268,000 for the second quarter of the prior year.

For the six months ended May 31, VIVRA earned $4,753,000 or $1.02 per share on revenues of $55,160,000. This compares to earnings of $4,816,000 on revenues of $45,110,000 for the first six months of the prior year.

Earnings per share are not indicated for 1989 as VIVRA was part of Community Psychiatric Centers and shares were not outstanding at that time.

VIVRA is a healthcare service company which owns and operates dialysis centers throughout the United States and a home health care business in California.

SUNNYVALE, CALIF. (JUNE 28) BUSINESS WIRE - Identix Inc. (NASDAQ:IDXX) (PSE:IDX), a manufacturer of biometric fingerprint acquisition equipment, Thursday announced it has received a letter from the California Department of Justice stating the department's intention to award the CAL-ID Live-Scan contract to Identix.

The notification follows the successful completion by Identix of the state's qualifying benchmark tests.

The contract, which will be the largest Live-Scan fingerprinting equipment contract award to date, calls for Identix to provide up to 600 TouchPrint fingerprint scanning systems to California state, county and city law enforcement authorities. The state will pay the majority of costs for cities and counties that install the machines.

''We expect this contract to contribute up to $40 million to Identix revenue over the next five years,'' said Identix President

Randy Fowler. ''This is also a significant milestone in the industry,'' he continued.

Once installed, the TouchPrint system will allow law enforcement authorities to electronically scan and print fingerprints at the point-of-booking. Simultaneously, the fingerprints can be transmitted over telephone lines to a computer system for identification matching in a fraction of the time it currently takes through manual processing.

''We are very pleased to be able to provide California law enforcement authorities with a system that will make tracking of fingerprints much easier on a statewide basis,'' Fowler commented.

''Furthermore,'' he added, ''this award, coupled with the $3 million Group Bull contract we announced last week, validates the technology and shows that our new industry of biometric identification is on the verge of explosive growth.''

Identix, located in Sunnyvale, designs, manufactures and markets a family of identity verification systems that combine high accuracy with user friendliness.

The company's stock is traded over the counter on NASDAQ and the Pacific Stock Exchange.

#90179b0640 06/28/1990 ~Business Wire

LAGUNA HILLS, CA (JUNE 28) BUSINESS WIRE - Community Psychiatric Centers (NYSE/BSE/MSE/PSE:CMY) Thursday announced earnings per share from continuing operations (exclusive of the spun-off VIVRA businesses) for the second quarter ended May 31 were 52 cents compared with 45 cents for the prior year, a 16 percent increase.

This marks the 84th consecutive quarter in which CMY has posted a positive earnings increase. Total revenues from continuing operations for the second quarter were $102,655,000 compared with $89,598,000 for the prior year, a 14.6 percent increase.

Net earnings from continuing operations and average shares outstanding for the second quarter were $23,928,000 and 46,350,000, respectively, compared with $20,565,000 and 46,199,000 for the prior year.

For the six months ended May 31, 1990, earnings per share from continuing operations were 92 cents compared with 84 cents for the first six months of the prior year, a 10 percent increase.

Total revenues, net earnings and average shares outstanding for the six months ended May 31, 1990, were $187,323,000, $42,739,000 and 46,348,000, compared with $170,331,000, $38,585,000 and 46,194,000 for the similar period of the prior year.

Earnings per share for the first quarter of 1989 included 4 cents attributable to a capital gain on the sale of an old hospital physical plant net of a loss on the sale of a marketable security. No such net equivalent gain exists for the first quarter of 1990.

If these unusual items were excluded from 1989 versus 1990 year to date comparisons, earnings per share would have been 92 cents for the first six months of fiscal 1990 compared with 80 cents for the prior year, a 15 percent increase.

The previously announced acquisition of Brea Neuropsychiatric Hospital, a newly rebuilt 152-bed acute psychiatric hospital owned by Comprehensive Care Corp., was completed June 28, 1990, coincidental with occupancy of the new hospital.

Community Psychiatric Centers continues to estimate earnings per share of $1.80 for the fiscal year ending November 30, 1990.

Community Psychiatric Centers operates a chain of acute psychiatric hospitals located in the United States and United Kingdom.

#90179b0644 06/28/1990 ~Business Wire

NEW YORK (JUNE 28) BUSINESS WIRE - June 28, London-based RTZ Corporation PLC, one of the world's largest mining and metals companies, listed its shares Thursday on the New York Stock Exchange under the symbol RTZ.

The company has a market capitalization of approximately 5.5 billion ($9.5 billion) and also trades on the London International Stock Exchange and the other major European exchanges. RTZ's shares trade on the NYSE in the form of American Depositary Receipts (ADRs), each of which is equivalent to four ordinary shares.

The first 100 ADRs traded were purchased by Ian C. Strachan, RTZ's chief financial officer, on the exchange floor when the market opened at 9:30 a.m.

Ian Strachan was joined for the listing ceremonies by Mr. Ian White-Thomson, president and chief executive officer of RTZ's subsidiary United States Borax & Chemical Corporation, headquartered in Los Angeles, California, and Mr. Jack Bernhisel, senior vice president, finance and law, of Kennecott Corporation, an RTZ subsidiary headquartered in Salt Lake City, Utah.

Since its formation in 1962 through the merger of two, much older British companies, RTZ (formerly Rio Tinto-Zinc) has been noted for its ability to bring large-scale open-pit mining ventures on stream, using innovative project financing. Its operations now form an unrivaled spread of metals and minerals interests and related industrial businesses in over 40 countries, providing RTZ with a firm base for profitable growth well into the 21st century.

RTZ has substantial interests in metals (principally copper and gold, aluminum, iron ore, lead, zinc and silver); energy raw materials (coal and uranium); and industrial minerals (principally borates, titanium dioxide feedstock and diamonds). In addition, RTZ's related industrial activities supply a range of products and services to the construction and general engineering industries in both North America and Europe.

Group companies employ more than 77,000 people, including approximately 12,000 in the United States. Group consolidated net sales for 1989 were 4,832 million ($7,780 million).

RTZ's fundamental objective is to maximize shareholders' overall return by concentrating on the extractive and related industrial areas where the Group has proven expertise.

RTZ's strategy to achieve this objective is based on understanding Group companies' markets and product cycles and on developing countervailing strengths to mitigate the effects of cyclicality. This has resulted in two broad strategic directions for the Group: first, to invest only in high quality, low cost mining projects; and second, to ensure a diverse and balanced portfolio of natural resource and related industrial activities which have a broad geographic spread.

The RTZ group consists of four major wholly-owned subsidiaries and a number of partly-owned companies. Kennecott, wholly owned, comprises principally the North American metals assets and contributed 194 million to net earnings in 1989. The Borax group, also wholly owned, produces borates, silica sands and talc.

Its operations are based mainly in North America and Europe and contributed 99 million to net earnings in 1989. QIT, which is 100 percent owned and based in Canada, produces titanium dioxide feedstock and high purity iron and administers RTZ's 50 percent interest in Richards Bay Minerals. Together QIT and Richards Bay Minerals contributed 86 million to 1989 net earnings.

RTZ Pillar is a wholly owned subsidiary which comprises a number of businesses that manufacture and supply products and services to the construction and general engineering industries and contributed 53 million

to net earnings in 1989. The contributions shown above are before central financing costs of 95 million in 1989.

RTZ's major overseas partly-owned company is CRA, in which RTZ owns 49 percent. CRA is an Australian natural resource company whose subsidiaries produce iron ore, aluminum, copper, gold, diamonds, lead, zinc, coal and other minerals. CRA contributed 157 million to RTZ's net earnings in 1989. RTZ also has a 51.5 percent interest in Rio Algom, a Canadian natural resource company whose principal mining interests are copper and uranium. Rio Algom contributed 15 million to RTZ's net earnings in 1989.

Earlier this year, Standard and Poor's Corporation and Moody's Investors Service assigned long-term debt ratings of AA- and Aa3, respectively, to three RTZ Group debt programs. RTZ is the only mining and metals company to have been assigned a ''double A'' rating.

DENVER (JUNE 28) BUSINESS WIRE - Robert L. Zerga has been named Chairman of the Board and Chief Executive Officer of Independence Mining Company, a gold mining company based in Reno, Nev.

Independence Mining is a wholly owned subsidiary of Minorco (U.S.A.).

Zerga was most recently executive vice president and chief operating officer of Meridian Minerals Company, a subsidiary of Burlington Resources Inc., which he joined in August, 1989. From 1985 to 1989, he was executive vice president and general manager of Newmont Gold Company in Carlin, Nev.

Prior to joining Newmont, Zerga was with Magma Copper Company for fifteen years, after starting his mining career with Kennecott Copper Corporation in Ely, Nev.

Born in Nevada, he holds a bachelor of science degree in electrical engineering from Seattle University, and a masters degree in business administration from Arizona State University.

Zerga will maintain offices in Reno and in Denver. He has also been elected to the board of directors of Minorco (U.S.A.).

Minorco (U.S.A.), Inc. is a Denver-based company involved in mining and natural resource activities in the United States. It is a wholly owned subsidiary of Minorco, based in Luxembourg.

MILWAUKEE (JUNE 28) BUSINESS WIRE - Directors of Federated Bank (OTC:FEDF) declared its 14th consecutive quarterly dividend.

The dividend of 9 cents per share is payable on Aug. 7, to shareholders of record on July 20.

Federated Bank has consistently paid dividends since it became a publicly-held savings bank in February of 1987. The current payment represents an annualized yield of 5.3 percent based upon the current average price of $6.75 per share.

Federated Bank is a publicly-held Wisconsin savings bank headquartered in Wauwatosa, a suburb of Milwaukee, and has ten branches in southeastern Wisconsin. Federated had $297 million in assets as of March 31. It was previously announced that Hopkins Savings and Loan completed their stock subscription offering and would be merging with Federated. The transaction is expected to be completed by early July.

TAMPA, FL (JUNE 28) BUSINESS WIRE - International Container Systems Inc. (NASDAQ:ICSI) Thursday announced revenues and earnings for the fiscal year ended March 31.

Net revenues for the year of $8,974,186 resulted in a decrease of 29 percent from the previous year's revenues of $12,582,638. A net loss of $94,740 or three cents per share decreased from net earnings of $1,427,057 or 49 cents per share the previous year.

The loss in the current fiscal year reflects the additional depreciation on molds ($771,000) recorded in the first quarter and the write down of the TRAYMATE project ($452,000) to its net realizable value in the third quarter along with lower net sales.

The effect of the additional depreciation and the TRAYMATE write down was to lower net income after taxes by $734,000 or 26 cents per share. Net revenues for the fourth quarter of $2,682,902 with net earnings of $174,680 or six cents per share compared with the previous year's fourth quarter revenues of $3,017,424 and net earnings of $207,121 or seven cents per share.

International Container Systems Inc. is a major supplier of proprietary and patented plastic packaging systems for the transport and merchandising of disposable glass and PET plastic bottles of soft drinks.

HAUPPAUGE, N.Y. (JUNE 28) BUSINESS WIRE - Standard Microsystems Corp. (NASDAQ:SMSC) Thursday reported sales and revenues of $20,554,000 for the quarter ended May 31, 1990, an 18 percent increase over sales and revenues of $17,397,000 reported for the quarter ended May 31, 1989.

The company recorded net income of $533,000, or 5 cents per share during this current quarter just ended, compared to net income of $105,000, or 1 cent per share for the corresponding quarter of the previous fiscal year.

Licensing revenues included in sales and revenues for the quarter ended May 31, 1990 were $2,990,000, as compared to $609,000 for the quarter ended May 31, 1989.

The results for the quarter ended May 31, 1990 include litigation costs incurred as a result of legal proceedings initiated by Standard Microsystems Corp. against Texas Instruments Inc. on Jan. 19, 1990.

Standard Microsystems Corp. designs, develops, manufactures and sells standard, custom and semicustom metal-oxide-semiconductor/very-large-scale-integrated (MOS/VLSI) circuits and system products (hardware and software) for use by original equipment manufacturers and end users.

The company's component products are focused primarily in the computer peripherals market with applications in Mass Storage, Communication and Networking.

The company is a leading producer of Local Area Network products and is the largest manufacturer of ARCNET coax, twisted pair and fiber optic system products.

ARCNET is a registered trademark of the Datapoint Corp.

TRENTON, NJ (JUNE 28) BUSINESS WIRE - Versus Technology Inc. (NASDAQ:VSTI) Wednesday announced that telecommunications industry veteran Jim Engelhardt has been appointed Central Region Sales Manager.

Engelhardt has twenty two years of product development, marketing and sales experience in telephone based data transport networks for alarm reporting and automatic meter reading. Since 1968, he has held executive sales and marketing positions with Ameritech Services and Wisconsin Bell, subsidiaries of Ameritech, an early leader in providing telemetry services in the United States.

From 1983 through 1988, Engelhardt was Manager of New Product Development at Ameritech. During that time, he directed the first tariffed offerings of Derived Channel Services and Automatic Meter Reading (AMR) Services in the United States. For the last two years of his tenure with Ameritech, Engelhardt was responsible for the sale of Derived Channel, Alarm and AMR services throughout the Ameritech region of Ohio, Indiana, Illinois, Michigan and Wisconsin.

As Central Regional Sales Manager For Versus, Engelhardt is responsible for marketing the Company's Derived Channel networks and equipment to telephone companies, utilities, and alarm companies in the central United States. Engelhardt serves as a member of the Board of the Automatic Meter Reading Association (AMRA). He holds a B.A. in business from Luther College.

Versus Technology, Inc. designs, manufactures and markets data transport networks that allow telephone companies to offer such new services as automatic meter reading, energy management and alarm reporting. These services can be carried over existing telephone lines without interrupting other uses of the line. Versus is the world leader in this innovative technology, with networks deployed on three continents (North America, Europe and Australia) and over 40 major cities worldwide. Versus equipment is used by more than 100,000 end users who are connected to networks providing automatic meter reading or alarm transport services.

Versus is teamed with industry leaders and some of the world's largest utility meter manufacturers, telephone equipment makers and alarm equipment suppliers, as well as major telephone companies on these three continents.

NEW YORK (JUNE 28) BUSINESS WIRE - Drug Emporium Inc. (DEMP:NASDAQ) Thursday reported 24-percent higher sales for the first fiscal quarter ended May 31, 1990, compared to the corresponding three months a year ago.

For the latest quarter, net sales reached $141.1 million, up from $113.9 million a year ago. Net income amounted to $1,832,000 or 14 cents per share vs. $1,758,000 or 13 cents per share earned in the first fiscal quarter last year.

Chief Executive Officer Gary Wilber, stated, ''We are particularly pleased that the sales momentum established during the second half of last year continued through the first quarter of the current year.''

Sales in stores open the full three months of both years were up 13 percent and he attributed the increase to the refined pricing strategy adopted midway through last fiscal year.

Wilber pointed out that earnings were even stronger than expected with this year's results reflecting continued progress toward leveraging sales increases into higher operating profits. He further noted that last year's quarter benefited from significant vendor rebate of $1 million.

The company opened one new store during the quarter and began operating the three recently acquired stores in Minneapolis. Wilber said he expects a total of 15 to 18 new company-controlled stores to open this fiscal year.

As of May 31, 1990, Drug Emporium, a national deep-discount drugstore chain, owned and operated 84 stores and franchised an additional 112 stores specializing in brand-name health and beauty aids, cosmetics and prescription drugs.

PITTSBURGH (JUNE 28) BUSINESS WIRE - Heck's Inc. (NASDAQ:HEXX) announced that at a special meeting held in Pittsburgh Thursday, shareholders approved the sale of the company's Retail Division to Retail Acquisition Corp. (''RAC''), pursuant to a previously-announced transaction.

The sale of the division is expected to close in July upon the completion of various formalities; there after the company will exit the retail field. Its continuing operations consist of the Steel City Products division, a wholesale distributor of automotive parts and accessories based in Pittsburgh.

At the special meeting, the shareholders also approved a resolution whereby Heck's will change its state of incorporation to Delaware and will change its name to Hallwood Industries Incorporated. This change is expected to occur within the next several days, following which the

company's common stock will continue to be traded on NASDAQ, but with a new symbol: HWDI. The company's stock will no longer be traded on the Midwest Stock Exchange.

DARIEN, CT (JUNE 28) BUSINESS WIRE - ActMedia and Turner Broadcasting System Thursday announced that Checkout Channel, the first live news and information television broadcast viewed at supermarket checkout lanes, will make its debut this August in six markets: New York, Los Angeles, Detroit, Columbus, Atlanta, and Charlotte.

Supermarket chains participating in the initial Checkout Channel broadcast are Kroger (Detroit and Columbus), A&P (Atlanta), Food Lion (Charlotte), Waldbaum's (New York) and Vons (Los Angeles). Two stores from each chain will air Checkout Channel, a new innovative television network.

ActMedia and TBS announced Checkout Channel in May. The new supermarket network will feature news, weather, sports, business and consumer information programming from CNN and Headline News, networks of TBS. It is anticipated that more than 5,000 supermarkets will participate in the program as it unfolds over an 18 month period beginning in early 1991.

Editorial content will comprise 70 percent of Checkout Channel's airtime; programming will be divided into three cycles; daytime, evening and weekend. The daytime cycle will feature news programming targetted to women, evening will target working singles and couples, adn weekend will feature reports on family-oriented issues.

The remaining time will be available for commercial use, as well as to promote TBS programming and cable television. TBS and ActMedia expect Checkout Channel to appeal to traditional supermarket advertisers, such as packaged goods companies, as well as automobile, credit card, apparel and other advertisers who, until now, had no appropriate in-store advertising vehicle. Costs to advertisers will be comparable to daytime tv on a cost per thousand basis.

ActMedia has had Checkout Channel in development for two years. It will be the first television network to offer in-store, live, network, quality, full-motion video with sound. Telecasts will emanate from CNN Center in Atlanta and be transmitted via satellite to each store.

ActMedia is based in Darien, and is a wholly owned subsidiary of Dallas-based Heritage Media Corp., a publicly held company that trades on

the American Stock Exchange. In addition to ActMedia and POP Radio, the two biggest in-store marketing companies, Heritage owns six tv and 11 radio stations.

Turner Broadcasting System Inc., is the leading supplier of programming to the basic cable television industry. TBS is headquartered in Atlanta.

AMSTERDAM, THE NETHERLANDS (JUNE 28) BUSINESS WIRE - Buhrmann-Tetterode nv, the international packaging, office supply and graphic arts company, today announced the completion of a 50-50 joint venture agreement with Koninklijke Nederlandse Papierfabrieken nv (KNP) for manufacturing and distributing corrugated board. The new company, Corrugated Europe B.V. (CE), will incorporate both parties' corrugated board manufacturing operations.

Buhrmann-Tetterode and KNP already successfully collaborate through their RP Europe B.V. (RPE) joint venture, which manufactures corrugated board paper, the main feedstock for CE in the manufacture of corrugated board. The manufacture of corrugated board paper is based entirely on recycled raw materials.

CE's headquarters will be located in the Arnhem area in The Netherlands.

Buhrmann-Tetterode's shares are traded on the Amsterdam Stock Exchange, on the London Stock Exchange under the heading Paper, Printing and Advertising, and in the US in ADR form (symbol 3BUTEY on the electronic OTC Bulletin Board). Buhrmann-Tetterode shares are quoted on the SEAQ International system and prices may be accessed on the Reuters Equities 2000 service under the symbol BUTN.AS and on Quotron under the symbol BUTEN.EU

SILER CITY, NC (JUNE 28) BUSINESS WIRE - Communication Cable Inc. (NASDAQ: CABL), a specialty electronic wire and cable manufacturer of Siler City, announced Thursday that it has concluded the acquisition of Texarkana Wire and Cable Inc. of Texarkana, Ark.

The Texarkana Wire & Cable manufacturing operation was formerly owned by Ericsson Inc. of New York and Sweden, and is a leading supplier of telephone wire and cable in the United States.

The new acquisition will retain the name Texarkana Wire & Cable Co. and will operate as a division of Communication Cable Inc., joining the three existing divisions consisting of Communication Cable Inc., Siler City, Intercomp Wire & Cable, Hayesville, Saxton Wire & Cable, Sanford, and a joint venture operation in Shenzhen, China.

All manufacturing, supervisory and office personnel are expected to remain with the operation.

It is anticipated this new division will make significant contributions to CCI's growth in 1991.

Financing the acquisition will be accomplished largely with industrial revenue bonds.

Communication Cable Inc. is a broad line specialty manufacturer of electronic wire and cable serving the computer industry, instrumentation, broadcast, telecommunications, medical and military markets. It's headquarters are in Siler City.

NEW YORK (JUNE 28) BUSINESS WIRE - Skadden, Arps, Slate, Meagher & Flom is pleased to announce the official opening of the law firm's Brussels office Thursday.

The office is presently being manned full time by Of Counsel Barry E. Hawk and associate T. Andrew Ragusin. In addition, Washington-based Skadden, Arps partner Robert E. Lighthizer, a former Deputy United States Trade Representative, will be in Brussels part time. Morris J. Kramer, a senior merger and acquisition partner based in New York and London, will also spend part of his time in the new office.

Earle Yaffa, managing director of Skadden, Arps, said, ''The success of our London office, the increasing crossborder merger activities within Europe and the demands of our clients for services in Europe have made clear the need for a Firm office in Brussels. We look forward to increasing our European presence under the direction of Barry Hawk, Bob Lighthizer and Morris Kramer.''

Hawk was a Fordham University Law School Professor from 1968 until he joined the firm full time this month. He had become Of Counsel to Skadden Arps in November, 1989. Hawk is internationally recognized in the field of European Community competition law and has worked closely with the EC Commission since 1981, conducting seminars on antitrust analysis for the commission in recent years.

Hawk headed the Fordham Center on European Community Law & International Antitrust from 1984 through the end of the Fordham law school semester this month. He has also lectured and written on antitrust and related subjects and has advised numerous multinational corporations on EC legal developments. His extensive experience in the field includes a three-year chairmanship of the ABA Antitrust Section International Trade Committee and membership, including currently, on the Council of the ABA's Antitrust Section.

Lighthizer has been a Skadden, Arps partner since 1985. He served as Deputy United States Trade Representative from 1983 to 1985. He was also Staff Director and Chief Counsel of the U.S. Senate Committee on Finance under the chairmanship of Senator Robert Dole.

Kramer has been a partner of Skadden, Arps since January, 1975. He has concentrated on mergers and acquisitions and has worked on a number of large U.S. and transnational deals. Since 1987 he has spent part of his time in Europe, largely in Skadden, Arp's London office.

Skadden, Arps is a full service international law firm consisting of more than 1,050 attorneys. The firm is headquartered in New York and has offices in six other U.S. cities as well as in London, Tokyo, Hong Kong, Sydney and Toronto.

CHICAGO (JUNE 28) BUSINESS WIRE - Bally Manufacturing Corp. (NYSE:BLY) announced the award of a test contract for 70 video lottery machines by the West Virginia Lottery in connection with the Mountaineer Park Racetrack in Chester, W.Va.

Terms of the contract were not announced.

Supplied by Bally's Scientific Games Inc. subsidiary, the video lottery machines were installed at the Mountaineer Park Racetrack to test the

viability of the concept and to study the machines' impact on attendance figures at the racetrack. Utilizing a payout based on randomly selected numbers, the maximum prize limit is $1,000. Tickets will also be used during the course of play which will qualify the participant for a future drawing as an added feature.

In commenting on the purchase, Bally Manufacturing Corp. President Roger N. Keesee said, ''Video games are a popular form of leisure time entertainment and we are optimistic that the appeal of these machines will help increase attendance at Mountaineer Park. We are pleased to assist the West Virginia Lottery and Mountaineer Park in the implementation of this program.''

Bally Manufacturing Corp. is a world leader in the gaming and fitness industries with four casino hotels, a nationwide network of fitness centers, gaming equipment and systems, fitness products and lottery products and services.

FORT LAUDERDALE, FL (JUNE 28) BUSINESS WIRE - Cancer Treatment Holdings, Inc. (NASDAQ:CTHI) Thursday announced that its board of directors has authorized the purchase from time to time through September 25, 1990 of up to 10 percent of the company's currently outstanding common stock in the open market, or through private purchases of unregistered shares.

Shares purchased in the open market may be purchased at their then bid price, or within a quarter of a point of such price. Purchases from holders of unregistered shares may be made at such price and on such terms as are determined by the company's management. No shares shall be purchased from affiliates of the company.

Commenting on the announcement, Kenneth L. Scott, president of CTHI, said ''This authorization reflects our Board's confidence in the long-term prospects of the Company and our belief that the repurchase of company stock at current price levels is an attractive use of corporate assets.''

CTHI, through its subsidiaries, organizes, develops, manages and owns equity positions in free-standing, outpatient radiation therapy treatment centers. CTHI also recently opened IMPACT Centers in Tampa and Hollywood, Fla. Through a joint venture with Response Technologies, Inc., CTHI offers dose-intense chemotherapy services at its IMPACT Centers.

#90179b0731 06/28/1990 ~Business Wire

HUNTSVILLE, AL (JUNE 28) BUSINESS WIRE - Chris H. Horgen, chief executive officer of Nichols Research Corp. (NASDAQ:NRES), Thursday released the operating results for the third quarter of fiscal 1990.

Revenue from contracts amounted to $20,715,784 for the three months and $52,312,580 for the nine months ended May 31, 1990, as compared to $14,656,211 for the three months and $37,489,776 for the nine months ended May 31, 1989. This represents increases in revenues from contracts of 41 percent and 40 percent, respectively.

Net income was $957,570 for the three months and $2,620,790 for the nine months ended May 31, 1990, as compared to $741,301 for the three months and $2,017,774 for the nine months ended May 31, 1989, for increases in net income of 28 percent and 29 percent, respectively.

Net income per common share was 27 cents for the three months and 74 cents for the nine months ended May 31, 1990, as compared to 22 cents for the three months and 59 cents for the nine months ended May 31, 1989.

This represents increases in net income per common share of 23 percent for the three months and 25 percent for the nine months ended May 31, 1990, over the three months and nine months ended May 31, 1989.

The company's backlog was $244,526,186 (including options of $84,008,280), at May 31, 1990, as compared to $205,906,276 (including options of $71,008,771) at May 31, 1989. New contract awards amounted to approximately $90 million for the nine months ended May 31, 1990, as compared to $129 million for the nine months ended May 31, 1989.

The company has not included approximately $32 million of new contract awards received in early June 1990 in any of the award or backlog numbers presented above.

Nichols Research Corp. is a Huntsville-based company which provides advanced technical services for military systems through contracts and subcontracts with agencies of the Department of Defense. The company's stock is traded on the Over-the-Counter Market under the NASDAQ symbol: NRES.

#90179b0736 06/28/1990 ~Business Wire

CAMBRIDGE, MA (JUNE 28) BUSINESS WIRE - Lotus Development Corp. Thursday announced several executive changes designed to help the company take advantage of current and future market opportunities.

The company said Donald P. Casey, vice president of networking and engineering at Apple Computer, will become vice president of the newly unified spreadsheet division, effective July 15.

Casey will oversee the development and marketing of the company's family of spreadsheet products, including those for personal computers, UNIX workstations, minicomputers and mainframes. He will report to Frank King, senior vice president of Lotus' Software Business Group.

Lotus also said Frank Ingari, formerly vice president of the Personal Computer Spreadsheet Division (PCSD), will become vice president of the Emerging Markets Business Group, focusing on attracting new users to personal computing, with particular emphasis on medium and small business and the home office.

In addition, David Roux, formerly vice president of the Information Services Group (ISG), will become vice president of business development focusing on corporate strategy issues, and June Rokoff will become vice president of the Communications and Information Services Group.

Rokoff, most recently vice president of the Graphics and Information Management division, will be responsible for ISG products and Lotus Notes, a group communication software package the company introduced in December 1989. Ingari, Roux and Rokoff will report to Jim Manzi, president and chief executive officer.

The company now is organized around five decentralized business units: the Software Business Group, the International Business Group headed by senior vice president Stephen Crummey, the Consulting Services Group headed by vice president Frank Moss, the Communications and Information Services Group and the Emerging Markets Business Group.

''With this new organization, we are better aligned to take advantage of current and future opportunities, from our core software business and our growing communications and information services businesses, to the major opportunities we see in developing products and services for a very large and as yet untapped new user community,'' Manzi said.

''We're especially pleased to have Don Casey join our management team. Our mission is to maintain our leadership in application software development in the network computing era of the 90s,'' Manzi said. ''Don brings to us a new dimension of networking technology development experience and will help us focus on emerging network computing opportunities.''

Casey joined Apple in July 1988 and has been responsible for the company's networking and communications strategy and products, including AppleTalk and related technologies. He also has been responsible for the Apple II and for development of next-generation computing platforms.

Prior to Apple, Casey worked for IBM for 21 years in a variety of management positions. He was vice president of communications hardware in IBM's Communications Products Division before joining Apple.

As vice president of the Emerging Markets Business Group, Ingari first will assume responsibility for launching Lotus MarketPlace, a sales prospecting tool that runs on the Apple Macintosh.

''Products like MarketPlace will help attract new classes of users to personal computing,'' Manzi said. ''This is an ideal starting point for Frank to lead us in developing additional products and services that help Lotus further penetrate the growing small and medium business, and home office market segments.

''Since taking charge of PCSD in November 1988, Frank has been responsible for delivering core products such as 1-2-3 Release 3, 1-2-3 Release 2.2, 1-2-3/G and Symphony 2.2 to market and has executed a number of key technology agreements that have allowed us to maintain our dominant market share, despite increasing competition.''

Ingari joined Lotus in September 1987 as vice president of corporate marketing and business development and was named vice president and general manager of PCSD in November 1988.

Roux, who joined Lotus three years ago when the company acquired Datext, of which he was co-founder and chief executive officer, will assist Manzi on corporate strategy issues and will be responsible for marketing and business development issues that overlap the company's business groups.

''David has helped grow our information services business by developing a solid market position for our One Source products, getting Lotus MarketPlace ready for launch and leading our work with Lotus Realtime and our multimedia efforts,'' Manzi said. ''He brings invaluable industry perspective to his new assignment.''

Rokoff, who joined Lotus in 1986 when the company acquired ISYS Corp.,

will oversee the Communications and Information Services Group. She was named vice president of the Graphics and Information Management division in August 1989 and previously was general manager for Lotus 1-2-3 Release 3.

''June joined Lotus from ISYS, one of two businesses that form the basis for our One Source product line,'' Manzi said. ''The One Source product line provides essential information to the world's leading financial institutions. Since its introduction late last year, Notes has exceeded our expectations, in terms of marketplace interest. Our One Source products provide essential financial data and Notes helps organizations communicate information effectively. June's organization will explore opportunities for enhancing the productivity gains our customers realize from both our information and communications products.''

Rokoff's former responsibilities will remain within the Software Business Group.

Lotus Development Corp. is the leading provider of applications software for personal computers and information services delivered on CD-ROM, and a worldwide supplier of applications software for workstation, minicomputer and mainframe computing environments.

BIRMINGHAM, AL (JUNE 28) BUSINESS WIRE - Bruno's Inc. (NASDAQ/NMS:BRNO) Thursday announced that Ronald Bruno, president and chief operating officer, has been elected to replace his father, Angelo Bruno, as the company's chief executive officer. Angelo Bruno will continue as chairman of the board.

The company also announced that Paul F. Garrison will return to Birmingham as president of a newly formed Birmingham Division. Replacing Garrison as president of Piggly Wiggly Southern in Vidalia, Georgia will be William J. White, currently Executive Vice President - Marketing and Operations.

Commenting on the announcements, Angelo Bruno said, ''We are pleased to announce the promotions of all three of these very experienced and capable executives. We believe this orderly management transition will help ensure a continuation of the long-term growth of Bruno's.''

''The outlook for Bruno's is excellent,'' said Ronald Bruno. ''We are in the process of expanding both of our distribution centers and plan to open about 50 new stores over the next two years. The new Birmingham Division will continue to serve markets within a 300- mile radius of central

Alabama and Piggly Wiggly Southern will serve Georgia and portions of northern Florida and South Carolina.''

Angelo Bruno has been with the company since its inception. He became chief executive Officer in 1977. Since then the company's sales have grown from just over $200 million to well over $2.0 billion.

Ronald Bruno joined the company full time following graduation from college in 1973. He was elected president and chief operating officer in 1986.

Bruno's Inc. is a leading regional food retailer, operating a total of 230 stores in Alabama, Georgia, Mississippi, Florida and Tennessee. The company's shares trade on the National Market System under the NASDAQ Symbol BRNO.

NEW YORK (JUNE 28) BUSINESS WIRE - The trustees of MONY Real Estate Investors (MONYREI) declared a fourth fiscal quarter liquidating dividend of $1.00 per share payable on July 20 to shareholders of record on July 11.

The trust's operating cash flow, before net gains from sales of investments and market value adjustments was 10 cents per share for the quarter ended May 31.

This compares with cash flow of 13 cents per share for the preceding quarter.

At the end of its fiscal year, the trust adjusted the book value of its remaining assets to the estimated market value. The estimated book value at year end (prior to the distribution announced Thursday) was $72.5 million, or $6.81 per share.

The valuation of the assets reflects the current unsettled commercial real estate market which has declined substantially since the Trust commenced its liquidation. It should be noted that because of the unsettled market, it is difficult to assess the current value of certain assets.

Subsequent to the end of the fiscal year, the Trust reached an agreement to sell certain loans in its mortgage portfolio for approximately $16 million, which was equivalent to its book value.

The following summarizes MONYREI's results of operations for the year

ended May 31 as compared with the same periods of the prior year:

CHICAGO (JUNE 28) BUSINESS WIRE - Jay B. Walters has been promoted to chairman and chief executive officer of Blunt Ellis & Loewi Inc. effective immediately, announced James R. Boris, chairman, president and chief executive officer of Kemper Securities Group Holdings Inc. (KSGH).

Walters, who will be reporting to Thomas E. Meade, president and chief operating officer of Kemper Securities Group (KSG), succeeds Thomas S. Franke, who resigned his post in late May to pursue other interests.

''Jay is an extremely accomplished senior executive with extensive managerial experience,'' said Boris, ''we are very excited that he will leading this fine organization.'' ''Throughout his career, Jay has demonstrated exceptional administration skills in an industry that is fiercely competitive. He is the ideal candidate to assume this important post at Blunt Ellis & Loewi.''

''Jay joined Blunt Ellis & Loewi in May, 1990 as director of corporate finance and in the short period of time he has been with the firm has demonstrated strong leadership and management skills,'' Boris continued. Prior to joining Blunt Ellis & Loewi, he was president of Commercial and Investment Banking for First Bank System (FBS), based in Minneapolis,

Minn. Responsible for a staff of 2,000 and $10 billion in assets, Walters managed FBS' commercial, corporate, leasing, international, cash management, capital markets and merchant banking operations, as well as its Wisconsin Division. From 1983, when he joined FBS, to 1987, Walters was the chief executive officer of FBS Wisconsin, with overall responsibility for operations, and the firm's commercial, retail and trust lines of business in that state.

Walters also was an executive vice president with Sears Bank and Trust Company's Banking Group, and spent ten years with the Harris Trust and Savings Bank, ultimately reaching the position of vice president and division head of Financial Consulting/Corporate Finance.

Walters received an M.B.A. in Finance from the University of Missouri in 1970, and a B.A. degree in Speech from the University of Illinois at Urbana-Champaign in 1968.

Blunt Ellis & Loewi Inc., is Kemper's top brokerage firm in mutual fund assets under management. Based in Milwaukee and Chicago, and licensed as a broker/dealer in all 50 states and the District of Columbia, Blunt Ellis & Loewi does most of its business in the midwestern states. Founded in 1928, the firm has approximately 520 investment brokers and a retail branch system of 71 offices throughout the Midwest.

KSGH includes Kemper Securities Group, Kemper Capital Markets, which coordinates institutional sales, underwriting and trading for the firms, and Kemper Clearing Corp., which specializes in back office and clearing functions. Kemper Securities Group's brokerage firms are: Bateman Eichler Hill Richards, Inc., based in Los Angeles; Blunt Ellis & Loewi Inc., based in Milwaukee; Boettcher & Company, Inc., headquartered in Denver; Lovett Underwood Neuhaus & Webb Inc., headquartered in Houston; and Prescott, Ball & Turben, Inc., based in Cleveland.

KSGH is one of three operating units of Kemper Financial Companies Inc., which is a holding company for the financial services subsidiaries of the Kemper Corp. The other two units of KFC are Kemper Financial Services Inc., a major investment management and financial products company, and Kemper Investors Life Insurance Company (KILICO).

#90179b0763 06/28/1990 ~Business Wire

BOSTON (JUNE 28) BUSINESS WIRE - Clinical Data Inc. (NASDAQ:CLDA), a multinational medical company, Thursday reported sales and earnings for its fiscal fourth quarter and year ended March 31, 1990.

Revenues from continuing domestic and foreign operations for fiscal 1990 were $8.1 million, a decrease of 17.7 percent over the $9.8 million reported a year ago. Net income for the year was $1,030,000 compared to net income of $20,000 for the same period a year ago. The improvement in net income primarily resulted from a gain from the divestiture of the Diagnostic Services Division reported in the last quarter of fiscal 1990.

In the fourth quarter, sales from continuing operations were $2.4 million compared with $3.0 million for a same period a year ago. The company reported net income of $1,583,000 for the fourth quarter compared with a net loss of $260,000 a year earlier.

Israel M. Stein, M.D., president, said, ''With the successful divestiture of the Diagnostic Services Division in the last quarter of 1990, and with the stabilization of business activity in our foreign and domestic operations, the company is now working on identifying new opportunities for future growth.''

Clinical Data Inc. is a multinational medical company offering computer-based services and products for pharmaceuticals research, clinical laboratories, and health care practitioners. The company provides ambulatory monitoring services and technology used in cardiovascular drug research.

The company's Dutch subsidiary, Vital Scientific NV, designs and manufactures blood analysis instrumentation which is marketed worldwide. EnviroMed Inc. collects and disposes of medical and hazardous waste from small quantity generators.

#90179b0765 06/28/1990 ~Business Wire

BIRMINGHAM, AL (JUNE 28) BUSINESS WIRE - Birmingham Steel Corp. (NYSE:BIR) Thursday announced that it has initiated engineering and environmental impact studies for a proposed project to double the melting capacity and upgrade the rolling operation at its mini-mill facility in Jackson, Miss.

This project, which the company currently estimates will require capital expenditures of $35 million to $45 million, includes replacement of the facility's melt shop furnace and continuous caster. Depending upon receipt of operating and environmental permits, the expansion project

should be completed in the summer of 1992.

James A. Todd Jr., president and chief executive officer of Birmingham Steel, stated: ''Our market penetration and growth in the attractive southeast steel market has been restrained by the capacity limitations of our Mississippi facility. With the encouragement and support of local authorities, economic development agencies and Mississippi Power and Light Co., we are pleased that the capacity expansion project may soon become a reality and significantly expand the horizons of our flagship operation in Mississippi.''

Todd continued: ''The progressive leadership of Governor Mabus and the enthusiasm of the local community are attractive enticements for continued business investment in Mississippi. We look forward to this challenging growth opportunity for Birmingham Steel and to continuing our economic commitment to the Jackson community.''

Birmingham Steel operates steel mini-mills producing steel and steel products, primarily reinforcing bar, and is the largest U.S. manufacturer of steel roof support systems used in underground coal mining. The common stock of Birmingham Steel Corp. is traded on the New York Stock Exchange under the symbol ''BIR''.

NEW YORK (JUNE 28) BUSINESS WIRE - The Dun & Bradstreet Corporation

announced today that Mary Johnston Evans has been elected a director of the company, effective immediately.

Evans currently serves on the boards of Baxter International, CertainTeed Corporation, Delta Airlines, Household International and Sun Company. She also is a member of the advisory board of Morgan Stanley, Inc. and a senior member of The Conference Board. In addition, she is a trustee of The Brick Presbyterian Church in New York, of Carnegie Hall and of several Scudder AARP Funds.

''We are most pleased to have Mary Evans joining the board of directors of The Dun & Bradstreet Corporation and look forward to benefiting from her experience and many capabilities,'' said Charles W. Moritz, chairman and chief executive officer.

Her previous affiliations include serving on the board of directors of AMTRAK (National Railroad Passenger Corporation), a position to which she was appointed by the President of the United States in 1974. She was a director from 1974 to 1980, and served as vice chairman of the board from 1975 to 1979.

Evans attended Wellesley College and the University of Oklahoma. The Dun & Bradstreet Corporation is the world's largest marketer of business information and related services, with worldwide operating revenue of $4.3 billion in 1989.

NEW YORK (JUNE 28) BUSINESS WIRE - ECC Group plc (NASDAQ: ECLAY), the parent company of the minerals and construction materials group, completed the issue of a second tranche of US $200 million Auction Preference Shares (''APS'') yesterday, Wednesday, June 27th.

The shares, which are denominated in US dollars, were sold in the form of Auction Preferred American Depositary Shares in a private placement to US investors. The average dividend rate for the initial dividend periods is 7.69 percent. The placement agents were Goldman Sachs & Co. and Merrill Lynch Capital Markets.

On June 12th 1990, the company received shareholder approval to acquire Georgia Kaolin for a consideration of $520M and has secured the financing for the acquisition.

As a result of the APS issue, the company has, as envisaged in the circular to shareholders giving details of the proposed acqusition, been able to reduce the committed three year multi-currency credit facility, arranged to finance the acquisition, from $600M to $400M. This facility was successfully syndicated earlier this month by Chase Investment Bank Ltd.

The company also announced in its circular its intention, whether or not the acquisition was completed, to make disposals of certain existing non-core ECC interests to raise, in aggregate, at least 100M pounds during 1990 and 1991, and the first of these sales was completed by the successful placing of its 29.02 percent shareholding in Bryant Group plc on June 18th for a net consideration of 49.9M pounds.

Through the issue of the APS and sale of its stake in Bryant, the company has now strengthened its balance sheet with the addition of permanent capital and has virtually eliminated net debt.

The acquisition remains subject to certain conditions, including relevant regulatory consents, and work on satisfying these is proceeding.

With sales of approximately $1.6 billion, U.K.-based ECC Group is a leading producer of industrial minerals for the paper, specialty chemical and ceramic industries worldwide. It produces kaolin (or china clay), calcium carbonate, ball clay and other industrial mineral products. The company is also engaged in the production of construction minerals and home building.

PHILADELPHIA (JUNE 28) BUSINESS WIRE - Emma C. Chappell, 49, vice president, Urban Development Services Department at Contintental Bank, here, Thursday announced that, effective June 29, she is leaving the bank on a three-month, unpaid leave of absence to serve as full-time chairman of the board of United Bank of Philadelphia, a black-controlled commercial bank currently being formed.

Since July 1987, Chappell, who has been employed by Contintental for 31 years, has been leading the effort to form Philadelphia's only black-controlled commercial bank. United Bank's board has agreed to cover her salary during her leave of absence from Continental, and to acquire office space for her in a center city location.

According to Chappell, her decision was prompted by the momentum and progress of United Bank's organizing effort in recent months. ''While we struggled to raise $500,000 in capital over our first two-and-a-half years '' said Chappell, ''we have now raised an additional $2 million in just the past six months. That being the case, we have received commitments for half the $5 million capital requirement.

Chappell, who administered a commercial loan portfolio at Continental, is a 1982 graduate of the American Bankers Association's Stonier Graduate School of Banking at Rutgers University. A member of the board of directors of the Philadelphia Industrial Development Corp. (PIDC), she also serves as a member of the Pennsylvania Economic Development Partnership Board.

While there are black-controlled commercial banks in 32 U.S. cities and five such institutions in Chicago, there has not been a black-controlled commercial bank in Philadelphia since 1956.

VANCOUVER, BRITISH COLUMBIA (JUNE 28) BUSINESS WIRE - Naxos has entered into an agreement with Thorneco Inc. of Payson, Ariz. to construct a portable pilot plant for use at the Death Valley, Calif. property. The purpose of the unit is to evaluate the economic potential of extracting precious metals from the water underlying the property. Cost of the pilot unit is estimated at $20,000.00.

Franklin Mine Property (Death Valley Junction, Calif.)

Reverse circulation drill testing of the tailings dump from the former Borax mine is to begin immediately. The program is to confirm prior reports of the precious metal values contained therein. The tailings pile is estimated to contain 400,000 tons grading .2 ozs. gold/ton and a tailings pond carrying 200,000 tons grading .11 ozs. gold/ton reported by the company in a news release dated June 1, 1990.

The tonnage and values are taken from an Engineer's Report to the Franklin Mining Corp. by Carrol Sachs, certified engineer, dated May 22, 1989.

Economic feasibility will be addressed upon confirmation of assays from these tests.

Shumway Lake (Kamloops, British Columbia)

Assay reports from Shumway Lake are not available at the time of this release and will be forthcoming under separate cover.

Dease Lake (Thibert Cree, British Columbia)

Production reports will be released as received by the company.

Chile

Naxos Chile Exploration (Phase I) has now reached completion.

Appointment

Jimmy John, president of the company, is pleased to announce the appointment of Robert K. Williams III to the board of directors of Naxos Resources Ltd.

Williams is vice-chairman and managing director of Koala Springs U.S.A. Inc., as well as the principal stockholder in the company.

Williams resides in Danville, Calif., and adds a wealth of administrative experience to the board.

U.S. Application

Naxos Resources Ltd. hereby announces that it has retained A.B. Korelin and Associates Inc. as regulatory consultants to assist the company in preparing a registration statement for submission to the United States Securities and Exchange Commission (S.E.C.).

Upon approval of the registration statement with the S.E.C., Naxos intends to apply for listing of the company's shares within the United States.

COLUMBUS, OH (JUNE 28) BUSINESS WIRE - Joseph Mezera, president of The Mezera Co., recently announced that his company has been named the Authorized Dealer for Juris Inc. throughout the state of Ohio.

Juris is a leading international brand of software for law firms and corporate legal departments. The Nashville, Tenn.-based company has just signed a marketing agreement for cooperative software with International Business Machines Corp. under which IBM will market selected Juris software for the IBM computer line. That software includes Time and Billing, Docket/Case Management, Conflict Avoidance, Trust Accounting, General Ledger and Accounts Payable, among others.

''As a Juris Authorized Dealer, we work directly with law firms using, or considering, Juris software to provide not only the software, but training and on-going support,'' said Mezera. ''Juris views its Authorized Dealers as branch offices, allowing us to work with, rather than compete against, a law firm's preferred equipment supplier. It's a great situation for everyone.''

The Mezera Co., 500 W. Wilson Bridge Rd., was founded in 1981 and provides computer solutions for attorneys throughout the state of Ohio, specializing in the automation of law firms and Probate/Juvenile courts.

#90179b0813 06/28/1990 ~Business Wire

STAMFORD, CONN. (JUNE 28) BUSINESS WIRE - Olin Corp. announced Thursday that it has agreed to sell its interest in the Alby-Olin sodium chlorate joint venture to its partner, Stora Kemi of Sweden, for $53 million.

Additionally, Olin said the proposed sale of the sulfuric acid business received a negative ruling from the Federal Trade Commission yesterday, and the company is now evaluating options regarding that business.

John W. Johnstone, chairman and chief executive officer, said that the gain on the Alby-Olin sale will not materially impact quarterly or full-year results since the gain will be offset by environmental charges and other non-recurring items.

Commenting on overall Olin results, Johnstone said that ''1989's second quarter was the best of any quarter in the company's history and we expect the 1990 quarter to be about 15 to 20 percent below the prior year's record.''

He noted in particular that ''Olin's swimming pool chemical results are significantly behind due to unusually cool and wet weather. However, changes in the company's mix of businesses and certain timing issues are expected to contribute to strong second-half earnings and should result in full-year earnings at the lower end of the company's target range of $6.00 to $6.40 per share.''

''Even with the sale of the sodium chlorate unit we remain committed to being a major supplier to the pulp and paper market,'' said Johnstone. ''Moreover, we are developing new technologies for electrochemicals, including some targeted at the pulp bleaching market.''

Olin said the proceeds from the sale of the sodium chlorate business will be use to retire debt. The closing of the sale, which is subject to various conditions, is expected shortly.

The transaction includes Olin's interest in a corporation in Canada, which has a manufacturing facility in Valleyfield, Quebec, as well as Olin's interest in a sales partnership in the United States.

NEW YORK (JUNE 28) BUSINESS WIRE - Quantum Chemical Corp. announced Thursday that a new 300 million pound per year linear low density polyethylene (LLDPE) plant has been brought on stream by Quantum's USI Division at its Morris, IL, site.

The new reactor, the second LLDPE line for Quantum's Morris plant, brings the total effective LLDPE capacity at Morris to 550 million pounds. This capacity, combined with that of Quantum's LLDPE plants in Houston and Port Arthur, TX, brings the company's total LLDPE capacity to approximately 935 million pounds per year.

The new plant employs the Unipol(R) process, based on fluid-bed, gas-phase technology. It features a new extrusion system providing very tight control of polymer temperatures, which will enable Quantum to produce products of optimum quality and consistency.

Quantum Chemical Corp. has operations in petrochemicals and propane marketing.

#90179b0825 06/28/1990 ~Business Wire
NEWPORT, KY (JUNE 28) BUSINESS WIRE - NS Group Inc. (ASE:NSS) announced Thursday that it has entered into a letter of intent with Ambridge Tube Corp., Houston, to acquire the Koppel Steel Works (KSW) and Ambridge Rolling Mills (ARM) facilities, formerly operated by the Tubular Products Division of Babcock & Wilcox, an operating unit of McDermott International

Inc.

In January, 1990, Babcock & Wilcox entered into a definitive agreement to sell the KSW and ARM facilities to Ambridge Tube Corp.

The KSW facility, located in Koppel, Pa., contains a state-of-the-art melt shop installed in 1985 and has the capacity to produce 400,000 tons of steel products annually.

The ARM facility, located in nearby Ambridge, Pa., contains a modern tube making facility installed in 1976 and is designed to make specialty tubing including bearing, mechanical, pressure and oil country tubing.

The Koppel facility will supply steel blooms to the ARM facility for manufacturing tubular products. Both KSW and ARM have remained idle since 1988, when Babcock & Wilcox closed the facilities.

NS Group has demonstrated a strong track record of successfully restarting shuttered steel facilities. The company's two core operating facilities, Newport Steel Corp., a manufacturer of tubular steel products, and Kentucky Electric Steel, a manufacturer of steel bars, were both acquired after their respective former owners idled the facilities.

Acquisition of the Babcock & Wilcox facilities will bring further synergies to NS Group's existing tubular goods product lines, as well as provide the steel manufacturer further diversification into additional tubular and bar markets.

Consummation of the transaction is subject to negotiation and execution of a definitive agreement and satisfaction of all conditions contained in such agreement, including, but not limited to, financing for the project.

NS Group Inc. is a holding company that owns four operating subsidiaries: Newport Steel Corp., a tubular steel producer; Kentucky Electric Steel Corp., a producer of steel bars; Erlanger Tubular Corp., a processor of tubular products; and Imperial Adhesives Inc., an adhesives manufacturer. NS Group Inc.'s common stock (symbol:NSS) is traded on the American Stock Exchange.

#90179b0835 06/28/1990 ~Business Wire

CLEARWATER, FL (JUNE 28) BUSINESS WIRE - Robert S. Wiggins, chairman and chief executive officer of Technology Research Corp. (TRC), (NASDAQ:TRCI), Thursday reported that the company's revenues for the fiscal year ended March 31 were $7,400,042, a four percent decrease compared to $7,701,000

reported in the preceding year, and the net loss for the current year, substantially due to year-end write-downs of inventory account balances, was $849,670 compared to the prior year's loss of $214,272.

Wiggins stated that the lower revenues were primarily due to the bankruptcy of one of the company's customers, a Department of Defense prime contractor, as well as reduction in military product shipments brought about by a change in electrical generating set design by the Department of Defense and the resulting time required for First Article testing.

These events reduced military revenues by approximately $1 million from the previous year. Sales of the company's Ground Fault Circuit Interrupter (GFCI) products continued to expand during the fiscal year increasing approximately $600,000 over the prior year to $4,425,000.

The net loss for the fiscal year ended March 31 was approximately $635,000 higher than that of the preceding year. Two significant adjustments identified as part of the year-end closing explain most of this difference.

The first adjustment reflected the establishment by the company of an additional $240,000 allowance for excess, slow-moving and obsolete inventory.

The second adjustment, a $365,000 reduction in inventory value, resulted from a comparison of the actual physical inventory taken on March 31, with the balances reflected in the company's accounting records.

A determination that the company's existing method of calculating its cost of goods sold did not adequately identify isolated manufacturing variances inefficiencies and other discrepancies, has caused the company to effect procedural changes for determining quarterly inventory valuations so as to avoid such inventory adjustments in future periods.

The company is carefully monitoring the upcoming change in the National Electrical Code, effective Jan. 1, 1991, which will require hair dryers and certain other personal grooming products to be manufactured with electrical safety features such as Ground Fault Circuit Interrupters (GFCI) or Appliance Leakage Circuit Interrupters (ALCI).

In late 1989, the company's licensee, Windmere Corp., a leading U.S. producer of electrically operated personal care products with Far East manufacturing facilities, introduced a line of personal care products utilizing the company's patented GFCI/ALCI technology.

In addition, Tower Manufacturing Inc., a U.S. supplier to other personal care companies, also with manufacturing operations in the Far East, has been granted a sublicense to produce these safety products.

The company made significant progress in new product development during the year and commenced delivery of two new major products, the user-attachable and reduced size rainproof GFCI plugs. In addition, product quality improvements were designed and successfully incorporated into the manufacturing process.

The company will also report a loss for its first fiscal quarter of 1991 and believes that its operations will continue to be adversely affected until military shipments return to normal levels and the change requiring electrical safety devices to be installed in certain personal grooming products is implemented.

Cost reduction programs have been put in place to bring expenses more in line with expected revenues.

TRC, a Florida based corporation, is engaged in the design, development, manufacture and marketing of electronic control and measurement devices related to the distribution of electrical power.

#90179b0844 06/28/1990 ~Business Wire

WASHINGTON (JUNE 28) BUSINESS WIRE - AT&T (NYSE:T) Thursday said it plans to lower prices on its interstate and international long-distance services by more than $300 million beginning Sunday, July 1.

The company announced last month it expected to be able to lower its long-distance prices by at least $100 million. The Federal Communications Commission recently ordered greater reductions in the fees AT&T and other long-distance companies must pay to local telephone companies for access to customers' telephone lines, which enabled AT&T to reduce its prices further.

The price cuts apply to AT&T's basic long-distance service, operator-handled calls, calls from the United States to Canada and AT&T's optional calling plan, Reach Out America.

The decrease, AT&T's 11th since 1984, brings total reductions in long-distance prices to almost 43 percent in the six-and-a-half years since the breakup of the Bell System.

AT&T said the following changes take effect Sunday:

- Prices on direct-dialed, out-of-state calls will drop an average 5

percent during the evening calling period (5 p.m. to 11 p.m. Sunday through Friday). During weekdays (8 a.m. to 5 p.m. Monday through Friday), prices on such calls will drop an average one-half percent.

- The price of the Reach Out America evening discount plan will drop to $7.80 from $8.15 per month. The price of the 24-Hour Reach Out America plan remains at $8.70; the price of the basic plan remains at $7.15. For all three plans, additional hours of calling will drop to $6.60 -- or 11 cents per minute -- from $6.90. The price of the Reach Out Half-Hour Plan will drop to $4 from $4.35 per month.

- The per-minute prices of operator-handled calls will drop an average of 3 percent. The service charges on those calls will not change.

- Prices will be lowered during the initial minute of calling on all calls to Canada at all times of day.

- All calls to interstate directory assistance will cost 60 cents; the one free call per month to interstate directory assistance will be eliminated.

- The Bahamas and Ghana will be added to the AT&T Reach Out World calling plan.

- USADirect Service will be available from Luxembourg and Zimbabwe, bringing to 80 the number of countries and areas that are part of the service. USADirect Service allows callers overseas to be connected directly to an AT&T operator without first speaking to a foreign operator. Calls are billed at AT&T prices, and callers generally avoid hotel surcharges.

AT&T filed its proposal to lower prices with the Federal Communications Commission Thursday.

#90179b0847 06/28/1990 ~Business Wire

MARKHAM, ONTARIO (JUNE 28) BUSINESS WIRE - International Semi-Tech Microelectronics Inc. (''ISTM'') Thursday announced the results for the first quarter ending April 30, 1990.

Net income increased 100 percent to $1,439,000 or 11.2 cents per share (11

cents per share fully diluted) on revenue of $59.8 million compared to net income of $721,000 or 6.5 cents per share (6.3 cents per share fully diluted) for the same period in 1989. During the fourth quarter of 1989, the Company's ownership percentage of Semi-Tech Microelectronics (Far East) Limited (''STMFE'') decreased to approximately 41 percent from 51 percent.

Due to this reduced investment, STMFE has been accounted for on an equity basis in the first quarter of 1990 so reported revenues cannot be properly compared to the previous year.

James H. Ting, President and Chief Executive Officer of International Semi-Tech Microelectronics Inc. stated,''I am pleased to report that our earnings per share have increased 72 percent over the same period last year despite a 22 percent increase in shares outstanding. These earnings are on target as traditionally our first quarter reflects the post-Christmas sales slump.''

Ting further commented: ''We have had an exciting first quarter with the acquisition of the Consumer Products and Sewing Divisions from European Home Products PLC (Singer Europe), the purchase of 20 percent of Tomei Industrial (Holdings) Limited, a consumer audio products company, and a number of financing activities, including the planned sale of 80 percent of Singer Taiwan, the partial payment of the Singer Furniture note and the new Rights Issue in STMFE, all of which will see us raise in excess of CDN $200 million. ''STM Systems Corp. continues to be a leader in its field and is in the process of further strengthening its western presence with the acquisition of Manitoba Data Services (MDS) scheduled for completion by July 31, 1990. We continue to invest in STM Systems to further strengthen its base as demonstrated by the recent opening of our new Ottawa Systems Integration Centre. I look forward to expanding on these events at our Annual Meeting which will be held on July 26, 1990 at 4:00 p.m., Commerce Hall, Commerce Court West, Toronto.''

International Semi-Tech Microelectronics Inc. is a Canadian public company headquartered in Markham, Ontario whose shares are listed on the Toronto Stock Exchange trading under the symbol ISE. Semi-Tech Microelectronics (Far East) Limited is listed on the Hong Kong Stock Exchange, symbol 448.

#90179b0850 06/28/1990 ~Business Wire

CAMBRIDGE, MA (JUNE 28) BUSINESS WIRE - The United States District Court in Boston ruled that Paperback Software International and Stephenson Software Ltd. infringed Lotus Development Corp.'s copyright in Lotus 1-2-3

by selling their respective software programs, VP-Planner and The Twin, Lotus announced Thursday.

Federal Judge Robert E. Keeton held that Paperback and Stephenson copied the Lotus 1-2-3 user interface, which is protected by Federal copyright law.

In an opinion issued today, Federal Judge Robert E. Keeton ruled, ''The user interface of 1-2-3 is its most unique element, and is the aspect that has made 1-2-3 so popular. That defendants went to such trouble to copy that element is a testament to its substantiality...I determine that copyrightability of the user interface of 1-2-3 is established.

''Not only is the copying in this case so 'overwhelming and pervasive' as to preclude, as a matter of law, any assertion of independent creation ... but also, defendants in this case have admitted that they copied these elements of protected expression,'' Keeton added.

Lotus filed suit against Paperback and Mosaic Software Inc.

in January 1987, charging the defendants deliberately copied, keystroke for keystroke, the spreadsheet module of Lotus 1-2-3, the company's best-selling spreadsheet software. The case was tried in February and March 1990 in United States Federal District Court in Boston.

''Today's decision is a victory not only for Lotus, but for the software industry as a whole,'' said Tom Lemberg, Lotus's vice president and general counsel. ''The Court's ruling reaffirms Congress's intent to protect software innovators from imitators. This is good news for developers who, without protection, might find it unfeasible to market their creations and for customers who depend on new technology to advance the effectiveness of their businesses.''

Lotus Development Corp. is the leading provider of applications software for personal computers and information services delivered on CD-ROM, and is a worldwide supplier of applications software for workstations, minicomputers and mainframes.

#90179b0859 06/28/1990 ~Business Wire
BOSTON (JUNE 28) BUSINESS WIRE - PC Week (Ziff-Davis Publishing) Thursday made several announcements concerning the publication's growing technical coverage.

These announcements are highlighted by the appointment of Frederic E.

Davis as editor, technology, establishing Davis as the director of PC Week's expanding reviews and analysis capabilities.

Davis, a 7-year veteran of Ziff-Davis Publishing, is charged with reinforcing PC Week's position as the premiere PC-based multi-platform technology publication. Davis comes to PC Week from its sister publication, PC Magazine, where he was director, PC Magazine Labs.

''Fred Davis has personally made great contributions to the continued rapid increase in the capability of PC Magazine Labs,''said William Ziff, chairman of Ziff-Davis, ''Fred is the most qualified man I know to oversee the ongoing development of PC Week's multi-platform reviews and testing.''

Davis' experience includes roles as editor-in-chief of MacUser and A+ magazines, a columnist for The San Jose Mercury News, and author of 10 books on computing including four books relating to IBM-standard technology and the first book on desktop publishing. Last year he was named by Micro Times as ''one of the 100 most influential leaders in the computer industry,'' and is frequently quoted in BusinessWeek, The Wall Street Journal, The New York Times, USA Today, US News & World Report, The San Francisco Chronicle, The San Francisco Examiner and has appeared on The CBS Evening News, ABC News, ABC Business World, The Financial News Network and Wall Street Journal TV.

Davis' appointment coincides with PC Week's announcement of a state-of-the-art testing facility capable of gauging the interoperability of standalone and server-based products and technologies. The new lab facility is nearing completion at PC Week's future headquarters in Medford Mass.

''PC Week is thrilled to be able to harness Fred Davis' expertise and knowledge of the PC industry,'' said Sam Whitmore, PC Week editor-in-chief. ''Particularly important is Fred's background with virtually every operating environment characteristic of corporate AMerica's PC installed base.''

PC Week has also named David Methvin to the position of lab director. ''With his experience as executive editor of PC Tech Journal and as senior technical analyst here at PC Week, David is perfectly suited to head up our hands-on testing operation,'' Whitmore said. Prior to working at PC Week Methvin worked for Data General Network Services and General Electric Industrial Electronics Division.

Additionally, Linda Bridges has been named PC Week reviews editor. ''Linda's 5-year history of technical reporting will be instrumental in keeping our reviewing process as timely as possible,'' said PC Week Editor Ed Passarella. ''It is essential that a reviews editor understand the

interrelationship of technical depth, accuracy and timeliness. Linda does this without parallel.''

By MICHAEL STRAUSS - Comtex Washington Correspondent

WASHINGTON (JUNE 28) COMTEX - U.S. banks require greater securities powers through comprehensive legislative reform in order to effectively compete in the global arena, the chairman of J.P. Morgan & Co. Inc. said today.

"U.S. banks are inhibited by their inability to underwrite equity securities or hold them," said Dennis Weatherstone. "American banks cannot underwrite equities in what is still the world's major market for equities -- the United States. So they lose out on opportunities to manage global equity issues, for either foreign or U.S. concerns."

Weatherstone, testifying before a House task force studying the competitive situation of U.S. financial institutions, added that even though domestic banks have underwriting powers for equities abroad, the underwriting ceiling of $2 million per foreign subsidiary and $15 million for all such subsidiaries are a major impediment in winning merger and acquisition business.

"Although we have a limited ability to underwrite equity securities outside the U.S., it is tough to influence clients when you can't underwrite in the U.S.," he said. "Full powers to underwrite equity securities would benefit U.S. banks by putting them on an equal footing with competitors in the merger and acquisition business."

Weatherstone stressed the need for wholesale financial reform which would address federal deposit insurance, the Glass-Steagall Act, which generally bars banks from securities activities, interstate banking, and the use of "firewalls" which impose regulatory restrictions on banks and their securities affiliates.

"We can't manage our institutions efficiently with firewalls when international competitors have universal banking," said Weatherstone.

"Instead of tackling the firewall problem, we must tackle the whole issue - Glass-Steagall, Regulation K, insurance deposits. We must reform the whole system."

Weatherstone believes the answer lies in better supervision rather than increased regulation.

"Regulation and law should be framed in such a way that they are beneficial for the client, whether he's an individual or a corporation," Weatherstone said. "The answer is not in regulation but in supervision. Let's get rid of the too-big-to-fail syndrome. Supervision starts at banks. If they don't conduct themselves properly, then they should be allowed to fail."

Rep. John J. LaFalce (D-N.Y.), the chairman of the task force, noting that J.P. Morgan operates as a global institution although it is incorporated in Delaware, asked Weatherstone what was to stop J.P. Morgan from switching to a foreign charter in order to avoid restrictive U.S. banking laws.

"When we look at our position, we look at the position of our competitors," Weatherstone said. "We feel we would do better to push for changes necessary to compete rather than switch. What would push us over? I don't know. But we're not there yet. That's why I'm down here today."

SCHEDULE 13D

SEC - AMENDMENT NUMBER: NONE

GROUP LED BY DH PARTNERS LP OWNS 900,700 SHARES (47.90%) OF DIVERSIFIED HUMAN RESOURCES INC (TICKER: HIRE) OF DALLAS, TX.

ANNOUNCEMENT:

DH Partners intend to ask Diversified Human Resources to call a special shareholders' meeting at which they will consider and vote upon a proposal to remove all members of Diversified Human's board of directors, excepting Gary Steeds and Joy Perkins, without cause and effective as of the time of approval of such proposal by the registrant's shareholders; to consider and vote upon the proposal to elect Donald A. Bailey, John S. Mitchell and

Edward G. Hoke as replacement to registrant's board, if proposal is approved.

On May 30, 1990, William M. Brothers granted DH Partners an irrevocable proxy covering 645,000 shares.

The shares are pledged to Hallmark Service Corp. as security for certain loans made to Brothers, who is presently in default on the loans.

Of those shares, 643,500 are being held by the Resolution Trust Corp. as a successor-in-interest to Hallmark.

On the same date, DH Partners signed a letter agreement whereby DH would attempt to acquire a controlling interest in Diversified Human.

The agreement provides that Brothers would assist DH in its purchase of shares owned by First California Property and Casualty Insurance Co. Inc. and those owned by Hallmark, subject to the liens of the RTC.

The First California shares were acquired on May 30, 1990 for $409,420.

DH has commenced negotiations with the RTC concerning the release of shares from the lien and has had to institute litigation against the RTC to halt foreclosure on the shares.

DH and the RTC have signed a standstill agreement that has stayed the litigation.

LATEST TRANSACTION:

On May 30, 1990, DH Partners bought 255,700 shares in a public auction for $1.60 each from First California Property and Casualty Insurance Co. Inc.

PURPOSE:

Formation of partnership.

WASHINGTON (JUNE 28) COMTEX - The 8-K report filed at the SEC shows Daisy Systems Corp. announced on June 20, 1990 that Daisy, its bondholders and secured creditor have not been able to reach a mutually satisfactory resolution to their differences.

As previously announced on May 30, 1990, certain of DAZIX' bondholders filed a petition for involuntary bankruptcy against it and its wholly owned subsidiary, Daisy/Cadnetix Inc., in Denver Colorado. Additionally, Heller Financial, DAZIX' secured lender, has notifed DAZIX that Heller would not extend the termination date of its "standstill agreement" past June 15, 1990 and would not guarantee DAZIX' purchases of workstations from Sun Microsystems Inc., as requested.

DAZIX is the operating subsidiary of Daisy Systems Corp.

WASHINGTON (JUNE 28) COMTEX - The 8-K report filed at the SEC shows on June 12, 1990 Scientific NRG Inc. engaged McGladrey & Pullen as its independent accountants, replacing Blanski, Peter, Kronlage & Zoch.

The former accountants' reports on the financial statements of the company for the past two years were qualified as to whether the company would continue as a going concern and stating the company has suffereed recurring losses from operations and has seen significant declines in its working capital and shareholders' equity.

Scientific NRG reports the qualification and statement of uncertainty as to the future of the company as a going concern were not factors in its dismissal of Blanski, Peter, Kronlage & Zoch.

WASHINGTON (JUNE 28) COMTEX - The 10-K report filed at the NASD shows Clinical Data Inc. earned $1.03 million (including an extraordinary gain of $408,000 and a gain of $1.34 million from discontinued operations), or $0.35 per share, on revenues of $8.07 million for the fiscal year ended March 31, 1990.

This compares with net income of $20,395 (extraordinary gain of $188,000 and a loss of $447,000 from discontinued operations), or $0.00 per share, on revenues of $9.80 million in fiscal 1989.

-30- 646

#90179c0039 06/28/1990 ~Comtex

WASHINGTON (JUNE 28) COMTEX - The 8-K report filed at the SEC shows on June 19, 1990 Lone Star Technologies announced that the Massachusetts Bay Transportation Authority (MBTA) had filed three lawsuits against Lone Star in Massachusetts Superior Court.

MBTA seeks damages of $18 million, trebled under Massachusetts law, arising out of the transit authority's purchase of about 33,500 concrete crossties which the MBTA alleges are defective.

The MBTA crossties are among approximately 5000,000 concrete crossties which Lone Star previously announced were aging prematurely. The ties were manufactured at Lone Star's San-Vel plant in Littleton, MA. Other purchasers of the crossties have commenced actions against Lone Star and subsidiaries.

As previously announced, Lone Star has sued the suppliers of the cement used for the crossties and a testing company which performed work on the aggregates used in the crossties.

Lone Star reports it believes it has meritorious defenses to the actions brought by the purchasers of crossties. Lone Star believes it has substantial insurance coverage and anticipates favorable results of its claims against the cement suppliers and the testing company.

SYDNEY (JUNE 28) - Australian scientists are claiming a world breakthrough in skin grafting by using cultures grown from infants' foreskins.

Researchers at the Prince of Wales Children's Hospital here have developed a radical process which they say is the first to produce a full thickness of skin that is not rejected by the body.

Dr. Mark Eisenberg, who heads the project, said the technique had already been successfully used for skin grafts on several children afflicted by a distressing skin condition.

Now the team was looking to set up a cultured skin bank to deal with burns and other emergencies, as well as to help thousands of people with skin diseases.

Dr. Eisenberg said skin from any part of the body could be used to produce the culture, but foreskins circumcized from infant boys provided the most readily available live source.

Paediatrician Kieran Moran, who is a member of the Skin Bank Project, said in an interview with Agence France-Presse that small pieces of foreskin were treated in the laboratory and broken down into individual cells.

The individual cells were then placed in a culture medium, where after about three weeks they produced enough skin to cover a small coin.

Dr. Moran said that other researchers in countries including France and the United States had previously been able to grow the epidermal or outer layer of skin in laboratories.

"But for the first time we have been able to grow the dermis or inner layer of skin as well," he said.

"This is grown separately from the epidermis, and one layer is put on top of the other in the laboratory. They then fuse together and this is what is grafted."

Dr. Moran said that whole cultured skin had also been grafted on to several Australian Army volunteers who wanted to get rid of unsightly tattoos.

"The results were excellent and we found that the grafted skin continued to grow."

Dr. Moran said the first beneficiaries of the cultured skin were five infants afflicted by Epidermolysis bullosa, a rare hereditary disease whose sufferers are known as "cotton wool babies".

SANTA BARBARA, CA (JUNE 28) - More than 300 homes went up in flames Wednesday in fires believed to have been started deliberately in the area round Los Angeles.

Seventeen firemen were injured east of Los Angeles while trying to extinguish a huge bushfire in Riverside County. In Santa Barbara County north of the metropolis, fire raged across 1,500 hectares (4,500 acres), leaving 280 homes gutted in Santa Barbara and Goleta, a police spokesman said.

A petrol station was set on fire and inmates of Santa Barbara prison had to be evacuated. The flames threatened to spread to the ranch of former President Ronald Reagan.

Police said an incendiary device had been found at the spot where the fire started.

"The fire is incredible. It came down from the mountains. It spread everywhere. It burned everything in its path," said police spokesman Tim Grasey.

In the classy Los Angeles suburb of Glendale, 32 houses were completely or partially gutted. At least a dozen mansions were completely destroyed, according to firemen and police who said arson was suspected.

About 100 kilometers (60 miles) east of Los Angeles, 15 homes were destroyed near El Cerrito in Riverside County. A spokesman for the California forestry department said the blaze there had been started accidentally when forest wardens tried to burn undergrowth.

In Orange County south of Los Angeles, 600 hectares (1,500 acres) went up in flames. The blaze spread to neighboring San Bernardino County threatening Sleepy Hollow. Three homes were burned down and 2,000 people were evacuated.

NEW DELHI (JUNE 28) - More than 50 Kashmiri Hindu migrants have died of heatstroke in the northern Indian city of Jammu, reports said Thursday.

Nearly 46,000 Hindus have sought shelter in Jammu in the wake of anti-Indian militancy in the Kashmir valley. The Hindus are not used to the heat of Jammu are ill-equipped to face it, the reports said.

The Jammu region is reeling under a heatwave with day temperatures ranging above 40 centigrade.

Inadequate medical facilities, water shortage and lack of electricity at makeshift camps added to the discomfort of the migrants, the reports said.

At one camp on the banks of the River Tawi, three children died recently of snakebites, the reports said.

KUALA LUMPUR (JUNE 28) - Malaysia's largest trade union group accused the government Thursday of trying to make political capital out moves by lobbyists in the United States to deny Malaysia trade privileges because of alleged abuses of workers' rights.

The Malaysian Trades Union Congress (MTUC) which denied any connection to the lobbyists said its 46 affiliated unions would meet Wednesday to take a stand on three petitions urging Malaysia's removal from the list of countries entitled to benefits under the U.S. Generalised System of Preferences (GSP).

Among the petitioners are the American Federation of Labour-Congress of International Organisations (AFL-CIO) which has asked the U.S. Trade Representative's office to withdraw the privileges on the ground that Malaysia is abusing workers rights.

"We have no connection in any way whatsoever with the petitioners," said MTUC Secretary-General Vethamuthu David, who has been the target of attacks by top government officials since the petitions were filed late last month.

Mr. David called the attacks by Prime Minister Mahathir Mohamad "a calculated move" to destroy the MTUC and undermine workers rights, particularly in the electronics industry, where some 130,000 workers have not been allowed to form a national union.

Dr. Mahathir has said that many of the American, Japanese and other electronics companies attracted to Malaysia by moderate wages and political stability could move elsewhere if trade unions made unreasonable demands.

The government has allowed electronics workers to form in-house unions which the MTUC claims have little bargaining power.

"Unskilled workers in a Japanese company are being paid 400 dollars (148 U.S.) a month after 10 years service," Mr. David said.

#90179d4730 06/28/1990 ~French/German News Agency

TAIPEI (JUNE 28) - Taiwan is setting up its first privately run aircraft manufacturing company as a step to developing an aviation industry,

Industrial Development Bureau (IDB) Director Yang Shih-chien said Thursday.

An office to be set up Friday will raise 60 percent of the projected 10 billion Taiwan dollar (364.96 million U.S.) capital needed for the company from private sources over the next two or three years, Mr. Yang said.

The remaining 40 percent will come from the state-run Communications Bank and the cabinet's "Economic Cooperation Development Fund," according to Mr. Yang, coordinator of the Committee for Aviation and Space Development.

He said he expected aviation to replace electronics as Taiwan's leading industry in 10 years and have total production worth six billion U.S. dollars a year.

Economics Minister Vincent Siew said last week that the aviation and space industry was expected to become the island's locomotive industry and bring in foreign technology to help upgrade related fields.

Mr. Yang said the new company would seek technical assistance from the Taiwan military to produce spare parts for aircraft engine manufacturer Union Technologies Pratt and Whitney and for the airplane makers Boeing Commercial Airplane Co. and McDonnell Douglas Corp.

The production would be under "offset credit" agreements contained in purchasing contracts the three U.S. firms have signed with Taiwan flag carrier China Airlines (CAL) and the private Eva Airways.

The agreements call for the American firms to provide Taiwan with technology to make spare parts and later to buy parts made here.

CAL bought six Boeing 747's valued at 773 million U.S. dollars and four tri-engined MD-11's worth 448 million dollars in early 1988, and Eva Airways signed contracts in October to buy 12 Boeing airliners and 14 MD-11's worth 3.6 billion dollars for delivery from 1991.

The planned company would also train aviation and space specialists and engage in aircraft leasing and maintenance for the Asian market, Mr. Yang said.

COLOMBO (JUNE 28) - Security forces have shot and killed 35 Tamil rebels, while guerrillas were continuing their siege of a major army camp in Sri Lanka's extreme north, military officials said Thursday.

Government troops shot dead 12 guerrillas of the Liberation Tigers of Tamil Eelam (LTTE) in the eastern town of Kalmunai during "clearing up operations" and killed five more in nearby areas on Wednesday, a military spokesman here said.

He said nine LTTE fighters were killed in eastern Ampara district after security forces overran a fortified rebel hideout in the Unnachchi area, also Wednesday, recovering several AK-47 assault rifles, mortars, self-loading rifles and 20 claymore mines.

Troops also ambushed LTTE guerrillas in neighbouring Trincomalee region Wednesday, killing nine rebels in two separate areas, the spokesman said.

Four soldiers were also reported injured when they stepped on a cluster of mines in Trincomalee.

Meanwhile, the LTTE continued its siege of the Dutch-built Jaffna fort, where some 250 army soldiers and policemen have been holed up since fighting between Tiger guerrillas and the government erupted June 11 after 14 months of peace talks.

The military spokesman said the LTTE rained mortars and shells into the sprawling 17th-century fort throughout Wednesday night, but he said the army had managed to air drop food to the besieged forces.

Minister of State for Defence Ranjan Wijeratne said earlier Thursday that food in the fort was running out and that attempts to evacuate seven wounded men had not been successful.

"They (LTTE) have stubbornly encircled us, but are weak after the bombings" by the air force on Monday, he told reporters here.

"The LTTE is determined to hold up their positions," Mr. Wijeratne said.

LONDON (JUNE 28) - The thinning of the Arctic icecap is expected to be an early consequence of the earth's ''greenhouse warming'', the British scientific journal Nature reported Thursday.

Scientist have measured significant thinning of the ice between 1976 and 1987, reports Peter Wadhams, of the Scott Polar Research Institute of the University of Cambridge.

Wadhams' research springs from data gathered in 1987 by a British submarine that carried an ice-profiling experiment in the Arctic Ocean in which the route closely approximated that of an earlier voyage in 1976.

The submarine used a 48-kilo-hertz upward-pointing echo sounder, and was backed up by two remote-sensing aircraft that measured the ice profile at the surface. A combination of both sets of data yielded the ice profile.

The results were startling: ice in a zone extending more than 400 kilometres to the north of Greenland thinned significantly between 1976 and 1987, corresponding to a loss of more than 15 per cent of the ice over an area of 300,000 square kilometres.

#90179d5810 06/28/1990 ~French/German News Agency

INGOLSTADT, West Germany (JUNE 28) - The West German Audi AG auto manufacturer, a subsidiary of Volkswagen, has been offered 150 sites in West Germany and abroad for its next engine plant, a company spokesman said here on Thursday.

In Paris, earlier, informed sources had suggested that Audi was planning to install the plant in France, probably in Lorraine.

"We have 150 possible sites, in West Germany, in the European Economic Community or even outside the EEC. We must see which is the most favourable place. A decision will be taken at the end of the year," the spokesman told AFP.

The plant would involve investment of about 1.5 billion Deutschemarks (about 937 million dollars) and would create 1,200 jobs.

In February the company said that it planned to build an engine plant in East Europe, in East Germany, Hungary or Czechoslovakia.

#90179d5900 06/28/1990 ~French/German News Agency

BEIJING (JUNE 28) - China intends to pursue its austerity program aimed at cooling the overheated economy despite speculation it might abandon the program, the China Daily said Thursday.

The belt-tightening drive begun in September 1988 "will on no account be stopped halfway, despite the mounting economic difficulties," the English-language daily said, citing a commentary last week in Beijing's Economic Information newspaper.

Economic Information said certain steps recently announced by the State Council to moderate some of the austerity measures prompted a "misbelief" in economic circles.

In recent months, the government has eased its credit policy, lowered interest rates for both loans and savings deposits, increased investment and cut the special tax for color television sets.

But Economic Information said these moderating steps had been misinterpreted as stepping back from the retrenchment program in the face of too many stubborn problems, such as a sharp drop in industrial production, production halts at many businesses and a rise in unemployment.

It said that given these facts, one could imagine that persisting in the retrenchment could "make the situation worse and thus disrupt the stability of society."

Stability has become a top priority since the pro-democracy movement was crushed on June 4, 1989.

Yet it was "unavoidable" that problems would crop up as officials "impatient for quick results had forced through the austerity measures too rapidly and too fiercely," citing an overly harsh tightening of credit during the first three quarters of 1989.

PARIS (JUNE 28) - The French water company, Compagnie Generale des Eaux, has launched a convertible bond issue to raise 4.56 billion francs (about 815 million dollars) the company said on Thursday.

The issue, which will give holders the right to subscribe to shares, will comprise two thirs for the French mareket and one third for the international market.

It is intended to finance a major programme of investment in France and in Europe.

MAPUTO (JUNE 28) - Cholera has claimed 20 lives in the central Mozambican port city of Beira, Radio Mozambique reported Thursday.

The radio said a total of 75 cases of the disease had been confirmed in Beira, but the situation was said to be "under control".

In the northwestern city of Tete, where cholera raged throughout May, the situation was also reported to be in hand. A total of 774 cases of cholera have been diagnosed in Tete, with 30 deaths.

The health authorities have given assurances that so far no cases of cholera have been diagnosed in Maputo, the radio report said.

The outbreaks in Tete and Beira have been blamed on unsanitary conditions in the two cities.

A major factor in Tete was the polluted state of the river Zambezi, which receives raw sewage from the city, but was used as a source of drinking water by many residents.

PARIS (JUNE 28) - Consumer prices in France rose by 0.2 percent in May after 0.4 percent in April, in line with initial estimates, official figures showed Thursday.

Since the beginning of the year prices have risen by 1.4 percent, and during the last 12 months by three per cent.

The government has set a target of 2.5 percent for the whole of 1990.

ROME (JUNE 28) - Italy registered a trade deficit of 2,495 billion lire (two billion dollars) in May, official figures showed on Thursday.

This took the deficit for the first five months of the year to 12,506 billion lire (10 billion dollars), compared with 13,501 billion lire in the same period of 1989.

#90179d6390 06/28/1990 ~French/German News Agency
FRANKFURT (JUNE 28) - the West German central Bundesbank maintained its monetary policy unchanged on Thursday, three days before the Deutschemark will bring about monetary union in East Germany and West Germany.

A bank spokesman said after a council meeting that the West German discount rate would remain at six per cent and the Lombard rate at eight per cent. These rates were last modified on October 6 1989.

Arrangements for distributing Deutschemarks to East Germans were proceeding as planned and the Bundesbank did not foresee any difficulties on Sunday, he said.

The bank has transported about 25 billion Deutschemarks (about 15.6 billion dollars) in coins and banknotes to East Germany in strongly defended convoys of armoured lorries.

#90179d6580 06/28/1990 ~French/German News Agency

COPENHAGEN (JUNE 28) - The 35-nation Conference on Security and Cooperation in Europe (Csce) ended a four-week congress here Thursday with a final document expressing agreement on principles of democracy and human rights.

The Csce - also known as the Helsinki Accords group after the Finnish capital where the 1975 European security document was signed - expressly praised the political upheavals in Europe of the last 12 months.

The Csce includes 33 nations of Europe, Albania being the only non-participant, as well as two trans-Atlantic partners, the United States and Canada.

For the first time, the Csce participants achieved a common agreement on the right to free elections and other fundamental principles of democracy.

The document says that pluralistic democracy and rule by law are major ingredients in guaranteeing human rights and basic freedoms.

The thorniest issue during the discussions here concerned the rights of ethnic minorities. The final document text said that minorities should be guaranteed the right to speak their own language both privately and in public.

But a demand made by some countries here for recognition for the collective rights of minorities was not in the final document. Among the opponents to such a call were France, Romania, Greece and Bulgaria.

Another issue, the call for the abolition of the death penalty, was blocked by the United States. Under the Csce procedures, all decisions must be arrived at by consensus and so initiatives can be stopped by one or more participants.

NEW DELHI (JUNE 28) - India Thursday lifted an eight-month ban on the London-based human rights organization, Amnesty International, and said its personnel could now visit the country's troubled Punjab and Kashmir states.

An external affairs ministry spokesman said the decision had been taken because India was "fully conscious of its obligations towards the fulfillment of (the) human rights aspirations of its people."

The former government of Prime Minister Rajiv Gandhi had slapped the ban on Amnesty, which has often written reports critical of India's human rights record, saying it brought adverse publcity to the country.

The announcement came two days after the spokesman had said New Delhi was "considering" allowing foreign human rights groups back into the two states.

More than 1,000 people have died so far this year in violence connected to a Sikh-militant led campaign in the Punjab for an independent Sikh state called Khalistan.

In Kashmir more than 700 have died since the militant battle for freedom from Indian rule gained momentum at the turn of the year.

The government of Prime Minister Vishwanath Pratap Singh has allowed Indian human rights groups into Kashmir, four of which reported in April that the government was engaged in "brutal" repression of the movement.

The four groups also condemned the militants for "cruelty and violence."

NAPLES (JUNE 28) - Italian police are mounting a massive security operation to contain any possible trouble with England fans who have been arriving here for Sunday's World Cup quarter-final between England and Cameroon.

After a virtually trouble-free night of celebration in Bologna after England's 1-0 victory over Belgium, a steady stream of fans have been arriving by train.

The authorities in Bologna took no chances at Tuesday's match. The 6,000 England supporters were surrounded as they left the stadium and dispersed in a fleet of buses with armed police on each bus, escorted by Carabinieri vans mounted with sub-machine guns.

A number of fans were searched as they boarded trains on Thursday for the six-hour journey to Naples where they are likely to encounter an alcohol ban as strict as the one enforced in Bologna.

No ban was in force in the Adriatic resort of Rimini on Monday night when some of the World Cup's worst violence so far flared between English

hooligans and Italian fans. Nearly 250 fans were rounded up and flown out of Italy after those incidents.

Naples police were worried about the high prices in Sorrento, Capri and the other Mediterranean resorts forcing the bulk of the English to stay in and around the city where street robberies are widespread.

BAGHDAD (JUNE 28) - Iraq Thursday blamed Turkish ''obstinacy'' for failure to reach agreement on sharing the waters of the Euphrates river.

Iraqi Agriculture and Irrigation Minister Abdul Wahab Mahmoud, who attended the talks in Ankara, accused Turkey of ''prolonging negotiations to waste time'' and ''to provoke other questions unrelated to the main issue.''

Ministers of Turkey, Iraq and Syria ended Wednesday the two days of talks.

Turkish Public Works Minister Cengiz Altinakaya said after the meeting that Baghdad's terms for Ankara letting through at least 700 cubic metres of the Euphrates waters per second instead of the current 500 cubic metres had made a solution impossible.

Mahmoud told the official Iraq News Agency that Turkish ''obstinacy and rejection of our proposals, as well as their inability to come forward with constructive proposals that preserve just rights, had led to the meeting's failure''.

Mahmoud said under international law the Euphrates was an international river and accordingly each of the littoral countries ''receives its respective share, and whenever there is a surplus, this should be shared among the three countries in a just manner''.

He said the present flow of 500 cubic metres per second for both Syria and Iraq was ''an amount which does not even meet the minimum of Iraq's requirements.''

At the meetiing he had explained ''the great damage Iraq suffers from the shortage of the water flow from Turkey''.

VIENNA (JUNE 28) - Polish Solidarity leader Lech Walesa said Thursday his troubled trade union must break up into several rival political parties if Poland's fledgling democracy is to survive.

It was natural that Solidarity, wracked by infighting, should break apart now that it had defeated communist rule, Mr. Walesa said, answering questions on arrival here to attend a conference on democracy in Eastern Europe.

"If Solidarity is to remain, it must break up. The current bipartisan system is a leftover from the anti-communist struggle and dangererous for the future of democracy," he said.

"Political, economic and trade union pluralism is necessary to make Poland into a Western democracy."

Prime Minister Tadeusz Mazowiecki and other leaders were democratic, Mr. Walesa said, but they must build a system that prevented Poland's "revolution" from degenerating under their successors.

Although there was no danger at present, "Stalin followed Lenin", he said, referring to the Soviet dictator whose purges resulted in millions of deaths.

Mr. Walesa, who is on a 24-hour visit to Vienna, also confirmed he was ready to run for the Polish presidency, saying: "I will not fight for the presidency, but if I'm needed, that's different."

He said he was prepared to be a candidate, even if it caused problems for the prime minister.

Asked about his recent criticism of the government, he said he was not trying to destabilize Mr. Mazowiecki but to reflect, as a trade unionist, the view of people "who are not happy" with current economic and social upheavals.

Mr. Walesa, who was met at the airport by Austrian vice-chancellor Josef Riegler, said he opposed a plan to call early elections, put forward Wednesday by Polish Minister for Political Parties Alexander Hall.

He also said he opposed a speeding up now of the rate of reform, having earlier called for just that. He regretted that a chance had been lost, he said.

Poland's non-communist government already faces growing discontent among workers and farmers over their rapidly deteriorating economic situation, and further major price rises are due to go into effect.

Earlier Wednesday, hundreds of farmers were demonstrating outside the agriculture ministry in Warsaw after talks between their representatives and ministry officials "ended in fiasco", according to the Polish PAP news agency.

#90179d7200 06/28/1990 ~French/German News Agency
WASHINGTON (JUNE 28) - Young Americans know less about news and public affairs than any other generation in the United States in the past 50 years, according to a survey of 18-to-29 year olds.

The survey by the Times Mirror Center for the People and the Press, released Wednesday, reported that this generation "knows less, cares less, votes less and is less critical of its leaders and institutions than young people in the past."

The Times Mirror analysis was based on 12,000 sample interviews from May 1989 to March 1990 and compared with similar studies dating back to the 1940's. Only sports and the abortion issue drew much interest, while international affairs were largely ignored, the survey found.

When the Berlin Wall opened last November, considered the story of the decade by many journalists, only 42 percent of those under 30 followed the story closely, according to the survey.

News about Romania - including the execution of Romanian leader Nicolae Ceausescu and his wife - piqued the interest of a scant 19 percent of those polled.

The report concluded, "Over most of the past five decades, younger members of the public have been at least as well informed as older people. In 1990 that is no longer the case."

"The ultimate irony of the Times Mirror findings is that the Information Age has spawned such an uninformed and uninvolved population," said survey director Andrew Kohut.

MOSCOW (JUNE 28) - The Soviet secret police, the KGB, had no involvement in the Czechoslovak revolution last November, a Soviet Foreign Ministry spokesman said Thursday.

The statement at a news conference here followed reports that the KGB had been influential in the violent repression of a Prague demonstration which sparked the collapse of the hardline communist government.

Spokesman Yuri Gremitskikh also denied that Czechoslovak interior ministry archives had been secretly transferred to the Soviet Union.

The KGB and Czechoslovak interior ministry "maintain businesslike relations on an equal and mutually advantageous basis, allowing no interference in one another's affairs".

He added that both sides also exchanged information, but that this mainly involved international terrorism, drug trafficking and organised crime.

#90179d7270 06/28/1990 ~French/German News Agency

TEHERAN (JUNE 28) - Earthquake activity in the region of Iran ravaged last week is continuing to die away, although after-shocks were still shaking devastated areas, a senior official at Teheran University's geophysics centre said Thursday.

Iran's Irna news agency quoted him as saying the strongest tremor was recorded at 02.45 Gmt, and registered 4.8 degrees on the Richter scale, causing a landslide which blocked the Rasht-Roudbar road.

Irna said aid continued to arrive from a number of countries. The chief of Iran's Red Crescent Society had said Wednesday at least 40,000 people died and 60,000 were injured.

The number of aircraft civil and military aircraft unloading relief flown in from abroad to Teheran's Mehrabad airport rose Thursday to 174.

Another 334 shuttles had been flown by the Iranian Air Force from Teheran to the stricken area. The latest flight to arrive was from Pakistan - the seventh from that country.

The United Arab Emirates sent two more planes Thursday, bringing to eleven the number of flights to Iran since Monday, carrying medical equipment, food, blankets, clothes and tents.

#90179d7280 06/28/1990 ~French/German News Agency

PARIS (JUNE 28) - France's new opera house at Bastille cost 67 million dollars more than expected to build, was hopelessly loss-making to run and will need greater state subsidies, a critical report by government auditors said Thursday.

The auditors, reporting on the probity of the public purse, raised criticisms of financial administration in all walks of the economy.

They noted that the the futuristic Opera-Bastille -- opened with pomp and ceremony in July 1989 as part of celebrations marking the 200th anniversary of the French revolution -- was planned to cost 2,500 million francs, but the cost overun was nearly 385 million francs (about 67 million dollars).

The cost of operating the theatre "will be greatly in excess of initial forecasts and it will lead to a big increase...in the size of state credits to the lyric art," the report said.

The budget voted for the opera in 1989 was balanced due only to a state subsidy of 406 million francs (72 million dollars), which has been increased to 440 million francs in 1990.

It was no longer "judged serious" to argue that income from ticket sales would cover production costs. Consequently top seat prices will now go up from 370 francs (66 dollars) to 520 francs (93 dollars) -- considerably beyond the reach of the average citizen for whom the opera project was originally intended.

The auditors revealed that orchestra conductor Daniel Barenboim, who abruptly left his post as musical director last year, had been paid three million francs (536,000 dollars) for the year to August 1989, plus 4.8 million francs (857,000 dollars) for 25 appearances and 150,000 francs for each additional appearance.

#90179d7660 06/28/1990 ~French/German News Agency

BRASILIA (JUNE 28) - Environment Secretary Jose Lutzenberger angrily charged Thursday that government efforts to protect the Yanomami Indians from gold prospectors who are ravaging their Amazon homeland were failing.

In May the government bombed 30 clandestine airstrips in the northern state of Roraima to discourage prospectors who have brought pollution and disease to the 9,000 Yanomamis in the Amazonian area along the Venezuelan border.

"It doesn't do any good to bomb the airstrips. It is necessary to control the supply of fuel to the planes, which are the prospectors' only means of travel," Mr. Lutzenberger told the House of Deputies' Commission on the Environment.

"I am very unhappy with what has been done with the Yanomami and I have already asked President Fernando Collor to give me more authority to act," he said.

The 61-year-old ecologist also confirmed that 14 of the bombed airstrips had already been repaired and reopened by the prospectors.

"The federal police tell me that everything is going fine, but I know that nothing is," he added.

Some 1,500 Yanomamis have died, most of them from malaria, since 1986, when prospectors began invading the nine-million-square kilometer (3,475 square miles) area.

A Justice Ministry report released in January blamed gold mining operations by an estimated 45,000 prospectors for river pollution and the spread of unsanitary conditions in the northern Yanomami territories.

#90179d7710 06/28/1990 ~French/German News Agency

JOHANNESBURG (JUNE 28) - South African Communist Party general secretary Joe Slovo Thursday attempted to assuage business fears by stressing that the party was not sold on the "cliche" of nationalisation.

"We support a regulated market economy and...a mixed economy in a post-apartheid South Africa in which there will be a place for private domestic and foreign capital," Mr. Slovo told a press conference here.

"We are not opposed to the market," he added.

Nationalisation, the transfer of legal ownership from private hands to the state, would not in itself bring about any fundamental economic transformation, Mr. Slovo said.

Since being legalised in February after a 40-year ban, the party has tried hard to promote a more moderate image, invariably adopting a more

conciliatory tone than its anti-apartheid ally, the African National Congress.

Mr. Slovo told the press conference that one of the mistakes of the now collapsed Eastern European socialist countries was that they did not properly utilise the economic market.

"We think one of the problems which faced the socialist countries is that they rejected the use of the market mechanism as a mechanism for the realisation of surplus."

#90179d7760 06/28/1990 ~French/German News Agency

TEHERAN (JUNE 28) - The earthquake that ravaged northwestern Iran last week is also expected to leave its imprint on Iranian politics, as the Islamic Republic in the past seven days has had more exposure to the outside world than at any other time in its 11-year history.

By accepting assistance from all nations, apart from Israel and South Africa, President Ali Akbar Hashemi Rafsanjani has managed to tip the balance of forces in his favor. Hardliners opposed to his moderation and flexibility have been obliged to give ground amid public gratitude toward donor countries.

For Mr. Rafsanjani, engaged in a test of strength with Islamic militants ever since his election nearly a year ago, the earthquake has provided a chance to make good on his pledge to break down Iran's international isolation.

Arab and Western countries routinely denounced here as diabolical have been getting gentler press treatment in the last few days, a shift that could point to changes in Iran's relations with the outside world.

The West, which reacted quickly and impressively to the earthquake disaster, remains anxious for Iranian assistance in efforts to free 15 U.S., British, Irish, Italian, West German and Swiss hostages held in Lebanon -- in most cases by pro-Iranian Shiite groups.

Western investors are in addition hoping to be able to profit from Iran's five-year 120-billion dollar post-war reconstruction program.

#90179d7890 06/28/1990 ~French/German News Agency
MOSCOW (JUNE 28) - Vitaly Masol was re-elected prime minister of Ukraine, the Soviet Union's second-largest republic, Thursday in the fourth round of voting after a vote fraud in an earlier round, the Soviet government daily Izvestia said.

The first two rounds at the Ukrainian parliament were cancelled because a quorum was not reached, but in the third round on Wednesday, a number of deputies not present at the session left their voting cards to be used by colleagues.

The paper said that the scandal was immediately made public as the session was televised live, and deputies leaving the parliament building were greeted by crowds chanting "shame".

Tass news agency said that Mr. Masol was elected Thursday after beating his rival, economist Vladimir Chernyak, by 229 votes to 134. Mr. Masol, who has been Ukrainian Prime Minister for three years, was attacked by some deputies for his "personal involvement in the economic mess" in Ukraine, Tass said.

Ukraine, the largest republic after the Russian Federation, has a population of some 51 million.

#90179d8160 06/28/1990 ~French/German News Agency

ACCRA (JUNE 28) - The French aid agency, Caisse Centrale de Cooperation Economique, is to sink 80 million dollars into a number of projects in Ghana this year.

This year's funding, its ougoing resident manager Joel Daligault said, will be more than twice what the agency spends on Ghanaian projects each year.

''This will be the beginning of a long-term trend,'' he told a member of Ghana's Ruling Provisional National Defence Council (PNDC), Daniel Francis Annan, at a farewell meeting Wednesday.

Caisse Centrale, which has been operating in Ghana since September 1986, has so far spent nearly 150 million dollars on various projects.

These include rehabilitation of some projects under the Ghana Railway Corporation, the state gold mining corporation, and rural and urban water supply projects.

Mr. Daligault said other projects being considered by the agency for funding are in development of telecommunications, transport, energy, mining, rural development, the tourist industry and the private sector.

Mr. Annan commended the agency for showing ''a remarkable commitment to self-help in Ghana's development''.

He added that since the agency started operations in the west African country, the level of economic co-operation between the two countries has increased greatly. The agency's interest in Ghana shows a change in France's traditional bias towards francophone countries, Mr. Annan said.

The French ambassador to Ghana, Jean-Francois Lionnet, also met Mr. Annan for talks.

MOSCOW (JUNE 28) - Ukrainian coal miners from 25 towns Thursday voted to stage a 24-hour warning strike on July 11, with those from the Donetsk region demanding the Soviet government's resignation, Soviet television

said.

The vote came in response to a call from the Labour Confederation, grouping independent trade unions, which at a meeting in Moscow decided on a political strike on that date, the Radio Moscow Interfax publication said.

The Labour Confederation is demanding the government's resignation, the nationalisation of Communist Party property and an end to party privileges in industry.

The miners are disgruntled because the government has failed to meet in full promises made to end a nationwide miners' strike in mid-1989. The government had promised improvements in wages and conditions, and also greater autonomy for the mines.

The miners from Donetsk, in the Donbass basin, spearheaded last year's movement, which lasted three weeks and involved a total 200,000 miners.

Other mining regions are also expected to vote on the warning strike call by the Labour Confederation.

#90179d8390 06/28/1990 ~French/German News Agency

SANTIAGO (JUNE 28) - Three policemen implicated in the killing of a communist activist have been fired, officials said Thursday.

The 24-year-old leftist, Osman Yeomans, was fatally shot in the head by a paramilitary policeman Tuesday as he was painting a mural commemorating late socialist leader Salvador Allende.

Mr. Allende governed the country from 1970 until 1973, when he died in a coup led by General Augusto Pinochet, who became president and ruled for 16 years. Gen. Pinochet is commander in chief of the army.

The policemen -- the gunman and his two associates -- acted outside their authority, police officials said.

#90179d8420 06/28/1990 ~French/German News Agency

OSLO (JUNE 28) - At the end of June, 94,500 people were registered as unemployed in Norway, the state Directorate of Labour announced Thursday.

The number is up 9,800 from last month and constitutes 4.4 percent of the total work force. Compared to June last year, the number of unemployed has increased by 9,200 people.

An increase is normal this time of year, the Directorate of Labour said. The sharp increase from May to June is due to a reduction of special work-promoting measures run by the state. The directorate expects a further rise in unemployment after summer.

The northern county of Finmark tops the list with 5.6 percent of the work force unemployed. Oslo is close to average with 4.5 percent.

CAIRO (JUNE 28) - Sudanese Islamic fundamentalists used clubs and chairs to attack opponents of the junta in Khartoum at a meeting here, press reports said Thursday.

Thirty-five militants of Sudan's Islamic National Front, which supports junta leader General Omar El-Bechir, carried out the attack Wednesday, according to semi-official press reports here quoting Cairo police.

Several of the 300 Egyptians and Sudanese attending the meeting were reported hurt. The rally was organized to support Sudanese trade unionists jailed in their own contry.

The clash also damaged offices of the Nasserite Progressist Unionist Assembly party, where the meeting took place.

Three of the assailants, described as students and aged 27 to 30, were arrested and expected to be charged, the reports said.

The Nasserite party said in a statement that the asailants' leader claimed to be acting on behalf of the Sudanese Government and said he would only leave the premises if ordered to do so by the Sudanese ambassador.

The Egyptian party condemned "this new aggression and the beastly activities" of the Sudanese military regime headed by Gen. Beshir.

LIMA (JUNE 28) - The Peruvian Government declared a state of emergency Thursday in nine of the country's 24 departments to curb guerrilla violence, which police said has left seven civil defense members dead this week in the remote southern village of Pulpito.

The 60-day state of emergency was imposed because subversive groups "have undertaken acts of violence that disrupt normal public and private activities," the government announced.

Under the declaration, all constitutional rights are suspended and the military will control the departments of Ayacucho, stronghold of the Maoist Shining Path guerrillas, Apurimac, Huancavelica, Huanuco, Junin, Loreto, Pasco, San Martin, and Ucayali.

Tuesday some 80 Shining Path rebels went to Pulpito, 243 kilometers (150 miles) north of the city of Ayacucho, and began shooting peasant civil defense members in their homes, police said.

The rebels suspected the peasants of having encouraged Shining Path rebels to desert the insurgency and hiding them, police said.

Police said some 200 Shining Path rebels had surrended to civil defense groups in the past few days.

PARIS (JUNE 28) - French extreme-right leader Jean-Marie Le Pen was indicted for racial defamation Thursday after he accused Jews of "anti-national sentiment" last August.

The case comes after the European Parliament lifted Mr. Le Pen's parliamentary immunity in connection with an interview he gave the French extreme-right daily Present.

On March 12, MEPs voted 140 to 61 for the move after Mr. Le Pen's comments to the newspaper that "the Jewish internationale played a role that was not negligeable in creating an anti-national spirit."

Mr. Le Pen, leader of the National Front, was recently convicted of a similar charge after his comments in 1985, repeated earlier this year, that

the Nazi gas chambers were "a detail of history."

Just over a month and a half ago, Jewish graves in the southern French town of Carpentras were desecrated in anti-semitic attacks, sparking public outrage.

Mr. Le Pen maintains the attacks were a "set up" against his party.

NEW DELHI (JUNE 28) - A dozen people, including two police officers, were killed in Sikh separatist-related violence in Punjab Thursday as militants launched a rocket attack on a military post in the northern state.

The Press Trust of India (PTI) said the civilians shot dead included two couples, abducted overnight, and that one of the slain police was a woman.

Most of the killings took place in Punjab's frontier district of Amritsar, a separatist stronghold, PTI said.

Separately, a group of about 35 militants fired Soviet-made rockets on a security post in the village of Sursinghwala in Amritsar district, PTI said.

Police were quoted as saying they had no casualty figures from the attack as yet.

Some 1,075 people have died this year in Punjab in violence linked to the bloody separatist campaign for an independent Sikh homeland.

EAST BERLIN (JUNE 28) - Mongolia's leading opposition group will abstain from upcoming elections because it alleges conditions do not exist for a free ballot, East Germany's ADN news agency reported here Thursday.

In a report from the Mongolian capital, ADN said 131 of the 144 members of the Mongolian Democratic Association's governing panel had voted to withdraw from the planned July 29 elections.

The association's coordinator, Sanjaasuren Zorig, protested that the ruling communist party had formed, in mid-May, most of the electoral commissions charged with ensuring a free ballot, while electoral panels formed by five newly-formed parties had not received authorization until late May.

Mr. Zorig told a press conference that although opposition parties were now

allowed to operate in the Central Asian state, it was impossible to speak of free elections on July 29.

ADN said two other opposition movements, the social democrats and the National Progressives, were expected to decide next week whether they would withdraw from the polls.

SALVADOR, BRAZIL (JUNE 28) - A Brazilian polygamist committed suicide after becoming the father of twins by his 15-year-old adopted daughter, police said Thursday.

Jaime Avelino dos Santos, 67, lived with three women in the town of Coracao de Maria in northern Brazil but his relationship with his daughter had been kept secret until the birth of the twins, witnesses said.

He shot hiimself twice in the head, police said.

The death of Mr. Avelino -- who is reputed to have fathered more than 40 children, 20 of them legitimately -- suprised the small town.

"Polygamy is common in Coracao de Maria," said Mayor Osvaldo Batista. "A number of men have at least three wives."

NEW DELHI (JUNE 28) - A four-story housing complex collapsed in heavy showers in Bombay Thursday, leaving at least eight dead and 35 injured, the Press Trust of India (PTI) said.

Thirty-one of the seriously injured were hospitalized, PTI said.

The Yusuf Patel complex in south Bombay collapsed, killing eight, as India's second largest city was lashed by heavy rains for the second straight day, PTI said.

Some 18 fire tenders and six ambulances were engaged in rescue work and fire brigade officials quoted by PTI feared that more people could still be trapped under the debris.

ORMARA, PAKISTAN (JUNE 28) - Pakistan's Prime Minister Benazir Bhutto Thursday said she supported the "tranquility zone" plan for Afghanistan

put forth by the U.N. Coordinator for Humanitarian Assistance for the return of refugees from Pakistan.

Talking to reporters after inaugurating a domestic airport in this coastal town of Baluchistan, Ms. Bhutto said she supported Prince Sadruddin Aga Khan's proposal to create "tranquility zones" in areas not affected by the war for the resettlement of refugees.

The U.N. coordinator had proposed that the world body begin resettlement of Afghan refugees by this summer in areas which had not been ravaged by war.

The prime minister of the Afghan Interim Government (AID), Abdul Rasool Sayyaf, had said the refugees could not return unless the regime in Kabul was changed.

Ms. Bhutto, while repeating Pakistan's support for the Afghan refugees, said the present government in Kabul was acceptable neither to the mujahedeen nor to ex-king Zahir.

"No one can force the mujahedeen to accept any regime against their wishes " she said, adding that the AIG had formulated an election plan which might pave the way for the return of Afghan refugees from Pakistan.

Commenting on next month's Indo-Pakistan talks, she said "we should not expect miracles."

Ms. Bhutto reaffirmed political and moral support for the Kashmiris' struggle and said their separatist cause had gotten a boost from "increasing Indian atrocities."

"The people of Kashmir can not be caged and denied their right of self-determination," Ms. Bhutto said.

PARIS (JUNE 28) - Nobody wants to be favourite to win this year's Tour de France -- the riders know it is tantamount to having their chances written off.

Pedro Delgado of Spain, the 1988 winner, will set off from the Futuroscope theme park near Poitiers on Saturday carrying the heavy burden for the second year running.

Fresh in his memory will be last year's disasterous first stage when he turned up five minutes after the others had started and was left with an almost impossible time to catch up.

It is the unpredictability of the world's premier cycle race that is expected to attract 15 million people over three weeks along French roads to see cyclists flash by in seconds.

Just as no-one could have foreseen Delgado's mistake, the eventual eight second victory by America's Greg LeMond over French favourite Laurent Fignon in an exciting finish on the Champs Elysee avenue was just as much a shock.

The crowds are certain that this year again, somewhere between Futuroscope and the finish in Paris on July 22, an off the road scandal, an injury, or an unexpected rider will take the 87th Tour de France race by storm.

The Spaniard, whose 1988 win was clouded by a controversial drugs test, said he was "haunted" for several days by his mistake in last year's Tour prologue.

"But then I had to get on with reducing the loss and once the race was over I did not think anymore about it. That wouldn't have done any good."

Delgado said the favourite's badge pinned on him by his rival's was a clever psychological ploy on their part.

"It does not worry me that much. I have built up my reputation in the Tours, whether in Spain or France. I know that to reach my best, I need races lasting several weeks so I play on my strong points."

WASHINGTON (JUNE 28) - The International Finance Corporation (IFC), the World Bank's private financing affiliate, said Thursday it had signed an agreement with French investment bank Indosuez to create a new Third World fund.

Both participants will contribute 25 million dollars to the fund which will provide loans to help finance small- and medium-sized projects.

Loans will range from three million dollars to six million dollars. Five countries -- Bangladesh, Malaysia, Pakistan, Thailand and Turkey -- have already been targeted as beneificiaries, said the IFC.

The Indosuez group is firmly established in those countries, said the IFC, and its subsidiaries would oversee the projects being backed by the new funds.

The IFC began joint-venture loan funds with private banks from industrialized nations in 1988.

#90179d9490 06/28/1990 ~French/German News Agency
LONDON (JUNE 29) - Indian Environment Minister Maneka Gandhi on Thursday said industrialized nations could not expect her country to halt its production of chlorofluorocarbons (CFCs) harmful to the ozone layer unless they were prepared to contribute more to helping developing economies acquire alternate technologies.

Mrs. Gandhi, attending a world ozone conference which opened here Wednesday, told journalists that India could not dismantle its refrigerator industry -- a large user of CFCs -- for a "little amount of money."

"If you tell us we are obliged to phase out the CFCs and to replace them by more expensive products, then give us the technology," she said.

One of the main aims of the conference is to secure the signing by India and China of a 1987 international treaty to protect the ozone layer. The treaty, known as the Montreal protocol, has been ratified by 56 countries.

Earlier Thursday, France pledged "at least 15 million dollars" to a world fund to protect the planet. On Wednesday, Prime Minister Margaret Thatcher announced that Britain would donate nine million dollars to the fund, aimed at helping developing countries turn away from the use of CFCs.

The United States, which is expected to contribute about one-fourth of the fund, was seeking a permanent seat on a 14-member executive committee that will oversee the fund's expenditures.

The U.S. Environmental Protection Agency chief, William Reilly, at a press conference Thursday, hinted that Washington would not block the setting up of the special fund although its request for a permanent executive committee seat had been rejected.

The executive committee membership is to be rotated every three years.

Discussions at the conference, which ends Friday, also centered on changes to the 1987 Montreal protocol.

The more than 100 countries represented here are overwhelmingly in agreement that the treaty's pledge to cut back CFC use by half by mid-1998 is insufficient.

But they disagree over a timetable for the complete elimination of CFC use.

The United States has reaffirmed its support for an end to the use of CFCs

by the year 2,000, a date backed by the Soviet Union. Countries of the European Economic Community, Canada, Australia and others want to move the deadline forward to 1997.

MEXICO CITY (JUNE 28) - Mexican boxer Gilberto Roman, who lost his World Boxing Council (WBC) super flyweight title to South Korean Sung-kil Moon just three weeks ago, has been killed in a car crash near here.

Roman, 29, was a passenger in an automobile en route to the Pacific Ocean resort of Acapulco Wednesday night when the vehicle struck a cargo truck near Chilpancingo, 140 miles (230 km) southwest of here, killing Roman and three others, Mexican authorities said Thursday.

Roman, who captured the WBC crown three different times, had a record of 54 wins, one draw and six losses, the most recent of which cost him the title for a third time in Seoul June 9 when Moon stopped him in the eighth round.

CANBERRA (JUNE 29) - Australia's unadjusted current account deficit for May swelled to 1.55 billion dollars (1.2 billion U.S.), a 63 percent rise on the previous month, the Bureau of Statistics reported Friday.

It brought the accumulated current account deficit for the 11 months to May to 18.86 billion Australian dollars (14.75 billion U.S.), Australia's highest ever annual shortfall with one month still to report.

This compares with Treasurer Paul Keating's budget forecast of 18.5 billion dollars (14.5 billion U.S.) for the fiscal year ending Saturday.

The unadjusted merchandise trade balance for May recorded a 179 million dollar deficit (140 million U.S.) after notching a 364 million dollar (285 million U.S.) surplus in April, the bureau said.

Imports during May rose five percent to 4.12 billion dollars (3.2 billion U.S.) while exports fell six percent to 3.94 billion dollars (3.1 billion U.S.).

The unadjusted current account deficit for May was lower than the 1.6 billion to 2.2 billion dollar deficit forecast by financial analysts.

But money markets remained unexcited. The dollar was trading unchanged at 78.55 U.S. cents half an hour after the release, only marginally lower than Thursday's close of 78.63 U.S. cents.

The May figure was higher than the 952 million dollar (744 million U.S.) deficit registered in April but lower than the 1.97 billion dollar shortfall (1.54 billion U.S.) posted in May last year.

The seasonally adjusted current account deficit for May was 1.34 billion dollars (1.1 billion U.S.), compared to a 1.35 billion dollar (1.1 billion U.S.) shortfall in April and 1.87 billion dollar (1.5 billion U.S.) deficit in May last year.

Seasonally adjusted, the merchandise trade balance was a 24 million dollar (18.8 million U.S.) deficit compared to a 27 million dollar (21.1 million U.S.) surplus in April.

The current account measures the difference in value between ingoing and outgoing transactions in goods, services, incomes and transfers.

LUSAKA (JUNE 28) EFE - At least 30 people have been killed and 200 others seriously wounded in three days of clashes between security forces and rioters protesting food price hikes in the Zambian capital of Lusaka, police said Thursday.

Lusaka Police chief Hobson Simasiku said that the situation was calm Thursday in the capital, where demonstrators protesting a government decision to double the price of corn meal, a Zambian staple food, have been fighting with police.

Some shops re-opened Thursday in the capital, but the majority of businesses remained shut for fear of further violence.

More than 1,000 people have been arrested in the disturbances.

President Kenneth Kaunda addressed the nation in a television and radio broadcast Wednesday and said the rioting had been instigated by government opponents who were +hungry for power+.

Kaunda said he would not backtrack on his economic austerity program.

During the rioting, some demonstrators called for the president's resignation.

The government has imposed an indefinite dusk-to-dawn curfew in the capital in a bid to curb the protests.

A number of opposition deputies have called on the government to explain why police and security forces wounded child protesters as young as 10 years old in the fighting.

According to some witnesses, several police officers, soldiers and members of the ruling United National Independence Party took part in looting of food stuffs.

#90179e0030 06/28/1990 ~Latin America New Agency

BELFAST (JUNE 28) EFE - Members of the Royal Ulster Constabulary (RUC) Thursday discovered bomb-making equipment and weapons in a house in Belfast which police suspect was used by the nationalist Irish Republican Army (IRA).

Hidden in one of the rooms of the house, police found detonators, timing devices, fuses and eight bags of commercial fertilizer -- typical components of the home-made bombs manufactured by the IRA, the RUC claimed.

Police also unearthed a high-calibre machinegun and 370 rounds of ammunition, buried under a path near the house, of the type the IRA has used to try to shoot down British Army helicopters in Northern Ireland.

Four home-made bombs and more ammunition were found nearby, police said.

The RUC had been alerted about the cache after a teacher at a local school reported seeing several people from outside the area acting suspiciously near the house.

Meanwhile, train services along the Belfast-Dublin line were disrupted Thursday after an explosive device blew up a section of the line. No group has claimed responsiblity for the attack.

The arms find comes three days after an IRA bomb caused extensive damage

to the exclusive Carlton Club in London, frequented by leading members of the ruling Conservative Party.

The club's porter was seriously injured in the attack.

The IRA, fighting to force the British Army out of Northern Ireland as part of its stated aim to incorporate the mainly Protestant province into the Catholic Irish Republic, has recently intensified attacks on British military personnel in Britain, West Germany and the Netherlands.

#90179e0035 06/28/1990 ~Latin America New Agency

BRASILIA (JUNE 28) EFE - The Brazilian government is planning to install a radar network system in the huge Amazon jungle region to detect illicit flights by aircraft used by traffickers to smuggle drugs out of the country from clandestine airstrips.

The Aviation Ministry, which announced the project Thursday, said a definitive plan is to be put before the President Fernando Collor de Mello in early August which, if apporved, would run for an initial five-year period.

According to the preliminary draft, the Brazilian government would install eight fixed and two mobile radars in the illegal destruction of the rainforests.

The radars are to be erected in seven key towns in the Amazon region that house landing strips, back-up services and supplies for airliners.

Three international firms -- Thomson of France, Selenia of Italy and Hughes of the United States -- have shown interest in the project, which will require Brazil to ask for a dlrs 500 million grant from the Nakasone Fund, an environmental defense organization.

#90179e0039 06/28/1990 ~Latin America New Agency

LONDON (JUNE 28) EFE - A British environmentalist group Thursday warned that dolphins could be extinct by the end of the century and blamed fishermen from several countries, especially Japan.

A spokeswoman for the Environmental Investigation Agency (EIA) said at a London press conference that an estimated 500,000 dolphins die every year, many of which are accidentally trapped in giant nets of tuna fisherman.

Other fishermen purposely harpoon dolphins for their meat, spokeswoman Jennifer Lonsdale said. Japan is the leading hunter of the fish, since dolphin and whale meat are considered delicacies there.

The group charged that Japan leads other dolphin-killing countries such as Denmark, Mexico, Peru, Chile and France in opposing moves to restrict dolphin hunting.

BEIJING (JUNE 28) XINHUA - INDONESIAN FOREIGN MINISTER ALI ALATAS WILL EXCHANGE VIEWS WITH HIS CHINESE COUNTERPART QIAN QICHEN ON THE RESTORATION OF DIPLOMATIC TIES BETWEEN INDONESIA AND CHINA DURING HIS VISIT HERE NEXT WEEK, A FOREIGN MINISTRY SPOKESMAN SAID HERE TODAY.

WHEN ANSWERING QUESTIONS AT A WEEKLY NEWS BRIEFING HERE THIS AFTERNOON, THE SPOKESMAN SAID, "WE HOPE CHINA AND INDONESIA WILL COMPLETE THE RESTORATION PROCESS SOON."

HE NOTED THAT THROUGH FRIENDLY CONSULTATIONS AND JOINT EFFORTS, THE DEBT ISSUE EXISTING BETWEEN THE TWO COUNTRIES HAS BEEN FAIRLY WELL SETTLED.

DURING ALATAS'S VISIT, HE WENT ON, THE TWO FOREIGN MINISTERS WILL SIGN AN AGREEMENT ON THE PAYMENT OF THE DEBTS TO CHINA BY INDONESIA.

ALATAS WILL ALSO HOLD SEVERAL ROUNDS OF TALKS WITH QIAN AND MEET SOME CHINESE STATE LEADERS, HE SAID.

IN RESPONSE TO A REPORTER'S QUESTION CONCERING THE INDONESIAN COMMUNIST PARTY, THE SPOKESMAN SAID THE ISSUE ABOUT A COMMUNIST PARTY OF A PARTICULAR COUNTRY IS AN INTERNAL AFFAIR OF THAT COUNTRY AND CHINA WILL

NEVER MAKE USE OF THE RELATIONS BETWEEN THE PARTIES TO MEDDLE IN ANY OTHER COUNTRIES' INTERNAL AFFAIRS.

"THIS IS CHINA'S PRINCIPLED POSITION," HE ADDED. WITH REGARD TO THE INDONESIAN COMMUNIST PARTY, HE SAID, "WE ACTUALLY HAVE NO KNOWLEDGE AS TO WHETHER THAT PARTY STILL EXISTS NOWADAYS, TO SAY NOTHING OF HAVING RELATIONS WITH IT."

ON A REPORTER'S QUESTION OF EAST TIMOR, THE SPOKESMAN SAID THIS QUESTION IS LEFT OVER BY HISTORY AND IN 1976 INDONESIA DECLARED IT AS ITS 27TH PROVINCE.

OVER THIS ISSUE, THERE IS DIVERSITY OF OPINION IN THE INTERNATIONAL COMMUNITY, THE SPOKESMAN SAID, ADDING THAT THE GENERAL ASSEMBLY OF THE UNITED NATIONS HAS NOT HELD DISCUSSIONS OVER THIS FOR YEARS.

#90179h0044 06/28/1990 ~Chinese News Agency

BANGKOK (JUNE 28) XINHUA - A THAI ARMED FORCES SUPREME COMMAND SPOKESMAN SAID HERE TODAY THAT FIGHTING IN CAMBODIA IS EXPECTED TO BECOME

INTENSIFIED DURING THE CURRENT RAINY SEASON (ROUGHLY MAY TO OCTOBER).

BRIEFING JOURNALISTS AT A PRESS CONFERENCE ABOUT THE FIGHTING IN CAMBODIA DURING THE PASSING MONTH, NARUEDUN DEJPRADIYUTH, CHIEF OF INFORMATION OF THE SUPREME COMMAND, SAID THAT THE PATRIOTIC FORCES OF CAMBODIA NOW HAVE THE INITIATIVE AND HAVE LAUNCHED ATTACKS ON THE HENG SAMRIN TROOPS IN A NUMBER OF PLACES, FORCING THE HENG SAMRIN REGIME TO SEND REINFORCEMENTS TO MANY PLACES. FIGHTING IS GOING ON 30-40 KILOMETERS DEEP FROM THE CAMBODIAN-THAI BORDER, HE SAID.

HE NOTED THAT SINCE JUNE 17, THE PATRIOTIC FORCES HAVE BEEN IN CONTROL OF KOMPONG THOM PROVINCE, FOLLOWING THEIR WELL-COORDINATED AND SUCCESSFUL ASSAULTS ON THE HENG SAMRIN TROOPS IN THE KOMPONG THOM BATTLEFIELD. THE HENG SAMRIN REGIME WAS SENDING REINFORCEMENTS FROM PHNOM PENH AND ELSEWHERE TO THE PROVINCE IN A BID TO REGAIN LOST LAND.

IN ODDAR MEANCHEY PROVINCE, THE PATRIOTIC FORCES HAVE TAKEN SOME STRONG POSTS FROM THE ENEMY IN SAMRONG DISTRICT. FIGHTING IS STILL GOING ON. THE PATRIOTIC FORCES ARE NOW ACTIVE ALONG HIGHWAY 68 LINKING SAMRONG AND SIEMREAP, WITH THE AIM OF CUTTING OFF THE ENEMY'S COMMUNICATION.

THE NATIONAL ARMY OF DEMOCRATIC KAMPUCHEA IS ACTIVE ALONG HIGHWAY FIVE, WHICH LINKS BATTAMBANG AND THE BORDER TOWN OF POIPET. FIGHTING IS FIERCE ALONG THE HIGHWAY. SVEY CHEK ON HIGHWAY 69 IS ANOTHER MAJOR TARGET THE TWO SIDES ARE BATTLING FOR, ACCORDING TO THE SPOKESMAN.

HE ADDED THAT THE RAINY SEASON IS FAVORABLE TO THE CAMBODIAN PATRIOTIC FORCES, WHICH WILL TAKE ADVANTAGE OF THE WET MONTHS TO CUT OFF THE OTHER SIDE'S COMMUNICATION.

NARUEDUN ALSO SAID THAT IN THE PASSING MONTH, ARTILLERY SHELLS FIRED BY HENG SAMRIN TROOPS HAVE LANDED IN THAI TERRITORY ON QUITE A NUMBER OF OCCASSIONS.

ON THE QUESTION OF POLITICAL SOLUTION OF THE CAMBODIAN PROBLEM, THE THAI MILITARY SPOKESMAN SAID THAT ALL SIDES ARE MAKING EFFORTS, BUT THERE ARE STILL OBSTACLES.

#90179h0049 06/28/1990 ~Chinese News Agency

ANKARA (JUNE 28) XINHUA - ANKARA CONSIDERS THE EUROPEAN COMMUNITY'S ATTITUDE TOWARD THE CYPRUS ISSUE AS "ONE-SIDED AND A NEGATIVE," AND A CLEAR DEVIATION FROM ITS PREVIOUS STAND, THE "TURKISH DAILY NEWS" REPORTED TODAY.

THE EC SUMMIT, WHICH TOOK PLACE IN DUBLIN EARLIER THIS WEEK, MADE A DIRECT LINK BETWEEN THE CYPRUS PROBLEM AND THE TURCO-EC BILATERAL TIES.

"THE CYPRUS PROBLEM AFFECTS THE TURCO-EC RELATIONS," SAID THE FINAL DECLARATION MADE AT THE END OF THE SUMMIT. THE STATEMENT CONTRADICTS THE TURKISH VIEW THAT THE CYPRUS ISSUE WAS COMPLETELY IRRELEVANT TO BILATERAL TIES BETWEEN TURKEY AND THE EC.

HOWEVER, THE PAPER SAID THE CYPRUS ISSUE ATTECTS TURCO-GREEK RELATIONS RATHER THAN THE TURCO-EC TIES.

TURKEY APPLIED FOR FULL MEMBERSHIP OF THE EC ON APRIL 13, 1987, BUT HAS SO FAR ACHIEVED NO SUBSTANTIA RESULTS.

DIPLOMATIC OBSERVERS SAID THAT THIS WAS DUE TO GREEK PRIME MINISTER CONSTANINE MITSOTAKIS'S SUCCESSFUL ATTEMPTS TO OBTAIN SUPPORT FROM THE EUROPEAN COUNTRIES TO FORCE TURKEY TO PULL OUT ITS TROOPS FROM THE DIVIDED MEDITERRANEAN ISLAND.

IT WAS REPORTED THAT THE TURKISH TROOPS ON THE NORTHERN ISLAND HAVE REACHED 29,000.

"THE ATTITUDE OF THE COMMUNITY, DISPLAYED IN THE FINAL DECLARATION, HAS LOST THE EC ITS OPPORTUNITY TO PLAY A CONSTRUCTIVE ROLE (IN THE CYPRUS ISSUE). ON THE CONTRARY, THIS ATTITUDE MAKES THE SOLUTION OF THE PROBLEM EVEN MORE DIFFICULT," A TURKISH FOREIGN MINISTRY STATEMENT RELEASED ON WEDNESDAY SAID.

THE STATEMENT ALSO SAID THAT IT IS UNDERSTOOD THAT THE ATTITUDE WAS ACCEPTED DUE TO THE EFFORTS AND INSISTENCE OF GREECE TO MAKE THE EC A PARTY TO THE CYPRUS PROBLEM.

THE STATEMENT SAID THE OBSTRUCTION TO NEGOTIATIONS DOES NOT STEM FROM THE TURKISH CYPRIOT SIDE AND ACCUSED GREECE AND THE GREEK CYPRIOT SIDE OF

PUTTING PRECONDITIONS ON THE RESUMPTION OF NEGOTIATIONS.

"THE ATTEMPTS BY THE EC TO CONNECT BILATERAL TIES WITH THE CYPRUS PROBLEM WILL NOT HAVE A POSITIVE EFFECT ON THE TURCO- EC RELATIONS OR ON THE ESTABLISHMENT OF A SETTLEMENT IN CYPRUS," IT ADDED.

CYPRUS HAS BEEN DIVIDED SINCE 1974 WHEN THE TURKISH TROOPS LANDED ON THE ISLAND FOLLOWING AN ATHENS-INSPIRED COUP. TURKISH CYPRIOTS DECLARED A BREAKAWAY "TURKISH REPUBLIC OF NORTHERN CYPRUS" IN 1983, WHICH IS RECOGNIZED ONLY BY TURKEY.

FOUR ROUNDS OF U.N.-SPONSORED TALKS HELD BETWEEN SEPTEMBER 1988 AND FEBRUARY 1990 HAD FAILED TO MAKE ANY PROGRESS IN FINDING AN OVERALL AND LASTING SOLUTION TO THE DIVISION OF CYPRUS OR TOWARD REUNITING IT UNDER A FEDERAL SYSTEM.

THE GREEK CYPRIOTS DEMAND FIRST OF ALL WITHDRAWAL OF THE TURKISH TROOPS FROM THE ISLAND, INTERNATIONAL GUARANTEES AND RIGHTS OF ALL CITIZENS TO LIVE, WORK AND BUY PROPERTY ANYWHERE ON THE ISLAND.

MEANWHILE, THE TURKISH CYPRIOTS WANT AT LEAST A TOKEN UNIT OF TURKISH TROOPS TO REMAIN AS A SIGN OF TURKEY'S CONTINUED COMMITMENT TO THEIR SECURITY.

BY LI SHIXING - XINHUA

KUWAIT (JUNE 28) XINHUA - OPEC PRESIDENT SADEK BOUSSENA, DURING HIS JUST-ENDED TOUR OF MAJOR GULF OIL PRODUCERS, REPEATEDLY STRESSED "THE NEED FOR ADHERENCE BY OPEC MEMBERS TO THEIR OUTPUT QUOTAS" TO STABILIZE

THE PRICE THAT TUMBLED BY 30 PERCENT THIS YEAR BECAUSE OF A GLUT IN THE MARKET.

BOUSSENA, ALSO ALGERIA'S OIL MINISTER, HELD INTENSIVE TALKS ON WAYS TO REVERSE THE SHARP PRICE SLUMP WITH OIL MINISTERS OF IRAN, IRAQ, THE UNITED ARAB EMIRATES (UAE), KUWAIT AND SAUDI ARABIA TO PREPARE FOR AN ORDINARY MEETING OF OPEC OIL MINISTERS SCHEDULED FOR JULY 25 IN GENEVA.

KUWAIT HAS REQUESTED TO RAISE ITS CURRENT QUOTA OF 1.5 MILLION BARRELS PER DAY. THE UAE HAS ALSO MADE A SIMILAR DEMAND TO REFLECT THE STRENGTH OF ITS PROVEN OIL RESERVE WHICH IT CLAIMS IS THE SECOND LARGEST WITHIN OPEC AFTER SAUDI ARABIA.

THE TWO COUNTRIES ADVOCATE KEEPING OPEC'S OFFICIAL REFERENCE PRICE AT 18 DOLLARS A BARREL TO ENCOURAGE WORLD DEMAND FOR OIL.

BUT IRAQ AND IRAN, WHICH ARE BADLY IN NEED OF FOREIGN CURRENCY TO REBUILD THEIR WAR-RAVAGED ECONOMIES, PUSHED FOR HIGHER PRICES.

A SENIOR IRAQI OFFICIAL SAID IRAQ MAY LOSE ONE BILLION DOLLARS A YEAR WITH EVERY ONE-DOLLAR DROP IN THE OIL PRICE. IRAQ HAS A QUOTA OF 3.14 MILLION BPD.

THE OFFICIAL INSISTED THAT THERE IS NO NEED TO CONSIDER A NEW QUOTA AGREEMENT BEFORE REALIZING A 25 DOLLAR PER BARREL PRICE. HE CALLED FOR MAINTAINING OPEC'S CURRENT CEILING OF PRODUCTION.

IRAQI OIL MINISTER ISSAM ABDUL-RAHEEM AL-CHALIBI OPENLY ACCUSED THE UAE OF ITS OVERPRODUCTION, SAYING THE UAE WAS MAINLY RESPONSIBLE FOR THE DROP IN OIL PRICE.

THE IRAQI ACCUSATION ANGERED THE UAE, WHOSE OIL MINISTER MANNA BIN SAID AL-OTAIBAH STATED THAT THE UAE "REJECTS THREATS AND PRESSURE FROM ANY SOURCE."

THE DISPUTE AMONG OPEC COUNTRIES MADE IT DIFFICULT FOR OPEC PRESIDENT BOUSSENA TO REACH A CONSENSUS ON A NEW QUOTA PACT AHEAD OF THE OPEC ORDINARY MEETING.

OPEC OIL MINISTERS AGREED IN EMERGENCY TALKS IN GENEVA ON MAY 3 TO SHAVE ALMOST 1.5 MILLION BPD OFF THE TOTAL OPEC OUTPUT IN THREE MONTHS TO GET IT BACK BELOW THE 22 MILLION BPD OUTPUT LIMIT AGREED AT A PREVIOUS OPEC MEETING LAST NOVEMBER.

BUT THE REAL OUTPUTS OF THE MAJOR GULF PRODUCERS GREATLY SURPASSED THEIR ASSIGNED QUOTAS. ACCORDING TO A REUTER INDUSTRY SURVEY, THE UAE WAS GIVEN A 1.095 MILLION BPD QUOTA IN NOVEMBER BUT PRODUCED TWICE THAT ON A MONTHLY AVERAGE IN THE FIRST QUARTER THIS YEAR.

RECENT INDEPENDENT ESTIMATES PUT THE OPEC PRODUCTION AT MORE THAN 23 MILLION BPD, CREATING A SURPLUS OF 1 MILLION BPD OVER ITS CEILING.

BOUSSENA IS EXPECTED TO HOST A MINI-OPEC MEETING IN ALGIERS ON JULY 5 THAT WILL BE ATTENDED BY KUWAIT'S NEWLY-APPOINTED OIL MINISTER RASHID SALEM AL AMEERI AND OPEC TROUBLE-SHOOTER GINANDJAR KARTASASMITA OF INDONESIA.

IF THE MEETING CANNOT PAVE THE WAY FOR A CONSENSUS ON THE OPEC PRODUCTION CEILING, THE OPEC MINISTERS HAVE TO BE SET FOR A STORMY MEETING IN GENEVA ON JULY 25.

TOKYO (JUNE 28) XINHUA - JAPAN'S DEATH TOLL IN TRAFFIC ACCIDENTS NUMBERED 5,026 AS OF JUNE 27 THIS YEAR, THE NATIONAL POLICE AGENCY SAID TODAY.

THE TOTAL NUMBER OF FATALITIES IN TRAFFIC ACCIDENTS LAST YEAR WAS 11,086, THE HIGHEST FIGURE IN 15 YEARS.

THE DEATH TOLL AS OF JUNE 27 WAS 32 HIGHER THAN THAT FOR THE SAME PERIOD LAST YEAR, AGENCY OFFICIALS SAID.

THE MAJORITY OF THE VICTIMS WERE EITHER ELDERLY PEOPLE AGED OVER 65 OR YOUNG PEOPLE AGED BETWEEN 16 AND 24, THE OFFICIALS ADDED.

#90179h0057 06/28/1990 ~Chinese News Agency

BEIJING (JUNE 28) XINHUA - CHINA'S FIRST NATIONAL FLAG LAW WAS ADOPTED TODAY AT THE 14TH MEETING OF THE STANDING COMMITTEE OF THE NATIONAL PEOPLE'S CONGRESS (NPC), WHICH CLOSED TODAY.

THE LAW AIMS AT ENCOURAGING CHINESE CITIZENS TO VINDICATE THE HONOR OF THE NATIONAL FLAG, STRENGTHEN THEIR SENSE OF STATEHOOD AND NURTURE A SENSE OF PATRIOTISM.

THE 20-ARTICLE LAW STIPULATES THAT THE NATIONAL FLAG OF THE PEOPLE'S REPUBLIC OF CHINA IS A FIVE-STARRED RED FLAG. THE FLAG IS THE SYMBOL OF THE COUNTRY, AND EVERY CITIZEN AND ORGANIZATION MUST RESPECT AND TAKE GOOD CARE OF IT.

ACCORDING TO THE LAW, WHICH IS TO COME INTO EFFECT FROM OCTOBER 1 THIS YEAR, NATIONAL FLAGS CAN ONLY BE PRODUCED BY ENTERPRISES DESIGNATED BY ADMINISTRATIONS AT PROVINCE, AUTONOMOUS REGION AND MUNICIPALITY LEVEL.

THE NEW LAW STIPULATES THAT NATIONAL FLAGS MUST BE RAISED EVERY DAY ON

TIANANMEN SQUARE, AT XINHUAMEN, AND AT LOCATIONS OF MEETINGS OF THE STANDING COMMITTEE OF THE NPC, STATE COUNCIL, MINISTRY OF FOREIGN AFFAIRS, CHINESE PEOPLE'S POLITICAL CONSULTATIVE CONFERENCE, SUPREME PEOPLE'S COURT AND SUPREME PEOPLE'S PROCURATORATE AND AT PORTS, AIRPORTS AND BORDER RAILWAY STATIONS.

THE FLAG LAW ALSO STIPULATES THAT ALL FULL-TIME SCHOOLS IN THE COUNTRY SHOULD FLY NATIONAL FLAGS EVERY DAY EXCEPT DURING THE SUMMER AND WINTER VACATION PERIODS.

ALSO ACCORDING TO THE LAW, ON NATIONAL DAY, INTERNATIONAL LABOR DAY, SPRING FESTIVAL AND SOME OTHER BIG OCCASIONS THE NATIONAL FLAG SHOULD BE FLOWN BY UNITS, VILLAGE COMMITTEES AND NEIGHBORHOOD COMMITTEES, AND IN COURTYARDS, PARKS AND OTHER PUBLIC PLACES.

THE LAW ALSO STIPULATES THAT WHEN TOP OFFICIALS OF THE COUNTRY DIE AND PEOPLE OF OTHER COUNTRIES WHO MAKE OUTSTANDING CONTRIBUTION TO THE WORLD PEACE AND PROGRESS OF MANKIND DIE OR WHEN DISASTERS CAUSING HEAVY CASUALTIES HAPPEN, FLAGS SHOULD BE FLOWN AT HALF-MAST.

IN ADDITION, THE LAW FORBIDS THE USE OF THE NATIONAL FLAG IN ADVERTISEMENTS OR AS A TRADE MARK. WILLFUL DAMAGE TO A NATIONAL FLAG IS PUNISHABLE UNDER THE LAW.

#90179h0059 06/28/1990 ~Chinese News Agency

HONG KONG (JUNE 28) XINHUA - ONE MORE AIDS PATIENT DIED IN HONG KONG EARLIER THIS MONTH, A SPOKESMAN FOR THE HEALTH DEPARTMENT SAID HERE TODAY.

THIS BRINGS TO 23 THE TOTAL NUMBER OF AIDS PATIENTS IN HONG KONG WHO HAVE PASSED AWAY, THE SPOKESMAN SAID.

THE TOTAL NUMBER OF AIDS CASES IN HONG KONG REMAINS AT 37 TO DATE, HE

SAID. THE 14 OTHER SURVIVORS ARE UNDER COUNSELLING AND TREATMENT.

RELEASING THE MONTHLY STATISTICS ON THE AIDS SURVEILLANCE PROGRAM FOR THE MONTH OF MAY, A SPOKESMAN FOR THE DEPARTMENT SAID THAT ONE MORE MAN WAS FOUND TO BE POSITIVE FOR THE HIV ANTI-BODY TEST.

THE TOTAL NUMBER OF HIV CARRIERS WHO HAVE NOT YET DEVELOPED AIDS WAS 145 AT THE END OF MAY, HE SAID.

#90179h0063 06/28/1990 ~Chinese News Agency

GUANGZHOU (JUNE 28) XINHUA - JIANG ZEMIN, GENERAL SECRETARY OF THE CENTRAL COMMITTEE OF THE COMMUNIST PARTY OF CHINA (CPC), ON A RECENT INSPECTION TOUR OF SPECIAL ECONOMIC ZONES AND OPEN COASTAL AREAS IN GUANGDONG PROVINCE, SAID THE GREAT ACHIEVEMENTS AND CHANGES THAT HAVE TAKEN PLACE IN GUANGDONG PROVINCE OVER THE PAST DECADE HAVE PROVED THE PARTY CENTRAL COMMITTEE'S REFORM AND OPEN POLICY "COMPLETELY CORRECT."

JIANG SAID IT IS NECESSARY TO FURTHER AND MORE FIRMLY IMPLEMENT THE REFORM AND OPEN POLICY AND MAKE FURTHER SUCCESSES IN RUNNING THE SPECIAL ECONOMIC ZONES AND OPEN COASTAL AREAS AND IN DEVELOPING THE NATIONAL ECONOMY.

FROM JUNE 19 TO 27, JIANG, ACCOMPANIED BY LIN RUO, SECRETARY OF THE GUANGDONG PROVINCIAL PARTY COMMITTEE, GOVERNOR YE XUANPING AND ZHANG ZHONGXIAN, POLITICAL COMMISSAR OF THE GUANGZHOU MILITARY AREA COMMAND, MADE AN INSPECTION TOUR OF THREE SPECIAL ECONOMIC ZONES AND SEVEN CITIES AND COUNTIES IN GUANGDONG.

JIANG SAID THAT, SINCE 1980, HE HAS VISITED THE THREE SPECIAL ECONOMIC ZONES IN GUANGDONG MANY TIMES AND FOUND NEW CHANGES ON EVERY VISIT. THE ACHIEVEMENTS HAVE NOT ONLY BEEN AFFIRMED BY THE WHOLE NATION BUT HAVE ALSO ATTRACTED WORLD ATTENTION, HE SAID.

JIANG SAID HE HOPES THE SPECIAL ECONOMIC ZONES FURTHER IMPLEMENT THE GUIDELINES OF THE SPECIAL ECONOMIC ZONE WORK CONFERENCE HELD BY THE STATE COUNCIL IN FEBRUARY, INTRODUCE FOREIGN FUNDS, IMPORT ADVANCED TECHNOLOGY AND MANAGEMENT EXPERTISE, MORE EFFECTIVELY EXPAND FOREIGN TRADE AND ECONOMIC AND TECHNOLOGICAL COOPERATION, AND UPGRADE THEIR EXPORT-LED ECONOMIES TO A NEW LEVEL.

JIANG ALSO CALLED ON THE SPECIAL ECONOMIC ZONES TO STRENGTHEN COOPERATION WITH INLAND AREAS, AND PROVIDE TECHNOLOGY, EXPERIENCE AND PERSONNEL, AND SERVE AS PIONEERS IN THE CONSTRUCTION OF SOCIALISM WITH CHINESE CHARACTERISTICS.

JIANG STRESSED THAT IN COASTAL AREAS AND SPECIAL ECONOMIC ZONES, IT IS NECESSARY TO IMPROVE PARTY BUILDING, IDEOLOGICAL AND POLITICAL WORK, AND

STRENGTHEN THE CONSTRUCTION OF THE ADVANCED SOCIALIST CULTURE AND IDEOLOGY.

JIANG POINTED OUT THAT, WHILE CHINA IMPORTS AND ABSORBS ADVANCED SCIENCE, TECHNOLOGY, MANAGMENT KNOW-HOW AND FINE CULTURE, SHE SHOULD ADHERE TO THE SOCIALIST ORIENTATION AND RESIST CORRUPTION BY BOURGEOIS IDEOLOGY.

DURING HIS VISIT TO SHENZHEN AND ZHUHAI, JIANG MET WITH PUBLIC FIGURES FROM HONG KONG AND MACAO.

#90179h0064 06/28/1990 ~Chinese News Agency

COLOMBO (JUNE 28) XINHUA - SRI LANKAN STATE MINISTER FOR DEFENSE RANJAN WIJERATNE TODAY VEHEMENTLY DENIED ALLEGATIONS THAT GOVERNMENT TROOPS ARE USING NAPALM BOMBS IN THE NORTH AND EAST AGAINST A MILITANT TAMIL GROUP.

THE MINISTER MADE THE DENIAL AT A PRESS BRIEFING IN THE CABINET OFFICE HERE AFTER THE REGULAR WEEKLY CABINET MEETING.

THE LIBERATION TIGERS OF TAMIL EELAM (LTTE), THE MOST POWERFUL TAMIL GROUP IN SRI LANKA, HAS CHARGED THAT NAPALM BOMBS HAVE BEEN USED ON THEIR CADRES WHO HAVE LAID SIEGE TO JAFFNA FORT IN THE NORTH IN THE PAST TWO WEEKS.

"WE HAVE NEVER DROPPED ANY NAPALM BOMBS. WE VEHEMENTLY PROTEST AGAINST THAT CHARGE," WIJERATNE SAID. "I CALL THE LTTE CHEATS AND LIARS."

THE LTTE LAUNCHED A FULL-SCALE ATTACK ON ARMY CAMPS AND POLICE STATIONS IN THE NORTH AND EAST ON JUNE 11, TRIGGERING FIERCE FIGHTING BETWEEN THE LTTE AND GOVERNMENT TROOPS.

THE REBELS ATTACKED AT LEAST 10 ARMY CAMPS, FOUR NAVAL BASES AND OVERRUN 30 POLICE STATIONS IN THE PAST TWO WEEKS.

THE MINISTER SAID THAT SECURITY FORCES HAVE CLEARED THE EASTERN PROVINCE AFTER LAUNCHING A COUNTER-OFFENSIVE AND HAVE MOVED TO THE NORTH WHERE THE LTTE IS STRONGER.

MILITARY OBSERVERS HERE SAID THAT THE ALLEGATION OF USING NAPALM BOMBS HAS BEEN HURLED BY THE LTTE TO TAKE THE PRESSURE OFF MILITARY ATTACKS AGAINST IT AND ALSO AS A PART OF THE DISINFORMATION CAMPAIGN.

FOR 14 DAYS RUNNING, THE JAFFNA FORT ARMY CAMP HAS BEEN ATTACKED BY THE LTTE WITH MORTAR BARRAGE, MACHINE GUNS AND GRENADES.

THE 240 SOLDIERS AND POLICEMEN DEFENDING THE CAMP HAVE BEEN WITHOUT FOOD, WATER OR MEDICINE. ATTEMPTS TO AIRDROP FOOD STOCKS AND MEDICAL SUPPLIES HAVE MET WITH LIMITED SUCCESS BECAUSE OF THE HEAVY FIREPOWER OF THE LTTE.

WIJERATNE SAID THAT THE LTTE STUBBORNLY ENCIRCLE THE FORT BUT THEY WERE WEAK AFTER THE BOMBING BY THE SECURITY FORCES.

DEFENSE SECRETARY CYRIL RANATUNGE TOLD THE PRESS BRIEFING THAT UP TO NOW 140 SOLDIERS HAVE BEEN KILLED AND 200 OTHERS INJURED IN THE CONFRONTATION.

ACCORDING TO OFFICIAL FIGURE, 100,000 FAMILIES IN THE NORTH AND EAST HAVE BEEN RENDERED HOMELESS FOLLOWING CLASHES BETWEEN GOVERNMENT TROOPS AND THE LTTE.

#90179h0069 06/28/1990 ~Chinese News Agency

MANILA (JUNE 28) XINHUA - PHILIPPINE PRESIDENTIAL NATIONAL SECURITY ADVISER RAFAEL ILETO SAID HERE TODAY THAT THE ULTRA- RIGHTIST ELEMENTS WOULD RESIST FROM LAUNCHING ANOTHER MILITARY TAKEOVER BECAUSE "THEY CANNOT POSSIBLY HOPE TO SUCCEED IN THEIR GOAL OF GRABBING POLITICAL POWER FOR AS LONG AS THE PEOPLE ARE NOT ON THEIR SIDE."

SPEAKING AT A PRESS CONFERENCE ATTENDED BY FOREIGN CORRESPONDENTS BASED HERE, ILETO SAID, "I AM NOT TOTALLY SAYING THERE WILL BE NO MORE COUP ATTEMPT. THEY (THE ULTRA-RIGHTIST ELEMENTS) CAN ATTEMPT, BUT THE PROBABILITY OF SUCCESS IS VERY LITTLE."

ILETO POINTED OUT THAT THE PROBLEM POSED BY THE ULTRA-RIGHTIST REBEL GROUPS NOW STILL "CONSTITUTES THE MOST IMMEDIATE DANGER TO THE STABILITY OF THE NATION. THIS IS SO BECAUSE THERE IS A SIZEABLE NUMBER OF THEIR ARMED MILITARY LEADERS AND FOLLOWERS, AS WELL AS THEIR CIVILIAN SUPPORTERS WHO ARE STILL AT LARGE. AND THEY HAVE BEEN QUITE ACTIVE IN THEIR RECRUITMENT, AGITATION AND PROPAGANDA WORK."

AT THE MOMENT, THE MILITARY REBELS "CAN UNDERTAKE HIT-AND-RUN ATTACKS IN AN EFFORT TO INSTILL FEAR AMONG THE POPULACE, BUT THESE WOULD SERVE THEM NO USEFUL PURPOSE," HE SAID, ADDING THAT "THE HAVOC WROUGHT BY THEIR NUMEROUS ATTEMPTS TO SEIZE POWER, PARTICULARLY THE ONE LAST DECEMBER, HAS PRODUCED A TREMENDOUS BACKLASH FROM OUR PEOPLE."

ILETO NOTED THAT IT WOULD TAKE THE MILITARY REBELS MORE TIME TO RECOVER FROM THE LOSSES THEY HAD ENCOUNTERED IN THE PAST SIX COUP ATTEMPTS, PARTICULARLY THE LAST ONE LAST DECEMBER 1-9.

ON THE PRESENT GENERAL SITUATION IN THE COUNTRY, ILETO SAID THAT

NOTWITHSTANDING THE LOSSES SUFFERED AS A CONSEQUENCE OF THE DECEMBER 1989 COUP, "WE WERE ABLE TO SUSTAIN A MODEST ECONOMIC GROWTH RATE OF FIVE PERCENT IN THE FIRST QUARTER OF THIS YEAR.

"WITH THIS GROWTH RATE, WE WERE ALSO APPARENTLY ABLE TO RESTORE THE CONFIDENCE OF INVESTORS BECAUSE THE INVESTMENT FIGURES FOR THE SECOND QUARTER SEEMED TO HAVE EXCEEDED THE PRE-DECEMBER 1989 INVESTMENTS RECORD," HE SAID.

IN A RELATED DEVELOPMENT, THE PHILIPPINE DEPARTMENT OF FOREIGN AFFAIRS, IN AN UNPRECEDENTED MOVE, SUMMONED TODAY ALL REPRESENTATIVES OF THE DIPLOMATIC AND CULTURAL MISSIONS IN MANILA IN SECURITY BRIEFINGS GIVEN BY BRIGADIER GENERAL GERARDO FLORES, CHIEF OF INTELLIGENCE OF THE PHILIPPINE CONSTABULARY-INTEGRATED NATIONAL POLICE.

THE DEPARTMENT SOURCES SAID THIS IS THE FIRST TIME THAT SUCH SECURITY BRIEFINGS TOOK PLACE IN THE DEPARTMENT TO CONVINCE FOREIGNERS OF THE GENERALLY GOOD SITUATION IN THE COUNTRY.

THE SECURITY BRIEFINGS WERE GIVEN AT A TIME WHEN THE U.S. GOVERNMENT TODAY ORDERED THE PULLOUT OF ITS 261 PEACE CORPS MEMBERS IN THE PHILIPPINES LATER THIS WEEK AND WHEN SOME OF THE MULTINATIONAL COMPANIES ARE PLANNING TO MOVE THEIR HEADQUARTERS OUT OF THE COUNTRY.

-30- 2995

#90179h0070 06/28/1990 ~Chinese News Agency

BEIJING (JUNE 28) XINHUA - CHINA'S TOURISM INDUSTRY CONTINUED ITS RECOVERY IN MAY WITH 2.29 MILLION TOURIST ARRIVALS, 12.4 PERCENT MORE THAN IN THE SAME MONTH LAST YEAR.

ACCORDING TO THE LATEST STATISTICS FROM THE NATIONAL TOURISM ADMINISTRATION (NTA), CHINA RECEIVED 144,000 FOREIGN TRAVELERS IN MAY, A 4.1 PERCENT INCREASE OVER THE PREVIOUS MONTH. TOURISTS FROM THE SOVIET UNION, THE PHILIPPINES, SINGAPORE AND THAILAND ARRIVED IN INCREASING NUMBERS.

FOR THE FIRST FIVE MONTHS, THERE WERE 11.23 MILLION TOURIST ARRIVALS, DOWN 0.6 PERCENT FROM THE SAME PERIOD LAST YEAR AND ABOUT 89 PERCENT OF THE FIGURE FOR THE SAME PERIOD IN 1988.

FOREIGN TOURIST ARRIVALS TOTALED 599,000, 85.9 PERCENT OF THE FIGURE RECORDED IN 1988. OVERSEAS CHINESE TOURIST ARRIVALS INCREASED 48.5 PERCENT TO 37,000. THE NUMBER OF ARRIVALS OF COMPATRIOTS FROM HONG KONG, MACAU AND TAIWAN INCREASED 6 PERCENT TO 10.59 MILLION.

TRAVEL AGENCIES AND OTHER ORGANIZATIONS HOSTED 360,000 TOURISTS IN MAY, A 13.2 PERCENT INCREASE OVER THE SAME PERIOD LAST YEAR.

MOST OF THE TOURISTS CAME FROM JAPAN, THE UNITED STATES, THE SOVIET UNION, THE PHILIPPINES, SINGAPORE, THAILAND, BRITAIN, AUSTRALIA, FRANCE, CANADA AND FEDERAL GERMANY.

#90179h0071 06/28/1990 ~Chinese News Agency

CANBERRA (JUNE 28) XINHUA - NEW ZEALAND PRIME MINISTER GEOFFREY PALMER ARRIVED IN MELBOURNE TODAY TO START A SIX-DAY OFFICIAL VISIT TO AUSTRALIA.

PALMER WILL ATTEND A MEETING OF AUSTRALIA-NEW ZEALAND ENVIRONMENT COUNCIL IN MELBOURNE TOMORROW BEFORE COMING HERE FOR TALKS WITH AUSTRALIAN PRIME MINISTER BOB HAWKE, ACCORDING TO RADIO AUSTRALIA TONIGHT.

THE TWO LEADERS ARE EXPECTED TO DISCUSS THE DEVELOPMENTS IN THE SOUTH PACIFIC AND ANTARCTIC AND THE SITUATION IN BOUGAINVILLE.

IT IS REPORTED THAT THE PAPUA NEW GUINEAN GOVERNMENT HAS ACCEPTED A NEW ZEALAND PEACE PLAN FOR BOUGAINVILLE.

-30- 748

#90179h0072 06/28/1990 ~Chinese News Agency

MANILA (JUNE 28) XINHUA - PRESIDENTIAL NATIONAL SECURITY ADVISER RAFAEL ILETO STATED HERE TODAY THAT IT IS THE RESPONSIBILITY OF THE UNITED STATES TO BRING TO THE TALKS IN AUGUST OR SEPTEMBER "CREATIVE PROPOSALS REGARDING ITS BID TO MAINTAIN ITS BASES IN THE PHILIPPINES."

ILETO TOLD MANILA-BASED FOREIGN CORRESPONDENTS AT A PRESS CONFERENCE THAT THE FINAL OUTCOME OF THESE FORTHCOMING DISCUSSIONS ON THE FATE OF THE U.S. MILITARY BASES IN THE COUNTRY AFTER THE CURRENT BASES AGREEMENT EXPIRES IN 1991 "REMAINS UNCERTAIN."

THE FUTURE DISCUSSIONS WERE SET BY THE PHILIPPINE AND U.S. PANELS IN THE EXPLORATORY TALKS ON THE BASES HELD IN MANILA IN MID-MAY THIS YEAR.

ILETO STATED THAT THE POSITION OF THE PHILIPPINE SIDE IN THE COMING DISCUSSIONS IS "ANY NEW ARRANGEMENT SHALL RESPECT OUR SOVEREIGNTY AND TAKE INTO ACCOUNT THE CHANGING GLOBAL ENVIRONMENT."

"FOR ITS PART, THE PHILIPPINES FULLY INTENDS TO BE A FULL AND EQUAL PARTNER OF THE UNITED STATES IN THIS REGION WITHIN THE PARAMETERS OF A 'NEW RELATIONSHIP' TO BE ESTABLISHED IN THESE FORTHCOMING DISCUSSIONS. AND WE ARE COMMITTED TO PURSUE AND IMPLEMENT A RESPONSIBLE STRATEGY IN RELATION TO THE U.S. MILITARY PRESENCE IN OUR COUNTRY," THE PRESIDENTIAL SECURITY ADVISER OBSERVED.

HE SAID HE PERSONALLY STOOD FOR THE CONTINUED STAY OF THE U.S. BASES IN THE COUNTRY.

HE NOTED THAT AN EXTENSION OF THE STAY OF THE U.S. BASES AFTER 1991 WOULD MEAN THE SIGNING OF ANOTHER TREATY TO BE DULY RATIFIED BY THE LEGISLATURES OF THE TWO COUNTRIES.

"THE ONLY WAY THEY (U.S. BASES) CAN BE EXTENDED WITHOUT HAVING TO GO THROUGH A TREATY AND AN AGREEMENT IS WHAT I CALL A PHASE-OUT WITHDRAWAL," HE SAID.

HE ADDED, "TO REMOVE THE BASES IMMEDIATELY IS NOT FOR THE INTERESTS OF BOTH COUNTRIES. THE TIMEFRAME (FOR A PHASE-OUT) WILL BE BETWEEN FIVE TO 10 YEARS."

-30- 2029

#90179h0074 06/28/1990 ~Chinese News Agency

MANILA (JUNE 28) XINHUA - PHILIPPINE PRESIDENT CORAZON AQUINO TODAY DENIED MILITARY REBELS' CLAIM THAT HER PRESIDENTIAL SECURITY GROUP (PSG) HAD BEEN INFILTRATED BY THE YOUNG OFFICERS UNION (YOU), AN ANTI-GOVERNMENT ULTRA-RIGHTIST FACTION IN THE MILITARY.

PRESIDENT AQUINO TOLD REPORTERS THAT COL. VOLTAIRE GAZMIN, PSG COMMANDER, ASSURED HER THAT THE PSG HAS NOT BEEN INFILTRATED BY THE YOU.

THE REBEL YOUNG OFFICERS UNION CLAIMED THAT IT HAS RECRUITED AT LEAST 1,000 JUNIOR OFFICERS AND INFILTRATED THE DIFFERENT MILITARY CAMPS, EVEN MRS. AQUINO'S OWN PRESIDENTIAL SECURITY GROUP.

"THE YOU GROUP IS ACTUALLY ONLY A HANDFUL OF YOUNG REBELS IN THE MILITARY. THEIR LATEST CLAIM IS LARGELY PART OF THEIR CONTINUING PROPAGANDA EFFORTS " PRESIDENT AQUINO SAID.

MEANWHILE, NATIONAL SECURITY ADVISER RAFAEL ILETO TODAY WARNED THAT MILITARY REBELS MIGHT STAGE A NEW COUP ATTEMPT AGAINST THE AQUINO GOVERNMENT. BUT THEY HAVE LITTLE CHANCE TO SUCCEED IN THE NEAR FUTURE.

-30- 1163

#90179h0075 06/28/1990 ~Chinese News Agency

ZHENGZHOU (JUNE 28) XINHUA - A CEREMONY MARKING THE BEGINNING OF CONSTRUCTION OF THE CENTRAL PLAINS PHARMACEUTICAL FACTORY, THE LARGEST OF ITS KIND IN CHINA, WAS HELD TODAY IN ZHENGZHOU, CAPITAL OF CENTRAL CHINA'S HENAN PROVINCE.

THE PROJECT, TO BE BUILT WITH A TOTAL INVESTMENT OF 720 MILLION YUAN, HAS BEEN GRANTED A 98.2 MILLION-U.S.-DOLLAR LOAN BY THE WORLD BANK.

AFTER COMPLETION AT THE END OF 1991, THE FACTORY IS EXPECTED TO PRODUCE 5,000 TONS OF VITAMIN C PER YEAR AND EARN 21.6 MILLION U.S. DOLLARS IN FOREIGN EXCHANGE BY EXPORTING 2,000 TONS.

JIN TONGLING, DEPUTY DIRECTOR OF THE STATE PHARMACEUTICAL ADMINISTRATION, LIU YUAN, VICE-GOVERNOR OF HENAN PROVINCE AND ZHENGZHOU MAYOR HU SHUJIAN ATTENDED THE CEREMONY.

#90179h0076 06/28/1990 ~Chinese News Agency

BEIJING (JUNE 28) XINHUA - MEMBERS OF THE STANDING COMMITTEE OF THE NATIONAL PEOPLE'S CONGRESS, AT A MEETING HERE TODAY IN THE GREAT HALL OF THE PEOPLE, OFFERED ADVICE ON ECONOMIC PROBLEMS, INCLUDING LOW EFFICIENCY, THE SLUGGISH MARKET AND THE SLOW DEVELOPMENT OF AGRICULTURE.

MOST MEMBERS AGREED THAT THE OVERALL ECONOMIC SITUATION IS GOOD WITH PROGRESS BEING MADE IN RECTIFYING THE ECONOMIC ENVIRONMENT AND STRAIGHTENING OUT THE ECONOMIC ORDER. BUT, THEY NOTED, PROBLEMS STILL EXIST.

DEPUTY LI CHONGHUAI SUGGESTED INCREASED PURCHASING OF AGRICULTURAL AND SIDELINE PRODUCTS AND INCREASED AGRICULTURAL INVESTMENT, IN ORDER TO FURTHER TAP THE MARKET IN THE COUNTRYSIDE, WHICH HAS MORE THAN 800 MILLION FARMERS.

DEPUTY LI JIANBEI NOTED THAT, AFTER AN INSPECTION TOUR OF HEILONGJIANG PROVINCE IN NORTHEAST CHINA, HE FEELS THE CENTRAL GOVERNMENT'S POLICY ON AGRICULTURE IS VERY REASONABLE.

THE GOVERNMENT'S ATTITUDE FOR THE PAST YEAR HAS BEEN THAT CHINA CAN ONLY FULLY DEVELOP ITS AGRICULTURAL SECTOR IF IT FOLLOWS A FLEXIBLE POLICY, ADOPTS MODERN TECHNOLOGY AND PROVIDES ADEQUATE INVESTMENT.

DEPUTY LI URGED THE GOVERNMENT TO STRENGTHEN THE CULTURAL AND SCIENTIFIC EDUCATION OF FARMERS AND INCREASE ITS INVESTMENT IN AGRICULTURAL SCIENCE AND TECHNOLOGY.

DEPUTY XU YUNBEI CALLED FOR THE STATE PLANNING COMMISSION, THE MINISTRY OF FINANCE AND OTHER DEPARTMENTS TO DEVELOP CONCRETE PLANS TO DEEPEN ENTERPRISE REFORM AS SOON AS POSSIBLE.

XU ALSO SUGGESTED THAT A LAW ON ENTERPRISE EFFICIENCY BE DEVELOPED TO ENSURE THAT THE EFFICIENCY OF ENTERPRISES IMPROVES.

#90179h0077 06/28/1990 ~Chinese News Agency
ZHU CHANGDU - XINHUA

CAIRO (JUNE 28) XINHUA - SUDAN'S MILITARY GOVERNMENT HAS MANAGED TO TIDE OVER AN ARDUOUS YEAR IN POWER UNDER THE STRESS OF COUP ATTEMPTS, CIVIL WAR FAMINES AND A FALTERING ECONOMY.

SINCE ITS TAKEOVER OF POWER ON JUNE 30 LAST YEAR, THE COMMAND COUNCIL OF THE NATIONAL SALVATION REVOLUTION HEADED BY OMAR HASSAN AHMED AL-BASHIR HAS SURVIVED THREE COUP ATTEMPTS WHICH HAVE MADE THE POLITICAL SITUATION IN SUDAN EVER MORE COMPLICATED.

TO TRY TO CONSOLIDATE ITS POWER, THE MILITARY JUNTA HAS EXECUTED ABOUT 50 SENIOR ARMY OFFICERS AND CONVICTED MANY MORE TO PRISON PUNISHMENT FOR THEIR INVOLVEMENT IN THE TWO FOILED COUPS RESPECTIVELY IN MARCH AND APRIL THIS YEAR. ON THE OTHER HAND, IT HAS RELEASED QUITE A NUMBER OF THE PROMINENT FIGURES OF POLITICAL PARTIES AND TRADE UNIONS ARRESTED FOLLOWING THE JUNE 30 COUP, AND LET SOME CIVILIAN ELEMENTS PARTICIPATE IN THE GOVERNMENT.

THE ISLAMIC LAW HAS BECOME THE FOCUS THAT RESTRUCTURES SUDAN'S POLITICAL FUTURE. A NATIONAL DIALOGUE CONFERENCE WAS CONVENED LAST OCTOBER, WHICH PROPOSED TO PURSUE AN IDEA OF ESTABLISHING A FEDERAL SYSTEM AS A SOLUTION TO THE CONTROVERCY OVER THE LAW.

THE ISLAMIC LAW WAS DECREED BY FORMER PRESIDENT GAAFAR NIMERI AND FROZEN BY THE PRE-COUP PREMIER SEDEK MAHDI'S GOVERNMENT. BUT IT WAS RE-IMPOSED BY THE NEW GOVERNMENT LAST OCTOBER, WHICH FUELED THE REBELLION IN SOUTH SUDAN.

REPEATED COUP ATTEMPTS HAVE EXPOSED THE VULNERABILITY OF THE NEW GOVERNMENT IN FACE OF STRONG POLITICAL CHALLENGE. OPPOSITION PARTIES IN EXILE AND THE REBELLIOUS SUDAN PEOPLE'S LIBERATION ARMY (SPLA) REPORTEDLY REACHED AN AGREEMENT IN MARCH TO JOIN HANDS IN AN EFFORT TO REPLACE THE MILITARY GOVERNMENT WITH A TRANSITIONAL SECULAR GOVERNMENT THROUGH POPULAR UPRISING.

THE SEVEN-YEAR-OLD CIVIL WAR, WHICH CAUSED HUNDREDS OF THOUSANDS OF DEATHS IN SUDAN, ENVISAGES NO IMMEDIATE END AS PROMISED.

TWO ROUNDS OF INCONCLUSIVE TALKS HAVE BEEN CONDUCTED BETWEEN THE MILITARY GOVERNMENT AND THE SPLA WHICH TOOK UP ARMS IN 1983 TO SEEK GREATER ECONOMIC RIGHTS AND POLITICAL AUTONOMY IN SOUTH SUDAN.

THE TALKS COLLAPSED LARGELY OVER THE ISSUE OF THE ISLAMIC LAW ON WHICH THE GOVERNMENT REFUSED TO COMPROMISE.

NEVERTHELESS, BOTH SIDES HAVE NOT SHUT THE DOOR TO FURTHER NEGOTIATIONS AND A THIRD ROUND OF TALKS, UNDER THE MEDIATION OF ZAIREAN PRESIDENT MOBUTU SESE SEKO, IS IN THE OFFING.

THE BETTER EQUIPPED REBELS HAVE REPORTEDLY MADE SOME GAINS ON THE BATTLEFIELDS ALTHOUGH THE GOVERNMENT CLAIMED TO HAVE WON VICTORIES. HOWEVER, NO DECISIVE CHANGES HAVE TAKEN PLACE IN THE BALANCE OF POWER IN THE WAR.

THE MILITARY GOVERNMENT INHERITED A FALTERING ECONOMY LAST JUNE WHICH WAS BURDENED WITH 13 BILLION U.S. DOLLARS OF FOREIGN DEBTS, A DAILY COST OF ONE MILLION DOLLARS FOR FIGHTING THE REBELS IN THE SOUTH, AND MORE THAN 2 MILLION VICTIMS OF FAMINES AND INSURGENCY.

SINCE 1985, SUDAN HAS NOT SERVICED ITS LOANS AND FOR THIS THE INTERNATIONAL MONETARY FUND HAS DECLARED IT INELIGIBLE FOR NEW LOANS, BRINGING PRESSURES ON SUDAN TO ACCEPT THE FUND'S HARSH CONDITIONS FOR ECONOMIC REFORM.

SEVERAL STEPS HAVE BEEN TAKEN TO PUT AN END TO ECONOMIC DETERIORATION. THE ONGOING REFORM IS HIGHLIGHTED IN A MARKET ECONOMY PLAN WHICH FAVORS SELLING NON-PROFIT STATE-RUN PUBLIC SECTOR, INCLUDING INDUSTRIES, HOTELS AND NATIONAL AIRLINES, TO PRIVATE INDIVIDUALS, LIFTING GOVERNMENT SUBSIDIES, ENDING STATE MONOPOLIES IN AGRICULTURAL, INDUSTRIAL AND TRANSPORT PROJECTS DEVALUATING SUDAN'S CURRENCY THE POUNDS AND ADOPTING A TWO-TIER-PRICING SYSTEM AS A BUFFER FOR THE POOR ON BASIC COMMODITIES.

ECONOMIC POVERTY IS HAUNTING SUDAN WITH HIGH INFLATION, LOW PRODUCTIVITY AND FAMINES. MANY SUDANESE CAN DISCERN LITTLE IMPROVEMENT AFTER THE JUNE COUP AND CITIZENS HAVE TO BEAR WITH CHRONIC SHORTAGE OF BREAD, SUGAR, OIL, GASOLINE AND OTHER COMMODITIES.

MEANWHILE, A NEW MIGRATION OF HUNDREDS OF THOUSANDS OF IMPOVERISHED REFUGEES IS BITTERLY IRKING THE MILITARY GOVERNMENT.

IN SOUTH SUDAN, WAR, DROUGHTS, FLOODS, QUAKES AND FAMINES FORCED ABOUT 3.5 MILLION PEOPLE -- MORE THAN HALF THE REGION'S POPULATION -- TO FLEE FOR OTHER PARTS OF SUDAN OR NEIGHBORING COUNTRIES. IN ADDITION, AN ESTIMATED 800,000 ETHIOPEAN AND CHADIAN REFUGEES ARE IN SUDAN.

ACCORDING TO THE UNITED NATIONS, AN ESTIMATED HALF A MILLION REFUGEES REMAIN AT THE RISK OF STARVATION AND THEIR SURVIVAL DEPENDS ON THE RELIEF OF A U.N.- SPONSORED PROJECT -- 'OPERATION LIFELINE SUDAN,' BECAUSE SUDAN COULD NOT AFFORD TO FEED THE HUNGRY ON ITS MEAGRE RESOURCES.

NEVERTHELESS, THE PRE-COUP STRAINED RELATIONS BETWEEN SUDAN AND ITS NEIGHBORING ARAB AND AFRICAN COUNTRIES HAVE MOSTLY BEEN IMPROVED OVER THE PAST YEAR.

THE JUNTA HAS FORGED CLOSE RELATIONS WITH EGYPT AND AGREED TO INTEGRATE WITH LIBYA WITHIN FOUR YEARS IN POLITICAL, ECONOMIC, CULTURAL AND SECURITY SPHERES. A SECURITY-COOPERATION TREATY WAS SIGNED LAST APRIL BETWEEN SUDAN

AND UGANDA, AND THE TENSION ON THE CHADIAN-SUDANESE BORDERS HAS BEEN GREATLY EASED.

HOHHOT (JUNE 28) XINHUA - NEGOTIATIONS ARE UNDER WAY BETWEEN THE CHINESE AND SOVIET GOVERNMENTS ON THE SECOND PHASE OF A LINEN MILL IN BAOTOU, INNER MONGOLIA AUTONOMOUS REGION, ACCORDING TO REGIONAL AUTHORITIES.

THE FIRST PHASE OF THE PROJECT, BUILT BY THE CHINESE SIDE, WENT INTO PRODUCTION IN APRIL THIS YEAR.

THE SOVIET UNION HAS AGREED TO INVEST 80 MILLION YUAN (ABOUT 17 MILLION U.S. DOLLARS) WORTH OF EQUIPMENT AND MATERIALS.

AFTER COMPLETION OF THE SECOND PHASE IN TWO YEARS, THE MILL WILL HAVE 100 LOOMS WITH THE CAPACITY TO TURN OUT FOUR MILLION METERS OF LINEN CLOTH A YEAR.

#90179h0080 06/28/1990 ~Chinese News Agency

TOKYO (JUNE 28) XINHUA - JAPANESE PRIME MINISTER TOSHIKI KAIFU EXPRESSED HERE TODAY JAPAN'S CAUTION OVER WEST EUROPEAN PROPOSALS TO OFFER ECONOMIC AID TO THE SOVIET UNION TO HELP PROMOTE THE COUNTRY'S PERESTROIKA RESTRUCTURING EFFORTS.

KAIFU SAID AT A NATIONALLY BROADCAST NEWS CONFERENCE THAT BECAUSE OF A LONGSTANDING TERRITORIAL DISPUTE, JAPAN IN DEALING WITH THE SOVIET UNION "DIFFERS" FROM WESTERN EUROPE, THE UNITED STATES AND OTHER MAJOR AID DONOR COUNTRIES

FEDERAL GERMANY AND FRANCE ARE THE MAIN PROPONENTS OF A SCHEME TO ASSIST SOVIET PRESIDENT MIKHAIL GORBACHEV IN HIS PLANS TO RESTRUCTURE THE FLAGGING SOVIET ECONOMY.

U.S. SECRETARY OF STATE JAMES BAKER PLANS TO CONSULT WITH U.S. ALLIES ON THE MATTER.

KAIFU SAID, HOWEVER, JAPAN "IS PREPARED TO OFFER AS MUCH ECONOMIC COOPERATION AS POSSIBLE" TO THE SOVIET UNION "WHEN THE NECESSARY TIME COMES."

HE SAID JAPAN AND THE SOVIET UNION HAVE CONCLUDED NO PEACE TREATY, BECAUSE THE SOVIET UNION HAS OCCUPIED THREE ISLANDS AND A GROUP OF ISLETS JUST EAST OF HOKKAIDO, NORTHERN JAPAN, AFTER WORLD WAR II.

BUT THE PRIME MINISTER SAID HE HOPED TO EXCHANGE VIEWS ON SOVIET AID PROPOSALS AT THE ANNUAL SUMMIT OF SEVEN MAJOR INDUSTRIAL COUNTRIES IN HOUSTON ON JULY 9-11.

KAIFU ALSO SAID THAT HE HOPED SOVIET PRESIDENT GORBACHEV WILL COME TO TOKYO EARLY NEXT YEAR, AND THAT HIS VISIT WILL PROVIDE A DIVIDE IN BILATERAL RELATIONS.

THE PRIME MINISTER SAID "IF NECESSARY", HE WOULD ALSO CONSIDER A RETURN VISIT TO MOSCOW AFTER GORBACHEV'S TRIP TO JAPAN.

#90179h0081 06/28/1990 ~Chinese News Agency

MANILA (JUNE 28) XINHUA - THE PHILIPPINE GOVERNMENT WOULD BYPASS CONGRESS IF IT PUSHES THROUGH A PLAN TO DEREGULATE OIL PRICES NEXT YEAR, SENATE MAJORITY FLOORLEADER TEOFISTO GUINGONA SAID TODAY.

GUINGONA TOLD REPORTERS THAT THE PLAN TO DEREGULATE OIL PRICES AND ABOLISH THE OIL PRICE STABILIZATION FUND IS PART OF THE CONDITIONS SET BY THE INTERNATIONAL MONETARY FUND (IMF) ON THE PHILIPPINE GOVERNMENT IN EXCHANGE FOR MORE LOANS AND DEBT RESTRUCTURING.

GUINGONA SAID THE PLAN IS COVERED BY THE EXISTING LAWS WHICH CONGRESS FIRST HAS TO AMEND OR REPEAL.

THE CABINET CANNOT DEREGULATE ARBITRARILY, AND CONGRESS IS THE POLICY MAKING BODY AND NOT THE EXECUTIVE, HE SAID, ADDING THAT "IMF POLICIES ARE ONLY SECONDARY TO THE CONSTITUTION."

HE SAID THE MOOD IN THE SENATE IS TO RETAIN THE OIL PRICE STABILIZATION FUND AND FOR THE GOVERNMENT TO CONTINUE REGULATING OIL PRICES.

HE NOTED DEREGULATION WOULD LEAD TO AN INCREASE IN BASIC COMMODITIES AND MAY ALSO RESULT IN AN INCREASE IN THE COST OF ENERGY.

HE SAID DEREGULATION CAN BE PUT IN PLACE IF THE NETWORK OF DEALERS AND SERVICE STATIONS IS EXPANDED TO ALLOW FOR COMPETITION WHICH COULD LEAD TO LOWER PRICES OF OIL PRODUCTS.

PRESIDENTIAL EXECUTIVE SECRETARY CATALINO MACARAIG HAS ANNOUNCED THAT FULL DEREGULATION OF OIL PRICES WILL BE IN PLACE BY JANUARY NEXT YEAR.

HE ADMITTED THE MOVE WOULD RESULT IN PRICE INCREASES OF OIL PRODUCTS, BUT SAID THE GOVERNMENT COULD CUSHION THE PRICE INCREASE BY LIMITING THEM TO 1.2 PERCENT EVERY MONTH.

#90179h0083 06/28/1990 ~Chinese News Agency
GABORONE (JUNE 28) XINHUA - SOUTH AFRICAN PRESIDENT F.W. DE KLERK HAS PROMISED TO WORK FOR A NEW CONSTITUTION WHICH WILL DO AWAY WITH THE POPULATION REGISTRATION ACT, THE BASIS OF APARTHEID.

"THE CITIZEN" NEWSPAPER OF SOUTH AFRICA TODAY QUOTED DE KLERK AS SAYING THAT CONSTITUTIONAL NEGOTIATIONS WILL BE FOLLOWED BY THE REPEAL OF THE EXISTING CONSTITUTION.

AS A RESULT, THE POPULATION REGISTRATION ACT WILL ALSO BE REPEALED BECAUSE "A NEW BASIS WOULD HAVE TO BE FOUND" IN THE NEW CONSTITUTION, HE NOTED.

IN SOUTH AFRICA, FOUR LAWS ARE GENERALLY IDENTIFIED AS THE PILLARS OF APARTHEID -- THE GROUP AREAS ACT, LAND ACT, SEPERATE AMENITIES ACT AND THE POPULATION REGISTRATION ACT.

THE POPULATION REGISTRATION ACT UNDERPINS THE OTHER ACTS BY CLASSIFYING ALL SOUTH AFRICANS BY RACE AND ETHNIC ORIGIN.

BUT HE REJECTED THE IDEA OF A CONSTITUENT ASSEMBLY DEMANDED BY BOTH THE AFRICAN NATIONAL CONGRESS (ANC) AND THE PAN AFRICANIST CONGRESS (PAC).

"A CONSTITUENT ASSEMBLY ELECTED BEFORE YOU START WITH NEGOTIATIONS CAUSES A CONSTITUTIONAL VACUUM AND UNCERTAINTY, AND UNDERMINES THE CAPABILITY OF PRESENT GOVERNMENT STRUCTURES TO CONTINUE WITH GOOD GOVERNMENT WHILE NEGOTIATIONS TAKE PLACE," ARGUED PRESIDENT DE KLERK.

#90179h0084 06/28/1990 ~Chinese News Agency
AMMAN (JUNE 28) XINHUA - THE AGRICULTURE MINISTRY HAS PERMITTED FOUR KING OF FARM PRODUCTS FROM THE OCCUPIED WEST BANK TO BE BROUGHT INTO JORDAN.

THESE PRODUCTS -- GRAPES, PLUMS, HONEY AND SWEET POTATOES -- WILL BE ADMITTED INTO JORDAN FROM JUNE 28 TO OCTOBER 30, WITH THE AIM OF ACHIEVING SOME SORT OF JORDANIAN-PALESTINIAN AGRICULTURAL INTEGRATION AND PROVIDING GENUINE SUPPORT FOR THE 30-MONTH-OLD PALESTINIAN UPRISING IN THE ISRAELI-OCCUPIED TERRITORIES.

JORDANIAN NEWSPAPER "AL-RAI" TODAY QUOTED AGRICULTURE MINISTER SOLIMAN ARIBAT AS SAYING THAT HIS MINISTRY HAS MADE ARRANGEMENTS, IN COLLABORATION WITH THE PALESTINIAN AFFARS DEPARTMENT, FOR THE ADMISSION OF THE WEST BANK FARM PRODUCTS INTO JORDAN AT SPECIFIED DATES ACCORDING TO THE HOME PRODUCTION SEASONS.

IT IS NOTEWORTHY THAT THE QUANTITIES OF FARM PRODUCTS ADMITTED INTO JORDAN HAVE DECLINED IN THE PAST THREE MONTHS.

THIS IS DUE TO THE COERCIVE MEASURES TAKEN BY THE ISRAELI OCCUPATION AUTHORITIES AGAINST THE PALESTINIANS WHO WISH TO BRING THEIR FARM PRODUCTS INTO JORDAN, THE JORDANIAN AGRICULTURE MINISTER EXPLAINED, BUT DID NOT ELABORATE.

BEIJING (JUNE 28) XINHUA - PREMIER LI PENG SAID HERE TODAY THAT CHINA IS STABLE POLITICALLY, ECONOMICALLY AND SOCIALLY, AND ITS ECONOMY HAS BEGUN TO IMPROVE.

IN A MEETING WITH THE REPRESENTATIVES OF COUNTIES WITH REVENUES EXCEEDING 100 MILLION YUAN, LI SAID THERE ARE STILL SOME DIFFICULTIES, PARTICULARLY FINANCIAL. HE SAID SOLUTION OF THIS PROBLEM IS IMPORTANT FOR ECONOMIC DEVELOPMENT AND SOCIAL STABILITY.

LI SAID TAXATION IS A LEVER FOR REGULATION OF THE ECONOMY THAT MUST BE UTILIZED WELL IN ORDER TO FACILITATE ECONOMIC DEVELOPMENT. HE SAID HE HOPES THE CURRENT MEETING WILL POPULARIZE THE EXPERIENCE OF COUNTIES WITH REVENUES EXCEEDING 100 MILLION YUAN.

LI CALLED ON GOVERNMENTS AT ALL LEVELS TO ATTACH IMPORTANCE TO ECONOMIC DEVELOPMENT AND TAXATION, IMPROVE THEIR LEADERSHIP OF TAXATION AND STRENGTHEN THEIR TAX COLLECTION AGENCIES.

#90179h0111 06/28/1990 ~Chinese News Agency

LAGOS (JUNE 28) XINHUA - NOBEL LAUREATE PROFESSOR WOLE SOYINKA HAS APPEALED TO THE NIGERIAN GOVERNMENT TO TAKE AN URGENT STEP TO ARREST WHAT HE CALLED "INHUMAN TREATMENT" OF NIGERIANS VISITING THE UNITED STATES.

LOCAL NEWSPAPERS TODAY QUOTED SOYINKA AS TELLING A PRESS CONFERENCE ON WEDNESDAY THAT ANY NIGERIAN VISITING AMERICA IS NOW SUBJECTED TO "EMBARRASSING AND INHUMAN TREATMENT" AT THE AIRPORT IN EXCUSE THAT THEY ARE SEARCHING FOR DRUG TRAFFICKERS.

HE TOLD REPORTERS OF HIS PERSONAL EXPERIENCE DURING HIS RECENT VISIT TO THE U.S. AT THE JU. KENNEDY AIRPORT.

"A LOUTISH, ALMOST VISIBLY GLOATING CUSTOMS OFFICER PLUNGED INTO MY BAGGAGE LIKE A DOG ROOTING IN COMPOST," SAID THE NIGERIAN PROFESSOR.

HE SAID THAT OTHER NON-NIGERIAN PASSENGERS ON THE SAME FLIGHT WERE NOT SUBJECTED TO A SIMILAR TREATMENT, BUT JUST THE STANDARD AND COURTEOUS CUSTOMS INSPECTION.

THIS IS A NATIONAL ISSUE WHICH MUST BE ADDRESSED WITH DISPATCH, ADDED THE NOBEL LAUREATE.

THE SECURITY CHECKS ON NIGERIANS HAVE BEEN TIGHTENED BY MANY WESTERN COUNTRIES AND EVEN NATIONS LIKE THAILAND AFTER MANY NIGERIANS WERE CAUGHT IN THE ACT OF TRAFFICKING HARD DRUGS.

#90179h0117 06/28/1990 ~Chinese News Agency

ALGIERS (JUNE 28) XINHUA - FIFTEEN ARAB STATES WILL HOLD A PREPARATORY MEETING IN RIYADH, SAUDI ARABIA BEFORE A CONSTITUTIONAL MEETING SCHEDULED FOR SEPTEMBER 10-11 TO APPROVE AN INTERNATIONAL FUND FOR LEBANON, SOURCES CLOSE TO THE ARAB LEAGUE TRIPARTITE COMMITTEE ON LEBANON SAID HERE TODAY.

THE COMMITTEE, WHICH GROUPS ALGERIA, MOROCCO AND SAUDI ARABIA, SAID EARLIER THIS MONTH THAT AN "INTERNATIONAL FUND OF SUPPORT TO LEBANON"

WOULD BE SET UP. IT SAID 2 BILLION U.S. DOLLARS OF CONTRIBUTION WOULD BE NEEDED FOR THE FUND.

THE SOURCES SAID ARAB STATES WILL PROVIDE 500 MILLION U.S. DOLLARS, MOST OF WHICH IS TO BE PAID BY THE OIL-RICH SAUDI ARABIA, AND ANOTHER 500 MILLION IS EXPECTED FROM THE EUROPEAN COMMUNITY STATES. THEY SAID THE UNITED STATES AND JAPAN ARE EXPECTED TO EACH WRITE THE CHECK FOR HALF OF ANOTHER BILLION.

SALIM HOSS, LEBANESE PRIME MINISTER, SAID EARLIER THAT THE PROPOSED 2 BILLION DOLLAR-FUND WAS A "GOOD START" BUT HOPED MORE AID COULD BE ALLOCATED TO SALVAGE LEBANON'S ECONOMY DILAPIDATED IN 15 YEARS OF CIVIL WAR.

THE FUND INITIATIVE WAS PRESENTED IN LINE WITH RESOLUTIONS OF A LATE MAY ARAB LEAGUE SUMMIT IN BAGHDAD, WHICH PLEDGED AID TO WAR-TORN LEBANON.

#90179h0119 06/28/1990 ~Chinese News Agency

PARIS (JUNE 28) XINHUA - U.S. PRESIDENT GEORGE BUSH TOLD THE FRENCH NEWSPAPER LE FIGARO WEDNESDAY THAT HIS COUNTRY OPPOSES THE SIGNING OF A "NON-AGGRESSION TREATY" BETWEEN THE NATO AND THE WARSAW PACT.

HOWEVER, HE SAID THAT A FORMAL STATEMENT TO GUARANTEE NON-AGRESSION BETWEEN THE TWO BLOCS IS ACCEPTABLE.

IN THE TALK, PUBLISHED IN TODAY'S LE FIGARO, BUSH REITERATED THAT A UNIFIED GERMANY SHOULD JOIN IN THE NATO AS A WHOLE WITHOUT ANY DIFFERENCE TO BE MADE BETWEEN THE TWO GERMANYS. THERE SHOULD BE ONLY ONE COMMAND REPRESENTING GERMANY IN THE NATO.

MEANWHILE, BUSH INSISTED SOVIET TROOPS WITHDRAW FROM GDR AFTER THE GERMAN REUNIFICATION.

HE SAID THAT THE PRESENCE OF U.S. TROOPS IN GERMANY SHOULD NOT BE VIEWED ON A PAR WITH THAT OF THE SOVIET TROOPS, AS U.S. TROOPS ARE THERE AT THE REQUEST OF THE EUROPEANS AND ARE PLAYING A STABILIZING ROLE.

SPEAKING OF THE NATO SUMMIT TO BE HELD IN LONDON NEXT MONTH, BUSH SAID THAT ITS AIM IS TO MAKE SOME NECESSARY REFORMS IN NATO AND TO ALLEVIATE THE WORRIES OF THE SOVIET UNION OVER GERMAN MEMBERSHIP IN THE NATO FOLLOWING UNIFICATION.

WHEN ASKED ABOUT THE MASSIVE AID PROPOSED BY FRANCE AND FEDERAL GERMANY FOR THE SOVIET UNION, BUSH INDICATED THAT THE AID SHOULD BE CONDITIONAL. THE USSR SHOULD MAKE GREATER EFFORTS TO DEEPEN THE REFORM AND STOP AIDING CUBA.

ADDITIONALLY, BUSH SAID HE SUPPORTS THE SOVIET UNION'S REFORMS, BUT HE CAN NOT GO FURTHER BECAUSE THE SOVIET PROBLEM SHOULD BE RESOLVED BY THE SOVIETS THEMSELVES.

-30- 1690

#90179h0121 06/28/1990 ~Chinese News Agency

OTTAWA (JUNE 28) XINHUA - TWO FRENCH-SPEAKING CITIES IN CANADA HAVE CANCELED THE UPCOMING CELEBRATIONS OF CANADA'S 123RD BIRTHDAY, AS A RESULT OF WIDENING NATIONAL ESTRANGEMENT BETWEEN THE COUNTRY'S FRANCOPHONES AND THE ENGLISH-SPEAKING MAJORITY.

THE CITIES OF QUEBEC AND SHERBROOKE, BOTH IN CANADA'S ONLY FRENCH-SPEAKING PROVINCE OF QUEBEC, SAID THE JULY 1 CELEBRATIONS OF 'CANADA DAY' WERE CANCELED BECAUSE OF A FEAR OF VIOLENCE, ACCORDING TO ORGANIZERS IN THE TWO CITIES.

IN QUEBEC, THE PROVINCIAL CAPITAL CITY, MAYOR JEAN-PAUL L'ALLIER SAID HIS CITY HAS CANCELED THE CELEBRATIONS AS A SHOW OF 'SELF-RESPECT,' THE LOCAL PRESS REPORTED TODAY.

'WE HAVE NO BUSINESS CELEBRATING A COUNTRY THAT SLAMS ITS DOOR SHUT ON OUR FINGERS,' HE SAID.

THE MAYOR WAS REFERRING TO A RECENT REFUSAL BY ENGLISH-SPEAKING PROVINCES OF A CONSTITUTIONAL AMENDMENT, KNOWN AS THE MEECH LAKE ACCORD, WHICH WAS INTENDED TO GRANT QUEBEC PROVINCE SPECIAL STATUS WITHIN CANADA.

THE MEECH LAKE ACCORD, DESIGNED TO WIN QUEBEC'S ENDORSEMENT OF CANADA'S 1982 CONSTITUTION, WAS TO RECOGNIZE THE PROVINCE AS A 'DISTINCT SOCIETY' AND GIVE IT RIGHTS TO UNILATERALLY PROTECT ITS FRENCH CULTURE AND LANGUAGE.

THE ACCORD ANGERED THE COUNTRY'S ENGLISH-SPEAKING MAJORITY AND IT WAS KILLED ON JUNE 22 BECAUSE OF FAILURE TO GAIN A UNANIMOUS APPROVAL FROM ALL THE 10 CANADIAN PROVINCES.

SINCE THEN, THERE HAS BEEN A GROWING FRENCH NATIONALIST TIDE IN QUEBEC PROVINCE. MEANWHILE, THE PROVINCE'S POPULAR SEPARATIST FORCES ARE STEPPING UP EFFORTS TO DIVORCE QUEBEC FROM THE REST OF CANADA.

ACCORDING TO MAYOR L'ALLIER, HE HAS ALSO DECIDED THAT, FROM NOW ON, QUEBEC CITY WOULD FOCUS ONLY ON CELEBRATING THE PROVINCE'S OWN NATIONAL HOLIDAY ON JUNE 24, TRADITIONALLY A SHOW OF ULTRANATIONALISM.

IN THE CITY OF SHERBROOKE, THE PRESIDENT OF THE CANADA DAY COMMITTEE, GEORGES SAINE, SAID THE CANCELLATION OF CANADA DAY CELEBRATIONS IN THAT CITY WOULD 'AVOID TROUBLE IN AN AREA WHERE PASSIONS ARE TOO HOT' AND 'THE

ATMOSPHERE IS TOO LOADED.'

THE CANCELLATIONS IN QUEBEC CITY AND SHERBROOKE CAME A DAY AFTER ORGANIZERS OF CANADA DAY CELEBRATIONS IN MONTREAL, QUEBEC PROVINCE'S LARGEST CITY, SAID THEY WERE CUTTING THE LENGTH OF THE JULY 1 CANADA DAY PARADE BY HALF AND INCREASING SECURITY.

ON JUNE 24, SOME 200,000 MONTREALERS TOOK TO THE STREETS TO CELEBRATE THE PROVINCE'S OWN NATIONAL HOLIDAY. THEY STAGED LARGE-SCALE PARADES AND TURNED THE CELEBRATIONS INTO A VAST SHOW OF ULTRANATIONALISM, DEMANDING QUEBEC'S INDEPENDENCE FROM CANADA.

AS THE LARGEST PROVINCE IN CANADA, QUEBEC REPRESENTS ONE QUARTER OF THE COUNTRY'S 26 MILLION POPULATION AND AS BIG A CHUNK IN ITS ECONOMY. FOR DECADES, THE PROVINCE HAS BEEN DEMANDING THE STATUS OF A DISTINCT SOCIETY WITHIN CANADA. THE PROVINCE HAS ALSO REPEATEDLY THREATENED TO DECLARE SOVEREIGNTY AND SEPARATE FROM THE REST OF CANADA IF IT IS NOT GIVEN SUCH A SPECIAL STATUS.

-30- 3105

#90179h0123 06/28/1990 ~Chinese News Agency

UNITED NATIONS (JUNE 28) XINHUA - THE PALESTINE LIBERATION ORGANIZATION (PLO) TODAY URGED THE INTERNATIONAL COMMUNITY TO TAKE IMMEDIATE ACTION TO STOP ISRAEL'S VIOLENCE AGAINST INNOCENT PALESTINIAN CIVILIANS FOLLOWING ISRAELI SOLDIERS' KILLING OF THREE PALESTINIANS NEAR JERUSALEM LAST WEDNESDAY.

"WE CALL UPON THE INTERNATIONAL COMMUNITY TO TAKE IMMEDIATE ACTION TO STOP ISRAEL, THE OCCUPYING POWER, FROM CONTINUING ITS ATROCITIES AGAINST THE PALESTINIAN PEOPLE," PLO PERMANENT OBSERVER TO THE UNITED NATIONS ZUHDI LABIB TERZE SAID.

TERZI, WHOSE ORGANIZATION REPRESENTS THE PROVISIONAL GOVERNMENT OF PALESTINE, MADE THE APPEAL IN A LETTER TO U.N. SECRETARY-GENERAL JAVIER PEREZ DE CUELLAR, WHICH WAS MADE PUBLIC TODAY.

THE PLO'S APPEAL STEMMED FROM THE JUNE 20 KILLING OF THREE PALESTINIANS BY THE ISRAELI SOLDIERS DURING ISRAELI TROOPS'S ATTACK ON THE PALESTINIAN VILLAGE OF SILWAN NEAR JERUSALEM.

ACCORDING TO THE PLO DIPLOMAT, THE ISRAELI BORDER GUARD ATTACKED SILWAN FOR TWO DAYS, KILLING THREE PALESTINIANS AGED AT 25, 17 AND 57 AND INJURING 10 OTHERS.

TERZE SAID THAT DURING THE ATTACK, ISRAELI FORCES USED BOTH LIVE AMMUNITION AND RUBBER BULLETS, AS WELL AS A MASSIVE AMOUNT OF TEAR GAS AGAINST THE UNARMED PALESTINIAN CIVILIANS OF THE VILLAGE. THE VILLAGE IS

NOW STILL UNDER CURFEW.

THEREFORE, THE PLO OBSERVER ASKED THE INTERNATIONAL COMMUNITY TO TAKE URGENT ACTIONS TO CEASE SUCH ISRAELI KILLING AND VIOLENCE AGAINST PALESTINIANS.

HE ALSO ASKED THE U.N. SECRETARY-GENERAL TO ISSUE A STATEMENT, CONDEMNING SUCH ISRAELI VIOLENCE AND URGING ISRAEL TO ABIDE BY THE GENEVA CONVENTION CALLING FOR OCCUPYING POWERS' PROTECTION OF CIVILIANS IN TIME OF WAR.

THE JUNE 20 KILLING ALSO HAPPENED AT A TIME WHEN A U.N. ENVOY SENT BY THE SECRETRY-GENERAL IS CONDUCTING A FACT-FINDING MISSION ON RECENTLY INTENSIFIED ISRAELI VIOLENCE AGAINST PALESTINIANS IN THE ISRAELI OCCUPIED TERRITORIES.

THE U.N. ENVOY, SECRETARY-GENERAL'S PERSONAL REPRESENTATIVE JEAN-CLAUDE AIME, IS EXPECTED TO REPORT BACK TO THE U.N. CHIEF ON HIS FINDINGS IN THE REGION WHEN HE CONCLUDES HIS MISSION THERE.

#90179h0124 06/28/1990 ~Chinese News Agency

MANILA (JUNE 28) XINHUA - PHILIPPINE DEFENSE SECRETARY FIDEL RAMOS TODAY CALLED FOR THE DEVELOPMENT OF SELF-RELIANT DEFENSE INDUSTRY IN THE COUNTRY.

ADDRESSING AN OPENING CEREMONY OF THE PHILIPPINES' FIRST DEFENSE AND AMMUNITION FAIR, RAMOS SAID, "THE PHILIPPINES IS DEEPLY INVOLVED IN THE MODERNIZATION OF ITS DEFENSE ASSETS AND RESOURCES THROUGH SELF-RELIANT INDIGENOUS EFFORTS THROUGH THE SELF-RELIANT DEFENSE POSTURE PROGRAM."

HE POINTED OUT THAT THE PHILIPPINES "IS AWARE AND COGNIZANT OF THE ILL EFFECTS OF RELYING TOO MUCH ON OTHER COUNTRIES FOR ITS DEFENSE NEEDS."

"IT HAS RECOGNIZED THE NEED TO DEVELOP ITS INDIGENOUS CAPABILITIES WITH WHICH TO PROTECT ITS POLITICAL SOVEREIGNTY AND THE INTEGRITY OF ITS NATIONAL TERRITORY ON A MORE SELF-RELIANT BASIS," HE ADDED.

ACCORDING TO RAMOS, THE PHILIPPINES NOW HAS 11 DEFENSE INDUSTRIAL FIRMS ENGAGED IN THE MANUFACTURE OF ARMAMENTS AND AMMUNITIONS, 10 FIRMS MANUFACTURING COMMUNICATION EQUIPMENT, 25 FIRMS ENGAGED IN THE MANUFACTURE OF COMBAT CLOTHING AND INDIVIDUAL EQUIPMENT, AND 14 FIRMS MANUFACTURING VEHICLES, TIRES AND BATTERIES. IN ALL, THERE ARE 60 INDUSTRIAL FIRMS MANUFACTURING PRODUCTS UNDER THE SELF-RELIANT DEFENSE POSTURE PROGRAM.

A GREAT VARIETY OF DEFENSE PRODUCTS MADE BY THESE FIRMS ARE ON DISPLAY AT THE FAIR.

RAMOS SAID THAT THROUGH THE PROGRAM, "OUR GOVERNMENT AIMS TO ACHIEVE

GREATER FLEXIBILITY AND SUCCESS IN PURSUING AN INDEPENDENT FOREIGN POLICY, REDUCING, IF NOT ELIMINATING, ITS CHRONIC DEPENDENCE ON FOREIGN SOURCES FOR ITS BASIC DEFENSE NEEDS, BOOSTING ITS SCIENTIFIC AND TECHNOLOGICAL CAPABILITIES, SPURRING COMMERCIAL AND INDUSTRIAL ACTIVITIES, CONSERVING AND GENERATING FOREIGN EXCHANGE, AND PROVIDING GAINFUL EMPLOYMENT."

HE ALSO CALLED FOR JOINT VENTURES, TECHNOLOGY TRANSFERS AND FINANCIAL ASSISTANCE WITH FOREIGN CONNECTIONS OPERATING UNDER MUTUALLY ADVANTAGEOUS TERMS AND CONDITIONS.

RAMOS SAID THAT WITHIN THE MEMBER COUNTRIES OF THE ASSOCIATION OF SOUTHEAST ASIAN NATIONS (ASEAN), "THERE IS A NEED TO REFLECT ON SOME POLICY AND STRATEGY CONSIDERATION THAT WILL ENHANCE THE VIABILITY OF REGION-BASED DEFENSE INDUSTRIES."

MANAGUA (JUNE 28) XINHUA - SOME 20 PEOPLE WERE INJURED WEDNESDAY WHEN TWO OF THE NICARAGUAN AIR FORCE'S MI-17 HELICOPTERS COLLIDED OVER A SMALL PROVISIONAL AIRPORT IN THE TOWN OF SAN PEDRO DE LOVAGO, ABOUT 170 KILOMETERS SOUTHEAST OF THE CAPITAL, IN CHONTALES PROVINCE.

AMONG THOSE INJURED WERE 11 JOURNALISTS WHO HAD COME TO COVER THE FINAL STAGE OF THE CONTRA DEMOBILIZATION PROCESS AS TOP REBEL LEADERS SURRENDERED THEIR ARMS DURING A CEREMONY ATTENDED BY PRESIDENT VIOLETA BARRIOS DE CHAMORRO. THE INJURED WERE TAKEN TO A HOSPITAL IN MANAGUA FOR TREATMENT.

EYE WITNESSES SAID THE ACCIDENT OCCURRED WHEN THE PROPELLERS OF ONE HELICOPTER CRASHED INTO THE OTHER. SHORTLY AFTER ONE OF THE HELICOPTERS HAD FALLEN TO THE GROUND, IT BURST INTO FLAMES, THEY SAID.

THE CREWS AND OTHER PASSENGERS, INCLUDING JOURNALISTS, CAMERAMEN AND VARIOUS PRESS OFFICIALS FROM THE PRESIDENTIAL OFFICE, MANAGED TO DISEMBARK FROM THE HELICOPTERS.

BOTH CHAMORRO AND FORMER NICARAGUAN PRESIDENT DANIEL ORTEGA WENT TO THE MILITARY HOSPITAL TO VISIT THE INJURED.

MOST OF THOSE INJURED ARE IN STABLE CONDITION, ACCORDING TO DOCTORS AT THE HOSPITAL.

#90179h0130 06/28/1990 ~Chinese News Agency

UNITED NATIONS (JUNE 28) XINHUA - THE U.N. GENERAL ASSEMBLY TODAY APPEALED TO THE INTERNATIONAL COMMUNITY TO EXTEND EMERGENCY RELIEF AID TO IRAN, WHERE A SEVERE EARTHQUAKE LAST WEEK KILLED ABOUT 50,000 PEOPLE.

IN A RESOLUTION ADOPTED WITHOUT A VOTE AT THE ASSEMBLY'S RESUMED SESSION THIS MORNING, THE WORLD ORGANIZATION URGED ALL GOVERNMENTS, THE SPECIALIZED AGENCIES, U.N. ORGANIZATIONS, NON- GOVERNMENTAL ORGANIZATIONS TO EXTEND "GENEROUS ASSISTANCE TO THE GOVERNMENT OF IRAN FOR RELIEF, REHABILITATION AND RECONSTRUCTION IN THE AFFECTED AREAS."

THE RESOLUTION, CO-SPONSORED BY 115 U.N. MEMBER STATES, ALSO EXPRESSED THE WORLD ORGANIZATION'S DISTRESS AT THE LARGE NUMBER OF CASUALTIES AND HOMELESS AS WELL AS THE EXTENT OF DEVASTATION CAUSED BY THE EARTHQUAKE, WHICH HIT THE COUNTRY'S NORTH-WEST REGION ON JUNE 20.

THE EARTHQUAKE, WHICH REGISTERED 7.8 ON THE RICHTER SCALE, WAS THE WORST EVER IN THE COUNTRY FOR 30 YEARS. IT DESTROYED COMPLETELY THREE MAJOR CITIES IN THE REGION, KILLED APPROXIMATELY 50,000 PEOPLE, INJURED ABOUT 200,000 AND LEFT MORE THAN 500,000 HOMELESS.

INTRODUCING THE DRAFT RESOLUTION ON BEHALF OF THE 115 CO-SPONSORS, PAKISTAN AMBASSADOR NASIM AHMED SAID THE RESOLUTION "UNDERSCORES THE DEEP DISTRESS OF THE INTERNATIONAL COMMUNITY AT THE MASSIVE DEVASTATION CAUSED BY THE EARTHQUAKE."

"THE OCCASION WHICH HAS BROUGHT US TOGETHER THIS MORNING IS INDEED TRAGIC " HE SAID.

"THE PROFOUND HUMAN DIMENSION OF THIS TRAGEDY BECKENS THE ENTIRE INTERNATIONAL COMMUNITY TO EXTEND ALL POSSIBLE ASSISTANCE AND COOPERATION TO THE GOVERNMENT AND PEOPLE," HE ADDED.

ACCORDING TO THE IRANIAN MISSION TO THE UNITED NATIONS, SO FAR, MORE THAN 100 COUNTRIES IN THE WORLD HAVE OFFERED THEIR ASSISTANCE.

-30- 1913

#90179h0135 06/28/1990 ~Chinese News Agency

BANGKOK (JUNE 28) XINHUA - THAI GOVERNMENT'S BUDGET BILL FOR FISCAL 1990-1991 TONIGHT PASSED ITS FIRST READING IN THE HOUSE OF REPRESENTATIVE AFTER A TWO-DAY DEBATE.

THE 387.5 BILLION BAHT (ABOUT 15.5 BILLION U.S. DOLLARS) BUDGET BILL WAS THE FIRST BALANCED BUDGET IN THE COUNTRY'S HISTORY, WHICH IS A 15.7 PERCENT INCREASE OVER THAT OF THE CURRENT FISCAL YEAR (FROM OCTOBER 1989 TO SEPTEMBER 1990).

IN THE TWO-DAY DEBATE, RULING PARTIES MPS HAIL THE FIRST BALANCED BUDGET AS A GOOD SIGN OF THE COUNTRY'S ECONOMIC AND FINANCIAL STABILITY.

BUT, THE OPPOSITION CRITICIZED THE GOVERNMENT'S BUDGET FOR FISCAL 1991 AS FAVORING INDUSTRY OVER AGRICULTURE WHILE PUTTING THE GREATEST TAX BURDEN ON THE POOR.

THE BILL IS SCHEDULED FOR DEBATE AGAIN IN PARLIAMENT IN SEPTEMBER THIS YEAR.

SOME LOCAL SOURCES NOTED THAT THE PASSING OF THE FIRST READING OF THE BUDGET BILL IS A VICTORY FOR THE GOVERNMENT, BUT THEY ARE NOT SURE IF THE GOVERNMENT COULD SURVIVE THE OPPOSITION'S CENSURE MOTION IN THE NEXT MONTH.

#90179h0138 06/28/1990 ~Chinese News Agency

KUWAIT (JUNE 28) XINHUA - KUWAITI AMIR SHEIKH JABER AL-AHMED AL SABAH ISSUED A DECREE TODAY APPOINTING 25 MEMBERS TO THE 75-MAN NATIONAL COUNCIL THUS COMPLETING THE PROCESS OF ESTABLISHING THIS INTERIM LEGISLATURE.

THE OTHER 50 MEMBERS WERE CHOSEN BY ELECTION ON JUNE 10. THE COUNCIL, CHARGED WITH FORMULATING RULES FOR NEW PARLIAMENT, WILL CONVENE ITS FIRST REGULAR SESSION ON JULY 9.

KUWAIT'S 50-MEMBER PARLIAMENT WAS TWICE DISSOLVED BY THE AMIR FOR CONFLICTS WITH THE GOVERNMENT. THE MOST RECENT DISSOLUTION CAME UNDER AN AMIRI DECREE ISSUED ON JULY 3, 1986.

ON APRIL 22 THIS YEAR, THE AMIR DECREED THE CREATION OF THE NATIONAL COUNCIL AS PART OF THE EFFORT TO RESTORE PARLIAMENTARIAN LIFE, FOLLOWING MONTHS OF DIALOGUE BETWEEN THE GOVERNMENT AND FORMER PARLIAMENT DEPUTIES.

AMONG THE 25 NATIONAL COUNCIL MEMBERS APPOINTED TODAY, FIVE DOUBLE AS MEMBERS OF THE CURRENT GOVERNMENT. THERE ARE ALSO ACADEMICS, BUSINESSMEN AND PEOPLE WITHOUT PREVIOUS POLITICAL EXPERIENCE.

THE COUNCIL WAS DECREED TO FUNCTION FOR FOUR YEARS, BUT CROWN PRINCE AND PRIME MINISTER SHEIKH SAAD AL-ABDULLAH AL-SALIM AL-SABAH HAS REPORTEDLY SAID THAT IT IS UP TO THE AMIR TO DECIDE WHETHER TO CUT SHORT THE DURATION.

OPPOSITION ACTIVISTS HAVE REJECTED THE TRANSITIONAL BODY AS "UNCONSTITUTIONAL" AND INSISTED ON A RETURN OF THE FULLY ELECTED PARLIAMENT.

#90179h0140 06/28/1990 ~Chinese News Agency

FREETOWN (JUNE 28) XINHUA - THE EXECUTIVE SECRETARY OF THE ECONOMIC COMMUNITY OF WEST AFRICAN STATES (ECOWAS) ARRIVED HERE YESTERDAY TO MEDIATE THE RESUMPTION OF THE STALLED PEACE TALKS BETWEEN THE LIBERIAN GOVERNMENT AND THE NATIONAL PATRIOTIC FRONT OF LIBERIA.

EXECUTIVE SECRETARY OF THE ECOWAS MR. ABASS BUNDU, ARRIVING HERE AT THE HEAD OF A FOUR-MAN TEAM, HAD A TWO-HOUR CLOSED-DOOR MEETING TODAY WITH THE INTER-FAITH MEDIATION COMMITTEE COMPOSED OF LIBERIA'S CHRISTIAN AND MUSLIM LEADERS, DURING WHICH MODALITIES FOR THE ECOWAS TO MEDIATE THE RESUMPTION OF THE FREETOWN PEACE TALKS HAVE BEEN WORKED OUT.

MR. BUNDU TOLD REPORTERS AFTER THE MEETING THAT THE MEETING "HAS LAID THE BASIS FOR ECOWAS'S MEDIATION".

HE DISCLOSED THAT YESTERDAY HE MET WITH LIBERIAN PRESIDENT SAMUEL DOE IN MONROVIA AND HE IS MAKING ARRANGEMENTS FOR A MEETING WITH LEADER OF THE NATIONAL PATRIOTIC FRONT CHARLES TAYLOR.

HE SAID THAT FOLLOWING THE MEETING WITH THE INTER-FAITH MEDIATION COMMITTEE, HE WILL MEET THE LIBERIAN GOVERNMENT DELEGATION AND THEN FLY TO CONAKRY, CAPITAL OF GUINEA, TO DISCUSS WITH GUINEAN PRESIDENT LANSANA KOCONTEH THE LIBERIAN CRISIS.

THE SECOND ROUND OF LIBERIAN PEACE TALKS SCHEDULED TO RESUME ON MONDAY COLLAPSED SINCE THE DELEGATION OF THE PATRIOTIC FRONT OF LIBERIA INSISTED THAT LIBERIAN PRESIDENT DOE MUST RESIGN AS A PRE-CONDITION FOR THE RESUMPTION OF THE TALKS.

IN ANOTHER DEVELOPMENT, MEMBERS OF THE LIBERIAN COUNCIL OF CHURCHES WHICH MEDIATED IN THE FREETOWN PEACE TALKS MET SIERRA LEONEAN ACTING PRESIDENT JUSU SHERIFF YESTERDAY.

INFORMED SOURCES SAID THAT THE LIBERIAN COUNCIL OF CHURCHES HAS URGED THE SIERRA LEONEAN LEADER TO PURSUADE THE PRESIDENTS OF GUINEA, GAMBIA AND NIGERIA TO MEDIATE THE RESUMPTION OF THE FREETOWN PEACE TALKS.

LUANDA (JUNE 28) XINHUA - THE ANGOLAN GOVERNMENT LAST WEEK RELEASED 425 FORMER MEMBERS OF THE REBEL NATIONAL UNION FOR THE TOTAL INDEPENDENCE OF ANGOLA (UNITA), THE ANGOLAN NEWS AGENCY REPORTED TODAY.

THE RELEASED, WHO HAD BEEN IMPRISONED IN NAMIBE PROVINCE'S BENTIABA PRISON HAVE RETURNED TO THEIR HOMETOWNS AND LOCAL GOVERNMENTS HAVE PROVIDED THEM WITH ACCOMMODATIONS AND JOBS, SAID THE AGENCY.

UNDER AN AMNESTY DECLARED BY LUANDA A YEAR AGO, 996 MORE IMPRISONED UNITA REBELS WILL BE SET FREE NEXT MONTH.

ON MAY 1, THIS YEAR, THE BENTIABA PRISON AUTHORITY SET FREE 1,800 FORMER UNITA MEMBERS. ON WEDNESDAY, 60 JAILED UNITA REBELS WERE ALSO FREED.

THE RELEASE OF THE UNITA REBELS PRECEDED THE PROPOSED DIRECT PEACE TALKS BETWEEN LUANDA AND THE UNITA NEXT MONTH.

LONDON (JUNE 28) XINHUA - CRIME IN BRITAIN ROSE BY 15 PERCENT DURING THE FIRST THREE MONTHS OF THIS YEAR COMPARED WITH THE SAME PERIOD LAST YEAR, JUMPING TO A NEW RECORD LEVEL, ACCORDING TO HOME OFFICE FIGURES PUBLISHED TODAY.

THE BULK OF THE INCREASE, WHICH HAS ALARMED THE GOVERNMENT AND POLICE CHIEFS, COMES IN BURGLARY, THEFT AND VANDALISM.

POLICE LOGGED A RECORD HIGH OF 1,074,000 OFFENCES IN THE FIRST QUARTER OF THE YEAR WITH THEFT UP 16 PERCENT AND BURGLARY 18 PERCENT.

VIOLENT CRIME ROSE LESS SHARPLY AND THE NUMBER OF SEX ATTACKS WENT DOWN SLIGHTLY, ALTHOUGH THE FIGURES OF THE CRIMES AMOUNTED TO 56,000 OR FIVE PERCENT OF THE TOTAL.

PRIME MINISTER MARGARET THATCHER TOLD PARLIAMENT TODAY SHE FOUND THE NEW CRIME FIGURES "VERY DISAPPOINTING."

HOME SECRETARY DAVID WADDINGTON EXPRESSED "STRONG CONCERN" AT THE EXTENT OF CRIMES INVOLVING CARS, WHICH ACCOUNTED FOR 25 PERCENT OF ALL OFFENCES.

HE CALLED ON THE SOCIETY OF MOTOR MANUFACTURERS AND TRADERS FOR NEW ACTION TO COMBAT CAR CRIME.

THE OPPOSITION LABOR PARTY'S HOME SPOKESMAN, ROY HATTERSLEY, BLAMED THE RISE ON THE "EVERYONE FOR HIMSELF" PHILOSOPHY OF THE THATCHER YEARS AND INCREASED POVERTY AMONG THE YOUNG PEOPLE.

GABORONE (JUNE 28) XINHUA - THE WARRING PARTIES IN SOUTH AFRICA HAVE AGREED ON A CODE OF CONDUCT WHICH COULD LEAD TO PEACE IN NATAL PROVINCE, THE AFRICA NEWS ORGANIZATION REPORTED TODAY.

UNVEILING THE CODE AT A PRESS CONFERENCE IN CAPE TOWN TODAY, FRANK CHIKANE GENERAL SECRETARY OF THE SOUTH AFRICAN COUNCIL OF CHURCHES (SACC), SAID THAT IT COULD LEAD TO PERMANENT PEACE IN NATAL PROVINCE.

"I AM CONVINCED THAT IT WILL LEAD TO PEACE. IT HAS A LOT OF POTENTIAL," HE SAID.

MORE THAN 3,000 PEOPLE HAVE BEEN KILLED IN NATAL PROVINCE IN ARMED CONFLICTS BETWEEN THE INKATHA ZULU TRIBAL MOVEMENT AND THE UNITED DEMOCRATIC FRONT (UDF) AND THE CONGRESS OF SOUTH AFRICAN TRADE UNIONS (COSATU).

MR. CHIKANE EXPRESSED HIS HOPE THAT ALL THE PARTIES INVOLVED WILL MEET SOON TO WORK OUT A PEACE PLAN.

ACCORDING TO THE GENERAL SECRETARY, THE CODE OF CONDUCT HAS BEEN SUPPORTED BY LEADERS OF INKATHA, THE UDF AND COSATU NATAL WORKING GROUP AND THE AFRICAN NATIONAL CONGRESS.

THE DOCUMENT HAS BEEN SENT TO SOUTH AFRICAN PRESIDENT F.W. DE KLERK AND THE PAN AFRICANIST CONGRESS (PAC) ALSO HAS BEEN INFORMED ABOUT THE LATEST DEVELOPMENT, THE NEWS ORGANIZATION SAID.

ATHENS (JUNE 28) XINHUA - U.S. SECRETARY OF DEFENSE RICHARD CHENEY BEGINS A FIVE-DAY OFFICIAL VISIT TO GREECE ON JULY 6 FOR TALKS WITH GREEK LEADERS AND FOR AN INSPECTION OF U.S. MILITARY BASES, THE U.S. EMBASSY HERE SAID TODAY.

EARLIER, THE GREEK GOVERNMENT SPOKESMAN SAID CHENEY AND GREEK FOREIGN MINISTER ANTONIS SAMARAS WOULD PROBABLY SIGN A NEW DEFENSE COOPERATION AGREEMENT BETWEEN GREECE AND THE UNITED STATES.

THE EIGHT-YEAR ACCORD, INITIALLED LAST MONTH, COVERS THE STATUS OF THE TWO U.S. MILITARY BASES ON THE ISLAND OF CRETE AND THE TRANSFER OF CERTAIN OPERATIONS OF THE HELLENIKON U.S. AIR BASE NEAR ATHENS TO CRETE.

WASHINGTON DECIDED ON THE CLOSURE OF HELLENIKON AND A NAVAL COMMUNICATIONS BASE NEAR MARATHON AS PART OF ITS DEFENSE CUTS IN EUROPE.

THE FULL TEXT OF THE NEW AGREEMENT WILL PROBABLY BE RELEASED A FEW DAYS AFTER THE ACCORD IS SIGNED.

A U.S. EMBASSY STATEMENT SAID CHENEY WOULD ARRIVE IN ATHENS ON SUNDAY, JULY 8. HE WOULD START THE TOUR WITH AN INSPECTION OF THE U.S. BASES ON CRETE BEFORE COMING TO ATHENS.

CHENEY WILL ALSO GO TO SPAIN, TURKEY, NORWAY AND PORTUGAL.

#90179k0022 06/28/1990 ~Japanese News Agency

TOKYO (JUNE 28) KYODO - JAPAN'S STEEL EXPORTS DIPPED 22.4 PERCENT IN MAY FROM A YEAR EARLIER TO 1.34 MILLION METRIC TONS, REFLECTING CONTINUED WEAK SHIPMENTS TO CHINA AND THE SOVIET UNION, THE JAPAN IRON AND STEEL FEDERATION SAID THURSDAY.

SHIPMENTS TO CHINA SHRANK 69.6 PERCENT TO 115,000 TONS, WHILE THOSE TO THE SOVIET UNION DWINDLED 50.1 PERCENT TO 29,000 TONS, THE FEDERATION REPORTED.

THE EXPORT SLOWDOWN CAME AGAINST THE BACKDROP OF VIGOROUS DOMESTIC DEMAND BACKED BY THE 43-MONTH-LONG ECONOMIC EXPANSION, WHICH HAS ENCOURAGED STEELMAKERS TO BOOST DOMESTIC SALES RATHER THAN EXPORTS.

DECLINES WERE ALSO SCORED IN EXPORTS TO OTHER MAJOR MARKETS, EXCEPT THE UNITED STATES, IT SAID.

EXPORTS TO TAIWAN FELL 40.7 PERCENT TO 138,000 TONS, WHILE THOSE TO SOUTH KOREA DECREASED 36.8 PERCENT TO 105,000 TONS. BUT EXPORTS TO THE UNITED STATES, THE LARGEST IMPORTER OF JAPANESE STEEL, ROSE 3.4 PERCENT TO 278,000 TONS.

MIRRORING THE ROBUST DOMESIC DEMAND, STEEL IMPORTS WENT UP 4.4 PERCENT FROM A YEAR EARLIER TO 610,000 TONS, THE SECOND BIGGEST MONTHLY FIGURE THIS YEAR, DESPITE SHOWING A 14.0 PERCENT DIP FROM THE PREVIOUS MONTH, THE FEDERATION SAID.

IMPORTS FROM SOUTH KOREA ROSE 2.4 PERCENT TO 239,000 TONS, WHILE THOSE FROM TAIWAN SURGED 50.3 PERCENT TO 66,000 TONS.

BUT IMPORTS FROM THE UNITED STATES AND BRAZIL FELL 46.4 PERCENT AND 17.2 PERCENT, RESPECTIVELY, TOTALING 49,000 TONS AND 66,000 TONS, THE FEDERATION SAID.

#90179k0052 06/28/1990 ~Japanese News Agency

OSAKA (JUNE 28) KYODO - MATSUSHITA ELECTRIC INDUSTRIAL CO. HAS SIGNED AN AGREEMENT WITH TANDY CORP. UNDER WHICH THE U.S. CONSUMER ELECTRONIC SUPPLIER WILL MAKE 16-BIT LAPTOP COMPUTERS UNDER MATSUSHITA'S PANASONIC BRAND NAME, MATSUSHITA OFFICIALS SAID THURSDAY.

PRODUCTION WILL BEGIN IN OCTOBER WITH SHIPMENTS INTENDED FOR THE U.S. MARKET, THE OFFICIALS SAID.

ALTHOUGH THE SCALE OF PRODUCTION HAS YET TO BE DECIDED, A CERTAIN PERCENTAGE WILL BE SOLD BY TANDY UNDER ITS OWN BRAND, THEY SAID.

MATSUSHITA IS ALSO STUDYING THE POSSIBILITY OF JOINT PRODUCTION WITH TANDAY, A FORT WORTH, TEXAS-BASED COMPANY, IN A BID TO STRENGTHEN ITS FOOTFOLD IN THE U.S. MARKET, THE OFFICIALS SAID.

THE TWO COMPANIES ALREADY HAVE A BUSINESS TIE-UP UNDER WHICH TANDY IS PROVIDING MATSUSHITA WITH DESKTOP COMPUTERS UNDER MATSUSHITA'S BRAND NAME.

TOKYO (JUNE 28) KYODO - THE BANK OF JAPAN TOLD MONEY MARKET BROKERS IT WILL SELL 2.3 TRILLION YEN IN DEBT-FINANCING BILLS ON FRIDAY UNDER TWO SEPARATE REPURCHASE AGREEMENTS, MONEY BROKERS SAID THURSDAY.

THE CENTRAL BANK OPERATION IS APPARENTLY INTENDED TO HELP SOAK UP AN EXPECTED MONEY MARKET SURPLUS OF 2.8 TRILLION YEN FOR FRIDAY, THEY SAID.

"THE BILL SALES ARE LARGER THAN WE EXPECTED," ONE BROKER SAID. "THIS INDICATES THE BOJ IS WILLING TO LEAVE SHORT-TERM MONEY MARKET RATES HIGH."

THE BILLS WILL BE SOLD VIA SHORT-TERM MONEY HOUSES TO BANKS AND BROKERAGE HOUSES, WITH 800 BILLION YEN UNDER REPURCHASE AGREEMENTS MATURING ON JULY 11 AND THE REMAINING 1.5 TRILLION YEN UNDER THOSE AGREEMENTS EXPIRING ON JULY 25, THEY SAID.

THE FIRST PORTION WILL YIELD 7.4983 PERCENT TO SUBSCRIBERS, WHILE THE OTHER WILL YIELD 7.4514 PERCENT.

-30- 1026
#90179k0073 06/28/1990 ~Japanese News Agency
SINGAPORE (JUNE 28) KYODO - A MEGA-COMPUTER RESERVATIONS SYSTEM COMPANY, ABACUS DISTRIBUTION SYSTEMS, WHICH IS OWNED BY SIX ASIAN AIRLINES, HAS SIGNED A MUTUAL EQUITY PURCHASE AGREEMENT WITH WORLDSPAN TRAVEL AGENCY, ITS COUNTERPART IN THE U.S., IT WAS ANNOUNCED THURSDAY.

SINGAPORE-BASED ABACUS ANNOUNCED THAT IT HAD BOUGHT THE EQUITY SHARE IN WORLDSPAN, A COMPUTER RESERVATIONS COMPANY JOINTLY OWNED BY THREE U.S. CARRIERS, DELTA AIRLINES, NORTHWEST AIRLINES AND TRANSWORLD AIRLINES, FOR 32.5 MILLION DOLLARS.

AT THE SAME TIME, WORLDSPAN, WHICH IS BASED IN ATLANTA, GEORGIA, BOUGHT THE EQUITY SHARE IN ABACUS FOR 3.5 MILLION DOLLARS.

ABACUS IS OWNED BY CATHAY PACIFIC AIRWAYS, CHINA AIRLINES, MALAYSIA AIRLINES, PHILIPPINE AIRLINES, ROYAL BRUNEI AIRLINES, AND SINGAPORE AIRLINES.

ABACUS SAID ITS PURCHASE OF THE EQUITY SHARE IN WORLDSPAN ENTITLED IT TO A LICENSE TO WORLDSPAN'S COMPUTER RESERVATIONS SYSTEM SOFTWARE.

THE COMPANY SAID WORLDSPAN HAS ALSO ANNOUNCED PLANS TO OPEN OFFICES IN SINGAPORE AND TOKYO.

THE SINGAPORE OFFICE WILL COORDINATE ACTIVITIES BETWEEN ABACUS AND WORLDSPAN WHILE THE TOKYO OFFICE WILL LIAISE WITH A NEW COMPUTER RESERVATIONS SYSTEM JOINT VENTURE IN JAPAN SET UP BY ABACUS AND JAPAN'S ALL NIPPON AIRWAYS.

-30- 1428
#90179k0082 06/28/1990 ~Japanese News Agency
TOKYO (JUNE 28) KYODO - AN ASSOCIATION OF 18 MAJOR TRADING FIRMS SAID MONDAY THAT THE COMBINED EXPORT CONTRACTS OF ITS MEMBER COMPANIES WERE WORTH 967.1 BILLION YEN IN MAY, UP 25.6 PERCENT FROM A YEAR EARLIER.

IT IS THE THIRD CONSECUTIVE MONTHLY INCREASE ABOVE THE 20 PERCENT LEVEL, THE FIRST SUCH RUN SINCE 1980, THE JAPAN FOREIGN TRADE COUNCIL SAID.

IMPORT CONTRACTS, ON THE OTHER HAND, DECLINED BY 32.4 PERCENT FROM A YEAR EARLIER TO 1,115.1 BILLION YEN, THE FIRST YEAR-ON-YEAR FALL SINCE NOVEMBER 1989.

THE COUNCIL ATTRIBUTED THE EXPORT CONTRACT INCREASE TO BULLISH ORDERS FOR AUTOS AND SHIPS IN THE MACHINERY CATEGORY, MARKING A 37.7 PERCENT RISE.

CONTRACTS FOR CHEMICAL GOODS AND TEXTILES WERE ALSO FIRM. BY AREA, EXPORT

CONTRACTS ROSE A STRONG 85.4 PERCENT TO COUNTRIES IN THE NEAR AND MIDDLE EAST INCLUDING IRAN, NOW IN THE PROCESS OF RECOVERY FOLLOWING ITS WAR WITH IRAQ.

INCREASING INCOME FROM STEADY CRUDE OIL EXPORTS IN THE AREA ALSO LAY BEHIND THEIR ACTIVE ORDERS, THE COUNCIL SAID.

AS A RESULT, EXPORT CONTRACTS IN THE MARCH-MAY PERIOD ROSE 33.5 PERCENT FROM THE SAME PERIOD A YEAR EARLIER, THE HIGHEST RISE SINCE THE FEBRUARY-SEPTEMBER PERIOD IN 1980 WHEN JAPANESE AUTO EXPORTS TO THE UNITED STATES STAGED A SHARP RISE.

ONE REASON FOR THIS HIGH RATE OF INCREASE WAS THE CHEAP YEN AGAINST THE U.S. DOLLAR, HAVING MOVED LOWER SINCE MARCH 1989 AND DECLINED FURTHER THIS YEAR, ACCORDING TO THE COUNCIL.

THE DECLINE IN IMPORT CONTRACTS WAS DUE MAINLY TO A SHARP 89.1 PERCENT DROP IN THE MACHINERY SEGMENT, WHICH USED TO BE A KEY AREA.

BUT THE DECLINE IS A REACTION TO THE LARGE INCREASE IN THE PREVIOUS MONTH OF CONTRACTS FOR AIRCRAFT FROM THE UNITED STATES. THE BASIC TONE FOR IMPORT CONTRACTS WAS NOT CHANGED, THE COUNCIL ADDED.

IT PREDICTED, HOWEVER, THAT IMPORT CONTRACTS FROM NOW ON WOULD NOT MAINTAIN THE HIGH INCREASE RATE SHOWN UP TO APRIL BECAUSE CRUDE OIL PRICES HAVE SHOWED SIGNS OF DECLINING SINCE MAY.

-30- 2167

#90179k0083 06/28/1990 ~Japanese News Agency

TOKYO (JUNE 28) KYODO - CORPORATE CAPITAL SPENDING, ONE OF THE DRIVING FORCES OF THE CURRENT ECONOMIC EXPANSION, IS SHOWING THE SAME PATTERN AS WAS SEEN IN JAPAN'S LONGEST PERIOD OF ECONOMIC GROWTH, A GOVERNMENT-AFFILIATED BANK SAID THURSDAY.

IN A REPORT REVIEWING CORPORATE INVESTMENT IN PLANTS AND EQUIPMENT, THE JAPAN DEVELOPMENT BANK SAID JAPANESE COMPANIES ARE SPENDING STRONGLY ON FIXED ASSETS REGARDLESS OF INDUSTRIES AS THEY DID DURING THE SO-CALLED ''IZANAGI'' ECONOMIC BOOM THAT LASTED 57 MONTHS BETWEEN NOVEMBER 1965 AND JULY 1970.

THE REPORT SAID THE CURRENT ECONOMIC BOOM IS MARKED BY EFFORTS AMONG RAW MATERIAL MANUFACTURERS TO STEP UP PRODUCTION CAPACITY AFTER A PERIOD OF INVENTORY ADJUSTMENT STARTING IN THE MIDDLE OF THE 1980S FOLLOWING THE GLOBAL OIL CRISIS IN THE EARLY 1970S.

THE TREND COMES IN STEP WITH INCREASED INVESTMENT AMONG ASSEMBLY-ORIENTED INDUSTRIES SUCH AS THE CHIP INDUSTRY, CONTRIBUTING TO THE CURRENT 43-MONTH-LONG ECONOMIC EXPANSION, IT SAID.

ALSO, THE REPORT CITED A SHIFT IN THE ECONOMY FROM ONE BASED ON MANUFACTURING TO A SERVICE-ORIENTED ONE AS A FACTOR BEHIND THE OVERALL STRENGTH IN CORPORATE CAPITAL SPENDING.

DURING THE 1960S AND 1970S, SPENDING BY MANUFACTURERS PROVIDED STEAM ONLY TO THE SAME CIRCLES, BUT THE INCREASING WEIGHT OF THE SERVICES INDUSTRY HAS MADE FLOWS OF MONEY IN THE MANUFACTURING SECTOR AN INCENTIVE TO INVESTMENT IN THE NONMANUFACTURING SECTOR, THE REPORT NOTED.

-30- 1632

#90179k0085 06/28/1990 ~Japanese News Agency

TOKYO (JUNE 28) KYODO - SHIN-ETSU CHEMICAL CO. ANNOUNCED THURSDAY THAT THE PRODUCTION AND USE OF SPECIFIC TYPES OF CHLOROFLUROCARBON (CFC) GASES WOULD BE PHASED OUT BY 1995.

THE SPECIFIC TYPES, WHICH INCLUDE CFC 11, 12, 113, 114, AND 115, ARE ALL HELD TO BE SERIOUSLY DAMAGING TO THE EARTH'S OZONE LAYER.

THE FIRM SAID THE COMPANY'S USE OF THE SPECIFIC TYPES OF CFC, WHICH TOTALED 267 TONS IN FISCAL 1989, WOULD BE PHASED DOWN BY GRADUALLY SWITCHING OVER TO PROCESSES NOT USING CFC.

THE COMPANY'S SEMICONDUCTOR DIVISION HAS BEEN THE MAIN USER OF CFC.

#90179k0087 06/28/1990 ~Japanese News Agency

TOKYO (JUNE 28) KYODO - THE FINANCE MINISTRY ISSUED THURSDAY ADMINISTRATIVE GUIDELINES AIMED AT PREVENTING MONEY LAUNDERING, FOLLOWING RECOMMENDATIONS BY AN INTERNATIONAL TASK FORCE COMMISSIONED BY THE GROUP OF SEVEN NATIONS.

THE GUIDELINES, INTENDED FOR BANKS, LIFE INSURANCE COMPANIES AND OTHER FINANCIAL INSTITUTIONS, CALL FOR CHECKING THE IDENTITY OF THEIR CUSTOMERS WHEN THEY OPEN ACCOUNTS AND REPORTING TO THE AUTHORITIES ANY SUSPICIOUS TRANSFERS OF CASH, MINISTRY OFFICIALS SAID.

BANKS AND OTHER FINANCIAL INSTITUTIONS WILL BE REQUIRED TO IDENTIFY THEIR CUSTOMERS IN CASES OF DOMESTIC TRANSACTIONS INVOLVING 30 MILLION YEN OR MORE AND INTERNATIONAL CASH TRANSFERS OF 5 MILLION YEN OR MORE, THEY SAID.

THE GUIDELINES ALSO STIPULATE THE REQUIREMENT TO REPORT ON THE RESULTS OF THESE IDENTIFICATIONS, THEY NOTED.

THE RULES COME IN LINE WITH A REPORT ISSUED LAST APRIL BY THE INTERNATIONAL TASK FORCE CALLING FOR INTERNATIONAL RULES TO COUNTER MONEY LAUNDERING, A PRACTICE IN WHICH FUNDS OBTAINED ILLEGALLY, IN MANY CASES BY DEALS IN DRUGS, ARE CONVERTED INTO FINANCIAL ASSETS THAT APPEAR LEGITIMATE.

THE FINANCE MINISTRY AND OTHER MINISTRIES CONCERNED ARE ALSO WORKING ON DRAFTING LEGISLATION DESIGNED TO FIGHT MONEY LAUNDERING, THE OFFICIALS ADDED.

THE POSTS AND TELECOMMUNICATIONS MINISTRY AND THE MINISTRY OF INTERNATIONAL TRADE AND INDUSTRY ARE ALSO ISSUING SIMILAR ADMINISTRATIVE GUIDELINES INTENDED FOR POSTAL OFFICES AND CREDIT SERVICE COMPANIES, THEY NOTED.

DHAKA (JUNE 28) KYODO - A DAWN-TO-DUSK ANTIGOVERNMENT GENERAL STRIKE VIRTUALLY PARALYZED BANGLADESH ON THURSDAY.

THE STRIKE WAS THE FIRST DAYLONG ONE IN THE COUNTRY IN OVER TWO YEARS. OPPOSITION GROUPS CALLED THE STRIKE IN A PROTEST AGAINST WHAT THEY CALL THE GOVERNMENT'S "ANTIPEOPLE BUDGET." THEY ALSO CALLED FOR THE RESIGNATION OF PRESIDENT HOSSAIN MOHAMMAD ERSHAD AND A DISSOLUTION OF THE PRESENT PARLIAMENT AND A FRESH ELECTION.

THE EIGHT-PARTY AWAMI LEAGUE, THE SEVEN-PARTY BANGLADESH NATIONAL PARTY, A FIVE-PARTY MARXIST-LENINIST GROUPING AND THE FUNDAMENTALIST JAMAAT-A-ISLAMI BANGLADESH WERE BEHIND THE STRIKE.

SEVERAL OTHER SMALL PARTIES ALSO GAVE THEIR SUPPORT. THE STRIKE WAS THE FIRST MAJOR ACTION BY AN OTHERWISE DISUNITED OPPOSITION WHICH IN THE RECENT PAST HAS BEEN RACKED BY INFIGHTING.

THE LAST DAYLONG STRIKE WAS IN MARCH 1988 PRIOR TO THE PARLIAMENTARY ELECTION. A HALF-DAY NATIONAL STRIKE WAS HELD ON JUNE 17 AT THE CALL OF THE BANGLADESH AWAMI LEAGUE, THE COUNTRY'S LARGEST POLITICAL PARTY.

APART FROM ISOLATED CONFRONTATIONS BETWEEN STRIKING WORKERS AND LAW ENFORCERS, THE STRIKE ENDED WITHOUT INCIDENT IN DHAKA AND OTHER MAJOR CENTERS SUCH AS CHITTAGONG AND KHULNA. MOST TRADE AND COMMERCE WAS AT A STANDSTILL.

EXCEPT FOR POLICE AND PARAMILITARY VEHICLES, DHAKA'S ROADS WERE FREE OF TRAFFIC, INCLUDING STATE-OWNED BUSES.

THE STRIKE FORCED THE CANCELLATION OF ONE INTERNATIONAL AND SEVEN DOMESTIC

FLIGHTS.

DURING THE STRIKE, ERSHAD LEFT FOR BEIJING ON A FIVE-DAY STATE VISIT. THE GOVERNMENT'S WITHDRAWAL LAST TUESDAY OF NEW TAX PROPOSALS APPARENTLY FAILED TO DAMPEN THE IMPACT OF THE STRIKE. OPPOSITION MEMBERS SAID THE WITHDRAWAL OF THE TAXES FROM SOME ESSENTIALS WAS A PLOY TO MISLEAD THE PEOPLE.

#90179k0091 06/28/1990 ~Japanese News Agency

TOKYO, JUNE 28 KYODO - THE GOVERNMENT'S NEW ENERGY DEVELOPMENT ORGANIZATION (NEDO) HAS COMPLETED A 270 MILLION YEN SOLAR BATTERY POWER GENERATION SYSTEM AT A COTTAGE ON MT. SHIROUMA IN JAPAN'S NORTHERN ALPS, NEDO ANNOUNCED THURSDAY.

THE SYSTEM, WHICH HAS A GENERATION CAPACITY OF 70 KILOWATTS, USES A WIND POWER GENERATOR AS A BACKUP SYSTEM.

THE ELECTRICITY GENERATED BY THE SYSTEM IS STORED IN A GROUP OF CELLS AND IS USED FOR LIGHTING AND TO OPERATE ELECTRIC APPLIANCES INSTALLED AT THE COTTAGE.

THE SYSTEM WILL BE OPERATED UNTIL FISCAL 1991 WHILE STUDIES CONTINUE ON THE RELATION BETWEEN WEATHER CONDITIONS AND THE VOLUME OF POWER GENERATION SO THAT A MORE APPROPRIATE SOLAR BATTERY SYSTEM CAN BE DESIGNED AND A BETTER METHOD OF OPERATING IT DEVELOPED.

THE SYSTEM, WHICH IS POLLUTION-FREE AND DOES NOT NEED SPECIFIC MAINTENANCE OR FUEL SUPPLIES, IS REGARDED AS A USEFUL POWER GENERATION SYSTEM IN MOUNTAINOUS REGIONS AND ON REMOTE ISLANDS.

#90179k0092 06/28/1990 ~Japanese News Agency

TOKYO (JUNE 28) KYODO - THE FINANCE MINISTRY AND THE POSTS AND TELECOMMUNICATIONS MINISTRY AGREED THURSDAY ON NEW CRITERIA FOR MONEY MARKET CERTIFICATES TO MAKE MMCS MORE ATTRACTIVE TO INVESTORS, MINISTRY OFFICIALS SAID.

THE RULES, SLATED TO TAKE EFFECT ON NOVEMBER 5, ARE BASED ON A FORMULA EARLIER DRAFTED BY THE FINANCE MINISTRY FOR SETTING INTEREST RATES ON MMCS TO BE OFFERED THIS AUTUMN IN TWO TYPES OF DIFFERENT UNITS FROM THE PRESENT ONE OFFERED IN MINIMUM UNITS OF 1 MILLION YEN.

UNDER THE NEW CRITERIA, THE TWO TYPES OF MMCS -- ONE OFFERED IN MINIMUM UNITS OF 1 MILLION YEN AND THE OTHER IN MINIMUM UNITS OF 3 MILLION YEN -- WILL CARRY INTEREST RATES SET BY MULTIPLYING THE AVERAGE LARGE-LOT TIME

DEPOSIT RATE BY A MULTIPLIER VARYING ACCORDING TO THEIR MATURITIES AND THE MINIMUM UNIT OF MMCS, THE OFFICIALS SAID.

AT PRESENT, MMCS MATURING IN THREE MONTHS TO TWO YEARS ARE LINKED TO CERTIFICATES OF DEPOSIT RATES AND 3-YEAR MMCS ARE TIED TO THE COUPON ON 10-YEAR GOVERNMENT BONDS.

BUT RATES ON MMCS OFFERED IN MINIMUM LOTS OF 1 MILLION YEN WILL BE KEPT 0.05 PERCENTAGE POINT BELOW THOSE ON MMCS OFFERED IN MINIMUM LOTS OF 3 MILLION YEN.

THE NEW RATE-SETTING FORMULA, THEY SAID, WILL GIVE MMCS HIGHER RATES BY BRINGING MMCS RATES CLOSER TO MONEY MARKET RATES.

ALSO, MMC RATES WILL BE REVIEWED TWICE A MONTH INSTEAD OF ONCE A MONTH AT PRESENT, THEY SAID.

MMCS, NOW OFFERED WITH MATURITIES RANGING FROM THREE MONTHS TO THREE YEARS WILL BE AVAILABLE WITH INVESTOR-DESIGNATE MATURITIES WHICH COULD BE SET IN DAYS FOR THOSE OFFERED BY COMMERCIAL BANKS AND IN MONTHS FOR THOSE OFFERED BY POSTAL OFFICES, THE OFFICIALS SAID.

THE MINISTRIES ALSO AGREED TO LOWER THE MINIMUM UNIT OF MMCS TO 500,000 YEN NEXT APRIL FROM 1 MILLION YEN AT PRESENT AND THE MINIMUM UNIT OF LARGE-LOT TIME DEPOSITS WITH REGULATION-FREE RATES TO 3 MILLION YEN IN THE AUTUMN OF 1991 FROM 10 MILLION YEN AT PRESENT, THEY SAID.

THE AGREEMENT COMES AT A TIME WHEN THE FINANCE MINISTRY IS WORKING ON RELAXING REGULATIONS ON BANK DEPOSIT RATES AMID GROWING PRESSURES FROM THE UNITED STATES TO LIFT ALL THE RESTRICTIONS ON BANK DEPOSIT RATES.

THE MINISTRY REPORTEDLY INTENDS TO DISMANTLE THE REMAINING CONTROLS ON INTEREST RATES ON BANK DEPOSITS BY THE AUTUMN OF 1993.

#90179k0093 06/28/1990 ~Japanese News Agency

TOKYO (JUNE 28) KYODO - THE BANK OF JAPAN WILL URGE JAPAN'S MAJOR COMMERCIAL BANKS TO CURB SEVERELY GROWTH IN ADDITIONAL LENDING IN THE JULY-SEPTEMBER PERIOD BY 14.6 PERCENT FROM THE LEVEL A YEAR AGO, CENTRAL BANK SOURCES SAID THURSDAY.

THE TIGHTER POLICY IS DUE TO BE INFORMED TO THE BANKS FRIDAY FOLLOWING APPROVAL BY ITS POLICY BOARD, WHICH IS TO MEET THE SAME DAY, THE SOURCES SAID.

THE DOUBLE-DIGIT CUT HAS CONTINUED SINCE THE FIRST QUARTER OF THIS YEAR.

THE ACTION AIMS AT EASING INFLATIONARY PRESSURES FROM EXCESSIVE LIQUIDITY, AND DEMONSTRATING THE CENTRAL BANK'S TOUGH STANCE TO THE FINANCIAL INDUSTRY, THEY SAID.

AMID BULLISH BUSINESS CONDITIONS, THE POTENTIAL FOR INFLATION CONTINUES TO GROW IN JAPAN. THIS IS APPARENT IN SUCH SYMPTOMS AS INCREASING PRODUCTION COSTS CAUSED BY A LABOR SHORTAGE, AND THE CONTINUOUSLY GROWING MONEY SUPPLY WHICH HAS BEEN RISING AT A RATE OF MORE THAN 10 PERCENT IN THE POST SEVERAL MONTHS.

YASUSHI MIENO, THE CENTRAL BANK GOVERNOR, HAS SAID THAT REDUCTION OF LOANS RELATED TO SPECULATIVE INVESTMENTS IN LAND AND OTHER REAL ESTATES IS ''GRADUALLY WORKING'' TO CURB LAND PRICE HIKES.

UNDER THE CENTRAL BANK'S PLAN, ADDITIONAL LOANS BY 12 COMMERCIAL BANKS TO BE CARRIED OUT DURING THE COMING THREE-MONTH PERIOD WILL AMOUNT TO 3,473 BILLION YEN.

THE PLANNED CUTBACK IN NEW LOANS BY 14.6 PERCENT IS RELATIVELY NARROW COMPARED WITH A 16.7 PERCENT RESTRAINT IN LOANS IN THE PRECEDING APRIL-JUNE PERIOD.

BUT ITS SUBSTANTIAL EFFECTS ON EASING INFLATIONARY PRESSURES WILL BE SIMILAR TO THAT OF THE PRECEDING PERIOD, THE SOURCES SAID.

THE CENTRAL BANK ALSO MADE A CALL FOR A SIMILAR REDUCTION IN NEW LOANS BY TRUST BANKS, SETTING A TARGET OF 718 BILLION YEN, DOWN 11.4 PERCENT.

HOWEVER, AN INCREASE TO 951 BILLION YEN IN NEW LOANS BY THREE LONG-TERM TRUST BANKS WAS ALLOWED, UP 22.9 PERCENT FROM A YEAR AGO BECAUSE FRESH LOANS IN LAST YEAR'S THIRD QUARTER HAD BEEN REDUCED BY 31.5 PERCENT FROM THE PRECEDING YEAR DUE TO SPECIAL FACTORS.

#90179k0094 06/28/1990 ~Japanese News Agency

SEOUL (JUNE 28) KYODO - THE SOVIET UNION HAS BASICALLY AGREED TO SUPPLY SOUTH KOREA WITH NATURAL GAS TO BE TAPPED IN ITS FAR EAST ISLAND OF SAKHALIN VIA NORTH KOREA, THE CHAIRMAN OF SOUTH KOREA'S HYUNDAI BUSINESS GROUP SAID THURSDAY.

CHONG JU YONG, HONORARY CHAIRMAN OF THE HYUNDAI GROUP, SAID HE HAS REACHED THE AGREEMENT IN TALKS WITH SOVIET OFFICIALS DURING HIS TWO-WEEK VISIT TO THE SOVIET UNION.

SPEAKING TO REPORTERS UPON RETURNING TO SEOUL'S KIMPO AIRPORT, CHONG SAID HE AND THE SOVIET OFFICIALS HAVE AGREED TO PROMOTE JOINT DEVELOPMENT OF NATURAL GAS IN SAKHALIN.

NEGOTIATIONS ARE NOW UNDER WAY ON THE GAS PIPELINE PROJECT BETWEEN SOVIET AND NORTH KOREAN AUTHORITIES, CHONG SAID.

NATURAL GAS DEPOSITS IN SAKHALIN ARE ENOUGH TO MEET SOUTH KOREAN DEMANDS FOR 30 YEARS, HE SAID.

SOVIET OFFICIALS HAVE HELD SEVERAL ROUNDS OF CONSULTATIONS WITH NORTH KOREAN DIPLOMATS IN MOSCOW ON THE PIPELINE PROJECT, HE SAID.

THE LAYING OF NATURAL GAS PIPELINES IN NORTH KOREA, WHICH IS CURRENTLY FACING A SERIOUS ENERGY SHORTAGE, WOULD PROVIDE A GOOD CHANCE FOR FOSTERING ECONOMIC EXCHANGES BETWEEN THE TWO KOREAS, SOUTH KOREAN BUSINESS SOURCES SAY.

THE IDEA OF SUPPLYING SOVIET NATURAL GAS TO JAPAN BY UNDERSEA PIPELINE ACROSS THE TSUSHIMA STRAITS IS ALSO UNDER CONSIDERATION, THE BUSINESS SOURCES SAID.

#90179k0103 06/28/1990 ~Japanese News Agency

TOKYO (JUNE 29) KYODO - THE FOLLOWING ARE MAIN POINTS OF A FINAL REPORT ON THE STRUCTURAL IMPEDIMENTS INITIATIVE (SII) RELEASED THURSDAY BY JAPAN AND THE UNITED STATES.

(JAPANESE STRUCTURAL PROBLEMS)

1) SAVINGS AND INVESTMENT PATTERNS

-- JAPAN TO SPEND 430 TRILLION YEN ON PUBLIC WORKS IN FISCAL 1991-2000 PLUS 25 TRILLION YEN TO BE INVERTED BY FORMER STATE-RUN AGENCIES

-- BANK-AFFILIATED CREDIT CARD COMPANIES TO REGISTER UNDER THE CREDIT SALES LAW WITHIN TWO YEARS TO HAVE ACCESS TO BANK TELLER MACHINES

2) LAND POLICY

-- TAXATION SYSTEM TO BE REVIEWED TO FACILITATE MORE EFFECTIVE USE OF AGRICULTURAL LAND IN URBAN AREAS

-- A REVIEW TO BE MADE TO STRENGTHER THE SPECIAL LAND HOLDING TAX ON IDLE LAND

3) DISTRIBUTION SYSTEM

-- COORDINATION PROCESSING PERIOD FOR OPENING NEW STORES TO BE SHORTENED TO LESS THAN ONE AND A HALF YEARS

-- IMPORT BOARD INVOLVING NON-JAPANESE MEMBERS TO BE ESTABLISHED UNDER PRIME MINISTER'S DIRECT CONTROL

4) EXCLUSIONARY BUSINESS PRACTICES

-- SURCHARGES ON VIOLATORS OF ANTIMONOPOLY LAW TO BE BOOSTED

-- FAIR TRADE COMMISSION TO MAP OUT GUIDELINES FOR STRICTER ENFORCEMENT OF LAW WITHIN FISCAL 1990

-- COMMISSION TO SUPPORT CONSUMERS SEEKING DAMAGES IN LAWSUITS AGAINST VIOLATORS OF LAW

-- PATENT SCREENING TIME TO BE REDUCED TO 24 MONTHS FROM CURRENT 37 MONTHS WITHIN NEXT FIVE YEARS

5) KEIRETSU RELATIONSHIPS (INTERLOCKING CORPORATE TIES)

-- COMPANIES TO BE REQUIRED TO DISCLOSE INFORMATION ON TRANSACTIONS WITH THEIR MAJOR STOCKHOLDERS

-- GOVERNMENT TO ISSUE POLICY STATEMENT PLEDGING EFFORTS TO PROMOTE FOREIGN INVESTMENT IN JAPAN 6) PRICING MECHANISMS

-- GOVERNMENT TO IMPLEMENT 52 MEASURES IN SIX AREAS

-- GOVERNMENT TO UNVEIL RESULTS OF PRICE SURVEYS RELEVANT TO SII FOLLOW-UP PROCESS

(U.S. STRUCTURAL PROBLEMS)

1) SAVINGS AND INVESTMENT PATTERNS

-- U.S. TO GIVE TOP PRIORITY TO ELIMINATION OF FEDERAL BUDGET DEFICIT

-- SAVINGS TO BE ENCOURAGED TO IMPROVE CURRENT ACCOUNT IMBALANCE, REDUCE INTEREST RATES, AND SUSTAIN ECONOMIC GROWTH

2) CORPORATE INVESTMENT AND SUPPLY CAPACITY: IMPROVEMENT OF U.S. ECONOMY'S COMPETITIVENESS

-- U.S. TO REMAIN OPEN TO INVESTMENT FROM ABROAD

-- GOVERNMENT TO STRONGLY OPPOSE CONGRESSIONAL MOVES TO ENACT INVESTMENT LAW DISCRIMINATORY AGAINST FOREIGN COMPANIES

3) CORPORATE BEHAVIOR

-- GOVERNMENT PURSUING POLICIES THAT WILL ENCOURAGE CORPORATE MANAGEMENT TO TAKE DECISIONS THAT WILL BENEFIT THEIR COMPANIES IN THE LONG TERM AND MAKE THEM MORE COMPETITIVE

4) GOVERNMENT REGULATION

-- PROGRESS BEING MADE IN REDUCING REGULATIONS ON BOTH EXPORT AND IMPORT FRONTS, INCLUDING COCOM CURBS.

5) RESEARCH AND DEVELOPMENT

-- GOVERNMENT TAKING MEASURES TO PROMOTE BOTH PUBLIC- AND PRIVATE-SECTOR R AND D, INCLUDING SHARP INCREASE IN FEDERAL FUNDING

-- EFFORTS TO BE MADE TO IMPLEMENT METRIC SYSTEM

6) EXPORT PROMOTION

-- GOVERNMENT TO TAKE FISCAL MEASURES TO ENCOURAGE U.S. FIRMS TO STEP UP EXPORTS AND IMPLEMENTING SPECIAL EXPORT PROGRAM AMID SPECIALLY AT INCREASING EXPORTS TO JAPAN PUSHING EXPORT PROMOTION PROGRAM WITH JAPAN

7) WORKFORCE EDUCATION AND TRAINING

-- GOVERNMENT HAS SET AMBITIOUS GOALS TO IMPROVE QUALITY OF EDUCATION AND TRAINING, AND THUS STRENGTHEN U.S. COMPETITIVENESS.

-- GOALS INCLUDE HIGH SCHOOL GRADUATION RATE OF 90 PERCENT OR MORE AND FULL ADULT LITERACY.

#90179k0139 06/28/1990 ~Japanese News Agency

TOKYO (JUNE 29) KYODO - THE BANK OF JAPAN (BOJ) INJECTED LIQUIDITY INTO THE SHORT-TERM MONEY MARKET FRIDAY MORNING THROUGH THE PURCHASE OF 300 BILLION YEN IN COMMERCIAL PAPER (CP) AS A MEANS OF STEMMING THE UPSURGE IN INTEREST RATES, BROKERS SAID.

THE CP, AT 7.47 PERCENT DURING THE PERIOD THAT THEY ARE IN VALID, ARE DUE TO MATURE MONDAY.

THE MOVE IS INTENDED TO HALT THE RISE IN VERY SHORT-TERM INTEREST RATES FOLLOWING THE MOMENTARY JUMP OF EIGHT BASIS POINTS OF THE UNSECURED OVERNIGHT CALL MONEY RATE FROM THE PREVIOUS DAY'S QUOTE TO 7.75000 PERCENT SAID A BOND BROKER AT LONG-TERM CREDIT BANK OF JAPAN.

ONE BASIS POINT IS EQUAL TO 0.03125 PERCENT. THE CP OPERATION IS THE CENTRAL BANK'S WAY OF INDICATING THE DESIRABLE LEVEL OF INTEREST RATES, THE BROKERS SAID.

''IN VIEW OF THE FACT THAT INTEREST RATES ARE MORE LIKELY TO RISE AROUND THIS TIME SINCE IT MARKS THE COINCIDING OF THE END OF THE MONTH WITH THE END OF THE WEEK, THE BOJ'S DESIGNATION IS NOT ALL THAT LOW,'' SAID A DEALER WITH A MAJOR COMMERCIAL BANK.

#90179m0001 06/28/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (JUNE 28) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2)MONEY & ECONOMY.

IN THE NEWS:

The Nikkei is at 32,106.19, down 206.56. ... The FT 100 is down 11.6 to 2361.9. ... LLOYD'S OF LONDON reports that it will have its first loss since the 1960s. ... The DAX index is up 6.74 to 1908.20. ... PRESIDENT BUSH announced a plan to bolster trade with troubled Latin American nations. ... Trade talks between the U.S. and Japan seem to have broken through a previous impasse over Japan's public works spending. ... A House subcommittee approved a bill that would re- regulate the cable TV industry. The SENATE COMMERCE COMMITTEE has already approved a similar bill, but the bill has yet to reach the floor. ... The SUPREME COURT changed its stance on affirmative action yesterday, upholding policies which favor minorities in the granting of broadcast licenses. ... A penny stock reform bill was approved by the HOUSE ENERGY AND COMMERCE COMMITTEE. The bill gives the SEC authority to bar crooked promoters and consultants from selling the speculative stocks. The panel also approved a securities-law reform act that would widen the SEC's authority to seek court orders.

WHAT'S AHEAD:

The U.S. LABOR DEPARTMENT releases import/export figures today at 10 a.m. EDT. ... The HOUSE BANKING SUBCOMMITTEE will hold hearings on the progress of investigation and prosecution of thrift fraud cases. forcast for 1990 and 1991 at 2 p.m. ... WALT DISNEY CO. announces a new talking software package to teach basic reading and counting skills on personal computers to children ages 2 to 5.

FROM THE BULLS:

KEN TOWER of DELAFIELD, HARVEY & TABELL says the lack of breadth in this

market is making him nervous, but he remains bullish. "Two-to- one would be great. I don't think we can look for stellar breadth now because this is still a market dominated by big stocks, but I would at least like to see more stocks up than down." Tower sees the Dow reaching 3100 by summer's end and possibly exceeding this threshold with the cooperation of interest rates. (CNBC "Business View", 6/27)

FROM THE BEARS:

"The U.S. market will mark some time," predicts HEIKO THIEME of DEUTSCHE BANK. "We had this fabulous May, the best since 1933." Thieme points out that such a run-up means a consolidation is expected, but he thinks that when the consolidation is over, stocks will be hurt by lower earnings. "It's back to reality," says Thieme. He sees a trading range between 2750 and 2950. (FNN "World Business Update", 6/28)

STOCK MARKET:

The market is beginning a correction which will extend down to the 2750 area, says CURTIS HESSLER of "Professional Timing Service." But Hessler expects another up leg to 3200 once the correction is over. "It's time to cash in while the market gets its second wind." He advises his readers to stay in money market funds and avoid long-term bonds. (CNBC "World Business", 6/28)

DAVID EDWARDS of UNITED SERVICES FUNDS thinks he has figured out the pattern the market is following. "The months in which the quarterly earnings are being reported the market will decline, and then in the next two months it will recover," he explains. Edwards believes the market will fall to 2700 in July, but to recover to around 3000 by December. "It would seem the slow economy is causing earnings disappointments. We think this pattern in the market could continue for another 12 months." ("Investor's Daily", 6/28)

"The problem with earnings surprises is you never know where they're going to happen. That's why they're surprises," says JOHN MANLEY of SMITH BARNEY. He says the trend of earnings disappointments makes traders nervous. He advises investors to be selective, "not because of what I do know, but because of what I don't know." Manley believes the market will decline another 100 points. (CNBC "Market Wrap-Up", 6/27)

"We find ourselves extremely uncomfortable with the stock market," says JAMES DINES of the "Dines Letter." "It is a time of unacceptably high risk ... [stocks] are overbought and overpriced." However, Dines says a break above 3000 would re-establish the kind of momentum the market had in 1982. (CNBC "World Business", 6/28)

Institutional trader LAWRENCE GREENWALD at SANFORD C. BERNSTEIN believes

that the market's movements Wednesday betrayed a clear sense of near-term direction. "What it really boils down to is there's no reason for a lot of people to 'play' right now," he says. "Corporate earnings are on everyone's mind, but hard results won't be available until mid-July for a lot of companies." ("The Washington Post", 6/28)

BOB WALBERG, an analyst at MMS INTERNATIONAL says the market's late rise came partly because "buyers were encouraged by the way the market acted in the face of AT&T's disappointing earnings. It could be a sign that the market's discounting the earnings disappointments." Nevertheless, some investors were still playing it safe, he says, noting that drug stocks were among the best performers today. "They're looking for dependable earnings." PHILIP ROTH, chief technical analyst at DEAN WITTER REYNOLDS, adds, "I think the market was oversold enough to produce a bounce." (Reuters, 6/27)

"The market is in a corrective phase," says technical analyst EUGENE PERONI of JANNEY MONTGOMERY SCOTT, who notes that the market first violated its strong uptrend by closing below 2857 last Friday. But Peroni emphasizes the correction is only a near-term, minor adjustment and should not be regarded as a major turn in the market. He is encouraged by yesterday's gain in the Dow despite weakness in AT&T. "That the market is able to isolate these earnings disappointments ... is very positive." He looks for secondary NYSE stocks to outperform blue chips during the second half of the year. (CNBC "World Business", 6/28) 2

DAVID BOSTIAN, chief investment strategist for JESUP, JOSEPHTHAL & COMPANY says that investors were initially uncertain where the market might be heading early yesterday, but interpreted the President's tax remarks as "the right decision" and one that could lead to a capital gains tax cut. He says an even stronger reason for the stock market rise might have been that bond prices rallied in anticipation of a lower budget deficit, which could lead to lower interest rates. One big drag on the market, however, has been growing concern over deteriorating corporate profits. Mr. Bostian says, "The economy is a good deal weaker than investors previously thought." (NYT, 6/28)

"I think people took a look around and saw that the market didn't get crushed with the AT&T selloff," says JOHN BURNETT of DONALDSON, LUFKIN & JENRETTE SECURITIES. "The news could have sparked a serious retreat, but it didn't happen." Burnett adds the sharp drop in AT&T provides "a great opportunity for people sitting on cash to put it to work in the market." (UPI, 6/27)

"We have turned our attention away from interest rates, which totally obsessed the market a month ago, to earnings, which is a lot more practical," says TRUDE LATIMER, strategist at JOSEPHTHAL & CO. ("USA Today", 6/28)

STOCK TIPS:

"The relationship of small stocks to large stocks historically runs in cycles of six to eight years. The last time small stocks peaked was in July of 1983, so they have underperformed for almost seven years. We thought now might be a good time to look at small stocks again. They should bottom out this year - if history repeats itself," says MANECK KOTWAL, quantitative analyst at SMITH BARNEY, HARRIS UPHAM & CO. He continues, "Now may be the time we see small stocks start to catch up. ... They are undervalued in terms of price- to-book value and price-to-sales ratios, which are at almost 20-year lows." In choosing a small stock, Kotwal says, "We look for projected annual earnings growth of at least 12% and usually more than 20%. Also, the company should have five years without a decline in earnings." He says that the following stocks meet his criteria: JWP INC. - a provider of technical services and owner of two water utilities; BIOMET - a surgical-implant-device maker; LEGENT CORP. - a software design firm; DANAHER CORP. - an auto-parts maker; JUNO LIGHTING - a lighting maker; and A.L. LABS - a pharmaceuticals maker. ("USA Today" 6/28)

"At the moment, one of my favorites [that] nobody likes is CITICORP," says HEIKO THIEME of DEUTSCHE BANK. "I even say that this stock, which is now slightly over $22, could be a hundred dollar stock in the '90s." Thieme points out that high dividends mean if he's wrong, "you get paid 8%, and if I'm right it will be a hell of a return over the years to come." (FNN "World Business Update", 6/28)

PRUDENTIAL-BACHE SECURITIES analyst BARBARA RYAN told the "Dow Jones Professional Investor Report" that she expects second-quarter earnings for the drug group to be up 14% from a year earlier on a 10% sales rise. (WSJ 6/28)

JOHN MANLEY of SMITH BARNEY says the markets recent woes give investors "an opportunity to slip in" at lower prices. His list of stocks that are likely to do well in the current environment include, WARNER LAMBERT, MERCK, BECTON DICKINSON, BAXTER INTERNATIONAL, PROCTOR & GAMBLE and DOW CHEMICAL. (CNBC "Market Wrap-Up", 6/27)

Shoemaker L.A. GEAR gained 1 1/8 to 27 1/4 yesterday even though the company reported second-quarter net income of $10.2 million, of 51 cents a share, which was down from the $16.1 million, or 91 cents a share, in the same quarter last year. The company had previewed this decline on June 1 by reporting an expected net income of between 50 and 60 cents per share. Analyst STANLEY LANZET of ARNHOLD & S. BLEICHROEDER says, "People were happy they were within the [predicted] range. There has been a lot of fear going around about L.A. Gear." ("USA Today", 6/28)

STORAGE TECHNOLOGY may be making a comeback three years after it was in Chapter 11 proceedings. Sales are up 17% and earnings are projected to be up more than 70%. "They had a blowout fourth quarter and a blowout first quarter," says SOUNDVIEW FINANCIAL GROUP analyst

-30- 10534

#90179m0002 06/28/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (JUNE 28) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

MONEY & CREDIT:

Currency traders "have been burned ... trying to make a breakout from the [current trading] ranges," says JOHN LYMAN, the BANK OF TOKYO's senior customer dealer in New York. "Every time they do, it comes back in their faces. Traders are frustrated; profits are down; and people are trying anything to make money." (WSJ, 6/28)

While the leading indicators report should have been good for the dollar, JOHN MCCARTHY of AMSTERDAM ROTTERDAM BANK says that was not true yesterday. "A market that's bearish on the dollar ignores good news." ("Investor's Daily", 6/28)

DAVID OGG, chief New York dealer for CREDIT SUISSE says that currently the currency market is a nervous market that's producing many erratic moves within a single range. (WSJ, 6/28)

By August, "I think it will become apparent ... the further weakness of the U.S. economy will force the Fed to ease," says HEIKO THIEME of DEUTSCHE BANK. "The latest this will happen is October, the earliest the end of August." (FNN "World Business Update", 6/28)

The Treasury's sale of four-year notes was a big hit with investors yesterday and helped to pull the bond market out of the summer doldrums. "It was a very strong auction," says MICHAEL MOORE, manager of government trading at CONTINENTAL BANK in Chicago. "There was significantly more demand for the four-year note than the dealer community anticipated." (WSJ, 6/28)

"Demand for the new securities was stronger than expected, and that helped the market," says DANA JOHNSON, chief money market economist at the FIRST NATIONAL BANK of Chicago. "But people are looking ahead to announcements next week of more new supply in the form of seven- year notes and 40-year Refcorp bonds, as well as the June employment report to be released on July 6. For now, those events limit the market's upside potential." (NYT 6/28)

"Some optimism that the budget talks will lead to cuts in the budget deficit contributed to the buying at the auction as well as the overall positive tone in the bond market," says JAMES CAPRA, a senior vice president at SHEARSON LEHMAN GOVERNMENT SECURITIES INC. (WSJ, 6/28)

THE ECONOMY:

"The economy is moving sideways," says RICHARD TRAINER, senior economist at BANK OF TOKYO NEW YORK GROUP. "It's not rebounding, it's not about to topple into a recession. But it's moving at a very slow pace, a snail's pace." (WSJ, 6/28)

The index of leading economic indicators "misrepresents how strong the economy really is," says DONALD STRASZHEIM of MERRILL LYNCH. "The manufacturing sector is heavily represented in this indicator and it is doing better. The service sector is very lightly represented in the leading economic indicator and it is doing worse. So, I think the economy is slowing a bit more than we thought from this reading." ("Nightly Business Report", 6/27)

The leading indicators figure is "a very good number," says FRANCIS SCHOTT of EQUITABLE LIFE INSURANCE "It simply confirms that the economy is expanding, and not contracting." (FNN "Marketwrap", 6/27)

"The May leading indicators show that except for housing and construction, the production side of the economy is beginning to recover," says WILLIAM MACREYNOLDS, director of forecasting at the U.S. CHAMBER OF COMMERCE in Washington. "But consumers are becoming more pessimistic, leaving future economic growth in doubt." (WSJ, 6/28)

The leading indicators report is "encouraging because it's telling us that the industrial sector is certainly not sluggish," says KEN GOLDSTEIN of the CONFERENCE BOARD. (FNN "Marketwrap", 6/27)

MICHAEL MORAN of DAIWA SECURITIES says the leading economic indicators index was tainted by a temporary surge in the auto industry. "The component that made the largest contribution was the factory work week. It added 3 tenths of a percentage point to the index largely due to what happened in the auto industry. They're looking at potential strikes in September, and ahead of time they're trying to build inventories, so they can continue sales if they get a strike." (CNBC "Business View", 6/27)

"The recent declines in consumer expectations and household spending suggest that the broader economy remains weak, despite the slight pickup in industrial production," says ROBERT McGEE, an economist at TOKAI BANK in New York. "More slow growth is still the best bet for the U.S. economy." (NYT, 6/28)

According to the UNIVERSITY OF MICHIGAN's INSTITUTE FOR SOCIAL RESEARCH, consumer expectations fell 0.17% in April, which is very disturbing information to some analysts. WILLIAM MACREYNOLDS, director of forecasting at the U.S. CHAMBER OF COMMERCE, says the drop means "the slowdown in the economy has greatly reduced consumer confidence." Lessened confidence means less spending and more saving, "and that's not healthy for the economy. Manufacturing is going to have to carry the burden." ("Investor's Daily", 6/28)

IN WASHINGTON:

TREASURY SECRETARY NICHOLAS BRADY says interest rates will fall if the administration and Congress reach an agreement to reduce the budget deficit. "If we get a budget agreement, in my opinion interest rates will come down." He adds that this will help promote economic growth and improve U.S competitiveness. (Reuters, 6/27)

PRESIDENT BUSH has "basically thrown in the towel on the possibility of a tax increase," according to CHARLES LIEBERMAN of MANUFACTURERS HANOVER SECURITIES. "He clearly had to do that in order to get the Democrats to play along." Lieberman says there were not any programs left to cut, and therefore, the Democrats were able to force Bush to make the proposal for revenue enhancement. (CNBC "Market Wrap-Up", 6/27)

#90179p0571 06/28/1990 ~PR Newswire

SHELBYVILLE, TN (JUNE 28) PR NEWSWIRE - Alcan Recycling, a division of Alcan Aluminum Corporation of Cleveland, Ohio, opened a new $7 million, 120,000 square foot, secondary aluminum plant, in Shelbyville, Tenn. today. The new facility, located on Railroad Avenue, will employ approximately 60, when it reaches full capacity in the coming year.

Alcan Recycling acquired the assets of Summit Alloys in Shelbyville, Tenn. in early March, 1990. Since that time, over $4 million has been invested in modifications to expand the existing facility, now nearly double in size. New baghouses, which capture air pollution emmissions, upgrading and relocating fuel oil tanks, and state-of-the-art dross processing equipment are just three examples of recent environmental improvements to the facility.

An announcement ceremony was held at the plant site, with employees, employee's families, business leaders, elected officials, and civic leaders from the Shelbyville-Bedford County area in attendence. Accompanying Pchola at the opening ceremony were Shelbyville Mayor Henry Feldhaus III, Bedford County Executive Paul Parker, Robert Parsons, assistant commissioner of the Department of Economic and Community Development, representing the State of

Tennessee, Lytle "Jug" Landers, president of the Shelbyville-Bedford County Chamber of Commerce, State Representative Clarence Phillips, and Roger J. Maggs, president, Alcan Recycling.

The Alcan facility in Shelbyville will remelt aluminum to supply the die-cast industry. Just some of the items which will be recycled at this facility would include old aluminum sheet and cast scrap, crushed automotive scrap such as aluminum blocks and cylinder heads. These many products are melted down into common alloys, and then reused in the growing die-casting and automotive castings markets.

The facility is located on a 35-acre site, with adjacent rail service rail service and truck docks.

In a prepared speech to those in attendance, Alcan Recycling announced a three-month contest, where students at the nearby Shelbyville Central High School are being challenged to collect aluminum beverage cans, aluminum siding, old aluminum lawn chairs, and other aluminum products, so that they can be recycled.

CONTACT: Edward A. Pchola, 216-523-6806 or David B. Christofferson, 615-684-0300, both of Alcan Recycling.

#90179p0575 06/28/1990 ~PR Newswire

ROSWELL, GA (JUNE 28) PR NEWSWIRE - T2 Medical Inc. (NASDAQ: TSQM) announced that it has filed today with the Securities and Exchange Commission a Registration Statement covering a proposed offering of 2.2 million shares of its common stock.

The company proposes to sell 600,000 shares with the balance to be sold by selling shareholders who were former shareholders of 22 home infusion therapy centers acquired by the company in November 1988 and January 1989.

The company will use its proceeds from the offering to finance expansion and for working capital. The company will not receive any of the proceeds from the sale by selling shareholders. The offering, which is managed by Kidder, Peabody & Co. Inc. and the Robinson-Humphrey Co. Inc., is expected to be completed in late July.

T2 Medical Inc. is a leading provider of home care infusion therapy services in the United States. Infusion therapy is the administration to a patient of nutrients, antibiotics, and other drugs and fluids intravenously or through a feeding tube. The company currently owns 39 infusion therapy centers and manages seven other centers and 31 sub-centers in 22 states and the District of Columbia.

Copies of the Preliminary Prospectus dated June 27, may be obtained from:

Mark Chancey or John Barber The Robinson-Humphrey Co. Inc. Kidder, Peabody & Co. Inc. Atlanta Financial Center
10 Hanover Square 3333 Peachtree Road NE New York, NY 10005
Atlanta, GA 30326

A Registration Statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. The securities may not be sold nor may offers to buy be accepted prior to the time the Registration Statement becomes effective. This announcement shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

CONTACT: Joseph C. Allegra, president, or Dale Benzine, director of corporate affairs, 404-594-0475, both of T2 Medical.

#90179p0585 06/28/1990 ~PR Newswire
ELGIN, ILL. (JUNE 28) PR NEWSWIRE - Safety-Kleen Corp. (NYSE: SK), the leading recycler of fluid waste, today announced that it is building the world's largest oil re-refinery in East Chicago, Ind.

The $40 million facility, to be completed by May 1991, will process 75 million gallons of used automotive and industrial oils per year. The plant will produce 43 million gallons of high-quality base lubricating oil as well as other petroleum products.

"American consumers are currently disposing of some 200 to 400 million gallons of crankcase oil by pouring it down the drain or into the garbage " said Safety-Kleen President Donald Brinckman. "The damage to our waterways has been extensive and severe.

"We view the East Chicago re-refinery as a necessary investment in the future of our environment."

The re-refinery is twice the size of the largest facility now in operation -- in Breslau, Ontario, and also owned by Safety-Kleen -- and will double North America's capacity for oil re-refining.

Safety-Kleen Corp. is the world's largest provider of parts cleaner services and related solvent recycling. The company also collects a variety of hazardous and quasi-hazardous liquid wastes from automotive repair outlets, industrial plants, dry cleaners and other waste generators. The fluids are recycled or re-refined for re-use, or blended

into fuels for use in industrial furnaces or cement kilns.

OYSTER BAY, N.Y. (JUNE 28) PR NEWSWIRE - "Total Recall," the movie that has achieved the largest box-office opening for this year with over $80 million in sales during its first three weeks of release, will continue to delight fans when it hits the market as a new action/adventure video game for the Nintendo Entertainment System (NES)(R) from Acclaim Entertainment, Inc. (NASDAQ: AKLM) this August.

"We are releasing our NES video game version of Total Recall(TM) -- developed in concert with the movie's screenplay -- following on the heels of the sensational movie release this month," says Sam Goldberg, vice president of marketing for Acclaim. "Our video game captures the excitement of the movie's special effects, accelerated action, and surprising plot twists, and has already received positive game reviews."

In the first weekend the movie opened, "Total Recall" achieved the highest opening summer box-office sales with more than $25 million in receipts, followed by a blockbuster second weekend of theater attendance.

Extensive promotional tie-ins involving Acclaim, Carolco Pictures and Tri-Star Pictures are currently taking place, including a special TV-advertised "900" telephone number promotion and a 50-city radio promotion offering Acclaim's Total Recall NES and SuperPlay(TM) Hand- held video games as prizes. Acclaim Total Recall signage appears in theaters nationwide and the NES game receives a credit at the end of the movie -- an industry first. Joint promotions timed to coincide with the movie's home video release are also currently under development for later this year.

Carolco is also conducting a major direct mail campaign of more than five million brochures and ads that include Acclaim Total Recall SuperPlay Hand-helds. The offer appears as a full-page ad in such national publications as Starlog, DC Comics, Movies USA and Scene at the Movies.

Acclaim Entertainment, Inc., is a leading publisher, marketer and distributor of home entertainment products under the Acclaim and LIN labels. These include Nintendo Entertainment System software, Nintendo(R) Game Boy(TM) compact video system software, wireless remote controllers and hand-held electronic video games.

Nintendo, Nintendo Entertainment System and Game Boy are trademarks of Nintendo of America Inc.

SAN FRANCISCO (JUNE 28) PR NEWSWIRE - The Failure Group Inc. announced that it has filed a registration statement with the Securities and Exchange Commission relating to a proposed initial public offering of 2,300,000 shares of common stock.

Of the shares to be offered, 1,500,000 shares will be issued and sold by the company and 800,000 shares will be sold by selling stockholders. The expected range of the initial offering price is $13 to $16 per share.

The offering will be underwritten simultaneously in the United States and internationally. United States and international syndicates, co-managed by Prudential-Bache Capital Funding and Hambrecht & Quist Inc., will underwrite 1,650,000 shares and 650,000 shares, respectively.

A portion of the proceeds from the offering will be used to reduce indebtedness. The remainder will be added to the company's working capital and used for general corporate purposes.

The Failure Group Inc., through its principal operating subsidiary, Failure Analysis Associates(R) Inc., is the leading independent consulting firm devoted primarily to the investigation, analysis and prevention of failures of an engineering or scientific nature.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

SAN BRUNO, CALIF. (JUNE 28) PR NEWSWIRE - The Board of Directors of North Lily Mining Co. (NASDAQ: NLMC) today announced that North Lily has been appointed operator of a large sulfur prospect in Northern Chile, known as Lastarria.

The presence of the sulfur ore at or near the surface of the Lastarria deposit greatly facilitates evaluation and development of the property. A recent sampling program indicated average sulfur grades of 40 percent and a potential mineral resource exceeding 20 million tonnes of ore. Since sulfur sells for approximately $130 per tonne, this indicates an in-situ sulfur value in excess of one billion dollars. North Lily has a 10 percent net profits interest in this property.

Sulfur is used predominantly in the production of sulfuric acid which, in turn, is used in significant quantities for the processing of copper oxide ores. Chile is one of the world's largest copper producers and is rapidly expanding its copper production from oxide copper resources. There is presently a great shortage of sulfuric acid in Chile. Sulfur is also used in the production of iodine, which further enhances the marketability of the product.

Over the past year, North Lily has built up a staff of over 60 people in Chile, including an experienced management team who oversee projects and evaluate properties for their potential acquisition. Through involvement in the Lastarria and Taltal ventures, both of which have significant value the company has successfully limited its risk and capital outlay while positioning North Lily to capitalize on the mineral wealth in Chile.

SEATTLE (JUNE 28) PR NEWSWIRE - U.S.-based Airborne Express has entered into an operating agreement with Griffin Associates of Thailand, Airborne announced today.

The contract provides for a subsequent buy-out of the 120-employee Thai company by a joint venture of Airborne Express and Mitsui & Co. of Japan.

Griffin -- which will be known as Airborne Express Thailand after the buyout -- introduced international air express service to Thailand 17 years ago.

"This is a great opportunity for us to increase our service levels and to grow in a way that's beneficial to all parties. We really like Airborne's state-of-the-art communication system and delivery network," said David Daly, country manager, for Griffin Associates.

Airborne and Mitsui & Co. are already joint-ventured with a second Japanese company, Tonami Transport Co. Ltd., in the ownership of Airborne Express Japan.

"This is a very important next step for us," said Bruce Grout, Airborne's Vice President for Asia Pacific. "It strengthens our position in this competitive and growing regional air express market. More importantly, it means we will be able to provide improved, competitively priced service to our customers to and from Thailand, one of the fastest growing economies on the Pacific Rim.

"We will continue to look at further opportunities in the region," Grout concluded.

Airborne Express is the third largest and fastest-growing transportation company in the U.S. air express market. The Seattle-based firm with more than 10,000 employees serves 183 countries with freight and express service.

Mitsui & Co. is one of Japan's leading corporations with more than 800 subsidiaries in 88 countries worldwide. It posted trading transactions of $126 billion (U.S.) for fiscal year 1989.

HAMILTON, MO (JUNE 28) PR NEWSWIRE - Ribi ImmunoChem Research Inc. (NASDAQ: RIBI) announced today it has received $1 million in equity financing from S.R. One, Limited, the venture capital fund of SmithKline Beecham Corp.

The arrangement provides the company with an additional $1.4 million in equity capital if S.R. One exercises stock-purchase warrants granted to it as part of its initial purchase. S.R. One, a $50 million fund, provides financing and management assistance to young, high-potential innovative health care and biomedical research companies.

S.R. One has purchased 283,941 shares at a price of approximately $3.52 per share, and received warrants to purchase 283,941 shares at $5 per share, exercisable within 36 months. S.R. One will be required to exercise its warrants in three equal installments if the company's stock achieves average price levels of $6, $7 and $8 per share, respectively, for specified periods of time.

S.R. One's initial purchase represents about 3.1 percent of the company's stock on a fully diluted basis. If S.R. One exercises its warrants, its capital contribution to the company will total $2.4 million, and it will hold approximately 5.9 percent of Ribi ImmunoChem's common shares on a

fully diluted basis.

"We are very pleased that S.R. One considers Ribi ImmunoChem a suitable investment opportunity," said Robert E. Ivy, chief executive officer, president and chairman of Ribi ImmunoChem. "This financing adds to our current assets and enhances our ability to complete clinical testing required to bring our products to market."

"We have confidence that the technology being developed by Ribi ImmunoChem Research Inc. will make a contribution to the quality of certain health care products," said Brenda Gavin, vice president, S.R. One, Limited. "We are pleased that S.R. One can participate in Ribi's future development efforts."

Ribi ImmunoChem's products in human clinical testing include: MELACINE(TM) melanoma theraccine (therapeutic vaccine), which is in Phase II human clinical testing and which was recently designated an Orphan Drug by the U.S. Food and Drug Administration; and MPL(TM) immunostimulant, which is in Phase I/II testing presurgically to prevent or ameliorate certain post-surgical infections and in certain non-surgical intensive care patients at high risk of infection.

Ribi ImmunoChem's immunostimulants (adjuvants) are also being used in two malaria vaccine formulations in Phase I/II human clinical testing. The malaria vaccine formulations are being developed through a collaborative effort with Smith Kline & French Laboratories of Philadelphia, a division of SmithKline Beecham Corp., and the U.S. Army Medical Research and Development Command. Early results of tests of these malarial vaccines utilizing Ribi adjuvants on more than 30 human volunteers were recently reported at scientific meetings in Washington, D.C., and San Diego, Calif. An average of 10 times more protective antibodies were produced by Ribi adjuvants than with the standard comparative adjuvant, alum.

Ribi ImmunoChem Research Inc., a biopharmaceutical company founded in 1981 is a leader in the development of immunostimulants for use in preventing and treating human and animal diseases.

#90179p0600 06/28/1990 ~PR Newswire

MINNEAPOLIS (JUNE 28) PR NEWSWIRE - General Mills (NYSE: GIS) today reported record financial results for the fiscal year ended May 27, 1990.

Earnings per share from continuing operations increased 18 percent to $4.55, up from $3.85 earned in 1989. After-tax earnings grew 19 percent to $373.7 million. Sales rose 15 percent to $6.45 billion. Return on average equity based on earnings from continuing operations was 48.5 percent, also an all-time high.

Chairman Bruce Atwater said the record results reflect continued strength of both Consumer Foods and Restaurants, which achieved increases in operating profits of 18 percent and 21 percent, respectively. Big G cereals, Betty Crocker Products, Red Lobster and The Olive Garden restaurants made the largest contributions to the 19 percent gain in total operating profits.

Results for the final 13 weeks showed the strongest increase of any quarter during fiscal 1990. Earnings per share reached 93 cents, a gain of 29 percent above the 72 cents earned in the comparable period a year ago. After-tax earnings from continuing operations grew 31 percent to

$75.3 million. Sales grew 19 percent and reached $1.71 billion. Operating profits grew 26 percent.

Fiscal 1990 net earnings were $4.64 including a 9-cent per share gain from discontinued operations. Last year's net results, including a large gain from the sales of The Talbots and Eddie Bauer, totaled $5.06 per share.

Consumer Foods, General Mills' largest business segment with 70 percent of total sales, had an excellent year in fiscal 1990. Sales grew 13 percent and reached $4.52 billion. Total domestic package foods volume grew 5.7 percent, led by gains of 11 percent by Betty Crocker products, 8 percent by package flour and baking mixes, and 6 percent by Big G ready-to-eat cereals. In addition, Foodservice and bakery flour reported volume gains of 10 percent and 6 percent, respectively. Market share was maintained or increased in most major product categories. Only Gorton's frozen seafood and Yoplait yogurt reported declines in volume and earnings.

#90179p0603 06/28/1990 ~PR Newswire

DEARBORN, MICH. (JUNE 28) PR NEWSWIRE - Kathleen A. Fournier has been named executive director of Michigan's MISS DIG utility damage prevention system effective July 1, 1990. She succeeds Michael G. Digon, who is retiring.

The announcement was made by CMS Utility Services, Inc., which manages the MISS DIG one-call system for the state's utilities, governmental agencies and contractors to prevent injuries to people and damage to utility facilities.

Fournier joined MISS DIG as an operator in 1974. After transferring to Consumers Power in Royal Oak later that year, she returned to the MISS DIG organization as a secretary in 1975. Fournier has held a progression of increasingly responsible positions in MISS DIG, most recently as senior utility services supervisor. Fournier worked with Digon over the last several years to build the MISS DIG system to its current membership of 620 organizations throughout Michigan.

The Pontiac-based MISS DIG organization, the first statewide one- call utility damage prevention system to be established in the U.S., is the nation's leader in call volume. Before beginning a construction or excavation project, contractors or individuals are asked to call MISS DIG's toll-free telephone number, 1-800-482-7171, at least two working days in advance. Participating utilities and governmental agencies mark the location of their underground facilities with color-coded stakes,

flags and paint, or provide help when work is done near overhead electric lines.

CMS Utility Services, Inc., a unit of CMS Energy Corporation, provides utility-related products and services throughout the U.S.

CMS Energy Corporation (NYSE: CMS) is a $3 billion (sales) diversified energy company with businesses engaged in the distribution of electricity and natural gas, interstate storage and transmission of natural gas, oil and gas exploration and production, independent power generation and utility services. CMS Energy Corporation's principal subsidiary is Consumers Power Company, Michigan's largest utility and the nation's fourth-largest combination utility.

BEAVERTON, OR (JUNE 28) PR NEWSWIRE - NIKE Inc. (NASDAQ: NIKE) Chairman Philip H. Knight today announced the company expects to post fourth-quarter earnings of between $1.70 - $1.75 per share, which exceed current Wall Street estimates of between $1.50 - $1.60 per share. Accordingly, the company expects earnings for the full fiscal year which ended May 31 to fall between $6.35 - $6.40 per share, compared to Wall Street estimates of between $6.15 - $6.25 per share.

In clarifying the reasons for the stronger-than-expected results, Knight stated, "In the fourth quarter, earnings were benefited by a favorable revision in the company's LIFO inventory reserves and by a lower tax rate than originally anticipated. Together, these items account for the difference between Wall Street expectations and anticipated earnings."

Last year, the company reported fourth-quarter and full-year earnings of 97 cents per share and $4.45 per share respectively. The company plans to make its formal earnings announcement on Monday, July 9, at a meeting for analysts and press in New York City. Complete results and financial details will be available at that time.

#90179p0608 06/28/1990 ~PR Newswire

NUTLEY, N.J. (JUNE 28) PR NEWSWIRE - In Spanish-speaking countries travelers know it as "turista" or "Montezuma's revenge." Soviet visitors call it "pahnos," while Americans get the "skitters."

Whatever the euphemism, as many as half of the eight million Americans who travel to Latin America, Asia, southern Europe and Africa each year contract travelers' diarrhea (TD). Now the antibacterial Bactrim(TM) (trimethoprim and sulfamethoxazole/Roche) is available to treat TD caused by susceptible strains of a bacteria called enterotoxigenic E. coli.

The effects are no less harsh on the countries travelers may want to visit. By one estimate, nations of the developing world lose 20 billion tourist dollars annually because fear of TD and other enteric diseases keep potential travelers at home.

According to a recent study in the Journal of the American Medical Association, sulfamethoxazole and trimethoprim, Bactrim(TM)'s active ingredients, can stop TD symptoms in as little as an hour after therapy has begun when used with over-the-counter antidiarrheals. This compares to an average of 2-1/2 days for cases left untreated. In Health Information for International Travel, published by the Centers for Disease Control, this medication used alone can shorten the course of TD from a typical three- to five-day attack to one lasting only a day or a day and a half.

Enterotoxigenic Escherichia coli (E. coli) bacteria account for 40 to 70 percent of travelers' diarrhea, making it the most common cause of TD worldwide. This bacteria is ingested when contaminated food and beverages are consumed. Although meticulous attention to diet can reduce the likelihood of developing TD, many travelers find it difficult to observe restrictions this stringent.

Headquartered in Nutley, N.J., Hoffmann-La Roche is widely known for original research and development in the health care field. The company is a leader in biotechnology and has produced numerous important prescription drugs. Roche also provides a wide range of diagnostic products and clinical laboratory services and is a major producer of pure bulk vitamins and medicinal products used in the food, pharmaceutical, cosmetic and animal health fields. In addition, the company recently launched a new business that provides infusion therapy for patients who can be treated outside the hospital.

#90179p0610 06/28/1990 ~PR Newswire

ATLANTA (JUNE 28) PR NEWSWIRE - SunTrust Banks Inc. (NYSE: STI) today reported that a special targeted examination of commercial real estate loans at the company's five largest national banks has been completed by

the Office of the Comptroller of the Currency.

Results of this examination together with SunTrust's regular ongoing monitoring of asset quality at its subsidiary banks will not have a significantly adverse effect on 1990 second quarter earnings, which SunTrust expects to report on July 10.

SunTrust expects to provide for loan loss reserves during the second quarter approximately $27 million (pre-tax) more than the $38 million (pre-tax) provided during the 1990 first quarter when SunTrust earned $88 million or $0.69 per share. Most of the second quarter increase is attributable to the OCC examination. The negative impact of the additional provision on second quarter earnings will be lessened by two unrelated purchase accounting adjustments on earlier acquisitions aggregating $19 million (pre-tax).

SunTrust also expects nonperforming assets (nonperforming loans plus other real estate owned) to increase to approximately $505 million in the 1990 second quarter from $415 million reported as of March 31, 1990. However, as a result of higher than normal charge-offs, together with transfers of remaining balances of certain nonperforming loans secured by real estate into "other real estate owned," SunTrust expects virtually all of the increase to be in other real estate owned. Nonperforming loans are expected to remain approximately even with $324 million reported as of March 31.

After the expected provision and net charge-offs, SunTrust expects a loan loss reserve as of June 30 of approximately $360 million. This reserve would exceed expected nonperforming loans. The expected reserve would compare with the reserve of $351 million reported at March 31.

BASKING RIDGE, NJ (JUNE 28) PR NEWSWIRE - AT&T (NYSE: T) will offer special low rates on calls to Canada from seven U.S. metropolitan areas for a celebration of Canada Day on July 1.

Canada Day commemorates the July 1, 1867, start of the Canadian confederation. Its celebration is similar to the U.S. Independence Day on July 4.

Canada is the most frequently called country from the United States, according to The World's Telephones, a statistical annual published by AT&T.

Throughout the day, the night rate will apply to all direct-dialed calls from seven U.S. metropolitan areas. The promotion is limited to callers in the following area codes: New York (201, 203, 212, 718, 914, and 516); Los Angeles (213, 818, 714); San Francisco (415, 408); Washington (202, 301, 703); Philadelphia (609, 215) and Miami (305, 407).

In the past year, AT&T has offered similar discounts on calls to France for Bastille Day, to the United Kingdom on Remembrance Day, to Canada on Canadian Thanksgiving, to the Philippines on Philippines Independence Day, to Japan on Respect for Elders Day, to Australia on Australia Day, to Ireland on St. Patrick's Day, and to all direct-dialed countries on Valentine's Day.

CLEVELAND (JUNE 28) PR NEWSWIRE - James E. Courtney, vice chairman of the M.A. Hanna Company (NYSE/MSE: MAH), will retire at the end of June to pursue personal interests. He will maintain involvement with Hanna through a consulting agreement, said Chairman and Chief Executive Officer Martin D. Walker.

Courtney, 58, joined Hanna in 1974 as vice president, international operations. In 1978 he was elected senior vice president, corporate development, and the following year he was elected executive vice president. He became a Hanna director in 1981 and was named vice chairman in 1989.

Prior to joining Hanna, Courtney had been a partner with the Cleveland law firm of Jones, Day, Reavis & Pogue. A native of Meadville, Pa., Courtney earned AB and MBA degrees from Dartmouth College, Hanover, N.H., and an LLB from Harvard Law School, Cambridge, Mass.

"Mr. Courtney has been an important player in Hanna's transformation into a specialty chemicals company and its progress to date, and his contributions will be missed," Walker said. "We wish him every success in his new endeavors."

Courtney also will retire from Hanna's Board of Directors as well as the board of its iron ore affiliate, the Iron Ore Company of Canada. The M.A. Hanna Company is a leading international formulated polymers company and also has natural resources interests.

READING, PA (JUNE 28) PR NEWSWIRE - Meridian Mortgage Corp., a subsidiary of Meridian Bancorp Inc. (NASDAQ: MRDN), today announced that it has reached an agreement in principle to acquire the Travelers Mortgage Services Inc.'s retail production operations, excluding Travelers' New England region, for an undisclosed price, according to Anthony W. Schweiger, president of Meridian Mortgage.

The proposed acquisition, which is consistent with Meridian Mortgage's strategy to develop significant production outside its banks' markets, will create a combined retail mortgage origination business that has an annual volume of approximately $3 billion.

Included in the acquisition are 16 branch offices in the states of Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland and Virginia. A customer service office in Mount Laurel, N.J., and some administrative support operations in Cherry Hill, N.J., are also included.

"We see this as a unique opportunity to add very substantial production and profit to Meridian," said Schweiger. "Travelers Mortgage is one of the industry's leading originators and has a product line and sales strategy that is similar to Meridian's," he also said.

The transaction, which is subject to the signing of a definitive agreement is scheduled to close within the third quarter of 1990.

Meridian Mortgage Corp. is headquartered in Wayne, Pa., and has existing offices in Pennsylvania, New Jersey, Delaware, Washington, and Indiana.

Fact Sheet

Meridian Mortgage Corp., Two Devon Square, 744 W. Lancaster Ave., Wayne, Pa., 19087

President: Anthony W. Schweiger, CMB -- Schweiger is a certified mortgage banker and was one of the company's founders in 1983.

Profile -- Meridian Mortgage Corp. was formed in 1983 as a mortgage subsidiary of Meridian Bancorp Inc.

-- Meridian Bancorp Inc., through its predecessor banks has been in the residential mortgage business for more than 40 years.

-- Strategy has been to function as a separate subsidiary contributing to overall profitability of Meridian Bancorp. This has been achieved by

acquiring origination businesses inside and outside Meridian's banking marketplace. Meridian Bancorp's strategy is to increase its sources of fee-based income.

-- Its primary businesses are: residential loan production, loan servicing and commercial loan brokerage.

-- In addition to its headquarters in Wayne, Meridian Mortgage has 11 residential offices throughout central and eastern Pennsylvania, Delaware, New Jersey and Indiana.

-- Year-end 1989 residential mortgage production was $820 million, representing $165 million over the previous high.

-- Product innovation contributing to increased volumes includes FasTrak, and Easy Mortgage trademarked services that increase credit approvals and decrease processing time to an average of five business days. Enhanced services included an improved relocation mortgage, and a low fixed rate alternative home financing product.

-- Consistency in loan quality and a tightly managed residential production business have helped deal with recent market slumps. Profit performance was enhanced in last year through sale and purchase of loan servicing.

-- The servicing portfolio currently totals $6.2 billion including approximately $1.5 billion serviced for the Resolution Trust Corp.

NEW YORK (JUNE 28) PR NEWSWIRE - ISS International Service System, Inc. (AMEX: ISI), announced today that the company had been informed by ISS International Service System A/S, Copenhagen, Denmark, that ISS A/S has increased its offer for the approximately 1.3 million shares of the company not owned by it to $12 per share. ISS A/S had offered in May to acquire the shares through a cash merger at a price of $10 per share.

ISS A/S has informed the company that it determined to increase its offer to $12 following advice that the special committee of the board of the company had concluded that the initial offer was not acceptable. The company said that ISS A/S had informed it that ISS A/S believes the $12 per share offer to be more than fair and that the offer will not be increased but will be withdrawn if not accepted. The company said that it understood that the ISS A/S offer had been communicated to the special committee of its board of directors.

MADISON HEIGHTS, MI (JUNE 28) PR NEWSWIRE - Code-Alarm, Inc. (OTC: CODL), the leading manufacturer and marketer of vehicle security systems, announced the opening of the company's first East Coast Distribution Center in Little Ferry, N.J.

Rapidly growing consumer awareness of the Code-Alarm brand name on the East Coast has prompted the company to restructure and strengthen its marketing program there. "Our recently introduced stolen vehicle recovery system, Intercept, has also been enthusiastically received in the East. Because of the continued growth in the demand for security products, our East Coast dealers have asked us for a greater presence in the area," explained Michael Schroeder, who will head the Center as the area's regional director.

Schroeder explained, "We want to be right there where the action is, and we want our full product line to be there too. We need to be there working alongside our dealers to make sure we are answering the daily needs of the East Coast consumer, and to demonstrate our total commitment to the marketplace. To begin with, we will be formulating specifically targeted marketing approaches designated at the East Coast consumer. Within the first year, we will offer sales and technical support training from this location."

Car theft is a persistent problem which is growing nationally at a rate approaching 39 percent since 1984 and the number continues to grow.

#90179p0625 06/28/1990 ~PR Newswire

SUNRISE, FLA. (JUNE 28) PR NEWSWIRE - Communications systems and service supplier Racal-Milgo has been awarded a contract to supply at least 10,000 modems during 1990 for Deutsche Telecom, the deregulated West German telephone company. The contract was signed by Racal-Milgo's West German sales subsidiary, Racal-Milgo GmbH.

Formerly known as the Deutsche Bundespost (West German postal service and telephone administration), Deutsche Telecom is a private company created by law in 1989. It began operations this year. In March the company sought bids to supply modern, feature-rich V.22bis modems to lease or

resell to its customers. These full-duplex modems are capable of data communications at speeds of 2400 or 1200 bits per second according to standards established by CCITT, the international telephone communications consulting committee.

Racal-Milgo offered its PAG modem, providing specific direct connection capability and interface to German telephone lines. This is a modification of Racal-Milgo's VI2422PA dial-up or leased line error-free data transmission modem.

The first shipment of the order for 10,000 modems are due to be shipped from Sunrise, Fla. to West Germany by the end of June. The entire 10,000-unit initial order is to be shipped by the end of the first quarter of 1991.

Racal-Milgo is an international designer and supplier of integrated communications systems and services for a variety of markets, including airlines, financial institutions, shipping, and various commercial and government organizations. The company provides maintenance and support services for its digital, analog and fiber optic products that include leased line and dial modems, wideband T1 devices, statistical and subrate time division multiplexers, digital and channel service units, X.25 packet network systems, network management systems, LAN/WAN internetworking enablers, and data encryption devices.

Racal-Milgo engineering centers are located in Los Gatos and Milpitas, Calif.; Atlanta, Ga.; and at corporate headquarters in Sunrise, Fla.

MISHICOT, WI (JUNE 28) PR NEWSWIRE - Buffalo Don's Artesian Wells, Ltd. (OTC), the nation's only independent, publicly held bottled water company with a broad distribution that includes such cities as Chicago, Indianapolis, Milwaukee, Minneapolis and Fort Wayne, Ind., today reported record sales and earnings for the fiscal year ended March 31, 1990.

This marks the third consecutive year of record results. William C. Young, chairman and chief executive officer, said net income for the year increased 54 percent to $270,269, or 9 cents per share, compared to net earnings of $175,543 or 6 cents per share. Net sales increased 32 percent to a record $6,292,895, compared to $4,762,972 the previous year.

While sales of bottled water continue to out-pace all segments of the multi-billion-dollar beverage industry and currently have a 12-percent annual growth rate, Buffalo Don's growth rate over the past three years

has exceeded the average, and the company expects to see this trend continue.

The company said the June introduction of its new line of Sparkling Artesian Flavored Water in three, all-natural flavors of wild raspberry, lemon/lime and natural, which come in 10-ounce glass containers and are marketed in six-pack carrying cases, "is meeting our expectations and has been enthusiastically received by the consumer."

WATERTOWN, MA (JUNE 28) PR NEWSWIRE - Summit Technology Inc. (NASDAQ: BEAM) - announced today that the first hyperopic (far-sighted) patient has been successfully treated with the Summit ExciMed(tm) UV200 excimer laser. The procedure was performed by Dr. Howard Gimbel and Dr. John van Westenbrugge, Gimbel Eye Centre, Calgary, Canada.

Clinical trials have been underway both domestically and internationally for the treatment of myopia or near-sightedness with the excimer laser. Dr. Gimbel's work marks the first time an excimer laser has been used to successfully treat far-sightedness. There are more than 40 million far-sighted people in the United States.

Summit Technology, Inc. has established a leadership position in designing manufacturing and marketing medical excimer laser systems. A major focus of the company's business is in opthalmology where applications have been developed for the treatment of common vision disorders including near-sightedness, far-sightedness, glaucoma, astigmatism, and superficial diseases of the cornea.

Summit is the only company using an excimer laser in multiple medical specialties and has received six approvals from the F.D.A. for clinical trials with its excimer laser systems.

#90179p0629 06/28/1990 ~PR Newswire

HARRISBURG, PA. (JUNE 28) PR NEWSWIRE - At a company-sponsored meeting with nearly 70 financial analysts, AMP Incorporated (NYSE: AMP) Chairman and Chief Executive Officer Harold A. McInnes commented on current results and outlook.

He indicated that second quarter results will be fairly closely in line with current analyst expectations. Second quarter sales will be about $750 million, down slightly from $764 million in the first quarter of 1990 and up 4 percent from $723 million in the record quarter of 1989. Current sales are lower than earlier expectations because of the temporary dip in Brazilian sales due to the new government's austerity program and a slight decline in U.S. sales from the first quarter level. Second quarter earnings are expected to be about $.60-$.65/share, down from $.75/share in the first quarter of 1990 and similar to the $.62/share in the second quarter of 1989. The order backlog is holding steady during the quarter near the record $516 million at March 31, 1990.

Changes in exchange rates have not had a significant effect on sales and earnings during the past year because the effect of the rise of the U.S. dollar against the Japanese yen has been largely offset by the decline of the U.S. dollar against European currencies.

Third quarter sales are expected to be flat or down slightly from the second quarter because of the usual summer seasonal softening in some sectors. Earnings are expected to improve modestly from the second quarter level.

Harrisburg-based AMP Incorporated is the world's leading producer of electrical/electronic connection devices. It has 24,800 employees in nearly 160 facilities in the United States and 26 other countries. AMP stock is listed on the New York, Pacific and other regional stock exchanges (symbol "AMP").

#90179p0630 06/28/1990 ~PR Newswire

WILMINGTON, NC (JUNE 28) PR NEWSWIRE - Reeds Jewelers, Inc. (NASDAQ-NMS: REED) today announced sales and earnings for the first fiscal quarter of 1991, ended May 31, 1990.

Net sales for the first quarter were $10.6 million, up 10.7 percent from $9.6 million for the comparable period of fiscal 1990. Net earnings for the quarter were $65,000, compared to a net loss of $18,000 for the comparable quarter last year. This was equivalent to net earnings of $.02 per share as compared to a net loss of $.01 per share for the same period last year.

Gross margins improved considerably during the first quarter from 40.8 percent to 45.4 percent of net sales, primarily as a result of reduced merchandise costs and less promotional sales events during the quarter

compared to the first quarter of last year. Selling, general, and administrative costs increased to 41.8 percent of net sales from 41.0 percent; the increase resulted primarily from higher payroll, bad debt, and interest expenses.

Alan M. Zimmer, Reeds' president and chief executive officer, said that he was very pleased with the results. Comparable stores sales were positive in each of the three months of the quarter and were up 12.3 percent over the same period last year. Zimmer commented, "The 12.3 percent increase is the strongest comparable store sales increase for any quarter since Reeds went public in December 1986. We are extremely pleased that the investments and improvements made during the last couple of years to emphasize a strategy of 'Quality, Value, and Service' are beginning to produce such results."

During the fiscal quarter ended May 31, 1990, Reeds opened new stores in Tupelo, MS, Murrells Inlet, SC, Tallahassee, FL, and Panama City, FL. The company closed an older location in Tupelo, MS, sold a location in Birmingham, AL, and completely remodeled one store. The net addition of two stores during the quarter brings the total number of stores operated by Reeds to 62 at May 31, 1990.

Reeds Jewelers is a specialty retailer presently operating 62 stores primarily in enclosed regional shopping malls in 12 states principally in the Southeast. The company specializes in the sale of fine jewelry, emphasizing customer service.

HOLLYWOOD, FL (JUNE 28) PR NEWSWIRE - Himedics, Inc. (NASDAQ: HMED, HMEDW HMEDU) president, Barry N. Heimlich, today announced that the company has entered into an exclusive long-term licensing, supply and distribution agreement with Fisons Corporation for five pharmaceutical products under development utilizing the Himedics(R) Delivery System: amoxicillin, erythromycin, acetaminophen, dicioxacillin, and prednisone. The combined U.S. pediatric markets for these drugs exceed $250 million annually.

Under the terms of the agreement, the company granted Fisons an exclusive license to market and distribute the five products in the United States in exchange for licensing fees totaling $3.5 million, part of which was paid on signing with the balance to be paid in installments upon FDA filings and approvals for the products. Himedics will seek to obtain FDA approvals and will manufacture the products for resale by Fisons to drug wholesalers and retailers. Himedics will receive revenues from supply of the products to Fisons, as well as royalties on Fisons' sales, subject to minimums. Upon regulatory approvals, Fisons will market these products to pediatricians, primary care physicians and other medical specialists through their sales force of approximately four hundred representatives.

Fisons also received a six-month option to obtain similar U.S. licensing and marketing arrangements for certain additional prescription products in the Himedics Delivery System to be developed by Himedics.

Himedics and Fisons see this drug delivery technology as cutting- edge -- an exciting and significant pharmaceutical breakthrough, constituting a new category of medicines, with which Fisons will be able to consolidate and expand its pediatric and primary care presence in the U.S. market.

Fisons Corporation, based in Rochester, N.Y., is the U.S. pharmaceutical subsidiary of Fisons plc, headquartered in the United Kingdom. The parent company has worldwide operations in pharmaceuticals, scientific instrumentation, and horticultural products and generated worldwide sales of $1.7 billion in 1989.

Himedics is a development stage company which develops pharmaceutical products utilizing the Himedics Delivery System. The Himedics Delivery system utilizes the patented, adjustable Himedics(R) Dispenser to deliver Himedics proprietary tasteless microgranules of prescribed medication in precisely metered, individualized doses onto soft food for easy ingestion by patients who have trouble swallowing. Market research indicates that the Himedics Delivery System offers significant benefits to major segments of the pediatric and geriatric pharmaceutical markets, which together exceed $2 billion in the United States.

#90179p0640 06/28/1990 ~PR Newswire

NEW YORK (JUNE 28) PR NEWSWIRE - The U.S. Environmental Protection Agency (EPA) is seeking $75,000 in penalties from Anaquest, Inc. of Guayama, Puerto Rico for failing to immediately notify appropriate agencies following a Jan. 27, 1989 release of chlorine gas from its Guayama facility. An EPA inspection confirmed that the amount of the chlorine release was greater than the reportable quantity for chlorine but that the firm did not immediately notify the proper authorities. Chlorine gas can cause respiratory problems and may be lethal. This action is one of 23 cases filed nationwide this week under the Emergency Planning and Community Right-to-Know Act.

"Under the Emergency Planning and Community Right-to-Know Act, state and local emergency planning authorities are required to formulate plans for dealing with emergency situations," said EPA Regional Administrator Constantine Sidamon-Eristoff. "Without proper notification from facilities of accidental releases, these authorities cannot implement their emergency response plans and provide for the health and safety of their citizens."

Under the Comprehensive Environmental Response, Compensation and Liability Act, also known as Superfund, a company is required to immediately notify

the National Response Center (NRC) following the accidental release of a hazardous substance which exceeds an amount specified by EPA. In addition under the Emergency Planning and Community Right-to-Know Act, a facility must immediately notify its State Emergency Response Commission (SERC) and its Local Emergency Planning Committee (LEPC) of the release.

Puerto Rico's State Emergency Response Commission has designated several LEPC's. Immediate notification of the release should have been made to the Puerto Rico SERC and the Guayama LEPC. The National Response Center, which operates a 24-hour hotline to alert various federal response agencies to environmental incidents, should also have been notified. However, notification of the release was not made until more than seven hours after the release had ended.

The company has 20 days to respond to the complaint. EPA Region 2 has issued three administrative complaints since the inception of the Act against facilities for failing to immediately notify emergency response agencies of hazardous chemical releases and has collected $102,000 in penalties.

DUNDEE, MICH. (JUNE 28) PR NEWSWIRE - Holnam Inc. (NYSE: HLN) today entered into a preliminary agreement to purchase the United Cement Company a subsidiary of Texas Industries Inc. (NYSE: TXF). United is located at Artesia, Miss. and operates the only cement plant in the state.

The conditions in this agreement are expected to be met and the purchase consummated later this summer for a cash consideration of approximately $61 million, according to Marc von Wyss, president and chief executive officer of Holnam.

"We believe the Artesia plant to be an excellent facility and we're looking forward to making it part of Holnam," von Wyss said.

In March of this year, Holnam merged Dundee Cement Company with Ideal Basic Industries to create one of the largest cement companies in North America. Holnam already owned 60 percent of St. Lawrence Cement Company of Canada.

Holnam Inc. is a leading producer of cement and related construction products in the United States and Canada, and a subsidiary of Holderbank Financiere Glaris, Ltd., of Switzerland, one of the world's largest manufacturers of cement.

#90179p0642 06/28/1990 ~PR Newswire

NEW YORK (JUNE 28) PR NEWSWIRE - Citibank announced today that it will open representative offices in Czechoslovakia and Poland on July 1.

Located in Prague and Warsaw, these offices will assist corporate clients in identifying local partners, establishing joint ventures and arranging investment-related financing. The representative offices will also introduce Czechoslovak and Polish enterprises to prospective foreign partners in connection with government sponsored privatization programs as well as arrange trade finance services.

Alan MacDonald, Citibank's sector executive for international banking and finance, said: "The momentous events of 1989 have generated new opportunities to expand Citibank's unique global network in the Central and Eastern European region. As these countries move toward market-based economies, our representative offices will take part in their development by providing linkages between local entrepreneurs and external investors."

Christian Kaltenbrunner will head the Citibank office in Prague. Kaltenbrunner is a Citibank vice president formerly based in Vienna and has extensive experience in business dealings with Eastern Europe.

The Warsaw office will be headed by Stan Szczurek, a Citibank vice president with more than 15 years' international banking experience in Frankfurt, Vienna and Paris.

Citibank anticipates that the opening of the two representative offices will eventually lead to broader participation in Czechoslovakia and Poland's banking and finance systems as regulatory arrangements evolve in the two countries.

Citibank entered the Central European market in 1986, when it launched a joint venture in Budapest with the National Bank of Hungary. This venture, Citibank Budapest Rt, has been a successful enterprise, serving local and foreign companies alike.

The Czechoslovak office will be temporarily located at the Intercontinental Hotel in Prague. Tel: 422-231-1812.

Citibank's Warsaw office address will be c/o Intraco, 16th Floor, Stawki 2. Tel: 482-635-8934.

TORONTO (JUNE 28) PR NEWSWIRE - Varity Corporation (NYSE: VAT) said James Vance, senior vice president and chief financial and legal officer, will retire as planned on July 31. He will be succeeded by Neil D. Arnold, formerly the company's treasurer and presently senior vice president and chief administrative officer.

The changes were announced by Victor Rice, chairman and chief executive officer.

Rice praised Vance, 60, for "many important contributions," citing in particular his key role in arranging financing for Varity's acquisition of K-H Corporation and its Kelsey-Hayes automotive products operations and in directing the company's highly productive program of debt reduction.

Rice described Arnold, 41, as "a talented and effective executive" with long experience in the company's financial affairs. During his tenure as corporate treasurer, Arnold conducted sensitive negotiations which resulted in several successful financial reorganizations.

Vance joined Varity as senior vice president and senior business advisor in 1987 following the acquisition of Dayton Walther Corporation, of Dayton Ohio, where he was vice chairman and a member of the board of directors. He is a member of Varity's management committee. Earlier, Vance held senior financial posts at Republic Steel Corporation, Addressograph & Multigraph Corporation, and Cincinnati Milacron Inc. A native of Cleveland Ohio, he was educated at Baldwin Wallace College and Cleveland Marshall Law School, where he was awarded a law degree with high honors.

His memberships include the Ohio Bar Association, the Financial Executives Institute, and the American Management Association. During the Korean conflict he served as an infantryman in the U.S. Army and received the

Bronze Star for valor.

Arnold joined Varity's Perkins diesel engine unit in the United Kingdom in 1969 following graduation from Oxford University. He was appointed to the parent company's corporate financial staff in Toronto in 1975. He became treasurer in 1981 and was named to his present post in 1988. He is a member of the company's management committee.

Arnold served a central role in planning several major corporate restructurings in the early 1980's and in generating lender and shareholder support for these programs. He has been actively involved in the company's investor relations activities in recent years.

#90179p0652 06/28/1990 ~PR Newswire

BOSTON (JUNE 28) PR NEWSWIRE - Hunneman Real Estate Corporation, one of the largest real estate companies in New England, and Iten Immobilien Treuhand, a major Swiss real estate concern, are pleased to announce that they have signed a letter of intent to establish an international real estate service company. Iten is purchasing a significant minority stake in Hunneman, and together the companies will open offices in Frankfurt, London and Paris. Stuart Pratt, president and CEO of Hunneman Real Estate Corporation will be the chairman, president and CEO of the new company.

The stategic partnership joins two companies who together completed $2.2 billion in real estate transactions in 1989, and is unique in size, scope and potential impact on the New England region and Europe. Iten is expected to direct up to $50 million of overseas capital to the Massachusetts real estate market by late 1991, targeted primarily at the commercial office and retail segment.

"We have been looking for overseas business and expansion opportunities for some time, and began talks with Iten last year in anticipation of Europe 1992," said Stuart Pratt. "The partnership opens up major new markets overseas to Hunneman, and provides access to new capital and financial leverage for local investment at a time when buying opportunities are significant." The partnership will also position Hunneman to offer exposure of their residential properties to the European market, and interest Europeans in purchasing residential property in Massachusetts and Southern New Hampshire.

Iten, seeking to expand into the United States, considered locating in several major cities before choosing to access the United States market through Boston. According to Max Iten, president and CEO of Iten, "We found Boston an ideal entrance into the United States real estate market

because of the manageable size of the city, financial community, and the institutional business base. Hunneman was the likely partner because they provide a broad scope of real estate services. Also, their past accomplishments and years of experience have established them throughout the industry."

Iten is headquartered in Zug near Zurich, Switzerland. Similar to Hunneman, it is a full-service real estate company serving both the residential and commercial real estate markets offering property leasing and sales, management, construction and development, and appraisal and consulting services.

Hunneman Real Estate Corporation has noticeably expanded over the past year. A national division was opened under Hunneman Commercial Company to provide consulting and brokerage services to Boston area businesses with national real estate requirements and a corporate services division was also developed to generate new business from the financial community. The management company also experienced rapid growth in 1989 adding over two million square feet to its portfolio of properties managed.

FORT LEE, NJ (JUNE 28) PR NEWSWIRE - On-Line Software International, Inc. (NYSE: OSI), today announced that net income increased significantly for the fourth quarter and year ended March 31, 1990.

For the quarter, net income increased 42 percent to $1,234,000 ($.21 per share), compared to net income of $870,000 ($.14 per share) for the comparable period last year. Revenues for the fourth quarter increased 9.1 percent to $24.2 million from $22.2 million last year. The revenue improvement in the fourth quarter compared with last year is comprised of increased maintenance revenue and increased revenue from international distributors.

For the year ended May 31, 1990, the company's income before extraordinary gain was $3,343,000 ($.56 per share), compared to a loss before extraordinary gain of $966,000 ($.16 per share) last year. An extraordinary gain, from the acquisition of the company's convertible subordinated debentures, of $151,000 ($.03 per share) was recognized this year, compared to a gain of $2,516,000 ($.41 per share) last year. Revenues for the year were $89.8 million, 9.3 percent higher than last year's $82.1 million.

"We are pleased with the significant improvements compared to last year," stated Jack M. Berdy, chairman and chief executive officer of On-Line Software. "The earnings improvement has been coupled with significant progress with respect to the development and acquisition of new products."

"Now that earnings momentum has been re-established, we are turning our attention to new product launches and strengthening our sales channels," added William G. Nelson, president and chief operating officer of On-Line Software.

On-Line Software is a NYSE company headquartered in Fort Lee. The firm combines consulting and educational services with a full range of systems software designed to enhance the productivity of IBM computer systems users. On-Line Software offerings include CICS, DB2 and development systems software products and services. The company's distribution network serves more than 25 countries through 16 offices and many distributors.

NEW YORK (JUNE 28) PR NEWSWIRE - Sir Gordon White, chairman of Hanson Industries, the United States arm of Hanson PLC (NYSE: HAN), announced today that Hanson has been informed that a supermajority of the shareholders of Newmont Mining Corporation (NYSE: NEM) has approved the sale of Newmont's 54.97 percent stake in Peabody Holding Company to an affiliate of Hanson Industries for $725.6 million in cash. Completion of the transaction is scheduled to take place Monday, July 2.

This will complete Hanson's acquisition of Peabody. In April, Hanson acquired the other 45.03 percent of Peabody for approximately $504 million in cash. The total cost of the acquisition of Peabody will be approximately $1.23 billion in cash.

Peabody Holding Company is the largest coal producer in the United States.

Hanson PLC is a British-American industrial management corporation. In the U.S., Hanson Industries' operations include SCM Chemicals, Jacuzzi Whirlpool Bath and Spa Products, Grove Crane, Ames Tools, Universal Gym, Endicott Johnson and Frye Footwear, Hanson Lighting Group, Kaiser Cement, Weber Aircraft, Farberware Cookware, and Gold Fields Mining, among others.

In the United Kingdom, Hanson's holdings include Imperial Tobacco, Ever Ready Batteries, ARC Aggregates, London Brick, Butterley Brick, and Smith Meters.

CHANNELVIEW, TX (JUNE 28) PR NEWSWIRE - Ground-breaking ceremonies were held today at Arco Chemical's (NYSE: RCM) Channelview complex for the previously announced plant to produce two of the company's core products.

Using Arco Chemical's co-product technology, the plant will produce 500 million pounds of propylene oxide and 1,125 million pounds of styrene monomer annually. Field construction has begun and plant startup is

scheduled for the fourth quarter of 1991.

"This new world-scale plant represents one of the largest capital projects in our 24-year history," said Harold A. Sorgenti, president and chief executive officer. "It is a major component of our plans to support the U.S. urethanes market, our own derivatives and exports."

The project will benefit the local economy significantly. Construction activities alone will provide jobs for about 1,200 to 1,500 workers. The new plant is designed to the highest engineering standards to be cost-effective, safe and environmentally sound. Air emissions recorded at the Channelview plant in 1986 will be cut by 70 percent by 1992, even though production will more than double.

Arco Chemical is a leading multinational manufacturer and marketer of intermediate chemicals and specialty products used in a broad range of consumer goods. End-use applications for propylene oxide and styrene include foam furniture and automobile seat cushioning, paints and coatings, packaging, pharmaceuticals, and various plastic and rubber products.

CONTACT: Gerald T. Davis, (215) 359-3198, or Millicent W. Pitts (Investors), (215) 359-3382, both of Arco Chemical.

SAN ANTONIO, TX (JUNE 28) PR NEWSWIRE - Valero Energy Corporation (NYSE: VLO) and Exxon Gas System, Inc. (EGSI), Houston, have entered a joint venture to increase the capacity of a 38.5-mile section of Valero's East Texas pipeline extension which was announced earlier in June. The larger diameter line, which will run from Henderson, Texas to Carthage, Texas, will be part of Valero's 105-mile pipeline to extend from Bethel, Texas to Carthage.

Under the agreement, a 38.5 mile section of the extension will be increased from 30 inches to 36 inches in diameter, increasing the capacity of the section by about 200 million cubic feet per day.

EGSI will own a 20 percent undivided interest in the 36-inch line, which begins at the point where the Valero pipeline will cross EGSI's existing East Texas system near Henderson. A subsidiary of Valero Natural Gas Partners, which will lease the pipeline from a subsidiary of Valero Energy after construction, will be the operator.

The East Texas pipeline extension will complete a strategic east- west pipeline link across Texas, facilitating transportation of gas from the Mid-continent region to Midwest and Northeast markets, and will provide access to prolific gas supplies in the East Texas basin and in Oklahoma.

Construction on the extension will begin in October with the 36-inch diameter section between Henderson and Carthage expected to be complete by Jan. 1, 1991. The remainder of the line is expected to be complete during the first quarter.

"The agreement with EGSI not only is immediately beneficial to both parties by expanding pipeline capacity but also hopefully will lead to additional business opportunities between Valero and EGSI," said Bill Greehey, chairman of the board and chief executive officer of Valero.

Valero Energy Corporation is involved primarily in refining high- sulfur atmospheric residual oil into premium products, such as unleaded gasoline, through its specialized refinery in Corpus Christi and in marketing those products. Through subsidiaries, Valero Energy is general partner of and has an approximate 49 percent interest in Valero Natural Gas Partners which owns a 7,100-mile network of natural gas transmission and distribution lines throughout Texas and in Oklahoma, purchases and sells natural gas throughout the U.S., provides third party gas transportation services and owns 11 natural gas processing facilities.

ATLANTA (JUNE 28) PR NEWSWIRE - Atlanta-based WORLDSPAN Travel Agency Information Services and Singapore-based Abacus Distribution Systems Pte Ltd. have purchased a 5 percent ownership share in each other.

The equity share in Abacus was purchased by WORLDSPAN for $3.5 million, while the equity share in WORLDSPAN, along with WORLDSPAN computer reservations system software, were purchased by Abacus for $32.5 million. WORLDSPAN is a limited partnership jointly owned by affiliates of Delta Air Lines (NYSE: DAL), Northwest Airlines, and Trans World Airlines. Abacus is an Asia/Pacific Region computer reservations system (CRS) jointly owned by Cathay Pacific Airways, China Airlines, Malaysian Airlines, Philippine Airlines, Royal Brunei Airlines and Singapore Airlines.

Ownership of WORLDSPAN is now: Delta Air Lines -- 38 percent, Northwest Airlines -- 32 percent, TWA -- 25 percent, and Abacus -- 5 percent. Along with the cross-equity arrangement, each company gains a seat on the board of directors of the other. New board members have not yet been announced.

Calvin Rader, WORLDSPAN chief executive officer, said the agreement was the culmination of a relationship with Abacus that began in 1988 with the PARS CRS, now part of the WORLDSPAN organization.

"We have had an excellent working relationship and have developed a deep respect for the Abacus organization and its owner airlines," Rader said. "The equity sharing agreement strengthens that relationship and provides an excellent platform for future cooperation in terms of functionality, information and service. Board participation will also give each of us valuable insight into the culture and operational environment of the other."

The Abacus CRS is currently hosted by the PARS Kansas City mainframe and uses modified PARS software. Abacus plans to construct a computer mainframe facility in Singapore that will use new WORLDSPAN software.

NEW YORK (JUNE 28) PR NEWSWIRE - Wolters Kluwer U.S. Corporation, the U.S. subsidiary of Wolters Kluwer nv, one of Holland's largest publishing companies, today announced that it has completed the acquisition of the Philadelphia-based J.B. Lippincott, one of the largest U.S. medical publishers. Also part of Lippincott are Facts and Comparisons (St. Louis) which is a market leader in information on drugs for qualified pharmacists, and Gower (New York/London), publisher of medical atlases. The businesses, purchased from Harper Collins, the book publishing affiliate of The News Corporation, Ltd, have annual sales of approximately $100 million and 400 employees.

Peter van Wel, president of Wolters Kluwer U.S. Corporation, will serve as interim president of Lippincott.

Van Wel commented, "We are pleased that the acquisition has been completed on schedule. The addition of these quality companies makes Wolters Kluwer one of the largest medical publishers in the United States, with total sales volume of approximately $150 million in this business segment. We have long recognized the importance of the U.S. publishing market, and this acquisition represents the achievement of one of our primary strategic objectives."

Wolters Kluwer is already active in the U.S. medical market through its Raven Press and Aspen Publishers subsidiaries. The transaction was financed with cash surplus and existing credit facilities.

Lippincott, founded in 1792, publishes information for the medical profession: physicians, nurses, pharmacists, other scientists and medical students. In addition to book publishing (e.g. the widely used Lippincott Manual of Nursing Practice), Lippincott also publishes journals and

loose-leaf medical information.

Wolters Kluwer is a multinational publisher with operations spanning Europe and North America. Sales for 1989 were $1 billion, of which 10 percent was derived from U.S. operations. The Lippincott acquisition will raise U.S. generated sales to approximately 17 percent on an annual basis. Wolters Kluwer shares are available in the U.S. through a pink- sheet ADR program sponsored by The Morgan Guaranty Trust Company of New York.

WINSTON-SALEM, N.C. (JUNE 28) PR NEWSWIRE - The Z. Smith Reynolds Foundation today announced a major new initiative, the Opportunities for Families Fund (OFF), designed to help move poor families from dependency to self-sufficiency.

Following a two-stage, year-long grants competition, the Foundation will select up to five counties for grants up to $1 million each to implement structural reforms and improvements in their comprehensive efforts to help poor and dependent families.

All 100 counties in North Carolina are eligible to apply for the grants, and the grants competition is open only to county governments in North Carolina.

The Opportunities for Families Fund represents one of the largest initiatives in the 54-year history of the Z. Smith Reynolds Foundation.

"The purpose of the Opportunities for Families Fund is to encourage counties to rededicate themselves to fundamental reform and improvement in their efforts to help poor families escape the clutches of poverty," said Thomas W. Lambeth, Executive Director of the Z. Smith Reynolds Foundation.

Mary Mountcastle, a trustee of the Foundation and chair of the committee that developed the OFF initiative, said, "By establishing the OFF program, the Foundation is offering county governments the chance to rethink how public and private services are delivered to their citizens, what gaps in services exist, and how better to meet the range of needs that families in poverty have.

"The demographic data are alarming -- illiteracy, infant mortality, teen pregnancies, and welfare dependency all run rampant," Ms. Mountcastle said. "The human tragedy is in the housing projects of every city, the back roads of every farm community, the hollows of every mountain hamlet. Poverty and dependency are everywhere around us in North Carolina. They extract a growing toll on the lives of our citizens and on the very lifeblood of our state: the economy and its workforce."

HOUSTON (JUNE 28) PR NEWSWIRE - Union Texas Petroleum Holdings, Inc. (NYSE: UTH) today announced that its subsidiary Union Texas Petroleum Corporation plans to construct a platform and processing facilities to produce natural gas and oil discovered on Vermilion blocks 412 and 404 in the Gulf of Mexico. The company estimates that the project will cost approximately $74 million gross.

Located about 150 miles south of Lafayette, La., the platform will be installed on Vermilion 412 in 467 feet of water and will produce reserves from both Vermilion 412 and 404. Production is scheduled to begin in late 1992 at a rate of approximately 60 million gross cubic feet of gas and 3,000 gross barrels of oil daily.

The field was discovered in January 1987 with the drilling of the Vermilion 412 No. 1 well which found 51 feet of net gas pay. In July 1989, the Vermilion 412 No. 3 confirmation well found 158 feet of gas pay in two zones below 4,300 feet. An additional confirmation well, Vermilion 404 No. 1, penetrated 156 feet of net productive gas pay and 67

feet net oil pay below 7,500 feet in late 1989. This well flowed at a rate of 1,668 barrels of oil per day during testing of the oil zone on a 32/64-inch choke at a flowing tubing pressure of 1,503 pounds per square inch.

Union Texas serves as operator of both blocks and has a 50 percent interest in each. AGIP Petroleum Company, Inc., a subsidiary of AGIP S.p.A., ENI Group, has the remaining 50 percent interest in the tracts. Vermilion 412 was purchased at the April 1984 federal offshore lease sale and Vermilion 404 at the April 1987 lease sale.

One of the nation's largest independent producers, Houston-based Union Texas Petroleum Holdings, Inc. explores for and produces oil and gas in the United States and overseas and has petrochemicals and natural gas processing interests.

TROY, MI (JUNE 28) PR NEWSWIRE - Sandy Corporation (AMEX: SDY), the publicly traded performance improvement organization, today reported a third-quarter loss after tax of $905,000 on revenues of $7,628,000.

While Sandy Corporation's revenue for the third quarter was up four percent over a year ago, the after-tax loss was 33 percent above the same period of a year ago.

For the first nine months of the fiscal year, Sandy Corporation revenue of $24,394,000 was up 14 percent over a year ago, and the pre-tax loss was less than half of the pre-tax loss for the same period a year ago when there were substantial restructuring costs.

Almost half of the quarterly loss was in the company's Marketing Educational Services (MES) group courseware offerings, as profit pressure on dealers has reduced seminar attendance.

"Because these seminars maintain a two-way link with the retail automobile industry and are strategically important to key clients, we are intensifying our marketing efforts," reported Sandy Corporation Chairman William H. Sandy.

At the same time, President and Chief Operating Officer Raymond A. Ketchledge is maintaining operational emphasis on cost reduction. "Recent annualized payroll savings of about a million dollars a year achieved through pinpointed staff reductions, will not show up fully until the first quarter of the 1991 fiscal year, starting Sept. 1, 1990," reported

Ketchledge.

SANDY CORPORATION FINANCIAL HIGHLIGHTS

NEW YORK (JUNE 28) PR NEWSWIRE - McGraw-Hill, Inc. (NYSE: MHP) today announced the acquisition of Southwest Contractor magazine from Akers-Runbeck Publishing Company of Phoenix, Ariz., and Louisiana Contractor magazine from Rhodes Publishing Company of Baton Rouge, La. Both magazines were acquired for undisclosed cash sums.

The magazines serve regional construction markets in the south and southwest and will become part of McGraw-Hill's Construction News Publishing Network. The network of 15 newspapers and magazines, which covers the U.S. construction industry nationally and in many regions, offers advertisers the advantages of exceptional market penetration and the economy of advertising space group purchase.

Southwest Contractor is a monthly magazine serving construction contractors in Arizona, New Mexico, Nevada and West Texas. The editorial focus covers all areas of construction, with a particular emphasis on feature stories about road, bridge and other heavy construction projects.

Louisiana Contractor, also a monthly magazine, covers heavy and industrial construction projects for contractors throughout the state of Louisiana. The magazine issues an annual Louisiana Construction Directory.

Southwest Contractor and Louisiana Contractor will continue to be published in Phoenix and Baton Rouge, respectively, and will report to Howard M. Mager, vice president and publisher of the Construction News Publishing Network. Other publications in the network are Engineering News-Record (ENR), a global construction news weekly; and the regional publications; California Construction News, Colorado Construction News, Construction Data & News/ California, Construction Data/Oregon, Construction Data/Washington-Alaska, Construction News West, Daily Pacific

Builder, Dodge Construction News/Chicago, Dodge Construction News/Los Angeles, Intermountain Contractor, The Denver Daily Journal, and Utah Building.

McGraw-Hill, Inc. headquartered in New York, is one of the world's leading publishing and information services companies. The company, which celebrated its 100th anniversary in 1988, provides information in print, on line, and over the air. Sales for 1989 were $1.8 billion.

METAIRIE, LA (JUNE 28) PR NEWSWIRE - Chemfix Technologies Inc. (CTI) (NASDAQ: CFIX) announced today that it is giving notice of redemption to the holders of its Common Stock Purchase Warrants (NASDAQ: CFIXW) (488,750 warrants), which expire Dec. 15.

The warrants are exercisable at a price of $6.50 per share of common stock and will remain exercisable until Aug. 6 or such later date as may be set by the company. If the warrants are not exercised, they will be redeemable by the company at a price of $.10 per warrant.

Under the provisions of the warrants, the company is permitted to redeem them by giving notice of redemption within 10 days after the company's common stock has a closing market price of not less than $9.75 per share for five consecutive trading days. During the period of June 18 through June 22, the closing market price for the company's common stock was not less than $9.75 per share.

Daniel N. Silverman III, president and chief executive officer of the company, stated, "Exercise of the common stock purchase warrants will not result in any dilution of the company's per share earnings since earnings have been reported on a fully diluted basis."

The company further announced that it has filed with the Securities and Exchange Commission a Post Effective Amendment to its Registration Statement under which the warrants were originally issued so that it may be in a position to deliver shares of its common stock to warrant holders who wish to exercise their warrants. It further stated that upon effectiveness of the Post Effective Amendment, copies of a prospectus would be furnished to warrant holders of record on June 27.

The company requested that warrant holders not attempt to exercise their warrants until holders receive a prospectus from the company after effectiveness of its Post Effective Amendment.

Chemfix Technologies Inc. is an environmental service company that provides analysis and treatment of hazardous and nonhazardous waste materials for industry and government. The Chemfix(R) process chemically fixates and solidifies hazardous solids and sludges, municipal sewage sludges, oil and gas waste, and many other types of waste, converting them into environmentally safe solid, claylike materials that can be reused in many cases.

NAPERVILLE, IL (JUNE 28) PR NEWSWIRE - George W. Hoffman has been named a group vice president of Varlen Corp. (NASDAQ-NMS: VRLN) and will be responsible for the firm's railroad company operations, the company announced today.

Hoffman retains his position as president of Keystone Railway Equipment Co. and will also be responsible for Unit Rail Anchor Company, Chrome Crankshaft - Illinois and Chrome Crankshaft - Los Angeles, all Varlen subsidiaries.

In his new post, Hoffman takes on the responsibilities of David J. Breault group vice president, who is retiring. He has been with Varlen since 1977.

Hoffman has been president of Keystone Railway Equipment Co. since 1984. He served as vice president, operations from 1979 to 1982, and executive vice president from 1982 to 1984.

Prior to joining Keystone, Hoffman was with NL Industries Inc. from 1960 to 1979, most recently serving as director of manufacturing of NL's

Titanium Pigments Division.

He is a member of the board of directors and executive committee of MANTEC the Industrial Resource Center of South Central Pennsylvania. He holds three patents on production processes for synthetic zeolite, polysilicic acid, and synthetic montmorillonite and has written technical articles for Chemical Engineering magazine and the American Institute of Chemical Engineers.

He holds a bachelor of science degree in chemical engineering from the University of Pittsburgh. Hoffman is married with three children.

Varlen Corp. is a diversified manufacturer of precision industrial products, primarily serving the transportation and laboratory equipment markets. It has operations in six states.

LOS ANGELES (JUNE 28) PR NEWSWIRE - Mercantile National Bank has named Mary C. Thornton executive vice president of its commercial banking division.

Thornton, 37, joins the Century City-based bank from Security Pacific Bank where she most recently served as first vice president and regional manager of the Warner Center middle market banking office. In her 14-year career with Security Pacific, she has served successfully in a variety of management and line positions.

"Mary Thornton's thorough knowledge of the needs of middle market enterprises and the Southern California business environment will be instrumental in maintaining the growth and quality of service of Mercantile National Bank's commercial banking division," said William T. Hughes, president.

Mercantile National Bank, member FDIC, is an independent commercial bank, with offices in Century City and Irvine, Calif. The bank offers a wide range of financial services to the entertainment industry, the real estate community, professionals, high net worth individuals, escrow and title industries, as well as special services geared to middle market companies. Its parent company is National Mercantile Bancorp (NASDAQ: MBLA).

#90179p0707 06/28/1990 ~PR Newswire

CINCINNATI (JUNE 28) PR NEWSWIRE - Zonic Corp. (NASDAQ: ZNIC) had substantial increases in earnings and sales for both its fiscal year and fourth quarter. Earnings for the fiscal year almost doubled and sales increased 38 percent. For the fourth quarter, earnings more than tripled on a 23 percent hike in revenues.

Gerald J. Zobrist, president and chief executive officer, said that at present, the company expects to maintain its current growth rate for the foreseeable future and its outlook is excellent.

For the fiscal year ended March 31, 1990, Zonic had earnings of $268,000 or 9 cents per share, compared with restated earnings of $138,000 or 5 cents per share for the year ago period.

Sales for the 1990 fiscal year were $6,031,000 compared with $4,376,000 for 1989 fiscal year.

New orders for the 1990 fiscal year were $4,890,000, about equal to last year's new orders of $4,980,000. The backlog of new orders at year end was $1,716,000, down from last year's ending backlog of $2,828,000.

Zobrist said the backlog was decreased at year end due to the higher level of fourth quarter shipments and because of some order slippage during the fourth quarter into the first quarter of the 1991 fiscal year started April 1, 1990. He noted that for the first quarter of the 1991 fiscal year through June 25, new orders amounted to $3,500,000, raising the company's current backlog in excess of $4,000,000.

For the fiscal fourth quarter ended March 31, 1990, Zonic had net income of $86,000 or 3 cents per share compared with restated net income of $26,000 or 1 cent per share in the 1989 fiscal fourth quarter. Sales for the 1990 fiscal fourth quarter were $1,835,000 compared with $1,494,000 in the 1989 period.

Earnings for the past five years have been restated by a total of $166,000 to properly reflect taxes, interest and penalties incurred from payroll and other related tax filings, deposits and payments. The effect of this restatement for prior periods is included in the company's comparative results and is $47,000 or 1 cent per share for the 1989 fiscal fourth quarter, $72,000 or 2 cents per share in the 1989 fiscal year, and $51,000 or 2 cents per share for the remaining three fiscal years.

Zobrist noted that Zonic had benefitted from its partnership with A&D Co., Ltd. of Japan, which in the past two years had produced encouraging sales

results in both the U.S. and the Far East.

"Significant progress was made in penetrating key markets around the world including the aerospace, automotive and petrochemical industries as well as military research," Zobrist said.

He said significant shipments were made to the National Aeronautics and Space Agency (NASA) at both its Johnson and Goddard facilities. Shipments were also made to General Electric Aerospace, Pratt Whitney, Hyundai Motors, DAEWOO Motors, General Motors' Saginaw division, as well as U.S. Navy and Air Force research facilities.

He noted that Zonic's favorable results also reflected continued improvements in the company's marketing, product development and production capabilities.

Zonic Corp. manufactures, markets and services data acquisition and computer graphic systems which are used in industrial applications utilizing computer-aided engineering, computerized machinery monitoring and maintenance systems. The company is headquartered in the Greater Cincinnati metropolitan area and has sales and service facilities in North America, Western Europe and the Pacific Rim.

TOKYO (JUNE 28) PR NEWSWIRE - Koito Manufacturing Company, Ltd. today canceled a planned tour of its Shizuoka factory for T. Boone Pickens scheduled for Friday, June 29, in the wake of what it called Pickens' "slanderous and false charges" against the company after the 90th annual shareholder meeting. The company had last week agreed to Pickens' request for a plant tour, despite its determination that Pickens does not actually own the shares registered in his name.

Notwithstanding Pickens' charges made after the shareholder meeting, Koito pointed out that:

-- The procedures for the shareholder meeting were agreed to by Pickens' attorney and Koito under the supervision of a court-appointed inspector.

-- These mutually agreed upon procedures for the meeting included that the company would respond first to numerous shareholder questions submitted in advance, including several submitted directly by Boone Co. Also part of the agreed procedures was the decision to alternately allow Japanese and foreign shareholders to pose their questions.

-- Koito spent nearly a full hour of the meeting providing detailed answers to the shareholder questions submitted in advance. Many of these questions were asked again and again by shareholders later in the meeting. Rather than repeat the already stated answers continually, the president referred to the earlier responses. This is common practice at Japanese shareholder meetings and had been agreed to by Pickens' representatives prior to the annual meeting.

Despite the fact that Pickens' representatives were aware of and had agreed to these procedures, after he left the meeting Pickens accused the company of criminal conduct and prejudice against foreigners.

A Koito spokesman said: "Koito is outraged by these baseless and inflammatory insults. It is clear that Mr. Pickens is interested only in crude theatrics with no regard for the truth in order to continue his harassment of the company. In view of his most recent actions, we see no reason to extend to him the courtesy of touring our plant, knowing that he will only use the tour to defame and slander further Koito, its shareholders, and employees."

Following is the text of a letter sent today by Takao Matsuura, president of Koito, to Pickens:

This letter is to advise you that in light of the slanderous and false charges made by you at a press conference after your unilateral decision to leave the Koito shareholder meeting, the directors of Koito have withdrawn their invitation to you and your group to tour the Shizuoka plant.

You and your attorneys were well aware of the details of the procedures that were mutually agreed upon for the shareholder meeting over the course of many meetings and under the supervision of the court appointed inspector. We conducted the meeting in complete accord with these agreed upon procedures, in good faith, and consistent with normal practice in Japan. Despite this fact, you have accused the company of criminal conduct and of prejudice against foreigners. This is completely baseless and untrue, and Koito is deeply offended by your public remarks.

Under these circumstances, brought about completely by your own actions, your invitation to tour the Shizuoka plant is hereby withdrawn. While we were prepared to extend you every courtesy, we will not allow Koito employees, shareholders and management to be crudely insulted as part of your continual harassment of the company.

We regret any inconvenience that your conduct may have caused for those who have accompanied you.

CONTACT: Richard Wolff, 03-507-0730, or Ruth Pachman, 212-593-2655, both of Kekst and Co., for Koito Manufacturing

AUSTIN, TX (JUNE 28) PR NEWSWIRE - Jackie Majors, president of Prime Medical Services, Inc. (NASDAQ: PMSI) (Prime), announced today the formation of Prime's Medical Advisory Board. This prominent and distinguished Medical Board represents the current leading and respected authorities on both a national and regional basis in the fields of cardiovascular and pulmonary rehabilitation. Prime Medical is the country's number one provider of cardiovascular rehabilitation.

This new Medical Advisory Board is committed to providing the company with added dimension of professional support, counsel and advice to its existing network of centers. The board will augment Prime's professional and educational services by teaching, lecturing, writing and advising all of the personnel and physicians associated with Prime's facilities.

In other business, Prime held its annual shareholder meeting in Dallas on June 26, 1990. The current board of directors was re-elected consisting of: Kenneth S. Shifrin, chairman; Jackie C. Majors, president and chief executive officer; Jack R. Chandler, M.D.; Irwin Katz; and William A. Searles. Additionally, the board of directors approved the purchase of up to 200,000 shares of treasury stock over a period of time.

Prime Medical Services, Inc. is engaged in providing management services to 48 cardiac rehab centers and seven diagnostic imaging centers

throughout the country.

#90179p0719 06/28/1990 ~PR Newswire

LANSING, MI (JUNE 28) PR NEWSWIRE - Maxco, Inc. (NASDAQ: MAXC), today announced improved sales, operating earnings and net income for the fiscal year ended March 31, 1990.

Net sales rose 9 percent for the year to $78,065,000, compared to $71,561,000 the year before. Operating earnings grew to $2,412,000, a 7-percent increase over the year-earlier $2,245,000.

The company posted net income of $1,040,000, or 19 cents a share, vs. a loss of $1,369,000, or 31 cents a share. The recent year's net was affected by a change in accounting for income taxes which added $650,000, or 13 cents a share. The prior year's net included a $1,794,000 total, or 37 cents a share, loss on the disposal of a business.

For the quarter, net sales rose to $16,793,000, compared to $13,742,000 in the year-earlier quarter. Operating loss for the quarter was $156,000, vs. a profit of $8,000. This year's fourth quarter showed a net loss of $347,000, or 7 cents a share. Loss in the prior year's quarter was $618,000, or 13 cents a share. Of this, $470,000, or 9 cents, was related to the sale of a business. Maxco's fourth-quarter results are typically impacted by a slowdown in the company's construction supply business.

There were approximately 4.9 million average shares outstanding in the year just ended.

"We believe this past year's solid profitability is a prelude to an outstanding fiscal 1991 for Maxco," said Max Coon, president.

"In construction supply, Maxco has been and will focus on improving margins," he said. "Finishmaster, our auto paint supplier, will soon be the largest business segment in terms of volume. We set the stage for continued expansion with our new 40,000-square-foot warehouse in Grand Rapids and the addition of several outlets in the Chicago area."

Maxco distribution businesses include Finishmaster, Inc., and the construction supply group which markets commercial and highway construction materials throughout Michigan, Wisconsin and Indiana. Wright Plastics, Pak Sak Industries and Akemi Plastic are other Maxco businesses.

#90179p0722 06/28/1990 ~PR Newswire

LOS ANGELES (JUNE 28) PR NEWSWIRE - Perceptronics Inc. (NASDAQ: PERC) announced today that it has been awarded a U.S. Department of Defense contract totaling $11.8 million, including options over four years.

The contract is for research and development of computer-aided concurrent engineering software tools for the improved manufacture of infrared focal plan arrays (IRFPA), which are critical sensor elements in many military imaging systems.

The contract includes initial funding of $463,000 for an eight-month requirements analysis and planning phase, with subsequent options covering design, development, application and evaluation of the operational software tools.

The UCLA School of Engineering & Applied Science joins Perceptronics as a subcontractor on the project. The company will team with the Manufacturing Engineering Program of the School's Mechanical, Aerospace, and Nuclear

Engineering Department and the Collaborative Design Program of the Computer Science Department. The goal is to create software systems that will improve manufacturing procedures and lower the cost of the IRFPA devices.

"Currently, the manufacture of these IRFPA devices is a complicated, sensitive and expensive process," said Perceptronics' chief executive officer, Dr. Gershon Weltman.

"Through concurrent engineering - which is a systematic team approach to the integrated, simultaneous design of products and their related manufacturing and support processes - we intend to develop methods that will improve yield and quality, while reducing the costs of these valuable high-tech components."

Weltman said the Perceptronics/UCLA team will develop a collaborative design environment consisting of networked computer stations. The team's specially developed software will permit IRFPA designers to share design configurations as well as data, and will allow them to "test drive" various manufacturing processes in simulation to resolve collaboratively the full range of concurrent engineering issues that can arise.

"Research and development into concurrent engineering is a natural extension of Perceptronics' work on PERCNET, which is also a simulation environment for event-driven, human-machine processes," Weltman added.

"Perceptronics welcomes the opportunity to team with the prestigious UCLA groups, who are doing pioneering work in the expansion of computer science and technology."

CONTACT: Dr. Gershon Weltman of Perceptronics, (818) 884-7470; or Cecilia A. Wilkinson of Rifkind Pondel & Parsons, (213) 207-9300, for Perceptronics.

DETROIT (JUNE 28) PR NEWSWIRE - U.S. carmakers planned to produce an estimated 143,912 units this week, Ward's Automotive Reports announced today. This compares to last week's build of 149,895 and year-ago's total of 119,800.

Ward's reported that total estimated U.S. car output for calendar 1990 through the end of this week stands at 3,165,317 units, trailing year-ago's build of 3,828,522 by 18.6 percent.

General Motors Corp.'s Arlington, Texas, facility began '91 Chevy Caprice and Cadillac Brougham output this week. Chrysler Corp.'s Sterling Heights, Mich., plant worked daily overtime this week.

Ward's said estimated U.S. truck production this week is 80,955 units, well below last week's count of 92,430. This compares with year- ago's count of 78,289.

Calendar 1990 U.S. truck output will break the 2 million mark this week and finish with an estimated 2,038,473 units assembled through this Saturday, still noticeably under like-1989's 2,262,636, Ward's said.

GM's Janesville, Wis., plant planned one shift of weekend overtime, while Chrysler's St. Louis van plant reported daily overtime this week.

Of this week's estimated U.S. car output, GM accounts for 46.2 percent; Ford, 24.3 percent; Chrysler, 11.8 percent; Honda of America Manufacturing Inc., 6.1 percent; Mazda Motor Manufacturing (USA) Corp., 2.3 percent; Nissan of America Manufacturing Corp., 1.1 percent; New United Motor Manufacturing Inc., 2.8 percent; Toyota Motor Manufacturing USA Inc., 3.1 percent; Diamond-Star Motors Corp., 2.0 percent, and Subaru-Isuzu Automotive Inc., 0.3 percent.

HARTFORD, CONN. (JUNE 28) PR NEWSWIRE - Geoffrey P. Raymond, a recognized expert in the investment management industry, has been appointed president chief executive officer and chief investment officer of Travelers Investment Management Company (TIMCO), a subsidiary of The Travelers Corporation. The announcement was made today by Richard J. Shima, vice chairman and chief investment officer for The Travelers.

Raymond, 46, had been chief investment officer at Texas Commerce Bancshares, Inc., a subsidiary of Chemical Banking Corporation, for the past seven years. During that time he also founded and served as president and chief executive officer of Texas Commerce Investment Management Company.

Raymond began his investment career at Citibank 23 years ago, and in 1979 was appointed senior investment officer of Citibank's Private Banking and Investment Division and a member of Citibank's Investment Policy Committee.

"Geoff brings to TIMCO extensive experience and knowledge of the investment management industry," said Shima. "His understanding of the available opportunities will enable him to guide TIMCO to greater success. TIMCO is a key element within The Travelers' financial services network."

A native of New Haven, Conn., Raymond received his bachelor of arts degree in political science from Providence College and his master of business administration degree in finance from the Wharton School at the University of Pennsylvania. He was designated a Chartered Financial Analyst in 1973.

TIMCO is a wholly-owned subsidiary of The Travelers Corporation, established in 1967 as a registered investment adviser for discretionary asset management. TIMCO offers quantitative investment capabilities including active and passive domestic equity, active and passive international fixed income, passive international equity and risk management strategies. TIMCO manages more than $4 billion in pension fund and institutional assets.

NEW YORK (JUNE 28) PR NEWSWIRE - Michael Anthony Jewelers, Inc. (NASDAQ: MAJL) has announced that its wholly owned subsidiary, Michael Anthony Acquisition Corporation, has agreed to acquire certain operating assets of NGI International Precious Metals, Ltd., DBA Jardinay, a wholly owned subsidiary of Berisford, Inc., part of the Berisford International P.L.C. Group.

The Jardinay business is engaged in the manufacture, importing and sale of gold and diamond jewelry. Jardinay's product line consists of gold chains earrings, gold watches and the Helen Z designer line of jewelry. The Jardinay business realized sales exceeding $40 million in each of its two most recent fiscal years. Jardinay distributes its products to major retailers throughout the United States.

The company has also announced that it will enter into a series of related transactions with two of the executive officers of NGI International, Isaac Nussen and George Weisz, whereby Nussen and Weisz will become officers, directors and significant stockholders of Michael Anthony Jewelers, Inc.

Michael Anthony Jewelers, Inc. is engaged in the manufacture and sale of 14K gold jewelry. Michael Anthony has reported sales of $67 million and earnings of $0.48 per share for the nine months ended March 31, 1990.

#90179p0731 06/28/1990 ~PR Newswire

BUFFALO, NY (JUNE 28) PR NEWSWIRE - Barrister Information Systems Corporation (AMEX: BIS) today announced its results for the fiscal year and fourth quarter ended March 31, 1990.

Revenues for the year declined to $29,147,000 from $31,877,000 for the prior 1989 fiscal year resulting in a net loss of $6,492,000 or $2.13 per share. The net loss for fiscal 1990 included charges of $660,000 for severance payments and other non-recurring losses associated with reorganization that occurred during the fiscal year. There were no tax benefits recorded in fiscal 1990. For the 1989 fiscal year the net loss was $6,595,000 or $2.16 per share. Fiscal 1989 results included an inventory write-down of $1,200,000, tax benefits of $1,115,000 and a benefit of $560,000 from the cumulative effect of a change in accounting principle.

For the company's fourth quarter ended March 31, 1990 revenues declined to $7,448,000 from $9,279,000 for the same period last year. This resulted in a net loss of $1,856,000 or $.61 per share compared to a net loss of $2,775,000 or $.91 per share for the same period last year.

For the fiscal year, minicomputer revenues declined to $7,577,000 compared to $12,332,000 for the prior year. Total service revenues also declined to $16,335,000 from $16,678,000 for the previous year. However, sales of microcomputer systems grew 14 percent to $3,269,000 from $2,867,000.

Henry P. Semmelhack, president of Barrister, attributed the loss to a reduction in the company's minicomputer sales and lower sales of software support services which reflected the lower level of product sales.

Semmelhack stated that the lower level of the sales of the company's minicomputer products was the result of the continued market trend toward microcomputers and the delay in completion of the company's Advanced Law Firm Financial Management System (ALFMS). He also indicated that law firms capital investment decisions have been slowed because of the changes in the financial services industry, reduced mergers and acquisition work and general economic factors.

The company also announced that it has restated the results of its second

quarter ended Sept. 30, 1989 to reflect the loss of $318,000 realized on a sublease of a portion of one of its regional offices which results in an additional loss of $.10 per share being reported for the second quarter. The loss for the second quarter, prior to the restatement, was $1,506,000, or $.49 per share.

Barrister is a leading supplier of office automation products and services to the legal profession.

WASHINGTON (JUNE 28) PR NEWSWIRE - Cleveland Electric Illuminating Co. (NYSE: CVX) (Cleveland) will be honored with the merit of "Special Distinction" in the electric utility industry's fourth annual Common Goals Award, the Edison Electric Institute (EEI) announced today. Centerior Energy Chairman Richard A. Miller will accept the award during EEI's Chief Executive Conference in Washington, D.C., Sept. 13-14, 1990. Centerior Energy (NYSE: CX) is the parent company of Cleveland Electric Illuminating Co. (CEI).

EEI established this annual award to acknowledge electric utility companies that have developed outstanding consumer programs designed to find solutions to problems shared by utility companies and their customers. An eight-member panel of judges, comprised of representatives from the media, consumer and industry groups, and Sen. Tim Wirth (D-CO), reviewed the entries and determined the winners (list of judges follows). CEI's "Glenville Partnership Success Formula" was honored in the education category from a total of 124 overall entries, representing electric utility companies around the country.

The city of Cleveland established a multifaceted educational program with three objectives: increase the number of graduates from area schools; upgrade the quality of the education; and increase the number of students admitted to college, technical or vocational schools. In order to achieve

this goal, the "Cleveland Education Partners" was developed to encourage local businesses to adopt schools as "partners." CEI adopted Glenville High School, an inner-city school with 1,200 students. Like most inner-city schools, student attendance was a problem, as was a high drop-out rate and poor attitudes toward education.

EEI is the association of investor-owned electric utility companies whose members generate and distribute nealry three quarters of the electricity in the United States.

NEW YORK (JUNE 28) PR NEWSWIRE - Harris Shapiro, chairman of the board of Dyansen Corporation (NASDAQ: DYAN) today announced that preliminary operating results for the second quarter of 1990 indicate the highest level of sales and earnings in the company's history.

Shapiro said that he expects net sales for the second quarter of 1990 to approximate $13 million, and earnings of $0.11 to $0.13 per share. In the second quarter of 1989, Dyansen recorded net sales of $10.9 million, and earnings of $0.07 per share.

Shapiro said that the anticipated record results for the second quarter are attributable to a combination of strong sales of Erte sculptures and paintings, and the positive effects of the company's previously announced cost containment program. He also said that sales at the company's newest gallery at the Taj Mahal in Atlantic City were ahead of plan to date.

Shapiro said that the increased sales and cash flow have enabled the company to reduce long-term debt by approximately $4 million during the quarter.

Shapiro concluded by noting that the company's unfilled order backlog, will exceed $10 million, at the end of quarter, the highest level in the company's history, and provides strong momentum for the second half of the year.

Dyansen is the largest publicly owned retailer of fine art with 90 percent of its revenues generated at its 14 retail locations throughout the United States.

#90179p0748 06/28/1990 ~PR Newswire
OMAHA, NE (JUNE 28) PR NEWSWIRE - ConAgra Inc. (NYSE: CAG) today announced record earnings for fiscal year 1990's full year and fourth quarter ended May 27, 1990. As stated in the company's June 7 announcement of a definitive agreement to acquire Beatrice Co., ConAgra presently expects another year of record earnings in fiscal year 1991.

Fiscal year 1990 was the 10th straight year of record earnings per share for ConAgra. For the full year, earnings per share grew 15 percent to $1.87 from $1.63 the previous year. Net income was up 17 percent to $231.7 million from $197.9 million. Pretax earnings increased 14 percent to $356.9 million from $312.2 million. Net sales advanced 37 percent to $15.50 billion from $11.34 billion.

Earnings in fiscal 1990's fourth quarter reached the highest level for any quarter in ConAgra's history. Fourth quarter earnings per share rose 11 percent to 59 cents from 53 cents in the previous year's fourth quarter. Net income was up 13 percent to $73.5 million from $65.4 million. Pretax earnings increased 7 percent to $110.7 million from $103.2 million. Net sales gained 35 percent to $4.01 billion from $2.97 billion.

Fourth quarter and full year per share results reflect a three-for-two split of ConAgra's common stock effective December 1, 1989.

In ConAgra's largest industry segment, Prepared Foods, operating profit increased 19 percent to $349.2 million from $293.1 million. Sales increased 56 percent to $11.03 billion from $7.08 billion.

The center-of-the-plate businesses--principally fresh beef, pork, chicken and turkey products--in total achieved good operating profit growth in fiscal 1990 led by gains in the beef business. The chicken products business had good earnings, though trailing last year's strong results due to lower selling prices and margins. Earnings were down in the turkey

products business. Pork results were depressed for ConAgra and the industry.

ConAgra's total operating profit increased 17 percent to $549.8 million in fiscal 1990 from $468.3 million in fiscal 1989. Operating profit is profit after Finance Companies' interest expense and short-term interest expense incurred to finance hedged inventories, and before other interest expense, general corporate expense and income taxes.

NEW YORK (JUNE 28) PR NEWSWIRE - Children's Creative Workshop, Ltd. (CCW) and Blue Moon Books Inc. today announced the execution of a plan of merger among CCW, Blue Moon and BM Acquisition Corp., a wholly owned subsidiary of CCW, and a merger related agreement among CCW, Blue Moon, Acquisition and the shareholders of Blue Moon pursuant to which Blue Moon will be merged with and into Acquisition.

Subsequent to the merger, Blue Moon will be a wholly owned subsidiary of CCW and each of the 200 outstanding common shares of Blue Moon will be converted into 52,500 shares of common stock of CCW. Accordingly, the shareholders of Blue Moon will hold an aggregate of 10.5 million shares of the outstanding common stock of CCW or approximately 34 percent of the outstanding common stock of CCW upon the completion of the merger.

CCW, headquartered in Syossett, N.Y., is engaged in the business of developing specialty retail concepts directed toward the children's market. CCW has identified three concepts which it intends to seek to exploit: "Our Childhood Dreams," an educational toy store; "Pops," an ice cream parlor/record store; and an as yet unnamed computerized children's bookstore. In addition to developing its own specialty retailing concepts CCW intends to serve as a consultant to third parties engaged in children's retailing. Although CCW is working toward opening stores based upon the specialty retailing concepts, the initial prototype stores will not be opened until additional financing is obtained.

Blue Moon, headquartered in New York City, is a paperback book publishing company which primarily publishes original subject matter rather than reprints of older works, and has established itself as one of the leading publishers of quality adult fiction. Blue Moon's president, Barney Rosset has been an outspoken and prominent member of the publishing community for more than 30 years. Prior to founding Blue Moon, Rosset was president and controlling stockholder of Grove Press. Under Rosset's ownership and management, Grove Press was a noted publisher of avant-garde literature and an advocate of first amendment rights. Rosset spearheaded the

constitutional battles which resulted in landmark rulings on the question of obscenity which permitted him to publish and distribute such works as D.H. Lawrence's "Lady Chatterly's Lover," and Henry Miller's "Tropic of Cancer."

NEW YORK (JUNE 28) PR NEWSWIRE - The U.S. Environmental Protection Agency (EPA) is seeking $157,050 in penalties from the O-CEL-O division of General Mills, Inc. in Tonawanda, N.Y., for failing to immediately notify appropriate agencies following the Aug. 30, 1989, accidental release of three hazardous substances from its Sawyer Avenue facility.

An EPA investigation of the incident determined that the firm released hydrogen sulfide, carbon disulfide, and sulfur dioxide into the environment in amounts exceeding the reportable quantities of these substances, but did not immediately notify the proper authorities.

Hydrogen sulfide and sulfur dioxide can cause respiratory problems and carbon disulfide may cause central nervous system damage. This action is one of 23 cases filed nationwide this week under the Emergency Planning and Community Right-to-Know Act.

"Under the Emergency Planning and Community Right-to-Know Act, state and local emergency planning authorities are required to formulate plans for dealing with emergency situations," said EPA Regional Administrator Constantine Sidamon-Eristoff.

"Without proper notification from facilities of accidental releases, these authorities cannot implement their emergency response plans and provide for the health and safety of their citizens."

Under the Comprehensive Environmental Response, Compensation and Liability

Act, also known as Superfund, a company is required to immediately notify the National Response Center (NRC) following the accidental release of a hazardous substance which exceeds an amount specified by EPA.

In addition, under the Emergency Planning and Community Right-to-Know Act, a facility must immediately notify its State Emergency Response Commission (SERC) and its Local Emergency Planning Committee (LEPC) of the release.

New York state's Emergency Response Commission has designated the New York State Spill Hotline as its official point of notification. Immediate notification of the releases should also have been made to the emergency coordinator for Erie County.

The National Response Center, which operates a 24-hour hotline used to alert various federal response agencies to environmental incidents, should also have been notified. O-CEL-O notified the SERC about seven hours after the releases began, but failed to notify the LEPC. In addition, the National Response Center was not notified of the releases until more than 36 hours after the releases began. The company has 20 days to respond to the complaint.

CLEVELAND (JUNE 28) PR NEWSWIRE - Lamalie Associates, Inc., one of the nation's 10 largest executive search firms, will affiliate with Amrop International, the world's largest confederation of independent executive search firms, it was announced today by John F. Johnson, Lamalie president and chief executive officer.

With the addition of approximately $14 million in billings from Lamalie -- together with those of its existing international joint venture partner, Canada's Caldwell Partners International, which is also joining the group -- Amrop's estimated 1990 billings will exceed $70 million, making it one of the world's top five international search networks.

"When added to our successful joint venture with Caldwell," Johnson said, "this new relationship with Amrop International's team of dominant local search firms strengthens and expands our global capabilities. At the same time, we provide a significant link to North America for Amrop's member firms overseas." Lamalie's U.S. offices are in Atlanta, Chicago, Cleveland, Dallas, Houston, New York and Tampa, Fla. Caldwell's offices are in Calgary, Alberta; Montreal; Ottawa, Ontario; Toronto and Vancouver, B.C., as well as London.

Formed in 1977, Amrop International has grown steadily and is now

comprised of 125 search consultants in 22 countries worldwide. Member firms are located in Argentina, Australia, Belgium, Brazil, Denmark, France, West Germany, Hong Kong, Ireland, Italy, Malaysia, the Netherlands Singapore, South Africa and Switzerland. During the past year, Amrop International added affiliations with firms in Taiwan, Sweden, Norway, Spain and New Zealand. Peter van de Velde, head of Australian affiliate Brauer Galt & Co. Pty, Ltd., serves as Amrop International's chairman.

"Our decision to affiliate with Amrop," Johnson added, "has its roots in the basic structure of the group. We now differ from most of our largest competitors at the top end of international executive search practice because Amrop International member firms are individually owned businesses rather than centrally controlled. In that way," he concluded, "Lamalie's partners and our new colleagues throughout the world have the extra incentive of local ownership, which, we believe, enhances the quality of any individual or collaborative search effort."

Lamalie Associates, Inc., founded in 1967, is a leader in executive search spanning every major industry, and focused on identifying chief executive and chief operating officers, group executives, vice presidents, and members of boards of directors. The firm's joint venture with Caldwell Partners is known as Caldwell Lamalie International.

#90179p0766 06/28/1990 ~PR Newswire
PHILADELPHIA (JUNE 28) PR NEWSWIRE - First National Supermarkets, one of the nation's leading supermarket chains with 110 stores in five states and sales of $2 billion, has singed an agreement with ICC Technologies (NASDAQ: ICGN), a leading developer of desiccant dehumidification technology, for the purchase and installation of 24 desiccant

dehumidification systems. The units, which cut electrical and gas use while creating a more comfortable shopping environment, will be installed in 17 Finast stores and 7 Edwards Food Warehouses ranging from 20,000 to 53,000-square feet.

The agreement was completed following a one-year test of an ICC desiccant dehumidification unit, called DESI/GEN, at a Finast store in Fairfield, Conn. Test results showed significant reductions in the supermarket's electric usage.

This change in turn virtually eliminated all frost buildup on frozen food products and cases as well as all moisture on dairy products and shelves. In addition, the average store summer temperature was raised by 4 degrees Fahrenheit (8 degrees Fahrenheit in the freezer aisles), greatly increasing customer shopping comfort and reducing the store's conventional electric air conditioning load.

"ICC's desiccant system has had a very positive impact at our Fairfield store. We look forward to enjoying the same benefits in other locations," said Robert Fortier, group vice president, support services, Finast. "Energy savings, improved product appearance and increased customer comfort, not to mention the environmental benefits of cooling without CFCs makes for a winning combination."

The Finast desiccant dehumidification system uses natural gas-fired desiccant cooling technology to displace conventional electric air conditioning equipment. It removes virtually all of the humidity load in a building. It cools without the use of chlorofluorocarbons (CFCs) or hydrofluorocarbons, believed to be the chief culprits in the deterioration of the earth's protective ozone layer. It also reduces peak load electric demand, permits increased ventilation air without the burden of higher energy requirements, improves indoor air quality, and reduces energy costs.

ICC Technologies, headquartered in Philadelphia, develops innovative, efficient and environmentally sound power generation and space conditioning technologies to address the needs of today's commercial marketplace. The DESI/GEN system is being marketed to industries with a pressing need for effective climate control and energy management, including supermarkets, hotels, large retail outlets, office buildings and fast food chains.

CONTACT: Erika Freed or Peter Collins of Ruder-Finn, 212-715-1538, or 212-593-6326, for ICC Technologies.

COLUMBIA, MD (JUNE 28) PR NEWSWIRE - RAC Income Fund, Inc. (NYSE: RMF)

today announced net investment income of $6.0 million, or $0.59 per share, for the six-month period ended April 30, 1990. This compares to $5.7 million, or $0.57 per share, for the previous six months.

From Nov. 1, 1989 to April 30, 1990, the company paid regular dividends totaling $0.60 per share and a special year-end dividend of $0.04 per share. In April, the fund increased its monthly dividend level to $.105 per share.

Based on the new dividend level and the closing price of $10.375 for the fund's shares on April 30, 1990, RAC Income Fund provided a yield of 12.46 percent on a bond-equivalent basis.

For the months of March, April and May, the fund was rated in the top 10 U.S. closed-end bond funds by Lipper Analytical Services, Inc. Lipper, a nationally recognized mutual fund evaluation service, based this ranking on the total rate of return for the trailing 12 months. As of May 1990, 114 closed-end bond funds were ranked.

As of April 30, the fund's portfolio consisted of 32.0 percent of fixed-rate mortgage-backed securities, 22.7 percent of adjustable-rate mortgaged-backed securities, 16.6 percent of fixed-rate collateralized mortgage obligations, 14.4 percent of residual interests, 8.5 percent of interest-only securities and 5.8 percent of principal-only securities.

RAC Income Fund, a closed-end investment fund, primarily invests in fixed-income mortgage-backed securities that are rated either AAA or AA by a nationally recognized rating agency, or are issued or guaranteed by the U.S. government, its agencies or instrumentalities. To a lesser degree, the fund may also invest in mortgage securities deemed to have an equivalent rating by the fund manager. The fund's goal is to distribute monthly income that is 150 to 200 basis points greater than the rate obtainable from intermediate term U.S. Treasury securities.

RAC Income Fund is managed by Ryland Acceptance Advisers, Inc., a wholly owned subsidiary of Ryland Acceptance Corporation. Ryland Acceptance Corporation is an indirect subsidiary of The Ryland Group, Inc.

BRENTWOOD, TN. (JUNE 28) PR NEWSWIRE - United Cities Gas Co., (NASDAQ: UCIT), the Nashville area-based natural and propane gas distributor announced today it has signed a letter of intent to acquire all the assets related to the utility division of Bowling Green Gas Co., a corporation in Bowling Green, Missouri.

The Bowling Green Gas Company serves approximately 1,400 natural gas customers and was purchased for approximately $500,000. It is expected to add approximately $1 million to United Cities' annual revenues.

"This acquisition is attractive because it is located approximately 30 miles from United Cities' operation in Hannibal, Missouri," said Gene C. Koonce, United Cities' president and chief executive officer. "It will compliment our existing operations as well as provide opportunities for increased efficiency and profit improvements, promising a good return to our shareholders."

Koonce said the company is always seeking attractive additions to its multi-state organization and will continue to acquire companies that tie into existing areas of service and meet the company's overall growth strategy. United Cities' plans to acquire the Missouri utility operations come less than a month after the company announced plans to to acquire the Tri-City Gas Company in Chetopa, Kansas.

Both acquisitions are expected to be completed during the third quarter of 1990, pending final approval by each company's board of directors and the appropriate regulatory authorities.

United Cities Gas Company has had a multi-state service area since its inception in the late 1920s and presently serves approximately 290,000 customers in parts of eleven states. The company is also engaged in other energy-related businesses.

EDISON, NJ (JUNE 28) PR NEWSWIRE - Engelhard Corporation (NYSE: EC) announced today that L. Donald LaTorre has been elected senior vice president and chief operating officer succeeding Cyrus H. Holley, who has decided to retire next year at age 55. Holley, meanwhile, will continue to serve as an executive vice president and director of the corporation.

LaTorre, 52, joined Engelhard in 1984 and most recently served as president of the company's Pigments and Additives division, where he presided over the significant growth of Engelhard's worldwide paper pigments and chemicals and specialty minerals and colors businesses. LaTorre has extensive experience in the specialty chemical industry, having served in various management positions with both BASF Wyandotte Corporation and Diamond Shamrock.

Holley plans to pursue long-held personal interests in both management consultation and education. He is extremely active in the effort in New Jersey to bring closer together the interests of business and education. Holley has served in a number of key management positions since joining Engelhard in 1979 and was elected executive vice president and chief operating officer of the corporation in 1985. He has served as a member of the company's board of directors since 1983.

Engelhard also announced today that Fredric M. Guist, senior vice president and a director of the corporation and president of the Engineered Materials division, will be leaving the company to pursue outside business interests.

Engelhard Corporation is a world-leading provider of specialty chemical products, engineered materials and precious metal management services.

HIGHLAND PARK, MI (JUNE 28) PR NEWSWIRE - Chrysler Corporation (NYSE: C) today announced it is completing the final phases of the company's $600 million (U.S.) 1991 model year minivan program as its Windsor (Ontario) and St. Louis II (Fenton, Mo.) assembly plants start their changeovers.

Of the $600 million minivan program, about $65 million (U.S.) will be

expended on the Windsor Assembly Plant. Chrysler will spend another $62 million (U.S.) at its St. Louis II minivan plant. The remaining $472 million was spent on engineering, research and development, tooling, stamping plant tooling and facilities.

The Windsor plant will buildout 1990 models on June 29, and begin production of the new 1991 models the week of July 30. St. Louis II will buildout the current model year on July 27, and start production of 1991 models the week of Aug. 27.

At both Windsor and St. Louis II some of the new technology includes: Coordinate Measuring Machines (CMM) and a new computerized laser gauging systems to verify dimensional integrity of sub-assemblies and completed bodies, new automatic seat unloading systems, and the Chrysler Huntsville Electronics Division developed 'Hot Car System' whereby a 12-volt system is used to verify the minivans electrical circuits and terminals as it progresses through the system.

New ergonomic enhancements to process technology, designed to help operators install the one-piece instrument panel, gas tank installations, fascia and bumper sub-assembly and installation, will be added at both Windsor and St. Louis II.

At Windsor, the plant that gave birth in 1983 to the minivan market of today, some of the modernization includes such items as: 43 hydraulic respot welders in the body shop replaced by new, more accurate electric robots. A new front fender setting fixture to ensure the proper mating of the fender to the body.

For 1991, the new Windsor and St. Louis II-built minivans have new exteriors, but maintain the distinctive Chrysler minivan appearance. The interiors have been completely redesigned, and a unique quad-seating will be available. Also available on the 1991 minivans will be all-wheel-drive, 4-wheel anti-lock brake system, and Chrysler's 3.3-liter V-6 engine.

LOS ANGELES (JUNE 28) PR NEWSWIRE - -Santa Fe Pacific Pipeline Partners L.P. (NYSE: SFL) today announced that it will increase its 1990 second quarter cash distribution to 65 cents per Unit. The distribution will be paid on Aug. 14, 1990, to holders of record of its Preference Units and Common Units on July 31, 1990. Since commencing operations in December 1988, the partnership has increased its cash distribution from 55 cents per Unit for the first two quarters of 1989 to 60 cents per Unit for the last two quarters of 1989 and the first quarter of 1990.

John P. DesBarres, president and chief executive officer of Santa Fe Pacific Pipelines Inc., the general partner of the partnership, said, "The major expansion of our pipeline system during the past six years has allowed the partnership to participate in the growth in market demand for our pipeline transportation and terminalling services. The resulting increases in revenues and cash from operations and a favorable outlook for the future have made this increase in distribution possible."

The partnership is one of the largest independent pipeline common carriers of refined petroleum products in the United States, and the largest in the western United States, in terms of product deliveries, barrel miles transported and pipeline mileage. The partnership serves six western states with approximately 3,300 miles of pipeline and 14 truck loading terminals. The partnership transports refined petroleum products including gasoline, diesel fuel and jet fuel for refiners, marketers and bulk users of such products.

CAMBRIDGE, MA (JUNE 28) PR NEWSWIRE - Polaroid Corporation (NYSE: PRD) and Minolta Camera Co., Ltd. announced today that they have entered into an arrangement under which Minolta Corporation (USA) will market in the United States an advanced instant camera, manufactured by Polaroid, under the Minolta brand.

I. MacAllister Booth, Polaroid president and chief executive officer said, "While the initial arrangement provides for the supplying of instant

cameras, Minolta and Polaroid see this as a first step to explore a potential long-term collaboration between our two companies."

The camera -- the Minolta Instant Pro -- will be made available through the Minolta distribution network beginning in August 1990. This agreement marks the first time Polaroid instant cameras have been broadly available to the consumer market under a camera brand other than Polaroid.

"Minolta is one of the world's best known and most highly respected camera manufacturers," Booth added. "This agreement will help to expand the market for instant photography to the benefit of both companies. I am very pleased that Minolta, with its reputation for innovation and quality, is adding instant cameras to its broad line of high quality photographic products."

Among the features of the Minolta Instant Pro, which will use Polaroid Spectra film, are an innovative computer-style liquid crystal display (LCD) control panel and a polished three-element glass lens. In addition, the Minolta Instant Pro camera includes a special closeup lens which allows picture taking at a distance of 10 inches from the subject. The Minolta Instant Pro has a suggested list price of $219.00.

Minolta Corporation (USA), headquartered in Ramsey, N.J. is a subsidiary of Minolta Corporation of Osaka, Japan. With sales of more than $2 billion, Minolta is a leading manufacturer of cameras and business equipment.

Polaroid Corporation is headquartered in Cambridge, Mass. With sales of almost $2 billion, Polaroid is the worldwide leader in high-quality, hard copy instant imaging. The company supplies instant photographic cameras and film, and conventional and electronic visual communication products to consumer, business, industrial and scientific markets.

NEW YORK (JUNE 28) PR NEWSWIRE -- Exxon Corporation (NYSE: XON) today announced that its corporate and public affairs department will be organized into three separate organizational units. The move is designed

to strengthen the company's effectiveness in communicating with investors and the public. The following executives were named to head the new units.

Elliot R. Cattarulla, currently vice president of corporate and public affairs and secretary of Exxon Corporation, has been elected vice president of public affairs, effective Aug. 1. In his new position, Cattarulla will devote himself full-time to the public affairs activities of the company. The public affairs department will provide strategic direction in Exxon's public policies and programs, including both government and media relations, communications and regional coordination. Additionally, it will be responsible for providing oversight for company-wide contributions budgets.

T. Peter Townsend, currently assistant treasurer, Exxon Corporation, has been elected vice president, investor relations, effective July 1. This function will provide liaison with security analysts, institutional and individual investors.

David L. Baird, currently manager of public affairs, Exxon Chemical Company, has been elected secretary, Exxon Corporation, effective Aug. 1. The office of the secretary will conduct all secretariat activities for the board of directors and for the management committee of the corporation.

Cattarulla joined Exxon in 1954 after receiving a bachelor of chemical engineering degree from Cornell University. He held various engineering and analyst positions for the company in New York and New Jersey before moving to London in 1963 as a regional coordinator for the Middle East. He then worked for ARAMCO in Dhahran before returning, in 1968, to Esso Inter-America, Exxon's then regional headquarters in Coral Gables, Fla., which was responsible for the company's oil and gas operations in the Caribbean, Central and South America.

Baird joined Exxon in 1971 after receiving a bachelor's degree from Austin College in Sherman, Texas, and a J.D. degree from Washington and Lee University School of Law. He held various positions in the law and government relations area of the public affairs departments of Exxon U.S.A. before moving to the law department of Exxon Chemical Americas in Houston in 1981. Two years later, he moved to the corporate headquarters of Exxon Chemical in Darien, Conn., as counselor and assistant to the president. In 1985 he became general counsel of Exxon Chemicals Asia Pacific in Hong Kong. A year later he returned to Exxon Chemicals Americas in Houston as manager of public affairs. In 1988 he became manager of public affairs for Exxon Chemical in Darien.

#90179p0793 06/28/1990 ~PR Newswire

MISSION VIEJO, CA (JUNE 28) PR NEWSWIRE - Schweitzer Real Estate Inc. has acquired nine Coldwell Banker company-owned offices in the Detroit Metro area, and will operate them as members of Coldwell Banker Residential Affiliates Inc., according to Chandler B. Barton, chairman and chief executive officer of the Coldwell Banker Residential Group.

Paul Schweitzer and Schweitzer Real Estate Inc. have operated under the Better Homes & Gardens affiliation since 1978 and will convert 16 of its present offices to the Coldwell Banker system. Coldwell Banker has been operating in the area since 1986. With the addition of the nine Coldwell Banker offices, there will now be a total of 25 Coldwell Banker Schweitzer offices. Coldwell Banker will continue to operate 11 other franchise offices around the Detroit area, making a total of 36 offices in the Detroit metro market.

Coldwell Banker Schweitzer Real Estate will be the largest multi- office company within the Coldwell Banker residential affiliate network. Located in Michigan, its primary marketing areas will be Macomb, Oakland, Wayne and Washtenaw counties.

Schweitzer Real Estate Inc. has been operating in the Detroit market since 1962, when it was founded by Paul Schweitzer's mother, Violet. According to President Paul Schweitzer, "With this acquisition and with the strength and credibility of the Coldwell Banker name, we expect to become the dominant real estate organization in the Detroit metro area."

Coldwell Banker Chairman Barton says, "It's been effective in a number of markets for Coldwell Banker to affiliate successful, reputable brokers such as Schweitzer, who not only has an exceptional understanding of the Detroit community, but is also an entrepreneur who has distinguished himself as an outstanding businessman by gaining a top market share.

"Although our affiliate offices operate independently, they benefit from exclusive Coldwell Banker systems and programs, and all of the resources of the Sears Financial Network," Barton added.

The 25 offices of Coldwell Banker Schweitzer Real Estate will have a total of 709 full-time sales associates and provide brokerage, mortgage, relocation and new homes marketing services.

With a total of 83 offices in Michigan, Coldwell Banker has nearly 1,900 residential real estate offices and more than 40,000 sales associates in North America, and is a member of the Sears Financial Network.

NAPERVILLE, IL (JUNE 28) PR NEWSWIRE - Varlen Corporation (NASDAQ: VRLN) said today it sold its Germ Free Laboratories, Inc., Miami, subsidiary and the assets of its Chrome Locomotive, Inc., Silvas, Ill., subsidiary for cash.

Germ Free is one of four laboratory equipment businesses acquired by Varlen in March at which time the company indicated that some of the acquired properties may be restructured or sold.

Chrome Locomotive was designated for sale last November and has been carried as a discontinued operation. Varlen had indicated it was accelerating its restructuring efforts by divesting itself of operations that were "under-performing or in markets without sufficient potential."

Richard L. Wellek;, Varlen president and chief executive officer, said that the proceeds from the sale were well within the reserves set up by Varlen for the disposition of the two subsidiary companies.

Wellek said Varlen would use the proceeds from the sale to reduce its long term debt.

Germ Free was sold to Dr. Jerome Landy, the company's founder. Chrome Locomotive's assets were sold to National Railway Equipment Company, Dixmoor, Ill. and its principal owner, Lawrence Beall.

Varlen Corporation is a diversified manufacturer of precision industrial products, primarily serving the transportation and laboratory equipment markets. It has operations in six states. The common stock is traded over-the- counter on the NASDAQ National Market System under the symbol VRLN.

CONTACT: Richard L. Wellek, pres. and CEO, or Douglas H. MacMillan, VP and CFO, or Richard A. Nunemaker, VP, Controller, 708-420-0400, all of Varlen Corporation

DALLAS (JUNE 28) PR NEWSWIRE - Kaneb Services Inc. announced today that each of its directors had been re-elected at the annual meeting of its stockholders held June 26, 1990, in New York City. At the time of such meeting, Kaneb had received proxies from holders of more than 14 million shares indicating approval of three other proposals relating to amendments to Kaneb's Certificate of Incorporation and a non-qualified stock option plan.

Since such proposals require the approval of holders of approximately 15.7 million shares, and there was insufficient time for beneficial owners to instruct their brokers how to vote, the company adjourned the meeting until July 10, 1990, and will continue to solicit proxies with respect to such proposals. The adjourned meeting will be held at 10 a.m. at the company's offices in Richardson, Texas.

RICHMOND, VA. (JUNE 28) PR NEWSWIRE - Philip Morris U.S.A. said the state's Clean Indoor Air Act, scheduled to go into effect Sunday, is another example of Virginia upholding the principle that a pluralistic society with diverse lifestyles can find a way for people to live together.

In enacting the Clean Indoor Air Act, "Virginia has set an example of social progress for the entire country," said John R. Nelson, vice president, corporate affairs, Philip Morris U.S.A. "By making this smoking accommodation legislation law, Virginia has again affirmed its leadership in the enlightened resolution of social issues."

"Philip Morris U.S.A. has long supported efforts to accommodate both smokers and non-smokers," Nelson said.

"In some cases, this goal is best achieved through separate sections; in others through common sense and courtesy. The precise formula is less important than the principle that in a pluralistic society with diverse lifestyles ways can be found for people to live together," Nelson said.

"By demonstrating we can do this in so simple an area as smoking we affirm the possibility that we can do it in much more important areas," Nelson said.

The law is a fair approach, Nelson said, because it asks businesses that deal with the public to provide reasonable accommodations for the preferences of both smokers and non-smokers. The law asks restaurants to provide smoking and non-smoking areas sufficient to meet customers demand. It sets statewide standards to avoid confusing and conflicting local requirements.

Finally, the new law is fair and reasonable, Nelson said, because it asks employers to seek the advice and consent of employees before they impose smoking restrictions in the workplace.

"In all, the law is a reasonable and fair approach to smoking," Nelson

said.

With nearly 12,000 employees, Philip Morris U.S.A. is the largest private employer in the city of Richmond and one of the largest in the state.

SAN JOSE, CA (JUNE 28) PR NEWSWIRE - Altos Computer Systems, Inc. (NASDAQ: ALTO) announced today that it is in discussions with the Acer Group regarding the potential acquisition of Altos at a proposed cash purchase price of $8.35 per share. Material terms remain to be negotiated and there can be no assurance that a definitive agreement will be reached.

Altos is a worldwide leader in networked, multi-user computer systems, with more than 128,000 installed systems in more than 60 countries. Altos provides solutions to businesses of all sizes in a broad range of industries -- from manufacturing, wholesale distribution, accounting, construction, retail, health care, insurance, government and finance. For the fiscal 1989 year ending June 24, 1989, Altos reported net sales of $139.9 million, of which approximately 55 percent came from international markets.

TORONTO (JUNE 28) PR NEWSWIRE - Murex Clinical Technologies Corporation (Vancouver Stock Exchange: MCI) today announced that the company has filed a registration statement with the Securities and Exchange Commission relating to a proposed public offering by the company of up to Cdn$24,000,000 (approximately US$20,474,400) of units. Each unit will consist of one common share and one common share purchase warrant.

The warrants will be exercisable until June 30, 1992 with two warrants entitling the holder to acquire one common share at an exercise price to be determined.

A registration statement relating to the units has been filed with the Securities and Exchange Commission but has not yet become effective. The units may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or

qualification under the securities laws of any such state. A copy of the preliminary prospectus may be obtained from the company, which is conducting the unit offering in the United States.

The units are also being offered in Canada and Europe on a "best efforts" basis by the company's agent, Deacon Barclays de Zoete Wedd Limited.

Murex Clinical Technologies is the parent company of Murex Corporation headquartered in Norcross, Ga. and Dominion Biologicals Limited of Dartmouth, Nova Scotia. Murex Corporation develops, manufactures and sells a rapid in vitro test system, known as the MurexI SUDSI System, as well as other products which are used to diagnose and monitor human diseases, including AIDS. Dominion Biologicals Limited is a dominate supplier of blood typing and grouping reagents in Canada.

HOUSTON (JUNE 28) PR NEWSWIRE - Seagull Energy Corp. (NYSE: SGO) reported today that it has completed its purchase of the stock of Wacker Oil Inc., an independent oil and gas company headquartered in Houston.

As reported previously, Seagull had agreed to pay approximately $77 million in cash to acquire Wacker from Costain Holdings Inc. of Chicago.

In accordance with the original agreement, the purchase price was adjusted for cash operating income and capital expenditures incurred since January 1, 1990. Therefore, Seagull actually paid Costain $65 million today and estimates that approximately $4 million more will be payable in 90 days.

The $69 million Seagull expects to pay is net of $3.5 million withheld pending correction of mechanical and other problems that developed recently at two producing gas wells. Costain has indemnified Seagull for any loss of reserves. If the cost of the corrective work and loss of reserves is less than $3.5 million, Seagull will pay the difference. Costain's maximum obligation for the corrective work and any loss of reserves is $7 million, inclusive of the $3.5 million.

Seagull is financing the acquisition with a new $50 million bridge loan and from its existing $60 million revolving credit agreement, both of which are with the same group of major banks. A portion of the bridge loan will mature on April 30, 1991, whereas the remainder will convert to a term loan. The bridge loan and the revolving credit agreement both give the company the option of borrowing at an interest rate tied to one of

several conventional standards.

Wacker's exploration and production activities are in the Gulf of Mexico and onshore in Texas, Louisiana and North Dakota. Houston-based Seagull is engaged in gas and oil exploration and development; the transportation, distribution and marketing of natural gas, liquids products and petrochemicals, and natural gas processing.

NEW YORK (JUNE 28) PR NEWSWIRE - The Topps Company filed a lawsuit today against the National Football League and National Football League Properties Inc.

Topps brought this suit in response to threats by the NFL and NFL Properties that they would attempt to block Topps from publishing its football player cards, which Topps has been marketing since the 1950s.

In its suit, Topps asked the court to rule that its 1990 football cards, which are licensed by the professional football players association, do not infringe upon any trademark rights of the NFL or its member clubs.

Topps' suit also charges that the NFL and NFL Properties -- which published their own official brand of football cards through their affiliated entity, Pro Set Inc. -- have conspired with their member teams to restrain competition in the market for collectible football picture cards, and are attempting to gain a monopoly in that market, in violation of U.S. and state anti-trust laws.

The suit was filed in the United States District Court in Manhattan. Topps is well known for its collectible picture products, which feature sports and other entertainment themes, and its internationally registered trademark, Bazooka.

ARMONK, NY (JUNE 28) PR NEWSWIRE - The IBM board of directors has elected William W. K. Rich and Nobuo Mii IBM vice presidents, and John E. Hickey IBM secretary.

Rich, who was IBM secretary, has been named IBM vice president and president of Services Sector Division within the IBM US Application Solutions line of business. He replaces IBM Vice President Marvin L. Mann, who will be on special assignment reporting to Terry R. Lautenbach, IBM senior vice president and general manager of IBM US.

A graduate of Williams College, Rich joined IBM in 1962 as a sales trainee in Seattle. He subsequently held various marketing and management positions, including group director of systems planning in the Data Processing Product Group, beginning in 1979, and vice president of systems and displays in the System Products Division, beginning in 1981. In 1985 he became assistant group executive for marketing in the Information Systems Group. He was named assistant group executive of plans and controls in the Information Systems and Communications Group in 1986. He was named IBM secretary in 1987.

Mii, who continues as vice president and general manager of Asia Pacific Technical Operations, IBM Japan, joined IBM in 1969 as a technical advisor in Tokyo. He was named director of the Fujisawa development lab in 1974 and vice president and general manager, telecommunications systems, Systems Communications Division in 1980. In 1982, he was named managing director, technical operations, Tokyo, IBM Japan. He became senior managing director, Asia Pacific Technical Operations, IBM Japan, in 1984 and was named to his current position this year. Mii is a graduate of Kyushu University.

Hickey was IBM assistant general counsel. As IBM secretary, he will be responsible for supporting the IBM board of directors, for communications with IBM stockholders and for corporate organization and management systems.

A graduate of Wesleyan University and Columbia Law School, he joined IBM in 1968 in Westchester County as an attorney in the corporate legal function. He subsequently held a variety of legal positions, including counsel for the General Products division in 1980 and group counsel for the Information Systems Technology Group in 1983. He was named vice president, general counsel and secretary for European headquarters in Paris in 1986 and corporate assistant general counsel in 1989.

PEARL RIVER, NY (JUNE 28) PR NEWSWIRE - The board of directors of Orange and Rockland Utilities, Inc. (O&R) (NYSE: ORU) today declared a dividend of 58-1/2 cents per share on the company's common stock. The dividend is payable on Aug. 1, 1990, to shareholders of record on July 16. This is an increase of 1 cent over the dividend paid in the previous quarter and is equivalent to an annual dividend rate of $2.34 per share.

The dividend will be O&R's 317th consecutive quarterly payment. Approximately 27,000 shareholders own the 13 million shares of common stock outstanding.

The board also declared regular quarterly dividends on all outstanding preferred and preference stock.

Orange and Rockland Utilities, Inc. and its subsidiaries serve an area of 1,350 square miles and an estimated population of 655,000 in southeastern New York State, northern New Jersey and northeastern Pennsylvania. It generates, distributes and sells electricity, and distributes and sells natural gas.

WARREN, NJ (JUNE 28) PR NEWSWIRE - Immunomedics, Inc. (NASDAQ: IMMU) announced today that it has entered into a collaborative research agreement with ImmunoGen, Inc. (NASDAQ: IMGN) to evaluate combining certain proprietary technology of the two companies. Immunomedics will provide one of its antibodies which is highly specific for colorectal cancer, and ImmunoGen will provide its proprietary cytotoxic agent technology.

"We are pleased to be working with ImmunoGen," noted Immunomedics' president, Russell C. McLauchlan. "Combining the talents and resources of both companies may accelerate an otherwise lengthy process in the development of a cancer therapeutic."

When antibodies are conjugated to potent cytotoxic agents through chemical modification, three important characteristics of the conjugate must be evaluated: the ability of the antibody to identify tumor antigen, the selective delivery of the cytotoxic agent to the tumor, and the cytotoxic effect on the tumor. Initially, the arrangement calls for laboratory testing of these properties.

Immunomedics is a biopharmaceutical company applying innovative technology to the development of new methods and products using antibody-based radioisotopes and drugs for diagnosis and therapy of cancer, infection and other diseases. The company maintains corporate headquarters in Warren and research facilities on the campus of the University of Medicine and Dentistry of New Jersey in Newark.

HERSHEY, PA (JUNE 28) PR NEWSWIRE - Pennsylvania-American Water Co. (PAWC) and the Pennsylvania Public Utility Commission (PUC) have agreed to avoid further legal confrontation over alleged violations of PUC rules regarding customer service, it was announced today.

The agreement calls for a $20,000 contribution by Pennsylvania-American Water Co. to the Dollar Energy Fund Agency to assist low-income families with their water bills and a $5,000 fine to be paid to the PUC. Any future violations also will result in contributions to the fund.

"The agreement appealed to us as an incentive to keep improving all aspects of our customer service," G.C. Smith, PAWC president, said. "The fact that we avoid very costly litigation of these cases, and at the same time provide some assistance to low-income families to pay their water bills also appealed to us."

PAWC has initiated a wide variety of customer service improvements over the last 15 months, and in the agreement, the PUC recognizes that the measures the company has taken have improved the customer service aspect of its business.

PAWC believes that its customer service has improved so significantly that it has agreed to a system of contributions as evidence of its intention to continue this level of service in the future.

Under the structure of the agreement, PAWC has agreed to make contributions in the future to the Dollar Energy Fund Agency for violations of PUC customer service regulations. These contributions could range from $250 to $1,000, and would remain in effect for the two-year period of the settlement agreement. A partial listing of some of the measures taken by PAWC to improve its customer service includes:

- Professional customer service retraining seminars for more than 400 employees;
- Streamlining the process of responding formally to PUC customer service inquiries;
- Acceleration of a program to provide remote metering devices to all customers by Dec. 31, 1991;
- Installation of on-line compr?ized customer information systems in all business offices;
- Converting of customers to monthly meter reading and billing to provide early identification of plumbing leaks;
- Introduction of a new plain language bill to provide daily water usage information in graphic form;
- Standardizing customer service procedures throughout the state; and
- Introduction of "Save-A-Check," an automatic bill payment process to eliminate check writing and postage costs for the customer.

INDIANAPOLIS (JUNE 28) PR NEWSWIRE - Merchants National Corporation (NASDAQ: MCHN) has announced that it has agreed in principle to acquire LaPorte Bancorp whose principal subsidiary is LaPorte Bank & Trust Company.

The announcement, which was made in LaPorte and Indianapolis, is Merchants

20th announced acquisition.

The agreement is subject to approval by the boards of directors of Merchants National Corporation and LaPorte Bancorp, as well as the shareholders of LaPorte Bancorp, LaPorte Bank & Trust Company and regulatory agencies.

LaPorte Bancorp had total assets of approximately $140.0 million at May 31 1990. LaPorte Bank & Trust Company has three banking locations in LaPorte and a branch in Union Mills.

George L. Dearborn, chairman of LaPorte Bank & Trust Company, said of the agreement, "While our customers will still know us as LaPorte Bank & Trust we are pleased to become part of Merchants National Corporation. This affiliation will help us maintain our goal of realizing the highest and most positive results for our customers."

James D. Massey, president and chief operating officer of Merchants National Corporation, said, "We are pleased to welcome LaPorte Bancorp to the growing Merchants National Corporation family. LaPorte Bank & Trust Company is a well-managed bank with a strong position in its market. This agreement is designed to enhance the quality products and services already offered by the bank."

Merchants National Corporation, an Indiana multibank holding company headquartered in Indianapolis, is the second largest publicly held bank holding company in the state. A network of subsidiary banks serves the banking and financial needs of customers in Indiana and contiguous states. The corporation, through its subsidiaries, offers a broad range of commercial, retail, and mortgage banking services as well as trust and investment services.

NEW YORK (JUNE 28) PR NEWSWIRE - The Franklin Holding Corporation (AMEX: FKL) (Delaware) announced today that its wholly owned subsidiary, The Franklin Corporation SBIC, has notified the Small Business Administration ("SBA") of its intention to repurchase its remaining SBA guaranteed debentures on July 16, 1990.

The $3.5 million outstanding SBA debentures, which had been scheduled to mature on September 1, 1993, will be repurchased pursuant to a plan whereby The Franklin Corporation SBIC will surrender its license as a Small Business Investment Corporation. Subsequent to the repurchase and

surrender of license, Franklin will no longer be subject to the investment restrictions of the SBA program. Mr. Stephen L. Brown, Chairman of The Franklin Holding Corporation (Delaware), said: "The surrender of our SBA charter is a positive step for Franklin as we will now be able to pursue a unified investment objective and use the assets of the Corporation, free of SBA restrictions, to acquire majority ownership positions in operating companies."

Franklin, a closed-end investment company, trades on the American Stock Exchange under the symbol FKL.

#90179p0830 06/28/1990 ~PR Newswire

NEW YORK (JUNE 28) PR NEWSWIRE - Ampal-American Israel Corporation (AMEX: AIS.A; NASDAQ: AMPLP) announced today that an offer has been received from Bank Hapoalim B.M. for the purchase of substantially all of the industrial loan portfolios of Ampal's three development banking subsidiaries in Israel.

Under the terms of the offer, Bank Hapoalim would acquire substantially all of the industrial loan portfolios held by the development banking subsidiaries based on the approximately $875 million book value of the loans at Dec. 31, 1989. The consideration for the transaction, which would be effected in New Israeli Shekels, would consist of the assumption by Bank Hapoalim of liabilities for borrowed money of the subsidiaries in the aggregate principal amount of $822 million as of Dec. 31, 1989, and the payment of approximately $53 million in cash to the development banking subsidiaries. The liabilities include approximately $547 million of net liabilities to Bank Hapoalim and approximately $189 million of liabilities to Ampal and other of its subsidiaries. The cash payment is to be deposited with Bank Hapoalim upon terms sufficient to fund the repayment over the next 15 years of the outstanding debentures of one of the development banking subsidiaries in the principal amount of approximately $50 million at Dec. 31, 1989. Transactions and expenses relating to the loans and liabilities to be purchased or assumed occurring after Dec. 31, 1989, would be for the account of Bank Hapoalim.

The proposed transaction will be reviewed by and is subject to the approval of independent board committees (consisting of persons not affiliated with Bank Hapoalim) at Ampal and each of the development banking subsidiaries and the boards of directors of Ampal and each of the development banking subsidiaries. The offer, which is valid until Aug. 15 1990, is also subject to the approval of the board of directors of Bank Hapoalim, Israeli regulatory authorities and to the execution of a

definitive agreement.

Bank Hapoalim is the principal stockholder of Ampal. Ampal and its development banking subsidiaries have engaged the services of Shearson Lehman Hutton Inc. to provide financial advisory services in connection with the subject transaction, to participate in its negotiation and to render a fairness opinion, from a financial point of view, of the consideration to be received. The development banking subsidiaries have also engaged Ben-Shahar Associates of Tel Aviv, Israel to render an additional fairness opinion to their boards of directors regarding the transaction.

During 1988 and 1989 a number of factors, including changes in Israeli banking and currency regulations, changes in the Israeli economy and capital markets and changes in relative interest rates in the United States and Israel, resulted in the cessation during 1989 of new lending activities by Ampal's development banking subsidiaries.

In addition to the financing activities of its development banking subsidiaries, Ampal-American Israel Corporation and its subsidiaries are engaged in industrial, agricultural, real estate, hotel and tourist enterprises in Israel.

#90179p0831 06/28/1990 ~PR Newswire

CHICAGO (JUNE 28) PR NEWSWIRE - Jay B. Walters has been promoted to chairman and chief executive officer of Blunt Ellis & Loewi, Incorporated, effective immediately, announced James R. Boris, chairman, president and chief executive officer of Kemper Securities Group Holdings, Inc. (KSGH).

Walters, who will be reporting to Thomas E. Meade, president and chief operating officer of Kemper Securities Group (KSG), succeeds Thomas S. Franke, who resigned his post in late May to pursue other interests.

"Jay is an extremely accomplished senior executive with extensive managerial experience," said Boris. "We are very excited that he will be leading this fine organization. Throughout his career, Jay has demonstrated exceptional administration skills in an industry that is fiercely competitive. He is the ideal candidate to assume this important post at Blunt Ellis & Loewi.

"Jay joined Blunt Ellis & Loewi in May 1990 as director of corporate finance and in the short period of time he has been with the firm has demonstrated strong leadership and management skills," Boris continued. Prior to joining Blunt Ellis & Loewi, he was president of Commercial and

Investment Banking for First Bank System (FBS), based in Minneapolis. Responsible for a staff of 2,000 and $10 billion in assets, Walters managed FBS' commercial, corporate, leasing, international, cash management, capital markets and merchant banking operations, as well as its Wisconsin Division. From 1983, when he joined FBS, to 1987, Walters was the chief executive officer of FBS Wisconsin, with overall responsibility for operations, and the firm's commercial, retail and trust lines of business in that state.

Walters also was an executive vice president with Sears Bank and Trust Company's Banking Group, and spent ten years with the Harris Trust and Savings Bank, ultimately reaching the position of vice president and division head of financial consulting/corporate finance.

Blunt Ellis & Loewi, Incorporated, is Kemper's top brokerage firm in mutual fund assets under management. Based in Milwaukee and Chicago, and licensed as a broker/dealer in all 50 states and the District of Columbia, Blunt Ellis & Loewi does most of its business in the midwestern states. Founded in 1928, the firm has approximately 520 investment brokers and a retail branch system of 71 offices throughout the Midwest.

NEW YORK (JUNE 28) PR NEWSWIRE - Mobil Corp. (NYSE: MOB) announced today that its exploration and producing affiliate, Mobil Producing Nigeria, has finalized agreements with the Nigerian National Petroleum Corp. (NNPC) and the Nigerian Government to develop the Oso Field, offshore Nigeria.

The Oso Field is located in the oil mining lease 70 (OML-70) held by Mobil Producing Nigeria, 35 miles offshore the Qua Iboe Terminal operated by Mobil. Initial production from the field is anticipated in early 1993, and will rise during the first year of production quickly to a plateau rate of 100 thousand barrels of condensate per day. The field is estimated to contain nearly 500 million barrels of reserves.

The 300 million cubic feet of gas produced per day from Oso, together with the 200 million cubic feet of gas produced daily from other Mobil-operated oil fields in OML 67 and 70, will be injected to maintain the Oso Field's reservoir pressure. This will accomplish a nearly 100 percent utilization of associated gas being flared today. Estimated gas resources left in the Oso Field after the condensate has been produced will be about 3.5 trillion cubic feet.

To develop the field, Mobil and NNPC have awarded the prime construction contract, valued at approximately $400 million, to the MBJ Consortium,

comprised of the U.S. company, McDermott (NYSE: MDR); the French firm, Bouygues; and the Japanese Gasoline Corporation of Japan (JGC).

The Oso Field development will require construction of eight offshore platforms, a condensate pipeline from the Oso Field to the Qua Iboe Terminal, condensate storage tanks at the terminal, dedicated export facilities and a low-pressure gas gathering system connecting producing oil fields in OML 67 and 70 with Oso.

In signing the agreement, Alfred K. Koch, chairman and managing director of Mobil Producing Nigeria, said, "This agreement, though long in coming, is a testimony to the commitment and dedication of the international financial institutions providing loans for approximately 70 percent of total investment requirements of approximately $1 billion. They have played major roles and will continue to be critical to the project's success. We are very pleased to be a part of this important contribution to the Nigerian economy and look forward to continuing our strong and successful business relationship with the Nigerian National Petroleum Corp., the Nigerian government and the Nigerian people."

The Oso Field is owned by the Nigerian National petroleum Corp. (60 percent interest) and Mobil Producing Nigeria (40 percent interest) acting as operator.

#90179p0837 06/28/1990 ~PR Newswire

PONTIAC, MI (JUNE 28) PR NEWSWIRE - Pontiac Division today announced the timetable for the safety recall of approximately 308,000 Fieros built during the 1984 through 1988 model years to modify engine compartments to reduce the potential for engine compartment fires. Pontiac confirmed the pending recall earlier this year, but said it could not occur until dealers were supplied with the necessary parts.

Because of the number of cars involved, Pontiac is staggering the mailing of recall notices to ensure that parts will be available when Fiero owners bring their vehicles to dealers for the modifications. The first notices will be mailed during early July; the last during October.

In the interest of customer satisfaction, all current Fiero owners will receive, by separate mail, a coupon offering them a $750 rebate on any new Pontiac purchased through Dec. 31, 1990, in addition to any current rebate in effect.

As part of the Fiero recall, dealers will change decklid sealing and install a manifold shield to prevent oil and other engine fluids from

coming in contact with exhaust system components. In addition, 1984-86 model year four-cylinder Fieros will have a new manifold installed similar to 1987-88 Fiero manifolds. A general engine compartment inspection to correct possible maintenance and service deficiencies related to underhood fluid and wiring systems will complete the recall.

The staggered campaign timetable provides for Fiero owners to bring their vehicles in for the free-of-charge service starting in early July. The notification schedule follows:

APPROXIMATE NOTIFICATION MODEL YEAR ENGINE JULY
1984 -- four cylinder AUGUST
1985-88 -- six cylinder SEPTEMBER
1985-86 -- four cylinder OCTOBER
1987-88 -- four cylinder

Until their recall is completed, owners are advised to properly maintain their vehicles; four-cylinder Fiero owners should refer to the special maintenance and service booklets which were mailed last fall, and V6-equipped Fiero owners should refer to their maintenance and owners manuals.

LAS VEGAS (JUNE 28) PR NEWSWIRE - Centel Cellular Co., which serves customers in southern Nevada, will be switching over to its newly ''sectorized system'' from 10 p.m. on Friday, June 29, to 4 a.m. on Saturday, June 30.

During these six hours, a number of Centel Cellular's cell sites may be at reduced capacity, but the system will remain operational. Although unanticipated, there remains a remote possibility of service disruption during this time. Sectorization of the system will double the calling capacity currently available to customers and is designed to make cellular communication usage even more efficient.

Additionally, a new cell site in the Rancho Circle area will also be in service on June 30 and new cell sites in the Green Valley and Lakes areas are scheduled to come on line by August.

''These service improvements are part of a $10 million investment we're making this year to better service our customers,'' said Linda M. McLeod, general manager of Centel Cellular. ''If customers have questions about the new system we encourage them to call our information line at 702-365-6233.''

Fine-tuning of the new system will take place over a two-week period through July 15.

Chicago-based Centel Corp., which had 1989 revenues of $1.9 billion, provides local exchange telephone service in nine states through nearly 1.6 million access lines, operates cellular communications franchises in 44 markets and supples electric powers to nearly 136,000 customers in two states.

CONTACT: Linda M. McLeod of Centel Cellular, 702-365-6500.

#90179p0839 06/28/1990 ~PR Newswire

IRVINE, CA (JUNE 28) PR NEWSWIRE - A dramatic breakthrough has been achieved in smoothing the flow of bookings in the burgeoning $11 billion cruise industry. As a result of considerable effort over the past 18 months, World ComNet has completed development of the travel industry's first all-encompassing automated cruise booking system, which it has named CRUISINC.

Prior to this development, travel agents who wished to book cruises had to call into a limited number of cruise line reservation centers - and likely be kept on hold for extended periods, simply to make one reservation.

Cruises have been the fastest growing component of the leisure travel industry, achieving five-fold growth over the past decade. They now account for about 13 percent of travel agency revenue - which is more than hotels do. In addition, over 95 percent of cruises are booked by travel agents or agents who specialize in cruises only.

Because there are over 30,000 travel agencies in the United States and only eight major cruise lines, tremendous bottleneck was being experienced as the 200,000 plus travel agents in these agencies acted to meet the demand for cruises by calling the reservation centers of the cruise lines. To make the situation worse, most calls occur within a narrow window of about five hours per day.

World ComNet responded to this market need with the development of CRUISINC, which allows the travel or cruise agent to make confirmed cruise reservations directly from the computer terminal on their desk without having to call the cruise line.

A massive computer network for the booking of airline seats is already in place in most U.S. travel agencies. These systems, known as CRS' (Computer Reservations Systems) account for 94 percent of airline tickets booked by travel agents. They maintain extremely complex inventory controls for the

airlines, allowing these companies to determine sales and adjust pricing on a moments notice.

The key advantage for the airlines is that the travel agent performs the reservation work directly in the database, with no airline employee required in the transaction. For the travel agent, it is much more convenient to be able to provide instant confirmation to clients without having to call an airline to check.

Four separate companies provide these services to travel agents - SABRE (owned by American Airlines), Apollo (owned by the COVIA partnership of United Airlines, British Airways, Swissair, USAir, KLM, and Alitalia), WorldSpan (owned by Delta Airlines, Northwest Airlines, and TWA), and System One (owned by Continental Holdings Inc.).

Together, they have installed a network of over 190,000 terminals in travel agencies. It is significant that the most powerful airlines are those which also have a stake in computer reservation systems. The systems themselves have also become major assets in their own right.

PITTSBURGH (JUNE 28) PR NEWSWIRE - Thomas H. O'Brien, chairman, president and chief executive officer of PNC (NYSE: PNC), today announced that Richard C. Caldwell will join PNC as executive vice president.

Caldwell has also been elected executive vice president of Provident National Bank and will be responsible for directing the overall trust and money management operations of PNC and Provident.

Caldwell joins PNC from Harris Trust and Savings Bank in Chicago, where he was executive vice president and manager of the Trust Division. He will join PNC on July 16.

Robert E. Chappell, vice chairman of PNC and chairman and chief executive officer of Provident, said, "We're delighted that Dick will be joining us, and I look forward to the expertise and management style that he will bring. We found a good fit in Dick; he shares our commitment to providing a high level of customer service, quality and investment performance."

PNC's Trust and Money Management operation is fifth largest among U.S. banks, ranked by trust assets under management. At the end of the first quarter, PNC had more than $96 billion in assets under management.

Caldwell joined Harris in 1975 and held a variety of positions in the

Trust Division, including managing corporate trust, corporate trust employee benefits and institutional investments and trust sales and marketing for the institutional department. He also managed personal trust.

Caldwell holds a bachelor's degree in literature from Kenyon College and an M.B.A. from Emory University. He served as a lieutenant in the U.S. Army.

PNC Financial Corp, headquartered in Pittsburgh, is the nation's 14th largest bank holding company with assets of $46.6 billion. PNC was formed in 1983 with the consolidation of Pittsburgh National Corp., Pittsburgh, and Provident National Corp., Philadelphia. Its principal banking affiliates include: Bank of Delaware Corp., Wilmington, Del.; The Central Bancorporation, Inc., Cincinnati (includes banks in Ohio and Kentucky); Citizens Fidelity Corp., Louisville, Ky. (includes banks in Kentucky and Indiana); The First Bank and Trust Co., Mechanicsburg, Pa.; The Hershey Bank, Hershey, Pa.; Marine Bank, Erie, Pa.; Northeastern Bank of Pennsylvania, Scranton, Pa.; Pittsburgh National Bank, Pittsburgh.; Provident National Bank, Philadelphia; PNC National Bank, Wilmington, Del.; and PNC National Bank of New Jersey, Cherry Hill, N.J. PNC currently operates 529 community banking offices in Pennsylvania, Kentucky Indiana, Ohio, Delaware and New Jersey. It also conducts business through additional offices in 15 states and seven foreign countries.

BALTIMORE (JUNE 28) PR NEWSWIRE - Donald R. Yearwood, senior vice president of American Trading and Production Corp., was elected today a director of Crown Central Petroleum Corp. (AMEX: CNP).

He replaces J. Warren Weiss, retired senior vice president and chief financial officer of American Trading, who served on Crown's board for 20 years.

Yearwood was promoted to senior vice president of American Trading in 1989 after serving as president and chief executive officer of the American Trading Transportation Co. Inc. for six years. He was named a director of the privately held company earlier this month.

Yearwood is an authority on tanker transportation issues. He is a member in the Society of Naval Architects and Marine Engineers, the American Bureau of Shipping, the Society of Marine Port Engineers, and he serves as a director of the U.S. Merchant Marine Academy Foundation and an officer of the academy's alumni association.

BOISE, ID (JUNE 28) PR NEWSWIRE - William M. Agee, chairman and chief executive officer of Morrison Knudsen Corp. (MK) (NYSE: MRN), today announced receipt of a contract for construction management of a $219-million plant renovation for General Motors Corp. (NYSE: GM).

The contract was awarded to MK by the Truck and Bus Group of General Motors. MK will manage the upgrading of GM's Shreveport, La., Assembly Plant, where it worked as construction manager when the plant was built in the late 1970s.

This is the 24th major contract MK has performed for General Motors in the past 10 years.

"This high-technology upgrade of a major manufacturing plant represents repeat business from a long-term client. We are pleased to be called on to assist General Motors keep pace in a rapidly changing industry," Agee said.

The contract calls for the retrofit and re-tooling of the plant for a new model of light pickup truck to be produced at Shreveport for the 1993 model year. This new model program involves three assembly complexes and two metal fabricating plants. MK is currently advancing metal fabricating retrofit work at Indianapolis and at Flint, Mich.

Preconstruction services at Shreveport will begin immediately, with the bulk of construction and tooling installation taking place over the nex two years.

CHICAGO (JUNE 28) PR NEWSWIRE - Jon S. Brightman, senior vice president, has been named head of the Trust Department of Harris Bank, Chicago. His appointment is effective July 13.

Brightman, 52, succeeds Richard C. Caldwell, who will join PNC Financial Corp., as senior trust officer headquartered at Provident National Bank, Philadelphia, where his title will be executive vice president.

Brightman previously served as head of Harris' Institutional Trust Group,

responsible for trust services to pension and profit sharing clients, including securities lending activities, investment consulting and participant record keeping services.

In his new post he is responsible for these institutional trust services as well as corporate trust services, trust operations and trust systems.

Brightman joined Harris in 1982 and has held a succession of post, including that of manager of the Master Trust Division. In his career of more than 25 years in the pension and investment field, he has been an investment manager, a consultant and a fund sponsor.

He received the A.B. degree in 1960 from Bowdoin College and holds the professional designations of Chartered Financial Analyst and Chartered Property Casualty Underwriter.

Brightman resides with his family on Chicago's North Side.

WATERTOWN, MASS. (JUNE 28) PR NEWSWIRE - Ionics, Inc. (AMEX: ION) announced today that it had received a $2.9 million contract from the Greater Texoma Utility Authority, Denison, Texas to furnish and install a 4.5 million gallon per day water desalting plant. The desalted product water is expected to be blended to produce up to 7.5 million gallons per day of municipal drinking water.

The new facility, scheduled to be on line in 1992, will utilize the electrodialysis reversal ("EDR") membrane process to remove excess dissolved salts and minerals from clarified and filtered Lake Texoma water having a mineral content up to 1,400 parts per million. The EDR desalting plant is part of the 10 million gallon per day City of Sherman (Texas) Lake Texoma Surface Water Treatment project which was designed for the Authority by CH2M-Hill a leading national consulting engineering firm.

Commenting on the contract, Arthur L. Goldstein, chairman of Ionics said, "This contract follows the successful start-up in 1989 of the 3.5 million gallon per day Ionics EDR plant purchased by the Brazos River Authority to serve another rapidly growing Texas region 30 miles southwest of Fort Worth. The EDR process offers long membrane life, high water recoveries, and low costs in the demineralization of the highly mineralized surface waters which are common in the rivers of the mid-continent U.S.A."

Ionics is a separations technology company involved worldwide in the manufacture and sale of membranes and related equipment for the

purification of water, in the supply of purified water and water treatment chemicals, and in the sale of bottled water and home water purifiers.

#90179p0847 06/28/1990 ~PR Newswire

PHILADELPHIA (JUNE 28) PR NEWSWIRE - Beginning Saturday, June 30, Bell of Pennsylvania customers using a touchtone phone can have a number provided by directory assistance dialed automatically.

The new technology is the biggest directory assistance change since they converted from thumbing through paper directories to finding numbers by computer. The service is being introduced in Philadelphia and will be available statewide in about six months.

With the new option, customers dialing 555-1212 will ask for the number as they have in the past. Then, by simply pushing "1" on a touchtone phone, for only 30 cents more, the Bell Atlantic Intelligent Network will automatically dial the number. Simple instructions will be provided over the phone.

"We feel customers will appreciate how hassle-free this new service is, particularly if they're using a coin phone," said Rhonda Lockwood, product line manager-operator services. "With Directory Assistance Call Completion, there's no need to write down the number, hang up and dial. One call will do it all."

Residence customers are currently allowed two free directory assistance calls per month and then are charged at the rate of 35 cents for each additional call.

Handicapped customers, who have already obtained an exemption from directory assistance charges, will be able to use the Directory Assistance Call Completion option free of charge.

Customers with rotary or pulse phones also will be given the option of having their calls completed through the directory assistance operator, however, the operator assistance rate ($1.30) will apply in addition to the 30 cent charge.

"In the past, a great many customers who called directory assistance wanted us to place the call for them. Until now, we did not have the equipment in place to do so. But experience tells us that the new Directory Assistance Call Completion service is going to provide the convenient option our customers have been looking for," Lockwood said.

CHICAGO (JUNE 28) PR NEWSWIRE - Prime Cable and Group W Cable Associates of Chicago announced today that the previously announced sale of the Group W Cable systems in Chicago to Prime Cable of Chicago Inc., a Prime Cable affiliate, has been concluded.

Prime Cable of Chicago Inc. purchased the Group W Cable systems in Chicago for approximately $213 million in cash. Sale proceeds will be used to retire debts and liabilities of Group W Cable Associates. After the business and affairs of Group W Cable Associates are concluded, remaining assets will be liquidated and remaining sale and liquidation proceeds will be distributed to Group W Cable Associates investors.

Group W Cable Associates of Chicago is a limited partnership consisting of approximately 550 investors that prior to the sale operated the cable systems. The cable systems serve approximately 111,500 subscribers in two franchise areas encompassing approximately 410,000 homes in north central and northwest Chicago.

Prime Cable of Chicago Inc. is owned 75 percent by TC Cable Inc. and 25 percent by Prime Venture II, L.P., an affiliate of Prime Cable. Prime Cable is a multiple system operator based in Austin, Texas, which prior to the acquisition of the Chicago cable systems was serving approximately 420,000 subscribers.

BEVERLY HILLS, CA (JUNE 28) PR NEWSWIRE - Eric Belcher has joined Twentieth Century Fox as vice president, Field Operations/ Promotions, it was announced today by Geoff Ammer, senior vice president, Marketing.

Reporting directly to Ammer, Belcher will be responsible for supervising all regional publicity and promotional campaigns as well as press junkets in support of Twentieth Century Fox's motion picture releases. The field operations staff of Fox's six regional offices will report directly to Belcher.

Belcher comes to Fox from D'Arcy, Masius, Benton & Bowles, where he was vice president/account supervisor. In his two years at the agency, his assignments included supervising and directing creative efforts and media

projects on behalf of NBC television programming, including entertainment, news and sports. Prior to DMB&B, Belcher was Director of Advertising, ABC Motion Pictures, Novels and Limited Series for Television, working on such landmark projects as "War and Remembrance" and "Elvis and Me."

Belcher previously served as director of Publicity and Promotion for ABC Motion Pictures; director of Publicity, Universal Pictures, and director of National Publicity and Promotion for Embassy Pictures. He has also been Publicity/Promotion Coordinator for both Columbia and Twentieth Century Fox.

Ammer, in making the announcement, commented: "Eric Belcher brings an innovative approach and a broad range of experience to a very important part of the studio's overall marketing efforts. We are pleased to have him aboard."

During his 10-year career in motion picture marketing, Belcher has contributed to such successful campaigns as "Prizzi's Honor," "Fanny and Alexander," "A Chorus Line," "The Emerald Forest," "The Verdict," "Porky's " "Stir Crazy," "The Blue Lagoon," "The River," "This is Spinal Tap," "The Breakfast Club," "Brewster's Millions," and "The Sure Thing."

Twentieth Century Fox is primarily engaged in the financing, development, production, distribution and marketing of motion pictures throughout the world and is a unit of Fox Inc.

PHILADELPHIA (JUNE 28) PR NEWSWIRE - The Rocking Horse Child Care Centers of America, Inc. (NASDAQ: RHCC) told shareholders at the company's annual meeting here today that for the second quarter ending June 30, 1990 it expects to achieve record revenues and operating income, and a net profit large enough to erase the first quarter deficit, according to Douglas E. Carneal, chairman of Rocking Horse.

Carneal attributed his favorable first half forecast to increased revenues quick improvement in the productivity and profitability of newly acquired centers and lower interest charges.

"Rocking Horse has effectively enhanced revenues and profitability of the Merryhill Schools and Children's Park acquisitions made during the past year by utilizing our operational expertise to run tighter cost controls, increase enrollment, implement a more aggresive pricing structure and increase ancillary income programs. This resulted in a fast turn around of these newly acquired centers, although there is still more potential to be realized," Carneal stated.

In the first quarter of this year ended March 31, 1990, Rocking Horse had

revenues of $9,108,363 and a net loss of $(152,793), or $(.01) per share. In last year's first six months ended June 30, 1989, Rocking Horse had revenues of $10,972,462 and net income of $479,159, or $.04 per share.

The Rocking Horse Child Care Centers of America, Inc., headquartered in Cherry Hill, N.J., has been cited by INC. Magazine as the nation's fastest growing publicly traded child care company over the last five years. Since 1985, the company has grown from an operator of six child care centers, to an operator of 101 centers delivering high quality child care in 10 states.

NEW YORK (JUNE 28) PR NEWSWIRE - Telemundo Group, Inc. (NASDAQ-NMS: TLMD) announced today that it has agreed to sell 2,000,000 shares of newly issued common stock to Reliance Capital Group, L.P., the company's principal shareholder, and 4,000,000 shares to Reliance Insurance company at a purchase price of $12,500,000 and $25,000,000 cash, respectively, for an aggregate purchase price of $37,500,000.

The sale is expected to be consummated on or about July 9, 1990. The company intends to use the proceeds of the sale to repurchase a portion of its outstanding long-term debt and for working capital.

Following the sale of the new shares, Reliance Capital and Reliance Insurance Company will increase their ownership of Telemundo common stock to approximately 43 percent and 35 percent, respectively, of the 36.9 million shares then outstanding.

Telemundo Group, Inc., based in New York City, is a Spanish-language television network operating in the United States, reaching 78 percent of U.S. Hispanic households through its owned-and-operated stations and affiliates in 37 markets. The company also owns and operates WKAQ-TV, the dominant station in Puerto Rico.

Programming produced at Telemundo's production facilities in Florida and Puerto Rico is syndicated by the company to international markets.

BRIDGEPORT, CT (JUNE 28) PR NEWSWIRE - The Hydraulic Company (NYSE: THC), of Bridgeport, said its Bridgeport Hydraulic Company (BHC) water utility subsidiary yesterday completed the placement of a $7 million unsecured debt refinancing through underwriter Smith Barney, Harris Upham & Co., Inc.

The tax-exempt bonds, which have a coupon rate of 7.25 percent and mature on June 1, 2020, were priced at $99.387 to yield 7.30 percent, according to William F. Emswiler, senior vice president and chief financial officer.

"This new rate of 7.25 percent, compared with the prior rate of 9.375 percent, will save BHC's customers over $148,000 annually," he said.

The issue, which comprised water facilities' refunding revenue bonds of the Connecticut Development Authority, is rated "A" by Standard & Poor's.

BHC serves a population of approximately 500,000 in 18 communities in Fairfield, Litchfield and New Haven Counties.

THC is a diversified corporation whose core business is public water supply. THC also is engaged in nonutility enterprises, including diversified water management services, forest products and electricity cogeneration, and real estate.

#90179p0873 06/28/1990 ~PR Newswire

DENVER (JUNE 28) PR NEWSWIRE - Cyprus Minerals Co. (NYSE: CYM) today announced it will write down approximately $27.5 million of its investment in the company's Kanawha coal mine property in West Virginia in June and may expense development costs of approximately $7 million in the second half. Cyprus acquired the property for $20 million in March of 1989 and spent approximately $38 million for equipment, developing surface reserves and performing reclamation. Located in Fayette County, southeast of Charleston, the acquisition included underground and surface mining operations and a loading dock on the Kanawha River. Action to write down the property was taken Thursday by the Cyprus board of directors at its regular meeting in Denver.

Cyprus will write down the property for three reasons: lower than expected reserves in the initial mountain top mining area, higher than anticipated reclamation costs for restoration activity on previously mined areas, and the disappointing performance of highwall mining machines.

Also contributing to problems at the mine was a United Mine Workers of America sympathy strike in the summer of 1989, which idled Kanawha for six

weeks and delayed mine planning and development. Cyprus Kanawha produced approximately 500,000 tons in 1989. Previously, production had been expected to increase to 1.9 million tons annually by 1990 with approximately 1 million tons per year from mountain top removal.

Cyprus' board of directors authorized expansion of mountain top mining at Kanawha to increase annual production to approximately 1.6 million tons. Additional capital spending, for new equipment and for further mine development, is necessary. The adverse performance of the mine to date has impacted only a small portion of the 7,000 acres acquired. Substantial additional mine property remains, and Cyprus will continue to evaluate its potential.

Kenneth J. Barr, chairman and chief executive officer of Cyprus Minerals said, "The problems which we have encountered at the Kanawha property, with the negative impact on our second quarter coal earnings, delays our progress toward improved earnings from our coal operations. Previous forecasts of production from the Kanawha property have proved unrealistic, and action was required to improve the situation. Progress at our other coal operations is continuing."

Cyprus Minerals, headquartered in Englewood, Colo., is a major producer of copper, molybdenum, lithium, and talc, and is one of the 20 top coal producers in the United States.

NEW YORK (JUNE 28) PR NEWSWIRE - Shoppers' Video, the New York- based in-store advertising network announced today an alliance with NYNEX Computer Services Company, which will be responsible for the installation, maintenance, and operational support of the system. The Shoppers' Video network is scheduled to expand to 4,000 supermarkets by 1992.

The Shoppers' Video/NYNEX alliance will be expending more than $50,000 per supermarket to install the necessary equipment. When Shoppers' Video is operating in the 4,000 supermarkets, a total investment of $200 million will have been made.

The entire network originates from a central location and employs state-of-the- art technology to create and transmit the advertisements to

the stores. This allows advertisers to alter ads quickly system-wide, by market, or on a store- by-store basis. Shoppers' Video can specify aisle location, special pricing, promote specials, execute contests and can tie into coupon or Frequent Shopper programs.

The Shoppers' Video system uses the latest computer-animated technology to produce lively, graphic in-store advertising that is highly visible throughout the store. Each of the high resolution monitors (20 per 40,000 square feet) are strategically placed at top shelf height in high traffic areas.

Shoppers' Video is responsible for selling the advertising spots to the major package goods manufacturers as well as arranging for the production and implementation of each advertisement. The advertisers' funds come from corporate budgets and are advertising agency commissionable. In fact, Shoppers' Video is the only in-store advertising medium to offer the standard agency commission.

A recent Yankelovich, Clancy, Schulman study conducted throughout West Texas and New Mexico, where Shoppers' Video operates in 50 supermarkets, revealed that the network increases sales up to 195 percent and awareness of products advertised on the network by as much as 37 percent, while decreasing awareness of products by 45 percent that don't advertise on the network. The same study concluded that Shoppers' Video changed 27 percent of shoppers' brand decisions entirely from their usual brand to the brand advertised on the Shoppers' Video network.

Shoppers' Video bridges mass media advertising to the shopping environment and capitalizes on the fact that 67 percent of all buying decisions are made in the store, as well as the fact that shoppers spend only 11 seconds making each purchasing decision and half of all shopping trips are under 22 minutes.

CONTACT: Mike LaTurreca of NYNEX, 914-620-5274, or Scott Tangney or Randi Kronenberg of Lobsenz-Stevens, 212-684-6300, for Shoppers' Video.

HARTFORD, CT (JUNE 28) PR NEWSWIRE - Travelers has joined with two major agency automation vendors to establish the Alliance for Productive Technology (APT). The alliance will develop products that will enable independent agents to more easily manage their business and make it less complicated to communicate electronically with their insurance companies.

Specifically, APT will develop standardized automation tools which will support agents' freedom to choose insurers and automation vendors, allow companies to continue their unique product requirements, and maintain

competition among hardware and software vendors.

"This is a substantial step forward in industry efficiency," said Lawrence E. Bacon, senior vice president, Data Processing. "We are particularly pleased that APT's products are based on standardization and open architecture. The competition it will promote among vendors will lead to better systems in agents' offices and faster, more efficient electronic communications -- a real advantage for agents who must exchange information quickly and reliably."

Joining the alliance is another step forward in Travelers' continuing strategy to provide its agents and employees with the best technological tools to improve productivity and control expenses.

"It is essential that agents have access to state-of-the-art technology," said Richard H. Booth, vice chairman, Insurance Operations. "Travelers' partnership in APT is indicative of its commitment to the development of interface technology and its belief in the benefits of standards-based interface within the insurance industry."

In a related move, Travelers said it was eliminating the software-development and sales functions of its subsidiary, Travelers/EBS Inc. The company will continue to honor all of its obligatios to existing customers supporting their software requirements and meeting all financial commitments.

To provide EBS customers with ongoing automation opportunities, Travelers has entered into a preferred arrangement with Agency Management Services (AMS) and Applied Systems Inc.

"We believe that agents' current and long-term needs will be best served by systems produced by AMS and Applied Systems," Booth said.

NASHVILLE, TN (JUNE 28) PR NEWSWIRE - Service Merchandise Company, Inc. (NYSE: SME) announced today that it had completed an offering of $90 Million First Mortgage Secured Notes due 2000.

The mortgage financing is based on a spread over LIBOR with a current cost to the Company of 9.5 percent. The notes were privately placed with institutional investors. The Long-Term Credit Bank of Japan, Ltd. is acting as administrative agent in the financing.

Proceeds from the sale of the secured notes are being used to repay

amounts outstanding under the Company's real estate bridge loan incurred last year as part of its recapitalization financing.

The remaining $50 million outstanding real estate bridge loan will be converted in July 1990 to a term loan due in 1995 which can be refinanced at any time at the Company's option.

Raymond Zimmerman, Chairman, President and CEO of Service Merchandise, said, "We are pleased with the terms of this permanent mortgage financing and its effect on our overall capitalization." Merrill Lynch Capital Markets acted as placement agent in connection with the sale of the notes.

Service Merchandise Company, Inc., "America's Leading Jeweler," operates 337 catalog showrooms in 37 states.

LAKE BUENA VISTA, FL (JUNE 28) PR NEWSWIRE - Walt Disney World Co. has made a $1.5 million "down payment" which clears the way for public financing of affordable housing in Central Florida.

The company today closed on the purchase of residuals from a 1980 bond issue, freeing up almost $80 million for new low-cost mortgages. As many as 1,200 families in the modest-income bracket will benefit as first-time home buyers in Orange, Osceola, Seminole and Lake counties.

Today's closing in Miami followed a painstaking two-month effort by the Orange County Housing Finance Authority to refinance some 1,400 mortgages covered by the 1980 bond issue. By purchasing the residuals, Walt Disney World allows the authority to refinance the former bond issue and make $80 million available for new-home mortgages from 1990 tax-exempt bond money.

In addition, Disney has volunteered that any profit from the investment will be turned over to the Orange County affordable-housing effort.

"The most exciting aspect of this venture is the idea of business and government coming together in a partnership to benefit the citizens of Orange County," said Orange County Commissioner Linda Chapin.

In a joint effort to expand the focus on affordable housing needs, Orange County and Disney plan to co-sponsor a symposium this fall. It will bring together national experts, such as architects, and Central Florida builders and major employers.

"It is great that Orange County and Walt Disney World can join together for the benefit of providing low-cost mortgages for residents of Central Florida," said Dick Nunis, president of Walt Disney Attractions.

#90179p0915 06/28/1990 ~PR Newswire
SUNNYVALE, CA (JUNE 28) PR NEWSWIRE - Dionex Corporation (NASDAQ: DNEX) announced today that it will assume direct responsibility for the sales and servicing of its products in Japan, the world's second largest market for analytical instruments. As a result of this change, approximately 90 percent of the company's worldwide sales will be through its own marketing sales and service organizations.

The change to direct distribution in Japan will result in a pre-tax charge against earnings of approximately $900,000 for the company's fourth quarter ending June 30, 1990. This charge includes costs related to the termination of Dionex's existing distributorship relationship in Japan and the start-up of its new Japanese subsidiary, Nippon Dionex K.K.

In a separate transaction, Nippon Dionex K.K. will acquire from the former Dionex distributor certain assets associated with the existing Dionex business in Japan for approximately $1.3 million, which includes $250,000 for the repurchase of Dionex inventory.

A. Blaine Bowman, Dionex president and chief executive officer, commenting on these developments said, "Our goal in establishing a direct presence in Japan is to further strengthen our position in this important market. A direct sales and service organization will enable us to better serve the more than 1,000 current users of Dionex instruments in Japan, and will establish a solid foundation for expanding our customer base in the future."

"We expect the transition to a direct operation will take several months. During the transition period, we will work closely with our distributor to ensure a continued high level of service to our customers in Japan," Bowman concluded.

Dionex Corp. is a leading manufacturer and marketer of chromatography systems for chemical analysis. The company's systems are used in environmental analysis and by the chemicals, petrochemicals, life sciences power generation and electronics industries in a wide variety of applications.

NEWTON UPPER FALLS, MA (JUNE 28) PR NEWSWIRE - GZA GeoEnvironmental Technologies, Inc. (NASDAQ: GZEA) today announced its results for the

three months ended May 31, 1990. For the first fiscal quarter, net revenue, the company's primary measure of business growth, was $8.9 million, 21.1 percent higher than during the comparable period last year. First quarter net income increased by 78.9 percent to $544,000. Earnings per share for the quarter were 15 cents compared to 12 cents last year.

The company attributed higher revenue and earnings results to an increase in volume of the company's environmental consulting and geotechnical engineering services, and increased interest income attributable to investment of the proceeds of the company's initial public offering.

GZA GeoEnvironmental Technologies, Inc. provides a wide spectrum of environmental services to industrial companies, firms involved in real estate development and finance, the solid waste industry, the construction industry, and public agencies.

The common stock of GZA GeoEnvironmental Technologies, Inc. is listed on the National Market System of NASDAQ, symbol GZEA.

WASHINGTON (JUNE 28) PR NEWSWIRE - The British Aerospace BAe 1000, the latest member of the world's best selling mid-sized 125 corporate jet family, made its public debut today.

It was unveiled at the company's Chester, North Wales, factory, where the aircraft is produced.

The maiden flight, lasting 2 hours 15 minutes, was flown by Airline Division's Chief Test Pilot Peter Sedgwick and Project Test Pilot Goerge Ellis.

The BAe 1000 is the world's first intercontinental range, mid-sized twin-engined corporate jet. It is a significant development on the current production model, the BAe 125-800, which continues in producton with the new BAe 1000.

The BAe 1000 is British Aerospace Corporate Aircraft Division's answer to customers requiring longer-range aircraft without the need to invest in larger and more expensive aircraft that currently offer longer range.

Principle features of the new aircraft are:
-- New Pratt & Whitney Canada PW305 turbofans of 5,200 lb thrust with 'fly-by-wire' Full Authority Digital Electronic Control (FADEC) and exceptionally low fuel burn of 1,165 lb/hr (528 kg/hr). Thrust reversers fitted as standard.
-- Increase of 21 percent in range to 3,635 nautical miles with VFR reserves (6,736 km).
-- Fuselage lengthened by 33 inches (84 cm) of which 85 percent is in cabin length and the remaining 15 percent is in the rear baggage area. External access for loading of baggage.
-- Take-off field performance improved by up to 15 percent.
-- New Honeywell SPZ-8000 five-tube EFIS, dual Laser Ref III inertial reference system and digital radios as standard.
-- Increased fuel capacity to 11,300 lb; 1,685 US gallons (5,126 kg) by means of large rear ventral tank and a new forward tank in fuselage/wing fairing.
-- Early deliveries of 'green' aircraft will start in the spring of 1991, with operational aircraft going into service in late summer 1991.

Sales of all versions of the 125 now stand at 770, of which 189 are for the 125-800 and 16 commitments for the BAe 1000. Since the first 125 was delivered in September 1964, BAe has sold a 125 every nine working days.

BEVERLY HILLS, CA (JUNE 28) PR NEWSWIRE - Pathe Communications Corp. (NYSE: PCC) and MGM/UA Communications Company (NYSE: MGM) today jointly announced that they have signed a merger agreement upon the terms announced by them on June 21, 1990.

Under the agreement, holders of common and preferred shares of MGM/UA will receive a total of $21.50 per share, of which $4.00 is to be paid on July 20, 1990. Closing of the transaction and the payment of the remaining $17.50 per share is expected to occur on or before Oct. 23, 1990. The

agreement is subject to similar conditions and adjustments as in MGM/UA's prior agreement with Pathe and is subject to approval by MGM/UA's board of directors.

Pursuant to the agreement, on July 20, 1990, holders of MGM/UA common and preferred shares (as of the record date of July 10) are to receive a payment out of an account funded by Pathe, in which there is presently approximately $3.13 per share ($200 million in the aggregate). The balance of the funds necessary to make the distribution of $4.00 per share approximately $53 million, is to be deposited into the account by Pathe on July 16, 1990.

Pathe intends to merge a newly formed subsidiary with MGM/UA, and MGM/UA will seek shareholder approval for the merger. Tracinda Corp., MGM/UA's controlling shareholder, has agreed to vote for the merger. Pathe is obligated to consummate a tender offer if the merger is not concluded for any reason.

In support of the acquisition, Pathe will deliver to escrow an additional $100 million, consisting of two installments of $50 million each to be paid on Aug. 21, 1990, and Sept. 20, 1990.

In connection with this announcement, Pathe also announced the termination of its tender offer for all outstanding shares of common and preferred shares of MGM/UA.

CONTACT: Scott Tagliarino of Fleishman-Hillard, 213-629-4974, for MGM/UA; or Craig A. Parsons of Rifkind Pondel & Parsons, 213-207-9300, for Pathe Communications Corp.

MIAMI (JUNE 28) PR NEWSWIRE - Eastern Airlines Chief Executive Martin Shugrue today announced three senior management promotions in marketing, advertising and corporate communications.

George J. Brennan was named senior vice president-marketing, Michael D. Henderson, staff vice president-advertising and marketing communications, and Karen M. Ceremsak, staff vice president-corporate communications.

Brennan, 42, had been Eastern's marketing vice president since 1988. He is responsible for the company's advertising and marketing programs, passenger sales and reservations, research and marketing planning, as well as industry and interline affairs.

He joined Eastern in 1970 and held field sales management positions in Boston, Washington and Baltimore before joining the airline's sales staff

in Miami. In 1985 he was named vice president of passenger sales for Eastern and later became vice president-marketing communications, with responsibility for advertising, promotion and marketing programs.

Henderson, 44, joined Eastern in 1988 as director-marketing communications and was responsible for corporate advertising, sales promotions and inflight entertainment.

He joined World Airways in 1981 as executive assistant to the chairman, and later served as director of advertising and public relations. From 1986 to 1988 he was advertising and promotions manager for Qantas Airways.

From 1974-1981 Henderson was involved in California state government as a campaign manager and legislative assistant.

He is a member of the Travel and Tourism Research Association, the Florida Domestic Tourism Advisory Committee and the Public Relations Society of America. He received a B.A. from the University of San Francisco in 1969.

Ceremsak, 30, had been director of corporate communications since 1988, having served earlier as manager of internal communications and in other positions within the department since joining Eastern in 1984.

Previously, she was an assistant editor with the U.S. Information Agency in Washington, D.C. and also served as assistant to the deputy director on The White House staff. She was a member of the Reagan-Bush National Committee campaign staff in 1980.

She is a graduate of Virginia Tech, Blacksburg, Va., with a B.A. degree in communications. She is a member of the Association of Women in Management and the Public Relations Society of America.

DALLAS (JUNE 28) PR NEWSWIRE - InterVoice Inc. (NASDAQ: INTV) announced today earnings of $1,186,151, or 21 cents per share, on sales of $4,867,647 for the first quarter of fiscal 1991, which ended May 31, 1990. This comprares to earnings of $1,125,109, or 27 cents per share, on sales of $4,842,416 for the first quarter of fiscal 1990. Earnings per share are based upon 5.78 million shares this year compared to 4.18 million last year.

As previously announced, revenues in the first quarter of fiscal 1991 were below expectations and earnings were affected accordingly. The revenue

shortfall was due in part to the delay of the new product offering based upon Operating System/2(R) software, which in turn was late in introduction by IBM. Whereas there is no assurance the reduced first quarter deliveries will be made up, the pre-release customer acceptance of the new OS/2(R) platform is gratifying. The expanded functionality of the new product strategically positions the RobotOperator(R) System in the mainstream of IBM system database and network connectivity and control. The new product delivery will commence in mid-July.

InterVoice Inc., a Dallas-based voice response company, designs, manufactures, sells and services voice automation systems. InterVoice is a publicly held company traded on the NASDAQ, National Market System under the ticker symbol INTV. Based on the IBM PS/2(R) architecture, systems are in use in numerous applications which enhance customer service and productivity in financial institutions, investment firms, Fortune 500 companies, retail firms and other companies for automated telephone operator services.

BURBANK, CA (JUNE 28) PR NEWSWIRE - Warner/Chappell Music, Inc. has purchased the nearly 2,500 songs published by The Mighty Three Music Group it was announced today by Les Bider, chairman and chief executive officer of Warner/Chappell and Kenny Gamble, Leon Huff and Thom Bell, the principal songwriters and owners of the song catalogs. Launched in 1973, Mighty Three Music and its affiliates have published virtually all of the hits contained on the more than 40 Gold and Platinum Records produced by Kenny Gamble and Leon Huff for their Philadelphia-based labels, Philadelphia International Records and The Sound of Philadelphia, and the more than 20 Gold and Platinum Records produced by Thom Bell for a variety of independent and major labels. The Mighty Three Music Group is the second largest black-owned independent music publishing company in the world.

Artists who first introduced songs published by Mighty Three and its affiliates include: The Supremes and The Temptations ("I'm Gonna' Make You Love Me") The O'Jays,("Backstabbers," "Love Train"), The Stylistics ("You Make Me Feel Brand New," "Betcha By Golly Wow"), Harold Melvin and The Blue Notes ("Wake Up Everybody"), The Delphonics, ("La La Means I Love You"), Jerry Butler ("Hey Western Union Man"), Billy Paul ("Me and Mrs. Jones"), The Spinners ("I'll Be Around"), MFSB ("TSOP" 1/8The Soul Train Theme3/8), The Three Degrees ("When Will I see You Again"), Lou Rawls ("You'll Never Find Another Love"), Dionne Warwick and The Spinners ("Then Came You"), The Jacksons ("Enjoy Yourself"), Elton John ("Mama Can't Buy You Love"), Patti LaBelle ("If Only You Knew") and Whitney Houston ("Love Is A Contact Sport"). The enduring appeal of this catalogue has been confirmed by frequent cover recordings by top artists, including Elvis Presley ("Only The Strong Survive"), Thelma Houston ("Don't Leave Me This Way"), New Kids On The Block ("Didn't I Blow Your Mind"), Luther Vandross ("Love Won't Let Me Wait"), and Simply Red ("If You Don't Know Me By Now").

Most of the songs in the catalogs were written by Kenny Gamble, Leon Huff and Thom Bell.

Thom Bell stated, "We look forward to a long and fruitful association with Warner/Chappell."

Leon Huff said, "We're proud to be associated with a great publishing company."

Added Kenny Gamble, "We anticipate that our affiliation with Les Bider and the Warner/Chappell team will expand the exploitation of our catalogs in all media."

"All of us at Warner/Chappell are excited by the opportunity of working with such great talent and these very special songs," said Les Bider of Warner/Chappell. "We look forward to exposing a whole new generation to the sound of Philadelphia."

The songs that are part of the acquisition include those previously published under the names Assorted Music, Bellboy Music, Downstairs Music, Mighty Three Music and Piano Music. Ownership of the companies and their trade names have been retained by Gamble, Huff and Bell. An announcement regarding future operation of those companies and the development of new copyrights will be forthcoming shortly.

Warner/Chappell Music is the largest worldwide music publishing company controlling the rights to over 800,000 songs including works of Michael Jackson, Madonna, Cole Porter, Prince, George and Ira Gershwin, U2, Midnight Oil, George Michael and the song "Happy Birthday."

DENVER (JUNE 28) PR NEWSWIRE - Chevron Corp. today announced that Barry G. McGrath has been named president of The Pittsburg & Midway Coal Mining Co. (P&M), a Chevron subsidiary, effective July 1. McGrath will succeed Richard M. Holsten Jr., who is retiring after a 39-year P&M career.

Denver-based P&M is Chevron's coal mining subsidiary. It operates nine mines in six states and produces more than 15 million tons of coal a year.

McGrath, 46, is presently P&M's executive vice president and chief operating officer. He started his P&M career in 1977 at manager of contract administration when P&M was a Gulf Oil Corp. subsidiary. He later was P&M's manager of operations support and manager of corporate

development. In 1981, he became vice president of marketing and was named vice president of operations in 1987. He assumed his present post last March.

A native of Topeka, Kan., McGrath earned a bachelor of arts degree in political science from the University of Kansas in 1965 and a law degree from the Washburn University School of Law in Topeka in 1968. After serving as an assistant attorney general for the State of Kansas, he went on active duty as a U.S. Army officer and served a year in Vietnam. He joined Gulf as an attorney in Tulsa in 1972 and also served as a Gulf attorney in Kansas City and Denver.

Holsten, 65, a mechanical engineering graduate of Cornell University, joined P&M in 1951. He became vice president of sales in 1964 and then vice president of operations in 1972. He was named P&M's executive vice president in 1974, president in 1978.

Holsten served as chairman of the National Coal Association from 1984-86. He is a member of the National Coal Council and the Coal Policy Executive Committee of the American Mining Congress. He recently was named to the 11-member Coal Commission by U.S. Labor Secretary Elizabeth Dole. The commission will recommend measures for ensuring long term security of health and retirement benefits for coal miners.

WOODBURY, NY (JUNE 28) PR NEWSWIRE - Millfeld Trading Co., Inc. (NASDAQ-NMS: SHOE; NASDAQ: SHOEU, SHOEW) announced today a significant expansion of the company's product line by the acquisition of Bright Star Products, Inc. for $5 million in cash and securities.

Barry Feldstein, president of Millfeld, said he believes the addition of Bright Star to the Millfeld organization may significantly enhance the company's earnings.

Bright Star will continue its business, beginning today, as a wholly owned subsidiary of the company. In addition, Bright Star's principal stockholders and officers have become employees of Millfeld, having entered into long-term agreements, which prohibit competition with the company.

Millfeld markets men's/women's and children's footwear to 14,000 outlets of major retailers and mass merchandisers. Millfeld also distributes the "No Excuses" shoe line and Team Sports Footwear featuring logos of NFL, NHL and NCAA college teams.

PITTSBURGH (JUNE 28) PR NEWSWIRE - USX Corp. (NYSE: X) today announced it has filed a registration statement with the Securities and Exchange Commission relating to the issuance of Zero Coupon Convertible Senior Debentures Due 2005.

Public offering of the debentures will begin as soon as practicable after the registration statement becomes effective. The First Boston Corp. will be sole manager of the offering.

The offering is expected to result in proceeds of approximately $250 million, which will be used for the reduction of outstanding indebtedness and for general corporate purposes.

Each debenture will be convertible at the option of the holder at any time on or prior to maturity into, at the company's option, USX common stock or cash. The yield and conversion rate have not been determined. Holders have the right to sell debentures back to USX five and 10 years after issuance for cash, shares of common stock, or repayment notes, at USX's option. In addition, holders have the right to sell debentures back to USX for cash in the event of a change in control.

USX is engaged in energy, steel and diversified businesses.

NEW YORK (JUNE 28) PR NEWSWIRE - The Chariot Group, Inc. (AMEX: CGR) announced today that it is applying to the Securities and Exchange Commission to delist its common stock from the American Stock Exchange ("AMEX"). The company cited as reasons for delisting the securities' limited trading activity and limited registered holders.

The company said that the AMEX advised that the last day for trading will be Friday, July 13, 1990. The company is currently making efforts to interest dealers in maintaining a market for the stock in the OTC market.

The Chariot Group Inc., with headquarters in New York City, produces

high-quality aluminum windows and doors (manufacturing and distribution facilities in Tennessee, Florida, Delaware and Virginia). In addition, Chariot is the largest shareholder of Synalloy Corporation, a South Carolina-based stainless tube and specialty chemical company.

PORTER, IN (JUNE 28) PR NEWSWIRE - Canonie Environmental Services Corp. (NASDAQ: CANO) reported today that revenues increased 25.3 percent to $9,994,000 for the first quarter ended May 31, 1990 from $7,975,000 in the comparable prior year's period. Net loss for the quarter was decreased to $478,000 equal to $0.08 per share, compared with net income of $669,000 or $0.12 per share, in the previous year's quarter.

The loss for the quarter was primarily due to continuing losses at the company's analytical laboratory, the Bonus due to change in ownership (relating to a 1988 sale of stock by former parent), and losses of its unconsolidated affiliates. These three factors accounted for approximately a $0.10 per share after tax loss during the quarter.

Thomas A. Donovan, Canonie's president, stated "The company has acquired new remediation contracts during May and June totalling approximately $12 million which will be substantially complete in this fiscal year. Work that has been postponed at the laboratory has started, and it is expected that the laboratory will be in a breakeven to a small profit position for the second quarter." Backlog at May 31, 1990 was approximately

$73,000,000 compared to approximately $69,000,000 at May 31, 1989.

Canonie Environmental Services Corp. provides comprehensive services throughout the United States for remediation of sites contaminated by hazardous materials. The firm provides its clients with a complete range of services, including assessing the regulatory, technical, and construction aspects of the problem, developing a strategic plan to solve the problem, and performing the necessary remediation and operation activities. Canonie Environmental Services Corp. is one of the few companies capable of providing such a broad range of services. The company has performed work at more than 100 project sites nationwide, including the management and control of remediation activities at various Superfund sites.

For the second quarter of 1990, profit before LIFO and income tax increased 20.8 percent while profit after LIFO and income tax increased 27.7 percent over the second quarter of 1989, outpacing the sales gain during the quarter of 19.1 percent.

Year to date profit before LIFO and income tax increased 22.5 percent while profit after LIFO and income tax increased 28.5 percent, outpacing the sales gain of 19.0 percent.

The company posted a 5.44 percent profit before LIFO and income tax margin and 3.20 percent profit after LIFO and income tax margin, as compared to 5.36 percent and 2.99 percent margins, respectively, for the second quarter of 1989.

Year to date, the company posted a 5.45 percent profit before LIFO and income tax margin and a 3.15 percent profit after LIFO and income tax margin, as compared to 5.30 percent and 2.92 percent margins last year, respectively. The same stores sales growth was 5.73 percent for the quarter and year to date.

At the end of the second quarter, the company had 705 stores compared to 596 at the end of the second quarter of 1989. During the second quarter, 28 new stores were opened and one older store was closed.

Work has begun on the first phase of the distribution center in Plant City Florida and the company expects to begin construction of a distribution center in Greencastle, Pennsylvania in the third quarter of 1990, with completion for both scheduled for 1991.

Earlier this year, the company announced plans for expansion into Texas, with the construction of a distribution center and 30-40 Food Lion Stores. This expansion is scheduled for the summer of 1991.

The company intends to add as many as 67 stores in the last two quarters of 1990.

#90179p4998 06/28/1990 ~PR Newswire

PHOENIX, (JUNE 28) PR NEWSWIRE - Motorola (NYSE: MOT) has been selected by Toyota Motor Corp. (NASDAQ: TOYOY) to develop and supply a number of custom integrated circuits for future Toyota vehicle applications.

The announcement was made today by Toyota at simultaneous news conferences in New York City and Washington. Motorola representatives were invited to participate in both conferences.

"We are pleased to be singled out for this honor," said Jim Edson,

Motorola's director of marketing and sales for Japanese transnational accounts. "It is indicative of Motorola's evolving relationship with Toyota."

According to Toyota, Motorola will be a principal U.S. supplier for both custom and standard semiconductor devices. Motorola's success is attributable to its broad product portfolio, leadership technology capabilities, reputation for high quality products, competitive products costs, just-in-time delivery capability, state-of-the-art manufacturing facilities in Japan, and its Japanese design, engineering and customer support infrastructure.

Motorola had previously been selected to design and manufacture the "16X" microcontroller which will power Toyota's next-generation engine controllers and other electronic control units (ECU's). In addition, Motorola already is shipping a variety of discrete, linear, and logic devices to Toyota suppliers, which have been qualified and designed-in during the last 12 months.

Motorola is the world's largest supplier of automotive semiconductors -- a market which is forecast to grow to $5.2 billion by 1995. Motorola considers winning a fair and reasonable position in Japan's automotive market essential to maintaining market and technological leadership.

CONTACT: Kenneth C. Phillips, 602-952-3637; or for technical questions Jim Edson, 602-952-3261, or Bill Van Tine, 602-952-3658, all of Motorola Inc.

#90179p4999 06/28/1990 ~PR Newswire

ATLANTA (JUNE 28) PR NEWSWIRE - Southern Bell announced today that it would appeal the Georgia Public Service Commission's (PSC) order that the company reduce its revenues by $180.5 million by July 1.

The commission also reduced Southern Bell's authorized rate of return on equity from 15 percent to 12.375 percent.

"On Friday, June 29, we will appeal the order to reduce our revenues," said Carl E. Swearingen, Southern Bell's vice president for Georgia. "Obviously, we are greatly concerned about this decision on our ability to provide the level of telecommunications service required to compete for industry, business and jobs.

"Further, unless we are granted relief by the courts, we will have to review all hiring opportunities, construction expenditures and other related matters."

The commission's decision today was based on a Rule Nisi order issued to Southern Bell on Dec. 19, 1989. The company will file a motion in Fulton County Superior Court on Friday to stay the order pending an appeal.

The commission postponed action on Southern Bell's purposed Incentive Regulation plan until Aug. 13 when hearings will be held to review this issue. At that time, the commission will also make a decision on other rate reductions proposed by Southern Bell, including intraLATA toll rates, access charges and the costs associated with the company's proposed extended area calling plan. This plan would allow all Georgia customers to expand their local calling area to include all exchanges within 22 miles of their home exchange.

"While we are discouraged by the commission's decision to postpone the hearings on Incentive Regulation, extended area service and toll-related issues, it is encouraging to hear several commissioners speak in favor of some form of regulatory reform," said Swearingen. "Our proposed customer sharing plan recognizes the increased competition we face and allows our customers to share in our success. The plan offers incentives for the company to expand service, to enhance our Georgia network and to increase efficiencies and earnings."

CONTACT: Gene Parker, 404-391-2478 or Lynn Bress, 404-391-2484, both of Southern Bell

#90179p5001 06/28/1990 ~PR Newswire

NEW YORK (JUNE 29) PR NEWSWIRE - Toyota Motor Corp., (NASDAQ: TOYOY) together with its major electronic component suppliers announces today that five U.S. semiconductor manufacturers have been chosen to join in the development for 23 items including custom ICs for future Toyota products. Selected were Intel Corp., International Rectifier Corp., Motorola Inc., National Semiconductor Corp., and Texas Instruments Inc. Several additional items are also under consideration with U.S. manufacturers.

The 23 items slated for joint development include custom ICs, such as power ICs for suspension control, standard cell ICs for body control, interface ICs and A/D (analog-to-digital) converters for engine control, ICs for meter clusters, and Dolby ICs for audio use. Also on the list are general-purpose 8-bit microcomputers, which will be partially customized for use in transmission control, electronic meters, air conditioning, and other functions.

A special procurement mission led by Toyota was dispatched earlier this month to carry out talks with 10 U.S. manufacturers selected on the basis of information gathered by an earlier "fact-finding" mission the company sent last August. The agreements reached between Toyota's component

suppliers and the five U.S. manufacturers are expected to result in a significant increase in foreign-made semiconductor use by Toyota.

#90179p5004 06/28/1990 ~PR Newswire

PITTSBURGH (JUNE 28) PR NEWSWIRE - The Pittsburgh & Lake Erie Railroad (P&LE) confirmed today that it is no longer pursuing a sale of its operating properties or stock to Railroad Development Corp. (RDC).

The P&LE announcement was made in response to a recent RDC statement which seriously misstated the nature of the present relationship between P&LE and RDC. "RDC had eight months to do a deal and they couldn't get their deal closed," stated Gordon Neuenschwander, president of the P&LE. "As we have advised RDC, the P&LE is now fully committed to continuing its own efforts to reach agreements with its unions providing for changes in work rules and conditions, and a substantially reduced work force capable of operating the railroad in a safe and profitable manner," Neuenschwander added. Neuenschwander explained that this opportunity was attained earlier this month as a result of action of the National Mediation Board in releasing the P&LE and its unions from mediation. P&LE is providing full service to all customers under a temporary agreement reached last Thursday with P&LE's 14 labor unions which assured uninterrupted service for at least two weeks.

In response to suggestions made by RDC in their letter to P&LE's unions that the railroad's creditors are only interested in a fast sale with RDC, Neuenschwander stated, "The P&LE has maintained seven years of productive relations with its creditors which has allowed for continued rail service and the preservation of employment on the P&LE. We are confident that we will be able to obtain whatever creditor approvals are required to facilitate the restructuring of the railroad into a streamlined and profitable operation."

#90179u0176 06/28/1990 ~United Press International

TOKYO (JUNE 28) UPI - South and North Korea are preparing to resume dialogue next week, and the North Korean media are calling for peaceful reunification of the divided Korean Peninsula and withdrawal of U.S. forces from South Korea.

Rodong Sinmun, the official newspaper of North Korea's ruling Workers' (Communist) Party, said in an article:

''The fundamental demand for the maintenance of the principle of independence is to make the U.S. imperialist aggression forces withdraw from South Korea, check and frustrate foreign interference in the internal affairs of our country and totally reject the South Korean puppet's policy of dependence on outside forces.''

Delegates from both sides are scheduled to meet Tuesday at the truce village of Panmunjom in the demilitarized zone dividing the Korean Peninsula.

North Korea has agreed to resume the dialogue it suspended in February to protest joint U.S.-South Korean military maneuvers.

The Korean Peninsula has been divided into the communist-controlled North and the democratic South since the end of World War II. The two Koreas fought each other in the 1950-53 Korean War.

Rodong Sinmun reiterated North Korea's proposals for the establishment of a democratic confederal republic of Korea retaining different ideologies and systems, a non-aggression declaration by both the South and the North, and inter-Korean disarmament talks with the United States attending.

The proposals have been rejected by the United States and South Korea.

The newspaper article was distributed by the official (North) Korean Central News Agency, monitored in Tokyo.

(JUNE 28) UPI - 100-degree-plus temperatures in the Southwest and Southern California are adding to the woes of firefighters battling a number of fast-moving wildfires. The worst of the blazes raced through a hillside community in the Los Angeles suburb of Glendale Wednesday afternoon. 28 homes valued at between 500-thousand and one-Million dollars were damaged or destroyed in what investigators say was an arson fire.

Other fires broke out or continued in San Bernardino, San Diego and Ventura counties in California... and in Arizona, where a killer wildfire has charred 15-thousand acres of the Tonto National Forest.

Nelson Mandela flew Wednesday night to Miami, Florida... where the governor and Cuban-American mayors in the area have denounced him for his support of Cuban leader Fidel Castro. Earlier in Atlanta, the South African nationalist was cheered when he hailed Martin Luther King Junior as- quote- ''the first black Amercian to put the issue of apartheid racism into the middle of the American political agenda.''

President Bush turned his attention to the staggering economies in Latin America Wednesday. Addressing U-S business executives and Latin American diplomats at the White House, Bush proposed a hemispheric free-trade zone,

incentives for political reforms and innovative debt relief as ways of getting Latin America out of the economic doldrums.

A number of foreign diplomats were on hand in a town 100 miles northeast of Managua Wednesday to watch as the commander-in-chief of the Contra rebels turned in his weapon to Nicaraguan President Violetta Chamorro. He then declared the U-S-funded war against the Nicaraguan government ended.

After the ceremony, two Nicaraguan military helicopters carrying 20 local and foreign journalists and six crew members back to Managua collided and crashed just after takeoff. All 26 people aboard were injured.

(JUNE 28) UPI - A pair of Supreme Court rulings involving child abuse cases. In a 5-4 decision Wednesday, the justices said criminal defendants are NOT guaranteed an ''absolute right'' to face their accusers in such cases where the state has an interest in protecting the welfare of the child victim. In a second 5circuit television testimony by the alleged victims may be used at trial if the testimony is found to be both reliable and subject to cross-examination.

The U-S Advisory Board of Child Abuse has declared a national emergency in its first report. The 15-member panel points to the soaring number of child abuse and neglect cases, and says the nation's ineffective response constitutes a ''moral disaster.'' The board faults the existing child protection system as a poorly coordinated web of agencies that, if more efficiently operated, could prevent child abuse tragedies.

#90179u0280 06/28/1990 ~United Press International

CAPE CANAVERAL, Fla. (JUNE 28) UPI - Engineers geared up Wednesday to pump thousands of gallons of supercold liquid hydrogen rocket fuel into the shuttle Atlantis's external tank in a critical test to make sure no leaks are present like the one that grounded the shuttle Columbia last month.

The unusual fueling test was scheduled to begin around 4 p.m. Thursday, weather permitting, when supercold rocket fuel was to begin flowing through Atlantis's three main engines and into its giant external fuel tank.

Top NASA managers already were on hand at the Kennedy Space Center for a formal flight readiness review to clear Atlantis for launch around July 15 on a classified military mission.

Assuming no leaks, Atlantis and its five-man, all-military crew will be

cleared for launch to ferry a secret Pentagon payload into orbit. But if a leak like Columbia's shows up, NASA's shuttle launch schedule would be faced with a major disruption.

Columbia's launch last month on a 10-day astronomy mission was called off when sensors detected explosive hydrogen gas spewing into the ship's engine room during fueling six hours before the planned May 30 liftoff.

After extensive tests, engineers traced the leak to somewhere inside a massive 17-inch-wide ''disconnect'' fitting where the fuel line enters the belly of the orbiter. The disconnect fitting allows the tank to be jettisoned after the shuttle reaches orbit.

Columbia was hauled off the launch pad and taken back to its hangar for inspections and tests to pinpoint the precise location of the leak.

A critical 17-inch valve assembly on the tank side of the fitting passed a series of tests over the weekend, prompting NASA managers to order the disconnect hardware aboard Columbia to be removed and replaced with a valve assembly built for the new shuttle Endeavour.

If all goes well, Columbia could be ready for another launch try as early as Aug. 12.

#90179u0284 06/28/1990 ~United Press International

(JUNE 28) UPI - For a third-place team, the New York Mets are certainly making their mark on the National League.

Frank Viola became the NL's first 11-game winner Wednesday night, pitching the Mets to a 5-2 victory in St. Louis. Darryl Strawberry extended his hitting streak to 16, second highest in the league this year. New York ran its winning streak to nine games, matching the NL high for 1990 and standing two short of the club record.

The Mets might not be third in the NL East for long. They are a half-game behind second-place Montreal and within two of first-place Pittsburgh. The Pirates, however, have held ground with a four-game winning streak of their own.

The Mets have won 16 of their last 18 and and are 19-7 since Bud Harrelson replaced Davey Johnson as manager.

''I don't have anything bad to say about Davey,'' Viola said. ''But it seems this team is pulling together a little more than when Davey was managing.''

Viola, 11-3, scattered four hits while walking four batters and striking out two. He retired 12 of 13 batters he faced between the second and sixth innings and pitched his fourth complete game.

Strawberry went 3-for-5 and slugged a two-run single for a 2-1 lead in the fifth. He had one hit to left, one to right and one up the middle to push his average to .302 after a slow start.

''I used to think that I had to hit home runs,'' Strawberry said. ''Now I know that's not the case. I'm using the whole field and that makes me a better hitter.''

Cardinals starter Joe Magrane, 4-10, took the loss. He allowed five runs on 10 hits while striking out four and walking two.

Keith Miller, playing for injured second baseman Gregg Jefferies, had two hits and scored twice for New York.

In other NL games, Pittsburgh edged Philadelphia 5-3, San Francisco downed Cincinnati 8-3, Chicago beat Montreal 5-3, Atlanta blanked Los Angeles 4-0 and Houston pounded San Diego 9-1.

In the American League, it was: Detroit 5, Oakland 4; Chicago 5, California 2; Milwaukee 5, New York 4; Baltimore 6, Cleveland 3 in 10 innings; Texas 9, Minnesota 2; Boston 9, Toronto 5; and Seattle 3, Kansas City 2.

Pirates 5, Phillies 3

At Pittsburgh, Wally Backman drove in two runs, including the seventh-inning tie-breaker, and Sid Bream added a solo home run to rally the Pirates to a three-game sweep of the Phillies. Bob Kipper, 2-1, pitched two one-hit innings in relief of struggling starter Walt Terrell. Bill Landrum also one-hit the Phillies over the last two innings to earn his 11th save. Ken Howell, 8-5, took the loss.

Giants 8, Reds 3

At Cincinnati, Matt Williams drove in four runs to back the four-hit pitching of Don Robinson over eight innings and help San Francisco snap a four-game losing streak. Robinson, 3-1, struck out two and walked two before Steve Bedrosian came on to work the ninth. Tom Browning, 7-5, gave up six runs and nine hits over 4 1-3 innings.

Cubs 5, Expos 3

At Chicago, Ryne Sandberg smashed two home runs, raising his league-leading total to 24, and Jeff Pico improved to 4-0. Loser Kevin

Gross, 8-5, left in the fifth inning when he was hit on his right hand trying to bunt.

Braves 4, Dodgers 0

At Atlanta, John Smoltz pitched a three-hitter and Greg Olson belted a homer to lead the Braves. Smoltz, 5-6, struck out six and walked none. Tim Belcher, 5-6, allowed six hits over five innings.

Astros 9, Padres 1

At Houston, Jim DeShaies scattered seven hits over 7 2-3 innings and Glenn Wilson drove in three runs. DeShaies, 4-5, surrendered one run while striking out four and walking one. Astros reliever Juan Agosto made his league-leading 42nd appearance by pitching the ninth. Loser Bruce Hurst, 4-7, allowed four runs on five hits over four innings.

#90179u0294 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - President Bush's abandonment of his ''no new taxes'' pledge revived budget talks between White House and congressional negotiators, who discussed proposed spending cuts and reductions in such entitlement programs as Medicare.

No conclusions were reached Wednesday, but negotiators said signs of a collective response to proposed spending cuts could evolve Thursday.

''Whatever the deadlock was on negotiations seems to have disappeared,'' said Sen. Pete Domenici, R-N.M., who joined in what participants called a ''free-ranging'' discussion on possible deficit cuts.

Senate Budget Committee Chairman James Sasser, D-Tenn., said Democrats rewarded Bush for opening the door to taxes with his statement on Tuesday by raising a difficult political issue for Democrats - cutting entitlements.

Budget summit participants said after talks ended for the day that virtually every entitlement program, including a freeze on annual Social Security cost of living increases, was discussed in the context of saving money.

Sen. Robert Packwood, R-Ore., said discussions also included cuts in food stamps and other programs that benefit poor people.

Sen. Wyche Fowler, D-Ga., a negotiator, said while participants talked about cuts, ''nobody has said yet (that) this is a proposal that I think should be done. We have not reached that stage yet - we could (Thursday)

'' he said.

House Budget Committee Chairman Leon Panetta, D-Calif., said he and House Democratic leader Richard Gephardt of Missouri, the chairman of the talks, offered plans to cut entitlements.

The Panetta-Gephardt proposal was the first Democratic-sponsored plan to be offered as the bipartisan budget talks entered their sixth week.

''What I want to do is explore the entitlement area and see whether we can make some changes there,'' said Panetta, who suggested a hike in entitlement cuts from the $3.8 billion in the House-passed budget to about $5.6 billion.

Democrats insisted that Bush - who pledged ''read my lips - no new taxes'' in the 1988 campaign - had to be the first to blink on new taxes and demanded that he be the first to put a budget plan on the bargaining table to help slash a deficit that could reach $250 billion next year.

He has now done both.

At the White House, Bush press secretary Marlin Fitzwater said Bush ''feels he did the right thing'' in issuing his tax statement Tuesday.

''He is comfortable with his decision. He did what he had to do,'' Fitzwater said. ''He thinks the deficit needs to be solved. He thinks the American people understand that.''

House Speaker Tom Foley, D-Wash., said he is unconcerned that some House Republicans began circulating a letter to Bush Tuesday vowing to fight any tax hike. At least 90 House Republicans - a majority of the 176 GOP House members - signed the letter.

Foley insisted, however, that ''a deficit reduction package requires the votes of a majority of both parties.''

''Members have got to see the (final deficit reduction) proposal in its whole form'' before making up their minds, Foley said.

And they must decide between that package including new taxes and the alternative - steep, automatic, across-the-board spending cuts split between defense and domestic programs that would be required if Congress does not meet the fiscal 1991 deficit target of $64 billion.

(JUNE 28) UPI - Authorities in the Los Angeles suburb of Glendale have arrested two suspects in the apparent arson fire that roared through the hillside community Wednesday. 34 homes were either damaged or destroyed. Three people suffered minor injuries. In Santa Barbara Wednesday night, a virtual wall of flame was reported on either side of Highway 101. Few details were available... but a sheriff's deputy said the fire was burning near the intersection of Highways 101 and 154, also known as the San Marcos Pass.

A special panel is being formed to investigate the crippling defects in the Hubble Space Telescope's focusing system. But NASA officials caN'T explain how such a basic optical defect made it into the BILLION-and-a-half-dollar telescope... considered by many to be the showcase payload of the shuttle era. They say a special camera can be modified to correct the problem. But it's NOT clear whether the camera can be ready in time for a scheduled shuttle service flight next April.

Canadian independent truckers are threatening another U-S border blockade this weekend, which is a holiday in Canada. A government spokesman says the threat came at a meeting Wednesday. Last month's blockade choked traffic, cost Millions of dollars in lost business and forced the auto industry to lay off workers because of a lack of parts. The truckers are angry that U-S truckers and firms hauling freight into Canada can undercut rates because of lower taxes and cheaper fuel, insurance, repair and financing costs.

Diplomatic sources say the parents of an American gold mine engineer abducted two months ago in Ecuador's Amazon jungle by Colombian rebels are talking directly with the kidnappers. A U-S Embassy official in Ecuador

told U-P-I that Scott Heimdal's mother has said- quote- ''Scott is alive and we are negotiating.'' The official wouldN'T say when direct negotiations began, NOR would he comment on the progress.

#90179u0389 06/28/1990 ~United Press International

(JUNE 28) UPI - Along with winning games at a surprising rate, the Chicago White Sox have avoided losing perspective.

The White Sox' seven-game winning streaks has lifted their league-best record to 44-25, putting Chicago four percentage points ahead of Oakland in the AL West. The Athletics, who have lost six of their last nine, stand at 44-26.

''So what? It's June 27,'' White Sox Manager Jeff Torborg said. ''You can't think about it. The minute you think about it, it doesn't come to fruition.''

Ron Kittle's two homers Wednesday lifted Chicago to a 5-2 victory over California, completing consecutive three-game road sweeps of the A's and Angels.

Kittle ran his season homer total to 13 with smashes in his first two at-bats, giving him three straight going back to Tuesday. Kittle became the fourth White Sox player to homer in three consecutive at-bats.

But Kittle also keeps from getting too excited.

''I've been stinking so bad, I was lucky to hit the ball,'' he said. ''It's a streak I've gotten into. Everyone who hits home runs gets into a streak every now and then. I just took some nice easy swings. With Chuck Finley out there, you don't count on giving up home runs.''

Finley, 10-4, had won seven of his last eight decisions before giving up four runs on eight hits in 4 1-3 innings to take the loss. Sammy Sosa belted a home run off Finley to lead off the game, the first time in 78 career starts Finley had given up a homer in the first inning.

''I know he didn't have his best stuff and he was fighting himself real hard,'' Angels Manager Doug Rader said of Finley.

Eric King, 8-1, scattered four hits, struck out four and walked five over the first 7 1-3 innings for the win before wilting in the 100 degree heat.

In other AL games, Detroit shaded Oakland 5-4, Milwaukee edged New York 5-4, Boston pounded Toronto 9-5, Baltimore beat Cleveland 6-3, Texas slammed Minnesota 9-2, and Seattle defeated Kansas City 3-2.

In the National League it was: San Francisco 8, Cincinnati 3; Chicago 5, Montreal 3; Pittsburgh 5, Philadelphia 3; Atlanta 4, Los Angeles 0; Houston 9, San Diego 1; and New York 5, St. Louis 2.

Tigers 5, Athletics 4

At Oakland, Calif., Mike Heath led off the ninth inning with a home run to lift Detroit. Winner Mike Henneman, 4-4, handed Oakland its sixth loss in nine games. Heath belted a 1-2 pitch off reliever Todd Burns over the left-field fence for his second homer of the season. Burns, 2-1, had come on to start the ninth.

Brewers 5, Yankees 4

At New York, Dave Parker had three hits, including the 2,500th of his career, and Rob Deer drove in three runs to lead Milwaukee. Bill Krueger, 4-3, pitched 7 2-3 innings, scattering eight hits to pick up the victory. Jimmy Jones, 1-1, lasted 5 2-3 innings for New York, allowing seven hits and five runs.

Red Sox 9, Blue Jays 5

At Boston, Carlos Quintana went 3-for-4 and Luis Rivera's two-run single keyed a six-run fifth inning to lift Boston to their sixth straight win. Mike Boddicker, 10-3 allowed three earned runs on nine hits, walked one and struck out six in seven innings. Boston chased Jimmy Key, 4-3, by scoring six runs in the fifth to take a 9-2 lead.

Orioles 6, Indians 3, 10 innings

At Baltimore, rookie catcher Chris Hoiles slammed his first major-league homer in the bottom of the tenth inning with one out to guide Baltimore and snap a five-game losing streak. Hoiles, who was recalled June 4 from AAA Rochester, made Greg Olson, 4-2, a winner in relief. Hoiles' blast came off the third Cleveland pitcher, Sergio Valdez, 2-4.

Rangers 9, Twins 2

At Minneapolis, Julio Franco drove in four runs on three hits and Nolan Ryan pitched seven strong innings to help Texas end a four-game losing streak. Ryan, 7-4, gave up a run on three hits in the first inning but settled down to retire 16 of the next 19 batters. Kevin Tapani, 8-5, took the loss.

Mariners 3, Royals 2

At Seattle, Jeff Schaefer's two-out single in the eighth inning scored Edgar Martinez from second pacing Seattle. With one out in the eighth, Martinez walked and took second when Tracy Jones singled off loser Mark Davis, 1-4, for his third hit. Mike Jackson, 3-3, who took over for starter Matt Young in the eighth, picked up the victory by retiring all three batters he faced.

#90179u0424 06/28/1990 ~United Press International
TOKYO (JUNE 28) UPI - A Japanese freighter that collided with a Panamanian-registered oil tanker sank in a narrow strait in western Japan Thursday, injuring four of 14 crewmen tossed from the sunken vessel, maritime officials said.

There were no injuries among the 18 South Korean seamen aboard the tanker, said officials of the Maritime Safety Agency.

The collision between the 3,000-ton tanker Shamrock Ocho and the 1,900-ton Japanese freighter Takatozan Maru occurred at the narrow Kanmon Strait between Japan's Honshu and Kyushu main islands about noon, the officials said.

All 14 Japanese crewmen were pitched overboard but rescued by the tanker and nearby ships, the officials said. Four seamen were hospitalized with slight injuries, the officials said.

The tanker was en route to the Siberian port of Nakhodka via Hakodate on Japan's northernmost main island of Hokkaido, and the freighter was bound for Kanazawa on the Japan Sea coast of northern Japan, the officials said.

#90179u0446 06/28/1990 ~United Press International
WASHINGTON (JUNE 28) UPI - Most state medical boards are more concerned with protecting doctors than the public and the system could be improved if details on the disciplinay actions were be made public, a report said Thursday.

The report by Public Citizen, an organization founded by consumer advocate Ralph Nader, found that an estimated 2,600 formal disciplinary actions are carried out annually by states against doctors - meaning less than 0.5 percent of all doctors face sanctions in any year.

The report listed 9,500 disciplinary actions ranging from fines to license revocations taken since 1985 against 6,055 physicians and 837 chiropractors, podiatrists and dentists.

''Far too often, despite their clear duty to protect the public, state medical boards see their primary responsibility as protecting so-called 'impaired physicians' from public exposure,'' said Nicole Simmons, who wrote the report.

She said increasingly, the ''definition of 'impaired' covers doctors who may be drunk on the job, strung out on drugs, insane or habitual sex

offenders.''

The report included information on disciplinary actions taken by 41 states the District of Columbia and three federal agencies.

The main offenses listed were: misprescribing drugs, accounting for 16.4 percent of disciplinary actions; noncompliance with professional rules, about 12 percent; criminal conviction, 10 percent; drug and alcohol abuse, 9.2 percent and practicing without a valid license, 8.9 percent.

Nearly 3 percent of the disciplinary actions involved sexual abuse of a patient.

Simmons said it often takes years for a doctor to be disciplined as the result of a patient complaint and frequently, the penalty amounts to a slap on the wrist. She said most disciplined doctors are never removed from medical practice.

The report made a number of recommendations for improving the protection of patients.

Among them, it said Congress should require state medical boards work with other state agencies and the federal Drug Enforcement Administration to identify and punish doctors guilty of malfeasance. The DEA licenses doctors to write prescriptions for controlled substances.

In addition, the report said a national data bank the federal government plans to put into operation in September to collect information about doctors who are disciplined should be opened to the public.

Plans call for the data to be released only to certain government and medical agencies.

Among states that supplied information to Public Citizen, New York had the greatest number of doctor disciplinary actions at 777, followed by New Jersey at 674, Illinois at 546, California at 542 and Florida at 512. Delaware and Idaho were on the low end, each recording only one disciplinary action since 1985.

States which did not supply information on physician sanctions were: Alabama, Alaska, Arizona, Arkansas, Colorado, Maine, Mississippi, New Mexico, Oklahoma and South Dakota.

When states were ranked according the number of disciplinary actions taken per 1,000 doctors in 1987 - the latest data available - Utah topped the list at 14.7, followed by Mississippi, Kentucky, West Virginia, Georgia, Oklahoma and South Dakota, which all had 10 or more.

#90179u0481 06/28/1990 ~United Press International
MOSCOW (JUNE 28) UPI - Politburo member Vadim Medvedev said Communist Party officials meeting Friday ''should stick to the date'' and not delay a crucial meeting Monday that looms as a showdown between Soviet President Mikhail Gorbachev and his conservative critics.

The official news agency Tass said only the party's leading Central Committee could make a ''final decision'' on whether to postpone the congress, and cited Medvedev as saying a Central Committee plenum would take place Friday on the issue.

Medvedev told a news conference the 28th Party congress should go ahead next week rather than delay it until the fall as suggested by Communists from the Russian Federation, largest of the 15 Soviet republics.

''My personal view is that we should stick to the date,'' Medvedev said.

Tuesday, Russian Federation President Boris Yeltsin counseled a postponement of the 5,000-delegate Congress to start Monday and to run 10 days in what Western diplomats are forecasting will be a major conflict between conservatives and those backing Gorbachev's perestroika reforms.

Medvedev said Russian Communists suggested the postponement because they felt the people are tired of endless discussions without any visible action.

The Russian Communists pointed to the simultaneous sessions last month of the federal Supreme Soviet, the Russian Federation's Parliament and the Russian Congress party. All the sessions were televised.

At times, even the sessions of the Moscow City Soviet were broadcast live last month.

Medvedev said the Communist leadership sought the opinions of Communist chiefs in the republics and different regions.

''The majority of those republics and regions were in favor of going on with the dates (as scheduled),'' he said. ''From my point of view, the congress will open July 2.''

The Central Committee will also discuss the party program to be adopted at the congress and Yeltsin forecast a ''real battle'' at the plenum.

A draft of the party program, published Wednesday in the daily Communist Party paper Pravda, was unsurprising save a sole reference to ''workers' private property'' - a concept once anathema in the socialist Soviet Union

where all means of production are state-owned in the name of the people.

Last year, a law on property passed by Parliament studiously avoided use of the term ''private property,'' but conceded it in all but in name.

The rather conservative party program published Wednesday leaves untouched the omnipresent role of the Communist Party in both the army and the KGB.

Communists of the Democratic Platform bloc, a small faction, want Communist influence removed from the military and security agencies. They also want the Communist Party to change its name and renounce Marxism-Leninism in favor of social democratic principles.

Party congresses bringing together 5,000 delegates from across the country are held every five years to map policy for the next half-decade and the next one had been scheduled for early 1991.

But Gorbachev last year had advanced the 28th Congress from its earlier slated date when he believed the conclave would be dominated by reformers.

However, the just-concluded Russian Republic Communist Party Congress of 2,600 members was dominated by conservatives who even demanded Gorbachev's ouster as general secretary, or leader, of the Communist Party.

Even if Gorbachev were removed or volunteered to step down as leader of the party, he would remain executive president of the country, a post he created for himself in March, giving him immunity from being toppled from power.

Under the amended Soviet Constitution, Gorbachev will have to face the voters in four years to seek re-election as president. His first election was by Parliament.

BEIRUT (JUNE 28) UPI - Two bomb blasts rocked Moslem areas early Thursday, killing one person and wounding at least seven, and Israeli warplanes made reconnaissance flights in southern Lebanon, authorities said.

One bomb exploded in the southern port city of Sidon, 24 miles from Beirut killing a child and wounding an adult, police said.

Another explosive landed under a parked car in the west Beirut neighborhood of Talet Al Khayyat went off at daybreak, demolishing the vehicle and setting five cars afire, police said.

The blast also wounded six civilians and shattered windows in two nearby

buildings.

There was no claim of responsibility for either explosion.

Lebanon has been rocked by waves of bomb blasts since civil war broke out in 1975.

In southern Lebanon, fierce artillery exchanges raged during the night between Israeli-backed South Lebanon Army troops and Palestinian-backed Moslem militiamen along a mountainous front east of Sidon, an SLA spokesman said.

The SLA spokesman said the clashes occurred shortly after unidentified gunmen ambushed a civilian car near the SLA-patrolled town of Jezzzine, 23 miles southeast of Beirut.

One occupant of the car was killed and another was wounded when the vehicle was showered with machine-gun fire, the spokesman said.

The violence coincided with reconnaissance flights by Israeli warplanes that crisscrossed the darkened skies over southern Lebanon, security sources said.

The sources said the planes, which passed over Syrian positions in eastern Lebanon, dropped flares over southern terrain to uncover possible guerrilla movements.

#90179u0514 06/28/1990 ~United Press International

Triple-digit temperatures scorched the Southwest again Thursday where five deaths and raging wildfires were attributed to the searing heat wave that has broken records and strained utilities.

Temperatures remained near record levels Wednesday and more of the same was expected for Thursday as the midsummer-style heat showed no signs of abating.

The unrelenting temperatures were responsible for one death in Los Angeles and four in the Phoenix area, authorities said. The county medical examiner ruled Wednesday the deaths of three men who died Tuesday in Phoenix were heat-releated.

Lubbock, Texas, recorded its 18th day this month of 100-degree-plus temperatures breaking the 100-degree mark, ending a 50-year-old record, but life went on for residents.

''This is the worst heat wave I've experienced in my 20 to 30 years of

living here,'' said Dalbert West, who owns West Lawns, a landscaping company. ''But I got used to the heat, it doesn't bother me.''

The Big Bend town of Lajitas registered a state-high 109 degrees Wednesday and 15 other Texas cities broke the century mark.

While the Southwest was dry and hot, the Plains received another dose of late-night thunderstorms Thursday that raced across Iowa, North and South Dakota and Minnesota, dumping more than 2 inches of rain on some areas and causing streams to overflow their banks, the National Weather Service said.

Storms with pea-sized hail and 50 mph winds raked the Dakotas. Sioux Falls S.D., reported 2 1/2 inches of rain and three-fourths of an inch of hail in three hours causing street flooding that left water above car bumpers.

The thunderstorms extended into Minnesota and Iowa through western Wisconsin.

Humboldt County in north Central Iowa was hit by storms with 60 mph winds and to the southeast, in Black Hawk County, more than four inches of rain fell in an hour, causing Elk Run Creek to overflow its banks flooding roads and threatening homes.

Utilities throughout the Southwest and Southern California worked through the night to prepare for another day of high electricity demand and firefighters planned the next steps in fighting raging wildfires in tinder dry forests.

Temperatures soared above 100 degrees Wednesday in Arizona, Southern California, Nevada, Texas, Colorado and South Dakota, the National Weather Service said.

The mercury climbed to 117 degrees in Phoenix, falling a few degrees shy of Tuesday's record of 122 degrees, forecasters said.

In downtown Los Angeles the temperature climbed to a record high 109 degrees at the Civic Center.

A National Weather Service statement issued Wednesday reminded people to ''slow down and avoid direct exposure to the sun as much as possible. Dress for summer and drink plenty of non-alcholic liquids ... (and) check on friends and relatives that live alone during the day, especially the elderly.''

Wildfires destroyed homes and ravaged forests in Arizona, New Mexico, Texas, Utah, southern California and New Mexico as relentless sun turned undergrowth to tinder. In Santa Barbara a wall of flames leveled at least 20 homes and was still raging out of control over 4,000 acres late

Wednesday in a fire attributed to arson.

Scattered showers and thunderstorms dampened parts of the Texas Panhandle and northeastern New Mexico Thursday, while an excessive heat advisory remained in effect for parts of north Texas.

The Southeast had widely scattered showers and warm temperatures Thursday as a trough of low pressure extended across southern Georgia and southern Florida.

The Atlantic states and New England reported scattered showers and morning fog with seasonable temperatures.

#90179u0526 06/28/1990 ~United Press International

CHICAGO (JUNE 28) UPI - Talks have broken down between United Parcel Service and its union on a three-year contract, but the company's 141,000 workers will still vote next month on its final offer, a published report said Thursday.

Two representatives from each of 212 Teamsters Union locals nationwide met for a final time in Chicago Tuesday with UPS officials. Another negotiating session was not scheduled before the current contract expires July 31.

Union officials told the Chicago Tribune they would mail copies of the final contract offer to members and a vote was scheduled to begin July 9. The results will not be known until July 30.

''There is just not enough money involved to call it a good offer,'' said Don Esser, president of Teamsters Local 243 in Detroit.

The union is demanding an increase of $1 per hour in each year of the contract. UPS is offering 50 cents per hour. Drivers currently earn $16.24 per hour.

The union wants pension and health benefit increases of $14 per week and UPS is offering $6 weekly. UPS also wants a more flexible work week including weekend and early shifts.

''We regret the Teamsters officials didn't recommend the proposal,'' UPS spokesman Alan Caminiti told the newspaper. ''But we believe the rank-and-file will consider this a fair contract and ratify it.''

UPS is the world's largest parcel delivery company and the Teamsters Union estimated members operate more than 66,000 vehicles and move more than 11 million packages daily nationwide.

#90179u0528 06/28/1990 ~United Press International
TALISMAN, N.Y. (JUNE 28) UPI - A 4-mile-long oil slick, believed to be the debris from an earlier fuel oil spill in New York Harbor, was found off the beaches of Fire Island, authorities said Thursday.

The slick appeared to be ''a sheen on the water,'' but grapefruit-sized tarballs also were recovered along the beach between Talisman and the Sunken Forest area on Fire Island, said Suffolk County police spokesman Officer Robert Tooker.

A marine unit of Suffolk County police first spotted the slick about 5:10 p.m. Wednesday, and estimated that it ran 4 miles, Tooker said. The Coast Guard and an environmental specialist were called to the scene, he said.

''The spill initially appears to be No. 6 home heating oil and could be related to the previous Arthur Kill spill due to the prevailing tides and winds,'' a statement police said.

Fire Island is a barrier reef off the southern coast of Long Island.

Tooker noted the sheen indicated the spill was not fresh.

New York Harbor, the waterway and busy commercial port separating New York and New Jersey, has been the site of a number of spills since January.

In the latest on June 7, about 260,000 gallons of No. 6 oil, spilled from a British-owned vessel, the BT Nautilus, as it grounded while approaching a dock at the Coastal Terminal in Bayonne, N.J. The spill was in the Kill Van Kull, a narrow waterway running between Staten Island and New Jersey.

#90179u0542 06/28/1990 ~United Press International
NEW YORK (JUNE 28) UPI - A police task force hunting for the city's ''Zodiac killer'' was on alert early Thursday for the mysterious gunman who has stalked and shot four men, one fatally.

But authorities said although the previous shootings have all occurred in the pre-dawn hours on four separate Thursdays 21 or 42 days apart since March 8, the Zodiac probably will not attack again until at least July 12 - 21 days after he shot and wounded a homeless man sleeping on a bench in Central Park.

The task force was to concentrate on Central Park and the Brooklyn-Queens border, where the four victims were shot.

The gunman boasted about the shootings in six notes to news organizations and police, and apparently knew his victim's astrological signs, listing them on some of the notes.

Police Commissioner Lee Brown said Wednesday the task force of 50 detectives working from an office in the Brooklyn Navy Yard is using a new police computer designed to aid detectives in special investigations.

Detectives investigating the 1988 murder of Police officer Edward Byrne pioneered the use of the new personal computer with special software, said Chief of Detectives Joseph Borrelli. Byrne was shot to death in Queens while guarding the home of a witness in a drug case.

Brown, who as public safety commissioner in Atlanta oversaw the investigation into a highly publicized series of child murders from 1979-1981, said the computerized system was developed by the police department for use in major investigations.

Brown said investigators were consulting with astrologers and following every solid lead or tip.

''We can't overlook anything,'' the commissioner said. ''Any possible direction that comes up, we have to follow it to its logical conclusions.''

-30- 1957

#90179u0544 06/28/1990 ~United Press International

GENEVA (JUNE 28) UPI - The Soviet Union proposed preliminary talks Thursday on banning global production of weapons-grade uranium and plutonium as the quickest way to achieve nuclear disarmament.

Sergei Batsanov, Soviet delegate at the 40-nation disarmament conference, said Moscow meanwhile expects early negotiations with the United States on limiting the number and size of superpower underground nuclear tests.

''The prohibition of the production of weapon-grade fissionable materials would be the most radical and the shortest way to eliminate nuclear weapons,'' Batsanov said.

''The cessation of production of highly enriched uranium and plutonium would inevitably lead to the discontinuation of the industrial base for the production of key components of nuclear weapons,'' he said.

Both the United States and Soviet Union almost stopped producing weapon-grade plutonium, Batsanov said, creating a ''favorable'' base for a global ban.

''In these conditions, the conference could start looking for a practical solution to the issue of a monitored cessation of production of weapon-grade fissionable material under effective control,'' he said.

Batsanov made the proposal in giving the multilateral disarmament forum a 90-minute assessment of current arms control efforts.

He said ''today, almost no-one harbors any doubts'' a U.S.-Soviet START treaty on reducing their strategic nuclear weapons will be signed by year's end.

Despite complaints only obsolete weapons will be scrapped, he said the treaty will be ''a milestone'' and form the basis for eventually cutting back to ''minimal nuclear deterrence.''

The Soviet arms control negotiator also pointed to major progress being made at the Vienna talks on East-West reductions in conventional weapons and forces.

All the same, Batsanov warned, there is still continuing danger of both nuclear and non-nuclear weapons proliferation around the world.

''A serious cause for the persisting threat of proliferation lies not in U.S.S.R.-U.S. efforts being believed to be insufficiently effective, but rather in a growing potential of instability in various parts of the world '' he said.

It is crucial, Batsanov said, to prevent the proliferation of chemical weapons and of missiles and missile technology.

After 20 years of talk, it is high time the disarmament conference completed a chemical arms prohibition convention, especially now the two big powers are eliminating the major part of their arsenals, he said.

''Indeed, not much is left to be done,'' Batsanov said. ''We have great hopes that during the summer, the conference negotiations on chemical weapons will acquire new dynamism.''

On nuclear testing, he said Moscow and Washington have finally signed verification protocols permitting ratification of old 1974 and 1976 accords placing a 150-kiloton ceiling on the size of underground explosions.

Batsanov said Moscow has proposed and expects Washington to soon agree to now negotiate, possibly beginning in September, ''further limitations on the quantity and yield of nuclear tests.''

#90179u0575 06/28/1990 ~United Press International
(JUNE 28) UPI - Around the world... around the clock... the latest news from U-P-I.

It's the hottest month in history for Lubbock, Texas. The temperature soared to 103 yesterday- putting it over 100 for the 18th day this month. Temperatures pushed past 100 from Texas to Southern California again yesterday. It was 117 in Phoenix, where four deaths are blamed on the heat. Los Angeles was 109, and one death is blamed on the heat.

Wildfires are feeding on tinder dried by the extreme heat. The worst fire is in Glendale, near Los Angeles. 18 homes were destroyed and 16 others damaged in an apparent arson. Another arson destroyed six homes in the Chino Hills. A transient has been arrested for setting a fire in San Bernardino.

A major hurdle has been cleared in conventional arms reduction talks. Negotiators for NATO and the Warsaw Pact in Vienna yesterday agreed on the definition of a tank and a proposed ceiling for armored combat vehicles. Negotiators have now reached agreements in three of five categories of weapons that are the focus of the 23-nation conference.

The Senate has passed and sent the House the first major housing bill in a decade. The Senate bill authorizes 18-BILLION dollars for fiscal 1991. It would create more housing for the very poor. And it would give low- and moderate-income families a chance to own their homes for the first time.

Black South African leader Nelson Mandela arrived in Miami early this morning. He did NOT receive an official welcome because of what officials said was a scheduling conflict. A few supporters met Mandela at the airport and about 200 gathered in front of the hotel where he is staying.

#90179u0576 06/28/1990 ~United Press International
TOKYO (JUNE 28) UPI - Texas businessman T. Boone Pickens stormed out of the annual shareholders meeting of Koito Manufacturing Thursday in frustration at being denied a place in the Japanese company.

Pickens, who owns 26 percent of Koito, Japan's largest auto parts maker, called the meeting a farce and said the company treated American shareholders with contempt.

He threatened to present his experience to the Houston summit of advanced nations next month as proof that Japan's corporate system is closed to outsiders.

At the shareholders meeting, Pickens sought passage of seven resolutions, including one that would increase the dividend paid on Koito shares and another that would give him four seats on the board of directors.

After three hours of heated debate, Pickens' dividend proposal was voted down.

During subsequent discussion of his proposal on board members, Pickens told company President Takao Matsuura, ''Your meeting has turned into a sham. This meeting is a farce and we no longer want to participate.''

He and 33 other American shareholders then walked out.

Afterwards, all seven of Pickens' proposals were voted down by large margins.

Pickens has been fighting for a place on the Koito board ever since he bought a 20 percent stake in the company in February 1989.

The company's management accuses Pickens of simply intending to force them to buy back the shares at a higher price, a practice known as greenmail.

Among Pickens proposals Thursday was one he termed an anti-greenmail amendment.

#90179u0582 06/28/1990 ~United Press International

(JUNE 28) UPI - NASA crews will try to make sure today that the shuttle Atlantis does NOT have any fuel leaks like the one that grounded the Columbia last month. Engineers will pump thousands of gallons of liquid hydrogen rocket fuel into the external tank of Atlantis, which is due for launch around July 15th.

Twice in two days incidents have occurred at the Sequoyah Nuclear Plant in Tennessee. The Tennessee Valley Authority says neither problem forced shut-downs or threatened employees. The T-V-A says a leak developed in a hydrogen control tank yesterday. Tuesday, radioactive gas built up in a building.

A non-profit environmental group says General Motors led the industry lobby against tough clean air legislation. The Public Interest Research Group in Michigan says G-M spent about three-Million dollars since 1981 to block strong and effective federal clean air legislation.

Environmentalists and the chairman of the Senate Natural Resources Committee are backing legislation to require labeling of tuna caught in ways that kill dolphins. They say the legislation could raise the price of

tuna by between two and 10 cents a can.

The nation's leading food industry association recommends that food manufacturers phase out lead-soldered cans. The association says the number of lead-soldered cans produced in the U-S has been reduced from 90 percent in 1979 to three percent in 1990.

-30- 1575

#90179u0649 06/28/1990 ~United Press International

SANTA BARBARA, Calif. (JUNE 28) UPI - A rash of explosive fires, fueled by winds, triple-digit heat and arsonists, erupted across Southern California, destroying more than 300 homes and injuring more than 32 people.

Santa Barbara was blanketed by thick smoke from a 3,500-acre arson fire that destroyed at least 280 posh homes and businesses near U.S. Highway 101 and State Route 154 on the western outskirts of the city.

Barbara Gaughen of Santa Barbara, said, ''I went outside at 6 p.m. and there was no more sun because of the smoke and ashes. ''It is so thick it looks like we're in thick fog.''

The Los Angeles suburb of Glendale also was hard hit. Eighteen homes in a hillside neighborhood dotted with mansions worth $500,000 to $1 million each were destroyed and 16 damaged.

Investigators said both fires apparently were the work of arsonists.

At least 12 houses were destroyed in a 2,200-acre brush fire south of Corona about 60 miles east of Los Angeles. The fire was started last week as a controlled burn and flared up Wednesday, said Tom Ramsey of the California Division of Forestry. About 400 firefighters battled the blaze in heavy brush and grass in a sparsely populated area.

Another six houses were destroyed in the Chino Hills area of San Bernardino in another deliberately set fire.

The Santa Barbara blaze began at 6:02 p.m. as a brushfire at State Route 154 and Painted Cave Road in the San Marcos Canyon, northwest of the city. It was ''still burning actively'' early Thursday and there were no estimates of when it would be containted, said U.S. Forest Service fire information officer Susan Mockenhaupt.

''It was arson,'' Mockenhaupt said. ''There are suspects. An incendiary device was found.''

Sheriff's deputies, however, said there were no immediate suspects in the

case, although possible witnesses were questioned.

The flames crossed U.S. 101, which was closed by the California Highway Patrol, destroyed a railroad trestle and pushed into the posh multi-million-dollar residences of Hope Ranch, which includes a golf course, located on the hillsides above the Pacific Ocean.

The fire also spread further into the San Marcos Canyon, burning wooden A-frame houses in the San Marcos Trout Club.

''Everything was just perfect for this fire to start,'' said Santa Barbara Sheriff's deputy Jan Bullard, referring to 40-60 mph winds, four years of drought, the arson device and an undergrowth that last burned in 1955.

She said the brush burned ''like gasoline'' and flames crossed U.S. 101 ''at a frightening rate.'' The fire also raced through Tuckers Grove County Park, a portion of the Los Padres National Forest and a County Sheriff's Honor Farm, housing 263 prisoners. About 200 inmates were evacuated to the County Jail at 7:30 p.m. The county's garage, with much of the county's fleet, also was destroyed.

''It's not just one direction of travel and not just one major hot spot,'' said Bullard.

About 300 firefighters battled the blaze, aided by 200 other personnel. About 100 police, who earlier worked to evacuate neighborhoods, spent the night patrolling burned-out homes and streets, darkened by electric outages produced by burned power poles.

There were no deaths and only about a dozen minor injuries reported - mostly from smoke inhalation and minor burns, health officials said. Five shelters were set up to house people who lost their homes or were unable to reach to their residences.

-30- 3698

#90179u0700 06/28/1990 ~United Press International

(JUNE 28) UPI - Southern California is hot with high temperatures and wildfires... South Florida is cool toward touring Nelson Mandela. Those top stories and more, coming up next from United Press International.

Southern California fires have raged through at least 54 homes, charred thousands of acres... and injured more than 25 people.

The fires extend from San Diego north to Santa Barbara. Investigators say at least three fires ranging through the hot and dry brush were set by arsonists.

100-plus-degree heat and a drought helped set the stage for the fires... and are making it more difficult for firefighters.

In the Los Angeles suburb of Glendale, 18 homes in a hillside neighborhood dotted with mansions were destroyed and 16 damaged. 90 miles to the north, in Santa Barbara, a wall of flames leveled at least 20 homes. Six houses were destroyed in the Chino Hills area of San Bernardino.

Outside Hemet in the Palm Springs area, 17 California Department of Forestry firefighters were burned battling a blaze that charred 125 acres of grass and brush.

Fire officials encouraged people to to stay home... partly because smoke cut visibility.

California's coastal Highway 101 had walls of flames burning on each side of it at San Luis Obispo for awhile yesterday.

There is NO immediate estimate of the number of people forced to flee from their homes. But shelters have been set up for people evacuated or who cannot reach their homes.

In Arizona, a wildfire in the Tonto National Forest destroyed a historic cabin used by the late western novelist Zane Grey and threatened hundreds of summer homes. The same fire killed five prison inmates and one guard as they fought the fire Tuesday.

In Texas, a fire blackened 15-hundred acres of forest in the Guadalupe Mountains National Park. Park Service spokesman Bob Valens says the habitat of black bear and peregrine falcon was virtually wiped out.

-30- 2110

#90179u0704 06/28/1990 ~United Press International

(JUNE 28) UPI - Nelson Mandela is in Miami today... where he's expected to encounter the first less-than-enthusiastic welcome on the U-S portion of his world tour.

There's a growing rift among community as to whether they should applaud Mandela's work against apartheid... or rebuke him for his support of Cuban President Castro, P-L-O chief Yasser Arafat and Libyan leader Gadhafi.

Mandela has been criticized by five Cuban-American mayors in Florida for his failure to condemn human rights violations in Cuba. And members of the Jewish community object to Mandela's backing the P-L-O.

The Cuban and Jewish objections are creating tensions between them and Florida's black community, which supports Mandela.

Mandela is on a world tour to raise money for the African National Congress and to lobby world leaders for continued trade sanctions against Pretoria's white-minority government.

Mandela arrived at Miami International Airport from Atlanta, where he was given a tumultuous welcome that's become the standard for his tour.

The South African black leader is to speak to a Miami Beach convention of the American Federation of State, County and Municipal Employees before heading to Detroit.

-30- 1375

#90179u0711 06/28/1990 ~United Press International

(JUNE 28) UPI - Housing and Urban Development Secretary Jack Kemp praised a Senate-passed housing bill as the ''most significant step'' toward better housing in 25 years.

The Senate voted 96-1 to pass the measure, which creates more housing for the very poor and gives low- and moderate-income families a chance to own their own homes. The bill now goes to the House, which is ready to consider a more costly and ambitious housing bill.

The complex Senate bill authorizes 18-BILLION dollars for fiscal 1991. It includes some old and tried programs... discards and consolidates others... and would write into law innovative experiments such as the home-ownership plan.

Kemp says that if Congress approves the bill, he looks forward to one-Million new homeowners among the low and moderate incomes by 1992.

The bill seeks to reduce high F-H-A mortgage default rates by establishing higher premiums for low down-payments... and would require borrowers to pay two-thirds of the closing costs in cash.

President Bush has outlined what he calls ''a new economic partnership'' for the Western Hemisphere.

Bush proposed a series of trade, investment and debt-reduction incentives that build on earlier efforts to move Latin America down the road to market-oriented economies. His incentives will keep pressure on Latin American nations to undertake the kind of reforms needed for long-term growth.

The president's initiative would depend on backing from other industrialized nations.

In making the announcement to Latin American diplomats, American business executives and other V-I-P's at the White House yesterday... Bush made only one mention of money. Bush pledged 100-Million dollars toward creation of a fund to provide up to 300-Million dollars a year in grants for market reform. He said matching contributions will be sought from Europe and Japan.

-30- 2048

#90179u0716 06/28/1990 ~United Press International

(JUNE 28) UPI - The Organization of American States says the last Nicaraguan Contras known to carry weapons have disarmed... bringing the total to 19-thousand.

Among those who surrendered weapons yesterday is the Contra commander in chief... Israel Galeano, popularly known as Commander Franklin.

Galeano gave his rifle to President Chamorro.

The U-S and Soviet ambassadors to Nicaragua were present at the ceremony where Galeano and 200 other rebel commanders gave up their guns. Galeano declared the U-S-funded war against the Nicaraguan government is over.

The Contras reached agreements with the Sandinistas and Chamorro's government to disarm by June 10th after moving into security zones by April 25th... the day Chamorro took office.

The disarmament ceremony was disrupted by 10 mothers who say their sons are still being held captive by the Contras. The rebels deny it.

After the ceremony, two Nicaraguan military helicopters carrying 20 journalists and six crew members collided in flight and crashed. All 26 people aboard the helicopter were hurt... but none was killed.

A New York police task force hunting for the Zodiac killer was on alert early today for a mysterious gunman who has stalked and shot four men, one fatally.

The Zodiac shootings all have occurred in the pre-dawn hours on four Thursdays 21 or 42 days apart since March 8th... so police don't think the killer will attack again until at least July 12th.

In his last attack one week ago, the unknown gunman shot and wounded a homeless man sleeping on a bench in Central Park.

The task force this morning is concentrating on Central Park and the Brooklyn-Queens border, where the four victims were shot.

Police are calling the gunman by the name Zodiac because he boasted about the shootings in six notes to news organizations and police... and apparently he knew his victim's astrological signs, even listing them on some of the notes.

Police officials say investigators are consulting with astrologers and following every solid lead or tip. Said one official- ''We can't overlook anything.''

-30- 2294

#90179u0751 06/28/1990 ~United Press International

MANILA, Philippines (JUNE 28) UPI - President Corazon Aquino expressed shock Thursday at the U.S. announcement it was withdrawing the Peace Corps under threat of Philippine rebel attacks and said she hoped Washington would reassess the move.

At a farewell reception at the presidential palace for the Peace Corps volunteers, Aquino vowed ''unceasing and continuing'' efforts to look into the threats against them until the rebels were crushed.

''I could not for a moment imagine that U.S. Peace Corps volunteers ... could be the targets of our enemies who in their efforts to cover up their defeats in both domestic and international areas would now indulge in diversionary strategies to embarrass our government,'' Aquino said.

''I close with the hope and prayer that your government will reassess the situation,'' she said.

Peace Corps Director Paul Coverdell announced Wednesday in Atlanta the suspension of the 29-year mission in the Philippines after the threat to the volunteers from the communist New People's Army emerged last week.

U.S. officials said most of the 261 Peace Corps volunteers assigned in remote villages were recalled to Manila and began departing Thursday.

Defense Secretary Fidel Ramos said of the U.S. decision, ''I think it's rather hasty.''

Asked if there were specific threats against the volunteers, Ramos said, ''Not that we have found out from our own agencies and we have only been given a general informal statement by the U.S. Embassy.''

Maj. Gen. Rodolfo Biazon, deputy chief of the armed forces, said the Philippine military was not informed in advance of the decision.

But Aquino's national security adviser, retired Gen. Rafael Ileto, conceded, ''We cannot protect each and every individual here.''

At least 10 U.S. citizens have been killed in the Philippines in the past three years in attacks blamed on the 19,000-member communist rebel force, which has been waging a 21-year-old rebellion. Two of the victims were airmen shot to death last May outside the U.S. Clark Air Base.

The communist rebels took responsibility for those slayings and vowed to kill more U.S. citizens until Washington dismantled its six military facilities in the Philippines.

The lease on the bases, manned by 40,000 troops, civilian employees and dependents, expires in 1991. Initial talks to extend the lease were held last month and are to resume in late August.

In a related development, the U.S. Air Force in the Philippines announced restructuring and budgetary constraints forced the retirement 24 F4G jet fighters at Clark Air Base, beginning in October. That would result in the loss of 980 jobs held by both American and Filipino personnel.

At the farewell reception for the Peace Corps volunteers, U.S. Ambassador Nicholas Platt said he was ''distressed'' to see the suspension of the program and ''outraged that the threat of violent acts by terrorist groups has forced us for the time being to interrupt'' the mission.

Some volunteers, who said they did not feel they were threatened, wept at the palace reception.

Kimberly Rylander, 30, an agriculturist from Denison, Texas, said in Tagalog, ''I will come back when peace has returned because I left my heart here.'' Tears streamed down her cheeks as she spoke.

Another volunteer who declined to be identified said, ''Apparently, there was an overreaction from the top.''

''They came and picked us up in beautiful bullet-proof vans. There was no time to say goodbye and we were told not to say anything to anybody,'' said the volunteer.

A U.S. official, speaking on condition of anonymity, said, ''This was clearly a very difficult decision.''

''This has to be balanced by fear of an American Peace Corps volunteer being killed or kidnapped,'' the officials said.

He said there is a genuine concern that because of tighter security thrown on potential U.S. military and diplomatic personnel, the rebels would now strike against Peace Corps workers who were vulnerable because of the remoteness of their assignments.

#90179u0808 06/28/1990 ~United Press International

TOKYO (JUNE 28) UPI - Paced by sluggish sales to China, the Soviet Union, Taiwan and South Korea, Japan's steel exports in May fell 22.4 percent from a year ago to 1,345,000 tons, the Japan Iron and Steel Federation reported Thursday.

Exports to the United States, however, rose 3.4 percent to 278,000 tons, the federation said.

The federation indicated sales to China plummeted 69.6 percent to 115,000 tons while those to the Soviet Union were down 50.1 percent at 29,000 tons.

Exports to Taiwan fell 40.7 percent to 138,000 tons while those to South Korea plunged 36.8 percent to 105,000 tons.

The federation added Japan's imports of ordinary steel products totaled 610,000 tons, up 4.4 percent over a year ago but down 14.0 percent from April.

The May imports were the second lowest since the beginning of this year, the federation said.

(JUNE 28) UPI - Fires are exploding across Southern California in the midst of record heat. Officials say the fires have injured more than 25 people... burned at least 54 homes... and charred thousands of acres of brush and grass from San Diego to Santa Barbara. Officials say some of the fires apparently are the work of arsonists... including one that destroyed 18 mansions in a Los Angeles suburb.

Lithuania's parliament is meeting today to consider a suspension of its March 11th declaration of independence from the Soviet Union. Soviet President Gorbachev has demanded Lithuania suspend the declaration before he lifts an economic embargo and opens talks on Lithuania's drive for independence. Gorbachev met with Lithuanian President Landsbergis in Moscow yesterday.

Officials in Lebanon say one person was killed and at least seven wounded today when two bomb blasts rocked Moslem parts of the country. One bomb exploded in the southern port city of Sidon... killing a child and wounding an adult. An explosive under a parked car in west Beirut wounded six civilians. NO one has claimed responsibility for either blast.

The chairman of a key House subcomittee issued what he called a ''very friendly warning'' to Israel yesterday. Wisconsin Representative David Obey says he'll support a cut in aid to the Jewish state next year if it expands settlements in the occupied territories. After Obey's statement, the House approved the Bush administration's full three-BILLION-dollar aid request for fiscal 1991.

(JUNE 28) UPI - Soviet jet fighters landed at a U-S Air Force base in Alaska yesterday on their way to a July 1st Canada Day air show in Ottawa. U-S Air Force officials welcomed the Soviet pilots as ''comrades''... and a high-ranking NORAD officer termed this latest Soviet military visit a symbol of new-found co-operation. The highest-ranking Canadian military official in Alaska also greeted the Soviets.

Nelson Mandela's welcome in Miami early this morning was decidedly cool compared with boistrous receptions he's received so far in New York, Washington, D-C, and Atlanta. American adulation for the South African black leader is NOT going unnoticed in his homeland. Conservative and even moderate newspapers are growing impatient with his rousing reception and his wife's feisty speeches.

Scientists say in the British science journal Nature the Arctic ice cap has thinned significantly between 1976 and 1987. Officials say the ''provocative'' study based on submarine data may be an early consequence of global warming. Cambridge University scientist Peter Wadhams based his research on sonar measurements taken under the ice by British submarines.

China's first Asian Games are less than three months away... and Beijing officials are fretting as much about their medieval public toilets as their city's slovenly service and sluggish traffic. The state-run China Daily says anxious city officials are working to upgrade the public washrooms, most of which are little more than a hole in the floorboards above a cesspool.

#90179u0878 06/28/1990 ~United Press International

CLEVELAND (JUNE 28) UPI - Former San Francisco Giant left-hander Dave Dravecky, who made a dramatic comeback from cancer surgery to pitch twice last season before suffering a broken arm, is once again undergoing cancer treatment.

A tumor was removed from Dravecky's pitching arm Oct. 7, 1988, at the Cleveland Clinic. Dravecky returned to the major leagues last season, winning his first start against Cincinnati Aug. 10, but he broke his arm

during a game against Montreal Aug. 15.

The bone broke again Oct. 9 during the Giants' celebration after winning the National League championship.

Dravecky had a second surgery Jan. 4 at the Sloan-Kettering Cancer Center in New York and underwent extensive internal radiation treatment after that surgery. A recurrence was later discovered at Sloan-Kettering and Dravecky is now undergoing daily radiation treatment at the Cleveland Clinic.

''In both cases, the surgery was adequate,'' said Dr. George F. Muschler at the Cleveland Clinic. ''But this type of tumor has the highest recurrence rate, more than 70 percent.''

Dravecky, 34, of the Youngstown suburb of Boardman, could not be reached for comment.

He is to receive daily radiation treatment as an out-paitent at the Cleveland Clinic through at least next week. Muschler said the therapy could continue for as long as four weeks.

''He was referred back to us by Dr. Murray Brennen (of Sloan-Kettering) because we are closer to Dravecky's home,'' Muschler said.

Muschler said the recurrence of the tumor ''does not necessarily represent a turn for the worse, but there has not been a turn for the better. ... Dave hasn't yet gotten out of the woods.''

The doctor said the recurrence ''is not life-threatening, nor is it limb-threatening'' at this time.

''The radiation treatment Dave is getting has a reasonable chance of controlling the tumor,'' Muschler said.

Dravecky, who pitched for the San Diego Padres until being traded to the Giants July 4, 1987, has a career record of 64-57.

#90179u0879 06/28/1990 ~United Press International

VILNIUS, Lithuania, U.S.S.R. (JUNE 28) UPI - Lithuania's president and prime minister returned home to report to republican lawmakers Thursday after meeting with Soviet leader Mikhail Gorbachev on conditions for starting negotiations on secession.

Lithuania's Parliament resumed debate on the government proposal for a moratorium on the Baltic republic's declaration of independence of March

11. But a Lithuanian source said a vote was not likely Thursday because of confusion over interpretation.

Gorbachev is demanding a suspension of the declaration as a condition to both lift an economic embargo now 3 months old and to start negotiations on Lithuania's desire to regain its pre-World War II independence.

The Lithuanian source, who requested anonymity, said that Wednesday's meeting with Gorbachev, the second in two days with Landsbergis, had not clarified Gorbachev's demands for a suspension of the independence act.

Lithuanian government spokeswoman Rita Dapkus said Thursday that ''the Soviet side asked that Lithuania adopt a moratorium on the act quickly.''

''The Soviet side seemed to be saying go ahead and put your conditions on it (the moratorium) and then we shall see,'' she aid. ''This is a big step for Lithuania because that act (of independence) is sacred for Lithuanians.''

Dapkus said the 142 deputies in the Lithuanian Parliament have been receiving telegrams on the issue and all have opposed the moratorium. But she added there were also indications many Lithuanians would support the moratorium.

Landsbergis and Prime Minister Kazimiera Prunskiene returned to the Lithuanian capital, Vilnius, after their 90-minute meeting Wednesday night with Gorbachev in the Kremlin.

''This (meeting) was necessary in order to avoid the adoption of senseless decisions which the other side would reject,'' Virgilus Savitskis, a Lithuanian government spokesman, told Tass.

A freeze on Lithuania's sovereignty declaration acceptable to Moscow would end more than a three-month stalemate between the Kremlin and the Baltic republic and the economic blockade Moscow imposed in early April. All oil and 85 percent of natural gas supplies to Lithuania have been stopped.

It was Gorbachev's second meeting with Landsbergis in two days. Tuesday, he met the former music professor separately in the Kremlin, and Wednesday Prunskiene joined him as a breakthrough appeared to be near.

In an address Tuesday to the Lithuanian Parliament, Prunskiene told the legislators it was time to act. ''We need negotiations,'' she said. ''We can't find any other way to solve the problems. The way to go seems to be a moratorium.''

She then challenged anyone with better ideas to come forward.

Landsbergis, who gave birth to the Sajudis independence movement, told Lithuanian legislators any negotiations must deal ''with the restoration of Lithuania as a state.''

He later told a news conference the Soviet Union wants Lithuania to negotiate as a union republic wanting secession, but he was insisting Lithuania must negotiate as an independent state.

#90179u0882 06/28/1990 ~United Press International

(JUNE 28) UPI - Stock prices on the Tokyo Stock Exchange plunged Thursday driven down by profit taking and arbitrage selling.

The blue chip Nikkei Average of 225 selected issues, which surged 740.98 yen Wednesday, lost 206.56 yen or 0.64 percent to close at 32,106.19 yen.

TOPIX, the Tokyo Stock Price Index of all listed major shares, fell 12.00 points to close at 2,350.40.

Trading was moderate with turnover estimated at 450 million shares, down from 630.32 million shares traded Wednesday.

Elsewhere in Asia, stock prices lost ground on the Hong Kong Stock Exchange, as profit taking dampened trading despite some interest by overseas buyers.

The Hang Seng Index lost 11.19 to close at 3,273.28. The drop followed a decline of 7.88 points Wednesday.

Volume was relatively light at 1.66 billion shares, down sharply from Wednesday's heavy turnover of 2.01 billion shares.

Share prices ended the day lower on the Singapore Stock Exchange under profit taking and amid wild swings in publicly listed local banks.

The Straits Times Industrial Index fell 1.52 points to 1531.73, while the All Singapore Index dropped 2.13 points to 437.78.

Volume was 81.73 million units.

#90179u0916 06/28/1990 ~United Press International

CHICAGO (JUNE 28) UPI - Investigators Thursday tried to determine if they have a murder, a hoax or a student project gone awry on their hands.

Michigan State Police were unable to solve the mystery, so they asked Chicago police for help. They, in turn, sought help from the FBI.

Authorities say film found in a camera in a Michigan field near Burr Oak, Mich., shows a possible Chicago homicide.

The 8mm camera was attached to four gas-filled balloons that drifted onto a cornfield about 125 miles from Chicago.

A farmer found the camera on Sept. 25 and turned it over to Michigan authorities, who only recently developed the color film.

The contents of the film baffled Michigan authorities. The film was shipped to Chicago police last week by Maj. Michael D. Robinson, commanding officer of the Michigan State Police investigative services bureau.

In a letter to Chicago authorities, Robinson said:

''The film depicts several things, one of which would appear to be the body of a white male lying in an alley or other enclosure with two white males standing over him.

''The film also depicts some type of overhead transportation system and some tall buildings. Because of prevailing westerly winds, we are assuming the camera may have originated in the Chicago area.''

Robinson's letter also said investigators are uncertain if the ''depicted body is that of a homicide victim, a hoax, or someone making a movie.''

Without success, Chicago police have contacted local colleges to try to determine whether student moviemakers might have lost the camera. Investigators also have reviewed missing person reports to no avail.

Chicago's chief of detectives, John J. Townsend, said FBI technicians will analyze individual frames of the film in an attempt to identify the possible victim. Photos then will be published in the Chicago Police Department's Daily Bulletin.

(JUNE 28) UPI - The Soviet Union made a new disarmament proposal today. The Soviets proposed preliminary talks on banning global production of weapons-grade uranium and plutonium as the quickest way to achieve nuclear disarmament. The Soviet delegate at the 40-nation conference in Geneva announced the proposal.

The Soviet envoy also said Moscow expects early negotiations with the United States on limiting the number and size of super-power underground nuclear tests.

Weather forecasters predict another day of unrelenting heat in the Southwest. Temperatures above 100 are predicted again today in Arizona, Southern California, Nevada, Texas and Colorado. At least five deaths are blamed on the heat.

More than 25 people have been injured in wildfires raging across several areas of Southern California. At least 54 homes have been destroyed and thousands of acres have been scorched.

U-S and Japanese trade negotiators talked past a noon deadline today in Tokyo. They are nearing an agreement on a package of economic reforms designed to ease trade frictions between the two nations. The Japanese cabinet is standing by to approve the report.

In Washington, budget negotiators say they might have a breakthrough today in their attempts to reduce spending. Yesterday, the congressional and White House negotiators talked about reductions in entitlement programs such as Medicare and food stamps.

The Federal Aviation Administration says air traffic controllers for the Midwest allowed airplanes to get too close to one another eight times in a recent 10-day period. A published report today says one close call involved a flight carrying Iowa Governor Terry Branstad.

Iran says a member of its parliament was killed in a helicopter crash in an earthquake-ravaged area. Four relief workers on board the helicopter were hurt when it went down yesterday in poor weather.

#90179u0985 06/28/1990 ~United Press International

TOKYO (JUNE 28) UPI - Texas businessman T. Boone Pickens stormed out of the annual shareholders meeting of Koito Manufacturing, Japan's largest auto parts maker, Thursday, frustrated at being denied a bigger management role and claiming the company is biased against Americans.

Pickens, who owns 26 percent of the company, called the meeting ''a farce'' and ''a sham.''

''I can't believe it,'' the angry Pickens told reporters after leading the walkout of American stockholders.

Pickens threatened to take his case to Wshington and the Houston summit of industrial nations next month as proof that Japan's corporate system is closed to outsiders.

''We're going to go to Washington and tell it as it as,'' Pickens said. ''They've got a closed system here and they're against foreigners.''

Pickens had sought passage of seven resolutions, including one that would increase the dividend paid on Koito shares and another that would give him four seats on the board of directors.

After three hours of heated debate, Pickens's dividend proposal was voted down.

During subsequent discussion of his proposal on board members, Pickens told company President Takao Matsuura, ''Your meeting has turned into a sham. This meeting is a farce and we no longer want to participate.''

He and 33 other American shareholders then walked out.

Afterward, all seven of Pickens' proposals were voted down by large margins.

Pickens has been fighting for a place on the Koito board since he bought a 26 percent stake in the company in February 1989.

The company's management accuses Pickens of intending to force them to buy back his shares at a higher price, a practice known as greenmail.

''I told them I have nothing to do with greenmail,'' Pickens said. ''I want to be a stockholder. I want to be part of management.''

Among Pickens's proposals was one he termed an anti-greenmail amendment.

Matsuura said Koito's board of directors opposed the anti-greenmail resolution out of suspicion that Pickens, who has a reputation as a corporate raider in America, was merely trying to disguise an intention to greenmail.

After leaving the meeting, Pickens told reporters Koito management dodged questions of American shareholders.

''Koito's management evaded every question raised by Boone Company and the American shareholders, while blatantly favoring questions from Japanese,'' Pickens said in a statement released to the press.

Pickens was also stung by what seemed to be mocking and abusive comments from Japanese stockholders.

''For three hours, we endured the shouting of Japanese hecklers, which went unchecked by management or security,'' Pickens said.

Koito's president rejected Pickens objections.

''We used up enough time to answer questions from American shareholders. It was very regrettable that Mr. Pickens did not stay until the very end of the meeting,'' Matsuura told a news conference after the meeting.

Matsuura acknowledged there had been several insulting remarks directed at the Americans during the meeting. But he said it was beyond the control of the company.

Later, a Koito consultant predicted that Pickens would now seek to get rid of his Koito shares.

''Pickens, a Texas oilman, would say he had drilled and found a dry well with Koito,'' said Richard Wolff, a media consultant with Kekst & Co.

hired to represent Koito.

But Pickens vowed he'd be back.

''I walked out of the meeting today but I'm not walking out of this fight '' Pickens said.

#90179u1011 06/28/1990 ~United Press International

LONDON (JUNE 28) UPI - Delegates at a conference on ozone depletion launched a 15-member committee Thursday that will spend a multi-million-dollar fund aimed at halting global production of chemicals that are destroying Earth's natural shield.

Industrialized and developing nations were each allocated seven seats and the 15th place will be taken by a nation selected on a rotating basis to chair the Executive Committee of the Multilateral Funding Mechanism.

Laupers Jan Brinkhorst, director of the environmental directorate of the European Community, said two seats would go to European Community, one each to the United States, the Soviet Union, Japan, Australia or New Zealand, and the European Free Trade Association of Scandanavian nations.

Developing nations had not yet decided which countries would take a permanent seat, but a decision would be made before the conference attended by 75 nations ends on Friday, he said.

U.S. delegation leader William Reilly said Washington would provide 25 percent of the fund, which is slated to be between $160 milllion and $220 million. Britain pledged $9 million on Wednesday, and the program is being administered through the World Bank and the United Nations.

The 10-day meeting is the second gathering of the 59 nations that have signed the 1987 Montreal Protocol, and was aimed at hammering out a clear strategy to halt global production of halons and chloroflourocarbons, chemicals used as aerosols, refridgerants and foams.

Scientists believe the substances are gradually destroying belts of ozone, which sit about 20 miles above the Earth and block out cancer-causing ultraviolet light.

Reilly gave an upbeat assessment of the meeting.

''We are extremely pleased with the degree of cooperation and wide concensus on most of the basic issues,'' he said. ''Three years after the agreement on the Montreal protocol, we are moving to conclude in favor of a full phase out of CFCs by the end of the century.''

But the moves to galvanize all nations to work together to avert the possible ecological disaster have become mired in the trappings of international politics.

India and China are refusing to sign the protocol because they do not think they will be adequately compensated for banning the chemicals in the world's two most populous nations.

Indian Minister of State for the Enviornment Maneka Gandhi said $40 million slated for India if it joins is not enough because by New Delhi's calculations, the South Asian nation would need about $600 million to retool its CFC-producing industries.

''Before we get into a situation where we break the protocol, it is better to see what we want,'' said Gandhi, who is attending the conference as an observer. ''Either you ease up on our obligations, or you tighten yours.''

Reilly said ozone-friendly alternative chemicals are expensive, but explained that Washington was countering the problem by enforcing a new tax on CFC production that makes it prohibitive to manufacture the chemical.

The levy will bring in $400 million this year, and is expected to raise $5 billion over the next five years, he said.

#90179u1041 06/28/1990 ~United Press International

NEW YORK (JUNE 28) UPI - Two of RJR Nabisco Inc.'s most troublesome junk bonds rose Thursday after a report the food and tobacco giant hopes to reset the bonds' interest rates at an inviting premium as early as this summer. The reset would affect some $2.6 billion of the company's high-risk, high-yield paper, the Wall Street Journal reported.

Jason Wright, an RJR Nabisco spokesman, declined to comment on the story, which said the company hoped to reset the bonds to pay a 16.5 percent interest rate perhaps as early as this summer.

The company's 14.07 percent convertible reset bond was up .75 cents to $1.015 on the dollar while its 14.07 reset bond moved ahead .75 cents to 83.5 cents on the dollar in morning trading.

Earlier in the month, the heavily indebted company and its largest investor - leveraged buyout specialist Kohlberg Kravis Roberts & Co., which took RJR Nabisco private in a record $24.9 billion transaction last year - said it had begun a $5.3 billion refinancing effort.

Plans call for an injection of new bank loans and preferred stock into the company, which also intends to retire most of its potentially high-cost junk bonds.

The bonds, which threatened to create a financial crisis for the company because their interest rates must be reset by next April to trade at face value, had traded at extremely depressed prices earlier in the year. This meant RJR could have been forced to pay a prohibitively high interest rate to meet its obligations.

WASHINGTON (JUNE 28) UPI - The Supreme Court, in a case stemming from charges a woman was expelled from nursing school because she was overweight, agreed Thursday to decide the role of a federal judge in determining questions of state law.

The court will hear arguments next fall in the case brought by the Salve Regina College of Newport, R.I., seeking review of a ruling by the 1st U.S. Circuit Court of Appeals.

The case stems from Sharon Russell's enrollment at the school's nursing department in 1982. Russell, according to court records, was more than 200 pounds overweight and school officials urged her to lose weight.

She did not lose weight and was not allowed to continue in the nursing program. She eventually transferred to St. Joseph's College in Connecticut

and graduated with a nursing degree after undergoing surgery that reduced her weight by half.

Nonetheless, she sued Salve Regina in 1985 on a variety of grounds including intentional infliction of emotional distress and harassment because of her weight. A jury found in her favor and awarded her some $40,000.

The award was upheld on appeal.

The school appealed to the Supreme Court on a variety of grounds, but the court, in accepting the case, limited review to a question dealing with the role of federal courts in determining questions of state law.

WIMBLEDON, ENGLAND (JUNE 28) UPI - Tennis players and spectators were evacuated from a large area of The All England Club Thursday when security officials feared that a camera lying on a walkway might be a bomb.

After a quick inspection, a Scotland Yard bomb expert found the camera to be simply a camera, plucked it from the concourse and ordered an all clear.

Scotland Yard said a national newspaper had received a telephone call claiming a bomb had been planted at the southwest London club.

Play was suspended for 24 minutes on three nearby courts - including Court No. 3, where Arantxa Sanchez Vicario and Mercedes Paz were at match point in a doubles match that they went on to win.

Spectators were not allowed to walk along the main concourse, and barriers were put up across a length of Church Road to prevent vehicles from passing the main gate.

The camera, wrapped in white tape, was found outside the posh members enclosure, where the 375 members of the southwest London club and their guests are welcome to have refreshments.

NEW YORK (JUNE 28) UPI - Latest metal market prices as quoted Thursday by the American Metal Market, authoritative metals publication:

Aluminum, New York Merchants, 99.7 percent pure ingots 74.00-75.00 c-lb.

Antimony, domestic, refined in alloy, $1.25-$1.40 lb.

Copper, electrolytic wirebars, delivered U.S. (Warrenton Refining Co.) 122.35 c-lb.

Lead, common, U.S. primary producers 45.00 c-lb.; U.S. non-primary (secondary) producers 49.00-52.00 c-lb.

Magnesium, 99.8 percent, ingot 163.00 c-lb.

Manganese, 99.9 percent, boxed regular 91.00-95.00 c-lb.

Mercury, $280.00-$290.00 76-lb. flask.

Nickel, briquettes delivered to customers, merchant, N.Y., $4.25-$4.45 per pound.

Palladium, N.Y. Am. Met. Mkt. dealer $112.00-118.00 per troy ounce.

Platinum, soft, 99.5 fine, producer - $480.00-$482.50; dealer-approx., $472.00-$485.00 per troy ounce.

Steel, No. 1 heavy melt scrap - Pittsburgh $104.00-$105.00 per gross ton (consumer buying price); Am. Met. Mkt. composite scrap price $107.50 per ton.

Tin, N.Y. Am. Met. Mkt. ex-dock - 294.50 c lb.

Titanium, aircraft quality, 8 1/8 inch round rotating billet, f.o.b. shipping point $7.80-9.59 lbs., domestic sponge 99.3 percent, domestic and imported duty-paid $5.00-5.50 lb.

Tungsten powder (H-Red), 99.9 percent minimum pure $10.00 per lb.

Zinc, prime western, U.S. 87.00-87.75 c-lb.

#90179u1092 06/28/1990 ~United Press International

WARSAW, POLAND (JUNE 28) UPI - More than 700 striking farmers from throughout Poland occupied the Agriculture Ministry in the capital and vowed Thursday to stay until the government increases prices they receive for agricultural commodities.

The farmers who occupied the building Wednesday evening said the Solidarity government of Prime Minister Tadeusz Mazowiecki has embarked on an agricultural policy which is impoverishing them.

The farmers' revolt coincided with a government announcement of higher

prices for gas, electricity, coal, heating and payments for use of radio and television, scheduled to go into effect Sunday.

The hikes will affect not only millions of farmers but also other workers dissatisfied with tough austerity measures adopted by Mazowiecki.

Wages of Poland's workers have been frozen since the start of the year with prices of goods rising 140 percent.

The strict economic policy has slowed inflation, which went from a three-digit figure to about 10 percent, but has caused unemployment to rise to 500,000 workers in the country of 38 million people.

As a result of the market-oriented polices, however, more goods have appeared on market shelves.

''The people will not stand it and Poland can become another Romania,'' said one economic expert critical of Mazowiecki's policy.

Henryk Chojak, a farmer from the southeastern province of Lublin, described the current farming policy as ''absurd.''

''Two pints of soda water costs 450 zloties (4 cents) while two pints of milk go for 200 zloties (2 cents),'' he said.

Another farmer complained of high prices for machinery, with a grain mower costing $900 and annual insurance for a tractor about $120.

Average monthly salary is Poland is the equivalent of about $94.

The strikers said their living standards have dropped by 35 percent in the first six month of the year.

''I would give up farming but with the growing unemployment in the cities I have to stay on the farm,'' Tadeusz Roszewicz, a farmer from Legnica, southwestern Poland, said.

A group of farmers met Deputy Prime Minister Leszek Balcerowicz Wednesday. But Balcerowicz, the architect of the austerity measures, rejected the farmers' demands saying they must adapt to a Western-style market economy, one striker said.

The strikers said they were waiting for Solidarity leader Lech Walesa to meet with them Friday to mediate the dispute.

Walesa flew to Vienna Thursday to attend a conference on ''Central Europe and its Road to Democracy.''

#90179u1098 06/28/1990 ~United Press International

BANGKOK, THAILAND (JUNE 28) UPI - Prince Norodom Sihanouk's U.S.-backed Cambodian rebel group joined with the communist Khmer Rouge to briefly capture a provincial capital despite U.S. warnings against such joint operations, a Thai military spokesman said Thursday.

At the same time, Son Sann, leader of a second U.S.-backed resistance group, called on Thailand to host a new round of talks seeking peace in Cambodia.

Lt. Gen. Naruedol Dejpradiyudh, spokesman for the Thai Supreme Command, said fighting increased inside Cambodia in the past month as the resistance took advantage of the early rainy season to cut the supply lines of the Vietnamese-installed government.

He said Sihanouk's U.S.-backed group and the Chinese-backed Khmer Rouge''joined forces to successfully attack the capital of Kompong Thom province and the district town of Kompong Svay attack.''

Naruedol said the government had to bring in additional forces from other provinces to recapture Kompong Thom.

The Sihanoukist group, which receives part of about $5 million in non-lethal aid per year to the resistance from the United States, has denied carrying out joint military operations with the Khmer Rouge.

The Khmer Rouge are blamed for the deaths of more than 1 million Cambodians during their rule from 1975 until ousted by Vietnam in 1979.

A Sihanoukist spokesman earlier said that attacks in Kompong Thom province were coordinated with the Khmer Rouge, but that the forces were separate.

U.S. officials have warned the resistance groups led by Son Sann and Sihanouk to avoid operations with the Khmer Rouge because of public abhorrence of the radical group responsible for atrocities of what became known as Cambodia's ''killing fields.''

Wednesday the U.S. House of Representatives voted to increase the money allocated to the resistance to $7 million. The legislation is pending in the Senate. The resistance argues it needs the money to show American backing and to help maintain its independence from the Khmer Rouge, who are well supplied by China.

Naruedol said earlier Thailand would not like to see any cut in assistance to the resistance unless Soviet and Vietnamese aid to the Phnom Penh government were also cut.

He said there was no sign of a let-up in the fighting despite a vague cease-fire signed in Tokyo at the beginning of the month.

''We expect the fighting will increase in intensity because of the weather and ground conditions for battle in the rainy season should make it easier for the nationalist (resistance) forces to operate,'' he said.

Government radio said its forces killed 464 resistance troops from June 17 to 23 and captured 125 others, but diplomats say such reports are generally exaggerated.

Son Sann, who leads the non-communist Khmer People's National Liberation Front, told reporters he met with former Thai Defense Minister Chavalit Yongchaiyudh to ask him to organize a new round of peace talks.

Despite his resignation earlier this month over political differences, Chavalit is seen as a key figure in Thai peace efforts for Cambodia.

Prime Minister Chatichai Choonhavan, who has been trying to bring Chavalit back into his government, said ''It's good news if Thailand can be the venue'' for peace talks, but added, ''I cannot accept anything until I see all the details.''

The Bangkok talks are designed to prepare for a meeting of the five permanent members of the U.N. Security Council set for July 9 in Paris, Son Sann said.

He said the Bangkok meeting would focus on the role of an interim Supreme National Council to administer Cambodia before general elections.

MANILA, PHILIPPINES (JUNE 28) UPI - Typhoon Percy killed at least eight people and left more than 31,000 people homeless in a destructive sweep across the northern Philippines, officials said Thursday.

Weather officials said Percy was moving away from the Philippines Thursday and was expected to strike north of Hong Kong within the next 24 hours if it held to its present course.

In its final bulletin on the typhoon, the third to hit the country this year, the Manila weather bureau said it located Percy at 11 a.m. in the South China Sea about 200 miles northwest of northern Philippines.

Percy had peak winds of 100 mph and was moving northwest at 13 mph.

Mayor Edgar Bacungan of Caba town in La Union province said Percy caused landslides that killed six people in his area. In suburban Quezon City, police said a woman fell into a creek and drowned. The Red Cross said a baby girl drowned and two were missing in floods in Ilocos province.

The Red Cross also said a family of five perished in landslides that crushed 76 houses in Zamboanga del Sur province 500 miles south of Manila Thursday. But it said the mudslides were caused by monsoon downpours and were unrelated to Percy, which struck the northern tip of the Philippines Wednesday.

Percy killed a boy Saturday in the Pacific island of Palau.

The social welfare department said initial reports showed 31,206 people in 6,143 families were made homeless in floods and landslides the typhoon caused in the north.

Last week, Typhoon Ofelia killed 59 people in the Philippines, 30 in Taiwan, 22 in China and 12 in South Korea.

#90179u1135 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - The Supreme Court, preparing for its new term in October, agreed Thursday to decide the level of immunity prosecutors have from civil suits involving charges they violated the constitutional rights of suspects.

The justices will hear arguments next fall in a bizarre case brought by Cathy Burns, who was charged with the attempted murder of her two children after a deputy prosecutor allegedly authorized police to hypnotize and question her about the crime.

Two police officers investigating a shooting at Burns's home in 1982 said they were given permission by Deputy Prosecutor Rick Reed of Delaware County, Ind., to hypnotize and question Burns, although the practice of hypnosis was unlawful in the investigation.

Under hypnosis, Burns made statements that the officers interpreted as evincing a multiple personality and that her alter ego was responsible for the shooting.

The officers said they obtained permission from Reed to arrest Burns, who was a reserve police officer at the time. A day later, Reed and the officers obtained a search warrant for Burns's home by telling the judge Burns ''confessed'' to the shootings.

After Burns was charged with attempted murder, various psychiatrists who

examined her found she did not possess a multiple personality. They said she feared losing her children through pending child custody hearings and was potentially suicidal as a result.

Charges against Burns were dropped but civil court felt it was in the best interest of the children they not be returned to their mother due to media attention from the case. She also was unable to regain her employment with the Muncie Police Department.

Burns sued Reed but the trial court held that the doctrine of absolute immunity protected him from such charges. The appeals court affirmed.

In seeking high court review, Burns said other appellate courts ''provide the opportunity for a wronged plaintiff to successfully pursue his or her claim against a prosecutor who has abused the constitutional rights of the plaintiff.''

Lawyers for Reed said ''activities of a prosecutor'' should be ''absolutely immune'' from such action.

In other action, the court, issuing its final orders list of the 1989-90 term:

-Agreed to decide the role of a federal judge in determining questions of state law in a case stemming from charges a woman was expelled from nursing school because she was overweight.

-In a case involving a government worker's embezzlement of $1.2 million agreed to decide the circumstances under which federal judges can give harsher sentences than those listed in the Sentencing Guidelines.

#90179u1137 06/28/1990 ~United Press International
TOKYO (JUNE 28) UPI - The United States and Japan agreed on a historic package of economic reforms Thursday designed to cut the chronic U.S. trade deficit and open the Japanese market to more foreign goods.

A year of negotiations on the broadest economic agenda tackled by the two nations ended in success, Prime Minister Toshiki Kaifu and U.S. trade negotiators said.

In Washington, President Bush said the commitments contained in the accord would "have a positive effect" on both economies and "be beneficial for the entire world."

Bush welcomed Japan's readiness to reduce its trade surplus with the United States and hailed the outcome of the talks as "an important

framework in which the underlying causes of trade imbalances can be removed."

Bush repeated his determination to address Japanese concerns about the U.S. economy by working with Congress to strengthen public and private saving and reduce the federal budget deficit.

U.S. Trade Office Representative spokeswoman Torie Clark said, "Overall, it's a good package. It's not as much as we had hoped for but is headed in the right direction." The talks, originally scheduled to end Tuesday, had entered their fourth day with a breakthrough looming.

Kaifu had called President Bush late Wednesday to offer a compromise on the major sticking point in the Structural Impediment Initiative talks - Japan's spending on public works projects.

The negotiating teams then worked until 5 a.m. Thursday. After a six-hour break, they resumed talks at 11 a.m., hoping that a final draft of their recommendations would be released shortly after noon.

In his telephone conversation with Bush, Kaifu reportedly offered to budget $2.86 trillion for public works over the next ten years, an increase of about $100 billion over previous offers.

The United States is pushing for more public works in Japan as a way to stimulate spending, increase Japan's imports and contribute to a reduction in the $50 billion annual U.S. trade deficit.

Despite its great wealth, Japan is far behind most industrialized nations in terms of public infrastructure. Only 40 percent of Japanese homes, for example, are connected to sewer lines.

The United States was expected to pledge to bring down its budget deficit, increase spending on education, improve the competitiveness of its industries and increase savings rates.

U.S. officials said Bush made an important contribution to the talks by announcing Tuesday he would consider new taxes to cut the federal deficit. His tax statement ran counter to his 1988 campaign pledge not to raise taxes, and analysts viewed the move as politically risky for his fellow Republicans, who are running this year in congressional races.

Bush was said to have talked of his new stance on raising taxes - a step the Japanese have been advocating for years - and asked Kaifu to take an equally courageous move in reforming Japan's economy through increased government spending.

The final report was expected to call on Japan to widen its market to

foreign goods by reforming its complicated distribution system, curtailing its "Japan first" business practices that exclude foreigners and use more of its massive resources for public works projects instead of private investment.

#90179u1144 06/28/1990 ~United Press International

LONDON (JUNE 28) UPI - Iraqi President Saddam Hussein believes another Mideast war is inevitable unless Washington deters Israel from what he claims is its goal of expelling all Palestinians and dominating the Arab world, the Wall Street Journal said Thursday.

The Iraqi leader, in his first interview with a Western newspaper in three years, said Baghdad would resist Israeli aggression against any Arab nation - even if it meant war.

''If Israel attacks one country and there is no response, then the second country to be attacked surely will be Iraq,'' said Hussein, who in recent months has threatened to ''scorch half of Israel'' with poison gas if it attacked.

''Iraq is in possession of binary chemical weapons,'' he said. ''Our scientists and military men calculate this is sufficient enough to deter an Israeli nuclear attack.''

Hussein said in the European edition of the newspaper the immediate cause of regional tension was the decision by Israel's new right-wing government to proceed with resettling Soviet Jewish emigres in the occupied territories.

He said Israel decided to ''place immigration and absorption foremost among its national objectives'' and fanned Arab fears by declaring that ''the eternal right of the Jewish people to Eretz Yisrael is not subject to question, and is intertwined with its right to security and peace.''

Eretz Yisrael is generally seen to include Israel and the West Bank, which Israel has occupied since its victory in the 1967 war, and Hussein said Jerusalem i seeking a pretext to push its remaining one million Palestinians into neighboring Jordan.

''If they've prepared such a scheme, then aggression must occur,'' the Iraqi president said. ''You cannot avoid war.''

The newspaper said the president during the three-and-a-half-hour interview claimed the United States, and to a lesser extent Britain, are conducting an international smear campaign against Iraq to create a climate of support for an attack by Israel.

Washington must rein in Israel and withdraw its naval forces from the Persian Gulf, where the U.S. military is no longer required to protect oil tankers because the Iran-Iraq war is over, he said.

He condemned the Bush administration for suspending dialogue with the Palestinian Liberation Organization because of an attempted guerrilla assault in Israel.

''As soon as the U.S president's standing is threatened by the Zionist lobby, he suspends dialogue with the PLO so he can later restore it as a favor to the Arabs,'' Hussein said.

Hussein stressed that his nation is not exhausted from its eight-year war with Iran and his 1 million-strong army is battle-hardened and confident.

He declined to say whether a shipment of 132-foot pipes seized by British

and U.S customs agents was intended to create the world's largest artillery piece, but said such a device would not have the range of Israeli missiles.

''If the U.S. were to lend us nuclear weapons with the objective of balancing those Israel was given, we shall not decline them,'' he said, smiling.

Hussein said Iraq is engaged in ''direct dialogue'' with Iran towards transforming their cease-fire into a permanent peace.

#90179u1153 06/28/1990 ~United Press International

CAPE CANAVERAL, FL (JUNE 28) UPI - A fueling test to ensure the shuttle Atlantis does not have any leaks like the one that grounded Columbia last month was postponed Thursday to early Friday because of possible afternoon thunderstorms.

Engineers had planned to begin pumping thousands of gallons of supercold liquid hydrogen rocket fuel into Atlantis's external tank but NASA spokeswoman Lisa Malone said forecasters predicted a 40 percent chance of lightning and thunderstorms Thursday.

Safety guidelines covering fuel loading require the threat to be less than 20 percent and NASA managers had little choice but to reschedule the unusual test for Friday morning.

In the meantime, top NASA managers began a two-day flight readiness review at the Kennedy Space Center Thursday to clear Atlantis for launch around July 15 on a classified military mission.

Assuming no leaks are found during Friday's test, Atlantis and its five-man, all-military crew will be cleared for launch to ferry a secret Pentagon payload into orbit. But if a leak like Columbia's shows up, NASA's shuttle launch schedule would be faced with a major disruption.

The shuttle launch processing has been rocky in recent weeks with a variety of problems slowing work to ready NASA's three spaceplanes for flight.

One of the shuttle Discovery's payload bay doors was bent recently when a crane was accidentally moved, pulling one corner of the ship's right-side door up about 10 inches.

Engineers later declared the door was not damaged, but during an inspection earlier this week, an inspector accidentally bumped into the fragile panel, breaking a minor component, officials said.

While the accident will have no impact on plans to launch Discovery in October, it was indicative of NASA's luck in recent days.

Discovery's two aft rocket pods currently are being refurbished for flight. During a routine test, engineers mistakenly blew rocket fuel through propellant lines, ''burping'' five jets and spraying a potentially damaging propellant mist onto nearby heat-shield tiles.

In addition, a pressure relief valve in the other pod burst open when a valve that should have been open for a test was left closed. The pressure relief assembly will have to be repaired.

''This week has just been a nightmare for launch processing,'' said one official.

As for Columbia, engineers are working to remove a critical fuel line fitting to find out what caused the leak that put the ship's launch on hold until at least mid August and possibly longer.

Columbia's launch last month on a 10-day astronomy mission was called off when sensors detected explosive hydrogen gas spewing into the ship's engine room during fueling six hours before the planned May 30 liftoff.

After extensive tests, engineers traced the leak to somewhere inside a massive 17-inch-wide ''disconnect'' fitting where the fuel line enters the belly of the orbiter. The disconnect fitting allows the tank to be jettisoned after the shuttle reaches orbit.

Columbia was hauled off the launch pad and taken back to its hangar for inspections and tests to pinpoint the precise location of the leak.

A critical 17-inch valve assembly on the tank side of the fitting passed a series of tests over the weekend, prompting NASA managers to order the disconnect hardware aboard Columbia to be removed and replaced with a valve assembly built for the new shuttle Endeavour.

If all goes well, Columbia could be ready for another launch try as early as Aug. 12.

#90179u1160 06/28/1990 ~United Press International

GALVESTON, TX (JUNE 28) UPI - The explosion-wrecked Mega Borg probably will be sold to a salvage company, an attorney for the vessel's Norwegian owners said Thursday.

''I have been led to believe the ship has been put on the market,'' said

Robert Klawetter, a Houston attorney representing the owners, K.S. Mega Borg II.

''They're not in the business of repairing ships,'' Klawetter said of the owners.

He said the tanker appeared destined for the scrap heap, adding some of the cargo tanks possibly might be salvaged and used on other vessels.

The last of the 34.1 million gallons of light crude oil left on the tanker following a weeklong fire and spill was transferred from the 885-foot disabled tanker onto a smaller vessel late Wednesday, U.S. Coast Guard Cmdr. Thomas Leveille said.

Any gases left in the cargo tanks or hull also must be removed before people can inspect or work on the tanker, Klawetter said. He said the gas removal is expected to take about a week.

''It's not posing any further risk to the environment,'' Klawetter said of the tanker.

The ship remains at anchor 57 miles off Galveston. Explosions and fire rocked the tanker on June 8 as it was transferring light Angolan crude to a smaller ship. Two Mega Borg crewmen were killed in the blast, and two others are missing and presumed dead.

The Coast Guard estimates that 3.9 million gallons of crude spilled from the vessel. Most of that was consumed in the flames on the water's surface or was evaporated by the hot weather and winds.

#90179u1202 06/28/1990 ~United Press International

BUDAPEST, HUNGARY (JUNE 28) UPI - The infamous terrorist ''Carlos'' and his group took shelter in Hungary several times during a six-year period

with the knowledge of Communist Party leader Janos Kadar who was eager to please Moscow, the independent daily Magyar Nemzet said Thursday.

The complicity of Kadar, who died last year, and other prominent Communist Party leaders was first revealed Tuesday by Interior Minister Balazs Horvath in Parliament.

It followed similar developments in East Germany, where the government has arrested eight suspected members of the Baader-Meinhof gang wanted for a string of terrorist attacks in West Germany, and accused former leader Erich Honecker of harboring them.

The independent newspaper also suggested the Czechoslovak government sheltered Carlos and his accomplices during a period when they were being hunted throughout the world.

Horvath told Parliament that Hungary had given shelter and probably training facilities to terrorist groups in the late 1970s and the early 1980s with the consent of the late party leader as well as Central Committee secretaries Karoly Nemeth, Mihaly Koron, Sandor Racz, and Interior Minister Ondras Benkei.

The communists were ousted in free elections earlier this year.

The scandal prompted one Hungarian tabloid, Mai Nap, to suggest in its headline that the ex-party leaders, if found guilty, could be hanged for their complicity with the terrorists.

But Magyar Nemzet quoted professor Imre Bekes of the faculty of law in Budapest as saying, ''I don't think the court would pass a capital sentence simply because it is not their practice nowadays.''

Interior Minister Horvath has called on the chief prosecutor to start an investigation to establish whether criminal proceedings should be launched against the Communist Party leaders.

In the late 1970s and early 1980s, Hungary was still faithfully following the Soviet foreign policy line. The cover organization suspected of giving assistance to Carlos and other terrorists - the government-supported ''Solidarity Committeez'' - is now defunct, the daily said.

Carlos, the alias for a Venezuelan-born terrorist called Illich Ramirez Sanchez - is believed responsible for a series of terrorist attacks and is wanted in a dozen countries. His most well-known exploit was the kidnapping of 11 oil ministers during an OPEC oil conference in Vienna in 1975. There are reports he was killed in 1986, but they have never been confirmed.

Carlos first came to Hungary in 1979 via East Berlin, according to a retired officer of the anti-terrorist arm of the Hungarian intelligence service, whose name was withheld by the paper. The Hungarian intelligence service was tipped of his impending visit by its East German counterpart.

The Hungarian service trailed him for weeks, but Carlos was apparently privy to the surveillance, and when he spotted one of the service's cars he sent a volley of bullets in its direction. The incident took place in a quiet residential district of Budapest, favored by party chiefs. No one was hurt.

Magyar Nemzet disclosed that on April 2, 1980, Carlos sent a letter to Communist Party leader Kadar, which he signed off ''with revolutionary greetings.''

''We have been fighting for our revolutionary goals for over a year and have enjoyed the security offered by socialist Hungary,'' the letter said. ''We have extended our international relations from Hungary and have been able to establish contacts with the revolutionary fighters of all nations without being hindered by the Hungarian authorities.''

Hungary had claimed it was unaware that Carlos was on the most wanted list of Interpol when it joined the international police organization in November 1981.

In May 1981, Carlos was called to visit the Interior Ministry, where he was politely asked to leave the country, according to the newspaper.

Carlos was told this was necessary because his whereabouts had been detected by Western intelligence agencies. Carlos agreed to leave but he kept returning to Hungary under various diplomatic aliases. In fact he and five of his accomplices had used 127 different names in Hungary, the paper said.

In 1985, the last time Carlos was in Budapest, he and his men left in a hurry. The reason for their haste is still unclear, but they left behind in a rented flat 108 pounds of TNT, 110 pounds of other explosives, 24 RPG rockets, hand grenades and other equipment, all of which were confiscated by the intelligence service.

The last time Carlos attempted to return to Hungary was in 1986. He telephoned the Interior Ministry from Prague to seek entry but he was flatly denied.

Carlos took this in stride and said he would not go where he was not welcome, the intelligence source told the newspaper.

#90179u1204 06/28/1990 ~United Press International
HOUSTON (JUNE 28) UPI - Bolivian officials plan to end a 50-year monopoly of their country's national oil company, opening the way for joint ventures with American firms.

Dr. Manuel Olave Sarmiento, vice president of YPFB, Bolivia's national oil company, said Wednesday new legislation scheduled to be passed this week will open the way for joint ventures in producing areas formerly reserved for YPFB.

About 30 companies - 80 percent of them based in the United States - already are negotiating various exploration and production deals in Bolivia, Olave said. Included among those deals are risk contracts, whereby foreign companies drill wells in return for part ownership of the resulting production, he said.

Bolivia wants to replace through private investment the $150 million a year that YPFB usually invests in exploration drilling.

Recruiting private investors ''is the key to the sacrifices we've made in achieving economic stability in Bolivia,'' Olave said.

''It has been costly in terms of unemployment,'' he said. ''But it will be successful if we get private investment.''

Bolivia provides a stable economy for investors, with a 10 percent flat fee on all imports, no restriction on foreign exchange or on payments of dividends to shareholders outside that country, Olave said.

Bolivia has about 520,000 square kilometers with oil and natural gas potential, he said, and only about 130,000 square kilometers has been explored. The country has about 180 billion barrels of proved oil reserves and 5 trillion cubic feet of proved gas reserves, he said.

Mexican officials also said Wednesday at a conference on Latin American energy, that reorganization of Petroleos Mexicanos, or Pemex, Mexico's national oil company, could open opportunities for U.S. oilfield contractors there.

Mexico hopes to attract about $4 billion of private investments in its energy sector. But Alberto Escofet Artigas, Mexico's undersecretary of energy, said the country has no plans to remove constitutional prohibitions against foreign ownership of natural resources.

WASHINGTON (JUNE 28) UPI - Edward S.G. Dennis Jr., the head of the Justice Department's criminal division, announced Thursday he is resigning to join a Philadelphia law firm.

The resignation creates another top vacancy at the troubled Justice Department, plagued by high-level personnel problems during Attorney General Dick Thornburgh's stewardship, but officials characterized Dennis's resignation as amiable.

The 45-year-old Dennis, who was in charge of the important criminal division for two years, said his resignation was effective Aug. 31 and he would join the major law firm of Morgan, Lewis & Bockius.

Dennis's resignation had been expected for months. He has been a federal prosecutor for 16 years. Dennis and Thornburgh sealed the resignation with an exchange of cordial letters.

Justice Department spokesman Dan Eramian said Dennis was leaving on good terms and had been commuting between his home in Media, Pa., a Philadelphia suburb, and the nation's capital.

Dennis is the highest-ranking black official at the Justice Department. He is the second top official to depart in recent months.

In May, the Justice Department's No. 2 official, Donald Ayer, resigned in a bitter dispute and then accused Thornburgh of seriously mishandling an investigation of a news leak involving Rep. William Gray, D-Pa.

Shortly after Ayer quit, Thornburgh reassigned two of his most senior aides after it was revealed they had failed or showed deception on FBI lie detector tests about the Gray leak that was the basis of a broadcast by CBS News.

Thornburgh's closest aide and ''gatekeeper,'' Robert Ross Jr., was assigned to a temporary project and said he would leave the government in several months to return to private law practice.

Thornburgh's chief spokesman, David Runkel, was removed from daily press matters and became ''communications director.'' Reporters had long accused Runkel of systematically providing the public with inaccurate or misleading information.

The demotions of Ross and Runkel were an attempt by Thornburgh to counter the widespread perception - within and outside the department - that he was surrounded and isolated by a ''palace guard'' of cronies from his days as governor of Pennsylvania.

Thornburgh has been plagued by personnel problems since he arrived at the

Justice Department in August 1988 following the controversial administration of Edwin Meese. His first choice for deputy attorney general, Robert Fiske, withdrew his name under attack from conservative Republicans.

Thornburgh also suffered the defeat of his nominee for the important civil rights chief. William Lucas, who is black, was rejected after civil rights and other groups ridiculed his lack of legal experience and knowledge of important Supreme Court decisions on civil rights.

There also have been several lower-level resignations at the Justice Department and many of those officials said later they were critical of Thornburgh's highly centralized operation that required virtually all decisions to be made in his suite of fifth-floor offices.

#90179u1223 06/28/1990 ~United Press International

TOKYO (JUNE 28) UPI - The United States and Japan agreed on a comprehensive package of economic reforms Thursday designed to cut the chronic U.S. trade deficit and open the Japanese market to more foreign goods.

Charles Dallara, assistant secretary of the Treasury Department for international affairs and a member of the negotiating team, said the agreements ''should help reduce imbalances, lead to more efficient, open and competitive markets, promote growth, and, of central importance, enhance the quality of life in both Japan and the United States.''

To realize these aims, Japan committed itself to numerous market-opening measures such as reforming its distribution system, discouraging business practices that exclude foreign goods and punishing price-fixers.

Both Prime Minister Toshiki Kaifu and President Bush said a year of negotiations on the broadest economic agenda tackled by the two nations ended in success.

Bush in Washington said the commitments contained in the accord would ''have a positive effect'' on both economies and ''be beneficial for the entire world.''

Welcoming Japan's readiness to reduce its trade surplus with the United States, Bush hailed the outcome of the talks as ''an important framework in which the underlying causes of trade imbalances can be removed.''

Bush repeated his determination to address Japanese concerns about the U.S. economy by working with Congress to strengthen public and private saving and reduce the federal budget deficit.

Late Wednesday, Kaifu had called Bush to offer a compromise on the major sticking point in the talks - Japan's spending on public works projects. Kaifureportedly offered to budget $2.86 trillion for public works over the next 10 years, an increase of about $100 billion over previous offers.

The United States is pushing for more public works in Japan as a way to stimulate spending, increase Japan's imports and contribute to a reduction in the U.S. trade deficit. Despite its great wealth, Japan is far behind most industrialized nations in terms of public infrastructure.

U.S. officials said Bush made an important contribution to the talks by announcing Tuesday he would consider new taxes to cut the federal deficit.

In his conversation with Kaifu, Bush was said to have talked of his new stance on raising taxes - a step the Japanese have been advocating for years - and asked Kaifu to take an equally courageous move in reforming Japan's economy through increased government spending.

But negotiators warned that the results of the Structural Impediments Initiative will not come overnight.

''It is difficult to say exactly when we'll see the impact,'' said John Taylor of the Council of Economic Advisers. ''It could be dramatic but we forecast a more gradual progress.''

The agreement should result in a drop in the U.S. trade deficit with Japan which last year stood at $49 billion, in two to three years, the U.S. officials said.

Kaifu hailed the agreement, but warned of pain in implementing it.

''I am confident that the SII will greatly contribute to improving the Japanese standard of living, enhancing consumer interests and bringing the Japanese economy into harmony with the world economy,'' he said.

He added the implementation might be painful but that the reforms were in the consumer's best interest, as well as the national interest in promoting a global partnership with the United States.

The talks, originally scheduled to end Tuesday, had entered their fourth day with a breakthrough looming.

U.S. Trade Office Representative spokeswoman Torie Clark said, ''Overall it's a good package. It's not as much as we had hoped for but is headed in the right direction.''

Japan, which in the past has shied away from making detailed promises, made numerous specific pledges such as agreeing to change tax and zoning laws to lower land costs. Japanese land has become prohibitively expensive to foreign businesses that want to set up shop, the U.S. officials had argued.

Japan also promised many administrative reforms, including speeding up customs and patent procedures. In addition, Japan promised to wipe out the bid-rigging practices that have prevented foreigners from competing for many public works contracts in Japan.

CALGARY, ALBERTA (JUNE 28) UPI - Queen Elizabeth II will ignore warnings of Quebec politicians and visit the province Sunday on Canada Day, an organizer said Thursday.

Polticians have warned that the queen would not be welcome in their French-speaking province on the 123rd anniversary of Canada's confederation.

Quebec is seeking greater autonomy from Canada after the collapse of the Meech Lake constitutional amendment that would have recognized it as a distinct society and granted the province special powers to promote and preserve its French language and culture.

''We don't need that. We don't need that. I would suggest the queen doesn't have to come into Quebec,'' Francois Gerin, a Quebec member of Parliament said Thursday in Ottawa.

The queen, who will preside over Canada Day celebrations July 1 in Ottawa, will also visit Hull, Quebec, across the river from the nation's capital.

Clement Toussignant, a government organizer of the visit, said the queen discussed the situation with Canadian Prime Minister Brian Mulroney Wednesday night and decided to go ahead with the visit to the province.

The visit, the queen's 15th to Canada, comes at a time the nation is grappling with a unity crisis over French-speaking Quebec's drive for greater autonomy.

Thursday, the queen was scheduled to visit a pediatric hospital in Red Deer, Alberta, about 100 miles north of Calgary.

On Wednesday, thousands of Calgarians, waving Canadian flags and gaily colored balloons, poured into downtown streets as the queen arrived at the start of a five-day Canadian visit.

About 5,000 people, many of them visitors from other parts of Canada and the world, massed for the queen's arrival at a flower-decked Olympic Plaza in downtown Calgary. Some adults hoisted children on their shoulders for a better view while office workers waved through open windows high over the square.

For many in the crowd, seeing the queen was a nostalgic remembrance of earlier visits they witnessed as children.

''This is just great. I saw her up close. She's a wonderful person,'' said Lena Dick, who was a young girl when she first saw the queen before her accession.

''It's a great experience,'' added Jean Garratt. ''She represents a good way of life. She's a very moral person.''

Theo Bell, an Argentine of British origin, said, ''My hair is standing on end'' from excitement.

One woman who spoke to the queen during a 20-minute walking tour said, ''She asked me where I was from. I told her I emigrated from Wales eight years ago. She asked what Canada is like, and I told her it's just beautiful.''

The collapse last week of a constitutional amendment aimed at preventing Quebec's secession reportedly required a hasty rewrite of the queen's arrival speech.

''It's not really the role of the queen to get involved in any internal political matters in Canada,'' said Tousignant, a spokesman for the federal government department organizing the royal tour.

Thousands of well-wishers took the afternoon off from work to welcome the queen on her arrival in Calgary. Events scheduled during the five-day visit include a tour of the pediatric wing of the Red Deer Hospital, about 100 miles north of Calgary, and the Queen Elizabeth II show-jumping competition at the Spruce Meadows equestrian stables.

The Canada Day celebrations have been marred by the failure of the so-called Meech Lake constitutional amendment. Quebec refused to sign the 1982 constitution and ignored an elaborate ceremony in the nation's capital which the queen also attended.

Quebec said it would sign the constitution only if the Meech Lake accord recognizing the province as a distinct society and giving it powers to promote and protect the French language and culture was approved by all 10 provinces.

Last week, Manitoba and Newfoundland adjourned their legislatures without voting on the amendment, effectively killing the measure. As a result, Quebec is seeking greater autonomy from the federal government by gaining control over immigration and communications.

The queen's visit had been intended mainly to celebrate Quebec's signing of the constitution.

As constitutional monarch, she is well protected in the 1982 constitution,

according to legal experts. The role of the queen cannot be changed without the unanimous consent of the federal government and 10 provinces.

As a formality, the queen is Canada's head of state and is represented there by Gov.-Gen. Jeanne Sauve.

Britain's presence in Canada began in 1717 with its acquisition of what is now Nova Scotia. Through the decades, Canadians slowly obtained a growing influence over its own affairs. In 1982, Canada severed its last formal legislative link with Britain by obtaining the right to amend its constitution.

#90179u1265 06/28/1990 ~United Press International

BONN, WEST GERMANY (JUNE 28) UPI - The outline of a six-power agreement on German unification is becoming apparent, despite disagreements over the military future of a united Germany, East German leader Lothar de Maiziere said in an interview published Thursday.

But he gave no details of new proposals he said will help surmount current hurdles in German unity negotiations involving the two German states and the four World War II victors - Britain, France, the Soviet Union and the United States.

The East German news agency ADN quoted the prime minister as stressing that such an agreement would not entail a dual membership of a united Germany in the NATO and the Warsaw Pact. The Soviet Union had suggested Germany should belong to both military alliances for a transitional period.

De Maiziere said Germany must be a sovereign state upon unification, a rejection of a Soviet plan under which Germany may complete unification now but would only become fully sovereign in several years.

The Soviet plan, which also calls for massive reductions of German and foreign troops in Germany, was presented by Soviet Foreign Minister Eduard Shevardnadze last week at a six-power ministerial meeting in East Berlin.

De Maiziere told ADN that certain models are begining to emerge ''which will bring a solution.''

He gave a positive assessment of his recent meetings with the other parties involved in the negotiations. ''I had a clear 'yes' from all of them,'' he said.

The conservative leader said unification this year, favored by the Bonn government was ''possible''.

The two states will take their first major step toward full unification when a treaty on economic, currency and social union takes effect Sunday with the introduction of the West German currency in East Germany.

De Maiziere, who was meeting with Chancellor Helmut Kohl in Bonn Thursday, said economic union will be ''a signal of hope and confidence for the people of the GDR (East Germany).''

Speaking to a small group of top bankers and industrialists in Bonn, both Kohl and de Maiziere called for more private investment in East Germany.

''We have to speed up starting the flow of capital and knowledge to the GDR on a large scale,'' said Kohl.

De Maiziere said he will soon announce a new concept for the management of state-owned enterprises. He said the concept will be ''a signal that will reach far beyond the Federal Republic (West Germany).''

''We need to clear the way for investments and thereby clear the way for new jobs,'' he said.

(JUNE 28) UPI - Jubilant crowds gathered in Miami this morning to greet South African black leader Nelson Mandela, who is scheduled to speak at the Miami Beach Convention Center. Mandela will address the convention of the American Federation of State, County and Municipal Employees. People gathered five and six deep outside the hall this morning, hoping by their enthusiasm to offset the snubbing of Mandela by city officials upset over favorable remarks Mandela made about Fidel Castro.

Strong winds, temperatures of 100 degrees or more and arsonists are blamed for a rash of explosive fires that erupted across southern California, destroying more than 300 homes and injuring more than 30 people. Thick

smoke blanketed Santa Barbara from a 35-hundred-acre arson fire that destroyed 280 posh homes. In Glendale, 18 homes were destroyed in a hillside neighborhood dotted with homes ranging from 500-thousand to one-Million dollars.

Triple-digit temperatures still rule in the Southwest. At least five deaths and a series of wildfires are blamed on the unrelenting heat. Near-record temperatures reigned yesterday and more of the same is expected today. Lubbock, Texas, recorded its 18th day this month of 100-degree-plus heat. While the Southwest bakes, a huge storm system is pouring heavy rains over the Plains and Midwest, sending streams over their banks.

A report says most state medical boards are more concerned about protecting doctors than the public. The report by the consumer group Public Citizen indicates that the system could be improved if details on the disciplinary actions were be made public. The report found that an estimated 26-hundred formal disciplinary actions are carried annually by states against doctors... for problems ranging from mis-prescribing drugs, to being drunk on the job.

#90179u1292 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - The U.S. Commission on Civil Rights, in a sharp break with its contentiously conservative recent past, Thursday announced its endorsement of pending civil rights legislation.

''More, not less, needs to be done to provide redress to victims of

employment discrimination and to reduce the amount of discrimination in employment,'' the rights commission said.

At the same time, however, the eight-member panel said it had some concerns - shared by the Bush administration - that one section of the bill could lead to encouraging the use of ''illegal quotas'' by employers.

Bush administration officials have expressed even stronger concern and Attorney General Dick Thornburgh said in April the president would veto the bill unless it was changed. In May, White House officials eased the veto threat, saying changes in the bill were moving ''in the right direction'' and Bush has said he would like to sign a civil rights bill.

The commission urged Congress simply to adopt clarifying language to make clear that in the absence of a finding or order by the courts, the controversial section of the bill is ''not intended to promote employment quotas, nor will the use of quotas be condoned as a means of avoiding liability under this section.''

At issue is a section of the bill overturning a Supreme Court decision that said employers no longer had to show a ''business necessity'' for their hiring practices that resulted in a ''disparate impact'' on women and minorities. Instead, the burden of proving discrimination was shifted to the employee.

Critics of the proposed legislation, including the White House, argue that returning to the old standard, which existed for 18 years before the recent Supreme Court ruling, would encourage employers to adopt a quota system in hiring so as not to have a disparate impact.

The panel voted 7-1 to endorse the bill with opposition from Carl Anderson a White House aide under President Reagan and one-time legislative assistant to Sen. Jesse Helms, R-N.C.

In voting by such a wide margin to endorse the proposed bill, the rights panel took a step in putting behind it eight years of fractious domination by Reagan-appointed conservatives ideologically opposed to mainstream civil rights views that cost the commission congressional financial and political support and nearly drove it to extinction.

In another sign the panel was reverting to its traditional role, the commission also said it will ask Congress for additional money for the next five years to monitor implementation of the act and provide the Congress and president with a ''series of comprehensive and objective reports assessing its effects and recommending changes to the law if necessary.''

The proposed legislation, which reverses the impact of five Supreme Court

rulings during its 1988-89 term that made it much more difficult for alleged victims of employment bias to prove they were discriminated against, is expected to be acted on by Congress sometime after the July 4 recess.

The bill would also allow increased monetary damages against companies found to have wilfully discriminated against blacks, women and other minorities.

Earlier this week White House and Senate negotiators reached a compromise on scheduling a vote on the bill, averting what promised to be a partisan showdown during the visit of South African anti-aparthied leader Nelson Mandela. Republicans charged Democrats with using the Mandela visit to force concession from the White House.

#90179u1307 06/28/1990 ~United Press International

CLINTON, IA (JUNE 28) UPI - A judge has ordered a new home for Chico the parrot, a bird that was left $70,000 inheritance by its owner.

Ellen Bengston, of Clinton, died in January 1989 and left the money to her parrot and a poodle named Pepi. Since that time, Pepi died and the executor of the woman's estate asked the inheritance for the animals be reduced.

A judge agreed to reduce the allowance to $18,000 and ordered the remainder of the money be distributed to the deceased woman's god children.

Chico, who has lived more than a year with Marge Swank at the Clinton Humane Society pet farm, will have a new home after Wednesday's ruling. Judge L.D. Carstensen ruled the care of the bird should be granted to the executor of the estate.

Harold Bengston, a relative of the deceased woman, said he has found a couple who will care for the bird at no cost. Swank had argued she should continue caring for the parrot.

#90179u1329 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - A trio of Republican lawmakers accused Japanese and other foreign corporations Thursday of deliberately failing to pay their U.S. income taxes by as much as $50 billion.

Reps. Duncan Hunter, Tom Campbell and Dana Rohrabacher - all of California - also called on the government to take steps to recover the money before imposing new taxes on American citizens to slash the huge federal deficit.

''We want the taxes that foreign companies owe the United States before we ask the American people for one more cent,'' Campbell said. ''Latest figures show foreign companies could owe our Treasury up to $50 billion.''

Although the Internal Revenue Service is aggressively investigating the matter, Campbell said, ''We're not a step closer to collecting what is rightfully our nation's.''

Appearing at a news conference outside the Capitol, the lawmakers alleged foreign corporations cover up their U.S. profits by trumping up the real cost of imports on invoices, and report ficticious service charges to their American subsidiaries.

''It is fraud,'' Rohrabacher said. ''They're laughing all the way to the bank and they own the bank now.''

According to Treasury Department estimates released by the congressmen, foreign corporations reported U.S. assets of $950 billion in 1987 and receipts of $650 billion while reporting net income of only $5.6 billion.

The Treasury Department statistics also showed that Japanese corporations reported U.S. assets of $172 billion in 1987, receipts of $184.9 billion and net income of $219 million.

The 1987 figures on assets, receipts and profits - which include banks as well as manufacturers - are the latest available.

In a letter to Rep. Leon Panetta, D-Calif., chairman of the House Budget Committee, Campbell urged Bush administration and congressional budget negotiators to take note of the situation.

''With U.S. taxpayers now paying the government over $1 trillion in tax revenues, a 172 percent increase over taxes paid in 1981, we strongly believe we should enforce the collection of foreign owned business taxes before completing a budget that increases the tax burden of the American taxpayer,'' Campbell wrote.

#90179u1343 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - The General Accounting Office said Thursday insufficient drug treatment services for pregnant women require an ''urgent national response,'' but Health Secretary Louis Sullivan said the administration is meeting the challenge ''effectively.''

The National Drug Control Strategy report last year estimated 100,000 drug-exposed babies are born annually. The estimated cost of services for each significantly impaired infant is $750,000 for the first 18 years of life.

Also, the inspector general of the Department of Health and Human Services said a 1989 survey of eight cities identified 8,974 births of crack babies.

''The problem of drug-exposed infants calls for an urgent national response,'' Charles Bowsher, comptroller general of the General Accounting Office, told the Senate Finance Committee.

''Nationwide, drug treatment services are insufficient,'' he said. ''Expanding drug treatment services might reduce the number of drug-exposed infants and alleviate some of the social problems associated

with their care.''

Bowsher said less than 11 percent of women needing drug treatment are receiving services and that less than 1 percent of federal anti-drug funds are targeted specifically at drug treatment for women. For drug-addicted pregnant women, the percentage of federal expenditures is even less, he said.

But Health and Human Services chief Sullivan said that while the problem is huge, he is satisfied with the administration's response.

''I firmly believe that the administration is meeting these challenges effectively,'' he said.

''The clearest and most important message I have this morning, not only for the Congress but for America's women, is that substance abuse by mothers can have long-lasting harmful effects on their children. It can even kill them,'' he said, adding that people who know a drug-abusing pregnant woman have a ''duty'' to warn her away from the substances.

Witnesses gave graphic descriptions of drug-exposed infants: Cocaine may cause constriction of blood vessels in the placenta and umbilical cord, which can cause oxygen and nutrient deprivation to the fetus and can lead to poor fetal growth and development.

Crack babies have a significantly higher rate of sudden infant death syndrome than babies not prenatally exposed. And some infants prenatally exposed to cocaine may suffer from a stroke or hemorrhage in areas of the brain responsible for intellectual capacities.

Sen. Christopher Dodd, D-Conn., introduced legislation Thursday that would provide $100 million for comprehensive services to drug-exposed children and their families.

''It provides a continuum of health and social services ranging from parenting education to pediatric care. A primary goal (of the bill) is to preserve families, but children cared for by relatives, foster parents and adoptive parents also are included,'' Dodd said.

#90179u1361 06/28/1990 ~United Press International

VILNIUS, LITHUANIA, USSR (JUNE 28) UPI - Lithuania's prime minister urged Parliament Thursday to rapidly declare a moratorium on the republic's declaration of independence, saying the step would help Lithuania win freedom from Moscow.

Prime Minister Kazimiera Prunskiene told Parliament that Soviet President

Mikhail Gorbachev was very clear in his meeting with Lithuanian leaders Wednesday: ''After we declare a moratorium, then there will be an end to the blockade ... and negotiations.''

''Seeking negotiations does not mean a retreat. It means a step forward to independence,'' Prunskiene said.

Lithuanian President Vytautas Landsbergis told Parliament he still had some reservations about a moratorium. He suggested the situation in the Russian republic and the rest of the Soviet Union might change to Lithuania's advantage, avoiding the necessity of a moratorium.

''We should not have any hope that they will stop the blockade if we don't declare the moratorium,'' Landsbergis said. ''But if we wait the situation in Russia and in the Soviet Union might change. I would like you (Parliament) to discuss this.''

Landsbergis said he told Soviet officials once again that the object of any negotiations would be full independence for Lithuania.

''We stated very clearly that the negotiations would be bilateral, from the same status,'' Landsbergis said.

Prunskiene said the Soviets again brought up the idea of Lithuania's participation in a new confederation, but she added: ''First we have to consider independence, then being an independent state we can discuss association.''

Parliament then began debating 13 proposals on a moratorium as demanded by Gorbachev as conditional for lifting an economic blockade now three months old, and to start negotiations on Lithuania's desire to regain its pre-World War II independence.

Landsbergis told Parliament the embargo, including a halt to all oil and 85 percent of natural gas supplies, had caused losses equivalent to $173 million to the Lithuanian economy.

He said 5.3 percent of the work force had been laid off, and that nearly 40 percent of Lithuania's enterprises have been affected, with 10 businesses shut completely.

Landsbergis and Prunskiene flew back to Vilnius early Thursday following their surprise 90-minute minute meeting with Gorbachev in the Kremlin, the second for Landsbergis with the Soviet president in two days.

''This (meeting) was necessary in order to avoid the adoption of senseless decisions which the other side would reject,'' Virgilus Savitskis, a Lithuanian government spokesman, told the official Tass news agency.

Lithuanian government spokeswoman Rita Dapkus said Thursday that ''the Soviet side asked that Lithuania adopt a moratorium on the act quickly.''

She said ''the Soviet side seemed to be saying go ahead and put your conditions on it (the moratorium) and then we shall see.''

''This is a big step for Lithuania because that act (of independence) is sacred for Lithuanians,'' Dapkus said.

She said the 142 deputies in the Parliament have been receiving telegrams on the issue and all of them have opposed the moratorium. But she added there were also indications many Lithuanians would support the freeze.

DANBURY, CT (JUNE 28) UPI - Hughes Danbury Optical Systems Corp. officials said Thursday the cause of the $1.5 billion Hubble Space Telescope's troubles most likely lie in one of two massive mirrors it built for the space-roving observatory.

''We are in agreement (with NASA) that there is a spherical aberration in the telescope system and that the most likely cause is one of the two mirrors,'' said Thomas Arconti, spokesman for Hughes Danbury Optical Systems.

The 1,827-pound, 94.5-inch diameter primary mirror is made of ultra-low-expansion titanium silicate glass coated with aluminum and magnesium fluoride to enhance reflectivity. The special coating is just 4 millionths of an inch thick.

The secondary mirror is 27.4 pounds and 12.2 inches diameter.

Perkin-Elmer's Electro-Optics Technology division in Danbury built the mirrors in 1980 and 1981. The division was purchased by Hughes Aircraft in December 1989 and is now called Hughes Danbury Optical Systems.

The Hubble, which was launched April 25 with the space shuttle Discovery, was designed to be the most powerful optical instrument ever built for operation above Earth's obscuring atmosphere.

The telescope, however, has failed to return the dazzling view of the universe that was expected.

''At this point we do not know what the cause (of the defect) could have been,'' said Arconti.

''We've assembled our own internal team of scientists and engineers that will work very closely with the NASA review team,'' he said.

The defect virtually eliminated the use of a key camera and halted about half of all the telescope's planned scientific work until a shuttle crew can go back to the telescope and make repairs in 1993, NASA officials said.

''Where we suspect the problem happened is in the technique used to measure and polish the mirrors,'' said Jean Olivier, deputy manager for the telescope at Marshall Space Flight Center on Wednesday.

''It's absolutely much too early to speculate what the cause of the problem is,'' Arconti countered.

''The testing was very intricate. It involved very sophisticated computer polishing,'' said Arconti.

He said the glitch has disappointed company officials.

''Everybody thought that everything would have been working properly and it was very much a surprise for us to find out that there was this aberration,'' said Arconti.

#90179u1393 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - A top Justice Department official Thursday defended the agency's prosecution of thrift fraud cases but admitted that bringing these cases to trial ''is a painstaking and time-consuming affair.''

''Even the most aggressive and diligent investigators and prosecutors may need a year or more just to complete a thorough investigation of a complex fraud and obtain an indictment,'' said Edward Dennis, assistant attorney general in the department's criminal division.

Stressing that thrift fraud cases require interviewing of hundreds of witnesses and the review of thousands of pages of documents, Dennis told a subcommittee of the House Bnaking Committee that Congress should not expect an immedite increase in the number of successful thrift prosecutions.

''The successful investiation and prosecution of financial institution fraud is a painstaking and time-consuming affair,'' he said.

Dennis' remarks followed a barrage of partisan criticism from the panel about the slowness of the government's efforts to put crooked thrift executives behind bars.

''The American people are furious with the slow pace of prosecutions involving savings and loan criminals. These crooks are responsible for one-third, one-half or maybe even more of the savings and loan cost,'' said Rep. Frank Annunzio, D-Ill., the subcommittee's chairman.

Rescuing the nation's beleaguered savings and loan industry is estimated to cost taxpayers between $132 billion and $500 billion, making it the worst financial debacle since the Depression.

Last week, following a round of finger-pointing between the White House and Congress over who should take responsibility for the thrift crisis, President Bush announced an initiative to speed the prosecution of thrift fraud cases.

Annunzio carried the rhetorical battle another step by saying Congress has shown more enthusiasm ''to put the S&L crooks in jail'' than has the Bush administration.

''Frankly, I don't think the administration has the interst in pursuing Gucci-clad, white collar criminals,'' he said.

Dennis countered the track record of federal prosecutors in thrift cases has been ''impressive'' in recent years.

He said that from 1985 to this year, the department has brought criminal charges against 13,000 defendants in thrift-related cases and won convictions against more than 10,000 of these defendants.

Moreover, he said, the number of failed financial institutions under investigation by the FBI has increased 157 percent to 530 this year from 206 in 1986. Of the thrifts under investigation, 198 are in Texas, far more than any other state.

#90179u1396 06/28/1990 ~United Press International

JOHANNESBURG, SOUTH AFRICA (JUNE 28) UPI - Law and Order Minister Adriaan Vlok warned right-wing extremists, attackers of police and militant black unions Thursday that authorities will not allow stepped-up threats and violence of the past month to disrupt plans for racial reform.

Vlok also acknowledged that Pretoria gave up a 40-year attempt to suppress communism by force and chooses now to fight the ideology in debate. The minister was reacting fully for the first time to a spate of anti-government action that began in early June.

Police will maintain the law ''on all fronts'' in ''a difficult phase in

the country's development,'' Vlok said in a speech to businessmen, noting only ''strong security action can address a revolutionary climate.''

The government legalized the South African Communist Party after 40 years Feb. 2, along with such allied anti-apartheid movements as the African National Congress and other black alliances. Vlok said ''we tried, as it were, to keep the lid on it, to suppress it by legislation. Now we are looking the communists in the eye and engaging them in debate.''

But Vlok noted other groups are posing the real threats.

White supremacists are suspected of at least four urban bombings in the past month and a fugitive extremist last week declared war on the government from hiding. Militant unions have threatened mass job actions if labor demands are not met and in the past two weeks unknown assailants have stepped up attacks on police nationwide, killing at least eight policemen.

The threat from the right, a response to President Frederik de Klerk's reforms launched in February, is ''serious,'' Vlok said. Police face ''various splinter groups, acting in isolation, and that makes our task more difficult.''

Vlok, taking a sideswipe at a leading black labor alliance, the Congress of South African Trade Unions, said workers must cease political activities that contribute to ''country-wide destabilization of the political situation.'' But unions say their demands are necessary to correct apartheid-created imbalances in the workplace.

The attacks on policemen, for which no one has claimed responsibility, drew a decisive promise of action from Vlok, despite government undertakings to reconsider prosecuting those suspected of politically motivated crimes in a bid to entice the black opposition to the negotiating table.

''The killing of policemen must stop, for the sake of peace, and those guilty of this crime will be sought out relentlessly and convicted,'' he said.

Replying to criticism that police practice political favoritism, Vlok said he is being ''accused of unnecessary detentions and premature releases by both the left and the right, so I am satisfied that we are acting impartially.''

#90179u1412 06/28/1990 ~United Press International

GENEVA (JUNE 28) UPI - Staff members ranging from Nobel prizewinners to

janitors staged a 24-hour strike Thursday at the European Nuclear Research Center to demand better pay and pensions.

The strike was supported by all 3,400 employees of the center, also known as CERN, although 250 people remained on the job in case of emergency at the agency's atomic particle accelerators or ''atom-smashers.''

Staff Association officials said management representing the 14 West European member countries that finance the center offered only a 1 percent pay raise despite a demand by employees for an immediate 8.8 percent hike.

The officials said wages had not changed for 15 years and together with pensions are 20 percent below salaries at U.N. and other international organizations.

Those involved in the strike included Nobel Prize winners as well as janitors. As Geneva's biggest single employer, the center has a current annual budget equivalent to $600 million.

It was founded in 1954 so Europe could compete with the United States and Soviet Union in strictly theoretical non-military research into the atomic particles that comprise the matter that make up the universe.

Management said rising operating costs made it difficult to obtain significant budget increases from governments.

(JUNE 28) UPI - The United States and Japan have agreed on a historic package of economic reforms designed to cut the chronic U-S trade deficit and open the Japanese market to foreign goods. Prime Minister Kaifu and U-S trade negotiators reported today that a year of negotiations ended in success.

Authorities say two bombs exploded in Moslem areas of Lebanon today, killing one person and leaving at least seven others hurt. Police say a bomb went off in Sidon, 24 miles south of Beirut, killing a child and wounding an adult. Another bomb went off in west Beirut, destroying a car. NO group claimed responsibility in either bombing.

The Soviet Union has proposed talks toward a global ban on making weapons-grade uranium and plutonium in a bid to achieve nuclear disarmament. A Soviet delegate to a 40-nation disarmament conference in Geneva says both Washington and Moscow nearly stopped making weapon-grade plutonium. He calls that a ''favorable'' base for a global ban.

Delegates at a London conference on ozone depletion today launched a

15-member committee that will spend Millions of dollars to stop global production of chemicals that are destroying Earth's natural shield. The United States will provide 25 percent of the fund to fight ozone depletion.

The fraud and grand larceny trial of the Reverend Al Sharpton is drawing to a close today after three months of testimony in New York. Closing arguments are expected to begin today. Prosecutors charge that the Pentecostal minister's youth organization in Brooklyn was a charade designed to bilk donors of their money.

#90179u1430 06/28/1990 ~United Press International

MONROVIA, LIBERIA (JUNE 28) UPI - Monrovia was quiet but tense Thursday following Wednesday's violent crushing of an anti-government demonstration by army soldiers, with most banks, offices and shops closed, witnesses said.

Large numbers of soldiers loyal to the embattled government of President Samuel Doe patrolled the empty streets despite a Defense Ministry statement read over the radio ordering the soldiers to return to their barracks.

Sporadic firing into the air continued throughout the night Wednesday and into the early hours of Thursday, according to the witnesses.

Most commercial businesses and shops remained closed Thursday and Monrovia newspapers failed to appear. Few cars were to be seen on the streets of the capital.

On Wednesday, troops opened fire to block a march by demonstrators demanding Doe's resignation, injuring several people.

After the troops started firing, soldiers went on a shooting spree in the streets of Monrovia, firing submachine guns wildly to disperse demonstrators, a U.S. Embassy official said.

No deaths were reported but hospitals treated five people with bullet wounds. Many of the injured, however, were believed to have gone home rather than to hospitals for fears of reprisals.

A Defense Ministry statement Thursday said the soldiers had opened fire on the demonstrators because they had mistaken shots at the execution of a soldier by a firing squad for a rebel attack on the Barclay Training Center, a military barracks in downtown Monrovia.

Journalists at the barracks said the scheduled execution of Pvt. James Grear, who had been convicted for the murder of a civilian, was

interrupted by the gunfire. It was not known whether the execution had taken place.

Tension has been mounting in Monrovia, the capital of the West African nation founded by former U.S. slaves, in anticipation of a rebel attack after talks between the rebels led by Charles Taylor and Doe's government broke down in Freetown, Sierra Leone, last week.

The insurgents of the National Patriotic Front have captured the town of Fendall, 10 miles from the capital, where a campus of the University of Liberia is located.

#90179u1435 06/28/1990 ~United Press International

ADDIS ABABA, ETHIOPIA (JUNE 28) UPI - The Ethiopian government, in its first direct response to a rebel group's proposal, said it is willing to consider peace talks and an ''immediate cease-fire,'' the official Ethiopian News Agency said Thursday. But it set stringent conditions for talks.

The country''s parliament, the Shengo, said it released a long statement Wednesday night in response to a call June 24 from the rebel Tigray People''s Liberation Front for the resignation of President Mengistu Haile Mariam in exchange for a cease-fire.

The Shengo said it is willing to consider peace talks provided the rebels stopped supporting the secessionist claims of Ethiopia's other rebels, the Eritrean People's Liberation Front, which has sought independence for Eritrea province since 1961.

The TPLF is a non-secessionist central Ethiopian group that has fought to overthrow Mengistu since 1977. It broadcast its offer last week through the Ethiopian People's Revolutionary Democratic Front, a military group combining the TPLF and a smaller rebel group, the Ethiopian People's Democratic Movement.

''The EPLF and TPLF have made public their respective positions,'' the Shengo statement said. ''The EPLF has announced that it intends to persist with its secessionist aims. The TPLF ... has put forward a proposal for a cease-fire and for the establishment of a transitional government made up of diverse groups.

''If the TPLF, changing its long-standing public position of promoting the secession of Eritrea, were henceforth to refrain from destabilizing the territorial integrity of the country ... the government would like to declare that it is possible to consider these and other issues,'' it said.

The statement made no reference to the TPLF's call for Mengistu''s resignation.

There was no immediate rebel response to the statement.

The Ethiopian government, hard-pressed by both sets of rebels since the start of the year, has recently made sweeping concessions in a bid to stop the two crippling wars.

Earlier this month, it reversed a long-standing refusal to allow the EPLF-held port of Massawa, 470 miles north of Addis Ababa, to be used to funnel famine relief into the country.

About 4.5 million people face food shortages across the country this year, according to government and relief agency estimates.

It also reversed a refusal to consider allowing U.N. observers to attend peace talks - a rebel demand that ruined attempts at peace negotiations in 1989.

#90179u1476 06/28/1990 ~United Press International

DETROIT (JUNE 28) UPI - The Big Three automakers will post sharply lower second quarter earnings next month as severe economic woes in Brazil and chronically high marketing costs here depress profits, industry analysts said Thursday.

Several analysts said industry leader General Motors Corp. once again lost money in its North American automotive operations during the quarter that ends this week, while Ford Motor Co. and Chrysler Corp. were marginally profitable.

"GM is not profitable in the North American auto market by a large amount " said Ann Knight, of Paine Webber in New York, noting that weaker overseas operations will make it more difficult to mask those losses.

"They are really bleeding, and if there is any glitch whatsoever in their other operations, GM's bottom line will be hit hard," said Knight, who placed GM's second-quarter estimates at $1.10 a share vs. $2.23 a year ago.

That glitch is Brazil, where both GM and Ford have operations that were crippled by economic changes there last March that froze the existing currency, causing a drastic drop in auto demand and lengthy plant shutdowns.

The changes brought about dramatic reductions in currency liquidity and the amount of cash available, meaning companies could not pay suppliers or

workers and could not reap any financial investments.

"A huge percent of GM's and Ford's profits from Brazil have come from currency and financial-related instruments," Knight said. "The end result is that both companies have been hit very hard."

Ford, which has its Autolatina joint venture with Volkswagen in Brazil, was forced to idle workers from late March through early May. It may have been hit harder than GM since its Brazilian operations are more geared toward local consumption, analysts noted.

A sampling of industry analysts from Wall Street to the West Coast showed second quarter estimates for GM range from $1.10 to $1.35 a share, with some analysts saying the costs related to early introduction of several 1991 models depressed profits. Ford is expected to earn between $1.40 and $1.60 a share vs. $3 earned in the year-ago quarter.

David Healy, of Barclays de Zoete Wedd in New York, said that while the Big Three are showing improvements from the first quarter when massive production cuts were implemented, all continue to suffer from two chronic industry ills besides Brazil - lower output and heavy marketing costs. "Buyer incentives are higher than they were one year ago, while production rates are lower than year ago," Healy said.

European operations of both automakers that have propped up overall earnings are still relatively strong, but getting weaker. "Europe is a mixed bag," Knight said, noting GM is still doing well in West Germany while Ford has had problems in Britain and suffered from strikes during the second quarter. "Sales there are weaker for the first time in about 20 months."

Chrysler Corp., which has virtually no foreign operations, is expected to post between 55 and 90 cents a share vs. $1.46 a year ago, primarily because of lower U.S. sales. Several analysts said that while Chrysler's problems may be overstated, the situation at the No. 3 carmaker is likely to get worse before it gets better.

Losses are forecast for the traditionally weak third quarter, as Chrysler suffers from month-long model changeovers this summer at its lucrative minivan plants in Fenton, Mo., and Windsor, Ontario. Production at those plants may not return to normal levels until early 1991.

#90179u1499 06/28/1990 ~United Press International

MIAMI BEACH, FLA (JUNE 28) UPI - Greeted by drum-beating crowds in African garb and a few dozen Cuban-American protesters, Nelson Mandela thanked labor leaders Thursday for their help during the anti-apartheid

movement's ''greatest pain and anguish.''

Mandela's 20-minute speech to the American Federation of State, County and Municipal Employees was delayed for five minutes while delegates and guests chanted ''Keep the pressure on, Keep the pressure on.''

An estimated 6,500 people attended the Mandela speech, which was broadcast live on local television and radio stations.

Mandela praised the 1.25-million-member union for its battle to halt the investment of public pension funds in companies that do business in South Africa.

''They have known us when very few thought of our people as human beings '' he said at the Miami Beach Conventon Center with his wife Winnie seated by his side. ''They have comforted us at the moment of our greatest pain and anguish. Above all they have actively opposed the infamous system of apartheid tyranny.''

Mandela asked for the labor leaders' continued financial and emotional support.

''We are on the verge of a historic breakthrough. We are about to open a new phase in the history of our country precisely because the international community has continued to say no to apartheid.

''Our dream is a united, democratic, non-racial and non-sexist South Africa. Our demand is full democracy for all. On this we remain firm and inflexible.''

Following the speech, Mandela left Miami for Detroit aboard a charted Trump jetliner about 1:30 p.m. EDT. There were reports that Mandela had changed his plans and would make a public appearance at an afternoon rally in predominantly-black Liberty City, but his schedule would not allow it.

Mandela was greeted outside the convention center by a mostly black crowd of 3,000. Many wore African colors of yellow, green and red. Some of the women wore traditional African dress - long wrapped skirts and dresses with matching headdresses - and swayed to the beat of wooden drums.

Fifty to 100 protesters, mostly Cuban-Americans, also gathered outside the convention center. Members of the Cuban Independence Party carried signs that said, ''Human Rights for Blacks and Cubans Too,'' in reference to Mandela's pro-Castro stand.

Local black leaders had urged blacks to show up, to make up for the snub by city officials, who refused to issue a proclamation welcoming Mandela because of his refusal to denounce Cuban President Fidel Castro, a

long-time supporter of Mandela's African National Congress, the black political party fighting to end apartheid and white-minority rule in South Africa.

Mandela acknowledged the greeting by blacks, calling the warm welcome ''a source of great inspiration.''

By the time he arrived at the convention center shortly before 11:30 a.m., many in the crowd had waited four or five hours in the 90-degree heat. Six were treated for heat exhaustion.

#90179u1500 06/28/1990 ~United Press International

MINNEAPOLIS (JUNE 28) UPI - Cray Research, Inc. said Thursday it agreed in principle to give Yokogawa Electric exclusive right in Japan to sell, support and service Cray's first mini-supercomputer, based on Supertek S-1 hardware.

Yokogawa and Cray spokesmen said they were also discussing arrangements for distribution, support and service of future Cray Research mini-supercomputer products.

Cray Research acquired the S-1 system with the company's recently completed purchase of the system's former manufacturer, Supertek Computers Inc., Santa Clara, Calif.

Prior to the acquisition, the S-1 was marketed in Japan by a unit of Yokogawa under a distribution agreement between Supertek and Yokogawa Electric. That unit will continue to sell, support and service the S-1-based mini-supercomputer until a definitive agreement between Yokogawa Electric and Cray Research is signed.

Cray Research will manufacture in Cheppewa Falls, Wis., the Cray Research S-1-based product, which will be renamed.

Cray spokesmen said their own Japanese sales organization, Cray-Japan, will continue to sell and service all high-end computer systems in Japan. Cray-Japan will also be jointly involved in sales and support strategy to be executed in Japan for the S-1-based mini-supercomputer.

Yokogawa Electric is a large Japanese manufacturer of electrical components and systems used for process control and measurement.

#90179u1528 06/28/1990 ~United Press International

BEIRUT (JUNE 28) UPI - President Elias Hrawi, back from a tour of Gulf

nations, has said he gained official pledges to help establish a $2 billion international fund to rebuild his war-devastated country.

Hrawi, who paid visits to the oil-producing countries of Kuwait, Bahrain, Qatar and the United Arab Emirates, said constitutional procedures were under way to establish the fund as endorsed by the Tunis-based Arab League.

''All the leaders of the countries that we visited expressed readiness to contribute to the international fund to reconstruct Lebanon,'' Hrawi said in a statement Wednesday before boarding a plane in Abu Dhabi back to Beirut.

Local officials said Lebanese ministers have calculated that $5.25 billion is required to rebuild the damaged, inefficient infrastructure outside Beirut's 310-square-mile Christian enclave.

Specific estimates of the damage inflicted inside the Christian region by a violent struggle between forces of Gen. Michel Aoun and militia chief Samir Geagea could not be determined because of continuous skirmishes, the officials said.

But initial estimates have put the value of the material damage in the Christian heartland during four months of heavy bombardments at $1 billion.

The leading Beirut newspaper An-Nahar said Saudi Arabia might pledge the entire amount of the projected international fund - $2 billion.

But Arab sources said the Saudi kingdom - the largest Arab oil producer - might contribute $500 million, the European Community $500 million, and both the United States and Japan the remaining $1 billion.

The Tunis-based Arab League recently pledged to establish the fund to assist Hrawi reestablish his authority.

The warring Christian factions of Aoun and Geagea have been observing a general truce following a recent peace appeal by Pope John Paul II.

But low-profile efforts by Vatican and French envoys have failed to find a final settlement to the conflict, which originated partly as a personal power struggle between Aoun and Geagea.

Aoun, who commands a 15,000-strong army, has refused to hand over the presidential palace to Hrawi, elected president as part of an internationally supported peace accord worked out last October by the Lebanese Parliament in Saudi Arabia.

The general has waged a futile military campaign to wipe out Geagea's militia since last January.

#90179u1533 06/28/1990 ~United Press International
WASHINGTON (JUNE 28) UPI - The United States and its major allies could well wind up split and embarked on different courses next month in providing economic aid to the Soviet Union, Secretary of State James Baker said Thursday.

At a White House news conference, Baker forecast ''full discussion'' at the July 9-11 seven-nation Economic Summit in Houston of whether the West should help bolster the Soviet economy, but said a consensus could prove elusive.

''We may not have one. It may be a case of each country going its own way '' he said. ''But if we're going to have a multilateral approach, then we're going to have to do it on the basis of certain principles that can be subscribed by all.''

In comments that aligned President Bush with British Prime Minister Margaret Thatcher in urging caution, Baker said there are ''major impediments to the idea that there would be some sort of open-ended economic assistance.''

French President Francois Mitterrand and West German Chancellor Helmut Kohl tried in vain earlier this week to have the 12-nation European Community endorse as much as $15 billion in emergency aid to the Soviet Union.

With the United States and Japan, which are not members of the EC, wary of aid at this time, the leaders agreed to study Soviet needs for short-term credits and long-term structural aid and reconsider the issue in October.

In an interview Wednesday with European journalists, Bush explained that ''we Americans would have problems lending the Soviets money.'' He said it would be ''difficult to understand'' why the West was offering help while Moscow channels $5 billion a year to Cuba.

Though the West ''could be a force for good'' in moving the Soviet Union toward a market-oriented economy, Baker asserted there first must be careful study of the problem and possible solutions.

Moreover, Baker warned that the West must not ''make the same mistakes that were made in the 1970s,'' when heavy lending to Poland - unaccompanied by reforms - plunged it into debt and contributed to the collapse of its economy.

Before the West offers grants, loans and credits, he suggested the United

States would want to see the Soviets cut their military spending and aid to governments unfriendly to the United States, most notably Cuba.

Asked what discord over the aid issue would mean for the Economic Summit, Baker took note of his attendance at the last 10 meetings and said, ''I've never been to one yet where there's been total agreement on every issue.''

Baker said aid to Moscow would be only ''at the margins'' of talks next week in London where Bush and other NATO leaders will ponder the future political and military missions of the 16-nation alliance in a less divided Europe.

Among the key issues will be how to portray the West as less threatening to what remains of the Warsaw Pact and, in the process, persuade the Soviet Union to accept a unified Germany in NATO.

Baker all but ruled out one suggestion of how the West might reassure the Soviets - a pledge of ''no first use'' of nuclear weapons. And he hinted a second - a declaration of non-aggression toward Moscow - could be adopted in London.

For years, NATO has refused to forswear the first use of nuclear weapons on grounds that defense of last resort might someday be needed to repel an invasion by the larger armed forces of the Warsaw Pact.

Even though the risk of conventional war has receded and the Warsaw Pact all but disintegrated, Baker ruled out a fundamental shift in military doctrine. ''I don't think we ought to make Europe safe for conventional war,'' he said.

As an alternative, he indicated the NATO leaders may decide to offer ''some kind of declaration of non-aggression, defensive intent, peaceful intent'' to allay Soviet security concerns.

In the face of allied resistance to a formal treaty between the two pacts, which some Europeans believe would only legitimize the Warsaw Pact, Bush said Wednesday that such a declaration ''could reassure everyone.''

''It is possible to make it clear that between what remains of the Warsaw Pact and a transformed NATO there will no longer exist a reciprocal threat '' he said.

#90179u1534 06/28/1990 ~United Press International

DILLINGHAM, ALASKA (JUNE 28) UPI - A collision between fishing vessels from Japan and South Korea in the eastern Bering Sea sank the Korean ship, but all 55 crewmen were rescued, the Coast Guard said Thursday.

The collision caused a fuel spill.

The 259-foot Shin Yang Ho sank Wednesday afternoon about 30 miles from the closest land in Bristol Bay and about 75 miles south of the fishing town of Dillingham.

Four crewmen stayed on the sinking ship until the last minute, hoping to save it, but abandoned ship when it became apparent that it was going down no matter what, Coast Guard spokesman Mike Millliken said from Juneau.

The fishing vessel Aloma rescued the crew of the sinking ship.

The accident apparently caused no serious damage to the other ship, the Shinei Maru No. 63 from Japan.

The sunken ship had about 70,000 gallons of diesel fuel aboard, and Milliken said a 300-yard oil slick was spotted by a Coast Guard surveillance plane in the area where the ship sank.

A Coast Guard cutter was dispatched to check on pollution, according to the marine safety office in Anchorage.

Bristol Bay is one of Alaska's richest fishing grounds.

At the time of the accident, visibility was 10 miles with 15-knot winds and seven-foot swells, Milliken said. Cause of the accident was under investigation.

-30- 1535

#90179u1535 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - A few knowledgeable terrorists, using ''off-the-shelf'' equipment, could damage power transmission systems sufficiently to black out a city for days, followed by months of outages, congressional investigators said Thursday.

Investigators with the congressional Office of Technology Assessment told a Senate committee there had only been scattered, relatively minor acts of power system sabotage in the United States in recent years. Most of the incidents were related to labor disputes, vandalism and, in a few cases, extremist environmental groups.

The investigators said none of those incidents had caused major electricity shortages because attacks were aimed at only one or two power lines or substations.

But they said more sophisticated terrorists could plunge a city into

darkness for several days with a well-coordinated assault on three to eight key facilities.

''OTA found that two or three knowledgeable individuals using only readily available, off-the-shelf supplies could destroy enough facilities to cause a short-term - up to several hours - blackout over a metropolitan area, followed by months of rotating power outages during peak periods,'' said Robin Roy, an analyst in OTA's energy and materials division.

''With one additional attacker using the same approach, extended blackouts lasting from a few hours to a few days followed by months of power shortages could be inflicted on virtually any metropolitan area,'' Roy told the Senate Governmental Affairs Committee.

In releasing a report on the problem to Congress, OTA officials noted some federal officials had expressed concern that the study could serve as ''a handbook for terrorists.'' In response, the OTA put all sensitive information about vulnerable facilities in a special classified appendix not available to the public.

Committee Chairman John Glenn, D-Ohio, also acknowledged there were security concerns about his panel's hearing, cautioning OTA witnesses not to answer questions they felt might reveal information helpful to terrorists.

At the same time, Glenn said: ''Conducting this hearing, which develops positive steps to reduce vulnerability, is vastly preferable to conducting a commission of investigation in the aftermath of a severely disrupting event.''

In its report, the OTA said there appeared to be no groups in the United States radical enough to mount such attacks, although it noted the Weathermen - a 60's underground organization - bombed some transmission towers to protest the Vietnam War.

More recently, the OTA said power lines or substations in Kentucky, West Virgina, Virginia and on the Montana-Wyoming border were bombed in the 1980s during coal mine strikes. Motives for other incidents in Florida, California and Colorado remain unclear.

The OTA said the likelihood of terrorism emerging from domestic political grievances appeared to lessening, but it added: ''Under some conditions, this threat might re-emerge, possibly by environmental extremists.''

It cited the simultaneous downing of three power lines from Arizona's Palo Verde nuclear plant in 1986 as well as the arrest of several ''eco-terrorists'' in 1989 in the act of cutting a tower in Arizona. Following the arrests, the FBI learned the group had a manual detailing

how to attack power lines deemed harmful to the environment.

The OTA said an even more frightening threat could be mounted by a foreign country with the resources to equip and train a special commando force capable of identifying key electric transmission facilities.

''The Soviet Union is reported to have such forces, called Spetsnaz, available for operations in the United States,'' said the OTA report, titled ''Physical Vulnerability of Electric Systems to Natural Disasters and Sabotage.'' The OTA said the Soviet threat was diminishing but ''it has not disappeared.''

The OTA said the key to an effective attack was selecting the most critical facilities, but that if the ''right'' plans were laid there were few security obstacles to be overcome. It noted many facilities were in isolated, rural areas with no guards or protective walls.

The OTA suggested utilities and the government may want to consider upgrading security or expanding contingency planning to cover the simultaneous loss of several key facilities. Energy Department officials said such efforts were underway.

#90179u1543 06/28/1990 ~United Press International

BEIJING (JUNE 28) UPI - President Yang Shangkun was reported in sound condition Thursday after surgery for acute apendicitis and received a brief visit from the president of Chad.

Chadian President Hissen Habre disclosed at a news conference that he had met with the 83-year-old Chinese leader earlier in the day and said Yang appeared to be recovering from Monday's operation.

''He very enthusiastically agreed to let me go see him,'' Habre said, noting that Yang's postoperative condition made the visit all the more noteworthy. ''I believe this is a great sign of our mutual friendship.''

The official Xinhua news service later confirmed the visit and quoted Yang as expressing gratitude to Habre, who in turn wished the ailing leader a speedy recovery.

Chadian Ambassador Issa Abbas Ali said the two presidents visited for less than 30 minutes but declined to describe the meeting in detail, saying Habre had visited Yang alone.

Yang, one of China's most powerful leaders and a possible contender to succeed senior Chinese leader Deng Xiaoping, was unable to attend a Habre's welcoming ceremony Wednesday because of his illness.

China's Foreign Ministry commented on Yang's condition at its weekly news briefing, saying Yang was recovering from Monday's surgery for acute appendicitis.

''He underwent a small operation, and the operation went fairly well,'' Foreign Ministry spokesman Jin Guihua said. ''Now he is in sound condition and undergoing recovery.''

Jin said there was no information on whether Yang would meet Friday as scheduled with President H.M. Ershad of Bangladesh, who arrived in Beijing Thursday afternoon.

Jin declined to say whether Yang was being treated by foreign doctors or give any other details about his condition or outlook.

(JUNE 28) UPI - Aftershocks continue in Iran today after last week's earthquake that killed at least 40-thousand people. An earthquake measuring four-point-six on the Richter scale shook northwestern Iran today. A series of aftershocks has made relief work dangerous in the area. One relief worker was killed yesterday when a wall crashed down on him during an aftershock.

The death toll from searing heat in the Southwest has risen to at least seven, and NO relief from the heat is in sight. The National Weather Service predicts a ''very hot'' day for the Dallas, Phoenix and Las Vegas, Nevada, areas today. Utilities throughout the Southwest and southern California worked through the night to prepare for another day of high electricity demand.

President Bush says in a published interview in France that he is against a French-German proposal to give economic aid to the Soviet Union in hopes of ''saving'' leader Mikhail Gorbachev . Bush also reportedly said that the Soviet Union could save five-BILLION dollars a year if it ends subsidies to Cuba. Bush commented to a group of European and Japanese journalists.

Britain's Queen Elizabeth is in Canada, where she's adding to the controversy surrounding the French-speaking province of Quebec. Organizers say the British monarch will ignore the warnings of Quebec politicians and will visit the province on Sunday, the 123rd anniversary of Canada's confederation. Quebec is seeking greater autonomy from Canada after the Meech Lake constitutional amendment collapsed. It would have granted Quebec special authority to preserve its language and culture.

#90179u1563 06/28/1990 ~United Press International

LONDON (JUNE 28) UPI - Stock prices on the London International stock exchange closed lower Thursday on poor corporate reports and depressed news in the stores and chemical sectors.

The blue-chip Financial Times 100-stock index lost 17.8 points to close at 2,355.7. The narrower Financial Times top 30 industrial average lost 14.8 points to close at 1,887.8. Volume was 448.1 million shares, up from 389 million shares Wednesday.

Trading was dominated by selling in the stores sector, analysts said. Dealers also felt that volatility in in future positions created uneasiness on the market, with many investors remaining on the sideline.

Stores stocks lost ground, including Burton, down 36 cents to $2.2. Imperial Chemical Industries lost 27 cents to close at $19.48, reflecting the negative impact of recent rating downgradings.

Parkfield, an entertainment group, lost 78 cents on profit warning to end at $1.34. The stock traded at $5.95 only a week ago.

Strong earning reports boosted Kewill Systems, up 47 cents to $5.40, while the Berkeley group gained 36 cents to $3.50.

Reports that West German car manufacturer Daimler Benz is building its stake in British Aerospace pushed the company stock up seven cents higher to $9.33, despite a European Community Commission ruling that it must repay 44.4 million pounds or $77 million in government subsidies received over the 1988 purchase of another British car manufacturer, Rover.

#90179u1570 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - Senate attempts to resurrect a major anti-crime package were blocked Thursday by Sen. Phil Gramm, R-Texas, who demanded a chance at gunning down a ban on assault weapons.

Senate leaders immediately started looking for a way out of the impasse in hopes of salvaging the bill.

Three weeks after the bill was declared dead, stymied by Republican stalling tactics, Democratic leader George Mitchell urged the Senate to give it another try under a tight timetable negotiated with GOP senators.

The agreement, worked out after intense discussions, would allow 18 more amendments, sharply limit the time on each with a final vote on July 10, the day Congress returns from the July 4 recess.

Mitchell warned his colleagues that ''delay makes enactment less likely'' and, citing a heavy agenda next month, said it ''would be very difficult to work the bill in after the recess.''

Before putting the bill aside early this month, the Senate had incorporated major provisons of the bill: expansion of the death penalty to 30 crimes; a speedier process in federal courts for death row inmates; and a prohibition on the manufacture or import of nine military-style assault weapons.

The most controversial provision was the ban on assault weapons, opposed by the powerful National Rifle Association, and it was this section which led Gramm to object to the agreement. It was put into the bill on a 50-49 vote.

The Texas conservative, complaining that the agreement worked against him, said he could not accept it unless his proposal was the final action, giving him time to round up votes after the recess, and Vice President Dan Quayle was present to cast a tie-breaking vote.

Gramm said it was ''essential'' that his amendment come last and that it was ''critical'' that Quayle be present.

''The vice president is here today,'' Mitchell said after checking and urged Gramm to make his the lead-off amendment. Gramm refused.

Sen. Joseph Biden, D-Del., chairman of the Senate Judiciary Committee, said Gramm's demands were ''preposterous'' and added that the Texas Republican's complaints were ''absolutely bizarre.''

''If he doesn't want a crime bill, fine,'' Biden said. ''We had a deal and you broke the deal and it's your right to do it.

''I suggest we go home because these guys (Republicans) don't want a crime bill,'' Biden said.

Assistant Senate Republican leader Alan Simpson rejected Biden's argument that Republicans twice voted against debate-limiting cloture because they wanted to kill the bill.

''Nobody wants to kill the bill,'' Simpson said. ''Who wants to leave here without a crime bill in an election year. That's bizarre.''

Sen. Mark Hatfield, R-Ore., an opponent of the death penalty, reluctantly

agreed to go along with the agreement although one amendment would allow the execution of drug kingpins, even if no homicide occured.

Hatfield said he would accept the agreement because ''there's much in the bill I do support,'' adding he would press his amendment to substitute mandatory life imprisonment for the death penalty.

#90179u1573 06/28/1990 ~United Press International

NEW YORK (JUNE 28) UPI - Broken Hill Proprietary Co. Ltd. said Thursday it sold part of the company's stake in properties on Australia's North West Shelf for $525 million in an effort to bring its share in one of the world's largest natural gas fields into ''better balance.''

BHP, Australia's largest company, said in a statement it had sold 30 percent of a 40-percent interest in Woodside Petroleum Ltd. to Barclays de Zoete Wedd Australia Ltd., subsidiary of Barclays Bank, London.

''It will bring everything into better balance. That's the reason for the sale,'' said Jean Goity of BHP's U.S. headquarters in San Francisco. BHP will retain the 10-percent interest in Woodside.

Barclays, which acted on its own behalf in the transaction, indicated it plans to sell the 30-percent interest to a wide group of institutional and portfolio investors in Australia and overseas, the BHP statement said.

Over the last 14 years, BHP and Royal Dutch Shell each bought a 40 percent interest because Woodside's lack of capital was holding up development of the shelf, in which the two had substantial independent interests.

''Woodside didn't have that kind of money,'' said New York consultant Joseph Tovey.

Implicit in the deal was that BHP and Shell would sell their interests once the project was up and running, Tovey said.

But, Goity said, ''I don't think there were any commitments of that kind.'' The ''better balance'' sought through the sale was in terms of BHP's overall portfolio, he said.

No immediate comment could be obtained from Shell.

BHP said the sale had been approved by Australian government agencies and had the support of Woodside and Shell Australia.

Peter Wilcox, chief executive of the company's BHP Petroleum subsidiary, said: ''Through our retained Woodside stake and our direct project

interest, BHP Petroleum continues to have an aggregate holding in the North West Shelf venture of approximately 13.3 percent in the domestic gas phase.''

Wilcox said BHP also keeps an 18.3 percent interest in the current drilling program and in liquid natural gas exports, most of which go to Japan via LNG tankers.

''We are very pleased with the project, its growth prospects and its exploration potential,'' he said.

Tovey said the North West Shelf is ''probably one of the largest single commercial investments in the world geared to a single project.''

He said total investments, including the Japanese tankers and offloading facilities, could eventually total $50 billion.

Goity estimated current Australian investment at $12 billion and the Japanese investment ''at less than that.''

#90179u1578 06/28/1990 ~United Press International

ATLANTA (JUNE 28) UPI - Cases of potentially fatal toxic shock syndrome, which caused widespread panic among women in the last decade, have ''nearly disappeared,'' a government doctor reported Thursday.

Dr. Anne Schuchat, an epidemiologist with the U.S. Centers for Disease Control, said the number of cases of toxic shock syndrome - which has been linked to use of super-absorbent tampons - dropped from 890 in 1980 to 61 in 1989. Schuchat attributed the sharp decline to preventive measures in the tampon industry.

Another survey, which specifically tracked the decline of cases among menstruating women, found the rate of toxic shock cases fell from about 10 per 100,000 menstruating women in 1980 to about one per 100,000 in 1987, said Schuchat, whose findings were published Thursday in the CDC's Morbidity and Mortality Weekly reprot.

''I think it would be fair to say that it's a public health success story '' Schuchat said. ''Toxic shock syndrome has nearly disappeared.''

Symptoms of the syndrome include vomiting, diarrhea, high fever and a sunburn-lilke rash that peels off in scales. The disease is caused by a bacteria, but health officials have not determined precisely how tampons - especially highly absorbent tampons - put women at increased risk for the malady.

The disease among men and non-menstruating women is extremely rare. However, it was first isolated in 1978 among a small group of children.

Among the cases reported in 1980, 812 of 890 were among menstruating women. In 1989, the latest year for which figures are available, 45 of the 61 cases occurred among menstruating women.

Along with the decrease in incidence rate, the death rate among the tampon-linked toxic shock cases also has dramatically dropped, the CDC said.

None of the women with menstruation-associated toxic shock cases died of the disease in 1988 or 1989. Five percent, or 38 of 722, menstruation-linked cases ended in death in 1980, the report said.

The high proportion of overall cases among menstruating women further underlines the government finding of the early 1980s that the disease is linked to tampon usage and absorbency levels, Schuchat said.

Studies conducted in Utah and Wisconsin in 1980 and a CDC national study the same year showed that women who used tampons were at a higher risk of being afflicted and that the risk was increased with the absorbency level.

In September 1980, the manufacturers of Rely tampons, a product with a particularly high absorbency level, voluntarily took the product off the market. Other manufacturers followed by lowering the absorbency levels of their tampon products.

In 1982, the Food and Drug Administration issued a regulation requiring tampon package labels to advise women to use the lowest absorbency levels compatible with their needs. And in March, the FDA instituted standardized absorbency labeling of tampons.

#90179u1581 06/28/1990 ~United Press International

ATLANTA (JUNE 28) UPI - The Nuclear Regulatory Commission has proposed a $50,000 fine against Georgia Power Co. for security violations at the Plant Vogtle nuclear station, and utility officials said Thursday they will accept the penalty.

NRC spokesman Ken Clark said information related to the plant security systems, including ''where they're located, how they might be disabled, and how the plant would have responded,'' were not properly secured for as long as 16 hours April 25. The information also described the types of weapons used by security teams at the plant near Waynesboro.

A plant employee discovered the problem, and Georgia Power reported the violation to the NRC.

''We intend to take all the necessary steps to prevent it from happening again,'' said Georgia Power spokesman Todd Terrell.

Clark said the information was stored in a cabinet that was supposed to be locked. That cabinet was inside a security area, which was inside a protected zone of the plant.

''There's no evidence at this point that security was compromised,'' Clark said. ''(The information) was not available to just anybody on the street.''

The NRC was concerned because an investigator found the cabinet was left open for as long as 16 hours, putting the material within easy reach of employees with access to the security area.

''If the few individuals that had access had some reason to do it, they could have gotten the material,'' Clark said.

The NRC noted that Georgia Power reported the problem after discovering it but said the fine was appropriate because of the company's ''repeated failures'' in matters of security.

Clark said since June 18, 1987, the NRC has recorded 13 incidents of security information being improperly handled at Vogtle.

''Items were unlocked, left out, misplaced - that sort of thing,'' Clark said. ''There have been a number of problems there.''

The company has 30 days to pay the fine.

WASHINGTON (JUNE 28) UPI - Defense Secretary Dick Cheney pushed back a scheduled two-week trip to European NATO countries so he can meet with President Bush in Maine Monday to discuss next week's NATO summit, the Pentagon said Thursday.

''Instead of leaving this Saturday, the secretary will leave Monday evening for his visit to the southern flanks of NATO and Norway,'' Pentagon spokesman Pete Williams said. ''He will visit Norway, Greece, Turkey and Portugal.''

Cheney had planned to fly from Washington Saturday night to Spain to meet with government officials there before moving on to the other NATO countries.

But Bush's decision to hold a briefing in Kennebunkport, Maine, on the NATO summit, scheduled in London for July 5-6, forced a change in plans.

Williams initially said that Cheney's trip to Spain had been canceled. But a senior defense official later said it had been added back on and that Cheney will visit Spain at the end of his trip.

Cheney will return to Washington July 13.

WASHINGTON (JUNE 28) UPI - The highest unemployment in a decade is fanning social unrest in China and the nation's leaders are turning away from market reforms as they grapple with their economic problems, a CIA analysis said Thursday.

However, the report presented at a Joint Economic Committee hearing said it was unlikely that China would return to a completely planned economy as some had feared following the June 1989 crackdown on the pro-democracy movement.

Instead, the CIA predicted, ''Economic policy will probably be dominated by stopgap measures aimed at ensuring stablity rather than longer-term strategies for growth and development.''

The CIA report said China is ''grappling with the fallout from overly restrictive austerity policies'' implemented in late 1988 to hold down inflation that had reached nearly 30 percent in the cities.

That program of tighter credit and reduced imports cut inflation to single digits but it also slowed economic growth and has led to increased crime

and the highest level of unemployment in a decade, ''undermining Beijing's efforts to re-establish social stablity,'' the CIA said.

Real wages fell for a second straight year in 1989, and two-thirds of urban factories were closed or operating below capacity by year's end, the report said. Hong Kong press accounts detailed more than 600 instances of worker unrest, including strikes, after the Tiananmen Square massacre.

The CIA said China recently has loosened credit to end its ''worst economic slump in a decade'' but at the same time it is turning to centralized planning to make sure inflation does not heat up and is providing credit to state enterprises at the expense of the private sector.

''If the CIA is correct in its new assessment, China can be viewed as an economy in cold storage,'' said Sen. Jeff Bingaman, D-N.M., chairman of the panel's Subcommittee on Trade and National Security. ''The reform movement has been frozen part way between central planning and a free market.''

The confusion among China's leaders also was emphasized at the hearing by private economists, who testified that in some cases reforms have gone forward in the last year, and who warned against exaggerating China's economic weakness.

''The current problem is the leadership has no coherent vision at all,'' said David Denny of the U.S.-China Business Council, who nonethless added that China has not been been ''tranformed overnight from one of the world's most successful economies into an economic basket case.''

The question of how Chinese economic reforms have fared has been hotly debated in Congress as it decides whether to approve President Bush's recommendation that China keep its most-favored-nation trade status.

The president's supporters argue that trade sanctions would do the most damage to private entrepreneurs in China, who they portray as a key to any future movement to make the country more democratic.

Although both the CIA and the private economists depicted the austerity program as the primary cause of the economic slowdown, the CIA also said the international reaction to the political crackdown has led to more than $1 billion in lost earnings from tourism and a slackening of foreign investment.

#90179u1596 06/28/1990 ~United Press International

(JUNE 28) UPI - A lost camera on a walkway at Wimbledon, England, led police to interrupt the tennis matches today and evacuate the All England

Club because of fears that the camera might be a bomb. Police evacuated tennis players and spectators from a large area of the club. A bomb expert determined that the camera was NOT a bomb. Security has been tight after police said a newspaper received a telephone call, claiming a bomb had been planted at the southwest London club.

A federal court jury today heard lengthy instructions from a judge in the racketeering trial of Imelda Marcos and Adnan Khashoggi . It's the last phase in the three-month-old case. The former Philippines first lady is charged with fraud and obstruction of justice in an alleged plot to divert 200-Million dollars stolen from Manila. Khashoggi faces similar charges for allegedly helping Marcos hide the purchase of prime New York real estate.

#90179u1614 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - The Securities and Exchange Commission announced Thursday that it had charged a New York attorney with insider trading related to his investments in WearEver-ProctorSilex Inc.

Henry A. Singer, a 52-year-old mergers and acquisition specialist with the Manhattan law firm Morrison Cohen Singer & Weinstein, allegedly used inside information on offers to buy WearEver in 1987, according to the SEC complaint, which was filed with the U.S. District Court in the Southern District of New York.

In a statement issued Thursday, Singer's law firm sharply denied the SEC charges against him, adding that the SEC's decision to file a civil suit was "inexplicable," given that three independent witnesses had testified that Singer's transactions were legitimate.

"We are convinced, without any doubt whatsoever, that Mr. Singer did not violate, either intentionally or inadvertently, any SEC rules or regulations," the law firm said.

The SEC complaint said Singer, a resident of Harrison, N.Y., served as attorney and confidant for Lawrence A. McLernon, a resident of Dublin, Ohio who was an outside director for WearEver and a member of a special committee that considered the fairness of buyout proposals made to Wearever in 1987.

The SEC alleges that McLernon in July of 1987 passed confidential information on bids for the company to Singer, who used the knowledge in August to buy 5,000 shares of WearEver stock for $13.25 a share.

Singer, subsequently retained to represent the WearEver special committee, allegedly received additional information concerning the existence of third

party potential bidders and the price they were offering for the company. He allegedly used this knowledge to buy an additional 1,600 shares of WearEver stock in November 1987 for $9.50 a share.

In January of 1988, the WearEver board announced that it had reached an agreement to sell the company to NACCO Industries Inc. of Cleveland for $17.50 a share. The following April, WearEver shareholders approved the transaction, and Singer sold all of his WearEver stock for $17.50 a share, realizing profits of $34,000.

The SEC in its complaint has asked the court to permanently enjoin Singer from violating federal securities laws and force him to surrender all profits, plus interest, realized in his stock acquisitions. In addition, the SEC has asked that Singer be forced to pay civil penalties not exceeding three times the profits he realized from trading the WearEver stock.

Morrison Cohen Singer & Weinstein said in their statement that Singer will fight the charges rather than accept "the SEC's arbitrary determination." WearEver-ProctorSilex, based in Glen Allen, Va., which now goes by the name of Proctor-Silex Inc, designs and manufactures coffeemakers, toasters irons, and toaster ovens.

#90179u1617 06/28/1990 ~United Press International

BUENOS AIRES, ARGENTINA (JUNE 28) UPI - Latin America's political leaders, their countries long suffering from stagnant economies and neglect, Thursday welcomed President Bush's proposals to create a Western Hemisphere free trade zone.

Critics called the plan everything from ''vague'' to detrimental to Latin America.

Officials said the presidents of Brazil, Fernando de Collor de Mello, and Uruguay, Luis Alberto Lacalle, personally called Bush to express satisfaction at his speech.

''The announcement of Bush defends our own idea, to increase foreign investment in Latin American and reduce the foreign debt,'' said Brazilian Economy Minister Zelia Cardoso de Melo.

She said President Collor personally called Bush Thursday to tell him the proposals were ''broad, deep, and innovative.''

A spokesman for the Mexican president's office in Mexico City said Bush's proposals for Latin American debt relief as well as regional free trade were particularly welcome.

Comparing the new proposals to past U.S. policy of neglecting Latin America, the spokesman said the Bush speech represented ''a redefinition of U.S interests regarding the development of Latin America.''

In the past two decades the United States has followed a multilateral, rather than a bilateral, approach to the Latin republics, relying on the International Monetary Fund and World Bank to set economic policy toward the region, which is now suffering from a foreign debt burden of $410 billion.

The approach helped Latin America very little.

Latin America's foreign debt is estimated by the United Nations to now be $410 billion. Argentina, Brazil, and Peru suffered severaly from inflation in the 1980s and defaulted on their debts.

Bush's plan offers only limited debt relief of $12 billion, but it emphasizes the importance of free trade in spurring Latin America's economic growth, stagnant for a decade.

Uruguayan President Luis Alberto Lacalle told United Press International Bush's ideas were not only similar to his own, but also that he, prior to his election as president of Uruguay, had made similar proposals in a speech on June 4 of 1990.

''We do not believe that the solution (to Latin America's problems) is more aid, but more commerce and investment,'' Lacalle said.

''Without much fanfare or headlines, our countries (in Latin America) are making profound transformations in their economies and creating, in this way, a favorable climate for investment,'' he said.

He said that he called Bush Wednesday and spoke to him for five minutes to express his ''satisfaction'' at the U.S. proposal.

In Santiago, Chile, Patricio Silva, a leader of the ruling Christian Democratic Party, said the Bush speech was ''a very positive demonstrations of the interest of President Bush in Latin America.''

But not all reaction was favorable.

In Argentina, where Foreign Ministry officials Thursday night welcomed the Bush speech, left-wing congressional Deputy Luis Zamora told UPI that the American proposal would bring ''benefits to the United States and losses to Latin America.''

''The United States will reduce its commercial deficit by selling more of

its products.

''Latin America, when it reduces its tariff barriers, will import more products and close its factories.''

He called the proposed new relationship that of ''a master and a slave.''

A columnist for the Buenos Aires newspaper Clarin, Oscar Raul Carsoso, said the Bush proposal did not ''amount to much'' and that the president ''announced a series ntentions - none of them will come to life very soon.''

The Mexico City daily newspaper El Universal said in an editorial that Bush's plan was ''ambitious and vague.'' ''It considers the economic unity of Latin America as the homogenous sum of similar wills, without considering the constrasts in production and wealth that characterize the continent,'' the newspaper said.

#90179u1652 06/28/1990 ~United Press International

BOGOTA, COLOMBIA (JUNE 28) UPI - A bomb exploded Thursday in the violent cocaine capital of Medellin, killing 11 people and injuring at least 30 others, authorities said.

Police also reported that nine policemen were shot and killed and another huge car bomb deactivated in or near Medellin, 160 miles northwest of Bogota Thursday. A judge and his wife were killed by hitmen in another Colombian city, authorities said.

The bomb, apparently a car loaded with dynamite, exploded at 11:25 a.m. on a street near a police neighborhood assistance center in Medellin, the headquarters city of the warring Medellin Cartel of cocaine traffickers.

Dr. Bernardo Alejandro Hoyos, the health director of Medellin, told Bogota radio stations at least 11 people were killed and 30 people were wounded.

The dead included Myrian Nassa, a reporter for the radio network Caracol, who was in a nearby car when the explosion occurred, the network said.

Also killed was Patricia Roman, wife of Senator-elect Jorge Carvajal of the ruling Liberal Party.

The explosion blew at least two bodies into a nearby river, a fire department official said. It destroyed cars and broke windows in the area, radio news reports said.

The bomb went off minutes after Col. Jorge Ferrero took over in a ceremony

as commander of the National Police in the Medellin area. It was the 16th in Colombia since an offensive by the warring Medellin Cartel began in April.

The slayings of the policemen added to the toll of more than 150 officers killed this year in Medellin, the headquarters city of the warring Medellin Cartel of cocaine traffickers 160 miles northwest of Bogota.

The cartel has offered gunmen a reward of some $4,000 for each police officer killed.

Four of the officers killed Wednesday were in the same patrol car in a rural area of the state of Caldas south of Medellin when gunmen opened fire. Two officers also were killed in a rural area of the state of Antioquia of which Medellin is the capital.

Three other officers were shot and killed in Medellin in separate incidents, a police spokesman said.

Also Wednesday, Judge Samuel Rodriguez and his wife, Margo Puentes, were assassinated by gunmen in the city of Bucaramanga, 195 miles northwest of the capital.

The judge also was on his way home when the car in which he and his wife were riding was attacked by gunmen, police said.

In addition, police said a car bomb containing at least 990 pounds of dynamite was deactivated in a Medellin parking lot Wednesday. A spokesman said a parking lot attendent became suspicious of the vehicle and called police.

The radio news network RCN reported the bomb in a taxi was to be located outside police headquarters in Medellin.

The city has seen escalating violence as police and the army conduct an intense search for Pablo Escobar, the ruthless kingpin of the Medellin Cartel blamed for the murders of dozens of people including prominent government officials, judges and politicians.

#90179u1653 06/28/1990 ~United Press International

BOSTON (JUNE 28) UPI - The Boston Bruins obtained veteran right winger Chris Nilan from the New York Rangers Thursday in exchange for winger Greg Johnston and future considerations, Bruins officials said.

Nilan, 32, played nine seasons for the Montreal Canadiens before being traded to the Rangers in 1988. The 6-foot, 185-pound native of Boston's

West Roxbury section had three points last season, missing 55 games because of knee and arm injuries.

Nilan has notched 98 goals and 98 assists during his 11-season NHL career.

''I am excited about the acquisition of Chris Nilan,'' said Bruins coach Mike Milbury. ''He has a level of experience and competitiveness that can only make us a better hockey club.''

Johnston, 25, scored one goal and one assist during nine games with the Bruins last season. Johnston, also a right wing, has spent the last seven seasons in the Bruins organization, much of it in the American Hockey League.

#90179u1656 06/28/1990 ~United Press International

CORVALLIS, OR (JUNE 28) UPI - Conservation efforts to protect the northern spotted owl in Western Oregon could have a costly and unusually widespread impact on the region's economy, according to a scientific study sent Thursday to Gov. Neil Goldschmidt.

Comparing harvests in the mid-1990s to levels of a decade earlier, the protection measures proposed in April's report by a team of federal scientists led by Jack Ward Thomas could cost 12,000 to 50,000 jobs and $470 million to $2 billion in lost wage and salary income, the Oregon State University researchers said.

Oregon's economy would continue to grow, although at a slower rate, and that growth will be concentrated in the metropolitan areas. The wide variability of the possible impact is largely due to the unpredictable reaction of private landowners and whether or not they will face owl conservation regulations, the report said.

The impact of various strategies suggested Tuesday by the U.S. Forest Service and the Bureau of Land Management to lessen the economic shock of protecting the owl "are still unclear," said Brian Greber, an assistant professor of forest economics at Oregon State University and coordinator of the study.

The report was prepared at the request of Gov. Goldschmidt by Greber; K. Norman Johnson, an associate professor of forest economics at OSU and forest plans coordinator for the governor; and Gary Lettman, an economic analyst with the Oregon Department of Forestry.

"The OSU analysis describes clearly the devastation that would occur from implementation of the Thomas report," Goldschmidt said. "It underscores the need to develop an alternative recovery plan that protects old-growth

forests, whether for owls, for recreation or other values, while minimizing the loss of jobs." Compared to Western Oregon statistics for a period from 1983-87, the report indicated that:

- Combining the Thomas proposal with recently proposed national forest plans would lead to a 1.8 billion-board-foot reduction in timber harvest in the state.

- The Thomas strategy removes 1.6 million acres of timberland from production, increasing the percentage of unavailable forest lands to 33 percent of western Oregon's total.

- Even in the most optimistic of scenarios stemming from the proposed conservation strategies and existing forest plans, the Willamette, Eugene, Roseburg and Medford timbersheds all face harvest declines of more than 20 percent.

- If the conservation strategy is extended to private lands, declines in timber availability will be greater than 45 percent in all timbersheds except the north coast.

- The economy-wide job displacement could range from 12,000 to 50,000 jobs depending upon the outcome on private lands. This constitutes 1 to 4 percent of the state's work force. Oregon's overall employment would continue to grow at 1.5 percent through the 1990s.

- In the early 1990s, timber income to county governments is apt to fall up to $60 million short of 1988 levels, a 25-27 percent reduction, due to the conservation strategy and proposed management plans.

- Private landowners may maintain, increase or decrease their harvest levels, depending upon land management concepts, economic incentives and whether or not they will also fall under conservation regulations.

- If private landowners do increase harvests substantially, it will make up some of the timber supply shortfall, but that would impose significant future problems as the land is harvested beyond a sustainable level.

- Recommendations made in the Thomas report had both forest management and land allocation implications, which could affect private landowners as well as public lands.

"From my perspective, I see the actions of the private landowners as a real question here," Greber said. "We aren't sure whether or how they will be affected by owl conservation plans, and we aren't sure how they will manage their land," he said. "They may choose to dramatically increase harvests beyond sustainable levels, but if they do it will be borrowing against the future."

Greber said the economic problems also are far more geographically dispersed than most people realize.

"Large-scale unemployment in communities can also bring with it social problems such as stress, crime, substance abuse and family abuse," Greber said. "The mobilization of the social service forces to deal with the social disruptions is apt to be difficult and costly."

The report also noted that while Oregon's raw material prices will rise as a result of the timber shortfalls, there will be no corresponding increase in national product prices.

That will make it harder for Oregon's forest product producers to compete, and wage pressures are apt to be felt by remaining workers, the report said.

SKAGWAY, AK (JUNE 28) UPI - A locomotive crashed into a line of parked passenger cars on the mountainous, narrow-guage White Pass Railway, sending 33 passengers to nearby clinics and hospitals, the railroad reported Thursday.

No one was seriously injured and there was no derailment.

The collision occurred Wednesday afternoon during switching operations at White Pass station, British Columbia, just over the border from Alaska, railroad president Marvin Taylor said.

The train returned to the end of the line at Skagway under its own power and was met by a medical response team of Skagway citizens and railroad personnel, Taylor said.

#90179u1667 06/28/1990 ~United Press International

PARIS (JUNE 28) UPI - Economic growth in the major industrial nations has slowed to a "sustainable" rate of three percent, with inflation ticking up to 4.5 percent, the Organization for Economic Cooperation and Development said Thursday.

OECD economists, issuing the twice-yearly Economic Outlook, forecast continued growth averaging an annual three percent in the organization's 24 member nations, and "virtually no change in the average inflation rate." With growth slowing and inflation "projected to crest this year," they said, "a careful balance in the setting of monetary policy" is in order.

The report said OECD countries "moved, in general, towards more sustainable economic conditions during 1989" as credit tightening brought growth down to a yearly rate of three percent in the second half of 1989. Economic expansion ran at about 4.5 percent over the preceding four periods.

The slowdown was most notable in countries where inflationary pressures were strongest, it said, but "fears that some economies could decelerate too far, and perhaps even move into recession, were not borne out."

"The economic situation is evolving overall very much as expected," said Jeff Shaffer, deputy head of the OECD's general economics branch. But he pointed to "forces that have been operating in different directions."

The OECD economists have witnessed a "persistent demonstration of the energy of economic growth in a lot of countries," Shaffer said, offset by "a move to higher interest rates in most countries."

"On balance, you're looking at growth that is slowing down from the very rapid pace of 1988 and 1989, but is expected to be very well maintained," said the economist, one of the authors of the report.

Against this relatively stable background, the document voiced some concern about volatility in world financial markets. "Developments in financial markets over the winter months contrasted with the reasonably steady course of both economic activity and inflation," the report said. "Long-term interest rates have risen sharply."

It singled out currency exchange-rate fluctuations, sharp declines on Japan's stock exchanges, and credit problems on North American real estate loan and corporate junk bond markets as causes for concern.

They said the savings rate in the OECD area, which was rising as a share of gross national product but well below its levels in the 1960s and 1970s was "of growing concern" given high interest rates.

The economists added, "The scope for high rates of investment in a reformed Central and Eastern Europe will intensify competition for saving" in capital markets and maintain upward pressure on rates.

The U.S. economy grew by just three percent in 1989 compared to the OECD average of 3.6 percent, the report said. U.S. growth was expected to taper off to 2.3 percent this year against an OECD average of 2.9 percent. Current growth in the OECD countries was estimated at three percent.

OECD-zone inflation has inched up to 4.5 percent and was expected to run at 4.6 percent for all of 1990, against 4.3 percent in 1989. U.S. inflation for 1990 was projected at 4.8 percent, against 4.4 percent in 1989.

Business investment in the OECD area "continued to expand briskly" at an eight percent rate in 1989, the report said. But U.S. business investment only grew by 3.3 percent, compared with 16.7 percent in Japan. Investment across all OECD countries was expected to fall off to 4.8 percent this year, and to 3.2 percent in the United States.

Shaffer said the economic situation had not greatly changed since the end of last year, but noted that the report focused on the economic reconstruction of the Central and East European states, particularly East Germany.

He saw a "very rapid transformation" in East Germany after its economic union with West Germany. This will result in "very high rates of investment" and a "substantial call on the savings of OECD countries.

For the rest of the region emerging from communism, he said, "the outlook is still very uncertain," as the "exact path of economic transformation is still being worked out," the economist said. Longer-term, he said, "it's quite likely that we could see very rapid growth driven by strong investment in that part of the world as well."

#90179u1669 06/28/1990 ~United Press International

CHICAGO (JUNE 28) UPI - July corn futures rallied sharply late Thursday amid indications that deliveries of the contract will be very light on Friday, the first notice day.

July corn was up 8 1/4 cents at the close on the Chicago Board of Trade and reached a contract high of $2.96 per bushel.

Short-covering ahead of the acreage and quarterly grain stocks reports contributed to the gains in corn.

Soybean futures were mixed after a day of choppy trading. Beans had underlying support on Taiwan's purchase of beans and reports that Morocco had bought soybean oil. But soybeans were pressured by forecasts for favorable weather through the weekend.

Light country movement provided additional support for corn and soybeans.

Wheat turned lower late in the day. Commercials were featured sellers as traders positioned themselves for the government reports.

At the close, corn was up 2 to 8 1/4, soybeans off 1 to up 1, wheat down 1 1/2 to 3 and oats off 1/2 to up 3/4.

#90179u1681 06/28/1990 ~United Press International

JERUSALEM (JUNE 28) UPI - In a letter to President Bush, Prime Minister Yitzhak Shamir rejected talks with Palestinian deportees or East Jerusalem Arabs and said Jewish settlements in the occupied territories were not an obstacle to peace, Israel Radio reported Thursday.

By ruling out any role for deportees and East Jerusalem delegates, Shamir rejected key elements of U.S. Secretary of State James Baker's formula for holding an Israeli-Palestinian dialogue.

Israeli leaders oppose the participation of East Jerusalem Arabs because they believe it would eventually lead to negotiations on Israeli sovreignty over the city. They also reject a role for deportees because it would be seen as acceptance of Palestinians' refugees ''right to return'' to the land that is now Israel.

Shamir's detailed, six-page letter was written in reply to a letter from Bush asking Israel to outline its positions on the peace process. Shamir's letter was sent Wednesday night, according to Israeli officials who refused to comment on its content.

In Washington, Baker said he could not say after an initial review of the letter whether Shamir had flatly rejected the U.S. formula for peace talks but added, ''It's not a simple issue, black and white.''

''We want some more time to study the letter, because it is not definitive '' he said. ''Were it definitive and simple, as opposed to detailed and complex and covering a whole host of issues, we wouldn't need that time. But we do need it.''

In his letter, Shamir said Israel wanted to continue cooperating with the United States in order to begin a dialogue with Palestinians, but repeated his opposition to the participation of deportees or East Jerusalem Arabs, Israel Radio and Israeli newspapers reported.

Shamir said Israel was willing to consider Palestinian candidates to the talks on an individual basis, Israel Radio said. Army Radio said the letter contained nothing substantially new. Last week, Shamir said he would not propose a new initiative.

Shamir's refusal to approve Baker's proposal led to the March collapse of the Likud-Labor coalition government and the formation of a right-wing government two weeks ago. Israel has never officially responded to Baker's proposal.

Shamir's new right-wing government has pledged to pursue the peace process on the basis of the Camp David Accords and Israel's May 1989 peace initiative, which calls for elections in the occupied West Bank and Gaza Strip leading to limited Palestinian autonomy. The Israeli-Palestinian talks are intended to be a first step toward holding the elections.

Shamir told leaders of the Jewish Agency Thursday he would not comment on his letter until Bush had read it.

''The American government should be convinced of our honest ambitions to achieve peace and of our wish to advance our peace initiative,'' he said.

The prime minister's letter also attempted to shift the emphasis of the peace process from a dialogue with Palestinians to negotiations with the Arab states, stating that their refusal to make peace was at the heart of the Israeli-Arab conflict, the radio said.

Addressing the issue of Jewish settlements in the occupied territories, Shamir repeated that Soviet Jewish immigrants were not being directed to the West Bank or Gaza Strip.

He also wrote that settlements in the territories would not obstruct the peace process, Israel Radio said.

#90179u1704 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - Ignoring protests from President Bush, the House voted Thursday to deny money for the proposed space exploration mission to the moon and Mars.

Bush had requested $309 million for preliminary work on the moon-Mars mission, but nearly all the money was left out of the $83.6 billion 1991 appropriation bill for the space agency and various other agencies and departments, including the departments of Housing and Urban Development and Veterans Affairs.

The House passed the bill on a 355-48 vote after an attempt by Rep. Robert Walker, R-Pa., to restore $267 million for the mission was ruled out of order on a procedural point. The bill now goes to the Senate where the administration may try to restore money for the program.

Bush, during a June 20 visit to the Marshall Space Center in Huntsville, Ala., criticized the House Appropriations Committee for ''pulling the plug'' on the moon-Mars mission. Cutting the funds showed ''not everyone on Capitol Hill shares this commitment to investing in America's future,'' he said.

During debate on the bill, Rep. Bob Traxler, D-Mich., subcommittee chairman, defended elimination of the moon-Mars funding, saying it was made necessary by the ''very, very difficult financial times'' faced by Congress.

Traxler noted that the overall increase for NASA represents the largest boost for the agency in the last 10 years.

Walker argued that the space exploration project is ''an important initiative to this nation's future.''

He criticized the Appropriations Committee for funding other programs, for ''funding of what is and maybe even looking back'' rather than putting money into a forward-looking exploration program.

''Sure we have obligations that have to be met ... but a nation that fails to look outward, fails to have vision, is a nation in descendency,'' Walker said, adding that such projects create new technology, industries and new economic opportunities. ''We can't afford not to undertake this commitment.''

Although the Appropriations Committee and the House voted to eliminate the moon-Mars mission funds, the bill provides an overall 17 percent increase in NASA's appropriation over the current year. The total for NASA is $14.3 billion. Bush, however, sought 5 percent more than the bill provides.

Included in the bill is $2.3 billion for the space station, which is $195

million below Bush's request, and $114 million for the national aerospace plane, $5 million less than the request.

After a brief debate, the managers of the bill accepted an amendment by Rep. Ronald Machtley, R-R.I., to eliminate $6 million for the NASA program that searches for evidence of extraterrestrial intelligence. Matchtley said the government cannot afford the program ''in the midst of a financial crisis,'' and he joked that if Congress votes to spend money on the program he would favor a new program, ''SCI, the search for congressional intelligence.''

The committee bill includes a major increase for HUD, going from $14.9 billion in 1990 to $25.9 billion in 1991.

Funding for the Environmental Protection Agency was boosted from $5.5 billion for 1990 to just over $6 billion for 1991, and the Department of Veterans Affairs appropriation was set at $31.3 billion, up from $29.7 billion this year.

#90179u1723 06/28/1990 ~United Press International

NEW YORK (JUNE 28) UPI - A school teacher testified Thursday he was attacked and severely beaten by a gang of youths in Central Park the same night a woman jogger was gang raped, beaten and left for dead.

John Loughlin, 41, said he had been jogging around the park's reservoir and seconds before he was accosted he saw a group of youths standing around a person laying on the ground.

''It looked like there was someone in trouble so I stopped,'' the 6-foot-4 185-pound Loughlin told a packed courtroom.

Loughlin, the most seriously injured man in the case, was one of a string of joggers who have testified at State Supreme Court trial of three youths accused of being part of the gang that went on a ''wilding'' rampage in the park April 19, 1989,.

On trial are Antron McCray, 16, Yusef Salaam, l6 and Raymond Santana, 15, first of the youths accused in the attack to go on trial. Each is charged with 13 criminal counts, including attempted murder, rape and sodomy in the series of attacks.

If convicted, each faces a maximum sentence of five to 10 years imprisonment. All three were juveniles at the time of the attack.

Loughlin, a former Marine and ex-training officer for the Army National Guard, said he had been jogging in fatigues and stopped and turned but found his way blocked by the first youth who spoke to him.

''Are you a vigilante?'' he said the youth asked him.

''Then he called to the people I saw who were in front of me and said, 'He's one of those vigilantes.'''

Loughlin said at least three youths within 10 feet of him repeated, ''vigilante.''

Loughlin did not see the blow that struck him down seconds later.

''The next thing I remeber I was face down on the ground,'' he said sitting erect and speaking calmly. ''I was being hit on the back of the head.''

Loughlin said he yelled out, ''Fellows, why are you doing this to me? Please stop!''

According to police, Loughlin was attacked after a 29-year-old female jogger already lay naked and unconscious in a pool of blood, the most seriously wounded of the victims.

The woman's name has not been publicized due to the nature of the crime.

In earlier testimony, police described Loughlin after the attack as looking like ''he had been dipped in a bucket of blood.''

Eleven photographs were presented as evidence of Loughlin's injuries - black and blue eyes, a facial gash, huge bruises on his body, and a lump on his head that he said still throbs.

Prosecutor Elizabeth Lederer held up for the jury Loughlin's blood-drenched fatigue jacket and camouflage pants.

In video-taped confessions to police, the defendents admitted to the rampage, including the rape of the woman jogger and the attack on Loughlin.

McCray said he hit Loughlin in the leg with a pipe and Santana said he punched him hard in the face. Another of the attackers allegedly smashed a piece of wood so hard that it splintered over Loughlin's head.

Loughlin was hospitalized for two days after the attack.

#90179u1738 06/28/1990 ~United Press International

NEW YORK (JUNE 28) UPI - President-elect Alberto Fujimori of Peru vowed Thursday to break his country's economic isolation when he meets with U.N. Secretary-General Javier Perez de Cuellar and leaders of the World Bank and the International Monetary Fund.

The meeting with with Perez de Cuellar, IMF Director-General Michel Camdessus, and World Bank Chairman Barber Conable will take place at U.N. headquarters Friday. But Fujimori warned he will not bow to pressure to solve Peru's $20 billion external debt.

Fujimori, 52, said he will ask the U.N. secretary-general to work out an emergency aid plan to help his country similar to one the United Nations has offered to Bolivia by mobilizing U.N. agencies to channel financial and technical aid to the Latin American country. Fujimori said he will discuss conditions set up by the IMF to resolve its economic difficulties.

He said living conditions in the country are so low that the situation called for a "rebellion of the masses. But Peruvians are a pacific people and that's why we made a revolution through the ballot boxes."

"It is not possible that 70 percent of our people live on the margins of society, out of the protection of the government," he said. He said his discussions with financial institutions will be a "dialogue without concession, without giving up Peru's sovereignty."

Fujimori called for an improvement of standards of living in rural areas during his electoral campaign. He soundly defeated the well-known author Mario Vargas Llosa in a runoff election June 10 with a strong from the left and rural areas. He will be inaugurated July 28.

Vargas Llosa advocated strong free-market solutions to Peru's economic difficulties, while Fujimori offered no clear formula to revive the economy and to combat double-digit inflation.

"The grave economic difficulties and problems, justified or not, have caused the isolation of Peru from the international community," he said. "Peru deserves a place in that community."

Fujimori arrived in New York Thursday on his first trip overseas since winning the election. He met representatives of about 100,000 Peruvians living in New York, New Jersey, and Connecticut who supported his candidacy.

Fujimori, an agricultural engineer and son of Japanese immigrants, told the group he wants "to be in touch with all Peruvians abroad." He will visit Japan next week to seek financial support for Peru.

#90179u1759 06/28/1990 ~United Press International

ISLAMABAD, PAKISTAN (JUNE 28) UPI - Delegates at the first congress in 25 years of the ruling People's Democratic Party of Afghanistan Thursday changed the name of the party and re-elected President Najibullah as its leader, official Kabul Radio said.

As the final session of the two-day congress took place in the Afghan capital of Kabul, U.S.-backed guerrillas pounded the city with rockets, killing five people, wounding 14 and causing damage to property, the radio reported.

The guerrillas have rocketed Kabul almost daily for the past two months, killing scores of civilians and wounding hundreds, in attacks diplomats say have been timed to coincide with moves by Najibullah to attract more international and domestic support for his pro-Soviet government and end the 12-year-old civil war.

The party congress, the first since the People's Democratic Party was formed in 1965, is seen as part of the political offensive by the 43-year-old former head of Afghanistan's secret police.

Kabul Radio said the more than 800 delegates at the gathering unanimously approved changing the name of the grouping to the ''Homeland Party'' and elected Najibullah as its chairman.

The president formerly was the party's general secretary, but the post was renamed, apparently in keeping with moves to distance the government from communism.

Diplomats in Kabul have said Najibullah, fearing he could be removed from the post, has in recent months sought to reduce the number of members from the Khalq faction of the party in dispute with his own Parcham wing.

The president in March crushed a coup attempt led by the leader of the Khalq group, his former defense minister Shahnawaz Tanai.

In a concluding speech to the conference, Najibullah repeated his support for elections in the country and again appealed to guerrilla commanders to join the government.

Najibullah has defied Western predictions of his swift overthrow following the February 1989 withdrawal of Soviet troops backing his government. The

guerrillas, meanwhile, have failed to capture any major urban centers despite the pullout and have become embroiled in bloody internecine disputes.

As part of his liberalization efforts, Najibullah last month lifted a state of emergency imposed three days after the Soviet withdrawal and appointed a non-party member as his prime minister, Fazle Haq Khaliqyar.

He later held a traditional grand assembly, known as a Loya Jirgah, which rubber-stamped changes in the constitution committing the country to political pluralism and liberalizing the economy.

Diplomats in Kabul have described the moves as largely cosmetic, pointing out that real power will remain with the ruling party.

#90179u1760 06/28/1990 ~United Press International

TEHRAN, IRAN (JUNE 28) UPI - An earthquake measuring 4.6 on the Richter scale shook northwestern Iran Thursday, the latest in a series of aftershocks that has made relief work dangerous in the area after last week's massive tremblor.

Late Wednesday, Soviet rescue workers pulled a 9-year-old boy alive but comatose from the rubble of his home almost a week after the quake and rushed him to hospital, the official Islamic Republic News Agency said.

The boy, Morteza Amirpour, was the 19th survivor to be found between Monday and Wednesday. IRNA said he suffered only minor injuries but was in a coma when found by Soviet relief workers under the debris of his home in Rahmatabad, near Roudbar, some 145 miles northwest of Tehran.

Two women and a boy were dug out alive Tuesday. Another 15 were found in Manjil a day earlier, including a 6-year-old boy who spent four and a half days in a refrigerator.

Other members of Amirpour's family were found dead in the rubble close to where the Soviet relief workers discovered him, IRNA said.

The Tehran University Geophycisal Center said there were 15 aftershocks in a 24-hour period ending at 6:15 a.m. Thursday when the latest quake struck one week after the tremor that killed at least 40,000 people.

The continuing aftershocks have caused panic and fear among the survivors and made relief work dangerous. One relief worker was killed Wednesday when a wall crashed down on him during an aftershock.

A military helicopter crash in the disaster area also killed Mohammed

Hussein Eftekhari, a deputy in the Majlis, Iran's parliament, and injured four relief workers and two crew members.

The crash of the Chinook helicopter Wednesday occurred in poor weather about 35 miles east of Roudbar, a town that suffered severe damage in the June 21 quake, the official Islamic Republic News Agency reported.

The Red Crescent organization, the Moslem equivalent of the Red Cross, put the casualty count at 40,000 dead and 50,000 injured in the June 21 quake, which measured 7.7 on the Richter scale, but Iran's ambassador to the United Nations has said the death toll was at least 50,000.

An official in the Tehran University Geophysical Center said aftershocks could continue for two months but were now ''gradually stabilizing,'' the news agency said.

Relief supplies for the disaster victims continued to pour in from several countries. Convoys of trucks from the Soviet Union and Turkey crossed the border into Iran carrying relief but most of the aid arrived by plane.

The supplies continued to arrive despite a statement from Red Crescent chief Mohammed Parham that relief operations were winding down and there was no need for more foreign doctors and relief workers to be sent to Iran.

An official who visited the quake-hit area said temporary lodging would be provided for the 500,000 people made homeless. Iran has appealed for help from abroad in the form of prefabricated housing and architects to assist in rebuilding some of the destroyed towns.

Work was also under way to rebuild traditional underground canals heavily damaged in the quake. Streams choked by landslides were being cleared.

Spiritual leader Ayatollah Ali Khamenei, in a broadcast on Tehran radio, described last week's disaster as a divine test, but said Iranians would pass the test if they hurried to assist the victims.

The June 21 tremblor, measuring 7.7 on the Richter scale, devastated the region between the Caspian Sea and Zanjan, some 175 miles northwest of Tehran.

The damage caused by the disaster was estimated at more than $7 billion, a huge amount for cash-strapped Iran.

SRINAGAR, INDIA (JUNE 28) UPI - About 5,000 Kashmiri Moslems chanting, ''Down with Indian killers,'' demonstrated in Srinagar Thursday, and New Delhi announced a high-level meeting with Pakistan aimed at easing tensions created by the Kashmir crisis.

A Foreign Ministry spokesman said the foreign secretaries of India and Pakistan would meet from July 18 through July 20 in Islamabad.

The meeting between Muchkund Dubey and his Pakistani counterpart, Tanvir Ahmed, will be the first time in a year that talks at the secretary level have been held, the spokesman said.

Both countries have been under intense international pressure to peacefully resolve the volatile Kashmir crisis that has threatened to spark a fourth Indo-Pakistan war.

India believes that Pakistan is arming and training Moslem militants leading a violent separatist movement in India's northern Kashmir region.

Pakistan denies the allegations but acknowledges offering moral support to the movement.

The uprising has been in full swing since mid-January when security forces opened on Kashmiri demonstrators in Srinagar, killing at least 35 people.

Since then, more than 450 people have been killed in near-daily violence that has disrupted normal life in the Kashmir Valley, home to most of the region's 4 million Moslems.

Tens of thousands of troops and paramilitary forces have been deployed to the area but have failed to crush the movement.

Thursday's protest in Srinagar, the summer capital of Jammu and Kashmir state, 400 miles north of New Delhi, came as authorities imposed an early curfew ordered after the Red Crescent Committee called for a mass rally in Srinagar to offer prayers to those killed in Iran's earthquake.

But the group canceled the rally when it learned of the curfew and announced that the meeting would be held on another curfew-free day.

In the Khanyar area of Srinagar, about 5,000 people staged a five-hour

demonstration to protest the killings by paramilitary forces on Wednesday of a butcher and two of his customers.

The demonstrators, who blocked traffic for about a half hour, chanted ''Down with Indian killers,'' ''Withdraw the killer force from Kashmir,'' and ''We want freedom.''

#90179u1805 06/28/1990 ~United Press International

(JUNE 28) UPI - The Wall Street Journal says Iraq's president believes that another Mideast war may be on the horizon. In his first interview with a Western newspaper in three years, President Saddam Hussein says Iraq will resist Israeli aggression against any Arab nation, even if it means war. He blames immediate Mideast tensions on a decision by Israel's new government to re-settle Soviet Jews in the Israeli-occupied territories. He accuses the United States of conducting an international smear campaign against Baghdad.

More than 700 striking farmers from throughout Poland occupied the Agriculture Ministry in Warsaw today. The farmers say they will remain until the government increases prices they receive for agricultural commodities. The farmers' revolt coincides with a government announcement of higher prices starting Sunday for gas, electricity, coal, heating and payments for use of radio and television.

#90179u1820 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - Democratic budget negotiators proposed a new plan Thursday calling for $16 billion in defense cuts that one proponent said would require ''a dramatic scaleback'' in the ''Star Wars'' missile defense system and other high-priced Pentagon hardware.

House Budget Committee Chairman Leon Panetta, D-Calif., making the proposal to the bipartisan budget summit on behalf of most of the Democratic negotiators, said the plan calls for spending $10 billion less on defense next year than President Bush has requested for fiscal 1991 budget.

The administration's most recent request called for a cut of $5.9 billion in defense spending below the amount needed to keep pace with inflation.

''If we're going to reach the deficit savings we've targeted, you've got to go higher on defense (savings),'' Panetta said in an interview.

He said his proposal for lower defense spending would affect Star Wars, the futuristic, ground- and spaced-based missile defense system that is supported by President Bush.

''A dramatic scaleback would be involved there,'' Panetta said, referring to the system properly known as the Strategic Defense Initiative.

The $16 billion in cuts are deeper than any seriously proposed in Congress so far.

The full House on May 1 passed a budget plan that called for $11.5 billion in defense savings next year while the Senate Budget Committee adopted a plan calling for $13 billion in Pentagon savings in fiscal year 1991, which begins Oct. 1.

Panetta also said weapons systems like the B-2 stealth bomber also would be affected if his defense proposal were adopted by the negotiators.

The Pentagon initially proposed building five of the sleek, radar-evading, batwinged bombers this year but voluntarily cut production to two aircraft. The administration has called for spending $4.6 billion next year on star wars.

A $16 billion defense cut, aside from affecting high-priced military hardware, also is likely to require drastic cutbacks in the size of the armed forces, which now totals slightly more than 2 million uniformed personnel. And it could cause a large loss of military-related jobs.

Panetta said he was offering his proposal ''because of the changing world situation'' and the reduced Soviet military threat and because of the need to control the spiraling federal deficit.

Panetta said he had the support of most of the other Democratic negotiators, including Budget Committee Chairman Jim Sasser, D-Tenn., House Democratic leader Richard Gephardt of Missouri, chairman of the bipartisan talks, and assistant House Deomcratic Leader William Gray of Pennsylvania.

WIMBLEDON, ENGLAND (JUNE 28) UPI - Ivan Lendl and Martina Navratilova, in desperate pursuit of their Wimbledon dreams, advanced to the third round Thursday with straight-set triumphs against overmatched opponents.

Lendl, trying for his first crown at the All England Club, disposed of Switzerland's Jakob Hlasek 6-1, 6-3, 6-0 by winning 10 of the last 11 games. The 30-year-old Czechoslovakian is seeking to become only the fifth man to win all four Grand Slam singles titles.

Navratilova is aiming for a record ninth Wimbledon singles championship. She moved a step closer with a 6-2, 6-3 victory over Anne Smith, whom Navratilova has beaten 20 of 21 times.

Chris Evert watched the Centre Court match from the Royal Box. Navratilova misses her longtime friend and their 17 years of battles on the court.

''I get to see her, but it's not the same,'' said Navratilova, 33, the oldest entrant in the women's draw. ''I get to curtsy to her, but it's not the same as talking to her from one bathtub stall to the next.''

Lendl, who has been preparing since April for Wimbledon's grass courts, played his new net-rushing tactic to perfection. He pressured his Swiss opponent, whose confidence and touch disappeared as the match wore on. In the third set, Hlasek managed only to get one game to deuce.

''I can play better,'' warned Lendl, the winner of a combined eight Grand Slam titles, whose best Wimbledon showings are runner-up finishes in 1986 and 1987.

This year, the top seed is clearly the sentimental choice at the All England Club.

''It's nice to be the favorite, but it's for the wrong reason,'' he said. ''I would rather be the villain with five titles under my belt.''

Hlasek, ranked No. 7 a year ago but now down to No. 50, has been dealing with a shoulder injury that affects his service otion.

''My serve is gone, that's why my game is gone,'' he said.

No. 3 Stefan Edberg displayed exceptional shot-making and court coverage in a 6-2, 6-3, 6-2 triumph over Miloslav Mecir of Czechoslovakia. A first-round loser at the French Open, the Swede showed the form that earned him the 1988 Wimbledon title. He responded to Mecir's versatile play by drilling approach shots to the corners and rarely failing to turn volleys into winners.

Mecir, ranked No. 4 in 1988, has slipped to No. 68 due to a recurring back problem. He came to Wimbledon with first-round losses in the three tournaments he has played since February.

''He's a great player, at his best,'' Edberg said. ''He's not as quick as he can be ... I think he's still got some problems (with his back). He had problems reaching for very difficult balls.''

During the day's early matches, play was suspended for 24 minutes when a camera case was spotted on a walkway. Security guards, wary after a bomb threat against the All England Club was called in to a national newspaper, summoned a bomb disposal expert, but the case proved only to contain a camera.

After an upset-free Wednesday, the early departure of seeds resumed. No. 15 Henri Leconte became the seventh men's seed to fail in the first two rounds, losing to Austria's Alex Antonitsch 2-6, 6-4, 7-6 (7-2), 2-6, 6-3, and women's No. 15 Ros Fairbank was ousted by Amy Frazier 6-4, 6-3.

Advancing in straight sets were U.S. teenagers No. 9 Jim Courier and No. 13 Michael Chang, the 1989 French Open champion.

In 1986, Leconte was ranked No. 5. A back injury and personal problems combined to drag him down to No. 115, but in the past 14 months he has undergone a back operation, lost weight and cleared up his off-court difficulties.

''I'm disappointed because I've changed a lot,'' he said. ''I was not serving at all well and my concentration was not at its best.''

In other matches involving women's seeds, No. 4 Gabriela Sabatini scored an erratic 6-2, 7-6 (8-6) victory over Anke Huber, 15, of West Germany. Also advancing were No. 7 Katerina Maleeva and No. 14 Judith Wiesner in straight sets.

Anders Jarryd, a 1985 Wimbledon semifinalist, defaulted his second-round match with Mark Kratzmann because of injury. During a doubles match Wednesday, Jarryd bruised his ribs when he collided with partner John Fitzgerald. The pair, who were defending champions, withdrew from doubles competition.

WASHINGTON (JUNE 28) UPI - Budget negotiators talked seriously Thursday about the possibility of reducing Social Security benefits - perhaps the single most politically volatile deficit reduction measure short of raising taxes.

One negotiator, Rep. Silvio Conte, R-Mass., said there was discussion about a possible "three month delay" in annual Social Security cost of living adjustments.

But participants said no specific cuts - in Social Security, Medicare or

any of the other formula-set federal entitlement programs under discussion - were approved by the bipartisan group of White House and congressional negotiators, who were spending their second day discussing entitlement savings.

"While no one has said no, no one has said yes, either," House Budget committee Chairman Leon Panetta, D-Calif., said of the discussion about Social Security reductions.

Participants said the talk early Thursday included a possible delay or freeze, of a year or less, on annual Social Security cost of living adjustments - long considered untouchable because of the political clout of the elderly.

Also discussed, they said, was raising income tax rates from the current 50 percent to 85 percent on Social Security benefits received by individuals with annual outside incomes of at least $25,000 or couples with annual outside incomes of $32,000. And negotiators discussed lowering the income threshold at which benefits are taxed. Such proposals could raise up to $23 billion over five years.

Additional cuts in Medicare, the health insurance programs for seniors, also were discussed, participants said. But some reductions in Medicare payments to doctors have long been expected to be part of any final agreement.

The negotiators have been meeting since the middle of May, but there was no discernible progress until this week, when President Bush publicly acknowledged that a serious effort to reduce the deficit would have to include a tax increase - a decision that meant breaking his best remembered campaign promise.

Democratic negotiators, who wanted a sign from Bush that he was willing to make some politically difficult choices, were encouraged by the president's move. They demonstrated their own willingness to sacrifice political sacred cows by bringing up the possibility of cutting entitlements, an area Democrats generally are loathe to touch.

Negotiators were buoyed by the new willingness to bargain and Sen. Robert Packwood, R-Ore., cautiously predicted that they could craft a package to control the mushrooming deficit that would win congressional approval despite some tough decisions.

Packwood, ranking Republican on the Finance Committee, suggested that "of all the groups in this country willing to sacrifice" to help reduce the soaring deficit, the most willing are "probably those that are on Social Security - so long as they don't think they are being singled out."

"I think we're going to get a deal and I think it will be a deal that will pass the Congress," Packwood said. "And I think the public, by and large, in the aggregate, will like it (but) there will be specifics they don't like."

Rep. Bill Frenzel, R-Minn., a budget negotiator, said "entitlements are going to have to take a pretty good swat" if the budget summit is to reach agreement on a package that cuts the deficit by $50 billion to $60 billion in fiscal year 1991, which starts Oct. 1.

He estimated that about $12 billion in entitlement savings would be necessary - more than double the savings proposed to negotiators Wednesday by House Budget Committee Chairman Panetta.

Senate Finance Committee Chairman Lloyd Bentsen, D-Texas, whose panel has jurisdiction over Social Security and Medicare, acknowledged that merely talking about Social Security cuts or benefit delays makes negotiators nervous about the possible reaction from politically powerful seniors.

"Everybody flinches," Bentsen said. But, he added, "nobody laid down the law that we couldn't consider one of these (cuts) seriously. No one took a walk."

Panetta kicked off the discussion about entitlement reductions Wednesday by proposing a $5.7 billion package of possible savings - an increase from the $3.6 billion in entitlement savings contained in a House-passed budget plan.

But Panetta said if negotiators determine that entitlement savings must exceed $10 billion, there are two possible paths to follow to get the additional savings - additional Medicare cuts or cost of living delays in retirment programs.

NEW YORK (JUNE 28) UPI - Stocks closed higher Thursday in light trading, bolstered by strength in the bond market and the usual end-of-quarter buying by money managers trying to dress up their portfolios.

The Dow Jones industrial average, which rose 19.80 Wednesday, gained 16.58 to close at 2878.71.

Among broader market gauges, the New York Stock Exchange composite index rose 1.31 to 195.18 and Standard & Poor's 500-stock index gained 2.47 to 357.63. The price of an average share rose 23 cents.

Advances led declines 909-549 among the 1,990 issues crossing the NYSE tape. Big Board volume totaled 136,120,000 shares, vs. 146,620,000 shares traded Wednesday.

Strength in Treasury bonds buoyed stocks from the opening. Treasury notes and bonds were up 1/8 to 3/8 of a point in afternoon trading after the Treasury's well-received four-year note auction Wednesday.

In early afternoon, a round of program buying, used to profit on price spreads between stocks and stock-index futures, fueled additional gains in the stock market, analysts said.

They also said end-of-quarter "window-dressing," especially concentrated in blue-chip stocks, supported prices as well. "Window-dressing" refers to an uptick of buying and selling by institutional money managers in adjusting their portfolios. The adjustments are made in anticipation of the managers' quarterly performance evaluations.

"I think the key thing is the seasonal strength in stocks we have coming up," said Don Hays, director of investment strategy at Wheat, First Securities Inc. in Richmond, Va. "At the quarter-end, month-end and in the days prior to July 4, we traditionally get strength in stocks."

Hays also noted the market's slightly more optimistic outlook on interest rates after the enthusiastic demand at the Treasury note auction Wednesday.

"A huge number of people came to the party and wanted the notes, so maybe rates are getting ready to drop," he said. "I think all thses things forecast a higher market."

On the trading floor, AT&T was the most active issue, down 3/8 to 38 3/4 after tumbling in heavy trading Wednesday in the wake of a forecast of lower quarterly earnings.

Philip Morris followed, down 3/8 to 46 3/8. L.A. Gear was third, up 1 3/4

to 29 after reporting earnings in line with a dismal forecast the company earlier announced.

Among the other blue chips, Merck was up 1 7/8 to 86 1/8 as drug stocks were said to benefit from a vote of confidence on earnings from a Prudential-Bache analyst. IBM was down 3/8 to 117 5/8, and McDonald's was up 1 1/4 to 35 7/8.

Other drug stocks were strong, such as Bristol-Myers Squibb, up 1 1/4 to 64 5/8, and Eli Lilly, up 2 3/4 to 83 3/4.

Volume of NYSE-listed issues, including trades in stocks on regional exchanges and in the over-the-counter market, totaled 162,524,990 shares, compared with 172,727,990 shares traded in the previous session.

Prices closed higher in moderate trading on the American Stock Exchange. The Amex Market Value index rose 1.52 to close at 358.57. The price of an average share added five cents. Advances led declines 286-246 among the 796 issues traded. Composite volume totaled 15,152,300 shares, compared with 14,480,500 traded Wednesday. Energy Service led the Amex issues, off 1/4 to 4 1/4.

The National Association of Securities Dealers composite index closed up 3.49 to 460.38.

#90179u1942 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - The Bush administration, under pressure to expand drug treatment, rejected as ineffective Thursday an embattled national goal that the country provide treatment on demand to all addicts.

The Office of National Drug Control Policy said while more anti-drug centers are needed, ''A policy designed primarily to provide treatment 'on demand' would create a costly, unbalanced system that brings no guarantee of success.''

The Anti-Drug Abuse Act of 1988, which created the office, set as a national goal the establishment of enough facilities so that ''treatment on request may be provided to all individuals desiring to rid themselves'' of illicit drugs.

Critics have called on the administration to allocate a bigger share of its anti-drug budget to treatment. About 12 percent of the federal war on drugs is devoted to treatment. About 75 percent goes to law enforcement.

The administration has requested $1.7 billion in fiscal 1991 for treatment a $200 million increase over current spending and an 80 percent jump from two years ago.

But even at the increased level, expanded facilities will be able to handle just 1.8 million people. There are an estimated 4 million to 6 million addicts in the United States.

In a ''white paper'' on ''Understanding Drug Treatment,'' the Office of National Drug Control Policy said treatment works and that more facilities are needed. But it also said treatment on demand is a misguided goal.

''The call for such a system obscures the far more pressing and practical needs for drug treatment,'' it said. ''Addressing those needs requires us to come to grips with the fact that while the need for treatment is high, the actual demand is relatively low.''

Federal anti-drug chief William Bennett, in releasing the paper at a news conference, said: ''It is not, I think, fair to ask the taxpayers, to support a system that is governed by the whim and caprice of people who are on drugs.''

Bennett said, ''People on drugs ... have a notoriously short-time horizon and a weak capacity for commitments. To put them in the drivers' seat in terms of they demand when they want treatment and when they don't is a mistake.''

Bennett said his goal is ''to have sufficient capacity to provide treatment for people who will benefit from it and who are serious about it. It is to increase capacity.''

Dr. Herbert Kleber, Bennett's deputy for demand reduction, noted that only one in two addicts eventually get treatment, and that those who do generally benefit.

In fact, he said, three years after completing treatment, about 50 percent could be described as drug-free, and another 20 percent as ''substantially improved.''

Health and Human Services Secretary Lewis Sullivan joined Bennett at the news conference and said, ''The message of this paper is that treatment does work.''

''To be sure, it does not work for everyone or under every circumstance,'' Sullivan said. ''But next to prevention, treatment is one of the most effective weapons we have.''

Sen. Edward Kennedy, D-Mass., said in a statement, ''I am encouraged by the release of this report. The administration seems to have finally seen the light and recognizes the importance of drug treatment.''

''For too long, treatment has been relegated to second class status,'' Kennedy said. ''I hope this report marks a turning point toward a more effective strategy in the war on drugs.''

Kennedy made no mention in his statement about treatment on demand for all addicts, but a spokesman for the senator said he still favors it as a national goal.

#90179u1948 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - Treasury Secretary Nicholas Brady warned Congress Thursday the United States will go broke in August unless lawmakers increase the government's more than $3 trillion debt limit.

In what has become a yearly ritual, Brady said the increase in borrowing authority is needed to pay off government bonds reaching maturity and to raise new cash to keep the wheels of bureaucracy churning.

''I urge the Congress to act in a timely manner on a debt limit increase in order to avert a default with its adverse consequences on domestic and international confidence and trust in the United States,'' Brady said.

Congress will most certainly go along with Brady's request. But in past years disagreement has stalled such increases, forcing a government shutdown and furloughs of ''non-essential'' federal employees.

Last year, Congress increased the debt limit to $3.123 trillion.

In a letter to Rep. Bill Frenzel of Minnesota, ranking Republican on the House Budget Committee, Brady said, ''Based on our current estimate, it appears likely that, without an increase in the debt limit, the Treasury will run out of cash and borrowing authority and default on the government's obligations in mid-August.''

But he noted that a sudden increase in government spending on the bailout

of the nation's battered savings and loan industry ''could accelerate the need for an increase in the debt limit to early August.''

Brady said that the Treasury Department's debt and cash estimates for the remainder of fiscal 1990 ''are subject to a greater-than-usual degree of uncertainty'' because of the difficulty in predicting cash needs for the thrift rescue.

''In any case, it is highly likely that default would occur before Congress returns in September,'' he said.

#90179u1985 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - President Bush, facing a Republican rebellion on Capitol Hill for breaking his "no new taxes" pledge, got some welcome support Wednesday from a GOP senator who said Bush deserves "the benefit of the doubt."

In a "Dear Colleague" letter sent to all Republican members of Congress, Sen. Alfonse D'Amato, R-N.Y., said Bush "has earned our support" and he urged his GOP colleagues "to join me in backing him during the budget negotiations."

"Today, President Bush is coming under attack from within our ranks," D'Amato wrote. "Facing a potential economic crisis because of the growing budget deficit, he chose to make the tough decision he feels is necessary to ensure a strong and growing economy."

D'Amato said that while he has been among the Republicans "staunchly opposed to revenue increases, I intend to support the president in his decision."

"On issues where some of us have doubted him, such as his decision to pursue elections in Nicaragua, he has proven to be correct," D'Amato said. "Now, he is asking us to follow his lead as he seeks to keep the economy growing. Whatever reservations we may have, I believe President Bush has earned the benefit of the doubt." He said if Bush now believes that spending cuts alone will not be sufficient to reduce the deficit, "we should support his judgment."

D'Amato's letter to his colleagues follows by two days a letter at least 90 House Republicans sent to Bush on Tuesday, the day he announced the reversal of his "read my lips - no new taxes" 1988 campaign pledge.

After a two-hour meeting with congressional leaders Tuesday morning at the White House, Bush issued a three-paragraph statement saying that "tax revenue increases" were among several items needed in any deficit reduction package.

House Republicans, led by Rep. Robert Walker, R-Pa., a member of the House GOP leadership team, wrote Bush that they were "stunned" by his announcement. "A tax increase is unacceptable," the House GOP letter said. "We will not vote for a budget package that increases tax rates for the American people."

Assistant House Republican leader Newt Gingrich of Georgia held a news conference attempting to downplay the impact of Bush's statement. He said Bush had made no significant change in his earlier position that all options for deficit reduction be on the negotiating table.

Democratic leaders who met with Bush Tuesday were emphatic in stating their view that Bush had indeed called for new taxes and reversed his position. "He's talking about an increase in taxes," Senate Finance Committee Chairman Lloyd Bentsen, D-Texas, said Thursday when asked about Republican reaction to Bush's statement. "I didn't think it could be read any other way."

#90179u1994 06/28/1990 ~United Press International

NEW YORK (JUNE 28) UPI - News of a U.S.-Japanese agreement on a package of measures to rebalance trade and rumors the Bank of Japan might hike interest rates made the yen the dominant currency in New York trading Thursday.

Currency traders said the dollar lost ground against the reinvigorated yen but moved up against European currencies, which were most heavily sold against the Japanese unit in the week's first clear trend.

In Tokyo, Japanese and U.S. officials reached agreement in the Structural Impediments Initiative trade talks. Under the agreement, Japan would take steps aimed at increasing its receptiveness to imported goods.

"The dollar went down against the yen and up against the mark as a result of yen strength against the dollar and the mark," said Charles Spence, a currency vice president for First Interstate Bank in Los Angeles.

In late New York trading, the dollar was quoted at 1.6725 West German marks, up from 1.6645 late Wednesday. Against the Japanese unit, the dollar was quoted at 153.10 yen, compared with 154.45.

Midland Bank treasury officer Donald Hubbard said the yen's strength might be related to Wednesday's strong gains on the Tokyo Stock Exchange. He added, though, that the currency market still lacked coherence: "It's been a little bit confusing lately."

Developments like German monetary union, President Bush's about-face on tax increases and British hesitancy on the pound's inclusion in the European exchange-rate mechanism have muddied the waters, he said.

Other dollar rates: 1.42 Swiss francs, up from 1.41; 5.6150 French francs, up from 5.5940; and 1,227 Italian lire, ahead from 1,221. The pound slipped to $1.7380 from $1.7425.

In Europe, the dollar closed mostly higher against the major currencies on a quiet trading day, traders and analysts said.

The dollar remained in narrow ranges as players awaited news from Washington on how much taxes will rise to offset the budget deficit.

In Frankfurt, the dollar rose marginally to 1.6660 deutsche marks compared with 1.6630 the day before as a favorable German inflation figure gave little reason for the Bundesbank to hike interest rates.

Deutsche Bank's Klaus Elsner said German inflation, currently running at 2.5 percent annually, was an important psychological factor as the July 1 launch of German economic and monetary union approaches.

But George Magnus at Warburg Securities said the excellent inflation figure was history and would not greatly reduce worries over monetary union, because what will happen after the union takes place was the issue.

The dollar was up in Zurich at 1.4115 Swiss francs compared with 1.4075 the day before.

In London, the pound regained much of the ground it lost overnight but still closed lower at $1.7400 against $1.7430 Wednesday.

Dealers said high U.K. interest rates had rescued sterling from its overnight tumble. Eroding confidence in Prime Minister Thatcher's commitment to European monetary union sparked considerable selling of the pound.

The U.S. unit closed higher in Paris, Brussels and Milan, at, respectively 5.6005 francs against 5.5855, 34.24 Belgian francs compared with 34.18 and 1,225.75 lire against 1,219.30.

Earlier in Tokyo, the dollar held firm in slow trading and closed at 154.42 yen, up from 154.35 yen the previous session.

Gold closed higher in both Zurich, at $352 an ounce against $350.50 Wednesday, and London, at $352.25 an ounce compared with $350.

Republic National Bank in New York closed cash gold at $351.50 an ounce, up from $350.25 Wednesday. The New York Commodity Exchange settled gold at $352.10 an ounce, up from $351.40.

Silver closed lower in Zurich at $4.80 an ounce against $4.85 but rose in London to $4.84 an ounce against $4.83.

Republic closed cash silver at $4.845 an ounce, up from $4.815. The Comex settled silver at $4.813 an ounce, up from $4.794.

#90179u2002 06/28/1990 ~United Press International

MOSCOW (JUNE 28) UPI - Two would-be hijackers tried to commandeer an airliner to Turkey Thursday by threatening to poison all 165 passengers with chemicals, but the pilot landed quickly and a special team seized the culprits, the official Tass news agency said.

It was the fifth Soviet hijacking incident in a month but the first that was foiled inside the Soviet Union. In the others, the aircraft left Soviet territory and were returned later.

Tass said the TU-154 airliner, flying from Krasnodar in eastern Russia to Krasnoyarsk in Siberia, was over Orenburg when two people stood up and announced they had chemicals aboard to poison all 165 passengers and demanded to be flown to Turkey.

''The captain, V. Alexandrov, assessed the situation and landed the plane at Orenburg Airport,'' Tass said.

''Thanks to actions by the crew and a special force, the two hijackers were seized,'' Tass said. It said one was a 17-year-old identified as Yuri Kapirushov but that the accomplice's identity was not yet determined.

Tass gave no details of the special team that helped end the hijacking, but apparently such special units have been introduced on flights or at airports to thwart what has become a wave of hijackings of Soviet planes.

The increase in skyjackings followed a Soviet policy decision two years ago tempering security measures toward hijackers.

The new policy was adopted after commandos stormed an aircraft hijacked by a family of musicians, the Ovechkins, leaving nine people dead and 19 wounded at a Leningrad airport. Six members of the Ovechkin family from Siberia died in the bloody end to that March 1988 hijacking.

So far this month, two Soviet airliners have been hijacked to Helsinki, a third to Stockholm, and in the fourth pirating, a pilot ferried a 12-seater, single-engine plane to Turkey. In each case, the hijackers have sought political asylum and are still in the countries where the hijacks ended. The aircraft have all been sent back to the Soviet Union.

The recent rash of Soviet hijackings landing in the West appeared to underline a Soviet wish to end hijackings peacefully. That policy brought unexpected dividends when in 1988 Israel and the Soviet Union cooperated to return five hijackers almost immediately to Moscow after they were allowed to fly to Tel Aviv.

The security service of Israel and the KGB have combined to produce a film about that December 1988 hijacking in which the armed gang seized a schoolbus of 30 children in southern Russia and freed them in exchange for a plane to Tel Aviv and $2 million in hard currency.

CRISSIER, SWITZERLAND (JUNE 28) UPI - McDonald's gave gourmets food for thought Thursday when the American hamburger chain opened a new outlet almost next door to Girardet, one of the world's most famous restaurants.

Fredy Girardet, a local Swiss, is ranked by critics as one of the world's finest chefs and some say he is No. 1.

''There's always room for competition,'' he commented as McDonald's opened its 16th outlet in Switzerland as well as its Swiss headquarters in Crissierwhich, situated just above Lausanne on Lake Geneva.

#90179u2024 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - The Army told Congress Thursday it is proposing to lay off nearly 8,000 civilian employees through fiscal 1991 at installations in 24 states, the hardest hit being in Pennsylvania, Texas, New Jersey and Alabama.

''The major impetus of these reductions is to make personnel adjustments within funding constraints and in response to expected decreases in military support requirements,'' the Army said in an information sheet sent to Congress.

''These are proposed, not approved, reductions but represent the best estimate (of what will occur),'' the Army said.

A list of proposed cuts by state and installation ''includes those instances where we project involuntary separation of 50 or more civilian employees or 10 percent of the civilian work force at the installation,'' it said.

''Hardest hit is the U.S. Army Materiel Command, with total proposed separations during the early part of fiscal year 1991 of nearly 8,000 employees located at sites throughout the continental United States.''

AMC, the Army's single largest civilian employer, is involved in research, development and procurement of equipment and armaments, production and

storage of ammunition and operation and maintenance of supply and storage facilities.

Here is a state-by-state list with the total number of civilian employees proposed for layoffs:

Alabama 805; California 268; Colorado 95; Georgia 68; Illinois 449; Indiana 6; Iowa 4; Kansas 2; Kentucky 447; Louisiana 85; Maryland 84; Michigan 535; Mississippi 31; Missouri 572; Nevada 17; New Jersey 943; New York 307; Oklahoma 116; Pennsylvania 1,122; South Carolina 95; Tennessee 13; Texas 1,006; Utah 124; Virginia 202.

ST. CHARLES, MO (JUNE 28) UPI - Rock 'n' roll legend Chuck Berry denied using drugs Thursday as authorities released details of a raid at his country estate that allegedly netted hashish, marijuana, weapons and more than $122,000 in cash.

St. Charles County Prosecuting Attorney William Hannah held a brief news conference to release the affidavit used as a basis for a search warrant executed Saturday at Berry's estate near Wentzville, about 35 miles west of St. Louis.

Hannah declined comment on details of the search or the amount of drugs allegedly seized, saying it would be inappropriate to release information until he saw the results of tests on the suspected controlled substances.

The prosecutor admitted that drug agents were searching for cocaine during the raid but found none. Confidential informants had given details of where they said cocaine could be found in Berry's home.

No charges were filed against Berry, but Hannah said he expected to decide by next week whether to file charges in the case.

Following Hannah's news conference, Berry and his attorney, Wayne Schoeneberg, met with reporters outside the prosecuting attorney's office.

Berry, 63, spoke in a low voice in denying he used drugs. He said the drugs found on his property had belonged to a woman friend who previously had lived at his home.

''I've read the affidavit. I have never used cocaine,'' the guitarist said. ''I have been against cocaine. There's no truth to it. Nobody in my band, that I have seen, has ever used cocaine.''

Berry also maintained he doesn't drink and never has.

The prosecutor released a list of property taken during the raid by members of St. Charles County's Multijurisdictional Enforcement Group. The items included two rifles, a shotgun, several plastic bags ''containing green plant material'' and ''aluminum foil containing hard, dark brown material.''

As a convicted felon, Berry is barred from possessing firearms. Berry previously was convicted on tax evasion charges and violation of the Mann Act.

Also seized were pornographic slides, videotapes, books and newspapers

with sexual content, computer discs, a bottle of capsules and pills, bank statements, legal letters, Berry's driver's license and $122,501 in cash, authorities said.

Rumors of fighting in the Middle East and of a meeting of OPEC oil ministers to curb the cartel's overproduction combined with a firmer overseas market to drive U.S. oil prices up Thursday.

In trading on the New York Mercantile Exchange, the standard-setting West Texas Intermediate crude for August delivery climbed 47 cents on the day to $17.15 a barrel, reversing Wednesday's 46 cent loss.

Sun Co., of Radnor, Pa., along with Du Pont's Houston-based Conoco subsidiary and Marathon Oil Co., the Findlay, Ohio, unit of USX Corp., all raised the posted price they will pay for crude at the wellhead by 50 cents a barrel to $16 a barrel for WTI. They had lowered the price 75 cents Wednesday.

Earlier on the European cash market, Britain's widely traded North Sea Brent crude for prompt delivery jumped 60 cents to $16.20 a barrel.

WTI opened strong on the Merc based on higher European prices for Brent crude, said Randall Rothenberg of Dean Witter Reynolds' International Energy Futures Group in New York.

''Then we heard rumor on rumor, first that Israel had invaded Libya, then that there would be a meeting of the OPEC cartel July 4,'' the analyst said.

The rumors proved false. Israel did not invade Libya and the July 4 conference turned out to be only a meeting of OPEC president Sadek Boussena with the oil ministers of Kuwait and Indonesia in Algiers.

There have been recurring rumors that the oil ministers of the 13-nation Organization of Petroleum Exporting Countries would meet to curb the cartel overproduction that has created a worldwide glut of crude oil and that has depressed prices.

Boussena, who is also Algeria's oil minister, has instead been meeting informally with groups of ministers. The July 4 session will apparently be another one of these get-togethers.

OPEC pumps more than a third of the world's crude and its attempts to support prices by limiting output have largely failed because of quota-cheating by Kuwait and the United Arab Emirates.

Rothenberg said Merc gasoline prices also received a boost by a Wednesday night fire at the Houston refinery of Lyondell Petrochemical Co. Damage from the fire could keep the big 265,000-barrel-a-day facility shut down as long astwo weeks.

''We're not sure yet. It could be as little as three days or as much as two weeks,'' said Lyondell spokeswoman Jackie Wilson.

Unleaded gasoline for July delivery shot up 1.44 cents to 60.93 cents a gallon on the Merc, while prompt delivery unleaded held firm on the New York Harbor and U.S. Gulf Coast cash marketsslipping 0.05 cent to 61.95 cents on the one but gaining 0.25 cent to 57.55 cents a gallon on the other.

On the U.S. Gulf Coast crude cash market, prompt delivery WTI crude rose 50 cents to $17.15 a barrel.

On the European spot market, the United Arab Emirates' Dubai light - the key OPEC crude from the Middle East shipped mainly to the Far East - climbed 36 cents to $13.69 a barrel.

On the Merc, heating oil finished the day at 49.03 cents a gallon, up 1.10 cents.

NEW YORK (JUNE 28) UPI - Susan Lucci, in her 11th try, lost out Thursday to Kim Zimmer of CBS's ''Guiding Light'' as outstanding actress in a soap opera while NBC's ''Santa Barbara'' won the Emmy for outstanding soap.

''Santa Barbara,'' which also was last year's outstanding daytime drama, picked up four daytime Emmys during the telecast, making it the most-prized show of the ceremony.

Two other ''Santa Barbara'' awards included A Martinez as outstanding lead actor for his role as Cruz Castillo and Henry Darrow as Rafael Castillo was named best supporting actor. The show's directing team also won in their category.

Zimmer, who is leaving ''Guiding Light'' and her role as Reva Shayne Lewis thanked everyone involved, including ''all the men in Reva Shayne's life'' without whom the Emmy would not have been possible.

''Guiding Light'' also picked up an Emmy for outstanding writing team.

While Lucci lost out for the 11th straight year, her ABC show, ''All My

Children,'' took two Emmys - Julia Barr, who plays Brooke English, won as outstanding supporting actress and Cady McCain won as outstanding juvenile female for her portrayal of Dixie Martin.

Andrew Kavovit, who plays Paul Stenbeck on CBS's ''As The World Turns,'' won in the male juvenile category.

Lucci will be trying her luck on night time soaps when she joins the cast of CBS's ''Dallas'' in the fall.

CBS won a total of five Emmys, as ABC, NBC and syndicated shows took home four each. PBS earned one.

One of the most emotional moments of the awards show came when a tearful Joan Rivers accepted her Emmy as outstanding talk/service show host for her syndicated ''The Joan Rivers Show'' and talked about her husband, who committed suicide two years ago.

''It's so sad he can't be here,'' Rivers said, saying that he was the one who always told her she could turn things around - something she said he forgot for a tragic moment.

''Sally Jessy Raphael'' (syndicated) won the Emmy as outstanding talk/service show.

''Jeopardy!'' (syndicated) was named outstanding game/audience participation show. It's host, Alex Trebek, last year's winner as outstanding game show host, this year shared honors in that category in a tie with silver-haired Bob Barker of ''The Price Is Right'' (CBS). They were the only ones nominated.

The undead and a cuddly bear made an odd couple as ''Beetlejuice'' and ''The New Adventures of Winnie the Pooh'' (both ABC) tied as outstanding animated program.

The Emmy for outstanding children's series went to ''Reading Rainbow,'' one of the four PBS candidates out of five shows nominated.

''A Matter of Conscience,'' a CBS Schoolbreak Special, was the winner as outstanding children's special.

Betty White of NBC's ''Golden Girls'' presented a lifetime achievement award to game show creator Mark Goodson, whose shows include ''Beat The Clock,'' ''What's My Line?'', ''To Tell The Truth,'' ''The Price Is Right '' ''Family Feud'' and ''Password.''

''The fun will never set on the Mark Goodson empire,'' White said, introducing Goodson. She noted that he was responsible for more than

100,000 half-hours of enjoyment, and ''even Marla Maples can't say that.''

Goodson, in his acceptance speech, reminisced about ''What's My Line,'' done live in black tie every Sunday night, where ''the biggest prize was $50 and nobody jumped up and down.'' He added that he trusted ''this is a comma, not a period, in my life.''

Oprah Winfrey acted as host of the 17th annual Daytime Emmy Awards, broadcast live on ABC from New York City's Marriott Marquis Hotel.

#90179u2106 06/28/1990 ~United Press International

NEW YORK (JUNE 28) UPI - Assets of the nation's 513 money market mutual funds decreased $444.9 million to $384.99 billion for the week ended Wednesday, the Washington-based Investment Company Institute reported Thursday.

The institute said broker-dealer fund assets decreased $356.4 million to $159.17 billion, assets of general purpose funds increased $27.7 million to $133.99 billion and institutional fund assets fell $116.2 million to $91.83 billion.

The Investment Company Institute, a national association of the American investment company industry, reports the assets of money market funds to the Federal Reserve Board each week.

The Donoghue Organization, of Holliston, Mass., said average seven-day simple yields were at 7.67 percent, unchanged, and 30-day simple yields stood at 7.67 percent, also unchanged.

The average maturity of fund portfolios was unchanged at 44 days.

The Bank Rate Monitor, of North Palm Beach, Fla., gave average rates as follows: money market deposit accounts, 6.0 percent, down from 6.01 percent; Super-Now accounts, 5.0 percent, up from 4.99 percent; six-month certificates of deposit, 7.70 percent, unchanged; one-year CDs, 7.84 percent, unchanged; 2 1/2-year CDs, 7.84 percent, unchanged; and five-year CDs, 7.90 percent, down from 7.91 percent.

The average rate for a one-year, adjustable-rate mortgage was 8.50 percent up from 8.47 percent.

The average rate on a 15-year, fixed-rate mortgage rose in the latest week to 9.78 percent from 9.77 percent, while the average rate for a 30-year, fixed-rate mortgage was 9.98 percent, up from 9.96 percent.

The average rate for a four-year automobile loan was unchanged at 12.27

percent.

#90179u2108 06/28/1990 ~United Press International
WASHINGTON (JUNE 28) UPI - Three more Texas banks were closed Thursday, bringing to 65 the number of bank failures in the state this year. Nationally, 100 banks have failed this year.

Regulators closed Bacliff Bank National Association in Bacliff, The Valley View National Bank in Valley View, and Southwest National Bank in Austin.

The Federal Deposit Insurance Corp. said Bacliff Bank, with assets of $8.2 million, will be taken over by The Citizens State Bank of Dickinson. Citizens State will assume $7.8 million in 3,700 deposit accounts of the failed bank, and purchase $8.1 million of its assets at a discount of $1.9 million.

The Valley View Bank, with assets of $13.4 million, was sold to The Gainesville National Bank in Gainesville. Gainesville National will assume $13 million in 2,200 deposit accounts of the failed bank, and buy $13 million of its assets at a discount of $1.95 million.

Southwest National, with assets of $33.8 million, will be acquired by Texas Bank in Odessa, which will assume $33.5 million in 8,100 deposit accounts of the failed bank. The assuming bank will buy $27.2 million of the assets at a discount of $4.2 million.

All the failed banks' offices will reopen Friday as branches of the assuming banks and their depositors will automatically become depositors of the new banks.

Last year, 133 banks failed in Texas and 206 in the nation.

#90179u2141 06/28/1990 ~United Press International
GUATEMALA CITY (JUNE 28) UPI - Guatemalan leftist rebels and representatives of the country's business sector agreed to meet in July to try to end the country's armed insurgency, authorities said Thursday.

It will be the first time that the Guatemalan National Revolutionary Union - a guerrilla umbrella organization known as the URNG - and business leaders meet to discuss differences in more than 30 years of civil war.

''The URNG and the business sector will meet sometime during the first half of July, although an exact date has not yet been fixed,'' said Julio Mendizabel, spokesman for the National Reconciliation Commission that

includes government and non-government members.

''The two sides are considering Canada as a possible venue for the talks because of its neutrality,'' Mendizabel said.

According to a recent accord signed by the rebels and the commission, the country's religious and social organizations will meet with the rebels in August.

''During the first half of August, the URNG will meet with the religious sector, including the Catholic Church, the Evangelists, the Jewish community and the Episcopal Church.

''The country's social sectors will meet with the URNG immediately following these talks,'' Mendizabel said.

In moves to contain the civil war in 1981 and 1982, the military combined sophisticated guerrilla warfare strategy in the countryside - during which the army estimated 440 villages were destroyed and their inhabitants killed or forced to flee - with political opening in the cities.

Repression had reached such a stage in 1980 and 1981 that Gen. Lucas Garcia's government - faced with possible military defeat - was forcing moderate parties and popular leftist groups toward revolutionary positions.

The political opening, which led to assembly and presidential elections in 1984 and 1985, was often opposed by the country's ruling elite and business classes.

Under preliminary agreements, the rebels - whose activity has been drastically reduced but not eradicated - have said they will refrain from actions against November's elections and halt all sabotage against the nation's infrastructure.

#90179u2187 06/28/1990 ~United Press International

UNITED NATIONS (JUNE 28) UPI - China could cut its consumption of ozone-depleting chemicals by 40 percent in three years at a cost of $41

million if it accepts recommendations by a team of U.N. experts, the U.N. Development Program said Thursday.

The team visited China recently for five weeks, working with the Chinese government and the U.N. Environment Program, to draw up measures that would reduce use of chlorofluocarbons and halon.

The two chemicals, used in refrigerators, air conditioners, foam plastics and fire-fighting, are the main culprits in harming the ozone layer that shields the earth from the sun's ultra-violet rays that cause cancer.

UNDP said China's domestic refrigerators use 14,200 tons of CFCs a year. The government has planned to manufacture 8.3 million new refrigerators for household use in 1990.

The three-man team, sponsored by UNDP, proposed steps that would reduce China's consumption of CFCs by 28,000 tons during a three-year period ending in1994, or a 40 percent-decrease from existing levels that would have prevailed if no action had been taken.

China has proposed to eliminate CFCs within 10 years at the cost of more than $1 billion.

A report by the team said China consumed a total of 46,000 tonnes of CFCs and halon in 1989, or about 4 percent of world consumption, of which 7,500 tons were imported. The report said if substitutes were not found for the two chemicals, China's needs for the two substances will grow by 12 percent in the next six years.

The proposed measures to reduce demands of CFCs and halon include using less harmful substitute gases, re-using of coolant gas from discarded refrigertors or simply reducing the amount of coolant gas in each refrigerator. The measures will cost about $10.2 million, including $8 million in technology transfer and retooling of contracts to provide CFC substitutes.

The published recommendations coincided with the 10-day meeting in London of the 59 signatories of the 1987 Montreal Protocol who were seeking to strengthen the international document through a clear strategy to halt global production of the two chemicals.

India and China, the world's two most populous nations, have refused to sign the protocol until there are adequate funds to compensate for the banning of the chemicals.

#90179u2206 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - Budget negotiators gave serious consideration Thursday to reducing Social Security benefits - one of the most sensitive issues in the budget - and Democrats proposed drastic cuts in defense spending.

The proposals were evidence of new movement in the budget talks between Congress and the White House, which had displayed few signs of progress since beginning in mid-May.

One negotiator, Rep. Silvio Conte, R-Mass., said there was discussion about a possible ''three month delay'' in annual Social Security cost of living adjustments.

But participants said no specific cuts - in Social Security, Medicare or any of the other formula-set federal entitlement programs under discussion - were approved by the bipartisan group of White House and congressional negotiators, who were spending their second day of discussions on entitlement savings.

''While no one has said no, no one has said yes, either,'' House Budget committee Chairman Leon Panetta, D-Calif., said of the discussion about Social Security reductions.

Panetta also said he was proposing, with the backing of most of the Democratic negotiators, a $16 billion cut in defense spending that would require ''a dramatic scale-back'' in the ''Star Wars'' missile defense system and other high-priced military hardware.

Panetta said in an interview the proposal calls for spending $10 billion less on defense next year than President Bush has requested for the fiscal 1991 budget. It would also propose a cut of $270 billion over five years.

The administration's most recent request called for a cut of $5.9 billion in defense spending below the amount needed to keep pace with inflation.

''If we're going to reach the deficit savings we've targeted, you've got to go higher on defense (savings),'' Panetta said.

Asked if he supported the Democratic defense proposal, Sen. Pete Domenici, R-N.M., a budget negotiator, said, ''Of course not.''

''I truly believe it is way too Draconian and could not be achieved,'' he said. ''They're way too high in the first year and way to high over five years.''

The negotiations between Bush's top budget aides and key members of Congress from both parties began May 15 in hopes of crafting a package that would slash the federal deficit, which is threatening to top $250

billion in fiscal 1991.

The Gramm-Rudman budget law requires the deficit to be $64 billion in 1991. If that figure is not reached, the law requires across-the-board reductions that would be too deep to be acceptable to Congress and Bush.

Despite agreement on all sides that drastic action was needed, the talks remained stalled until this week. Bush broke the impasse by reversing his longstanding opposition to a tax hike and acknowledging publicly that higher taxes would be needed to control the deficit.

Democratic negotiators, who wanted a sign from Bush that he was willing to make some politically difficult choices, were encouraged by the president's move. They demonstrated their own willingness to sacrifice political sacred cows by bringing up the possibility of cutting entitlements, an area Democrats generally are loathe to touch.

That prompted Sen. Robert Packwood, R-Ore., to cautiously predict that they could craft a package to control the mushrooming deficit that would win congressional approval despite some tough decisions.

''I think we're going to get a deal and I think it will be a deal that will pass the Congress,'' Packwood said. ''And I think the public, by and large, in the aggregate, will like it (but) there will be specifics they don't like.''

#90179u2273 06/28/1990 ~United Press International

SAN SALVADOR, EL SALVADOR (JUNE 28) UPI - Authorities were investigating the role of an American woman wounded in combat between rebels and troops, but a military source said Thursday it was unlikely she would be charged.

Rebecca Tarver, 34, of Washington D.C., told United Press International she was doing journalistic research when a battle broke out between the rebels she was with and government troops, although the army remains sceptical.

''As long as we have not defined the role she played at the site of the combat, she is under investigation,'' said armed forces spokesman Maj. Mauricio Chavez Caceres.

Chavez said Tarver was ''in custody'' while being investigated, but that she had not been arrested.

Chavez said an abandoned M-16 rifle and a backpack containing a letter Tarver had written to her family were found near the site where the combat occurred. He said the army was carrying out technical investigations, such

as checking blood found on the rifle against Tarver's blood type.

The firefight took place on a hillside near the town of Masahuat, 36 miles northwest of San Salvador. The 2nd Brigade, which has jursidiction in that area of Santa Ana province, reported that a soldier was also wounded in the confrontation.

A military source who asked not to be named said he doubted charges would be filed against Tarver. ''It's not as though they found her with a rifle in her hand,'' he said.

In an interview from her bed at the Policlinica hospital, where an armed guard from the Treasury Police stood at the door, Tarver described her version of events through gestures or by writing answers on a reporter's notebook.

A bullet had smashed her jaw and torn a large hole in the left side of her face, making speech impossible. Tarver had another bullet wound in her left shoulder and her right leg was heavily bandaged.

She said she was with guerrillas of the Farabundo Marti National Liberation Front, FMLN, when the shooting broke out.

''I didn't see the soldiers,'' Tarver wrote. ''The (rebels) were going to take me to a (high) place to see the whole area and I think they were ambushed. They helped me to get down from the mountain and asked civilians to contact the International Red Cross.''

''I was there waiting for two nights and one-and-a-half days,'' Tarver said.

Chavez said Tarver never registered with the Armed Forces Press Committee and was not known among the foreign press corps here.

Tarver wrote that she was ''doing background for longer-range projects'' such as a book. ''I was on individual freelance investigation. I was never armed.''

By the time Tarver arrived at Hospital Rosales on Tuesday afternoon her wounds had become infected and were infested with small worms. With the help of U.S. consolate officials she was transferred within hours from the public hospital to a private institution offering better quality care.

Tarver said doctors were treating the infection and that she hoped to be flown to the United States to undergo reconstructive plastic surgery for her face and jaw within several days.

In other developments Thursday in El Salvador's decade-old civil war,

assailants attacked the motorcade of El Salvador's Legislative Assembly president, military sources said.

No one was injured in the attack against Legislative Assembly President Ricardo Alvarenga Valdeviesa, but several bullets hit vehicles that were providing security for the politician as he drove home late Wednesday night.

Alvarenga Valdeviesa, a top figure in the ruling right-wing Nationalist Republican Alliance, blamed the attack on leftist FMLN rebels.

No group claimed responsibility for the attack, which came days after the government and rebels failed to reach agreement during talks in Mexico on reforms in the armed forces.

The Armed Forces Press Committee also said four rebels were killed in combat in three different provinces in the past 24 hours.

''Since yesterday, there has been an increase in violence in the capital as well as in the provinces,'' a press committee spokesman said. Large areas of the capital were left without electricity Wednesday night when urban guerrilla commandos blew up two light posts on the city's north side.

In a separate attack Thursday morning, gunmen riding in a van drove by and shot at two policemen on guard duty across the street from the headquarters of a socialist political party. Witnesses said the police were not injured, but an employee at a nearby maintenance shop was hit in the thigh.

#90179u2303 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - Mayor Marion Barry lit a pipe packed with crack cocaine and inhaled twice at a downtown hotel Jan. 18, then protested ''I didn't do anything'' as FBI agents burst into the room, according to a videotape of a government sting operation shown to the jury Thursday at Barry's trial.

A visibly stunned Barry, swarmed over by federal agents who burst through a side door, continually rambled about a ''setup'' as an officer tried to read him his rights, the videotape showed.

''That bitch ... she set me up. ... That goddamn bitch tricked me,'' Barry said, referring to Rasheeda Moore, his former lover who also appeared on the videotape. Moore has testified that she used cocaine with Barry more than 100 times in recent years.

Barry, 54, has pleaded innocent to 14 cocaine and perjury charges, and

says he was entrapped.

Moore testified that she lured Barry to room 727 of the Vista International Hotel after agreeing to cooperate with FBI agents and local police, who planned the sting of the three-term mayor.

The tape showed Moore buying the drugs from a woman she introduced to Barry as Wanda, actually an undercover FBI agent. Barry appeared to give Moore $20 to pay Wanda.

But part of the tape appeared to contradict testimony from Moore and others that Barry was an experienced drug user.

''How does this work?'' Barry asked Moore when she produced the crack pipe.

''What?'' Moore said.

Barry: ''I don't know how this works, how's this work. I never done it before.''

Moore: ''That's what we used to do all the time, what are you talking about?''

Barry: ''I'm new, we never done that before, give me a break.''

Moore, 39, repeatedly refused to use the crack, telling Barry she would do so after he was finished.

As she paced around the room, Barry lifted the pipe off a table and brought a lighter to it. With his head slightly raised he brought the pipe to his mouth and inhaled, holding his breath for about six seconds.

Moore asked if he was all right, but he remained silent, smoking a second time with the same slow motion.

''You don't want to take another one?'' Moore asked.

''No, you're crazy?'' Barry responded. ''Let's go downstairs.''

As he grabbed his coat and walked to the door, between six and eight FBI agents and police came crashing into the room from behind the camera.

''Police. FBI. FBI. You're under arrest,'' they yelled.

''Alright. No problem,'' Barry said.

''OK, Mr. Mayor? We'd like you to put your hands on the wall,'' an officer told him.

''That was a good setup, wasn't it?'' Barry said. ''I don't have anything. I didn't do anything. I shouldn't have come up here. I'll be damned. How'd I get tricked into this stuff?''

The mayor then asked, ''What am I arrested for?''

''You're arrested for violation of narcotics laws of the District of Columbia,'' an FBI agent responded.

''That was a setup,'' said Barry. ''That was a set-up, goddammit.''

As he was being questioned, Barry sat on the hotel bed fully clothed, dressed in a white shirt, tie and suspenders. Finally he was handcuffed, and hung his head.

An emergency medical technician was seen checking Barry's condition. Asked how he felt, Barry responded: ''Pissed off.''

He was also heard asking: ''You gonna tell the press about this?''

Moore, heard screaming on the videotape, testified Thursday that the sting was a ''frightening situation.''

''I didn't want the mayor to think I was part of the operation,'' she said. ''I wanted to release some of the pain for him.''

The complete tape showed Barry's activities during more than an hour between the time he entered Moore's hotel room and the time he was arrested.

Part of the tape showed Barry pouring a drink and lounging on the bed. Barry and Moore were lying on the bed and kissing at one point, but remained fully clothed.

Jurors also heard telephone conversations from earlier that day, when Moore called Barry at his District Building office and invited him to her hotel room.

Barry said he was reluctant to go to the room, but added: ''I want to make love to you.''

Moore is then heard saying, ''Oh, come on, please,'' laughing. ''Let's talk about that when I see you.''

#90179u2339 06/28/1990 ~United Press International

WASHINGTON (JUNE 29) UPI - Kay Jewelers Inc., the nation's second-largest jewelry retailer, Thursday announced an agreement with its banks which provides $80 million in revolving credit to finance working capital needs through January 31, 1991, secured by assets of the company.

In addition, Kay said it obtained the renewal of a $90 million letter of credit commitment supporting its credit card program with NCNB National Bank.

The company noted that as part of the agreement three principal shareholders, who also are members of the board, invested $5 million in the company in exchange for subordinated convertible debentures.

#90179u2342 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - The new trade pact with Japan is just a step toward reducing the huge American trade deficit with the Asian nation and not a victory for the United States, Commerce Secretary Robert Mosbacher said Thursday.

Private analysts warned that the agreement signed in Tokyo could well end up making the Japanese economy more competitive than it is now, rendering the U.S. trade deficit with Japan even more intractable.

After a year of negotiations under the so-called Structural Impediments Initiative, U.S. and Japanese negotiators concluded an agreement that commits both countries to dismantling structural barriers to trade that supposedly lie at the root of the $49 billion U.S. trade shortfall with Japan.

''It is no time to declare victory,'' Mosbacher cautioned. The pact is ''just a step forward and no more than that'' to reduce the U.S. trade deficit and willrequire follow-up work and further action from both sides, he said in an interview.

Sen. Lloyd Bentsen, D-Texas, said that the worth of the agreement can only be measured by ''hard trade results. In that sense, the jury is still out.''

Under the agreement, Japan promised to open up its economy to more foreign goods and investments, liberalize imports, facilitate the establishment of foreign department stores, loosen land-use policies and greatly expand investments in infrastructure to shift resources away from exports.

Mosbacher said the United States will work to bring down the budget deficit, build up savings, increase the profitability of enterprises and the quality of education, promote exports, deregulate business, boost

research and development and lower the cost of capital.

President Bush's willingness to increase taxes to cut the budget deficit, which would take away money from U.S. consumers, and Japan's stepped-up investment in infrastructure could result in a reduction of the U.S. trade deficit, said Marcus Noland, an analyst with the Washington-based Institute of International Economics, a private research organization.

While many measures promised by Washington are difficult to define and implement, Japan pledged to take very concrete steps to reform its economy he said.

Noland contended that over time the relative efficiency of the Japanese economy would improve more than the American economy, so that U.S. products would not become more competitive and the U.S. trade deficit could persist.

Mosbacher said the ''benefits of the trade pact will be even'' as Japanese consumers benefit from the removal of trade barriers and greater investment in infrastructure and U.S. companies are able to do more business in Japan.

Mosbacher said he expects U.S. retailers, such as Toys R Us, to gain advantages from the trade pact, which commits Japan to cut the time it takes a foreign company to get approval for establishing a department store.

U.S. exporters will benefit from a reduction in the time it takes the Japanese to approve the entry of imports into the Japanese market, he said.

Hawley Jeff, a spokesman for Boise, Idaho-based Morrison Knudsen Corp., a giant international construction and engineering company already doing business in Tokyo, voiced hope that the trade pact would allow other U.S. building and engineering companies to operate in Japan.

WASHINGTON (JUNE 28) UPI - The new trade pact with Japan is no victory for the United States and is only one step toward reducing the huge American trade deficit with the Asian nation, Commerce Secretary Robert Mosbacher said Thursday.

Private analysts warned that the agreement signed in Tokyo could well end up making the Japanese economy more competitive than it is now, rendering the U.S. trade deficit with Japan even more intractable.

After a year of negotiations under the so-called Structural Impediments Initiative, U.S. and Japanese negotiators concluded an agreement that commits both countries to dismantle structural barriers to trade that supposedly lie at the root of the U.S. $49 billion trade shortfall with Japan.

''It is no time to declare victory,'' Mosbacher cautioned. The pact is ''just a step forward, and no more than that,'' to reduce the U.S. trade red ink, and will require follow up work and further steps from both sides he told United Press International.

Sen. Lloyd Bentsen, D-Texas, said that the worth of the agreement can only be measured by ''hard trade results. In that sense, the jury is still out.''

Under the agreement, Japan promised to open up its economy to more foreign goods and investments, liberalize imports, facilitate the establishment of foreign department stores, liberalize land use policies and greatly expand investments in infrastructure to shift resources away from exports.

Mosbacher said the United States will work to bring down the budget deficit, build up savings, increase the profitability of enterprises and the quality of education, promote exports, deregulate business, boost research and development and bring down the cost of capital.

President Bush's willingness to increase taxes to cut the budget deficit,

which would take resources away from U.S. consumption, and Japan's greater investment in infrastructure could result in a reduction of the U.S. trade deficit, said Marcus Noland, an analyst with the Washington-based Institute of International Economics, a private research organization.

Yet, while many measures promised by Washington are difficult to define and implement, Japan pledged very concrete steps to reform its economy, he said.

Noland contended that, over time, the relative efficiency of the Japanese economy should improve more than the American, so that U.S. products would not become more competitive and the U.S. trade deficit could persist.

Mosbacher said that the ''benefits of the trade pact will be even'' as Japanese consumers benefit from the dismantling of trade barriers and greater investment in infrastructure and U.S. companies are able to do more business in Japan.

Mosbacher said he expects U.S. retailers to gain advantages from the trade pact, which commits Japan to cut the time it takes a foreign company to get approval for establishing a department store.

WASHINGTON (JUNE 28) UPI - Forensic experts have determined that human bones found aboard a Vietnamese refugee boat in Malaysia were those of Southeast Asians, not U.S. servicemen as the refugees claimed, the Pentagon said Thursday.

A boat carrying nine Vietnamese refugees who left their homeland May 30 was discovered June 11 on a beach at Kota Tinggi, in the southern state of Johor, Malaysia.

Aboard the boat were seven barrels of bones that the refugees claimed were the remains of up to 30 U.S. servicemen from the Vietnam War.

Malaysian officials said they believed the refugees had intended to hand over the remains to the U.S. Embassy in Singapore in the hope they could gain entry to the United States and also receive a monetary reward.

The 52-foot-long vessel had ''USA remains in my boat'' and ''This boat has USA army remains'' written across the sides, the officials said.

A U.S. forensic team from the Army's Central Identification Laboratory in Hawaii arrived in Malaysia last week to begin analyzing the bones.

''The remains were not found to be those of Americans. They were Southeast

Asian mongoloids,'' a Pentagon spokesman, Navy Lt. Cmdr. Edward Lundquist, said Thursday.

Lundquist earlier had said that it was not unusual for refugees to come out of Vietnam with fragmentary skeletal remains.

''Only once have any remains returned by a refugee proven to have been those of an American,'' he said. ''The others either have been animal remains or Southeast Asians.''

LUSAKA, ZAMBIA (JUNE 28) UPI - Police relaxed security in the capital Thursday after three days of anti-government rioting that left up to 30 people dead and posed the most serious challenge yet to President Kenneth Kaunda's 26 years of leadership.

Kaunda, whose decision to double the price of corn meal sparked the first clash between students and police Monday, said in messages on state-run radio, ''Under no circumstances will these criminals be tolerated. The forces of law and order will be tough.''

The president noted that his stringent economic policies were aimed at stabilizing Zambia's tottering economy.

Police detained up to 550 people during the three days of the crisis, and about 200 were injured in running battles or crossfire, but security forces indicated Thursday morning their crackdown had worked and scaled down patrols to normalize the city.

Daily newspapers reported 23 deaths but unofficial sources put the figure at up to 30, and hospitals said most of the 200 injured were treated for minor wounds.

Citizens trickled back to work through streets strewn with broken bottles, bricks and spent tear-gas canisters after intermittent curfews aimed at quelling the civil unrest, which spread across Lusaka and to other cities.

Kaunda has blamed ''enemies of Zambia for inciting people in many places, including the University of Zambia,'' and officials have called the turmoil the most serious threat to the president.

The violence flared when more than 2,000 students confronted riot squads Monday over the corn meal price hike and heavy-handed rule by the one-party state Kaunda has ruled since independence from Britain in 1964.

Sympathizers joined students in battling the police and the conflict spread to the north, where during Zambia's last major civil unrest, in 1986, police shot dead 15 people protesting food-price hikes.

Students accused the 66-year-old Kaunda of balking on introducing a multi-party democracy and breaking promises to feed all the people.

The latest corn price increase was in line with International Monetary Fund recommendations to cut food subsidies to ensure long-term economic stability.

Many of Zambia's 10 million citizens are suffering hardship as the copper-based economy struggles against decades of economic mismanagement and socialist experiments to introduce a free-market agriculture-based system.

Kaunda, who cut short a working holiday Tuesday to return to the capital, had left town Monday apparently to discuss economic remedies with advisers.

#90179u2492 06/28/1990 ~United Press International

KANSAS CITY, MO (JUNE 28) UPI - Trans World Airlines Inc. plans to cut service and sell some of its planes, and would consider further downsizing if employees do not agree to $150 million in concessions, a TWA executive said Thursday.

Chief Operating Officer J.W. Hoar said TWA intends to drop service to seven cities and sell at least eight aircraft in the next few months in an effort to preserve cash and cut costs. The company also was negotiating to sell slots and gates at an undisclosed number of airports, he said.

''We are hopeful we won't have to continue to downsize,'' said Hoar. ''We are hopeful the pilots will understand the need to put certain cost efficiencies in place, hopeful the machinists will do likewise, and hopeful the remainder of the employees understand we have to do that.''

The airline said it lost $143 million in first-quarter 1990, up from $83.1 million in the comparable period of 1989. Its operating loss during the quarter was $100.7 million, up from $30.9 million a year ago.

TWA, which has announced plans to cut service to Long Beach and Burbank, Calif., also would drop service this fall to Nassau and Freeport in the Bahamas and three other undetermined cities, Hoar said.

''We don't want to continue to operate routes that remain unprofitable,'' he said. ''We see a domestic system that has a lot of overcapacity and it forces us to examine our priorities.''

In a June 22 letter to TWA pilots, Hoar said the airline also would reduce its fall flight schedule 7 percent.

''We hope that we don't have to end up with people out of work,'' Hoar said Thursday. ''We don't want to put people out of work, but I can't promise that won't happen. I hope we can avoid it by either redeploying some of the people to whatever extent we have to, and reducing hours.''

The letter also said the airline would reduce its fleet by two 747s, one L-1011, and one B-727 by the end of June and at least four B-727s would be sold during next quarter.

Hoar said Thursday the airline was seeking employee concessions of about $150 million in the areas of work rules, employee benefits, increased productivity and general efficiencies.

TWA in recent months has been pressing its pilots' union for about $80 million in wage and benefits cuts, although the pilots' contract does not expire until 1992.

Pilots' union officials have refused, citing concessions made in 1985 and 1986.

Air Line Pilots Association leader Kent Scott in St. Louis said this week the pilots were being targeted for talk of concessions because ''we've given in before. We're a weak target.''

If employee concessions were available, Hoar said, TWA would proceed with plans to buy new Airbus Industrie A-320 aircraft.

The concessions also would lay the groundwork for growth at the airline, his letter said, including the possibility of a new hub in the Eastern United States, additional flights in transcontinental markets, and an expanded Paris hub.

TWA consistently has maintained it has a strong cash position, which Hoar reiterated in his letter to the pilots.

Asked why the company was not putting that cash back into the airline, Hoar said Thursday, ''We don't want to do that without employment agreements in place. Once we know the costs are in check and know we've got a good base on which to build, then we're perfectly willing to do what we've been describing in the letter.''

#90179u2540 06/28/1990 ~United Press International

NEW YORK (JUNE 28) UPI - American Telephone & Telegraph Co. filed documents Thursday with the Federal Communications Commission seeking to lower rates on a wide range of long-distance services and international toll-free number services.

The telecommunications giant, which Wednesday disclosed that its second-quarter earnings will be lower than earlier expected, estimated that the lower tariffs on interstate and international calls would save consumersabout $300 million.

AT&T attributed its low second-quarter earnings mainly to depressed sales of business systems and not to its long-distance operations.

But AT&T has been steadily losing market share in the long-distance business to competitors, mainly MCI Communications Corp., which often offer more competitive rates.

According to the FCC, AT&T's share of the long-distance market stood at 64 percent in 1989, down 2 percent from 1988.

AT&T initially planned to lower its long-distance tariffs by about $100 million. But a recent FCC ruling, which ordered local telephone companies to lower the rates they charge long-distance carriers for consumer access, allowed AT&T to triple the level of savings consumers will enjoy.

''The price cuts apply to AT&T basic long-distance service, operator-handled calls, calls from the United States to Canada and AT&T's optional calling plan, Reach Out America,'' the company said.

The lower long-distance rates will take effect July 1, marking the 11th time AT&T has lowered tariffs since the breakup of the Bell Systems in 1984.

The company also said it has filed documents with the FCC to cut in half rates on international toll-free calls.

AT&T, which introduced the 800-number service in the United States in 1967 now operates similar toll-free services from 51 countries.

''We are leaders in the market,'' said marketing manager Donna Gemme Brooten. ''We handle twice more 800-number calls than any of our competitors.''

Consumers place more than 400,000 toll-free calls a day to a wide number of businesses, mainly in the travel-related sector, she said.

''The toll-free business jumped from 7 million calls a year in 1967 to 7 billion in 1988,'' Brooten said. ''The lower international toll-free rates will give U.S. companies a greater opportunity to generate business abroad.''

These new rates, to go into effect Aug. 12, will lower the usage rates of 800 international numbers an average of $6 per hour.

AT&T will no longer charge installation fees for the service.

#90179u2556 06/28/1990 ~United Press International

WASHINGTON (JUNE 28) UPI - The Senate Foreign Relations Committee voted Thursday to impose trade sanctions against Iraq as a protest against its use of chemical weapons and its ''gross violations of internationally recognized human rights.''

The primary effect of the bill would be to cut off credit guarantees that Iraq uses to buy U.S. farm products, and the Bush administration has opposed the measure on the grounds that it would unduly harm American farmers.

The committee voted 12-4 for the bill, with negative votes cast by Sens. Rudy Boschwitz, R-Minn., Richard Lugar, R-Ind., Frank Murkowski, R-Alaska, and Terry Sanford, D-N.C.

In the 1990 fiscal year, the Commodity Credit Corp. and the Export-Import Bank provided Iraq with $700 million in credit guarantees, which protect lenders from a default.

Iraq is the largest market for American rice, buying 23 percent of total U.S. exports. It also purchases U.S. products including cattle, eggs, corn sugar, chicken, lumber and tobacco.

The sanctions would remain in effect until the president certifies Iraq is complying with international human rights agreements and with treaties banning the use of chemical weapons and the proliferation of nuclear weapons.

U.S. officials say Iraq has used chemical weapons against Iran and members of its Kurdish minority. Iraqi President Saddam Hussein recently threatened to ''scorch half of Israel'' with poison gas if it attacks his country.

British and U.S. officials earlier this year also foiled an attempt to send triggers for nuclear weapons to Iraq, and State Department officials have called Iraq's domestic human rights record ''abysmal.''

The legislation cites examples of ''gross violations of internationally recognized human rights'' including the use of poison gas, the torture of children and the destruction of more than 3,000 villages and towns in the Kurdish section of Iraq.

The bill was sponsored by Sens. Alfonse D'Amato, R-N.Y., Jesse Helms, R-N.C., Nancy Kassebaum, R-Kan., Daniel Moynihan, D-N.Y., and Claiborne Pell, D-R.I.

In an unrelated action last April, the Agriculture Department, which runs the Commodity Credit Corp., said it would withhold further credit guarantees to Iraq pending completion of an investigation into possible irregularities in past sales to that country.

The irregularities involved Iraqi state enterprises buying U.S. corn, rice and sugar at prices well above world rates during the mid-1980s and then seeking ''after-sale services,'' such as trucks, spare parts, cash rebates or free farm products, from U.S. exporters as part of a deal.

#90179u2609 06/28/1990 ~United Press International

PHILADELPHIA (JUNE 28) UPI - The cells that control hair growth may be in be located in a different part of the hair follicle than previously thought, a finding that could lead to new treatments for baldness, researchers said Friday.

''We now know that we have been looking in the wrong place, so to speak, when it comes to substances that control hair growth,'' said Dr. Robert Lavker of the University of Pennsylvania.

A study by Lavker and Dr. Tung-Tien Sun of the Kaplan Cancer Center of New York University found that hair growth did not appear to be controlled by

the lower bulb of the hair follicle, which extends from the root, as earlier research had indicated.

Instead, the two doctors believe that the bulge portion of the follicle - located between the bulb and the outer scalp - contains the cells that control and stimulate hair growth. Their findings were published in the June 29 edition of the journal Cell.

''The area that controls hair growth is not where it was believed to be, and (now) we have a much better opportunity to look at potential drugs that may control hair growth,'' Lavker said.

Researchers have not yet been able to design a drug to specifically stimulate hair growth. The only prescription drug for hair loss, Rogaine, is a blood pressure medication whose hair growth benefits were discovered accidentally.

''I think researchers are going to be in a position to re-evaluate a lot of preconceived notions on how the hair grows, and what kind of chemicals you might want to direct to the hair, and at what sites to direct them,'' Lavker said.

The research, Lavker said, may also enable researchers to grow hair in the laboratory and transplant those cells onto patients. Such a process is now used to treat some burn patients.

Another aspect of the research could provide a key for understanding the development of some skin cancers, Lavker said.

''What we are finding is because these cells are located where they are, they very well may have something to do with cancers in the skin,'' Lavker said.

Researchers who chemically induce tumors in mice have previously found that more tumors result when the hair of the animals is in a resting phase.

''What it really implies is that a lot of skin tumors they were studying were really associated with the hair,'' Lavker said.

#90179u2641 06/28/1990 ~United Press International

LOS ANGELES (JUNE 28) UPI - Prosecutors presented their final rebuttal witnesses Thursday in the McMartin Pre-School molestation retrial, including an investigator who said he saw defendant Raymond Buckey once stare at a group of children for hours.

Bernard Guidas, an investigator for the District Attorney's Office, said

he made the observation while keeping Buckey under surveillance on Feb. 15 1984.

Guidas testified that he watched the former pre-school teacher sitting in a grassy area across from a day-care center on the campus of Orange Coast College in Costa Mesa and stare at a group of children for about three hours.

After the testimony of Guidas and another witness, the prosecution rested its rebuttal case, bringing to a close all testimony in Buckey's retrial.

Closing arguments in the retrial, which is approaching its third month, will be given Monday and Tuesday. The jury will be instructed on July 9 by Superior Court Judge Stanley Weisberg and will then begin its deliberations.

Buckey, 32, is being retried on eight molestation counts alleging that he sexually abused three girls at the now-defunct Virginia McMartin Pre-School in Manhattan Beach from 1978 until 1983.

The sole defendant remaining in the once-massive case, Buckey has steadfastly proclaimed his innocence.

Buckey and his mother were acquitted in January of 52 other molestation counts at the first trial in the case. Jurors deadlocked on the eight counts on which Buckey is being retried.

The first trial, which involved the alleged molestations of 11 children, lasted nearly three years and cost more than $13 million, making it the longest, costliest criminal trial in U.S. history.

When first filed in 1984, the case was the largest sex abuse case in U.S. history. However, the five co-defendants and scores of charges were dismissed before the first trial for insufficient evidence.

#90179u2689 06/28/1990 ~United Press International

INDIANAPOLIS (JUNE 28) UPI - The former chief executive officer of Circle Express Inc. was sentenced Thursday to three years in prison for misreporting the company's earnings to the Securities and Exchange Commission, U.S. attorneys said.

Arthur L. Belford of Indianapolis pleaded guilty to one count in the wake of an FBI investigation of Circle Express, a trucking company based in Indianapolis.

The company was accused of seriously misrepresenting its financial

condition to the SEC and shareholders. Circle Express originally reported that it earned $1.5 million in 1987, but ultimately disclosed it made just $326,000 that year.

Circle Express also revised its earnings statement for the first quarter of 1988, revealing it lost more than $5 million for the period. Most recently, the company said it lost $11.8 million in 1989.

Prosecutors said the false statements made to the SEC were the result, in part, of manipulations of insurance reserves. Belford is also accused of misappropriating a ''substantial amount'' of corporate funds through misuse of credit and using company airplanes and condominiums for personal use.

As part of the plea, Belford will surrender all stock he holds in Circle Express. Judge S. Hugh Dillin also fined him $250,000.

#90179u2758 06/28/1990 ~United Press International

LOS ANGELES (JUNE 29) UPI - Engineering-construction giants Fluor Corp. and Parsons Corp. said Thursday they have been awarded contracts for Saudi Arabia's massive project to overhaul its oil and gas production facilities.

The contracts were awarded through the Arabian American Oil Co., the state-owned Saudi Arabian oil and gas company known as Aramco.

Analyst Herbert Hart of S.G. Warburg said the value of the work probably is about $15 billion and Fluor's share would be worth about $6 billion. But Hart said that much of that work could go to subcontractors.

''So it's difficult to say what the effect on their backlog will be,'' Hart said. Fluor's backlog as of April 30 was more than $9 billion.

Both companies stressed that they could not give an exact value on the contracts, which are expected to take place during the next decade. Both companies have had a long-standing presence in the region.

Fluor of Irvine, Calif., said its Fluor Daniel unit will act as overall program manager in the nation's northern region. The work will include gas plants, pipelines, production facilities and offshore platforms.

Fluor issued a brief statement Thursday saying reports on the potential value of the contract could be misleading. ''It's premature to speculate on its ultimate value to Fluor and its shareholders,'' said Les McCraw, chief executive officer.

Parsons of Pasadena, Calif., said its Ralph M. Parsons unit will act as

overall program manager for the southern region.

The manager for the central region has not yet been disclosed.

#90179u2775 06/28/1990 ~United Press International
(JUNE 28) UPI - Secretary of State Baker predicts the seven nations attending next month's economic summit in Houston will have difficulty agreeing on the issue of aid to the Soviet Union. Baker says the United States stands with Great Britain in wanting to exercise caution... while France and West Germany are pushing for a 15-BILLION-dollar aid package. His comments were made today at a White House news conference.

Scientists at Cape Canaveral, Florida, say the problems affecting the Hubble Space Telescope can be corrected by making relatively minor changes to new cameras already under construction. The Hubble's flawed optics have rendered it unable to focus starlight. Officials refuse to speculate on how one of the telescope's two light-gathering mirrors ended up ground into the wrong shape.

In New York City today, a school teacher testified at a State Supreme Court trial of three youths accused in a series of Central Park assaults that he was attacked the same night a female jogger was gang raped, beaten and left for dead. John Loughlin says in April 1989 he was accosted by the same group of thugs... who called him a ''vigilante'' before he was knocked down and beaten. The youths... all juveniles at the time of the so-called ''wilding'' attacks... have confessed to both attacks.

Secretary of State Baker says it's UNclear whether Israeli Prime Minister Yitzhak Shamir is flatly rejecting Washington's forumla for peace talks. Israel Radio reports that in a letter to President Bush, Shamir rejects negotiations with Palestinian deportees and East Jerusalem Arabs... and says Jewish settlements in occupied territories are NOT an obstacle to peace. Baker says Shamir's letter is ''NOT definitive.''

-30- 1897
#90179u2891 06/28/1990 ~United Press International
WASHINGTON (JUNE 28) UPI - The Senate, breaking a lengthy stalemate, started putting the final touches on a major anti-crime package Thursday and promptly voted for a second time to ban assault weapons.

The Senate voted 50-48 for the ban on the military-style weapons, a favorite of criminal and drug dealers, in a final defeat for the administration and the National Rifle Association, which now will have try to kill the prohibition in the House.

The Senate also approved 87-12 an amendment that provides mandatory prison sentences, life imprisonment or death in case of murder, when a firearm is used in a violent or drug-related crime. The proposal also calls for mandatory sentences for dealers who sell drugs to children.

The Senate, working into the night, hoped to pass the bill before leaving for the July 4 recess and in quick order began disposing of remaining amendments, most of them by voice vote.

Before putting the bill aside early this month, the Senate had incorporated major provisons of the bill: expansion of the death penalty to 30 crimes; a speedier process in federal courts for death row inmates; and a prohibition on the manufacture or importation of nine military-style assault weapons.

Many of the amendments approved Thursday night increased and made mandatory prison sentences for a variety of crimes: kidnapping a child; possession of the new drug of choice ''ice;'' sex with a child under 12; child pornography; and ''buying and selling'' of children.''

The amendments would outlaw possession and viewing of child pornography; give new protections for victims of child abuse; provide treatments for juvenile delinquents who suffered child abuse. The measures also would expand the program under which prisons use tents to house convicts and would deny inmates frills such as color television and pool tables.

An agreement worked out by Democratic and Republican leaders, which almost collapsed, assured a final vote on the anti-crime bill which was once seen as hopelessly deadlocked by Republican refusal to cut short debate.

The Senate approved the agreement after Sen. Phil Gramm, R-Texas, withdrew earlier objections that threatened to end any chance of the Senate passing an anti-crime bill in this session.

As soon as the agreement was approved, Gramm offered an amendment to kill the assault weapon bill and substitute mandatory sentences for the use of firearms in a violent or drug-related crime.

But Democrats immediately moved to attach the once-passed ban as a rider to the Gramm amendment, forcing another showdown on prohibition against the military-style assault weapons. The strategy forced the first critical vote on the ban.

''Instead of having to choose between those God-awful weapons and controlling crime, let's have both,'' said Sen. Joseph Biden, D-Del., chairman of the Senate Judiciary Committee.

But Gramm argued that the ban would have no real effect, saying ''those

who are going to violate the law are going to violate the gun control law. It is no real impediment to people shooting guns to kill people.''

Gramm said that the first time the Senate voted there was no alternative to the ban. But this time, he said, senators ''have an alternative to gun control and that is criminal control.''

The Texas conservative, complaining that the agreement worked against him, said he could not accept it unless his proposal was the final action, giving him time to round up votes after the recess, and Vice President Dan Quayle was present to cast a tie-breaking vote.

Gramm said it was ''essential'' that his amendment come last and that it was ''critical'' that Quayle be present.

''The vice president is here today,'' Mitchell said after checking and urged Gramm to make his the lead-off amendment. Gramm refused.

Biden said Gramm's demands were ''preposterous'' and added that the Texas Republican's complaints were ''absolutely bizarre.''

''If he doesn't want a crime bill, fine,'' Biden said. ''We had a deal and you broke the deal and it's your right to do it.

''I suggest we go home because these guys (Republicans) don't want a crime bill,'' Biden said.

Assistant Senate Republican leader Alan Simpson rejected Biden's argument that Republicans twice voted against debate-limiting cloture because they wanted to kill the bill.

''Nobody wants to kill the bill,'' Simpson said. ''Who wants to leave here without a crime bill in an election year. That's bizarre.''

Sen. Mark Hatfield, R-Ore., an opponent of the death penalty, reluctantly agreed to go along with the agreement although one amendment would allow the execution of drug kingpins, even if no homicide occured.

Hatfield said he would accept the agreement because ''there's much in the bill I do support,'' adding he would press his amendment to substitute mandatory life imprisonment for the death penalty.

(JUNE 29) UPI -- THURSDAY'S SPORTS TRANSACTIONS

Baseball

Boston - Activated first baseman Billy Jo Robidoux off disabled list, placed first baseman-outfielder Danny Heep on 15-day disabled list and moved pitcher John Dopson from 15-day to 21-day disabled list.

New York (AL) - Optioned outfielder Deion Sanders to Columbus of the International League (AAA); acquired the contract of first baseman-outfielder Kevin Maas.

Texas - Catcher Dave Engle retired from Oklahoma City of the American Association (AAA); promoted pitchers Felipe Castillo and Terry Mathews from Tulsa of the Texas League (AA) to Oklahoma City.

Basketball

LA Clippers - Named John Hammond and Alvin Gentry assistant coaches and Keith Jones trainer.

College

Brown - Named David Roach athletic director.

Northridge State (Cal) - Named Barry Smith sports information director.

St. Louis - Named Deborah Yow athletic director.

San Diego State - Jim Cerveny, director of track and field, resigned; named Gary Stathas men's track coach, Rahn Sheffield, women's track coach, Jim Spellers men's and women's assistant track coach.

Football

San Diego - Agreed to contract terms with linebacker Jeff Mills.

Hockey

Hartford - Announced Springfield, Mass., as AHL affiliate.

NY Islanders - Announced relocation of AHL franchise from Springfield, Mass., to Troy, N.Y.

NY Rangers - Traded ring wing Chris Nilan to Boston for right wing Greg Johnston and future considerations; traded Johnston to Toronto for goaltender Mark LaForest and right wing Tahir Domi.

Philadelphia - Extended contract of coach Paul Holmgren through 1991-92 season.

Soccer

Kansas City (MISL) - President Ed Cleavenger resigned; named Kirk Schnurbusch executive VP of Sales and Marketing, David Clements executive VP and general manager and Steve Lyman VP of finance.

#90179u2926 06/28/1990 ~United Press International

DETROIT (JUNE 28) UPI - Near the end of a physically demanding eight-city tour of the United States, Nelson Mandela arrived in Detroit late Thursday and hailed its people ''as comrades in arms.''

Mandela was more than two hours late and apologized for cutting short his schedule.

''I would like to say more and spend more time with my sisters and brothers here, with people I regard as our comrades in arms, with our flesh and blood, people who have given enormous strength and encouragement '' Mandela told an arrival crowd after landing about 4:15 p.m. at Detroit Metropolitan Airport.

Earlier, a spokesman for the African National Congress said the vigorous schedule and the attentions of the crowd had been taxing to the 71-year-old leader's health. ''It is the kind of adoration that interfers with his schedule,'' Zwelakhe Sisulu said. ''It is the kind of adoration that is taxing on his health.''

Unlike Miami where he did not receive an official welcome, Mandela was greeted in Detroit by Mayor Coleman A. Young, Michigan Gov. James J. Blanchard and his wife, Janet, civil rights pioneer Rosa Parks and United Auto Workers union President Owen Bieber.

''I am very happy to touch down in the industrial heartland of the United States,'' said Mandela, who will stay in Detroit until Friday morning before leaving for Los Angeles.

Later, Mandela told a wildly cheering crowd of several hundred autoworkers at the Ford Motor Co.'s Rouge plant in the Detroit suburb Dearborn that they are the ones who can help insure that America's foreign policy promotes peace and the welfare of all nations in the world.

He spoke for only 6 minutes in an appearance that had to be shortened because of scheduling problems, but the workers - many who had waited more than 3 hours to hear him - did not appear to mind.

Tim Dunmore of Detroit, who has worked 18 years at the Rouge complex, called it an experience which will ''last me a lifetime.''

Mandela was introduced by Bieber, who presented the black leader and his wife, Winnie, with lifetime memberships in the UAW and union caps and jackets, which the two quickly donned.

''I am your flesh and your blood. I am your comrade,'' Mandela declared.

He told the workers that they and their colleagues in factories across the country are responsible for America's strength and greatness.

''It is you who will ensure that the foreign policy of this country is one that is designed to reduce international tensions and promote peace,'' Mandela said.

Noting that he had just come from addresssing an AFL-CIO conference in Miami, Mandela said he and his wife will return to South Africa ''knowing we have behind us the full support of the working people this country.''

Most of those attending the rally inside the giant Ford plant were wearing Mandela buttons and T-shirts, and many were brandishing posters commemorating the event. Mandela was met by a forest of clenched fists when he and his wife entered the factory.

Former UAW President Douglas Fraser said there was a ''special nostalgia'' in Mandela visiting the Rouge plant, where he said union members were once treated with brutality.

''It's a certain kind of kinship,'' Fraser said. ''It's a revolution, a fight for dignity and democracy. He's fighting for much more.''

#90179u2993 06/28/1990 ~United Press International

(JUNE 28) UPI - Democrats on Capitol Hill are proposing deeper cuts in U-S defense spending... including a 16-BILLION-dollar cut that would require a major scaling-back of the so-called ''Star Wars'' missile defense system. The proposal, sponsored by House Budget Committee Chairman Leon Panetta of California... calls for spending 10-BILLION dollars less than President Bush has requested next year and a further cut of 270-BILLION dollars over the next five years.

Colombian authorities say a bomb blast in the cocaine capital of Medellin today claimed the lives 11 people and injured at least 30 others. Officials say the explosion was apparently caused by a car packed with dynamite. Authorities also report nine police officers were shot and killed and a second huge car bomb was detonated in the city... 160 miles northwest of Bogota.

Nelson Mandela arrived in Detroit this afternoon... the latest stop on his tour of the United States to raise money and support for his African National Congress. Mandela will stay in Detroit through tomorrow. He spent the morning in Miami Beach, Florida, where he addressed government workers at a jubliant rally. Mandela told the crowd black South Africans dream of having a united, democratic, NON-racist country.

Jury deliberations began in New York City today with a warning from the judge in the three-month-old racketeering trial of former Philippine first lady Imelda Marcos and Saudi businessman Adnan Khashoggi . Judge John Keenan told the jurors NOT to let ''bias or sympathy'' intrude on their verdict. The panel deliberated for about 90-minutes before recessing until tomorrow morning.

(JUNE 29) UPI - SPORTS DIGEST

Basketball

Two more Soviet Union players have agreed to play in the World Basketball League. Tiit Sokk, a starter on the Soviet Union's 1988 gold medal-winning Olympic team, and Aiver Kuusmaa, a shooting guard, became the third and fourth Soviet players to join the WBL. They will make their debut in Youngstown Pride uniforms on June 30 against the Memphis Rockers. Less than two weeks ago, two members of the Latvian team, Igors Miglinieks, also a member of the 1988 Soviet Olympic squad, and Karlys Mujznieks joined the Erie Wave.

College

The Big East Conference All-Stars dropped the final two games of their Soviet tour this week. Both losses came at the hands of the Soviet National team in the Kiev Palace of Sports. The two games mark the first appearance by a U.S. team in Kiev since the 1979 Intercontinental Cup. The Big East finished its tour of Finland and the Soviet Union with a 2-4 record.

Cycling

ABC television will provide coverage of the 2,112-mile, 23-day Tour de France for the second straight year beginning June 20 through July 22. Greg LeMond, last year's winner, will defend his title against once again compete as will runner-up Laurent Fignon who LeMond defeated by only eight seconds. ABC will present daily reports and extensive weekend coverage.

Football

The Topps Company, which has marketed football player cards, filed a lawsuit against the National Football League and National Football League Properties, Inc. In a press release, Topps said it brought the suit in response to threats by the NFL and NFL Properties that they would attempt to block Topps from publishing the cards, which it has been marketing since the 1950s.

Hockey

The Hartford Whalers have lined up the Springfield, Mass., Indians of the American Hockey League as their new minor league affiliate. The arrangement is contingent on contract negotiations between the team and Centre Management, which manages the Springfield Civic Center where the Indians play their home games.

Horse racing

The $250,000 Statue of Liberty Trot scheduled for July 21 at the Meadowlands has been cancelled due to difficulties in securing commitments from the world's top trotters prompted the cancellation. ... The Lamplighter Handicap for three-year-olds at Monmouth Park on Saturday, June 30 has attracted a field of ten, including Spend A Buck Stakes winner Ross's Warning and stablemate Dawn Quixote.

Marathon

Grete Waitz, nine-time winner of the New York City Marathon, announced she will seek a record 10th victory at the 21st running of the event in November. ... One hundred super-endurance athletes from over six countries will travel to Moscow on July 1st for a 10-day, 10-city, 10-marathon race - the Golden Circle Supermarathon. The 262-mile race will be the first event of its type to be held in the U.S.S.R. Fifteen entrants will make up the North American Team who will travel to Moscow for the event.

Media

Mike Gottfried, former head coach at the University of Pittsburgh, signed with ESPN as college football analyst this fall. Gottfried, 45, who hosted the ''Mike Gottfried Show'' when he coached the Panthers, previously worked with ESPN for their New Year's Day coverage of the 1989 Fiesta Bowl.

Soccer

In an effort to raise awaremness of soccer in the U.S. in the years leading up to the 1994 World Cup, SportsChannel America and Aegis Group plc., a London-based worldwide communications company, have formed Soccer USA Partners. As part of the venture, SportsChannel America has committed

to broadcasting 300 hours of soccer programming over the next four years.

#90179u3182 06/28/1990 ~United Press International

(JUNE 28) UPI - Southern California wildfires destroy 400 homes... heat wave roasts the West... government releases drug-sting videotape of Washington's Mayor Barry... and the Senate votes to ban semi-automatic assault weapons. U-P-I has the top stories and more, next:

There are NO signs that the worst of several wildfires ravaging Southern California will ease up any time soon.

The arson-sparked blaze in the Painted Cave area... about 12 miles northwest of Santa Barbara... has already consumed some 400 homes and officials say the damage could easily exceed 30-Million dollars.

California Governor George Deukmejian declared a state of emergency and offered a 50-thousand-dollar reward today for the arrest of the suspected arsonist.

Dozens of people have been injured... though NONE seriously... by the huge blaze that's scorched 35-hundred acres and forced major highways to close.

A pilot flying one of two helicopters being used to fight the flames suffered a broken leg when his chopper crashed today.

Authorities describe the Santa Barbara blaze as one of the most devastating they've ever seen. They say pockets of the conflagration may explode as gusty, hot ''Sundowner'' winds and blazing temperatures fan the flames.

Pentagon officials in Washington say four C-130 military planes equipped with sepcial fire-fighting gear are being dispatched to help extinguish the blaze.

A videotape of Marion Barry shown today at the Washington, D-C, mayor's cocaine and perjury trial further damaged his claims that he has done NOTHING wrong.

The grainy black and white video showed Barry smoking crack cocaine in a downtown Washington hotel January 18th... just before authorities burst in and placed him under arrest.

While the tape confirmed witness Rasheeda Moore's testimony that Barry smoked crack with her... part of it seemed to contradict her claims that the mayor was an experienced drug user.

Barry was seen asking Moore how to use the pipe she produced for him to smoke cocaine. He said he had NEVER done it before.

Jurors today also heard taped telephone conversations in which Moore lured Barry to the hotel room in the F-B-I sting. On the tape, Barry was reluctant to go and he insists he was entrapped.

The judge in the case today refused to allow Barry supporter, Moslem minister Louis Farrakhan, to enter the courtroom on one of four defense passes. The judge said the Nation of Islam leader's presence would be- in his words- ''disruptive and very likely intimidating.''

#90179u3238 06/28/1990 ~United Press International
(JUNE 28) UPI - A major anti-crime bill is once again alive in the Senate... which also today reaffirmed its decision to say ''NO'' to the manufacture and importation of semi-automatic assault weapons.

A Senate stalemate blocking work on anti-crime legislation was removed when Texas Republican Phil Gramm withdrew earlier objections that threatened any chance of the measure passing this session.

Democrats and Republicans then reached an agreement that assures a final vote on the issue when Congress comes back from its July recess. The deal limits the number of amendments and the time for each and sets a July 11th vote date.

The lawmakers then immediately voted 50-48 in favor of a ban on the military-style assault weapons. It was the second and final defeat on the issue for the Bush administration and the National Rifle Association lobby.

The Senate also voted 87-12 to approve an amendment that provides mandatory prison sentences... life imprisonment or death in case of murder... when a firearm is used in a violent or drug-related crime.

South African black leader Nelson Mandela received a hero's welcome today in Miami Beach... the only American city thus far where his popularity is considered weak.

Mandela, who came to Miami to thank labor leaders for their support during what he called the anti-apartheid movement's time of ''greatest pain and anguish''... was greeted by thousands of mostly black supporters, beating drums and chanting ''Keep the pressure on.''

Only a couple hundred Mandela opponents... who oppose his refusal to denounce allegiance to Cuban President Fidel Castro... stood vigil outside of the Miami Beach Convention Center where Mandela spoke.

An estimated 65-hundred people were present for the speech... which Mandela attended with his wife, Winnie.

Mandela said the American Federation of State, County and Municipal Employees union knew anti-apartheid activists when very few thought of them as human beings. He also thanked the group for its longtime financial and emotional support and asked that it continue.

Local black leaders had urged blacks to show up at the convention center, to make up for the snub by city officials... who refused to issue an official proclamation welcoming him because of his ties to Castro.

Mandela is in Detroit tonight... where he'll remain until Friday.

#90179u3252 06/28/1990 ~United Press International

BEAVERTON, Ore. (JUNE 29) UPI - Just four years ago, many stock brokers were advising their clients to avoid stock in Nike, the athletic shoe company. It was hovering just above $10 a share and some thought the company was doomed.

But the people who bought the company's stock even a year ago now look like geniuses.

On Thursday, Nike's stock shot up $4.25 per share to $77.50. Just a year ago, the stock was selling at $43.50.

Bruce Studer, vice president of investments for Shearson Lehman Hutton, attributes the jump to an announcement Thursday of higher-than-expected earnings for the fourth quarter of fiscal 1990.

Nike Chairman Philip Knight said Thursday the athletic apparel company expects to post fourth-quarter earnings of $1.70 to $1.75 a share, 15 to 20 cents higher than current Wall Street estimates.

Knight also said the company expects earnings for the fiscal year ended May 31 to be $6.35 to $6.40 a share, compared to Wall Street estimates of $6.15 to $6.25.

''The only problem Nike has is filling the demand they've created,'' Studer said.

He noted that Nike is the fastest growing athletic apparel company in the world and they have the largest market share among those companies.

Studer also complimented the company's advertising which features Bo Jackson, Michael Jordan, David Robinson, Wayne Gretzky and John McEnroe among others. Most Americans are well-aware that Bo knows football and baseball. Now they know that Nike knows shoes and how to market them.

Nike also knows many of the subtleties of marketing. During the recent NBA Finals between the Portland Trail Blazers and the Detroit Pistons, Nike gave all the nearly 600 reporters covering the series a pass to the Nike employee store in Beaverton where they could buy up to $200 worth of merchandise at heavily discounted prices. The company provided daily shuttle buses from downtown hotels.

Consequently, writers were seen running all around Portland, fashioning the Nike swoosh on shoes, wind breakers and other apparel.

''They've got a lot better management now,'' Studer said. ''And they have better planning, and better R & D.''

''Then you couple that with high quality shoes and they've got everything all at once,'' he said. ''Usually you'll find someone with one or the other but not both. Some have good marketing, but they don't have good shoes. Nike has both.''

''As long as they hit on all cylinders they're going to continue to go forward.''

Nike stock hit an all-time high of $83 per share in May and then dipped a bit. But Studer thinks Nike's stock will hit $90 and then split. He then predicts the price will go up again.

Last year, Nike reported fourth-quarter earnings of 97 cents a share and full-year earnings of $4.45 a share. The 1990 earnings announcement is set for July 9 during a meeting with analysts and reporters in New York City.

-30- 3096

#90179u3280 06/28/1990 ~United Press International

(JUNE 28) UPI - Budget negotiators in Washington are seriously considering a plan to reduce Social Security benefits with a possible three-month delay in annual cost of living adjustments.

Democrats, however, have proposed their own way to cut the federal budget deficit... by chopping defense spending.

The proposals are evidence of new movement in the long-stalled budget talks between Congress and the White House... talks which have shown little signs of progress since mid-May.

The Democratic proposal... introduced by House Budget Committee Chairman Leon Panetta... calls for 16-BILLION dollars in defense cuts next year that would dramatically scale back the ''Star Wars'' missile defense initiative.

The plan... called ''way too Draconian'' by Republican negotiator Senator Pete Domenici... would earmark 10-BILLION less on defense next year than President Bush wants to spend.

The plan's sponsors also say the plan would provide the Pentagon with a 270-BILLION-dollar savings by 1995.

In related news, the Pentagon announced a plan of its own today... to cut back on high-ranking military personnel over the next four years.

Defense Secretary Richard Cheney says 78 generals and admirals should be cut from the ranks... starting with 20 by the end of next year.

The Army also proposed a budget cut... telling Congress it should reduce by nearly eight-thousand the number of civilian employees at military installations in 24 states.

#90179u3311 06/28/1990 ~United Press International
(JUNE 28) UPI - The problems with the Hubble Space Telescope are a major setback... but they're NO disaster.

That was the assessment of scientists today at a Cape Canaveral news conference to address the serious flaws that have rendered the telescope's 40-Million-dollar Wide Field Planetary Camera virtually useless.

Scientists say the optics problem... caused by an improperly grounded mirror... can easily be corrected by making relatively minor changes to new cameras already under construction.

But the Hubble's problems woN'T be solved for at least two to three years when a space shuttle repair mission is scheduled to install the new devices.

Chief Hubble project scientist James Westphal says NO one ever dreamed of problems with the supposedly near-perfect mirrors.

And officials refused to speculate on how one of the light-gathering mirrors was ground into the wrong shape.

But they say they're confident the device will eventually accomplish nearly 100 percent of NASA's scientific goals over its planned 15-year lifetime once the new insturments are installed.

A nationwide consumer watchdog group says at least one percent of all U-S doctors has been disciplined by state or federal officials for ''questionable'' behavior in the past decade.

The report, issued today in Washington by the group Public Citizen, lists the names and offenses of more than six-thousand physicians and more than 800 chiropractors, podiatrists and dentists.

Most of the questionable behavior listed... such as incompetence, MISprescribing drugs or sexually abusing patients... concerns disclipinary action or sanctions handed down over the past two or three years.

The group, which is usually a thorn in the side of federal regulators, is drawing praise from Michael Magano... deputy inspector general for the Department of Health and Human Services.

Magano says the report is beneficial to consumers who may want to know about individual doctors... and says his office will be using the data to crack down on Medicare and Medicaid fraud.

But an American Medical Association attorney says he wants to assure

patients they have LITTLE reason to worry... and that they should feel confident the vast majority of doctors are- in his words - ''practicing good medicine.''

-30- 2485

#90179u3359 06/28/1990 ~United Press International

(JUNE 28) UPI - It's there in black and white for everyone to see- Washington, D-C, Mayor Marion Barry smoking crack in a downtown hotel last January. T-V news programs are showing it, and the jury saw it today as the prosecution in Barry's drug and perjury trial presented the videotape from last January's F-B-I sting.

The United States and Japan have agreed on a set of economic reforms that- in the words of a U-S negotiator- will ''enhance the quality of life in both'' countries. Japan promised to open its markets to foreign goods.

Governor George Deukmejian surveyed fire-scarred southern California from a helicopter today. He announced a state of emergency and made Los Angeles County residents eligible for aid by declaring a disaster area.

Nelson Mandela is spending the night in Detroit, approaching the end of his rigorous eight-city U-S trip. He was welcomed to the city today by a group that included U-S civil rights pioneer Rosa Parks. He leaves for Los Angeles in the morning.

Poland's Lech Walesa was the keynote speaker today in Vienna at an international conference on eastern Europe. He said ''new power monopolies'' and international debt are threatening to stifle the democracy movement in the region.

Back in Poland, more than 700 farmers remain in control of the Agriculture Ministry in Warsaw after occupying the building last night. They're demanding the government increase prices for farm goods.

-30- 1611

#90179u3376 06/28/1990 ~United Press International

(JUNE 28) UPI - The capital of the West African nation of Liberia was reported quiet but tense today after the army quashed anti-government demonstrations last night. Most banks, offices and shops in Monrovia were closed.

Latin American leaders today hailed Bush administration pledges to give the region an economic shot in the arm by creating a hemisphere-wide free-trade zone. But critics call the U-S plans ''vague.''

NASA had to delay a fuel-loading test for the shuttle Atlantis today when

the weather turned threatening. The test is to ensure that Atlantis does NOT have the same fuel line problems that grounded Columbia last month. It's now set fortomorrow.

If President Bush wants to go to Mars, he may have to use his own money. The House today trimmed the 309-Million-dollar budget for preliminary work on the Mars mission from an appropriations bill.

Congress received its annual deficit ultimatum today. Treasury Secretary Brady said the government will go broke in August unless Congress raises the more than three-TRILLION-dollar debt limit.

Prosecutors in St. Charles, Missouri, are trying to sort out the takings from a weekend raid on the country estate of rock n' roll great Chuck Berry. Confidential informants allegedly told investigators where to find cocaine, but NONE was found.

Authorities allegedly did find hashish, marijuana, weapons and more than 122-thousand dollar in cash. Berry is denying all charges of drug use.

-30- 1635

#90179u3503 06/28/1990 ~United Press International

(JUNE 28) UPI - About 500 buildings have been destroyed by wildfires in southern California, with mounting damage estimates now set at 190-Million dollars. Governor George Deukmejian has declared a disaster area in Los Angeles County, issuing a 50-thousand-dollar reward for the arsonist who set the original blaze last night in Santa Barbara.

Commerce Secretary Robert Mosbacher is less than ecstatic about a new trade agreement reached today between U-S and Japanese negotiators in Tokyo. Mosbacher says the deal is NO victory for the United States and is only one step toward reducing the huge trade deficit with Japan. Private analysts say the agreement could make Japan even more competitive than it is now... only widening the trade deficit.

The Bush administration is just saying ''NO'' to one version of expanded drug treatment. The administration today rejected as ineffective a plan for the country to provide treatment on demand to all addicts. The Office of National Drug Control Policy says such a policy would create a costly system that brings NO gurantees of success. But it concedes there's a need for more drug treatment centers.

There was a ray of hope today for astronomers trying to fix the flawed Hubble Space Telescope. Project scientists say the one-point-five-BILLION-dollar telescope can be repaired by making only minor changes to new cameras already under construction. In other space news today, the House voted to deny funding for a proposed manned mission

to the moon and Mars... and a fuel leak test on the shuttle Atlantis was put off another day because of storms in the forecast for Cape Canaveral.

-30- 1817

#90179u3519 06/28/1990 ~United Press International

(JUNE 28) UPI - Jurors in New York City's Bensonhurst murder case say they're deadlocked over the fate of defendant John Vento... but they're being urged to keep trying to reach a verdict. The obviously frustrated jury says it is UNable to reach a decision on several counts against Vento. Vento is accused of helping recruit a white mob to kill black teen-ager Yusuf Hawkins last August.

A New York City school teacher told a jury today he was attacked and beaten by a gang of youths in Central Park the same night a woman was gang-raped and left for dead in April 1989. Jurors also watched videotaped confessions of the three youths admitting to the ''wilding'' rampage. After prosecutors showed photos and the blood-stained clothing of the beaten man, the trial was adjourned until Monday... when two police officers are scheduled to testify.

Queen Elizabeth is ignoring warnings from Canadian politicians in Quebec to stay away from the province during its unity crisis with the rest of Canada. The queen has decided to visit the area despite increased separatist feelings in the French-speaking province. The British monarch will visit Quebec July 1st... Canada's 123rd anniversary.

There are calls for Britain's Prince Charles to take on less dangerous hobbies after he fell during a polo match and broke his arm today. A statement from Buckingham Palace says the prince was- quote- ''good humored, but in a bit of pain'' in a hospital in Gloucestershire, England. News reports say he'll undergo surgery to set the break above his right elbow.

-30- 1733

#90180b0010 06/29/1990 ~Business Wire

GOLDEN, Colo. (JUNE 29) BUSINESS WIRE - Horizon Gold Shares Inc. (NASDAQ:HRIZ) Friday announced sales of precious metals of $12,844,780 and a net loss of $3,964,893, or 18 cents per share, for the fiscal year ended March 31, 1990.

John E. Watson, chairman of the Golden-based precious metals producing company, said that the loss was primarily attributable to three factors -- the decline in the price of gold, a writedown of heavy mining equipment of $1,680,000, and an unrealized foreign exchange loss of $772,000 related to Horizon's subordinated convertible debentures denominated in Swiss francs.

Watson said there was a significant decrease in the realized price of gold in 1990. During the current year, Horizon sold a company record 33,722 ounces of gold at an average price of $381 per ounce, compared to 21,137 ounces of gold at an average price of $441 last year.

Based on 1989 prices, 1990 sales would have been over $2 million higher. He said that despite the net loss, Horizon was able to realize a positive cash flow from operating activities of $850,667 for the current year.

SANTA CLARA, CA (JUNE 29) BUSINESS WIRE - National Semiconductor Corp. Friday announced the winners in its third annual nationwide scholarship program.

They are (all cities in California unless noted): Karen Phipps of Castilleja High School in Palo Alto; Megan McMahon of Dunn High School in Palo Alto; Scott Boothby of Bonny Eagle High School in Buxton, Maine; Cherry Ogata of Westmont High School in Campbell; Jonathan Mungai of Bellarmine College Preparatory in San Jose; Michele Wintle of Bonny Eagle High School; Adolfo Sengottaiyan of Saratoga High School in Saratoga; Pamela Standish of Leland High School in San Jose; Christopher and Andrew Baskerville, both of Pinewood High School in Los Altos Hills; Julian Cheater of Leland High School in San Jose; and Katherine Killen of Cupertino High School in Cupertino.

The scholarship winners were selected by an independent board of the College Scholarship Service. They were chosen based on high school grades rank in high school class, Scholastic Aptitude Test (SAT) scores, participation in extracurricular activities, special awards or achievements, and recommendations from high school faculty.

This year, National Semiconductor will award more than 10 scholarships of $2,000 per year for each.

National Semiconductor will honor the Maine winners with a dinner at a local restaurant, to be held in August. The Bay Area winners will be honored at Sebastian's restaurant in San Jose on June 28.

The scholarship program complements National Semiconductor's other education programs, including the Employee Tuition Reimbursement Program and the College Hire Assimilation Program.

National Semiconductor, based in Santa Clara, is a leader in the design,

manufacture and sale of integrated circuits and semiconductor products.

PUEBLO WEST, COLO. (JUNE 29) BUSINESS WIRE - Nona Morelli's II Inc. (NASDAQ:NONA) announced Friday that it has agreed to use an innovative tamper-evident pasta packaging technique patented by TSL Inc. (NASDAQ:TSLI), according to Frank J. Morelli III, president of Nona Morelli.

''We are pleased that TSL Inc. will be creating a tamper-evident pasta packaging film which will ensure that Nona Morelli's fresh and microwaveable pasta and sauces will remain safe, as well as delicious, from the store to our customer's tables,'' Morelli said.

Under the agreement between the two companies TSL will provide exclusively in the pasta industry its newest tamper-evident technology for Nona's variety of pasta and sauce packages. Nona Morelli II Inc. is committed to purchase exclusively from TSL all its tamper-evident supplies in materials and equipment. Use of the product will commence upon completion of packaging, design and testing.

Nona Morelli is a manufacturer and marketer of fresh pack pasta and pasta sauces, and the company recently introduced a line of microwaveable pasta and sauces packaged in individual portions.

FREMONT, CA (JUNE 29) BUSINESS WIRE - Vicom opens a new international office in Europe to increase its presence worldwide.

The office will be based in Velizy, France, and be the main European headquarters for all Vicom distributors.

''Vicom's strategy is to exploit its presence world-wide. We want to be a major player of the European Common Market by 1992,'' said Neil D. Newman, vice president of international sales.

The office will be based in Velizy, France, and Vicom has appointed Dr. Charles P. Zajde as the director of sales and marketing, Europe, reporting to Neil Newman.

Zajde will be responsible for supporting all of Vicom's existing international distributors, including Europe, North Africa, Middle East and East Countries, as well as establishing new distributors to cover all of Europe.

Prior to joining Vicom Systems Inc., Zajde was the vice president of sales and marketing for Digital Design Inc., Norcross, Ga. He has a bachelor of science degree in electrical engineering from Ecole Superieure d'Electricite, and a Ph.D. in electronics and nuclear physics from Ecole Normale Superieure, Paris.

Vicom Systems Inc., founded in 1981, is a privately held company with headquarters in Fremont. It acquired the Imaging and Graphics Division of Gould Electronics in August of 1989 and the Image Computing Business of Pixar in May of 1990.

Vicom has the broadest product line in the industry and is the largest independent manufacturer of image processing systems, data visualization servers, subsystems, boards and software distributed through a direct sales force in the United States, OEMs, VARs, and international distributors to the medical, military, industrial automation, inspection and R&D markets.

SAN FRANCISCO (JUNE 29) BUSINESS WIRE - Williams-Sonoma Inc. (NASDAQ:WSGC) filed Friday with the Securities and Exchange Commission a registration statement relating to a proposed offering of 1.4 million shares of common stock.

Of these, 887,000 shares will be sold by the company and 513,000 shares will be sold by certain shareholders. These shares are adjusted for the June 1990 3 for 2 stock split.

The offering will be co-managed by Goldman, Sachs & Co. and Montgomery Securities. The company has granted the underwriters over-allotment options for 30 days to purchase up to an additional 140,000 shares.

The proceeds of the offering will be used to reduce the company's short-term indebtedness and finance expansion, including investment in additional stores and inventory.

Williams-Sonoma Inc. is a national specialty retailer of high quality kitchenware and other products for the home and garden. These products are marketed through 125 retail stores and five mail order catalogs representing the five distinct merchandise concepts: Williams-Sonoma, Pottery Barn, Hold Everything, Gardener's Eden and Chambers.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective.

This news release shall not constitute an offer to sell nor the solicitation of any offer to buy nor shall there be any sales of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or classification under the securities laws of any such state.

COSTA MESA, CA (JUNE 29) BUSINESS WIRE - Carl Espy has been named senior vice president, affiliate services, and Leon Leach has been named senior vice president, marketing and administration of The Prudential Real Estate Affiliates Inc. (NYSE:PRT)

Espy, one of the founders of The Prudential Real Estate Affiliates in 1987 will head the newly formed Affiliate Services Department, which will be responsible for service delivery to the Prudential Real Estate network, as

well as determining and meeting the ongoing and changing needs of the nearly 1,000 offices in the network.

Leach, a 23-year veteran of The Prudential, will be responsible for the company's newly formed marketing and administration activites and will also succeed Espy as chief financial officer. Leach's area includes new-product development, marketing support, public relations, comptrollers, lender services, information system functions and human resources.

The newly formed departments bring together several existing areas and are the result of a lengthy management study which was just completed by The Prudential.

Leach joined The Prudential in 1967 in the Governmental Health Programs Office. In 1977 he was selected to participate in the President's Executive Exchange Program as a special assistant to the director, Office of Worker's Compensation, U.S. Department of Labor.

In 1978 he returned to The Prudential and held various executive positions including senior vice president of The Prudential Health Care Plans. In August 1989 he was named executive vice president, Residential and Relocation Services Group, a position he held until his latest appointment.

Prior to joining The Prudential Real Estate Affiliates in 1987, Espy was senior auditor for Touche Ross and Co. He joined Coldwell Banker in 1978, and in 1981 became one of the founders of Coldwell Banker Residential Affiliates. He remained with Coldwell Banker until his affiliation with The Prudential.

Both Espy and Leach will report directly to Will Schwartz, president of The Prudential Real Estate Affiliates.

GARDEN GROVE, Calif. (JUNE 29) BUSINESS WIRE - Dense-Pac Microsystems Inc. (NASDAQ:DPAC) announced that the company has experienced a slowdown in new orders for the first part of fiscal year 1991, which ends in February 1991.

Due to the slowdown in the commercial market and uncertainty in the defense sector, previous fiscal year 1991 estimates of $10 million in sales are being reduced by 20 to 30 percent.

According to James G. Turner, chairman of the board and chief executive officer of Dense-Pac, this period is normally strong for the company, but this year new order inputs are weak and the backlog has declined to $2 million at June 28, 1990, from $3.2 million at Feb. 28, 1990.

Dense-Pac designs and manufactures a full range of digital and memory surface mount components and subsystems utilizing the latest CMOS technology. Proprietary packaging technology gives the company a range of products that achieve the highest speeds with the greatest savings of space, weight and cost for its customers.

CHICAGO (JUNE 29) BUSINESS WIRE - United Airlines set two traffic records yesterday, boarding the most passengers and recording the most revenue passenger miles in a single day in its 64-year history.

''It is gratifying to note that the flying public values the services of United Airlines,'' said Stephen M. Wolf, chairman and president. ''I also would like to recognize the superb, professional job being done by our 73,000 employees worldwide in handling such large numbers of customers.''

Yesterday, United boarded 217,705 passengers, breaking a record of 216,210 that has stood since Dec. 22, 1988.

The airline also recorded 276,011,321 revenue passenger miles, surpassing

the previous mark of 263,172,698 set just last Thursday. A revenue passenger mile is one revenue-paying passenger flown one mile.

Helping to make the records possible, United's capacity is up more than 10 percent over last year's level. On June 8, United reached a record 1,945 flights a day for its summer schedule. United is the fastest-growing airline of the top five airlines in the United States and is taking delivery of one new aircraft, on average, each week this year.

STAMFORD, CT (JUNE 29) BUSINESS WIRE - NYCOM INFORMATION SERVICES INC.

(NYCOM) (NASDAQ:NYCM) Friday announced that it has entered into a letter of intent to acquire Eastern Pay Phones Inc., a privately held provider of public pay telephone services in Richmond, Va.

Under the terms of the letter of intent, Eastern shareholders would exchange their shares for NYCOM shares and Eastern would operate all activities in the payphone area.

The consummation of the transaction is subject to a number of conditions, including the negotiation and execution of a mutually acceptable definitive agreement and the satisfaction of all required third-party, regulatory and shareholder consents and approvals.

''Combining the operations of Eastern and NYCOM will allow the shareholders of each corporation to participate in a stronger, more competitive company. Eastern will begin NYCOM's vertical integration network strategy which will add volume to NYCOM's revenues,'' David Lyons, chairman and chief executive officer of NYCOM.

Steven Chrust, chairman and chief executive officer of Eastern, said, ''By combining with NYCOM, we believe we will have a more secure stream of operator and enhanced services to deliver to our customers.''

As part of this combination, Chrust will assume the additional responsibilities of president of NYCOM, while Lyons remains chairman and chief executive officer. Lyons stated that, ''As our company grows, it becomes more important to build the strength and depth of our management team.

''Chrust has been involved in the telecommunications industry for over 20 years in executive positions involving both analytical and operating activities. As a member of the NYCOM board of directors, he has been involved with our company for three years, and we are looking forward to having his full time and attention.''

NYCOM is a telecommunications company which offers a broad spectrum of standard and enhanced information and operator services to meet the needs of the transient telephone user in the payphone, hotel, hospital and interexchange carrier marketplace.

HOUSTON (JUNE 29) BUSINESS WIRE - Landmark Graphics Corp. Friday announced they have completed the first shipments of StratWorks, a software interpretation tool for geologists.

Stratworks is the company's first application for the geological interpretation market and the first product designed under the OpenWorks software framework.

StratWorks consists of four software modules -- well log correlation, cross section, map display, and mapping. These modules will enable analysis of greater volumes of data and testing of multiple interpretation hypotheses for more confident drilling decisions. StratWorks is the only interpretation software to provide this range of functions and to seamlessly transfer data between them.

The release of StratWorks follows Release 19.0 the newest enhancement of Landmark's seismic applications. The seismic products have a new database which allows both StratWorks and seismic applications to share common well data. This commonality provides geologists and geophysicists

with the opportunity to easily access and exchange well information and produce a more unified interpretation of the earth's subsurface.

StratWorks is the first in what will be a broad line of OpenWorks-based applications from Landmark, other software developers, universities and oil companies. ''Our vision of the future is one in which geoscientists in all disciplines use integrated computer-aided exploration and production workstations to easily share data to make more comprehensive decisions,'' said Gene Ennis, Landmark president and chief executive officer.

''StratWorks, through OpenWorks, allows geoscience teams to build on each others' data and expertise. The availability of integrated products will be increasing as Landmark and other vendors release OpenWorks products that complement StratWorks.''

StratWorks is available as a single application package and, like Landmark's seismic products, will be available as part of a turnkey system on the Landmark Voyager workstation.

Landmark is the leading supplier of CAEX technology with systems installed in over 27 countries. The company's user base encompasses 18 of 20 largest multi-national oil companies, national oil companies, large independents, and young exploration and production companies.

#90180b0125 06/29/1990 ~Business Wire
SALT LAKE CITY (JUNE 29) BUSINESS WIRE - Slumping gold prices and high operating costs have caused management at Alta Gold Co. (NASDAQ:ALTA) to reduce both gold production operations and manpower at some of its facilities near Ely, Nev.

Dan S. Bushnell, company chairman and chief executive officer, explained, ''It's simply a matter of cash flow at this time. When the gold market turns around, and I believe it will, then we can return to normal operations.''

The company has had to restructure its gold operations. Mining at the Easy Junior mine, located 45 miles west of Ely, has been curtailed while heap leaching continues on the ore already loaded on the leach pads.

The Golden Butte mine will continue full operations until the end of the year, at which time the company plans to resume mining at Easy Junior if the price of gold permits.

At the Robinson Mining District, the company has gone to two 10-hour shifts, four days a week and has suspended the mining and processing of its lowest grade material.

Bushnell said, ''We are reducing overall costs and conserving our ore reserves. Economically, it is unwise to spend money mining low grade ores at a time when we can sell gold at only $350 an ounce.''

Cutbacks at Easy Junior have resulted in 66 personnel being released. Company wide, 230 people have been cut from payrolls since gold prices began declining this spring. No other major reductions in personnel are contemplated this year.

Bushnell said operations at the Ward underground zinc mine and the related Taylor Mill are continuing at normal rates, and in fact, may even be increased. Zinc prices have increased substantially while gold prices have declined.

Regarding Alta Gold's option to purchase the Robinson Mining District from Kennecott by Dec. 15, Bushnell said a number of major, world-class mining companies are reviewing the district in great detail and have expressed serious interests in joing with the company in acquiring the property.

Many other companies in the gold mining industry are experiencing changes similar to those at Alta Gold during this period of depressed gold prices. However, Alta Gold's position is stronger because of its support from base metals production.

SAN FRANCISCO (JUNE 29) BUSINESS WIRE - Lewis Galoob Toys Inc. (NYSE:GAL), a South San Francisco-based toy company Friday announced it has been enjoined by the United States District Court, Northern District of California, from distributing its new Game Genie (TM) ''video-game enhancer'' to its retail buyers pending the trial of Nintendo of America's complaint seeking a permanent injunction.

''We are disappointed by the court's decision. As a result, we will halt all current distribution and marketing efforts on behalf of Game Genie. However, this preliminary injunction only restrains Galoob Toys from distributing and marketing its Game Genie product pending the trial on the merits.

''We continue to believe that Galoob Toys has in no way infringed on any Nintendo copyright and we intend to seek an expedited appeal of the court's ruling immediately,'' said Steven M. Klein, executive vice president and general counsel of Galoob Toys.

The Game Genie is the world's first and only video-game enhancer. It offers a new dimension to video-game play by allowing players to modify game play to explore all ''levels'' of an individual game by giving players infinite lives, enhanced ''fire'' power or increased jumping abilities.

Lewis Galoob Toys, designs, develops, markets and distributes a variety of

toy products sold worldwide. The company has headquarters in South San Francisco.

#90180b0139 06/29/1990 ~Business Wire

WASHINGTON (JUNE 29) BUSINESS WIRE - The Department of Justice announced Friday one of the largest civil settlements of Medicare fraud ever reached with an individual.

Finalized Friday, the civil settlement calls for Joseph Gentzel and one of his companies, First Rehab Inc., to pay more than $1 million to settle criminal and civil fraud charges.

Yesterday, First Rehab Inc. pleaded guilty to a one-count criminal information charging the health care provider with mail fraud in connection with defrauding Medicare by applying for reimbursements for such personal expenses as jewelry, cars, vacations and expenses having to do with show dogs. Many of the payments were disguised as salaries for employees.

First Rehab's plea was accepted by William C. O'Kelley, chief judge for the Northern District of Georgia.

''Fraudulent claims to Medicare are one of this nation's most serious health care industry problems,'' said Stuart M. Gerson, assistant attorney general for the Civil Division. ''The government will not tolerate anyone who takes advantage of a system that is designed to help those who need help the most.''

NovaCare Inc., a health care provider who bought some of Gentzel's operations, has separately agreed to pay $50,000 to settle liabilty assumed as the result of the purchase.

Although Medicare initially paid all the claims that were submitted, audits and investigations by federal investigators determined that a substantial portion of the claimed expenses were submitted fraudulently.

Under the terms of the settlement, Gentzel, his wife, and 10 Medicare providers he owned and operated have agreed to pay more than $900,000 to settle civil charges and $100,000 in criminal fines. As part of the payment, Gentzel agreed not to accept more than $182,000 in legitimate

reimbursements. The $900,000 will go back to the HHS trust fund and the $100,000 in fines will go to the district court.

The settlement also stipulates that Gentzel will not be allowed to participate in the Medicare or Medicaid programs for two years, and subsequently will be required to submit only those cost reports that have been audited by a certified accounting firm. If he violates Medicare regulations again, Gentzel will be excluded from Medicare programs for 20 years.

First Rehab also will not be allowed to participate in Medicare and Medicaid programs for the next five years.

Gentzel owned and operated a home health agency, a nursing home and eight outpatient physical and speech therapy clinics throughout eight states, all of which were certified providers of services under the Medicare program.

Gerson also thanked the Inspector General's office at the Department of Health and Human Services (HHS) for its investigative efforts in ferreting out this fraud.

The civil settlement was negotiated by the Civil Division's Commercial Litigation Branch and the Office of General Counsel at HHS. The criminal aspects were handled by the U.S. Attorney for the Northern District of Georgia and the HHS inspector general.

ENGLEWOOD, CO (JUNE 29) BUSINESS WIRE - Basic Earth Science Systems Inc. had net income of $70,000 less than one cent per share, on revenue of $1,722,000 for the year ended March 31, 1990, it was announced Friday by G.W. Breuer, president.

This compares to a net loss of $201,000, one cent per share, on revenue of $1,507,000 for the prior year. This was the first annual profit Basic has realized since the year ended March 31, 1983. The increase in oil and gas sales revenue was due to several factors, the main one being an increase in the average oil price from $15.12 per barrel in 1989 to $18.91 in 1990.

Basic is an oil and gas exploration and production company with primary operations in south Texas and the Williston and Denver-Julesburg basins in the Rocky Mountain Region. Basic is traded on NASDAQ under the symbol BSIC.

Basic Earth Science Systems Inc.

VANCOUVER, BRITISH COLUMBIA (JUNE 29) BUSINESS WIRE - Subject to regulatory approval, Consolidated Ramrod Gold Corp. (VcSE:CYN) (the ''company'') has agreed to sell by way of a private placement a total of 350,000 common shares in the capital stock of the company at a price of $2.55 per share to a European institutional investor.

In consideration for the subscription, the company has also agreed to grant to the investor non-transferable warrants giving it the right to subscribe for up to a further 350,000 shares in the capital stock of the

company at any time for a term of two years, at an exercise price per share of $2.55 in the first year and $2.94 in the second year.

A finder's fee of 24,813 shares of the company is payable in connection with the private placement.

The subscription proceeds of $892,500 will be used to continue exploration and development of the company's mineral properties in Europe, North America and Central America, provide funds for administrative overhead and for working capital.

OCONOMOWOC, WI (JUNE 29) BUSINESS WIRE - The board of directors of Stokely USA Inc. (NASDAQ:STKY) voted to increase the regular quarterly dividend from 4 cents to 5 cents per share.

The action was taken at a meeting held June 29, 1990. The 5 cent per share dividend will be paid July 16, to holders of record July 9, 1990.

Commenting on the dividend increase, Chariman Joseph B. Weix said, ''The board's stated policy is to increase the quarterly dividend at regular intervals. The last increase in the quarterly dividend was from 3 cents to 4 cents per share in September 1988. We have paid two special 10 cent per share dividends since that time due to our earnings performance. In view of that performance, the board felt an increase in the regular quarterly dividend was appropriate at this time.''

Stokely USA processes and markets a broad range of canned vegetables, fruits, tomato products and juices under the nationally recognized Stokely's Finest, Stokely's Singles and other brand labels; under customer private labels; and to the food service industry. Headquartered in Oconomowoc, Stokely operates 18 processing facilities in the Midwest, Pacific Northwest and Mexico.

LOS ANGELES (JUNE 29) BUSINESS WIRE - Security Pacific National Bank announced Friday that it will offer emergency relief 90-day interim loans to California residents affected by the recent outbreak of fires.

Qualified residents of Santa Barbara, Glendale, Brea, Chino Hills and Corona may be eligible for personal unsecured loans up to $20,000, or secured real estate loans up to $100,000, both at 9.5 percent interest, with no fees or closing costs. No principal or interest payments on these short-term loans will be due until maturity.

In addition, Security Pacific will expedite processing of all new credit card applications for residents in the affected areas, as well as make emergency credit line increases for existing customers upon request.

Customers will also be allowed to withdraw funds from certificates of deposit and investment savings accounts without incurring early withdrawal penalties. Special commercial and construction loans are available for victims in the affected communities.

For further information about any of these emergency relief programs, residents should contact their local Security Pacific banking office, or call 1-800/553-SPNB.

Security Pacific National Bank is California's second largest bank, and the principal subsidiary of Los Angeles-based Security Pacific Corp., the nation's fifth largest bank holding company with more than $86 billion in assets.

IRVING, TX (JUNE 29) BUSINESS WIRE - ''GTE strongly endorses a bill introduced in Congress by Sen. Conrad Burns that would benefit America's consumers by allowing more competition in the cable TV business,'' said GTE Telephone Operations President Kent B. Foster.

The bill would amend the Cable Act of 1984 to permit telephone companies to provide or package their own video programming for consumers.

''A recent Gallup Poll commissioned by GTE shows American consumers want more competition in the cable TV business, desire innovative video services and expect the country's communications technology to continue to improve when compared to other countries,'' said Foster. ''But without telephone company competition, these consumer expectations will go largely unfulfilled.''

Burns' bill would amend the Cable Act of 1984 to permit greater telephone company competition in the cable TV business. The bill would allow

telephone companies to provide or package up to 25 percent of video program services for consumers.

In its present form, the Cable Act prohibits telephone companies from owning or providing video programming services within their franchise areas. Hearings are expected to be held on July 18.

''It became clear during an earlier committee markup on a cable TV re-regulation measure that the telephone company-competition issue enjoys strong bipartisan support,'' Foster said.

''With the introduction of Sen. Burn's bill, the telephone company-entry issue remains alive in the Senate with fair prospects for passage. However, we have to continue telling our story to lawmakers and impress upon them the need to pass telephone company-competition legislation.''

Foster noted that on June 26 the Bush administration sent a letter to key legislators urging Congress to allow telephone companies to provide cable television services. ''We are especially pleased the Bush administration has recongnized the potential benefits of telephone company competition in the cable television business,'' he said.

GTE Telephone Operations is the largest of GTE Corp.'s six business groups. GTE Telephone Operations provides local phone service to 14.4 million customers through 15.1 million access lines in portions of 31 states and two foreign countries.

In addition, GTE Telephone Operations, through GTE Supply, markets telecommunication products and services nationally; and through GTE Data Services, supplies computer software and telecommunication services nationwide. Revenues in 1989 totaled $12.5 billion. GTE Telephone Operations has 103,000 domestic and intertnational employees.

#90180b0165 06/29/1990 ~Business Wire

SAN FRANCISCO (JUNE 29) BUSINESS WIRE - John Hulse already has his hands full as vice chairman and chief financial officer of Pacific Telesis.

But beginning July 1, he will take on one more important assignment --the presidency of the world's largest industry-related volunteer organization.

For the next year, Hulse, 57, will be president of the Telephone Pioneers of America, overseeing 800,000 volunteers in the United States and Canada. There are 70,000 Pioneers in California and about 13,000 in the Bay Area.

Members are employees or retirees of the telecommunications industry who spend some of their free time feeding the homeless, working with the disabled, conducting anti-drug programs in the schools and a host of other philanthropic activities.

Over the past year, Pioneers have raised more than $10 million and donated 25 million hours of their time. At a nationally accepted rate of $10.06 per volunteer hour, that adds up to $254.1 million worth of service.

As Telesis' top financial officer, Hulse understands the bottom line as well as anyone. But when it comes to volunteerism, Hulse said he can only begin to estimate its value to a corporation.

''The real value is the thousands of hours employees and retirees from companies give back to their communities,'' he said. ''In terms of public image and the goodwill it creates for the company, you just can't put a price tag on that.''

Doing well by doing good is becoming a popular concept in corporate America. In the past five years, the number of companies that send workers into community service has doubled to an estimated 1,200.

But Hulse said there's still room for improvement. He pointed to a recent survey that found three out of four people polled indicating they would like to volunteer but only one in four actually did so.

The need for corporate volunteerism is becoming more acute, Hulse said, due to cutbacks in federal and state government spending on social programs. If the federal budget deficit is ever to be erased, he explained, the private sector will have to pick up more and more of the burden.

Hulse, a resident of Danville, is director and treasurer of the San Francisco Chamber of Commerce and a member of the Private Industry Council in Washington, D.C.

#90180b0178 06/29/1990 ~Business Wire

HOUSTON (JUNE 29) BUSINESS WIRE - Continental Airlines Friday announced that it has completed a management restructuring aimed at strengthening its customer service programs and accelerating the continuing improvements in product quality.

''Recognizing that service quality issues will be increasingly important in the extremely competitive airline industry, we have developed a strategy to assure Continental's long-term success in that regard,'' said Continental President Mickey Foret. ''This reorganization allows us to optimize the strengths of our key management resources, including senior executives who will lead the airline's drive toward continued success.''

Neal F. Meehan, formerly president of Continental Express, Continental's regional airline network, was named to the new position of senior vice president-customer services. In his new capacity Meehan will be responsible for station operations (customer service at airports), reservations, inflight service, dining services and cargo. A new Continental Express president will be announced later.

''Customer service will be the industry battleground of the 1990s,'' Meehan said. ''We'll focus our energies in this direction.''

Meehan reports to Mickey Foret, Continental's president.

Donald J. Breeding has been promoted to the new position of senior vice president-operations from senior vice president-flight operations. In his expanded role Breeding will gain responsibility for Continental Express in addition to other aspects of Continental's world-wide operations.

Lewis H. Jordan, executive vice president, will assume the additional new title of system general manager, reflecting the expanded responsibilities of the senior vice president-operations.

Jordan is responsible for the operational quality standards and performance of the airline. ''Our customers expect and deserve a highly reliable, dependable and comfortable operation,'' Jordan said. ''These changes enhance our ability to fulfill our commitment to meeting those customer expectations, on every flight, from that of the smallest aircraft to our international 747s.''

Jordan is also responsible for ensuring the legality and integrity of Continental and Continental Express operations with respect to aviation regulations, and provides primary liaison with the Federal Aviation Administration.

John W. Nelson, executive vice president-marketing, in addition to continuing his responsibility for all marketing programs, advertising and sales, will be focusing increased emphasis on overall product strategy definition.

The management changes will enable Continental to continue the progress it has achieved in the consumer marketplace as the most rapidly improving

airline in the industry.

In a separate move, two senior executives have been designated by Continental. They are Clark H. Onstad, formerly senior vice president at Continental's parent company, and Barry P. Simon, formerly chief counsel of Eastern Air Lines.

Onstad has been named senior vice president-properties and government affairs. He will be responsible for facilities, airport expansions, purchasing and all airline relations with local, state and federal governments.

Simon has been named senior vice president-legal, general counsel and secretary. He will be responsible for the airline's legal matters.

FEDERAL WAY, WA (JUNE 29) BUSINESS WIRE - Plush Pippin Corp., headquartered in Federal Way, has sold six of its seven restaurants to JB's Restaurants, a restaurant chain headquartered in Salt Lake City, according to Jack Sutton, president and chief executive officer of Plush Pippin.

JB's currently has 122 restaurants, located generally throughout the Western United States.

Plush Pippin is also leaving the franchise business and has terminated all its franchise agreements, according to Sutton.

Three of the six restaurants being sold are located in Portland, Ore., with the remaining three in Gresham, Ore., Beaverton, Ore., and Tacoma, Wash. Plush Pippin will retain its restaurant located in Tukwila, Wash.

''The sale of the restaurant chain and the termination of franchise agreements allows Plush Pippin to concentrate on our core business -- the manufacture of gourmet pies,'' said Sutton. Created in May of 1988, the manufacturing division of the company last year sold in excess of 4 million pies through 20 retail chains in 45 states. Also, the company is currently exploring the distribution of Plush Pippin pies internationally.

''With the divestiture of these other divisions, the management group will be able to concentrate solely on the development of the wholesale business and on serving our customers even better,'' Sutton added.

Plush Pippin Corp. is a privately held Washington corporation formed in 1986 when it acquired the stock of Plush Pippin Restaurants Inc. Plush Pippin Restaurants Inc. was founded in 1972 in Portland, Ore.

BEVERLY HILLS, CA (JUNE 29) BUSINESS WIRE - Great Western Bank Friday announced that it has concluded definitive agreements with the federal Resolution Trust Corp. to acquire the 71 branches of CenTrust Savings Bank of Miami and the 18 branches of Gibraltar Savings Bank in Florida.

The transactions closed Friday.

The acquisitions, which include more than $2.1 billion in retail deposits from CenTrust and another $700 million in deposits from Gibraltar, will give Great Western the largest branch network and deposit franchise of any savings institution in Florida.

Great Western will acquire CenTrust for a premium of $86 million. However, substantially all of the assets that Great Western acquires from the RTC will be sold in a series of related transactions through Merrill Lynch Capital Markets, its financial advisor in this transaction. After those sales are completed, the premium that Great Western will pay for CenTrust's deposit franchise will be approximately 3 percent.

Great Western later Friday night, will complete the acquisition of the Gibraltar branches and retail deposits for a premium of $3.75 million, or approximately one-half of 1 percent.

''Great Western is more than doubling its presence in Florida, one of the most attractive retail banking markets in the United States,'' said James F. Montgomery, chairman and chief executive. ''These transactions create the 'critical mass' necessary to establish Great Western as one of the premier financial institutions in the state's two leading growth markets for retail banking, Miami and Orlando.

''In addition, this marks Great Western's entrance to Florida's important West Coast markets -- Tampa and St. Petersburg.''

With the CenTrust and Gibraltar-Florida acquisitions, Great Western Bank will have approximately $6 billion in retail deposits and more than 150 retail banking branches statewide.

This includes the $700 million in deposits and 13 branches that Great

Western Bank recently agreed to acquire from Carteret Savings Bank. In addition, Great Western Bank operates 23 home loan offices in Florida and is one of the state's leading real estate lenders.

The immediate use of the cash that Great Western will receive from the RTC for assuming the liabilities of the two banks and from the sale of assets of CenTrust will be to retire higher cost debt.

Beverly Hills-based Great Western Bank is the principal subsidiary of Great Western Financial Corp. Great Western, with about $40 billion in assets, is one of the nation's leading residential mortgage lenders and operates 1,000 mortgage lending, retail banking and consumer finance offices nationwide.

COSTA MESA, CA (JUNE 30) BUSINESS WIRE - Fred B. Cox, chairman and chief executive officer of Emulex Corp. (OTC: EMLX) announced that he plans to step back from operating responsibilities but to continue active involvement with the company as its chairman.

Cox indicated that he expected the search to be concluded before the end of 1990. During the interim period, David Hanna, a board member and consultant to the company, has been named president. Cox will continue as chief executive officer until a successor is found. During the interim period, Hanna will assume day-to-day operating duties of running the company.

In announcing his intentions, Cox indicated that he planned to remain as chairman and to maintain active involvement with the company, particularly in board activities and in relationships with the company's key worldwide accounts. He further stated: "I have deep respect for my associates at Emulex, all of whom have contributed to our record of success and worldwide recognition.

"I also have unshakable confidence in our future, and I will devote a great deal of my time and attention to selecting the caliber of CEO who can make sure we realize our full potential as a worldwide competitor. Subsequently I will continue to contribute in a less direct manner.

"In the meantime, Dave Hanna's broad experience in the computer industry both in general management and marketing, as well as his knowledge of Emulex, will be invaluable to us during the transition."

Cox was the original founder of the company which began development operations in late 1978 and has been its chief executive officer since its formal incorporation in early 1979.

During his career, he has been involved in the founding and management of several high-technology companies in the Orange County area, including Emulex and Microdata (now part of McDonnell Douglas).

Hanna's career includes over 14 years at IBM, in senior sales, marketing, and general management positions, including vice president of General and Office Systems. He has held subsequent chief executive officer positions at Grid Systems, Altos Computer, Versatec, NetFRAME, State of the Art and Xerox Desktop Software. He presently serves on several boards, which include Businessland, Sun/TOPS, Ventura Software Inc. and State of the Art Inc.

Emulex designs, manufactures and markets high-performance computer enhancement products in the areas of system/network connectivity and storage control. Emulex addresses the DEC and IBM PC marketplaces, as well as markets for industry-standard SCSI and UNIX-based systems.

SANTA BARBARA, CA (JUNE 30) BUSINESS WIRE - Digital Sound Corp. (NASDAQ: DGSD) announced Friday that its net sales for the second quarter (ending June 30, 1990) will be substantially lower than its net sales for the first quarter of this year, which were approximately $9.25 million.

The decline in net sales will have a substantial adverse impact on operating results and will likely result in a loss for the quarter. The decline in net sales is a result of several factors, primarily a slower than anticipated order rate from certain of the company's major customers.

Bryan Grummon, president, stated, "Because our revenues are heavily dependent on large orders from a small number of customers, our quarterly results continue to be very difficult to forecast. This quarter we experienced unexpected delays in the placement and processing of orders from several key accounts.

"Customers have been more cautious in making capital spending decisions and have lengthened their buying cycles. The problem was compounded by the devastating fire in Santa Barbara this week. Although the company facilities were not damaged by the fire, telephone communications were interrupted and many of our employees were unable to come to work. As a

result, we were unable to close some anticipated orders."

Grummon added, "We believe that the present business environment may continue for the forseeable future. To gain better visibility of the sales cycle in key accounts, we have recently reorganized our sales organization into three separate groups, focusing on telephone company sales, customer premises equipment sales, and international sales, respectively.

"In addition, we are continuing our previously announced plans of establishing a nationwide direct sales force, which we hope will enable us to manage the sales process more effectively. We plan to have the sales force substantially in place by year end."

Digital Sound designs, manufactures and markets general purpose voice processing platforms for voice messaging, interactive voice response and other applications. For further information, contact Eugene Hovanec, vice president finance and chief financial officer, Digital Sound Corp., 2030 Alameda Padre Serra, Santa Barbara, Calif. 93103. #90180b0291 06/29/1990 ~Business Wire

WALNUT CREEK, CA (JUNE 30) BUSINESS WIRE - Longs Drug Stores announced Friday (June 29) that in a last-ditch effort to preserve the highest quality care for some 300,000 Foundation Health Plan (FHP) members in California that its efforts to renegotiate its dispute with FHP on the "shared risk" aspect of its contract had been unsuccessful.

The contract between FHP and Longs was a unique attempt to manage health care costs via an exclusive provider contract coupled with an innovative "shared risk" provision, which meant that unanticipated additional costs and utilization would be shared by each firm.

This was the only area of dispute under the contract. FHP had honored other costs of service, but had challenged the "shared risk" provision. This provision was drafted and agreed to in January 1990 at the request of FHP.

Executives from the two firms met today in Sacramento, but the financial differences were not able to be resolved and the contract for Longs to provide exclusive pharmacy services to FHP members will terminate on Oct. 19, 1990 as previously announced.

In the interest of a smooth transition, Longs will make every effort to

minimize any inconveniences to FHP members, Longs employees, new providers and all customers.

Longs Executive Vice President Steve Roath pledged, "We will live up to Longs' 52-year tradition of caring for the customer first and foremost by fulfilling all the pharmacy needs of the FHP members right up until our contract ends on Oct. 19th."

Longs officials noted that up until the disagreement over the narrow interpretation of the "shared risk" provision, the two companies had enjoyed a good relationship.

"Overall, FHP members have expressed their pleasure with Longs' quality and professional service under the contract," Roath stated. He added, "From Longs' standpoint, we were pleased to be able to have a close association with FHP and its members to contain costs without compromising our traditional high quality of service."

Roath concluded, "Longs regrets that after Oct. 19 we will no longer be able to participate in the Foundation Health Plan network of providers. This will not however, preclude us in continuing to assist and serve FHP members in their pharmacy and other drug store needs.

#90180b0613 06/29/1990 ~Business Wire

CUPERTINO, Calif. (JUNE 29) BUSINESS WIRE - Apple Computer, Inc. Friday announced that Claris Corporation will become a wholly owned, independent subsidiary of Apple.

Claris, which develops and markets popular applications software for Apple's Macintosh and Apple II personal computers, has operated as a majority-owned subsidiary of the company since April 1987 when Apple ''spun off'' its applications software efforts, creating Claris. At that time, Apple retained the option of allowing Claris to become a publicly-owned separate company or to fully acquire the company.

''Software will increasingly become the factor which shapes competitive advantage in the 1990's,'' said John Sculley, Apple's chairman and CEO. ''With that in mind, we have established a new expanded role for Claris which will become an important foundation for Apple in the future.''

According to Sculley, Claris will now focus its efforts on three major areas:

- Continued development and marketing of flagship applications.

- Development and marketing of extensions to Apple's system software which will enrich Apple's software development environment and promote the creation of innovative Macintosh applications. Apple will continue to develop its own core system software.

- Development and marketing of products which bridge Macintosh with other computing environments so Apple advantages will work in multi-vendor configurations.

According to Sculley, these last two added roles for Claris will greatly assist other software developers in better utilizing Macintosh technologies to differentiate themselves and develop successful new products. Claris will be aggressive in their approach, including consideration of licensing some technologies to software developers for incorporation in new applications.

''Apple's goal is to significantly increase our unit growth,'' said Sculley. ''Developers should view our decision on Claris as a key indicator that Apple is very serious about this goal, and in differentiating our products through innovative technology in the years ahead,'' he said.

''Claris has exceeded our expectations in establishing an independent brand identity and a competitive presence in the applications software business. While its spin off market value would certainly be considerable Claris has greater strategic value for Apple shareholders by remaining part of Apple,'' said Sculley.

Claris will remain an independent entity, maintaining separate facilities and personnel. William V. Campbell will continue as CEO of Claris. He will now report to Sculley.

LOS ANGELES (JUNE 29) BUSINESS WIRE - Leisure Technology (NYSE:LVX) Friday announced a net loss for the fiscal year ended March 31, 1990, of $5 million, compared with net income of $1.5 million, for fiscal 1989.

Revenues increased to $183.4 million, from $126.8 million, for the prior year.

After deducting preferred dividends, the company reported a primary and fully diluted loss per share of $1.29, vs. a primary and fully diluted loss per share of 11 cents, a year earlier.

For the three months ended March 31, 1990, the company reported a net loss of $5.1 million, compared with net income of $853,000, for the fourth quarter of fiscal 1989. Fourth quarter pre-tax results for fiscal 1990 include reserves and write-offs aggregating $4.5 million. Revenues were $55.5 million, including $20 million from the sale of land, vs. $45.1 million a year earlier.

Leisure Technology, founded in 1957, is the largest nationwide developer of active adult communities and is currently developing active adult, single-family or full-service retirement communities in New Jersey, New York, Florida, Illinois and California.

WILLOW GROVE, PA (JUNE 29) BUSINESS WIRE - Rafi Koriat has been appointed vice president of engineering and technology for Kulicke and Soffa Industries Inc. (K&S), it was announced Friday by Chairman C. Scott Kulicke.

Koriat, who has been with K&S since 1972, had been director of engineering and technology.

''Rafi has been a valued member of the K&S staff,'' said Kulicke, ''for many years. His broad experience in engineering and product marketing give him unique insights into the semiconductor industry, and we expect many more years of important contributions to K&S.''

During his tenure with the company, Koriat has served at K&S headquarters in Willow Grove as a project engineer, engineering manager and product manager of the Hybrid division; business division manager and director of the Die Attach, Saw and Wafer Prep divisions; and in K&S' subsidiary in Israel as a project manager, product manager and as manager of research and development.

He was appointed director of engineering and technology in 1989.

Koriat holds a B.S. in mechanical engineering from Technion Institute of Technology in Israel and an M.S. in mechanical engineering from Drexel University in Philadelphia. He resides in Huntingdon Valley, Pa., with his wife, Shimria, and their three daughters.

Kulicke and Soffa is a leading global supplier of assembly equipment and systems for the semiconductor industry. K&S serves both the IC and

hybrid markets with sales and service facilities worldwide.

In addition to wire bonding systems, the company's product line includes wafer preparation, wafer dicing and die bonding systems. Traded on the Over-the-Counter national market (NASDAQ: KLIC), the company is headquartered in Willow Grove, Pa.

BUFFALO, N.Y. (JUNE 29) BUSINESS WIRE - Integrated Waste Services Inc. (NASDAQ:IWSI) announced Friday that it had signed an agreement to purchase approximately 200 acres near Buffalo to construct a sanitary landfill.

The company said that the initial cost to purchase the property is $3 million. The company has an option for an additional 200 acres. In addition, Integrated expects to spend approximately $1 million on the permitting process, which will begin immediately.

The property is located 50 miles southeast of Buffalo in Farmersville, N.Y. The company anticipates that construction costs per acre will be $500,000 to $750,000.

Integrated Waste Services Inc. is a non-hazardous waste management company which provides integrated solid waste management services to governmental, commercial and industrial customers. The company's services include collection, transfer, and disposal of solid waste and tire shredding and slitting (including on-site remediation of tire stockpiles). Integrated Waste Services Inc. of Buffalo completed its initial public offering on May 14, 1990. The company sold 2,587,500 shares providing gross proceeds of $12,937,500.

IRVINE, CALIF. (JUNE 29) BUSINESS WIRE - ReadiCare Inc. (NASDAQ:REDI) Friday reported record results of operations for the first quarter ended May 31, 1990, highlighted by increases in net income, earnings per share and revenues over the comparable period of the previous year.

Net income increased by 90 percent to $670,000 compared with net income of $352,000 earned in the first quarter of fiscal year 1990. Earnings per share increased by 100 percent to 8 cents vs. earnings per share of 4 cents reported in the first quarter of fiscal year 1990. Cash flow from operations increased to 12 cents per share, while the company's current ratio improved to over 2.1-to-1 from year-end levels.

System-wide patient revenues of $7,771,000 and management fee revenues of $6,006,000 both increased by 22 percent over like revenues reported in the comparable period of the previous year.

ReadiCare is the West Coast's largest operator of workers' compensation medical centers and programs consisting of over 40 owned or managed centers in California, Nevada and Washington, serving over 20,000 client companies and five WorkFit rehabilitation and reconditioning centers.

The company also provides a wide range of on-site workers' compensation-related programs and management services to business, industry and other health care organizations.

RONKONKOMA, N.Y. (JUNE 29) BUSINESS WIRE - Logitek Inc. (NASDAQ:LGTK) Friday announced that it has opened a West Coast sales office.

The new marketing facility, located in Simi Valley, Calif., is headed by Dan Ketchum, Logitek western regional sales manager, a new executive position at the company.

Commenting on these developments, David Fischer, Logitek vice president-sales, stated, ''The substantial increase in business we have been transacting on the West Coast led to our conclusion that far more on-site supervision of day-to-day operations was merited and that the new office would also facilitate enhanced customer contact throughout our Western market area,'' Fischer concluded.

Logitek Inc. manufactures and markets electronic power monitors and controls and electronic power supplies for use in mobile systems such as aircraft and space vehicles, aboard ships, vehicular mobile communications and radar systems, off-shore rigs, and pipeline control stations. In addition, Logitek is also engaged in contract manufacturing operations.

LOS ANGELES (JUNE 29) BUSINESS WIRE - CBL Medical Inc. (NASDAQ:CBLM/CBLMW) announced Friday that the company has entered into an agreement to manage Oakland Bay Medical Center, a newly formed medical center in Oakland, Calif.

This agreement will bring to seven the number of medical centers presently being managed by the company, and four that the company manages for MedComp Medical Group. A real estate lease for the medical facility has been entered into by MedComp Medical Group, a physician group under contract with CBL.

Robert B. Mishkin, president and chairman of the board of the company, said, ''We are pleased that our Oakland, Calif. expansion program has taken us into an important new market area. Oakland represents a high worker concentration market. We expect this facility to grow at the same rate as our other facilities and is anticipated to produce management fees of aproximately $120,000 per month when the center reaches maturity.''

Mishkin said that the company intends to open an eighth medical center in Salinas, Calif. within approximately six months.

Mishkin also noted that Mountainview Medical Center in Riverside, Calif. which opened in August 1988 has grown rapidly and a new lease was recently entered into to significantly expand the facilities to include space for physical therapy, radiology and diagnostic studies such as pulmonary function and neuro-diagnostic testing. Occupancy of the expanded facility is scheduled within the next two months.

CBL, in conjunction with physicians, perform forensic examinations and provide treatment for patients who have sustained work-related and non work-related injuries.

BEVERLY HILLS, CALIF. (JUNE 29) BUSINESS WIRE - Singapore Airlines (SIA) will introduce its Raffles Class -- an exclusive identity with special service improvements for its business section.

The Raffles Class will have a new and distinct logo, contemporary colors, complete new range of inflight serviceware and added amenities in the air and on the ground.

The revamp involves the carrier's entire fleet of aircraft.

The name Raffles -- the founder of modern Singapore was Sir Stamford Raffles -- is associated with innovation, progress and pioneering spirit. These are the same concepts Singapore Airlines embraces in providing its passengers with an excellent traveling experience.

On board, new luxury items, exclusive to Raffles Class, will make business travel more pleasurable. Sennheiser electronic stereo headphones, Nina Ricci toiletries for men, Elizabeth Arden toiletries for women and specially designed hand towels, eyeshades, sockettes, stationery, personal grooming kits, new woolen blankets and specially embroidered headrest covers complete the full range of comforts for our passengers.

A gentle lilac and cool grey color scheme with a distinct traveler's palm logo will be applied on all serviceware such as a complete new range of custom-designed Narumi crockery and specially commissioned and crafted Schott Zwiesel glasses. Inflight cuisine options will be modified to mirror the current consumer trend toward lighter meals.

Distinct new signages and carpets, with the Raffles Class logo and colors, will greet passengers at special check-in counters systemwide. Passengers who travel Raffles Class can also expect specially designed ticket jackets boarding passes and baggage identification tags.

Passengers in the Raffles Class can appreciate meals and movies in the comfort of seats equipped with innovative modern hydraulics with easily operated calf supports and adjustable footrests. Raffles Class passengers are never more than one seat away from the aisle.

LOS ANGELES (JUNE 29) BUSINESS WIRE - The Foothill Group (NYSE:FGI) Friday reported that it is making valuation adjustments with an after-tax impact of aproximately $5.4 million on its marketable securities and high-yield investment portfolio.

The estimated pretax adjustments are $6 million at Foothill Thrift and Loan and $3 million at the parent company.

The adjustments were provided due to the continuing price erosion in both the high-yield securities market and the company's high-yield securities portfolio.

After adjustment, the company's high-yield securities portfolio is estimated to be lower than 5 percent of consolidated assets.

These valuation adjustments will result in a consolidated net loss for the second quarter of 1990 between $3.8 million and $4.3 million. Book value per common share at June 30, 1990, after these adjustments, is estimated to approximate $6.50 per share.

The company also announced that it expects to report satisfactory operating earnings for the quarter ended June 30 prior to the above described write-offs.

The Foothill Group specializes in providing innovative financial services through its three highly specialized, yet complementary, operating units.

Foothill Capital Corp. offers asset-based financing tailored to businesses whose credit needs require more unique, sophisticated types of loan programs.

Foothill Thrift and Loan specializes in commercial and industrial lending in California. The Capital Markets Division focuses on asset- management activities, arbitrage trading and investing in companies in reorganization.

WAYLAND, MASS. (JUNE 29) BUSINESS WIRE - Candela Laser Corp. (CLZR) announced Friday the receipt of a grant to develop a new diagnostic instrument which will be used for wide-scale population screening for risk of heart disease.

This innovative diagnostic instrument will measure blood samples to determine relative lipoprotein levels. The new diagnostic device has the capacity to improve the accuracy of this screening, while also reducing the time required and cost of the testing.

The work will be conducted in collaboration with Dr. Angelo Scanu and his

colleagues at the University of Chicago who have developed the separation method. The grant is from the National Institutes of Health under the Small Business Innovation Research (SBIR) program and is valued at $49,422. This brings the total of SBIR grants to Candela to more than $3 million.

Commenting on the SBIR grant, Dr. Michael Lesiecki of Candela said, ''This grant takes advantage of Candela's expertise in fiber optic/light processing technology. The fiber optic based sensor instrument will significantly decrease the time and complexity of sample analysis at a comparatively low cost.''

POCASSET, MA (JUNE 29) BUSINESS WIRE - Howard H. Hill, founder of Datamarine International Inc. (NASDAQ:DMAR), and recently chairman of the board, president and chief executive officer, has resigned his position to pursue other interests.

Hill is one of the original founders of the company and designed the first products, which included the first successful digital depth sounder and boat speed indicators for pleasure boats.

Products designed by Hill and produced by Datamarine have become classics in the boating industry. The Corinthian Line of sailboat products is probably the most successful pleasure boat marine product line ever designed and manufactured by a U.S. company. During his tenure, Datamarine was a consistent winner of national awards for excellence in the conception and manufacture of electronic marine products.

David Thompson, currently chief operating officer for the company, will fill the position of acting chief executive officer while the board conducts a national search for a new president and chief executive officer of the company.

Datamarine International Inc., headquartered in Pocasset, manufactures and sells marine instruments; its subsidiary, SEA Inc. of Delaware based in Seattle, is a leading manufactuer of single side band radios; Data Industrial Corp., based in Pocasset, is in the high-tech industrial flow meter business.

NEW YORK (JUNE 29) BUSINESS WIRE - Manufacturers Hanover Thursday said that an investment group including Manufacturers Hanover, Bell Atlantic International and a number of Argentine companies has been informed by the Argentine government that its bid for a portion of Argentina's state-owned telephone company, Empresa Nacional de Telecomunicaciones (ENTel), has been accepted.

The Argentine government yesterday selected the investment group to purchase 60 percent of the new regional telephone company that will serve the northern portion of the country and approximately half of Buenos Aires. As part of the government's privatization of several state-owned industries, including its railway, airline and oil companies, ENTel is to be restructured and sold as two separate regional companies.

John F. McGillicuddy, chairman and chief executive officer of

Manufacturers Hanover, said, ''We feel that this is an attractive opportunity with excellent long-term prospects for growth. For Manufacturers Hanover, the transaction will allow us to reposition our Argentine portfolio by transforming credits into a tangible investment with the potential for future increases in value.''

The proposed purchase will include a cash investment of $100 million and the tender of Argentine public sector debt and accrued interest with a total face value of approximately $2.3 billion.

Manufacturers Hanover will be arranging a syndicate of financial institutions who will exchange Argentine public sector debt for investments in the telephone company. After the syndication is complete, Manufacturers Hanover expects to retain approximately 16 percent of the company for its own account.

The Argentine partners in the venture include: the Melham Group, a diversified company primarily involved in plastics, petrochemicals and textiles in Argentina; and Garfunkel Group, a diversified Argentine company involved in telecommunications products and services, financial services and other industrial activities. Other Argentine companies in the group are CADIPSA, Welbers-Insua S.A., COFIPA, S.A. and the Newbery Group.

ENFIELD, CT (JUNE 29) BUSINESS WIRE - Lawrence D. Handler, who has been Dairy Mart Convenience Stores Inc.'s chief financial officer since 1975 and executive vice president since 1979, announced that we will leave the company in July to pursue other business activities.

During his career at Dairy Mart, Handler played an instrumental role in most in the principal events which have marked Dairy Mart's extraordinary growth. He helped guide Dairy Mart through its two public offerings in 1983 and 1985 which raised approximately $60,000,000; he helped spearhead Dairy Mart's 1985 acquisition of the 700 Lawson convenience store chain in the Midwest; and he was a principal player in Dairy Mart's acquisition of the CONNA Corp.'s 350 convenience store chain in Kentucky, Indiana, North Carolina and Tennessee.

Most recently, he was a co-leader of the team responsible for the

implementation of Dairy Mart's state-of-the-art computer system.

In addition to his positions at Dairy Mart, Handler is active in the Connecticut Society of CPA's, the American Institute of CPA's, and in various retail trade associations. Handler, a graduate of the University of Connecticut and the New York University Graduate School of Business Administration, resides in West Hartford, Conn., with his wife and two children.

#90180b0675 06/29/1990 ~Business Wire

MEMPHIS, TENN. (JUNE 29) BUSINESS WIRE - Seven Oaks International Inc. (NASDAQ/NMS:QPON) Friday reported a loss from continuing operations of $2,546,000, or 40 cents per share, for its fiscal year ended April 30, 1990.

The results compare with a loss in fiscal 1989 of $3,792,000, or 59 cents per share. Revenues for fiscal 1990 from continuing operations totaled $21,851,000 compared with $29,050,000 in fiscal 1989.

The company said that the results reported from continuing operations exclude the losses related to the operation and sale of the company's redemption agency subsidiary in the third quarter of fiscal 1990 and the operation and sale of its telemarketing subsidiary in fiscal 1989.

The fiscal 1990 results also exclude an extraordinary credit of $173,000, or 3 cents per share, from utilization of capital loss carryforward.

Frank J. Donato, chief executive officer, said that the loss for fiscal 1990 resulted primarily from the charge-off for doubtful accounts and a change in the marketing focus of its clearinghouse operations.

He remarked, ''The after-tax expense for doubtful accounts totaled $1,838,000, or 29 cents per share, for the year, principally reflecting our decision to adopt a more conservative accounting procedure for estimating the expense from coupons accepted by Seven Oaks from retailers but subsequently rejected by manufacturers.

This change is only one of the actions taken to improve our systems for verifying coupons and to gain better control of the company's receivables.

''During fiscal 1990 we shifted our marketing focus toward larger retailers. Specific actions included extending the payment terms on coupons submitted by retailers, changing the direct charges for the

company's clearinghouse services and eliminating certain unprofitable accounts.

Seven Oaks International operates as a clearinghouse between retailers and product manufacturers in processing cents-off coupons. The company's common shares are traded over-the-counter under the National Market System symbol QPON.

STAVANGER, NORWAY (JUNE 29) BUSINESS WIRE - The board of directors of Statoil, the Norwegian state oil company, Friday approved the timecharter of five Aframax-size (100,000 d.w.t.) crude oil tankers from three Norwegian shipowners.

Two of the ships are double-hulled, two have double-bottoms, and one has a partial double bottom.

With the charter of these vessels, Statoil's fleet will consist of 28 crude oil, refined product and gas tankers, of which 22, or approximately 80 percent, have whole or partial double sides and double bottoms. ''With these timecharters, Statoil becomes one of the few oil companies in the world with such a high percentage of environmentally-sound vessels,'' said Kristoffer M. Maroe, general manager, Statoil North America Inc.

Statoil is chartering five additional ships because of the increasing availability of crude oil from the Norwegian North Sea over the next few years. The timecharter contracts have a combined value of NOK 2.2 billion (or approximately U.S. $340 million) and the vessels will be delivered between July 1990 and the first quarter of 1993.

The contracts include: -- One crude oil carrier of Aframax size, 100,000 d.w.t., from shipowners E.B. Aaby, Oslo. The vessel will be delivered from the Spanish Sestato yard in July of this year. Equipped with a partial double bottom, it has been chartered for five years. --Two crude oil carriers of Aframax size, 100,000 d.w.t., with double bottoms, from shipowners Christian Haaland A/S, Haugesund, for a term of five years.

Currently under construction at the Yugoslavian 3rd of May Yard, the tankers will be delivered in the second and fourth quarters of 1991, respectively. --Two double-hulled crude oil carriers of Aframax size, 100,000 d.w.t., from shipowners M.J. Ludwig Mowinkel Rederi A/S, Bergen, for a term of 10 years. The vessels will be delivered by the Japanese Sumitomo Group in the fourth quarter of 1992 and the first quarter of 1993, respectively.

Statoil North America Inc., a wholly owned subsidiary and the supplier of increasing amounts of energy to the United States and Canada, began operations in New York in 1987. It now sells more than 200,000 barrels a day of energy products to North America. On July 1, Statoil North America is relocating from Manhattan to Stamford, Conn.

HAARLEM, The Netherlands (JUNE 29) BUSINESS WIRE - VNU, a leading international publishing group based in The Netherlands, Friday announced that its Business Press Group had reached agreement with Ziff-Davis Publishing Co. to continue their cooperative working relationship in the United Kingdom and the United States.

Ziff-Davis has renewed VNU's license to publish PC Week in the UK on a long-term basis, solidifying VNU's position as a leading publisher of computer magazines in Europe. At the same time, VNU announced that certain assets of Personal Computing, its sole remaining US business publication, will be sold to Ziff-Davis. Personal Computing's subscribers will be transferred to Ziff's PC/Computing, strengthening Ziff Davis' leadership in the US computer publications sector.

VNU said the announcements furthered its strategy of focussing its Business Press activities in Europe and would benefit earnings. ''We hope to further develop our cooperative ties with Ziff-Davis in the Business Press area, revitalizing a long and mutually beneficial relationship,'' Germen J. Ypma, Executive Board Member of VNU said, adding, ''Our US presence is now solidly focussed on our Business Information Services Group, which is healthy, profitable and growing.''

Philip B. Korsant, Vice Chairman of Ziff Communications Company, said, ''VNU has been a good partner and we look forward to working together in the United Kingdom for a long time to come.''

Founded in 1927, Ziff-Davis is the leading US publisher of microcomputer publications, including PC Week, PC/Computing, PC Magazine, MacUser, MacWeek, Computer Shopper, and PC Sources.

The company recently introduced the Ziff-Davis PC Network, an unequalled marketing system for the PC industry, and the Ziff- Davis MacNetwork, the most efficient and effective marketing system in the Mac market.

VNU is Holland's largest magazine and newspaper publisher, with fully integrated publishing, printing and distribution arms. The Group also publishes trade magazines, has interests in educational publishing, and is active in a broad range of business information services, mainly in the US.

VNU's shares trade on the Amsterdam Stock Exchange and prices may be accessed on the Reuters Equities 2000 service under the symbol VNUS.AS and on Quotron under the symbol VNUN.EU.

#90180b0692 06/29/1990 ~Business Wire

BURLINGTON, VT (JUNE 29) BUSINESS WIRE - Banknorth Group Inc. announced Friday that, as a result of continued increases in levels on nonperforming assets in the second quarter of 1990, it plans to make a provision to the allowance for possible loan losses of $5.2 million in the second quarter.

The provision made in the first quarter of 1990 was $1.7 million and in the second quarter of 1989, $1.4 million. Assets classified as nonperforming--those loans not presently accuring interest, accruing interest but 90 days or more past-due, and restructured loans plus foreclosed real estate (OREO)--are expected to equal approximately $28.6 million by June 30, 1990, or approximately 1.7 percent of assets. Nonperforming assets were $21.9 million at March 31, 1990, or 1.4 percent of total assets.

The company expects to take charge-offs, net of recoveries, of approximately $2.5 million in the second quarter of 1990. Net charge-offs in the first quarter of 1990 were $1.4 million. Banknorth's Chief Executive Officer, John H. Barry, stated that ''The increased level of provision is necessary to allow us to take necessary charge-offs and still maintain an allowance for possible loan losses that provides coverage of nonperformers at 60 percent or better, a level we consider prudent based upon the economy and our internal loans reviews.''

Banknorth's second quarter earnings, which are scheduled to be released on July 24, 1990, are expected to be in the range of 33 cents to 38 cents per share. Earnings per share were 55 cents per share in the prior quarter and 69 cents per share in the second quarter of 1989.

The company paid its regular second quarter cash dividend of $.27 per share on June 8, 1990. As previously reported, income of approximately $2.5 million representing the remainder of the gain on the divestiture of the First Vermont Bank & Trust Co. offices in Barre, Vt., will be recognized in the second quarter of 1990 which will reduce the impact of the higher provision for loan losses.

Banknorth Group Inc., the largest commerical banking company in Vermont was formed on Dec. 1, 1989 with the merger of Banknorth Group Inc. and Howard Bancorp and is comprised of First Vermont Bank and Trust Co., Franklin Lamoille Bank, Granite Savings Bank and Trust Co., The Howard Bank, N.A. and Woodstock National Bank. Banknorth Group Inc. common stock is traded on the NASDAQ National Market System under the symbol BKNG.

Information published prior to Dec. 1, 1989 does not relate to the new BKNG stock.

#90180b0694 06/29/1990 ~Business Wire

SHARPSBURG, MD (JUNE 29) BUSINESS WIRE - An important and innovative sewer system will be dedicated here on Saturday, June 30. The new low pressure sewer system indicates a technology trend for a growing number of communities across the nation.

Situated in the scenic rolling hills of southern Washington County, The Towns of Sharpsburg and Keedysville exemplify the rural, small town environment of western Maryland. Shrouded in the history of the Civil War, the area surrounds the Antietam Battlefield, site of a major conflict during the summer of 1862.

In the late 1970s planning began for addressing difficulties with wastewater disposal in the Towns. The old septic systems and cesspools were not working. Design of the system took place in 1986 and 1987. PSC Engineers and Consultants of Hunt Valley, Maryland performed the planning, design and engineering services during construction.

The Washington County Sanitary District staff provided for all on site construction management. The project went to bid in 1988. On June 15, 1990 all contracts were complete and the system fully operational.

The success of the project depended on the cooperation and participation of many parties. Foremost are the officials and residents of Sharpsburg and Keedysville. The Commission and staff of the Washington County Sanitary District spent many weeks and months managing, directing, and coordinating the entire effort.

Funding and regulatory oversight were provided by the Maryland Department of the Environment, the U.S. Environmental Protection Agency, and the U.S. Department of Housing and Urban Development. The support of the Washington County Commissioners was essential in the final implementation of the project.

The total project costs were about $17 million. Over $13.6 million was provided by the U.S. Environmental Protection Agency; approximately $1.6 million was provided by the State of Maryland; $500,000.00 came from the U.S. Department of Housing and Urban Development through the Community Block Grant Program administered by Washington County; the remaining project funds were generated by a local bond issue supported by the

Washington County Commissioners.

The collection of wastewater from the homes and businesses in the two communities is by means of an innovative pressure concept. Each customer is provided with a "grinder" pump in a small tank which collects the sewage from the home.

FT. MITCHELL, KY (JUNE 29) BUSINESS WIRE - Sunrise Bank for Savings (NASDAQ:SRSL), has been allocated Kentucky Housing Corp. first-time home-buyer money. ''This is good news for Northern Kentucky,'' said Gene Taylor, senior vice president.

''The bank participates in these type programs because it reflects our on-going commitment to single-family lending.'' This program offers a very attractive rate and term to the first-time homebuyer. The funds will be available at an 8.45 percent fixed rate for 30 years. Sunrise will

begin taking applications the first week of July.

Qualifications are similar to previous KHC programs offered through Sunrise. Income must be $28,000 or less for a single individual plus $1,500 additional for each dependent. The purchase price of an existing home cannot exceed $53,000 and $56,000 for a new home.

Sunrise has processed $6.3 million in KHC loans over the last 12 months. This issue should be equally attractive to the first-time homebuyer out there today!

DALLAS (JUNE 29) BUSINESS WIRE - Dallas-based Apollo Resources Inc., a Delaware corporation, (OTC) announced Friday that it has acquired all of the outstanding stock of FirstSouth Commercial Corp., a Texas corporation.

In connection with that acquisition, Apollo is changing its name to FirstSouth Commercial Corp. FirstSouth Commercial Corp. offers factoring services to medical providers, to medical insurance claims processors, and to a variety of other businesses.

During the four months ended April 30, 1990, FirstSouth Commercial Corp. had a net income of $39,339 on income of $90,000.

Under the terms of the Agreement Plan of Reorganization, Apollo acquired all of the outstanding shares of FirstSouth Commercial Corp. in exchange for Apollo Resources Inc., common stock. In addition to changing its name to FirstSouth Commercial Corp., Apollo will undertake a one-for-two reverse stock split. The effective date of the reverse split is June 26, 1990.

FORT WORTH, TX (JUNE 29) BUSINESS WIRE - Dallas Oil & Minerals Inc. (NASDAQ:DOIL) announced Friday an ongoing program for the purchase of up to 500,000 shares of common stock

The total cost of the stock repurchase program is not expected to exceed $100,000. The repurchase program is primarily targeted toward holders of

200 shares or less of the company's common stock

The repurchase program has been instituted because open market transactions have been frustrated by the high transaction costs associated with such sales. The repurchases may be made in negotiated transactions or otherwise and will be based on the then prevailing quoted bid price of the company's common stock.

In addition, the company intends to contact those shareholders owning 100 or less shares to determine their interest in participating in the repurchase program.

The company is engaged in the exploration, production, development and acquisition of oil and gas properties located primarily in the Southwestern United States.

LIBERTY, KY (JUNE 29) BUSINESS WIRE - OshKosh B'Gosh Inc. (NASDAQ:GOSHA) today announced a 111,760 square-foot expansion of its plant in Liberty.

The expansion will more than double the size of the company's largest knit top production facility. The annoncement was made by Michael D. Wachtel, senior vice president of operations for OshKosh B'Gosh Inc.

According to Wachtel, the Liberty plant is being expanded to accommodate the increased demand for OshKosh B'Gosh knit garments. In addition to the existing sewing capabilities, the augmented production facilities will include raw material warehousing, computerized cutting machinery, and equipment for screenprinting and embroidery applications. ''This plant presented us the greatest potential for expansion,'' said Wachtel. ''When completed, it will be a highly efficient, cost-effective operation.''

Wachtel said construction will begin immediately. The new equipment will be delivered mid-February, with the facility fully operational by early March. He anticipates adding up to 150 new jobs at the plant next year.

OshKosh B'Gosh Inc., headquartered in Oshkosh, Wis., currently owns and operates five facilities in Kentucky.

INDIANAPOLIS (JUNE 29) BUSINESS WIRE - INB Financial Corp. (NASDAQ:INBF) today announced that an in-depth review and analysis of its loan portfolio in light of current market conditions, with particular emphasis on real estate construction loans, is close to completion.

As a result, nonperforming assets are expected to increase approximately $30 million over the March 31, 1990 level of $78.7 million. The corporation anticipates an additional provision for credit losses of $20 million in the second quarter INB Financial Corp. expects to post an nominal profit for the quarter.

Thomas M. Miller, chairman of the board, said, ''Every attempt is being made in this review to reflect current market conditions while using the same standards that have been recently applied by the Office of the Comptroller of the Currency in various areas of the country. Over 80 percent of the increase in nonperforming loans will be in loans that are meeting previously agreed to terms and conditions and are current or less than 90 days past due as to principal and interest.''

INB Financial Corp. is a multi-bank holding company based in Indianapolis. The corporation's bank affiliates provide a full range of banking and trust services to individuals, businesses, other institutions and government agencies located primarily in Indiana and the central Midwest. Through its bank-related affiliates, the corporation also provides a diverse portfolio of financial services, including mortgage banking, leasing, insurance and brokerage services.

MURRAY HILL, NJ (JUNE 29) BUSINESS WIRE - C. R. Bard Inc. (NYSE-BCR) held a regular June meeting with security analysts in Boston yesterday, June 28.

The presentation included a review of 1989, long-term financial performance and the first quarter of 1990. At its annual meeting ealier this year, Bard reported first quarter results as follows: Sales $195.2 million, net income $9.2 million and earnings per share 17 cents.

The presentation focused on Bard's varied product line, noting that the company has an important market share in these products and that these businesses are performing well this year. The company reaffirmed its commitment to re-enter the domestic balloon angioplasty market as soon as it gains FDA approval.

George A. Davis, Bard's chief financial officer, reported that Bard would release its second quarter 1990 results on Thursday, July 19th and further commented, ''While we don't make forecasts, estimates by others indicating Bard will earn 90 cents per share this year seems reasonable, assuming we see a modest increase in consolidated net sales in the second half over the first six months.''

C.R. Bard Inc., headquartered in Murray Hill, N.J., is a leading multinational developer, marketer and manufacturer of health care products.

BOCA RATON, FL (JUNE 29) BUSINESS WIRE - SK Technologies Corp. (NASDAQ:SKTC) Friday announced the operating results of the company's fiscal year ended March 31.

SK's reported total revenues of $801,314 compared with revenues of $469,650 for the 1989 fiscal year end reflect an increase of 71 percent. The net loss for the year was $959,259 or 9 cents per share vs. a loss of $209,991 or 2 cents per share for the like period a year ago.

Management attributes the net loss for the year ended March 31 primarily to a 268 percent increase in research and development costs ($328,375 vs. $89,117) for the like period a year ago, as well as an increase of 164 percent in selling, general and administrative expenses ($1,148,358 in the current period vs. $435,262 for the like period a year ago).

Increases of expenditures in these areas were directly attributable to SK's foray into the retail marketplace in addition to the company's existing business of selling to the food service market.

During the fiscal year ended March 31, the company also established an internal sales, marketing and accounting infra-structure that should, in management's opinion, improve company operations, and over time help reduce operating costs.

SK Technologies has also implemented an aggressive sales/marketing program to gain wider awareness and acceptance of the company's software product in the marketplace. Randy Selman, president of SK Technologies said, ''This was a critical year in our growth and development and represents an investment in our future.

''We have taken a major step forward with our software package into the fast food business and are currently making major strides in the retail

business as well. We have many exciting projects in the works now and are positioned for a very healthy growth spurt in the coming year.''

SK Technologies Corp. develops and markets point-of-sale and data communications software specifically designed for fast food, restaurant and retail operations as well as other franchise businesses.

HOUSTON (JUNE 29) BUSINESS WIRE - Wainoco Oil Corp. announced Friday that it had completed the acquisition of U.S. oil and gas properties of Tredegar Industries Inc. for $15.3 million.

The signing of the purchase and sale agreement had previously been announced on June 1. The properties are located in Texas, Louisiana, Mississippi and Arkansas.

Net proved reserves are estimated by Wainoco to be 1.6 million barrels of oil and six bcf of natural gas. Both the purchase price and the gas volumes were lower than previously announced due to the exercise of a preferential purchase right by a third party. Wainoco Oil Corp. is a publicly held oil and gas exploration and production company with operations throughout North America. Wainoco's common shares are listed on the New York and Alberta Stock Exchanges.

NEW YORK (JUNE 29) BUSINESS WIRE - S.E. Nichols Inc. (ASE:NCL) announced Friday that the company will not pay interest by June 30, 1990, the date of expiration of the 30-day grace period for the interest payment due June 1, 1990 on its outstanding 14-7/8 percent First Senior Subordinated Debentures.

It was further announced that, as a result of this nonpayment of interest, an event of default shall have occurred as of July 1, 1990 under the Indenture governing the 14-7/8 percent Debentures and, by reason of cross-default provisions, under several of the company's other outstanding

long-term debt instruments, including its 15 percent Senior Subordinated Sinking Fund Debentures and that it was not anticipated that the company will pay interest due September 1, 1990 on such 15 percent Debentures.

Management of Nichols further stated that the company remains committed to actively pursuing various financing alternatives which may be available to Nichols, including a potential restructuring of its outstanding two series of Debentures, and that the company has retained the investment banking firm of Paribas Corporation to assist it in connection with these matters.

It was noted, however, that there can be no assurance that the alternatives being examined by management will assist the Company in ultimately resolving its long-term debt obligations generally without seeking protection under the Federal Bankruptcy Laws.

Management of Nichols also announced that its program for the reorientation of its existing stores to the deep discount retail merchandising of pharmaceuticals and certain hardgoods items is proceeding on schedule and continues to produce encouraging results. Kenneth A. Davis, President and Chief Executive Officer of Nichols, noted that the Company is currently operating 11 of these deep discount stores under the ''Pharmhouse'' TM name; and that management plans to have an estimated 19 Pharmhouse stores in operation by July 31. Mr. Davis further stated that the company has sublet available retail space adjacent to a total of five of its Pharmhouse stores to two retail apparel chains.

S.E. Nichols Inc. has operated discount department stores in nine Mid-Atlantic states, but has been engaged since early 1990 in a restructuring of its retail operations to phase out its discount department store operations and to devote its efforts to the operation of Pharmhouse stores featuring the deep discount merchandising concept described above.

NEW YORK (JUNE 29) BUSINESS WIRE - Information Management Technologies Corp. (''IMTECH'') 1/8NASDAQ: IMTKA (Class A Common), IMTKU (Units), IMTKW (Class A Warrants)3/8 Friday announced audited results for the year ended March 31, 1990.

For the year ended March 31, 1990 sales increased 95 pct. to $15,163,606 from $7,757,968 in the twelve months ended March 31, 1989. The net loss for the year was reduced to $1,552,122 or $.19 per share, from a loss of $4,415,002 or $.62 per share for the twelve months ended March 31, 1989.

The increase in sales reflects the Company's continuing successful efforts to sell its Information Facilities Management (''IFM'') and regional center services, as well as the inclusion of sales from the June 1989 acquisition of Jon Rothenberg and Associates and sales of its COINS optical disk storage system since December 1989.

Commenting on the results, Pierce Lowrey, Chairman and CEO of IMTECH, said ''We are pleased that our sales continue to grow from new sources of business as well as by expanding and enhancing the services we offer to existing customers. The significant reduction in net loss in fiscal 1990, resulted from an increase in gross profit margins and a reduction in selling, general and administrative expenses as a percent of sales. This improvement in gross profit margins reflects higher utilization of our production equipment and personnel, successful efforts to increase prices to current and new customers as well as a reduction in the cost of services and materials purchased from third party suppliers.''

Lowrey continued, ''As we previously announced, to proceed with our current strategy to grow the business, I have committed to to loan the Company up to $750,000. In addition we have recently obtained a $500,000 bridge loan from private investors. Over the past several weeks we have entered into a number of new agreements which, coupled with our continuing cost reduction efforts, we believe will have a positive impact on our financial results in forthcoming quarters.''

IMTECH provides on-site and off-site information facilities management (''IFM'') services, turning many of its clients' ''back-office'' operations into revenue producers while minimizing seemingly limitless support functions. IMTECH allows its clients to focus on their primary business by providing a wide range of services including reproduction, printing, word processing, electronic publishing, fulfillment, records management, facsimile management and general mailroom operation.

LOS ANGELES (JUNE 29) BUSINESS WIRE - Howard K. Lee announced Friday that the offer by Edward T. Chan, George H. Lai, Howard K. Lee, Johnny Ma, Kurt Oetiker and Katy C. Shu (collectively the Purchasers) to purchase all, but not less than 385,461, of the outstanding shares of Common Stock of Grand National Bank, with headquarters in Santa Ana, has been extended until 5 p.m. Pacific time on June 29.

Such extension of the offer was made in accordance with an agreement between the Purchasers and Grand National Bank. The offer, as extended, currently remains subject to all of the terms and conditions described in the tender offer materials, dated May 1, 1990, which were distributed to the shareholders of Grand National Bank.

As of the date hereof, approximately 91 percent of the bank's shares have been properly tendered in response to the offer and an additional 5 percent of the shares have been tendered but remain subject to the correction or waiver of certain deficiencies in the form or manner in which they were tendered.

VANCOUVER, BRITISH COLUMBIA (JUNE 29) BUSINESS WIRE - Coral Gold Corp. (TSE/VSE:CLH)(NASDAQ:CGLDF) reported Friday that, pending a review of geological data, Amax Gold Inc. has suspended deep exploration of the company's Robertson gold property in northern Nevada.

As a result, Amax Gold has shifted the focus of its exploration to shallow drilling to explore the property's previously undrilled potential for heap leach gold production in one area and to expand drilling in another section of the property previously tested, but only by widely-spaced drill holes.

Although the deep drilling has intersected persistent detectable gold values, the program has to date not penetrated the intended geological target. The work has also been hindered by mechanical difficulties related primarily to the hardness of the rock.

Since shifting from the deeper focus, Amax Gold has completed at least 20 shallow drill holes. Initial results show widespread and consistent mineralization grading .01 to .02 ounces of gold per ton. The shallow drilling will continue with the intent of locating pockets of higher grade mineralization.

The Robertson property, located in northern Nevada on the Battle Mountain gold trend, is the focus of an exploration agreement between Coral Gold and Amax Gold Inc., whereby Amax Gold can earn up to a 70 per cent interest in the property by completing a four-stage exploration and development program.

The agreement carries a commitment by Amax Gold to spend up to US $11.5 million if all four stages are completed.

OCONOMOWOC, WI (JUNE 29) BUSINESS WIRE - Joseph B. Weix, chairman of the board of Stoekly USA Inc., announced the construction of a new corporate headquarters in Oconomowoc.

The two-story building will cover approximately one acre of Stokely's 13 acre site located in the new Oconomowoc Corporate Center on the northwes cornert of Highway 67 and I-94. Construction is scheduled to begin in September of this year with completion targeted for December 1991. Slater and Associates of Waukesha are the project architects.

''In selecting a site for the new building, it was highly desirable to stay within the city of Oconomowoc. Our company has been closely identified with this community in name and heritage for 70 years,'' Weix said.

Stokely USA Inc., originally known as Oconomowoc Canning Co., was founded in 1920 and has operated at its Wisconsin Ave. location in Oconomowoc since that time. The company's recent growth in sales and increased staffing requirements resulted in the need for additional office space. Sales have grown from $44 million in 1983 to $272 million in the fiscal year ended March 31, 1990. Stokely currently employes 140 at is corporate headquarters.

Stokely USA is pleased to be part of the Oconomowoc Corporate Center which is being developed at the intersection of Highway 67 and I-94 by Continental Properties Co. Inc. of Milwaukee. This attractive business park will mark the southern gateway to the city.

Stokely USA processes and markets a broad range of canned vagetables, fruits, tomato products and juices under the nationally recognized Stokely's Finest, Stokely's Singles and other brand labels; under customer private labels; and to the food service industry. Headquartered in Oconomowoc, Stokely operates eighteen processing facilities in the Midwest Pacific Northwest and Mexico.

CHATTANOOGA, TN (JUNE 29) BUSINESS WIRE - Daniel K. Frierson, chairman of the board of Dixie Yarns Inc. (''Dixie''), Friday announced that Dixie has agreed in principle to invest in Harding Carpet's operations through a corporation in which Clarus Corp. (''Clarus''); members of Harding's management, including Brian Daniels, president; and Dixie will be shareholders.

Harding, presently a division of Clarus, is a leading Canadian manufacturer and distributor of carpets for residential and commercial use with 1989 reported sales of approximately $125 million (Canadian). Early in 1990, Dixie entered into a strategic alliance with Harding to supply the majority of its requirements for spun yarns.

Through this alliance, Harding announced plans to emphasize a long-term strategy for the growth of its business in the high-end segments of the carpet industry through product differentiation and innovative and proprietary styling.

Frierson stated that while the parties have agreed in principle to the transaction, the arrangement is subject to various contingencies, including the approval of Clarus debenture holders, obtaining the necessary financing for the new entity, execution of a agreeable

definitive agreement by the parties, and approval of the boards of directors of Clarus and Dixie.

Dixie's business consists of four product categories: specialty yarns, industrial sewing threads, knit fabrics, and carpet and rug yarns. The company manufactures and markets yarns and threads from a variety of natural and man-made fibers and also processes yarns into knit fabrics.

Its products are used in the apparel, carpeting, domestics, drapery and upholstery, hosiery, industrial fabrics, transportation, and other industries.

Dixie's common stock trades on the over-the-counter National Market System with the NASDAQ symbol DXYN.

BOSTON (JUNE 29) BUSINESS WIRE - Psychemedics Corp. (NASDAQ/OTC:PCMC) of Boston, Friday announced a private placement of $2 million.

The private placement was in the form of common and preferred stock, subordinated notes and warrants.

Dr. Lawrence Kaufman, president and chief executive officer of Psychemedics said, ''We will use the proceeds of this private placement to finance this period of rapid and accelerating growth. Additionally, we look forward to expanding our sales and marketing programs both in the United States and abroad.''

An investor group including H. Wayne Huizenga of Ft. Lauderdale, Donald F. Flynn of Chicago, and other investors will invest approximately $2 million for 317,220 shares of common stock or approximately 3 percent of the company's outstanding shares; 127,479 shares of a newly created series of 15 percent convertible preferred stock,; convertible subordinated notes in the principal amount of $500,000 and warrants to acquire an additional 475,949 shares.

Part of the investment is being made by converting $1,050,000 of the company's debt to equity. The warrants are for a term of five years and are exercisable at the current market price. The preferred stock and convertible subordinated debt are convertible after six months at $3.53 per share, a discount of 20 percent from the current market price.

Psychemedics Corp. is engaged in drug testing using a proprietary method which analyzes hair for drugs of abuse. Hair testing using Psychemedics technology is currently being used successfully by over 80 corporations

throughout the United States. Psychemedics is traded on NASDAQ/Over-the-counter under the symbol ''PCMC.''

CLEVELAND, OHIO (JUNE 29) BUSINESS WIRE - June 29, 1990 -- Ferro Corporation (NYSE-FOE) stated that the Company expects that its earnings for the second quarter ending June 30th will be substantially lower than last year's second quarter results. The spokesman said that the factors which caused the Company's first quarter earnings to be lower than last year's results continued into the second quarter. He said, "While we expect the second quarter to be somewhat better than the first quarter, our earnings in the second quarter continued to be adversely affected by the economic conditions in Latin America, especially in Brazil, by start-up costs of the Company's new chemical operations in France and by the continuing sluggish demand in the U.S. automotive market."

Ferro Corporation is a major international producer of industrial specialty materials including coatings, colors, ceramics, chemcials and plastics. The Company reported sales of $1.08 billion in 1989.

#90180b0796 06/29/1990 ~Business Wire

CAMBRIDGE, MA (JUNE 29) BUSINESS WIRE - American Science and Engineering Inc. announced Thursday a loss of $1,609,000, or 43 cents per share, for the fourth quarter of fiscal year 1990 which ended March 31, 1990, compared to a profit of $53,000, or 2 cents per share, for the fourth quarter last year.

Included in the fourth quarter profit last year was an extraordinary item (the tax benefit of a net operating loss carryforward) of $19,000, or 1 cent per share.

Included in the loss of the fourth quarter for the year ended March 31, 1990, are certain nonrecurring items which increased the loss, as follows: inventory adjustments ($456,000), a reserve for termination costs ($110,000) for a work force reduction effected on May 1, 1990, and a provision for a contract overrun ($105,000).

The loss for the fiscal year ended March 31, 1990, was $2,092,000, or 56

cents per share, compared to a profit of $400,000, or 11 cents per share, for the fiscal year ended March 31, 1989. Included in the income for the fiscal year ended March 31, 1989, was an extraordinary item (the tax benefit of a net operating loss carryforward) of $137,000, or 4 cents per share.

Sales for the fourth quarter were $3,994,000 compared to sales of $6,286,000 for the same period last year. Sales during the fiscal year ended March 31, 1990, were $18,449,000, compared to $24,804,000 for the fiscal year ended March 31, 1989.

Negotiated backlog at March 31, 1990, was $4,885,000.

The company believes that the actions it has taken to reduce costs, to improve sales, and to expand its product line will have both a near term and long term benefit. Specifically, the company received a first payment from Toshiba Corp. of $600,000 in June 1990 as part of its licensing agreement with Toshiba for AS&E's MICRO-DOSE X-Ray Inspection Systems.

In addition, the company has invented a new system for the automatic inspection of checked luggage of airline passengers. This system is designed to be used by the airlines to ensure security in a reliable and cost effective fashion.

CLEVELAND, OH (JUNE 29) BUSINESS WIRE - June 29, 1990 -- Ferro Corporation (NYSE-FOE) confirmed that it has received a notice from Jon Huntsman that he has made a filing under the Hart-Scott-Rodino Antitrust Improvements Act of 1976.

Ferro said that Huntsman's notice to Ferro stated that, ''Huntsman intends to acquire common stock, par value $1.00 per share, of Ferro Corporation.'' It went on to state that, ''As a result of such acquisition Huntsman intends to hold shares of Ferro common stock valued in excess of $15 million, but representing less than 15 percent of Ferro's outstanding voting securities.'' The notice further stated that, ''Huntsman does not intend, either alone or in concert with another person, to exercise control of Ferro.''

A Ferro spokesman stated that the Company has no further comment at this time.

Ferro Corporation is a major international producer of industrial

specialty materials including coatings, colors, ceramics, chemicals and plastics. The Company reported sales of $1.08 billion in 1989.

KULPSVILLE, PA (JUNE 29) BUSINESS WIRE - Transducer Systems Inc. (''TSI''), announced Friday that it has consummated a transaction pursuant to which the shareholders of RD Technologies Inc. (''RD'') exchanged their stock of RD for stock of TSI.

AS a result of such exchange, RD will become a wholly-owned subsidiary of TSI.

RD was formed by Burton Drill and Dr. Mario Rafalin to develop, engineer and manufacture sensor devices. Dr. Rafalin owns several manufacturing businesses, including AVA Electronics in Drexel Hill, Pa. Drill founded TSI and was president of TSI from 1973 to 1981.

In addition to the aforementioned exchange of stock, Dr. Rafalin has purchased additional shares and warrants of TSI and, as a result thereof, has become the majority shareholder of TSI.

At the conclusion of the aforementioned transactions, Harlow Eichler and Alfred Hamel resigned as directors of TSI and Dr. Rafalin and Drill were elected to serve as directors in their place. The new board of directors elected Dr. Rafalin as TSI's new chairman and chief executive officer and Drill as TSI's new president and chief operating officer.

NEW YORK (JUNE 29) BUSINESS WIRE - Virgin Atlantic Airways, the second largest long-haul airline in the United Kingdom, is delighted to announce that it has obtained the UK and US rights to operate a daily service from London Gatwick to Boston which will commence in May, 1991.

The announcement of the new route for Virgin follows bilateral talks between the US and UK governments which have opened up the respective markets to greater competition that has existed in the past.

For Virgin, this news follows the successful launch of the new Los Angeles service in May 1990 and creates a route network which includes Miami, New York (JFK and Newark), Orlando and Los Angeles. Virgin also offers service to Moscow and Tokyo from Gatwick. In addition to the new confirmed launch of Boston, the airline hopes to launch routes to Singapore and Australia by the end of 1991.

Commenting on the announcement, Virgin Chairman, Richard Branson said, ''I am delighted that the bilateral talks with the US government have been brought to such a successful conclusion. I believe that by increasing competition and opening regional airports to intercontinental traffic that the economies of areas outside the South East of England will also be able to benefit from this agreement. Virgin is now considering offering a British counterbalance to US carriers in the regions.

''For Virgin Atlantic, the deal comes at a time when we have just agreed to the acquisition of two more 747 aircraft to bring the total fleet to eight in 1991. This will give us the flexibility of an extra aircraft above the requirements of the route network. The Boston service will be daily and non-stop from Gatwick and will mean at least 200 new jobs at Virgin Atlantic on top of the existing workforce of 1800.

''The news comes at the end of a week which has seen Virgin gain rights to Australia and agree to the purchase of extra aircraft. Negotiations have also commenced with Boeing for 747-400 series aircraft, McDonnell-Douglas for MD-11 aircraft and Airbus Industrie for A-340 aircraft. Presentations to Virgin Atlantic by all three aircraft manufacturers will take place over the next two months.''

Voyager Travel Holdings, Virgin Atlantic's parent company, recently announced pre-tax profits of $15.5 million on a turnover of $199 million for the year to July 31, 1989. Seibu Saison Group of Japan and Virgin recently confirmed the injection of $62 million of equity and convertible loan capital in return for a 10 percent equity stake in Voyager Travel Holdings. Conservative estimates now place a value on the airline and travel group in excess of $259 million after only six years since its first inaugural flight to New York.

PHOENIX (JUNE 29) BUSINESS WIRE - Youths in America's hottest city -- Phoenix -- will receive a cool splash of relief from the current heat wave tomorrow through July 4.

Speeding to the rescue, Kool-Aid Man -- the brand's famous diplomat -- has been dispatched to bring quick relief from the 122-degree temperatures. On Saturday during Operation ''Beat-the-Heat,'' he will drop by helicopter into Tempe's Island of Big Surf waterpark, with the sole purpose of keeping the waterpark open until midnight and allowing free evening activities to Phoenix-area kids. (Admission is normally $8.95 per child.)

Island of Big Surf has the largest wavepool in the United States. Kids can swim, splash and dive in the wavepool, or slide in any one of the park's 10 refreshing waterslides until midnight each evening. At the same time, two G-rated movies will be shown each night on the park's huge ''Dive In Movie'' screen.

Kool-Aid Man will cool down everyone who enters the park with free Kool-Aid soft drinks and prizes will be awarded each night.

''We wanted to help, so on Thursday we talked to parents in the Phoenix area, and they all said the same thing -- the only time it is cool enough to take their families outside is in the evening,'' said Doug Smith, vice president and general manager of Kraft-General Foods Beverage Division, makers of Kool-Aid. ''So we immediately designed a night-time family activity to help solve the problem created by the heat.

''Operation 'Beat-the-Heat' offers a break from the record-setting temperatures and hopefully will give children and parents in that heat-stricken area a wholesome, cool activity they can do together.''

Because record-breaking temperatures are expected in the west well into the first week of July, Operation ''Beat-the-Heat'' activities will run from 5 p.m. to 12 midnight through Wednesday, July 4.

HOUSTON (JUNE 29) BUSINESS WIRE - An agreement for the acquisition of Plaza National Bank of Dallas, Texas by Compass Bancshares Inc., Houston, Texas, was announced Friday by Charles McMahen, chairman and chief executive officer of Compass Bancshares and Jack Griggs, president of

Plaza Bancorporation.

Plaza National Bank is the fifth bank to be acquired by Compass Bancshares since November of 1989. Four of the banks are in the north Dallas area and one is located in Houston. With the addition of Plaza, Compass will serve the Texas market with 12 offices.

Under the proposed agreement, Compass will purchase Plaza National Bank for cash and assumption of debt of approximately $1.6 million, plus future consideration depending on the performance of certain loans held in escrow.

The transaction which has been approved by the boards of directors of Compass and Plaza Bancorporation is subject to approval by the appropriate regulatory agencies and the shareholders of Plaza Bancorporation. The acquisition is expected to be completed this year.

Compass Bancshares Inc. has assets of more than $350 million and six banking offices in Houston and five in the north Dallas area. Compass is a wholly-owned subsidiary of Central Bancshares of the South Inc., a Birmingham, Ala. based bank holding company with assets of $4.6 billion and a capital base of more than $300 million.

Plaza National Bank was organized in 1981 and is located at the intersection of Skillman and Audelia at the LBJ Freeway in the Lake Highlands area of northeast Dallas. As of March 31, 1990 Plaza had assets of $50 million, deposits of $47 million and approximately $2 million in capital.

''Affiliating with Compass,'' said Griggs, ''gives us the resources we need to expand our services to customers, while providing enhanced opportunities for our employees. A prominent bank analyst has described the leadership of Compass as visionary, and we believe it. We are delighted to be a part of Compass.''

McMahen stated, ''Plaza is a fast-growing, healthy bank and we are excited to welcome them aboard. Plaza's strategic location in this premier retail area makes for a natural fit with Compass. Northeast Dallas is new territory for Compass and the Plaza Bank Center will give us exceptional visibility in the community.

''Plaza has an enviable record in customer service and has a strong and loyal customer base,'' McMahen added. ''The Compass philosophy of having decision makers in each of our banking offices so customers have access to all of our capabilities should be well received. Compass' size and experience will allow us to expand lending capabilities as well as provide a wider range of both consumer and commercial financial services.''

Shares of Central Bancshares of the South Inc. common stock are traded in

the NASDAQ National Market System under the symbol CBSS.

WASHINGTON (JUNE 29) COMTEX - The 8-K report filed at the SEC shows on June 13, 1990, Response Technologies Inc. sold its 2.4 acre Franklin, Tennessee site, including a 7,500 square foot office building, to Equisouth Inc., of Georgia. Equisouth paid a consideration of $1.3 million, payable as 750,000 in cash plus a one-year, non-interest-bearing note for $550,000, for the site.

Terms of the sale were arrived at by arms-length negotiations.

The site had been the object of a ground lease between Response as lessee and Amon Carter Evans as lessor. In early June of 1990, Response purchased from Amon the fee interest that was the subject of that lease for a consideration of $750,000, exercising rights options as had been present within the lease.

WASHINGTON (JUNE 29) COMTEX - The 8-K report filed at the SEC shows on May 25, 1990, KB Communications Inc. entered into an agreement with Global Media Corp., as well as Richard Tienken and Arthur Erk to reaquire all interest, right and title to those agreeements between itself and Global Media dated of March 30, 1990.

As a consideration for the reassignment, KB Communications agreeded to assume sole responsibility for a credit line maintained by Richard Tienkin for KB, which had been drawn down by $485,000. Further, KB would assume responsibility for $200,000 that Global spent on behalf of KB, and would issue to Global 200,000 shares of KB common stock. Also according to the agreement, KB had 60 days from May 25, 1990 to arrange for the assumption of the $485,000 line of credit.

KB commented as to its belief that the agreement would put itself back in full control of its future, and would allow it to gain full advantage from its developing business with the People's Republic of China.

#90180c0031 06/29/1990 ~Comtex
WASHINGTON (JUNE 29) COMTEX - The 8-K report filed at the SEC shows, as submitted on June 25, 1990, Galactic Resources Ltd. expressing its belief

that a continuation of recent price levels of gold could adversely affect the future profitability and cash flows of the company.

Recent estimates by the company showed that production cost at the company's Summitville, Ivanhoe and Ridgeway mines were largely consistent with those stated in the company's 10-K report of its fiscal year ended Dec. 31, 1989. A continuation of current gold prices, unless the company could reduce its cash production costs and total production costs, would result in losses from operations at the Summitville mines.

Further, current gold prices, the company reports, could adversely affect the availability of cash for future company operations. The company therefore anticipated the need for at least $3 million in additional funding in the third quarter of 1990 to meet its existing and anticipated cash needs.

An agreement in principal for the refinancing of the company's Ridgeway mines, however, has been reached. If completed, that refinancing would provide Galactic Resources with that needed cash.

SCHEDULE 13D

SEC - AMENDMENT NUMBER: NONE

GROUP LED BY STERIK CO INC OWNS 1,663,000 SHARES (11.44%) OF AMERICAN REAL ESTATE PARTNERS L P (TICKER: ACP) OF NEW YORK, NY.

ANNOUNCEMENT:

Sterik Co. Inc. entered into an acquisition agreement, dated June 18, 1990, with Integrated Resources Inc., a debtor-in-possession under Chapter XI of the U.S. Bankruptcy Code.

Integrated has agreed to sell all 1,662,980 outstanding units of American Property Investors Inc. (American Real Estate's sole general partner) to Sterik for $40 million, including the $2 million downpayment which was paid into an escrow account pursuant to an escrow agreement dated June 18, 1990 among Sterik, Integrated Resources and Rosenman and Colin, as the escrow agent.

Under the acquisition agreement Sterik must obtain the written resignation of each person who is a director of API.

Upon consummation of the agreement, Sterik intends to fix the size of the board at seven members, to have Steven Green confirmed as chairman and to have the other reporting persons elected as directors.

Also, Sterik plans to cause two people currently unaffilitated with Sterik or American Real Estate Holdings LP to be elected to the board.

In an equity commitment letter, dated June 15, 1990, Riklis and Green

committed to provide Sterik the amount of the payment to be made to American Real Estate on the closing date.

LATEST TRANSACTION:

On May 25, 1990, Dempsey purchased 100 units at $11.50 each.

PURPOSE:

Acquisition of stock equity to operate and manage American Real Estate.

SEC - AMENDMENT NUMBER: 2

GROUP LED BY DAVID S LEE OWNS 1,878,326 SHARES (16.66%) OF QUME CORP

(TICKER: QUME) OF MILITAS, CA.

ANNOUNCEMENT:

Pursuant to the terms and conditions of a loan agreement dated June 25, 1990, Chase Manhattan Bank (National), acting through its Singapore Branch has committed to make a term loan to Qume Acquisition Partnership of up to $35,000,000 (the "Tranche A Loan") and an additional loan of an amount equal to the lesser of $35,000,000 minus the Tranche A Loan or $5,000,000 (the Tranche B Loan).

The proceeds of the Chase Loans will be used to finance the acquisition of the Taiwanese shares and the series A preferred stock of New Qume by Qume Acquisition Partnership, and to pay fees and expenses in connection with the merger.

Qume Acquisition Partnership has agreed to repay to Chase a principal amount equal to S$20,000,000 on the first anniversary of the date of the drawing down, (which must be prior to October 31, 1990) of the Tranche A Loan and, on the second anniversary of the funding date, has agreed to repay the entire principal amount of the Chase Loans then outstanding.

Proceeds for the Taiwanese shares will be used by Qume Acquisition to prepay amounts under the Chase Loans, subject to deposits of certain amounts as a reserve for future interest obligations.

Such reserves will be pledged to Chase as collateral for Qume Acquisition Partnership's obligations under the loan agreement and to Wearnes (Hong Kong) as collateral under the subordinated loan agreement (which must be drawn down prior to Sept. 30, 1990), wherein Wearnes agreed to lend $65,000,000 to Qume Acquisition Partnership.

This document is identical to 18 others filed on behalf of and the following listed persons: Walden Investors; Evelca Investment; PACVEN Investment, Ltd.; Theresa C. Wang; Harper Investment Ltd.; Walden Ventures; Walden International III, C.V.; William H. Draper III and Phyllis C. Draper, Trustees of the William H. GLB SHAREHOLDERS COMMITTEE TO REJUVENATE COMPCARE OWNS 927,299 SHARES (9.10%) OF COMPREHENSIVE CARE CORP (TICKER: CMP) OF CHESTERFIELD, MO.

ANNOUNCEMENT:

Each member of the group has agreed to consent to the removal of the entire board of Comprehensive Care Corp and the election of the shareholders committee's nominees.

GLB Shareholders have entered into an agreement to vote their shares in common.

Between April 6 and June 19, 1990, Livingston & Co. entered into 14 profit sharing arrangements with 16 private investors in the form of partnership agreements and, in all cases, Livingston & Co. is entitled to a share of profits.

If the committee nominees are elected, they expect to elect Carmany as chief executive officer of CCC, and Livingston & Co. will request approval to purchase additional shares of Comprehensive Care to increase its holdings to 15 percent or more of the outstanding shares.

LATEST TRANSACTION:

Between May 1 and June 19, 1990, GLB Shareholders purchased 418,400 shares at a price of $2.38 to $2.88 per share and sold 91,720 shares at a price of $2.38 to $2.75 per share.

PURPOSE:

Solicitation of consents to the removal and replacement of Comprehensive's board of directors.

#90180d0050 06/29/1990 ~French/German News Agency
MELBOURNE, Australia (JUNE 29) - Australian mining and industrial giant Broken Hill Proprietary Co. Ltd. (BHP) reported Friday a 6.4 percent rise in annual net profit to a record 1.1 billion Australian dollars (860 million U.S.) for the year to May 31.

Directors blamed the steel division and higher interest costs for the sluggish rise in net profit from 1.04 billion dollars (810 million U.S.) in 1988-89.

Analysts had predicted a result between 1.1 billion and 1.15 billion dollars for Australia's largest company.

"Steel ... reported marginally lower profits as a result of the reduced Australian demand in the second half of the year," the company said adding that the Newcastle earthquake last December which killed 12 people had upset steel plants.

But steel was still the highest earning division, reaping 560.9 million dollars (438.6 million U.S.) this financial year compared to 566.3 million dollars (443 million U.S.) in 1988-89.

The minerals and petroleum divisions both posted healthy results.

Minerals's earnings grew 49 percent to 530.5 million dollars (415 million U.S.) while petroleum profits swelled 32 percent to 395.7 million dollars (309 million U.S.).

Profit from corporate items and investments grew two percent to 157 million dollars (123 million U.S.).

BHP's interest bill grew 36 percent to 498.8 million dollars (390 million U.S.) due to higher interest rate and debt levels.

Sales revenue increased 26.6 percent to 14 billion dollars (11 billion U.S.) due mainly to the first full-year inclusion of revenue from Pacific Resources Inc.

"Steel sales revenue improved seven per cent, increased revenue from exports and from a higher value product mix more than offest lower domestic despatches due to reduced demand in the second half," the company said.

"Improved prices for minerals and crude oil, deliveries of liquid natural gas from the North West Shelf facilities and favourable exchange rates also contributed to the improvement in sales revenue."

On Thursday, BHP sold a 30 percent stake in Woodside Petroleum Ltd., which manages the North West Shelf project for 525 million dollars (411 million U.S.).

#90180d0080 06/29/1990 ~French/German News Agency

SEOUL (JUNE 29) - South Korea's Hyundai Group wants to lay a pipeline through North Korea to bring Soviet gas to the South, and Moscow is lobbying the reclusive communist state to allow the operation, sources said Friday.

Hyundai founder and honorary chairman Chung Ju-Yung said upon return from the Soviet Union Thursday that he "had made contact" with the North Korean

ambassador during his trip, published reports and sources said here.

It was unclear if Mr. Chung had met with the ambassador, who had returned to Pyongyang prior to a Soviet-South Korean summit on June 4, or had made telephone contact.

However, Hyundai sources quoted Mr. Chung as saying the Soviets were lobbying North Korean officials to allow the natural gas pipeline to run through their country.

The pipeline would originate in the Soviet island of Sakhalin in the Soviet far east and run through the Maritime Provinces before entering North Korea.

Company officials could not say how much gas would be pumped into the capitalist South, but the North Korea-born Mr. Chung was quoted as saying the venture would also benefit the North.

Mr. Chung had been in the Soviet Union since June 15 in his sixth mission there since January 1989, company officials said.

Seoul does not have ambassador-level relations with the Soviet Union, North Korea's largest arms supplier. Progress in Seoul-Moscow relations however took a bold step when South Korean President Roh Tae-Woo met Soviet President Mikhail Gorbachev in San Francisco on June 4.

#90180d0260 06/29/1990 ~French/German News Agency

PARIS (JUNE 29) - The French parliament on Thursday adopted a law to end state-owned Renault's special status, permitting the automobile constructor to procede with its announced tieup with Volvo.

Although the company remains state-owned, it loses the privileges it had been granted when it was nationalized in 1945. The post-war French government confiscated the company from founder Louis Renault, who had collaborated with the Nazis.

Renault, by virtue of its special status, had for years been exempted from normal management requirements. It could accumulate losses which were absorbed by the French government.

The new law allows a partner to own up to 25 percent of Renault stock, the amount to be purchased by Sweden's Volvo according to a February deal between the two companies.

The Renault-Volvo tieup, which involves cross-shareholding, will produce Europe's largest car and heavy truck manufacturer.

The change in Renault's status, opposed by the French communist party, makes Renault a corporation and puts a symbolic cap on a 45-year special relationship with the state.

Long a bastion of the communist-dominated CGT union, Renault was once a landmark of communist strength within French industry.

Under the pressure of the unions, the company pioneered in worker benefits and was touted by the communists as an example of the superiority of state-owned business.

#90180d0270 06/29/1990 ~French/German News Agency

NAIROBI (JUNE 29) - A total of 45,351 bags of Kenyan coffee were offered for sale to markets at Nairobi's weekly auction and all were sold for an average price of 1,807.78 Kenyan pounds (1,565.17 dollars) per ton.

The prices were again lower, but with some good support for the better quality "AA" Grade.

To date, 516,300 bags of 198990 have been sold to all markets, with an overall gross average price of 2,445 Kenyan pounds (2,116.88 dollars) per ton.

#90180d0660 06/29/1990 ~French/German News Agency

TOKYO (JUNE 29) - Japanese purchases of foreign securities rebounded in May, with net purchases jumping ten-fold from 549 million dollars in April to 5.61 billion dollars in May, the Finance Ministry said Friday.

Net purchases of stocks by Japanese amounted to 624 million dollars, the ministry said, reversing the previous month's net sale of 52 million dollars.

Bond purchases jumped to 4.9 billion dollars from 622 million dollars in the previous month, while purchases of yen-denominated bonds issued abroad jumped to 80 million dollars, the ministry said.

Foreign purchases of Japanese securities meanwhile declined, mainly due to a sharp reduction in demand for Japanese bonds.

Purchases of Japanese bonds declined from 2.5 billion dollars in April to 646 million dollars in May, the ministry said. But buying of Japanese stocks jumped to 1.51 billion dollars, reversing April's 291 million dollars in sales.

#90180d0750 06/29/1990 ~French/German News Agency
PARIS (JUNE 29) - Iran has urged other members of OPEC to respect their production quotas to push the price of oil up to 18 dollars per barrel, the OPECNA news agency reported on Friday.

Iranian Oil Minister Gholamreza Aghazadeh told the agency, monitored here, that the Organisation of Petroleum Exporting Countries (OPEC) had not succeeded in maintaining its 18-dollar reference price because some members were "over producing".

At the next OPEC ministerial conference in Geneva on July 25 "we will have to give very serious attention to the price of oil and leave other questions on one side until we have re-established a reasonable level".

He added. "We want to see the price of crude rise back to the OPEC reference level."

The price of oil has fluctuated around 16 dollars per barrel recently.

These remarks were seen as an implicit reply to Kuwaiti Oil Minister Rachid Al-Oumeiry who said recently that he would seek an increase in his production quota from its current level of 1.5 million barrels per day.

Mr. Aghazadeh said that problems concerning OPEC production quotas would be "settled once and for all" from 1992 because of rising demand and a reduction of non-OPEC output.

"We should be wise enough meanwhile to set a ceiling level and allocate quotas which can be respected," he said. "The world no longer takes OPEC decisions seriously."

The Iranian minister also said that he had received "indications from the government of Saudi Arabia that they want to see long-term oil-price stability".

Mr. Aghazadeh said that output capacity of 4.5 million barrels per day was "sufficient for Iran until 1995 to cope with demand for OPEC oil".

#90180d1480 06/29/1990 ~French/German News Agency
PHNOM PENH (JUNE 29) - Cambodian banking officials are hoping that planned legislation covering foreign exchange transactions will clamps the lid on soaring inflation.

The law covering currency and specie, if passed during a meeting expected next month of the national assembly, will give the National Bank sole right to handle foreign exchange transactions and fix rates, a senior official of the bank said here Friday.

The official dollar exchange rate has been 380 riels to the greenback since June 20 compared to 360 in April and 260 in January, said Kang Y, vice president of the National Bank.

On the free market the U.S. unit was changing hands Friday for 470 riels, against about 385 in April.

The effects of the depreciation are apparent in rising free market prices in a country where a mid-ranking civil servant gets about 1,500 riels a month for a family that on average needs 20,000 riels a month to survive.

Unofficial sources have reported growing absenteeism by civil servants who must do more than one job to make ends meet.

Mr. Kang Y identified private export and import business as the main cause of the upward spiral.

He said there was much export-import business that bypassed the National Bank and consumer goods coming into Cambodia were being paid for in dollars.

In addition traders were selling dollars away from state control on the free market.

The government, which began liberalising the socialist economy last year, currently lacks legislation to control the free trade in exchange.

#90180d2360 06/29/1990 ~French/German News Agency

OSLO (JUNE 29) Norway's production of oil and gas from the North Sea may be stopped Sunday, unless wage negotiations between oil workers and employers reach an agreement within the deadline Saturday night.

As of Friday, the chances for a strike must be considered great, Roald Larsen, vice-chairman of the oil workers' union, said.

The current wage agreement between employers and workers in the North Sea expires at midnight Saturday. Unless negotiations succeed, production will grind to a halt early Sunday.

A strike would include 4.000 oil workers, but the effects of a conflict would spread rapidly to other workers, affecting 12,000 employees in a

matter of days.

The oil workers' union OFS has struck five times before. The longest conflict was in 1986, when production was halted for three weeks, until the government invoked the law of compulsory wage arbitration, citing protection of national interests and security at the oil rigs.

The Norwegian Treasury stands to lose 200 million kroners (30 million U.S. dollars) a day in tax revenues during a strike.

#90180d2740 06/29/1990 ~French/German News Agency
ROME (JUNE 29) - Irish goalkeeping hero Pat Bonner crowns the greatest week of his life in the Olympic stadium here on Saturday but hopes to play it again.

"It's the most important game I've ever played, I'm sure, but I hope to play in more important games down the road."

He hopes that the next one will be a World Cup semi-final - and he does not lightly dismiss the chance of that fantastic dream coming true.

"Italy have got to adapt their game to play us," he said. "We haven't got to change ours and that will worry them. They have never played against a team that plays our way.

"The longer the game goes on and we're still in it, the better for us. And if it goes to a penalty shoot-out we'll be ready for it. I'll just do my best."

Any other team would be showing signs of nerves but Kevin Moran, the oldest member of the oldest squad in the World Cup, will not be losing any sleep over facing Salvatore Schillaci and Roberto Baggio.

The 34-year-old centre-half laughs off the suggestion that he will be made to look like a pensioner by the speedy Italian forwards.

"They've been bringing that up for donkeys years, or so it seems. I just ask you, who's better - Schillaci and Baggio or Gullit and van Basten?

"We've taken the Dutch pair twice now in the last two years, though of course that's not to say I know how it will end up tomorrow.

"Some day someone will take us apart, it's bound to happen. But it doesn't have to be tomorrow. But I have to admit that playing the hosts in their own backyard in the quarter-finals of the World Cup, well they don't come any bigger than that, and that's great!"

#90180d2760 06/29/1990 ~French/German News Agency

BRUSSELS (JUNE 29) - Belgian airports were closed to all traffic on Friday, as air controllers extended a 24-hour strike to press pay demands and threatened to renew the protest during the weekend, officials said.

Some 400 flights are scheduled to take off or land at Brussels' Zaventem airport during the weekend, a peak time for holiday departures.

Airlines that did not scrap Friday's flights took emergency measures by redirecting flights to the Netherlands or West Germany.

Similar strikes have been held sporadically throughout June, dislocating flight schedules and causing millions of dollars in losses for airlines, freight services and travel firms.

#90180d2820 06/29/1990 ~French/German News Agency

MONROVIA (JUNE 29) - Banks and most shops were shut Friday in the Liberian capital, threatened by a rebel offensive, and hundreds of people were booked onto flights out of the country.

Sources close to the Bankers Association of Liberia said it had decided to keep commercial banks closed at a a meeting Thursday after staff complained of harassment by government troops.

Soldiers started shooting Wednesday to break up a demonstration calling for the resignation of President Samuel Doe and the banks and most supermarkets and stores closed down as people fled in panic. Most have not opened since.

Sources at the small James Spriggs Payne airport said people were paying to leave in U.S. dollars, an unusual practice for Liberians, who are exempted by law from having to buy tickets in hard currency.

Air Cargo Liberia made flights Thursday to Freetown and Abidjan, capitals of neighbouring Sierra Leone and Ivory Coast, as Air Guinea, the last foreign company to serve the country, said it was suspending flights because its insurers would no longer provide cover.

Many residents of Monrovia were also leaving by road Friday for Sierra Leone, though petrol (gasoline) has been in short supply for weeks, fearing an offensive by the National Patriotic Front (NPFL) rebels, who have said they could swiftly take the capital but want to avoid a bloodbath.

A banking source said there was "an unsettled atmosphere" in Monrovia, where thousands of people earlier this week marched to call for an end to six months' civil war and the resignation of Mr. Doe, who has also been told by two opposition parties and the insurgents to quit.

The vanguard of the NPLF has occupied Fendell University campus, only some 20 kilometres (12 miles) from Monrovia, and there have been many clashes this week in the Mount Barclay region, still held by government troops, according to rebel sources.

Efforts in Freetown by Liberian religious leaders to bring about a second round of talks between government officials and the NPLF, led by former civil servant Charles Taylor, stalled on Monday over the rebels' demand for Mr. Doe's resignation.

LAGOS (JUNE 29) - A special military tribunal has completed the first stage of the trial of suspects in last April's foiled coup against President Ibrahim Bababangida, Nigeria's number two leader, Vice-Admiral Augustus Aikhomu announced Friday.

The government was awaiting a report from the tribunal, now in recess, he added, while addressing heads of media organisations in Nigeria.

The trial, held behind closed doors, opened here on May 21 with the appearance before the tribunal of 10 soldiers, including Major Gideon Orkar, the man who announced the April 22 coup on the national radio.

The exact number of suspects who have appeared so far before the tribunal, presided by Major General Ike Nwachukwu, Nigeria's ex-external affairs minister, is unknown.

The government has intensified the search for 11 soldiers and two civilians wanted in connection with the coup, the official News Agency of Nigeria (NAN) reported here Friday.

Large portraits of the suspects were being displayed at strategic locations and military units here and in all the 21 states of the federation and Abuja, the nation's future capital, NAN added.

ISTANBUL (JUNE 29) - The left-wing Turkish political weekly Towards 2000 was closed indefinitely due to its alleged support to a six-year-old

insurgency of Kurdish separatists, an official of the weekly said Friday.

Huseyin Karanlik, chief editor, said the move was anti-democratic and that the staff would not be deterred. He said they would publish the weekly under a different name if need be.

He said the closure order was communicated Thursday afternoon and the printhouse where the weekly was printed had been closed for 10 days.

The move triggered protest from the journalists' associations.

It was the heaviest punishment accorded to a publication after the government decreed in April a package of controversial measures, including censors and internal exile, to help contain a guerrilla war waged in the south-east by the outlawed Kurdish Workers' Party (Pkk).

Towards 2000 was championing autonomy for the Kurds.

COPENHAGEN (JUNE 29) - The 35 member states of the Conference on Security and Cooperation in Europe (CSCE) Friday adopted by consensus a document on the protection of basic human rights and freedoms.

The document marks the first time that the countries of the CSCE have been able to reach an agreement on human rights.

The text, drawn up by Austria, Finland, Hungary and Switzerland, addresses the rule of law, democratic pluralism, individual liberty, freedom of movement, and mechanisms for the enforcement of human rights.

Agreement was arrived at after what one source described as "intensive consultations" and "difficult negotiations" which continued until late into Wednesday night.

The document, presented by the Austrian delegation, constitutes "a breakthrough which corresponds to the deep transformation of political realities in Europe," according to Helmut Turk, head of the Austrian delegation.

He described the text as "a point of no return on the path toward a democratic Europe."

The section on minority rights was the principal sticking point in the drafting of the document. Bulgaria and Greece, which both have large Turkish populations, gave a lukewarm response to the minorities section, but said that they would not oppose its adoption by consensus.

The wording of the section on minority rights was altered several times and, according to Romanian delegation leader Trian Chebelu, it is "a fairly weak text", but the wording was "the only one on which a consensus could be found".

PRAGUE (JUNE 29) - Czechoslovak Interior Minister Jan Langos on Friday launched an inquiry following news reports that Semtex explosive was tested on an airliner in Czechoslovakia in 1984, the CTK agency said.

Prague and the international press Friday published a photograph showing a Soviet-built airliner being blown up during a test by Czechoslovakia's internal security agency.

According to press reports, several tests were carried out between October and November 1984 which found that 200 grammes (seven ounces) of the explosive, known to be used by terrorists, was enough to destroy a plane.

Semtex is believed to have been used in the destruction of Pan Am flight 103 over Lockerbie, Scotland, in December 1988, when 270 people died.

An interior ministry communique Friday said the issue had raised "serious allegations against someone who had worked in the Interior Ministry."

"The public will be informed of the inquiry results," the communique said.

HANOI (JUNE 29) - Prime Minister Do Muoi has said that Vietnam is facing critical economic problems, including widespread unemployment and dwindling aid from Eastern Europe, and called for drastic measures to resolve them.

In a speech Thursday to the National Assembly, published here Friday, the premier said that there was a risk that Vietnam's food production would not reach the 1990 goal of 22 million tons of paddy.

Agriculture, which last year registered a record output of 20 million tons, was now facing huge difficulties, with the lack of fertilizer worsened by a shortage of hard currency, he said.

Mr. Do Muoi noted "huge imbalances" in the Vietnamese economy, such as the budget deficit, imports outstripping exports and the inability of industry to serve the agricultural sector.

"Budgetary revenues cannot cover the minumum required expenses," he said.

Mr. Do Muoi said that a small number of industrial firms, particularly in the state sector had "recovered and were developing," but the state continued to support the rest with subsidies, directly or indirectly.

The subsidies were further aggravating the already critical financial situation, he said, adding that it was necessary "to change the form of ownership or close" companies which have long been losing money.

According to official figures, 80 percent of Vietnam's state firms are in financial trouble.

HARARE (JUNE 29) - Junior engineering staff with the national airline, Air Zimbabwe, were on strike for the second day Friday, delaying some domestic and regional flights.

Senior engineers were still servicing aircraft, a spokesman for Air Zimbabwe said.

The strikers are demanding more pay and improved working conditions.

Acting Transport Minister Enos Chikowore met Friday with the airline's management, which appealed for an end to the strike while it considered the workers' claims.

There has been a wave of strikes for more pay by junior civil servants recently, with hundreds of striking teachers sacked earlier this month.

KARACHI (JUNE 29) - Rival Sindhi and Mohajir ethnic groups held protests Friday in Pakistan's southern Sindh province, blaming Prime Minister Benazir Bhutto for their troubles.

A big rally organised by the radical Jeeay Sindh movement in Bhit Shah, 200 kilometres north of Karachi, charged Bhutto with betraying the interests of her home province.

It called Qadir Magsi, suspected of plotting the massacre of some 250 people in Hyderabad city in 1988, ''a hero, not terrorist'' and demanded his release.

In Karachi the rival Mohajir Qaumi Movement (Mqm) hoisted black flags in its strongholds in Karachi to mourn the nearly 300 people killed in the latest ethnic fighting in the two cities last month.

Bhutto herself joined the issue when angry partymen mobbed her in Karachi to demand action against elements terrorising them.

She asked her beleaguered administration to recover party activist Junaid Ahmad, allegedly abducted by Mqm in a wave of kidnappings and mutual killings by the extremists of Mqm and the ruling Pakistan People's Party (Ppp) in February.

An army commander had brought peace then by arranging an exchange of kidnapped persons. Junaid was not among the 18 Ppp men Mqm swapped for nine of its own.

Mqm was an ally of Ppp till last October when it joined the opposition in an abortive attempt to unseat Bhutto. The air is still heavy with mistrust in the two cities dominated by Mohajirs.

In a new flare-up, Mqm charged Wednesday that two of its deputies were fired at by police at a busy crossing in Karachi. Police sources claimed the shooting was done by Mqm.

NAIROBI (JUNE 29) - A court released three top editors of the Kenyan newspaper The Standard on bail Friday after government prosecutors charged them with publishing material likely to trigger public ''fear, alarm and despondency''.

The court freed the handcuffed and heavily guarded editors on bail of 150,000 Kenyan shillings (6,450 dollars) pending their trial on September 24.

Police had led away Managing Director Francis Githui, Deputy Editor Mitch Odero, Production Editor James Kimondo and Sunday Standard Managing Editor Francis Mthaiya Mwaniki from their offices on Thursday.

Charges against the production editor were later dropped. The other three stand accused of publishing stories implying that the government lied to the public concerning a brutal slum clearance operation last May 25.

The Sunday Standard had reported that a City Commission worker involved in the eviction of squatters from the slum died later of mysterious injuries, was secretly buried and later exhumed. The government had said that no deaths occurred.

The prosecution charged The Standard published the story knowing it was untrue and ''likely to cause fear, alarm and despondency to the public''.

ROME (JUNE 29) - Did you know that the footballers at this year's World Cup have required an average of ten shots to score one goal, or that Argentinian superstar Diego Maradona has been fouled 34 times during the tournament, or that ten million women in Italy watched the match between the home team and Czechoslovakia on television?

These are among some of the more unusual statistics gathered at the world football championships, Italia '90. Others include: Four consecutive matches have been won by Italy. The only previous time the ''Azzuri'' accomplished this feat at a World Cup was in 1938 in France. 18 shots have hit the posts or the crossbar. 8 bookings were recorded by Syrian referee Jamal al-Sharif in the game between Austria and the United States - an all-time high for the World Cup. 26 corner kicks in the preliminary round was the only record set this time by Brazil. Egypt had the least number of corner kicks, four. 58 fouls were called in the match between South Korea and Uruguay, the ''dirtiest'' encounter to date. 122 times Ruud Gullit touched the ball in the game between Holland and Egypt in Palermo on June 12. 358 games have been played to date, including the qualifying rounds, to try and find the 1990 world champion. Eight matches remain before the new champion can be crowned.

#90180d3440 06/29/1990 ~French/German News Agency

CARACAS (JUNE 29) - The state-owned Venezuelan oil company PDVSA promised Friday that it would "strictly observe production quotas" set by the Organization of Petroleum Exporting Countries (OPEC)

A spokesman for PDVSA (Petroleos de Venezuela S.A.) denied company executives wanted Venezuela to leave OPEC.

This denial followed a report published Friday in Caracas that PDVSA president Arturo Sosa Pietri had tried last Tuesday to persuade the ruling Social Democratic Party to agree to pull Venezuela out of OPEC so the country could fix its own production quotas.

The report said that the oil company's board believed Venezuela was the only OPEC member state to have stood by the cartel's production quotas.

Other economic sources in the capital suggested the PDVSA board had simply decided to increase its production levels, putting the country in the same position as other OPEC members which have agreed to quotas which they have never honored.

The PDVSA spokesman, while insisting his company would honor the OPEC quotas, did confirm however that Venezuela intended to increase its production from 2.7 million barrels a day to between 3.3 million and 3.5 million barrels during the coming decade.

#90180d3680 06/29/1990 ~French/German News Agency

BEIRUT (JUNE 29) - The pro-Iranian fundamentalist group Hezbollah Friday called for maintaining a hardline stand against the West despite the aid which Europe and the United States have sent for victims of the devastating earthquake in Iran.

Chanting ''down with America'', around 3,000 bearded Hezbollah members roamed alleys of Beirut's southern suburbs commemorating the death of Iranian pilgrims in Saudi Arabia in 1987.

Some 400 Iranian pilgrims were killed by Saudi police during an anti-American demonstration they staged in Mecca, Islam's holiest site. Saudi Arabia maintains that Mecca is strictly a place for prayers not a political platform.

''Do not forget your slogan: death to America'', shouted the marchers' leader as he pounded his chest.

Hezbollah head, Sheikh Subhi Tufaili, addressed the crowed, vowing to liberate Mecca. ''We have to liberate the pilgrimage'', he declared. ''The pilgrims now are carrying out the ritual in an American-Jewish fashion'',

he said, hinting at close links between Saudi Arabia and the U.S.

Tufaili stressed that his followers should ''maintain the line of the (late) imam (Ayatollah Khomeini).'' He said that the world did not reverse its hostile policy towards Iran after the passing away a year ago of the Iranian spiritual leader.

Hezbollah, Lebanon's most diehard militia, is Teheran's proxy here. It has been holding for many months an array of Western hostages whom it hopes to swap for political leverage, money and arms.

Hezbollah attacked the West and Saudi Arabia despite the planeloads of aid which the United States, Europe, Saudi Arabia and even Iraq, Iran's staunchest enemy, have sent to help the victims of the powerful earthquake which hit Iran last week.

-30- 1956

#90180d3710 06/29/1990 ~French/German News Agency

PARIS (JUNE 29) - The Organisation of Petroleum Exporting Countries (OPEC) continues to pay the price of its excess production which has undermined the oil market, according to oil experts Friday.

The price of West Texas Intermediate, the U.S. reference oil, firmed on Thursday by 47 cents for early delivery, to close at 17.15 dollars per barrel, having fallen the previous day by 46 cents.

North Sea Brent oil opened on Friday at 16.21 dollars, up from 15.83 dollars at the close on Thursday for August delivery.

But traders remain cautious. "Until OPEC cuts its output substantially, there will be no lasting recovery," one European trader said on Friday. "Stocks are overflowing everywhere."

Estimates by experts hold that OPEC is still producing about 23 million barrels per day, although it had undertaken to cut output from 23.5 million barrels per day to 22.05 million in May, June and July so as to push prices up.

While it appears that Saudi Arabia has held to its commitment to cut its output by more than 400,000 barrels per day, Kuwait and the United Arab Emirates have continued to produce nearly two million barrels per day, experts said.

OPEC has set a reference price of 18 dollars per barrel, but in reality the price has turned around 15 dollars during the last three months, falling even to 13.85 dollars last week.

The 13 OPEC countries have thus forfeited revenue totalling an estimated five billion dollars, Pierre Terzian of the publication Petrostrategies, published in Paris, has said.

OPEC Chairman Sadek Boussena, Algerian Mining Minister, on Thursday renewed his calls for discipline, having visited Iran, Iraq, Saudi Arabia, the Emirates and Kuwait.

"Only the strict respect of quotas will show the desire of each country to re-establish prices at the reference level quickly, and in this way create the best conditions for the holding of the next conference," he said.

This was a reference to the next OPEC ministerial conference which is due to be held in Geneva on July 25.

PRAGUE (JUNE 29) - President Vaclav Havel said Friday the main task before Czechoslovakia's first freely-elected post-war government during its two-year mandate was to build the basis for a "new, democratic and modern Czechoslovakia."

Mr. Havel told parliament the most difficult task ahead for the new parliament will be the creation of "a modern legislative system with the adoption of a new constitution."

The new consitution will decide the federal and regional separation of powers between the federal government and the Czech and Slovak governments and implement the conversion to a market economy, he said.

"The economic process must not lead to a social shock or heavy inflation," Mr. Havel said.

Mr. Havel has indicated he will a seek a new mandate as president for two years, but said his final decision on accepting the presidency would not be made public until a vote of confidence on the new government was held next week.

The election of the president of the Republic will take place on July 5, parliamentary president and former leader Alexander Dubcek confirmed Friday.

Acording to Czechoslovak television, five "other people" have already presented their candidature, but only Alexander Jozef Jaray, leader of the small Slovak Party of Truth has made his candidature public.

In a televised speech that lasted one hour and 40 minutes, Mr. Havel said

the Czechoslovak government's executive power would rest with Prime Minister Marian Calfa and four deputy prime ministers, including Foreign Minister Jiri Dienstbier, and the ministers of Defense and the Interior.

Contrary to the initial agenda Friday, Prime Minister Calfa's policy statement was postponed until Tuesday.

The statement is still in preparation but is already assured of receiving the necessary vote of confidence because the new coalition government can rely on a decisive majority.

Mr. Havel paid hommage to Mr. Calfa Friday for his "flexibility and political action" over the past six months.

RIYADH (JUNE 29) - Around two million Moslems from around the world are gathering in Saudi Arabia for the annual pilgrimage to the holy cities of Mecca and Medina that starts Saturday.

Informed sources here said that apart from Saudis another 800,000 Moslems had arrived by Friday in the two western cities for the pilgrimage, called the hajj in Arabic.

But Iran is boycotting the hajj for the third consecutive year in protest at a system of quotas endorsed by the Organisation of the Islamic Conference that limits numbers for each country to 1,000 pilgrims per million of population.

The system was introduced after the July 1987 clashes between Iranian pilgrims in Mecca and Saudi security forces when 402 people were killed, including 275 Iranians.

One person was killed and 16 wounded in three bomb blasts at last year's

hajj. Two months later, the Saudi authorities executed 16 Kuwaiti Shiites for the attacks.

King Fahd has this year undertaken to pay for the lodgings of 1,525 Soviet Moslems, although Riyadh and Moscow do not have diplomatic relations.

The pilgrims will Sunday gather on Mount Arafat, 25 kilometres (15 miles) from Mecca, for prayers lasting from midday to sunset.

The hajj is a duty which every Moslem must accomplish at least once.

#90180d4320 06/29/1990 ~French/German News Agency

BRUSSELS (JUNE 29) - NATO experts are discussing, for the first time, the idea of curbing West Germany's armed forces under the first Conventional Forces in Europe (CFE) treaty, sources said here Friday.

The summit of the North Atlantic Treaty Organisation (NATO) in London next Thursday and Friday could decide to include cuts in the Bundeswehr under CFE-1, which could be concluded in November, they said.

CFE-1 is already discussing at proposals to slash U.S. and Soviet troop deployment in central Europe to 195,000 men apiece.

The negotiations also aim at bringing NATO and the Warsaw Pact to equal levels in tanks, artillery and armoured fighting vehicles from the eastern Atlantic to the Ural Mountains.

By including West German troops, NATO would be able to give early reassurances to President Mikhail Gorbachev about crimping Germany's ability to threaten the Soviet Union, the sources said.

The ideas lean towards the thinking of West German Foreign Minister Hans-Dietrich Genscher, who last Saturday proposed extending troop cuts in CFE-1 to all European countries, analysts said.

NATO's initial plan was to address any cuts in West German forces in a follow-up forum in Vienna. It rejected attempts by the Soviet Union to "single out" West Germany's 500,000 armed forces for separate cuts.

The latest ideas being studied at NATO headquarters, the sources said, suggest launching CFE-2 as soon as possible after the first agreement.

It would focus on national forces in central Europe as well as the garrisons of five other NATO countries in West Germany, the sources said.

Britain has 60,000 personnel in the Federal Republic; France 50,000; Belgium 25,000; and Canada and the Netherlands around 10,000 apiece.

The Soviet Union has suggested setting a ceiling of 700,000 or 750,000 troops for each side in central Europe, a zone defined in Vienna as East and West Germany, the Benelux counties, Poland and Czechoslovakia.

NATO insists that a united Germany be in the western alliance. Seeking to lift Soviet objections to this, it has already offered to exclude East German territory from the alliance's integrated military command, and to allow Soviet forces to remain there for a transitional period.

#90180d4420 06/29/1990 ~French/German News Agency

LUSAKA (JUNE 29) - President Kenneth Kaunda, challenged by Zambia's biggest ever anti-government protests, announced Friday that a referendum on whether or not to reintroduce multi-party politics will be held on October 17.

Mr. Kaunda, speaking at Ndola in the volatile Copperbelt mining province, also lashed out at multi-party activists whom he blamed for violent rioting in Lusaka and several other towns early this week.

Hospital sources in Lusaka meanwhile said that 45 people had been killed in the demonstrations and looting. The capital is under a dusk-to-dawn curfew and at least 500 arrests have been reported.

Armed police early Friday moved in to send students home from the University of Zambia and close down the campus, where the protests begun Monday and spread like wildfire among Lusaka residents objecting to last week's doubling of the price of maize-meal, the staple food.

#90180d4690 06/29/1990 ~French/German News Agency

MEDELLIN, COLOMBIA (JUNE 29) - Relentless violence has left hundreds of people dead from shootings and bombings in this city where fear and a code of silence now hold sway, analysts said Friday.

Crews Friday were still picking up debris from an explosion outside a police station here that killed 14 people and injured more than 30 Thursday, leaving the scene looking like a battlefield.

Before this northwestern city of 1.5 million people developed its reputation as the violence-ridden headquarters for the Medellin drug cartel it was known fondly in Colombia as "the city of eternal spring."

Medellin became caught in the crossfire when the Colombian Government declared war on the drug cartels about a year ago after a leading

presidential candidate was assassinated, presumably on the orders of the drug lords.

Now, Colombia's second largest city is pitted from the bombings and gunfire in the war between the powerful drug barons' hired killers and the government's security forces.

There is enough blame to go around. Police say they cannot put an end to the violence without help from citizens, and residents say they fear speaking to police because they will not be protected.

Meanwhile, few believe the drug traffickers alone are responsible for all the violence.

Some residents speculate killings are also conducted by security forces seeking to mete out their own justice against those they believe have killed their fellows.

"People realize that the violence does not only come from drug trafficking, but fear and mistrust of authorities has imposed a law of silence," said Jesus Maria Valle, the coordinator of the Medellin Human Rights defense committee.

He said there were so many dead the city morgue could not identify them all and blamed the security forces for some of the indiscriminate nighttime killing that goes on in Medellin's poor communities.

#90180e0041 06/29/1990 ~Latin America New Agency

JERUSALEM (JUNE 29) EFE - After more than 30 years, the names of most of the Israeli secret servicemen who helped kidnap "Nazi butcher" Adolf Eichmann in Buenos Aires were revealed in the Israeli press Friday.

The Tel Aviv evening paper Yedioth Aharonoth carried the photographs of 21 Mossad secret service agents whose names had been kept secret since Eichmann's capture on May 11, 1960, for security reasons.

The names of most of the agents were revealed just a few days before the book "The House in Garibaldi Street" is to be released in Israel.

Written by Iser Harel, who organized the kidnapping, the book tells how Eichmann, held responsible for the deaths of some six million Jews in World War II, was taken to Israel, tried and hanged.

Eichmann's body was then cremated and the ashes dumped in the sea, outside Israeli waters.

Harel's name was revealed more than 10 years ago when he resigned as head of Mossad, but now the newspaper has pinpointed his No 2 Rafi Eitan -- said to be the brains behind the operation -- and Zvi Maljin, who actually made the arrest.

The death sentence in Israel is reserved only for Nazi war criminals, a threat currently hanging over John Demjanjuk, a Ukrainian-born U.S. citizen accused of being prison guard "Ivan the Terrible" who took part in killing thousands of Jews at the Treblinka concentration camp in Poland during the war.

He has been found guilty but has appealed against the court ruling.

PANAMA CITY (JUNE 29) EFE - Unknown gunmen sprayed the U.S. embassy and a nearby U.S. Marines barracks with gunfire in the Panamanian capital, the embassy reported Friday.

No one was injured in the attack late Thursday.

It was was later claimed by a group calling itself the Movement of December 20 (M-2O), the date last year when U.S. forces invaded Panama to capture former military strongman Manuel Noriega, now being held in the United States on drug charges.

None of the eight shots fired penetrated the embassy and the soldiers on guard did not return fire. Another seven shots hit the walls of the Marine barracks.

In March, a U.S. serviceman was killed in an attack on a Panama City bar in which 20 other people were injured.

The embassy said they would be carrying out joint investigations into the attack with the Panamanian police.

NAIROBI (JUNE 29) XINHUA -- KENYAN GAME WARDENS HAVE DISCOVERED 97 ELEPHANT TUSKS HIDDEN AT A RENCH IN THE TSAVO WEST NATIONAL PARK, SOUTHERN KENYA, ACCORDING TO A LOCAL PRESS REPORT TODAY.

THE REPORT QUOTED MR. RICHARD LEAKEY, DIRECTOR OF THE KENYA WILDLIFE SERVICES, AS SAYING THAT THE GAME WARDENS, ACTING ON A TIP, DISCOVERED THE TUSKS ON WEDNESDAY WHICH WERE BURIED IN EIGHT HOLES NEAR A TREE ON THE WANANCHI RANCH, ABOUT 120 KILOMETRES WEST OF THE PORT CITY OF MOMBASA.

MR. LEAKEY SAID: "WE BELIEVE THE TUSKS WERE FROM HERDS OF ELEPHANTS KILLED BY POACHERS IN THE LAST TWO YEARS AND THAT THEY WERE CONCEALED HERE BECAUSE THEY COULD NOT BE TRANSPORTED EASILY."

MR. LEAKEY'S DEPARTMENT ESTIMATED THAT BETWEEN 15 TO 20 TONS OF IVORY STILL LAY UNDERGROUND IN THE AREA. LAST YEAR, A TOTAL OF 450 TUSKS WERE RECOVERED IN THE EAST AFRICAN COUNTRY.

MR. LEAKEY NOTED THAT POACHING IN THE COUNTRY IS ABOUT TO BE WIPED OUT, ADDING THAT ONLY 15 ELEPHANTS WERE KILLED BY POACHERS THIS YEAR, COMPARED TO 300 LAST YEAR AND NEARLY 3,000 IN 1988.

IN JULY LAST YEAR, KENYAN PRESIDENT DANIEL ARAP MOI BURNED 12 TONS OF IVORY VALUED AT ABOUT 3 MILLION U.S. DOLLARS TO SHOW THE COUNTRY'S DETERMINATION TO BAN IVORY TRADE. NOW, THE COUNTRY HAS A POPULATION OF 19,000 JUMBOS.

CHINA SEEKS FOREIGN COOPERATION ON NUCLEAR POWER PLANT BEIJING (JUNE 29) XINHUA -- CHINA IS SEEKING FOREIGN COOPERATION FOR THE SECOND PHASE OF THE QINSHAN NUCLEAR POWER STATION, CHINA'S FIRST PROJECT OF ITS KIND.

ACCORDING TO INFORMED SOURCES, THE CHINA NATIONAL NUCLEAR CORPORATION (CNNC) IS EXPLORING THE POSSIBILITY OF COOPERATION WITH COMPANIES FROM THE FEDERAL REPUBLIC OF GERMANY, FRANCE AND JAPAN.

A SENIOR CNNC OFFICIAL SAID CHINA'S TECHNICAL POLICY, ITS LONG-TERM PLAN AND ITS GOAL FOR DEVELOPMENT OF THE NUCLEAR POWER INDUSTRY REMAINS UNCHANGED.

THE OFFICIAL SAID, "WE ARE WILLING TO COOPERATE WITH ANY FRIENDLY COUNTRY IN NUCLEAR POWER ON THE BASIS OF EQUALITY AND MUTUAL BENEFIT."

THE OFFICIAL SAID HE BELIEVES THE POTENTIAL IN THIS FIELD IS GREAT AND PROSPECTS ARE BRIGHT.

THE QINSHAN NUCLEAR POWER STATION IS LOCATED IN CHINA'S ZHEJIANG PROVINCE. THE FIRST PHASE INSTALLATION OF A 300-MEGAWATT NUCLEAR REACTOR IS NEARING COMPLETION. PLANS CALL FOR IT TO BE OPERATING WITHIN NINE MONTHS.

EXPERTS HAVE ALREADY COMPLETED THE FEASIBILITY STUDY FOR THE SECOND PHASE OF THE PROJECT. THE OVERALL DESIGN IS SUBJECT TO APPROVAL BY THE STATE PLANNING COMMSSION.

THE SECOND PHASE OF THE QINSHAN STATION INVOLVES THE INSTALLATION OF TWO

600-MEGAWATT NUCLEAR REACTORS.

ACCORDING TO THE OFFICIAL, THE CHINESE GOVERNMENT HAS MADE THE 600-MEGAWATT NUCLEAR REACTOR THE STANDARD REACTOR FOR ITS NUCLEAR POWER INDUSTRY IN ORDER TO LOWER THE COSTS AND SHORTEN THE TIME OF CONSTRUCTION OF NUCLEAR POWER STATIONS.

#90180h0067 06/29/1990 ~Chinese News Agency

NEW DELHI (JUNE 29) XINHUA -- A SENIOR INDIAN OFFICIAL HAS WARNED THAT EMPLOYMENT IN INDIA SHOULD GROW AT THE RATE OF THREE PERCENT PER ANNUM TO TAKE CARE OF THE BACKLOG OF THE UNEMPLOYED, OTHERWISE, THE COUNTRY WOULD ENTER THE NEXT CENTURY WITH A TURBULENT CLIMATE.

R. HEGDE, DEPUTY CHAIRMAN OF INDIA PLANNING COMMISSION, WAS SPEAKING AT THE "NATIONAL CONVENTION ON GROWTH WITH EMPLOYMENT" ORGANIZED HERE ON THURSDAY BY THE FEDERATION OF INDIAN CHAMBERS OF COMMERCE AND INDUSTRY (FICCI), LOCAL PRESS REPORTED TODAY.

THE BACKLOG OF UNEMPLOYMENT, ACCORDING TO AN OFFICIAL MATERIAL, AT THE BEGINNING OF THE EIGHTH FIVE-YEAR PLAN (1990-95) IS ESTIMATED AT AROUND 28

MILLION.

HEGDE SAID THAT EXPERIENCE HAD SHOWN THAT LARGE-SCALE UNITS, WHICH WERE CAPITAL INTENSIVE AND EQUIPPED WITH MODERN TECHNOLOGY, COULD NOT GENERATE SUFFICIENT EMPLOYMENT.

HE CALLED FOR A BALANCE BETWEEN THE ISSUE OF EMPLOYMENT GENERATION AND THE NEED TO ACHIEVE TECHNICAL EXCELLENCE. THE GOVERNMENT, HE SAID, WOULD NOT OBJECT TO INDUCTION OF THE LATEST TECHNOLOGY FOR EXPORT PURPOSE, BUT THERE WERE VAST AREAS WHERE LABOR INTENSIVE TECHNOLOGY IS VIABLE.

IN THE SAME CONVENTION, RAUNAQ SINGH, PRESIDENT OF THE FICCI, SUGGESTED THAT INDIA INVEST 43 PERCENT OF NATIONAL RESOURCES IN IRRIGATION, HOUSE CONSTRUCTION, ROAD BUILDING, SMALL SCALE INDUSTRIES AND SERVICES TO GENERATE EMPLOYMENT.

INDIA SHOULD PURSUE AN EXPORT-LED GROWTH TO CONSOLIDATE THE POSITION IN EXPORTS AND GENERATE NEW AVENUES OF EMPLOYMENT, WHICH ARE RELATED TO EXPORT AND OTHER ALLIED ACTIVITIES, HE ADDED.

BEIJING (JUNE 29) XINHUA -- PREMIER LI PENG, ALONG WITH VICE-PREMIERS YAO YILIN AND WU XUEQIAN, MET THE PARTICIPANTS IN A NATIONAL MEETING ON THE IMPORT OF OVERSEAS PERSONNEL AND EXPERTISE HERE TODAY.

PREMIER LI SAID THAT SINCE THE ADOPTION OF THE REFORM AND OPEN POLICY, CHINA HAS MADE ACHIEVEMENTS IN THE IMPORT OF PERSONNEL AND EXPERTISE, WHICH HAS PROMOTED THE MODERNIZATION DRIVE AND ECONOMIC DEVELOPMENT.

LI SAID CHINA'S REFORM AND OPEN POLICY WILL NOT CHANGE, AND THE COUNTRY WILL CONTINUE AND IMPROVE THE IMPORT OF FOREIGN PERSONNEL AND EXPERTISE.

VICE-PREMIER YAO YILIN SAID LEARNING ADVANCED TECHNOLOGY AND MANGEMENT EXPERTISE AND THE IMPORT OF OVERSEAS PERSONNEL IS AN IMPORTANT COMPONENT OF THE OPEN POLICY.

YAO NOTED THAT OVERSEAS CHINESE ARE WILLING TO CONTRIBUTE THEIR TECHNOLOGY AND EXPERTISE TO CHINA'S MODERNIZATION, AND MANY FOREIGN SCIENTISTS, ENGINEERS AND TECHNICIANS ARE SUPPORTING CHINA'S MODERNIZATION DRIVE AND THE INTERNATIONAL PERSONNEL EXCHANGE, WHICH BENEFIT EACH OTHER.

YAO SAID HE HOPES OFFICIALS IN THIS FIELD SUM UP EXPERIENCE AND IMPROVE THE WORK OF IMPORTING OVERSEAS PERSONNEL AND EXPERTISE.

ACCORDING TO REPORTS AT THE FIVE-DAY MEETING, OVER THE YEARS, CHINA HAS INVITED 180,000 OVERSEAS EXPERTS, FROM 50 COUNTRIES AND REGIONS, WHO HAVE MADE GREAT CONTRIBUTIONS TO THE DEVELOPMENT OF CHINA'S INDUSTRY, AGRICULTURE, CULTURE, EDUCATION AND MEDICINE.

TOKYO (JUNE 29) KYODO - JAPAN'S WHOLESALE PRICES EDGED UP 0.1 PERCENT IN

THE SECOND 10 DAYS OF JUNE FROM THE PREVIOUS 10 DAYS DUE TO THE YEN'S FALL IN VALUE AGAINST THE U.S. DOLLAR, THE BANK OF JAPAN SAID IN A REPORT FRIDAY.

THE OVERALL WHOLESALE PRICE INDEX, WHICH STOOD AT 90.5 AGAINST THE 1985 BASE FIGURE OF 100, ROSE 0.9 PERCENT FROM THE SAME PERIOD A YEAR EARLIER, HOWEVER.

DOMESTIC WHOLESALE PRICES REMAINED UNCHANGED FROM THE FIRST 10 DAYS OF THE MONTH.

BUT AS THE YEN'S VALUE FELL 1.1 PERCENT IN THE PERIOD, EXPORT PRICES WENT UP 0.6 PERCENT AND IMPORT PRICES ROSE 0.3 PERCENT, PUSHING UP PRICES OVERALL, THE CENTRAL BANK SAID.

TOKYO (JUNE 29) KYODO - JAPAN'S MEMORY CHIP PRODUCTION IS PICKING UP, AND WILL FURTHER EXPAND IN THE JULY-DECEMBER PERIOD AFTER SEVERAL MONTHS OF AN EASY MARKET, THE MINISTRY OF INTERNATIONAL TRADE AND INDUSTRY (MITI) SAID IN A REPORT FRIDAY.

PRODUCTION OF ONE-MEGABIT DYNAMIC RANDOM ACCESS MEMORY (DRAM) CHIPS WILL GROW TO 277.5 MILLION CHIPS IN THE SECOND HALF OF THE YEAR FROM 215.6 MILLION IN THE PREVIOUS SIX MONTHS, THE MINISTRY SAID.

DOMESTIC DEMAND FOR DRAMS, THE MOST WIDELY USED OF ALL SEMICONDUCTORS, WILL INCREASE TO 115.2 MILLION FROM 96.6 MILLION, IT SAID.

PRODUCTION OF ERASABLE PROGRAMMABLE READ ONLY MEMORY (EPROM) CHIPS WILL REMAIN STABLE. OUTPUT OF 256 KILOBIT EPROMS WILL SINK TO 12.6 MILLION CHIPS IN THE SECOND HALF FROM 14.7 MILLION IN THE PRECEDING HALF, WHILE THAT OF 512 KILOBIT EPROMS WILL RISE TO 8.2 MILLION FROM 7.8 MILLION, THE MINISTRY SAID.

DOMESTIC DEMAND WILL CONTINUE TO OUTSTRIP DOMESTIC PRODUCTION FOR 128, 256 AND 512 KILOBIT EPROMS, WITH IMPORTS FILLING THE GAPS, IT SAID.

PRODUCTION OF STATIC RANDOM ACCESS MEMORY (SRAM) CHIPS IS ALSO SURGING. JAPANESE MAKERS WILL PRODUCE 110.4 MILLION 64 KILOBIT SRAMS IN THE SECOND HALF, UP FROM 104.5 MILLION, WHILE DOMESTIC DEMAND FOR THESE CHIPS WILL GROW TO 93.7 MILLION FROM 85.2 MILLION, THE MINISTRY SAID.

THE OUTPUT OF MICROPROCESSORS WILL ALSO RISE, IT SAID. PRODUCTION OF 8 BIT MICROPROCESSORS WILL CLIMB TO 13.9 MILLION FROM 12.7 MILLION, WITH DOMESTIC DEMAND RISING TO 12.2 MILLION FROM 11.5 MILLION, THE MINISTRY SAID.

TOKYO (JUNE 29) KYODO - JAPAN'S CURRENT ACCOUNT SURPLUS IN MAY FELL 57.5 PERCENT FROM A YEAR EARLIER TO 1,461 MILLION DOLLARS, THE FINANCE MINISTRY SAID IN A PRELIMINARY REPORT FRIDAY.

THE NATION'S TRADE ACCOUNT SURPLUS ALSO DECLINED SHARPLY BY 49.3 PERCENT FROM A YEAR PREVIOUSLY TO 2,615 MILLION DOLLARS, THE MINISTRY SAID.

EXPORTS FELL 1.3 PERCENT FROM A YEAR EARLIER TO 21,103 MILLION DOLLARS, WHILE IMPORTS ROSE 13.9 PERCENT TO 18,488 MILLION DOLLARS, IT SAID.

-30- 635
#90180k0065 06/29/1990 ~Japanese News Agency
TOKYO (JUNE 29) KYODO - JAPANESE SALARIED WORKERS IN NINE KEY INDUSTRIES EARNED AN AVERAGE OF 278,908 YEN IN MONTHLY WAGES IN MAY, UP 5.7 PERCENT FROM A YEAR BEFORE, THE LABOR MINISTRY SAID IN A REPORT RELEASED FRIDAY.

THE MONTHLY SURVEY OF WAGES COVERED 22.98 MILLION WORKERS IN MINING, CONSTRUCTION, MANUFACTURING, POWER AND GAS, TRANSPORTATION AND COMMUNICATIONS, COMMERCE, FINANCE, REAL ESTATE, AND SERVICE SECTORS.

THE REPORT SAID THEIR AVERAGE WORKING HOURS CAME TO 165.3 HOURS IN MAY, UP 0.5 PERCENT FROM A YEAR EARLIER. OF THE WORKING HOURS, OVERTIME IN THE MANUFACTURING SECTOR AVERAGED 18.8 HOURS, THE SAME AS A YEAR BEFORE.

-30- 803
#90180k0071 06/29/1990 ~Japanese News Agency
TOKYO (JUNE 29) KYODO - THE FAIR TRADE COMMISSION (FTC) WILL FORMULATE ANTITRUST GUIDELINES CONCERNING JOINT DEVELOPMENT OF TECHNOLOGY OR PRODUCTS BY COMPANIES, FTC OFFICIALS SAID FRIDAY.

THE GUIDELINES WILL SPELL OUT WHAT KIND OF JOINT DEVELOPMENT PROJECTS OR WHAT SORT OF CONTRACTS FOR SUCH SCHEMES VIOLATE THE ANTIMONOPOLY LAW, THE OFFICIALS SAID.

THE FTC DECIDED TO ESTABLISH SUCH GUIDELINES IN RESPONSE TO A RECOMMENDATION TO DO SO IN A REPORT RELEASED FRIDAY BY AN ADVISORY PANEL TO THE COMMISSION.

JOINT DEVELOPMENT PROJECTS COULD BE ANTICOMPETITIVE, FOR INSTANCE, IF THEY ARE DESIGNED TO DEVELOP A PRODUCT OVER WHICH THE FIRMS INVOLVED ARE COMPETING WITH EACH OTHER IN THE MARKET.

IF SUCH PROJECTS ACTUALLY RESTRICT THE COMPETITION OVER THE PRODUCT, THEY VIOLATE THE LAW, THE REPORT SAID.

WITH REGARD TO CONTRACTS FOR JOINT DEVELOPMENT SCHEMES, THEY SHOULD BE REGARDED AS UNFAIR TRADE PRACTICES IF THEY SERVE TO RESTRICT THE USE OF EXISTING TECHNOLOGY, THE PRODUCTION OR MARKETING OF PRODUCTS THAT ARE NOT COVERED BY THE PROJECTS, OR RESEARCH ACTIVITIES BASED ON THE TECHNOLOGY DEVELOPED BY THE PROJECTS, IT SAID.

THE ADVISORY PANEL CONDUCTED IN 1988 A SURVEY ON FIRMS' JOINT DEVELOPMENT ACTIVITIES, IN WHICH IT POLLED 1,111 COMPANIES LISTED ON THE FIRST SECTION OF THE TOKYO STOCK EXCHANGE, OBTAINING ANSWERS FROM 790.

THE SURVEY SHOWED THAT 65 PERCENT OF THE RESPONDENTS WERE INVOLVED IN JOINT DEVELOPMENT PROJECTS AND SPENT AN AVERAGE 8.6 PERCENT OF THEIR RESEARCH AND DEVELOPMENT OUTLAY, OR 667 MILLION YEN, ON SUCH PROJECTS.

OF ALL THE JOINT DEVELOPMENT PROJECTS STUDIED IN THE SURVEY, 58 PERCENT WERE AIMED AT DEVELOPING MARKETABLE TECHNOLOGY OR PRODUCTS.

THE UNITED STATES AND THE EUROPEAN COMMUNITY HAVE ALREADY ESTABLISHED GUIDELINES FOR ANTITRUST PRACTICES IN JOINT DEVELOPMENT PROJECTS, AND JAPAN HAS BEEN CALLED TO FOLLOW SUIT, THE OFFICIALS SAID.

TOKYO (JUNE 29) KYODO - JAPAN'S MAY HOUSING STARTS WERE UP BY 8.4 PERCENT OVER A YEAR BEFORE TO 146,627 UNITS LAST MONTH, THE HIGEST NUMBER RECORDED FOR MAY SINCE 1988, THE CONSTRUCTION MINISTRY SAID FRIDAY.

THE FIGURE, HOWEVER, IS 1,218 LESS THAN IN THE PREVIOUS MONTH.

GIVEN THE MAY SHOWING, JAPAN'S TOTAL NEW HOUSING STARTS IN FISCAL 1990 WILL REACH THE 1,500,000-UNIT LEVEL AS EARLIER EXPECTED, MINISTRY OFFICIALS SAID.

BUILDING STARTS FOR PRIVATE HOUSES TOTAL 48,629, UP 10.3 PERC FROM A YEAR EARLIER.

THE NUMBER OF CONDOMINIUMS STARTED WAS 28,436, WHILE RENTAL HOUNG SAW 66,739 STARTS.

THE LARGE INCREASE IN PRIVATE HOUSE CONSTRUCTION WAS MAINLY DUE TO THE FACT THAT MANY APPLICATINS FOR HOUSING LOANS FILED THE PREVIOUS YEAR WERE ACCEPTED BY THE HOUSING LOAN CORPORAION IN MARCH, THE OFFICS SAID.

TOKYO (JUNE 29) KYODO - NISSAN DIESEL MOTOR CO. ON FRIDAY ANNOUNCED PLANS TO BEGIN KNOCKDOWN PRODUCTION OF TRUCKS IN IRELAND AT THE END OF THIS YEAR.

THE STEP IS AIMED AT SECURING A PRODUCTION BASE IN EUROPE IN PREPARATION FOR THE EUROPEAN COMMON MARKET INTEGRATION IN 1992, THE MAJOR TRUCK MAKER SAID.

PRODUCTION, ACCORDING TO NISSAN DIESEL MOTOR, WILL BE UNDERTAKEN AT A PLANT NEAR DUBLIN BY A DUBLIN-BASED COMPANY JOINTLY OWNED BY AN IRISH BUSINESS GROUP LED BY WESTROAD MOTORS CO., A CAR DEALER, AND MARUBENI CORP., A JAPANESE TRADING COMPANY.

THE JOINT VENTURE, U.D. IRELAND, WILL INITIALLY PRODUCE 450 3.5-TON AND 4-TON ''CONDOR'' TRUCKS A YEAR FOR SALE IN IRELAND, COMPANY OFFICIALS SAID.

NISSAN DIESEL MOTOR WILL INITIALLY SHIP 90 PERCENT OF THE PARTS FOR THE TRUCKS FROM JAPAN, WHILE THE REMAINING 10 PERCENT WILL BE PROCURED LOCALLY.

NISSAN SAYS IT HOPES TO ACQUIRE AN EQUITY SHARE IN U.D. IRELAND AND PRODUCE LARGER TRUCKS AT THE FACILITY BEGINNING IN 1992.

OSAKA (JUNE 29) KYODO - MATSUSHITA ELECTRIC INDUSTRIAL CO. ANNOUNCED FRIDAY THAT IT HAS REACHED BASIC AGREEMENT WITH LOEWE OPTA GMBH, A MEDIUM-SIZED ELECTRONICS EQUIPMENT MAKER, ON A 25.1 PERCENT CAPITAL PARTICIPATION BY MATSUSHITA IN THE WEST GERMAN FIRM.

THE VALUE OF LOEWE OPTA SHARES TO BE ACQUIRED AND OTHER ASPECTS OF THE BUSINESS TIE-UP ARE TO BE FINALIZED WITHIN THE YEAR THROUGH DISCUSSION BETWEEN THE TWO COMPANIES, A MATSUSHITA SPOKESMAN SAID.

FOUNDED IN 1923, LOEWE OPTA, HEADQUARTERED IN KRONACH, BAVARIA, AND CURRENTLY CAPITALIZED AT 45 MILLION WEST GERMAN MARKS, IS A LEADING EUROPEAN MANUFACTURER OF CONSUMER ELECTRONICS, ESPECIALLY IN THE FIELD OF MULTIFUNCTIONAL DIGITAL TV EQUIPMENT. LOEWE OPTA HAS A WORKFORCE OF ABOUT 1,500 AND POSTED 300 MILLION MARKS, OR ABOUT 28.5 BILLION YEN, IN SALES IN 1989, THE MATSUSHITA SPOKESMAN ADDED.

MATSUSHITA'S CAPITAL PARTICIPATION IS INTENDED TO STRENGTHEN ITS OWN TV BUSINESS ACTIVITIES IN EUROPE THROUGH JOINT DEVELOPMENT OF SUCH PRODUCTS AS DIGITAL TV SETS. THE AGREEMENT ANNOUNCED FRIDAY SHOULD ALSO PROVE CONDUCIVE TO THE IMPROVEMENT OF LOEWE OPTA'S PRODUCTS AS WELL AS FACILITATE COST REDUCTIONS, THE SPOKESMAN SAID.

#90180k0092 06/29/1990 ~Japanese News Agency

TOKYO (JUNE 29) KYODO - NATIONAL TAX REVENUES GREW 8.1 PERCENT IN FISCAL 1989 FROM A YEAR EARLIER TO 54,958.7 BILLION YEN, THE FINANCE MINISTRY ANNOUNCED FRIDAY.

THE GROWTH CAME AGAINST THE BACKDROP OF SOARING LAND PRICES, WHICH ENCOURAGED DEALINGS IN REAL ESTATE, RESULTING IN AN INCREASE IN REVENUES FROM RELATED TAXES, A MINISTRY OFFICIAL SAID.

THE FISCAL 1989 TAX REVENUES WERE 731.7 BILLION YEN MORE THAN PROJECTED BY THE GOVERNMENT IN ITS REVISED FISCAL 1989 BUDGET AND 3,948.7 BILLION YEN LARGER THAN ESTIMATED IN THE INITIAL BUDGET FOR THE FISCAL YEAR THAT ENDED ON MARCH 31, HE SAID.

HOWEVER, REVENUES FROM THE 3 PERCENT CONSUMPTION TAX THAT TOOK EFFECT ON APRIL 1, 1989, CAME TO 3,269.9 BILLION YEN, 348.1 BILLION YEN BELOW THE GOVERNMENT'S PROJECTION OF 3,618 BILLION YEN.

CORPORATE TAX REVENUES WERE 582.2 BILLION YEN LESS THAN THE GOVERNMENT'S ESTIMATE MADE IN THE REVISED BUDGET, TOTALING 18,994.8 BILLION YEN.

THE OFFICIAL SAID THE SMALLER-THAN-EXPECTED CORPORATE TAX REVENUES WERE ATTRIBUTABLE TO WEAK EARNINGS BY MANY JAPANESE BANKS AND ELECTRIC POWER COMPANIES.

THE PORTION OF DIRECT TAXES IN OVERALL TAX REVENUES STOOD AT 74.1 PERCENT FOR FISCAL 1989, THE HIGHEST LEVEL IN THE POSTWAR PERIOD, SURPASSING THE PREVIOUS RECORD OF 73.9 PERCENT SET IN FISCAL 1974.

THE FISCAL 1989 TAX REVENUE RESULTS MAKE IT LIKELY THAT THE GENERAL-ACCOUNT BUDGET WILL CLOSE FISCAL 1989 WITH A SURPLUS OF ROUGHLY 349.8 BILLION YEN, THE MINISTRY PREDICTS. THIS AMOUNT IS STILL FAR BELOW THE FISCAL 1988 SURPLUS OF 1,732.1 BILLION YEN, WHICH WAS LARGELY DUE TO UNEXPECTEDLY HIGH CORPORATE TAX REVENUES.

UNDER THE FISCAL LAW, MORE THAN 50 PERCENT OF THE SURPLUS IS REQUIRED TO BE USED FOR DEBT-SERVICING.

-30- 1911

#90180k0097 06/29/1990 ~Japanese News Agency

TOKYO (JUNE 29) KYODO - THE JAPANESE ELECTRIC POWER INDUSTRY HAS DEVELOPED LAP-CUT TYPE AMORPHOUS ALLOY-CORE TRANSFORMERS FOR POWER DISTRIBUTION THAT MAY BE PRODUCED AT EXISTING TRANSFORMER MANUFACTURING FACILITIES, IT WAS REVEALED FRIDAY.

RESEARCHERS AT THE GENERAL RESEARCH INSTITUTE OF ELECTRIC POWER INDUSTRY SAID FOUR SUCH TRANSFORMERS HAVE BEEN TEST-MANUFACTURED, USING AN AMORPHOUS IRON-BORON-SILICON ALLOY AS MATERIAL FOR THE CORE.

COMPARED WITH THE EXISTING SILICON STEEL SHEET-CORE TRANSFORMERS, THE NEWLY DEVELOPED TYPE HAS 40-45 PERCENT LESS ELECTRICITY LOSS, THE RESEARCHERS ESTIMATED.

HAVING PROVED THEY CAN MAKE THE TRANSFORMERS, THE NEXT STEP IS MASS PRODUCTION, THEY SAID.

THE INSTITUTE EARLIER TEST-MANUFACTURED SPIRAL-TYPE AND PILE-TYPE AMORPHOUS ALLOY-CORE TRANSFORMERS, BUT FOUND THEM UNSUITABLE FOR MASS PRODUCTION BECAUSE OF THE RELATIVELY HIGH COSTS INVOLVED AND COMPLICATED PRODUCTION PROCESSES.

THE NEWLY DEVELOPED LAP-CUT TYPE CORE TRANSFORMERS ARE BEING SUBJECTED TO PERFORMANCE AND DURABILITY TESTS, RESEARCHERS SAID. SUCH TESTS WILL BE CONTINUED UNTIL THE END OF NEXT MARCH.

THE RESEARCHERS SAID IT WOULD TAKE AT LEAST TWO MORE YEARS BEFORE THEY CAN TELL WHETHER THE TRANSFORMERS MAY BE PUT TO PRACTICAL USE IN JAPAN.

ALLIED-SIGNAL INC., WHICH HAS A PATENT ON THE AMORPHOUS ALLOY, SAID EARLIER THAT THE JAPANESE ELECTRIC POWER FIRMS HAVE JOINTLY BOYCOTTED AMORPHOUS ALLOY-CORE TRANSFORMERS.

JAPANESE ELECTRIC POWER FIRMS SAID THEY WOULD INTRODUCE SUCH TRANSFORMERS IF IT IS FOUND THEY CAN BE PUT TO MAXIMUM USE.

RESEARCHERS SAID EVEN IN THE UNITED STATES, AMORPHOUS ALLOY-CORE TRANSFORMERS ARE NOT NECESSARILY IN FULL USE.

#90180k0100 06/29/1990 ~Japanese News Agency

TOKYO (JUNE 29) KYODO - JAPAN'S EXPORTS OF VIDEOCASSETTE RECORDERS (VCRS) AND COLOR TELEVISION SETS IN MAY SHOWED A RISE FOR THE FIRST TIME IN 15 MONTHS, THE ELECTRIC INDUSTRIES ASSOCIATION OF JAPAN SAID FRIDAY.

THE ASSOCIATION SAID VCR EXPORTS ROSE 11.1 PERCENT TO 1,913,000 UNITS AND COLOR TELEVISION EXPORTS WERE UP 1.6 PERCENT TO 255,000 UNITS, OVER THE CORRESPONDING PERIOD LAST YEAR.

SHIPMENTS OF THESE ELECTRIC APPLIANCES TO THE SOVIET UNION, EAST EUROPEAN COUNTRIES, AND VIETNAM SHOWED MARKED GROWTH, ALTHOUGH THEIR VOLUME EXPANSION REMAINED LOW-KEY, THE ASSOCIATION OFFICIALS SAID.

EXPORTS OF VCRS TO POLAND EXPANDED SOME 2.2-FOLD TO 43,000 UNITS, THOSE TO HUNGARY ROSE ABOUT 3.3-FOLD TO 10,000 UNITS AND THOSE TO ROMANIA CLIMBED TO 8,000 UNITS, AROUND 3-FOLD EXPANSION FROM A YEAR BEFORE.

SHIPMENTS OF COLOR TVS WERE ALSO BRISK IN MAY WITH 25,000 UNITS TO THE SOVIET UNION, SOME 3.7-FOLD GROWTH, 9,000 UNITS TO VIETNAM, A RISE OF ABOUT 6-FOLD, AND 4,000 UNITS TO POLAND, ABOUT 2.7-FOLD.

-30- 1175

#90180k0104 06/29/1990 ~Japanese News Agency

TOKYO (JUNE 29) KYODO - THE FINANCE MINISTRY HAS TOLD BANKS AND OTHER FINANCIAL INSTITUTIONS THAT IT PLANS FULL DEREGULATION OF DEPOSIT RATES WITHIN AT LEAST THREE YEARS, A SENIOR MINISTRY OFFICIAL SAID FRIDAY.

THE MOVE IS IN LINE WITH A REPORT PRESENTED EARLIER BY A GROUP OF ADVISERS SERVING THE DIRECTOR GENERAL OF THE MINISTRY'S BANKING BUREAU CALLING FOR EARLY ELIMINATION OF REGULATIONS ON DEPOSIT RATES.

THE TIMING OF LIFTING CONTROLS ON DEPOSIT RATES IS NOW AT THE CENTER OF A DISPUTE BETWEEN JAPAN AND THE UNITED STATES IN THE AREA OF FINANCIAL SERVICES AS WASHINGTON HAS URGED TOKYO TO DISMANTLE THE REMAINING REGULATIONS WITHIN A YEAR.

THE OFFICIAL, WHO REQUESTED ANONYMITY, SAID THE TIMETABLE FOR DEPOSIT RATE DEREGULATION WAS DECIDED UPON IN VIEW OF U.S. DEMANDS DESPITE DIFFERENCES

AMONG DOMESTIC INSTITUTIONS OVER TIMING OF SUCH LIBERALIZATION.

''I CAN'T SAY SUCH DIFFERENCES HAVE BEEN IRONED OUT. BUT WE HAVE NO CHOICE BUT TO COME UP WITH THIS SCHEDULE BECAUSE OF CONDITIONS IN AND OUTSIDE JAPAN,'' THE OFFICIAL SAID.

ACCORDING TO THE OFFICIAL, FULL DEREGULATION OF DEPOSIT RATES WILL BE CARRIED OUT WITH A TRANSITION PERIOD DURING WHICH REGULATIONS ON RATES ON DEPOSITS OF 3 MILLION YEN OR MORE WILL BE SCRAPPED THROUGH RELAXATION OF RULES ON MONEY MARKET CERTIFICATES (MMCS).

THE RELAXATION OF RULES ON MMCS WILL BE IMPLEMENTED IN THREE STAGES -- BY ALLOWING INTRODUCTION OF NEW TYPES OF MMCS WITH RATES CLOSER TO MARKET RATES ON NOVEMBER 5, BY LOWERING THE MINIMUM UNIT OF MMCS TO 500,000 YEN FROM THE CURRENT 1 MILLION YEN NEXT APRIL AND BY MAKING MMCS OFFERED IN UNITS OF 3 MILLION YEN FREE OF ANY DEPOSIT RATE CONTROLS IN THE AUTUMN OF 1991, THE OFFICIAL SAID.

BUT THE THREE-YEAR TIMETABLE COULD THROW SMALLER BANKS INTO CONFUSION AS THEY ARE MORE DEPENDENT ON DEPOSITS WITH REGULATED RATES TO RAISE FUNDS. FOR THIS, SMALLER BANKS HAVE DEMANDED SUCH DEREGULATION BE DONE AT LEAST OVER A FIVE-YEAR PERIOD.

-30- 2144

#90180k0105 06/29/1990 ~Japanese News Agency

OSAKA (JUNE 29) KYODO - FUJISAWA PHARMACEUTICAL CO. ON FRIDAY ANNOUNCED AN AGREEMENT TO TRANSFER 15 PERCENT OF ITS INTEREST IN ITS EQUALLY OWNED JOINT MEDICINE SALES FIRM IN JAPAN TO ITS BRITISH PARTNER, FISONS PLC, EFFECTIVE JULY 2.

FISONS IS GAINING CONTROL OF THE JOINT FIRM, FUJISAWA-FISONS CO., WITH THE UPGRADED 65 PERCENT STAKE. FUJISAWA WILL BE REDUCED TO A 35 PERCENT EQUITY SHARE. THE 15 PERCENT TRANSFER PRICE IS 3 BILLION YEN.

FUJISAWA-FISONS WAS FOUNDED IN L980 BY THE TWO PARTNERS AS AN EQUALLY OWNED FIRM TO SELL ''INTAL,'' A MEDICINE TO TREAT ASTHMA AND ALLERGIC DISEASES. THE JOINT FIRM'S SALES IN JAPAN TOTALED L3.5 BILLION YEN IN FISCAL 1989.

FISONS HAS TAKEN THE MOVE TO BUILD UP ITS OPERATIONS IN JAPAN, FUJISAWA SAID.

FUJISAWA ALSO SAID THAT DESPITE THE EQUITY SHIFT, ITS COOPERATIVE TIES WITH ITS BRITISH PARTNER WOULD REMAIN UNCHANGED.

FUJISAWA SAID THE IMPORT AND SALE OF THE MEDICINE WOULD CONTINUE TO BE JOINTLY UNDERTAKEN BY THE TWO PARTNERS.

#90180m0001 06/29/1990 ~Market Consensus Surveys
FALLS CHURCH, VA (JUNE 29) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2)MONEY & ECONOMY.

IN THE NEWS:

In Japan, the Nikkei average falls 165.95 to 31,940.24 on volume of 500 million shares. ... The FT 100 jumps 22.1 to 2377.8. ... Profit taking pushes the DAX index down 9.56 to 1885.61. ... The INVESTMENT COMPANY

INSTITUTE reports investors bought $2.6 billion more stock fund shares than they sold in May. ... A federal judge says PAPERBACK SOFTWARE INTERNATIONAL and STEPHENSON SOFTWARE LTD. infringed on LOTUS DEVELOPMENT CORP.'s copyright of its "1-2-3" spreadsheet software. ... A bankruptcy judge has extended an order that allows GREYHOUND CORP. to continue operations while the bus line arranges to pay off creditors.

WHAT'S AHEAD:

The COMMERCE DEPARTMENT reports on new home sales for May this morning at 10 a.m. Analysts expect them to decline for the sixth straight month falling 2.2% below April's rate. ... AT&T is cutting rates for evening long-distance telephone calls by an average of 2.2% beginning Sunday. ... "Investor's Daily" reports that DEAN WITTER REYNOLDS INC. plans to shuffle top-management positions, trim costs and lay off employees because of the poor sales environment.

FROM THE BEARS:

K.C. GRAINGER, a portfolio strategist at JESUP JOSEPHTHAL, thinks that insider trading is one of the best ways of forecasting what a stock will do. He says that last month, only 42% of insider trades were buys. "It doesn't mean there's going to be a crash," says Grainger. "But ... if they're no longer doing a lot of buying, they're no longer cheap." The blue chip stocks are even more heavily weighted to the sell side, foreshadowing troubled times for the Dow, says Grainger. (CNBC "Market Wrap-Up", 6/28)

STOCK MARKET:

CHARLES CLOUGH, chief investment strategist with MERRILL LYNCH, attributes yesterday's market rise in part to end-of-quarter window- dressing. In addition he says there is anticipation that short-term interest rates will come down later this year. This is "keeping the market out of trouble," he says. Clough adds, "We are not table- poundingly bullish on the market." ("Investor's Daily", 6/29)

"The risk is significant," says technician WALTER MURPHY, senior market strategist at MERRILL LYNCH. He says the market could approach 3100, but sees a downside of 2200-2100. "From a longer-term perspective, the risk-reward ratio is not something you'd want to write home about." He looks for a market top in August and believes the decline will start by the fourth quarter. (CNBC "World Business", 6/29)

"What I find interesting is that the market is able to absorb these hits on important companies forecasting disappointing earnings and still creep higher," says ROBERT STOVALL of STOVALL/TWENTY-FIRST ADVISERS. "It makes investors think the market in July will not ba vulnerable to earnings

disappointments as previously thought." He gives recent negative news on AT&T and TIME WARNER as examples of those "hits." (NYT, 6/29)

"Investors are hiding in about 30 stocks" because they are afraid of negative second-quarter earnings surprises, says THOMAS GALLAGHER, head of equity trading at OPPENHEIMER & CO. (WSJ, 6/29)

"We'll see some positive movement in the bond market in the next couple of weeks, as well as in the stock market," predicts ANDREW GOLD of SHEARSON LEHMAN HUTTON. But he says the rise will not last long. "As we start to get the release of additional corporate earnings, for the second quarter, the stock market will begin to sell off." (CNBC "Market Wrap-Up", 6/28)

"This is a somewhat tired looking bull market that has been going on for many years," says GORDON MACKLIN, chairman of HAMBRECHT & QUIST. "There are things that should make you cautious. But you can't just put your money in the mattress. With political developments overseas, you couldn't order a better economic setting." ("USA Today", 6/29)

JOSEPH BATTIPAGLIA, associate director of research at GRUNTAL & CO., says PRESIDENT BUSH's comments about new taxes will help boost stocks. "Anything positive on the budgetary front will get a good review on Wall Street." While he says that most of the market thinks action on the deficit is a positive step, he says that the deficit figures being discussed, between $100 billion and $150 billion are "perilously high." Battipaglia thinks that this fiscal year will end with a larger deficit, which will "shake everybody up." He also points out that profits, and therefore stocks, will be hurt by the proposed taxes. (CNBC "Market Wrap-Up", 6/28)

"We, since early April, have a slight underweight in the German stock market," says ULRIK TRAMPE of KLEINWORTH BENSON. "We've ... had a very negative view on the outlook for German interest rates over the course of the summer." He predicts monetary reunification will not bring the inflationary pressures that have been predicted by so many others. "The indications we have ... is that many East Germans are actually going to save the Deutsche mark they're getting as opposed to going out to spend them." (FNN "World Business Update", 6/29)

STOCK TIPS:

"The momentum of the market is clearly in growth stocks in the technology, health-care and environmental areas," says CHARLES CLOUGH, chief investment strategist with MERRILL LYNCH. "Those stocks are going higher because where are no other themes. The cyclical stocks are in a bear market and financial stocks have balance-sheet problems." Clough suggests that investors stay with the strong groups. "Certain food and drug stocks are doing well because of earnings growth. However, if a stock suddenly

shows poor earnings it will come under severe downward pressure." Clough says the rising trend in the price of technology stocks could last for quite a while because of restructurings, technological change and the need for their customers to find new ways to improve productivity. ("Investor's Daily," 6/29)

The Dow theory has reconfirmed that the primary trend of the market is bullish although a runaway is unlikely, says RICHARD EVANS at "Dow Theory Forecast." Among his favorites for the next six months: HUMANA and NORFOLK SOUTHERN. Bearish HEINS PETZOLD of "Petzold on the Market" disagrees, saying new highs on the Dow have not been confirmed by other indices. Petzold looks for a false rally to set stocks up for a fall. He advises selling short at the market ADOBE and LA GEAR whenever the Dow is up 20 points or more; he would also sell DUPONT July 50 calls at the market. (CNBC "World Business", 6/29)

K.C. GRAINGER, a portfolio strategist at JESUP JOSEPHTHAL, says the insider buying reports look good for WENDY'S, GENESCO, BLACK & DECKER, MAYTAG and NORTEK. Many of the blue chips have seen a great deal of selling. Grainger mentions GENERAL MOTORS, PROCTOR & GAMBLE, FEDERAL EXPRESS, DISNEY, HUMANA, THE LIMITED and LIZ CLAIBORNE. (CNBC "Market Wrap-Up", 6/28)

CHRISTINE CALLIES, market analyst at COWEN & CO., says the strength in the technology sector has about six more months of gains ahead before prices begin to show serious weakness. (WSJ, 6/29)

ROBERT NATALE of STANDARD & POOR'S says, "The average new issue outperforms the market in the first three months of trading, and underperforms three months to a year out," says Natale. He likes: SUNDOWNER OFFSHORE SERVICES. which will be offered within the next week at between $7 and $11; and MICROGRAFIX, which will benefit from the success of MICROSOFT's WINDOWS 3.0. This computer graphics firm will go public at between $11 and $13. (FNN "Marketwrap", 6/28)

Optimistic earnings projections from GENERAL MILLS, NIKE and L.A. GEAR helped diminish disappointments from CATERPILLAR and AT&T earlier this week. "It has been a phenomenon all year that the market has withstood serious individual earnings disappointments," says MARSHALL ACUFF of SMITH BARNEY, HARRIS UPHAM & CO. "But that may change if we get a cluster of these. There's probably a lot that are still positive, but everyone's focusing on the poor earnings." (Reuters, 6/28)

PIPER JAFFRAY & HOPWOOD recommends stock in SUN SPORTSWEAR INC., one of the nation's largest suppliers of screen-printed casual wear. It says the company's earnings should grow 20% annually during the next five years. ("USA Today", 6/29)

The "Heard on the Street" column in "The Wall Street Journal" today says, "Several European auto analysts say shares of PORSCHE and BAYERISCHE MOTOREN WERKE [BMW] are underpriced, even if Americans have to search a bit to find ways to buy those stocks." (WSJ, 6/29)

According to CNN's DAN DORFMAN, ace investor WARREN BUFFET has taken a significant position in WELLS FARGO. "It's one of the most profitable and efficient banks in the country ... despite its huge portfolio of real estate and junk bond loans, its been able to avoid large writeoffs," says Dorfman, who does not know the size of Buffet's stake. (CNN "Business Day", 6/29)

NIKE is in the "Company Spotlight" in "USA Today" this morning after its stock jumped 4 1/4 to 77 1/2 yesterday. The stock is up 45.5% this year. JOSIE ESQUIVEL of SHEARSON LEHMAN HUTTON looks for the stock to go to 88 to 94 by the end of the year. But analyst GARY JACOBSON at KIDDER PEABODY has changed his recommendation from buy to hold and says he is bothered by "Nike's inability to diversify from men's performance footwear." ("USA Today", 6/29) 3

MOTOROLA's planned move into global satellite telephone service impresses MORGAN STANLEY's ANDREW KESSLER. He also likes chip maker INTEL, describing their business as "amazingly profitable." (CNN "Business Day", 6/29)

#90180p0821 06/29/1990 ~PR Newswire

PASADENA, Calif. (JUNE 29) PR NEWSWIRE - The board of directors of Avery International Corp. (NYSE: AVY) today declared a quarterly cash dividend of $.16 cents per share. This represents the 107th consecutive cash dividend on Avery common stock.

The dividend is payable Sept. 19, 1990, to shareholders of record at the close of business on Sept. 5, 1990.

Avery also announced that it and Dennison Manufacturing Company had each received requests for additional information from the Antitrust Division of the United States Department of Justice concerning their previously announced merger. Such requests, issued pursuant to the Hart-Scott-Rodino Antitrust Improvements Act of 1976, were anticipated and have the effect of extending the waiting period before the merger may close. Avery and Dennison intend to respond promptly to the requests and expect to consummate their merger in Sept. 1990.

Avery, headquartered in Pasadena, is a leading worldwide manufacturer of self-adhesive base materials, labels, office products and specialty chemicals. The company has approximately 11,700 employees in more than

150 manufacturing facilities and sales offices located in 25 countries.

SAN MATEO, Calif. (JUNE 29) PR NEWSWIRE - Electronic Arts (NASDAQ: ERTS) announced today the initial shipment of their first ever videogames, Populous and Budokan: The Martial Spirit. Both titles are for the 16-bit Sega(R) Genesis(R) System and were introduced at the June Consumer Electronics Show.

Leading retailers' response has been enthusiastic, and orders have exceeded the company's initial supply.

Gary Kusin, president of Babbage's (NASDAQ: BBGS), a leading national software chain, said, "Because Electronic Arts has been the nation's leading consumer software publisher, we are looking forward to their entrance into this very strong Sega Genesis market. We think that their first two titles for the Sega Genesis System are bound to be hits."

Trip Hawkins, president and chief executive officer of Electronic Arts said, "Electronic Arts is poised for leadership in the 16-bit videogame arena because of our strength in 16-bit computer game development. We have the momentum and a strong strategy in place to become a leader in the next generation of interactive entertainment. Retailers' acceptance of our first two Sega products is a great start."

To celebrate shipping its first videogames, Electronic Arts gave each employee his or her own personal Sega Genesis machine and a copy of the Populous game.

Electronic Arts' mission is to be a leader in providing entertainment software for the mass market. Electronic Arts currently publishes and distributes computer software from offices in North America, Europe and Australia.

#90180p0834 06/29/1990 ~PR Newswire

CAMDEN, N.J. (JUNE 29) PR NEWSWIRE - Campbell Soup Co. (NYSE: CPB) today announced further moves to strengthen its core businesses and improve profitability.

The company will sell a number of U.S. and Canadian businesses with combined net sales of more than $300 million, including its U.S. Fresh Foods Group. The company also is taking other restructuring actions including selling or closing a number of other facilities and writing off goodwill. These actions will result in after-tax charges of $247 million against fiscal 1990 net earnings.

Campbell Chief Executive Officer David W. Johnson said: "With this action our Board of Directors has demonstrated that it is ready and able to make the tough but essential decisions needed for winning results. We are clearing the decks of unprofitable and non-strategic businesses, while bringing our plant capacity more in line with manufacturing requirements:

-- "We are refocusing our North American operations on our core strengths by selling non-strategic businesses.

-- "We are writing off $113 million of goodwill on our Freshbake Foods operations in the United Kingdom.

-- "We are eliminating other underperforming assets and unnecessary facilities worldwide to enable us to focus on building strong future earnings, returns and cash.

-- "The restructuring, streamlining and divestitures will reduce global headcount, thus setting the stage for dramatic productivity improvements in the future. When combined with prior actions taken this year, these divestitures will reduce worldwide headcount by 11,000 or 20 percent and significantly increase sales and operating earnings per employee."

The businesses and associated assets to be sold now as going businesses include:

-- Campbell's Fresh Foods Group, consisting of mushroom farms in Blandon, Pa., Dudley, Ga., Fennville, Mich., Hillsboro, Texas, Howe, Ind., Jackson, Ohio, Pescadero, Calif., and West Chicago, Ill.; Mrs. Giles refrigerated salads, based in Lynchburg, Va.; and "Marie's" salad dressings, which has a plant in Thornton, Ill.

-- Campbell's Canadian mushroom business, consisting of farms in Portage la Prairie and Oakville, Man., Wellington, Ont., and Carignan, Que. -- A frozen poultry operation in Sumter, S.C. -- Domsea Farms Inc., a processor of salmon based in Pocatello, Idaho. -- The "Win Schuler's" cheese business in Marshall, Mich. (excluding the plant).

CAMDEN, NJ (JUNE 29) PR NEWSWIRE - Campbell Soup Co. (NYSE: CPB) announced today that it will put up for sale its Sumter, S.C., frozen food plant and poultry growing operation as part of the company's program to reduce excess capacity and focus on its most profitable and strategic businesses.

Campbell North America President Herbert M. Baum said, "The planned sale of the Sumter Plant is an important streamlining move to Campbell's worldwide effort to achieve productivity increases. It will significantly reduce excess capacity in our frozen food manufacturing system. We must take this step to compete globally."

The Sumter plant, which opened in June 1966, is located three miles from Sumter at 2050 Highway 15 South on 603 acres of land. Current employment is 1,200. There are 66 additional employees at Campbell's nearby Herider Farms poultry growing operation.

"The Sumter Plant is an excellent manufacturing operation with a first-class workforce," Baum said. He added that the company expects to work closely with key government officials and is hopeful that a qualified buyer will be attracted.

SANTA BARBARA, CA (JUNE 29) PR NEWSWIRE - GM Hughes Electronics has established a $200,000 relief fund to assist employees and retirees of Delco Electronics' Delco Systems Operations and Hughes Aircraft's Santa Barbara Research Center whose homes have been destroyed by fire in the Santa Barbara area Wednesday and Thursday.

Mike Johnston and Fletcher Phillips, managing directors of the two GMHE organizations, have reported some 40 employees and retirees have lost their homes since the fire began Wednesday evening.

Johnston and Phillips said, "We are very concerned with the well-being of our employees and retirees and want to do everything possible to help them in their time of need."

The relief fund will be administered by the personnel departments of Delco Systems Operations and Santa Barbara Research Center.

NEW YORK (JUNE 29) PR NEWSWIRE - Hill and Knowlton, Inc. announced today that David Wynn-Morgan of London has been appointed to the additional position of deputy chief executive officer of Hill and Knowlton International SA, of Brussels, the firm's management unit for Europe, Africa, and the Middle East.

Wynn-Morgan, a member of the Hill and Knowlton board of directors, will assist Claudio Belli, president and chief executive officer of the unit. Wynn-Morgan will continue to be based in London where he is the chairman of Hill and Knowlton (UK) Ltd. and executive vice president for financial relations, Europe.

"David's appointment strengthens our international organization as we help clients deal with the evolution of the European Community and explore opportunities in Eastern Europe," said Robert L. Dilenschneider, president and chief executive of the worldwide firm, in making the announcement.

Wynn-Morgan will also chair a committee of senior international executives who will help chart Hill and Knowlton's future in Europe, said Dilenschneider.

Named chairman and chief executive of the U.K. operation in 1984, Wynn-Morgan has led the London office's growth in revenues from $2.4 million to $12.7 million last year.

As the executive in charge of financial relations in Europe, he will continue to oversee Hill and Knowlton's mergers and acquisitions practice that links Europe, New York, Tokyo, and London financial market activity.

Prior to joining Hill and Knowlton, Wynn-Morgan founded and headed Partnerplan Limited, one of the largest public relations consultancies in Britain. When it was sold, he became managing director and later chairman of EXTEL Public Relations.

Hill and Knowlton, Inc., based in New York, is a leading international public relations and public affairs firm with 62 offices in 23 countries. Its parent company, WPP Group plc, is one of the leading advertising and marketing services groups in the world.

ST. PETERSBURG, FL (JUNE 29) PR NEWSWIRE - Security Tag Systems, Inc. (NASDAQ: STAG) has agreed to sell its 50 percent interest in Securitag International (STIL) to Automated Security Holdings (Ltd) PLC, (ASH), of London, England, owner of the remaining 50 percent interest.

The purchase price is approximately $1.8 million. Additionally, STIL will pay the approximate amount of $650,000 it owes in management fees and operational loans.

Commenting on this development, Carter W. Clarke, Jr., president and chief executive officer of Security Tag Systems, stated, "Automated Security, which now owns 30 percent of Security Tag common stock, has been in the process of consolidating and expanding its electronic article surveillance and other loss prevention operations in Europe where it is rapidly increasing its market presence and share.

"With Automated Security now having controlling interests in loss prevention companies in all major European markets, there is little need for an independent intermediate distributor, which has been the role of STIL. In effect, ASH becomes exclusive distributor in Europe and certain other foreign markets.

"The sale will benefit Security Tag in several ways. It will strengthen the direct relationship with its principal customer, promote operational

efficiencies and enhance ASH's effort to become Europe's dominant force in loss prevention, thereby fostering increased sales of Security Tag products."

Security Tag Systems, Inc. develops, manufactures, and markets electronic detection systems for retail, business, industrial, and military markets.

ATLANTA (JUNE 29) PR NEWSWIRE - Who says you can't get a free ride any more? That won't be the case Wednesday, July 4, when more than half a million persons are expected to ride MARTA for nothing on Free Ride Day.

For the second consecutive year, MARTA, Georgia Power Co. and WSB-TV (Channel 2) will co-sponsor free rides that day on all regular holiday routes. A record 435,000 people took advantage of Free Ride Day last year and MARTA officials expect another record this year.

"MARTA is one of Georgia Power's largest customers so it's only fitting to help them celebrate their 25th anniversary this year by co-sponsoring the free rides," said Bill Dahlberg, the utility's president and chief executive officer. "For MARTA's new and regular riders, it's an excellent opportunity to avoid traffic while traveling to Atlanta's many Independence Day festivities."

Some of the activities that riders can get to on MARTA are the Peachtree Road Race, WSB-TV's Salute 2 America parade and Lenox Square's 31st annual fireworks display. Riders wanting more information on routes or schedules

can call MARTA at (404) 848-4711.

WHIPPANY, NJ (JUNE 29) PR NEWSWIRE - Mark Antonacci of Dover, N.J., has joined Encore! Productions as both a co-owner and executive vice president, it was announced today.

Encore! Productions was founded three years ago by Alexis Montalto and Rick Monte as a business communications firm specializing in the creation of audio-visual, video, and multi-media presentations for corporate meetings as well as the design, production, and execution of training programs and corporate image events.

Antonacci will take an active role in the sales and management of the company overall and direct the growth of its new division, Encore! Entertainment.

"Encore! Entertainment offers a full spectrum of entertainment services to corporations and individuals, from live music for small gatherings to complete theme decor events," Antonacci explained.

"Encore! Productions has a reputation for the exceptional quality and value of the services it offers, and our entertainment division builds upon that solid track record by promising and delivering the same," he added. "We intend to make Encore! Entertainment every bit as successful as its parent company," said Montalto.

Prior to joining Encore! Productions, Antonacci was vice president and general manager of a national entertainment company for nine years. He also brings to the company a background in the hotel industry, where he served in department head and executive capacities.

GREENVILLE, SC (June 29) PR Newswire - Walter E. Bartlett, Chairman and Chief Executive Officer of Multimedia, Inc. (NASDAQ-NMS: MMED), announced that today the company is redeeming its Subordinated Redeemable Discount Debentures due 2005 at their stated face amount of $480 million.

The Discount Debentures were issued as a part of the company's

recapitalization in October 1985. This redemption is a part of an overall refinancing which provides $1.1 billion of available funds.

The refinancing is composed of a $700 million bank facility and a $400 million private placement of unsecured senior notes. The new bank facility terminates in June 2000. The senior notes have an average life of ten years and bear interest at a composite rate of approximately 10.7 percent.

The lead agents for the new bank facility are The Chase Manhattan Bank and Citibank with The First National Bank of Chicago, First Union National Bank of North Carolina and The Toronto Dominion Bank acting as co-agents. Goldman Sachs acted as placement agent on the senior notes.

In addition to providing funds to redeem the Discount Debentures and the existing bank debt of the Company, the new bank facility and senior notes provide approximately $375 million of additional funds for acquisitions.

In March of this year, the company announced that it had signed a letter of intent with the National Broadcasting Company to purchase 51 percent of its interest in Cleveland television station WKYC-TV for $65 million. The company stated that the balance of the funds will be available for additional acquisitions in its existing lines of business.

Bartlett said, "The financing provides Multimedia with flexibility at a crucial time. During the current period of tight credit and a soft business environment, it positions the company to maximize shareholder value by taking advantage of unique and special business opportunities similar to WKYC-TV, Cleveland. The new credit agreements also allow repurchase of the company's stock within certain limitations. The company may buy its stock in the future based on market conditions."

Robert Hamby, the company's Chief Financial Officer, said, "The financing strengthens the company's balance sheet on a long-term basis and is a reflection of the improved credit position of the Company."

Additionally, Hamby said, "The financing provides significant interest rate savings to the company. In addition to the 16 percent Discount Debentures, the company has been paying interest at a rate of approximately 12-1/2 percent on its bank debt during 1990. The new financing facilities provide an overall interest rate of approximately 11 percent on the debt being refinanced."

#90180p0857 06/29/1990 ~PR Newswire

BOSTON (JUNE 29) PR NEWSWIRE - The board of directors of Bank of Boston Corporation (NYSE: BKB) announced today adoption of a stockholder rights plan providing a dividend distribution of one right for each outstanding common share of the company. The distribution will be made to stockholders of record on July 12, 1990.

Stockholder rights plans, which have been adopted by more than 1,300 U.S. corporations, including 140 financial institutions, are designed to enable the board of directors to protect stockholders' interests in the face of unsolicited attempts to acquire the company. The Bank of Boston plan is not being implemented in response to any known plan to acquire the company.

Ira Stepanian, Bank of Boston chairman and CEO, said, "Our primary objective in acting to protect the interests of our stockholders is to build long-term value in their investment. This is a prudent and common action designed to ensure that all stockholders receive fair and equal treatment in the event of a takeover attempt."

Under the plan, the rights would, among other things, be exercisable only if a person or group acquired 15 percent or more of Bank of Boston's common stock. In that event, all common stockholders, other than the 15 percent acquiror, could exercise their rights and purchase common shares at a substantial discount.

Details of the stockholder rights plan are outlined in a letter that will be mailed to stockholders shortly after the July 12 record date.

WHITE PLAINS, NY (JUNE 29) PR NEWSWIRE - Texaco Inc. (NYSE: TX) announced today that it has designated Peter I. Bijur to assume the position of president of its Texaco Europe division upon the retirement of Paul B. Hicks, Jr., effective Nov. 1. Hicks will be taking normal retirement after more than 37 years of service with Texaco.

Bijur will continue to serve as chairman of London-based Texaco Limited. In making today's announcements, Texaco Inc. President and Chief Executive Officer James W. Kinnear said: "Peter Bijur has made significant contributions to Texaco Limited over the past year, as he has done in other capacities throughout his Texaco career. His executive and operational experience will be a great asset to the Texaco Europe family of companies, as our European operations move ahead in this dynamic period in that continent's history."

Bijur, 48, joined Texaco's New York-based domestic marketing operations in

1966. Following a series of marketing assignments, he was appointed manager of the Buffalo, N.Y., Sales District in 1971. In 1973 Bijur was named assistant to management on the staff of the senior vice president of public affairs. He was appointed staff coordinator in the company's strategic planning function in 1975 and assistant to the executive vice president in 1977. In 1980 he was named manager of Texaco U.S.A.'s manufacturing and marketing operations in the Rocky Mountains area.

Bijur was appointed assistant to the chairman of the board in 1981 and was elected a vice president of Texaco Inc. in 1983. The following year he was named president of Texaco Oil Trading & Supply Company. Bijur assumed new responsibilities in Texaco's executive department in March 1984, supervising the sale of selected assets, related to Texaco's acquisition of Getty Oil Company.

In 1982 Bijur was elected a director of Texaco Canada Inc. He was appointed by the Texaco Canada board of directors to serve as president and chief executive officer in January 1987, and served in that capacity until Texaco Canada Inc. was sold in 1989. In April of that year, Bijur was appointed chairman of Texaco Limited. In that capacity, Bijur has had responsibility for the Texaco group of companies operating and holding interests in exploration, production, refining, supply and transportation, and marketing operations in the United Kingdom.

Hicks joined Texaco's sales organization in Chicago in 1953. He served as a sales representative and subsequently district supervisor of merchandising until 1960, when he was appointed district sales manager in Chicago. Hicks served in a number of supervisory sales positions with increasing responsibility in Chicago; Columbus, Ohio; and New York, N.Y., until 1965 when he was named assistant to the president of Texaco Inc. The following year, he became general manager of the sales department - United States.

In 1969 Hicks was elected a vice president of Texaco Inc., and was placed in charge of the sales department - United States. In 1972 Hicks was named vice president for worldwide sales and vice president of the public relations and personnel department in 1975. In 1977 he was named vice president and general manager of public relations and advertising.

Hicks was appointed president of Texaco Europe in 1983 and elected a senior vice president of the company in 1986. In this dual capacity, Hicks has had corporate responsibility for exploration, production, transportation, manufacturing and marketing operations in Europe.

PLAINVIEW, NY (JUNE 29) PR NEWSWIRE - Aeroflex Laboratories, a subsidiary of ARX, Inc. (NYSE: ARX), today announced the award of a $4.9 million contract, with options, from Lockheed Missiles and Space Company of Austin Texas. Aeroflex is working with Lockheed to refurbish and upgrade the AN/ASD-5 Direction Finder Set (DFS) for the AC-130H Gunship Aircraft. Lockheed is the prime contractor to Warner Robbins Air Logistics Center.

Lockheed and Aeroflex share a common past on this important program. Lockheed originally developed the AN/ASD-5 in 1970 incorporating the Aeroflex-designed Pedestal Assembly (PA) and Servo Electronics Unit (SEU). Aeroflex's role in the upgrade program will include the redesign of the PA and SEU to improve performance, reliability and maintainability.

Aeroflex is a U.S. Air Force Blue Ribbon supplier and has decades of experience in the areas of stabilization systems and high reliability components for military and aerospace applications.

LONDON (JUNE 29) PR NEWSWIRE - BTR plc announced today the completion of the $191 million cash acquisition of United Technologies Corporation's Global Automotive Sealing Systems Group by BTR's wholly owned subsidiary, Schlegel Corporation of Rochester, N.Y. Schlegel produces a wide range of products, including hardware and sealing systems for home improvement and construction, as well as automotive applications.

John Cahill, managing director and chief executive of BTR plc, stated, "This acquisition is part of BTR's long-term strategy to enhance shareholder value by building a leading global presence in our core businesses. We are excited by the opportunities to enhance our manufacturing, distribution and technological base in the sealing industry and to strengthen and grow this new addition to the BTR group of companies. We look forward to serving our new customers and employees."

UTC's Global Automotive Sealing Systems Group is a supplier of automotive, body, and glass-run seals with total 1989 sales of $275 million and 4,100 employees. The group's manufacturing operations, six in total, are located in the United States and Europe.

BTR plc is a London-based global corporation that comprises more than 500 companies operating in five major business sectors: industrial, control systems and electrical, construction, transportation and consumer-related.

#90180p0866 06/29/1990 ~PR Newswire

WARREN, NJ (JUNE 29) PR NEWSWIRE - Immunomedics, Inc. (NASDAQ: IMMU) announced that it has filed an Investigational New Drug Application (IND) with the U.S. Food and Drug Administration (FDA) to begin testing of the company's monoclonal antibody imaging agent (ImmuRAID-MN3) for the precise detection of sites of inflammations and infections.

"This is our first IND for a non-cancer application of our proprietary technology," noted Dr. Carl Pinsky, vice president medical affairs. "ImmuRAID-MN3 should be useful in detecting the precise sites, nature and extent of infections and inflammations, such as abscesses, appendicitis, osteomyelitis, meningitis, rheumatoid arthritis, colitis and opportunistic infection in AIDS patients."

ImmuRAID-MN3 is a monoclonal antibody-based imaging agent which allows for direct labeling of the radioisotope technetium-99m to target white blood cell types that accumulate at the sites of infection. The radioactivity from the delivered technetium is seen with a conventional nuclear camera and pinpoints white blood cell accumulation at the specific site of the infection.

Currently the most prevalent method of evaluating the abnormal accumulation of scavenger white blood cells involves removing small amounts of blood from a patient, isolating white blood cells and labeling these cells with an isotope. After reinjecting the labeled cells, the patient is scanned by a nuclear camera to find where the reinjected white blood cells travel and accumulate.

"Removal of white blood cells for labeling and reinjection can be dangerous to health care professionals if a patient has AIDS or another contagious disease," explained Russell C. McLauchlan, Immunomedics' president. "This danger can be avoided by using ImmuRAID-MN3."

Immunomedics plans to conduct a multi-center Phase I/II clinical study of the product. The initial study will be conducted at Morristown Memorial Hospital in New Jersey. The FDA will have 30 days to comment on the company's IND application.

In May, 1990, the company received a U.S. patent covering bi- specific monoclonal antibodies, second generation technology to ImmuRAID-MN3, which are engineered to react to more than one type of white blood cell at a time, making the measurement of the infection even more thorough and efficient.

Immunomedics is a biopharmaceutical company applying innovative technology to the development of new methods and products using antibody-based radioisotopes and drugs for diagnosis and therapy of cancer, infection and other diseases. The company maintains corporate headquarters in Warren, N.J. and research facilities on the campus of the University of Medicine and Dentistry of New Jersey in Newark.

ERIE, PA (JUNE 29) PR NEWSWIRE - Spectrum Control Inc. (NASDAQ: SPEC), a worldwide manufacturer of electronic components, today announced it has entered into a new $9.6 million debt agreement with its principal lending institutions.

The new agreement replaces a line of credit negotiated in 1988 with Marine Bank of Erie, Pa., and Pittsburgh National Bank, under which borrowings were due and payable on Sept. 30, 1989. Since then, Spectrum has been negotiating with the banks for a renewal. Borrowings under the line of credit currently amount to $9.6 million.

As a result of the agreement announced today, $5.3 million of the indebtedness was converted to a revolving credit line expiring April 30, 1991, and $4.3 million was converted to a term note requiring monthly principal payments of $100,000.

"The new debt agreement cures all of the company's previous technical defaults and eliminates the uncertainties regarding our bank indebtedness. In addition, it provides a basis upon which the company can meet its

future working capital needs," John P. Freeman, vice president and chief financial officer, commented.

Spectrum Control Inc. designs, manufactures and markets a broad line of electromagnetic compatibility (EMC) products designed to protect electronic equipment against interference from random electromagnetic waves and to fulfill other electronic circuit needs.

Spectrum provides an integrated approach to EMC problem solving by offering customers a broad range of consulting, diagnostic testing and manufacturing services. These services include testing for EMC problems, analyzing test results, proposing design solutions, and producing the required components.

In addition, the company manufactures a full product offering of multilayer ceramic and new plastic multilayer fixed capacitors, hybrid integrated circuits and crystal oscillators.

CINCINNATI (JUNE 29) PRNEWSWIRE - Great American Communications Company ("GACC") (NASDAQ: GACC) announced today that it has completed financing arrangements which will enable it to purchase, through an outstanding tender offer, up to $85.4 million principal amount of 13-1/4 percent Senior Extendable Reset Notes issued by its subsidiary, GACC Holding Company.

As previously announced, GACC has agreed to acquire $88.6 million principal amount of Reset Notes through privately negotiated transactions and is seeking to purchase the remaining $85.4 million principal amount through a tender offer.

With the financing condition now satisfied, GACC is prepared to pay $825 net cash per $1,000 principal amount to tendering holders within five business days after Reset Notes are validly tendered. This is the same price as is being paid to holders under the privately negotiated purchases.

The complete terms of the offer are contained in an Offer to Purchase mailed to holders on June 20, 1990 and which is scheduled to expire on July 3, 1990, unless extended. The dealer-manager of the offer is Lehman Brothers, a division of Shearson Lehman Hutton, Inc.

GACC and its subsidiaries own and operate five network affiliated television stations, and twelve FM and six AM radio stations in the top fifty markets. Through Hanna-Barbera, it is involved in animated film and video productions, distribution, and marketing worldwide. GACC

beneficially owns approximately 46 percent of Spelling Entertainment Inc.

American Financial Corporation beneficially owns 68 percent of GACC. GACC's common stock trades in the over-the-counter market under the symbol GACC.

HIGHLAND PARK, MI (JUNE 29) PR NEWSWIRE - Chrysler Corporation (NYSE: C) announced today price increases ranging from $60 to $160 on most of its 1990 domestic passenger cars. Destination charges increased $15 or $30, depending on the model. All increases are effective Monday, July 2, 1990.

Not affected by the price increases are the Plymouth Sundance, Dodge Shadow, Eagle Premier, and Dodge Monaco. The destination charges on the Premier and the Monaco are unchanged. The price adjustments are due to increased operating and product costs.

Dodge Daytona and most Chrysler LeBaron models received the lowest increase, $60, on their Manufacturer's Suggested Retail Price (MSRP). Prices for the Chrysler Fifth Avenue and Chrysler Imperial increased by $160, bringing their MSRP to $21,020 and $25,655, respectively. Price increases for all other affected passenger cars range from $70 to $120.

The destination charge was raised by $30 on the Fifth Avenue and Imperial. Destination charges on all other models increased by $15.

The notes are convertible into shares of common stock of the company at any time prior to maturity, unless previously redeemed, at a conversion price of $48.17 per share (after giving effect to the recent stock split), subject to adjustment under certain conditions. The notes will be redeemable at any time on or after June 30, 1992 at the option of

the company, in whole or in part, at redemption prices beginning at 104 percent of their principal amount declining to par on and after June 15, 1996. The company has granted the underwriters an option to purchase up to an additional $30 million of notes to cover over-allotments.

The First Boston Corporation and Invemed Associates, Inc. are the co-underwriters of the offering.

The net proceeds from the sale of notes will be used principally to finance the company's capital expenditure programs over the next several years, including planned store expansion and renovations, and for general corporate purposes.

On May 30, 1990, the company declared a three-for-two stock split payable July 6, 1990 to stockholders of record on June 14, 1990. All quoted share prices have been adjusted to reflect that split.

The company is a leading retailer in the home center industry and operates "Do-It-Yourself Warehouse" stores which sell, largely on a cash-and-carry basis, a wide assortment of building materials and home improvement products. Home Depot currently operates 126 stores ranging in size from approximately 67,000- to 140,000-square-feet of enclosed space in Alabama, Arizona, California, Connecticut, Florida, Georgia, Louisiana, New Jersey, New York, South Carolina, Tennessee and Texas.

HOUSTON (JUNE 29) PR NEWSWIRE - The New York Stock Exchange advised Commonwealth and announced on Tuesday, June 26, 1990, that further trading of the class A units of Commonwealth Mortgage of America, L.P. (NYSE: CMA) will be suspended immediately, and that an application will be filed with the Securities and Exchange Commission to delist the issue. At the present time, Commonwealth does not intend to appeal the decision of the Exchange.

The Exchange's action was taken following Friday's announcement that a plan of complete dissolution and liquidation had been approved by Commonwealth and that the holders of class A units are unlikely to receive any liquidating distribution due to the amount of its outstanding debt, the preference in liquidation of the units and other factors as described in the plan. Earlier this year, Commonwealth sold its Federal National Mortgage Association servicing portfolio in accordance with a request by the Federal National Mortgage Association that the sale and transfer of this portfolio be accomplished on or before April 30, 1990. Commonwealth

previously announced the execution of an agreement to sell its loan origination operation. It was also previously announced that a broker has been retained to market the remainder of its servicing portfolio.

The Exchange noted that it may, at any time, suspend a security if it believes that continued dealings in the security on the Exchange are not advisable.

JACKSONVILLE, FLA. (JUNE 29) PR NEWSWIRE - The senior management group and employees of Reynolds, Smith and Hills, Inc. announced that, effective today, they have completed the purchase of assets of the former Design Division of Hunter Environmental Services, Inc. This acquisition returns ownership of one of the largest architectural-engineering-planning firms in the Southeastern United States to seven strategic locations with headquarters in Jacksonville, Fla.

The purchase price for the business included the issuance of $4.1 million in preferred stock, payment of $1 million in cash and the assumption of $800,000 in long term debt. "The 'New' RS&H has in excess of $3 million in net assets, approximately $30 million in revenues and $20 million in contract backlog," stated Leerie T. Jenkins, RS&H chairman of the board, president and chief executive officer.

RS&H is one of the oldest and largest AEP firms headquartered and operating in the Southeast. "We are pleased to have completed this successful transaction and look forward to continuing to provide the high quality professional services our clients have come to expect over the last 50 years," stated Jenkins.

IRVINE, CA (JUNE 28) PR NEWSWIRE - Major developments at Players International Inc., based in Calabasas, Calif., have led to a "buy" recommendation from investment banking firm L.H. Friend, Weinress & Frankson Inc. Shares are traded over the counter.

According to Greg Kieselmann, certified financial analyst for L.H. Friend, the company has acquired an exclusive license from Merv Griffin Enterprises to market 900 telephone call-in games for television shows "Jeopardy" and "Wheel of Fortune."

"'Phone Jeopardy' (1-900-860-0600) is currently being market tested and will be rolled out nationally soon," Kieselmann said. "The quiz show can be played 24 hours a day and provides daily and monthly grand prize winners."

"Phone Wheel of Fortune" is expected to roll out nationally in August. "Players' long-term strategy is to collect myriad game shows and create a 900 game show network," he said. "Over time, we imagine there will be announcements of other licensing agreements."

"We believe Players' license with Griffin will take the audiotext game industry to a significantly higher level since 'Jeopardy' and 'Wheel of Fortune' have a following of 20 million viewers daily, creating spin-off board games and interactives," Kieselmann explained.

"Phone Jeopardy" incorporates the voices of Alex Trebek and Johnny Gilbert the TV talk show hosts, and tests the call-in with trivia questions by category, similar to the show's format.

The price per call is $2 for the first minute and $1 for each additional minute, which is subject to test market adjustments. Kieselmann said the calls will be processed by Call Interactive, a joint venture of AT&T and American Express.

"While the economics of 'Phone Jeopardy' and 'Phone Wheel of Fortune' are speculative at this time, the potential would seem to be excellent,"

Kieselmann said.

While the sheer number of calls can affect the top line, the company is emphasizing the cost-effectiveness and, ultimately, the profitability of calls. Kieselmann said Players' entry into the telephone game show business has piqued investor interest and helped push the stock to all time highs.

CONTACT: Greg Kieselmann, (213) 556-5488, or Bob Witt, Executive VP, (714) 852-9911 or (213) 556-5488, of L.H. Friend, Weinress & Frankson Inc.

ST. CLAIR SHORES, MI (JUNE 29) PR NEWSWIRE - Ski Supreme, a division of Genmar Industries, announced the addition of its superior ski boats to the present line of outstanding powerboats offered by Jefferson Beach Marina of St. Clair Shores.

Ski Supreme outranked the best in a recent ski boat evaluation and boat test conducted by Waterski Magazine. Ski Supreme ranked No. 1 in both the performance and overall classifications and earned the prestigious Waterski Magazine "Seal of Approval."

Ski Supreme offers the 19-foot "MS" Series and "Tournament" Series models. A partial listing of standard equipment includes:

- MerCruiser-powered engine - Kenwood stereo system - Removable platform - Built-in cooler and cup holders - Spacious storage areas - Plush marine carpet - Red Mod analog instrumentation - USCG safety package - Ergonomically designed wrap windshield

Models can be viewed at any Jefferson Beach Marina "Top-ten Ski Supreme Dealer" location. Product literature and pricing information are currently available by calling (313) 778-7600.

Effective July 1, the Jefferson Beach Marina - WEST Power Boat Sales location in Pontiac, Mich., will undergo a mailing address change: Jefferson Beach Marina - WEST 3225 W. Huron (M-59), Waterford, MI 48328. The current telephone number (313-683-9966) will remain the same. This change is due to the continued growth rate and expansion of the area.

HARTFORD, CONN. (JUNE 29) PR NEWSWIRE - CIGNA Corporation (NYSE: CI) announced the opening today of a medical claim processing center in Loughrea, Galway County, Ireland.

The office opens with a staff of 63, and is expected to employ about 125 claim analyst and support positions by the end of this year and an estimated additional 100 jobs in Loughrea by 1992. CIGNA and the Industrial Development Authority of Ireland (IDA Ireland) invested approximately $5 million to establish the center.

"We are delighted to officially open our new Loughrea clam processing center," said Craig E. Andrews, vice president of claim operations for CIGNA Employee Benefits Companies, which provide managed medical/dental care products and services to U.S. corporations. "This new center is an important link in a network of offices -- working together -- to delivery quality health care at an affordable place in America," Andrews said.

"This is a tremendous example of how Ireland's investment in telecommunications has paid off," said Robert Molloy, T.D., Ireland's minister for energy. "An operation of this nature is totally dependent on first-class telecommunications links with the U.S. It would just not be possible without them.

"Our ready supply of well-educated, English-speaking young people also makes Ireland an ideal location for many remote services-type industries," Molloy said.

Completed medical insurance claim forms and physician bills will be flown each day by air courier from the United States to Shannon Airport, then delivered to the Loughrea center for processing. Claim analysts in Loughrea will review each claim, then electronically transmit payment to a data processing installation in the United States where checks will be mailed to customers.

IDA Ireland has been helping new industries to establish facilities in Ireland since 1969. A state-sponsored agency with a budget of 150 million Irish pounds a year, it has 21 overseas offices and provides a unique range of programs and financial incentives.

The CIGNA companies, with assets of more than $56 billion and international revenues exceeding $2 bullion, are leading providers of insurance, health care, employee benefits, pension and investment management, and related financial services to businesses and individuals worldwide.

LANGHORNE, PA (JUNE 29) PR NEWSWIRE - Cabot Medical Corp. (NASDAQ-NMS: CBOT) today announced the introduction of a new single- use, disposable trocar and cannula, called the TROCANTM, which will find wide use in laparaoscopy procedures and further broaden the company's product offering in high margin disposables used in less invasive surgical procedures.

The TROCANTM is styled to resemble the standard reusable steel trocar and cannula system normally used by surgeons, and as a single-use product eliminates the costs of cleaning, reassembling, lubricating, sterilizing and resharpening incurred with reusable systems. It also incorporates a unique, patented, self-sealing valve which alleviates the leakage problems encountered by systems with trumpet and flapper valves. The TROCANTM is supplied in a variety of individually packaged and color coded sizes for easy identification by the surgeon and operating room personnel.

Cabot Medical Corp. designs, develops and manufactures medical devices for less invasive diagnostic and surgical procedures. The products are sold under the Cabot, Berkeley, KLI, Cryomedics and Ultroid trade names.

#90180p0908 06/29/1990 ~PR Newswire

WASHINGTON (JUNE 29) PR NEWSWIRE - The Federal National Mortgage Association (Fannie Mae) (NYSE: FNM) issued the following debenture announcement:

Date of Offering:	July 3, 1990
Issue Date:	July 10, 1990
Term:	4 years 10 years

Callable on or after:	7/11/92	7/10/93
Amount (millions):	$700	$600
Maturity Date:	7/11/94	7/10/00
Date of First Interest Payment (then semi-annually):	1/11/91	1/10/91
Date interest rates and prices will be announced:	July 2, 1990	

The debentures of July 11, 1994, and the debentures of July 10, 2000, are redeemable on or after July 11, 1992, and July 10, 1993, respectively, in whole or in part at the option of the corporation at any time (and from time to time) on or after the initial redemption date.

The redemption price of the debentures of July 11, 1994, will be 100 percent of the principal amount redeemed plus accrued interest thereon to the date of redemption.

The redemption price of the debentures of July 10, 2000, initially will be a percentage of the principal amount redeemed equal to 100 percent plus one-half the coupon rate on the debentures, plus accrued interest on the amount redeemed.

The redemption price of the debentures of July 10, 2000, will decrease on each succeeding interest payment date, as will be set forth in the Supplement to the Guide to Debt Securities information statement dated June 26, 1990, relating to those debentures.

The amount payable at maturity will be equal to 100 percent of the then outstanding principal balance, plus accrued interest. The net proceeds of this offering will be used to redeem in part the $1,540,000,000 of Series SM-1990-G, 9.85 percent debentures due July 10, 1990.

Debentures will be issued in book-entry form only. The minimum purchase is $10,000 and multiples of $5,000 thereafter. The offering is being made through Fannie Mae's Senior Vice President - Finance and Treasurer Gary L. Perlin, and Vice President and Assistant Treasurer Linda K. Knight, 3900 Wisconsin Avenue, N.W., Washington, D.C. 20016, assisted by a nationwide selling group of recognized securities dealers.

CORPUS CHRISTI, TX (JUNE 29) PR NEWSWIRE - Delta Air Lines (NYSE: DAL) inaugurates service at Corpus Christi today with nonstop flights to its Dallas/Fort Worth hub.

Delta's first flight is scheduled to depart at 11:00 a.m. this morning from Corpus Christi International Airport as Mayor Betty Turner and other local dignitaries join Delta's officials in commemorating the inaugural.

"We at Delta have been so gratified by the warm Texas welcome we've received here in Corpus Christi and look forward to many years of service to the community," said Judy Jordan, Delta's assistant vice president - advertising and sales promotion, who cut the ribbon beginning Delta's service.

Delta's new service will offer three flights featuring the 107-seat Boeing 737 aircraft, conveniently scheduled throughout the day to Delta's Dallas/Fort Worth hub. At DFW, Delta passengers will find connections to cities throughout the world aboard 252 Delta flights daily. In addition, Atlantic Southeast Airlines, The Delta Connection carrier at DFW, offers service to 15 destinations aboard 88 flights daily coordinated with Delta's schedule to provide convenient connections.

"Corpus Christi passengers are sure to enjoy the convenience of one-terminal connections via Delta's 31 gates at DFW's Terminal 4E, widely known as 'Easy Street,'" Gregg Plotner, Delta's district marketing manager noted. He added that Delta is pleased to operate its flights at Corpus Christi from the new terminal expansion, offering the comfort of a passenger loading bridge at aircraft level.

Delta's local marketing office and city ticket office are located at One Shoreline Plaza.

HOUSTON (JUNE 29) PR NEWSWIRE - WNS, Inc. announced today that it has sold its Deck the Walls division to a corporation recently formed by John Jones, former president of WNS, and certain management members of the Deck the Walls division for an aggregate purchase price of $9 million.

The company also announced today the refinancing of the outstanding bank borrowings with First Interstate Bank of Texas, N.A. In connection with the refinancing, the company extended the maturity of its bank borrowings until Jan. 31, 1992.

The company will immediately begin a proxy solicitation of its shareholders to, among other things, authorize the issuance of a series of preferred stock to be issued to Textron Investment Management Company, Inc., as agent, and Textron Collective Investment Trust Fund B in exchange for outstanding subordinated notes in the principal amount of $4 million. There can be no assurance, however, that the transaction will be consummated.

The company previously announced that it was negotiating with Jones for the sale of the Deck the Walls division. The company today accepted Jones' resignation as president and chief operating officer of WNS and also his position as a member of the board of directors of WNS. No replacements have been announced.

WNS, Inc., is a leading specialty retailer operating primarily through franchisees with 254 Wicks 'N' Sticks stores selling candles and room fragrancing and 124 Wallpapers To Go stores selling in-stock and special order wallcoverings. The company plans to focus its resources on the continued development of these two retail concepts.

NEW YORK (JUNE 29) PR NEWSWIRE - Horsehead Industries, Inc. announced today the initial public offering of 3.25 million shares of common stock of its subsidiary, Horsehead Resource Development Company, Inc., at a price of $14.50 per share.

Kidder, Peabody & Co. Incorporated and Alex. Brown & Sons Incorporated are co-managers of the underwriting group. Net proceeds to the company will be used to repay indebtedness and for general corporate purposes.

The company is a leader in inorganic hazardous waste resource recovery and its primary business consists of processing electric arc furnace dust ("EAF dust") generated in electric arc furnace steelmaking, from which it recovers useful products, principally zinc.

The company is the leading processor of EAF dust in the United States. The company's strategy is to expand its primary business and to broaden its activities into the management of additional waste streams from which useful products can be economically recovered.

Subsequent to this offering, the company will be 45 percent-owned by Horsehead Industries, Inc. and 45 percent-owned by B.U.S. Environmental Services, Inc., a majority-owned, indirect subsidiary of Metallgesellschaft AG.

As announced on June 8, 1990, B.U.S. has agreed to purchase 9.75 million shares of common stock from Horsehead Industries at a price of $124 million, or $12.75 per share.

CONTACT: Robert L. Hoguet III of Horsehead Resource Development Company, (212) 527-3025, or A. Reid Marsh, Jr., of Kidder Peabody & Co. Incorporated, (212) 510-4034, for Horsehead.

NASHVILLE, TN (JUNE 29) PR NEWSWIRE - Edwin W. Moats, Jr., Chairman and Chief Executive Officer of Metropolitan Federal Savings and Loan Association (NASDAQ-NMS: MFTN), announced today that the golf course complex at Southwind in Memphis, Tennessee, has been sold to the Tournament Players Club at Southwind Inc., a subsidiary of PGA Tour Investments, Inc. The complex includes an 18-hole private golf facility, clubhouse, swimming pool, tennis courts and other amenities.

Southwind, a 900-acre multi-use development in Memphis, is the home of the Federal Express St. Jude Classic golf tournament held in August. In addition to the golf course, clubhouse and surrounding recreational facilties, Southwind is composed of a luxury residential development and a business community.

In making the announcement, Moats said, "The TPC has managed the golf complex at Southwind since its opening in 1988. In keeping with the original concept for Southwind, we are pleased to pass ownership of the golf and recreational facilities to the TPC. This arrangement will ensure that the Federal Express St. Jude Classic will be held in Memphis for years to come."

Metropolitan Federal, Tennessee's largest publicly-traded savings and loan with 19 offices, operates throughout the state. Metropolitan Federal's common stock is traded on the over-the-counter market in the National Market System under the NASDAQ symbol MFTN.

HADDON HEIGHTS, N.J. (JUNE 29) PR NEWSWIRE - On June 27, the Board of Public Utilities granted New Jersey-American Water Co. a 2.4 percent overall rate increase representing the second phase of an increase approved March 12, by the regulatory agency.

In its March order, the board allowed the company to request a second phase of its original 1989 petition for the recovery of costs primarily associated with major construction projects.

The board has not yet announced an effective date for this increase. The new rates will generate approximately $3.2 million in additional revenues for expenses related to the cost of financing and operating new plant facilities.

Public and private fire protection services are affected by the rate increase. Sewer charges for Ocean City and Lakewood Township customers are not affected by the new rate schedule.

For customers in Burlington and Camden counties, the increase is attributed to the construction of new treatment facilities to remove organic chemicals from the company's water system that serves portions of the city of Camden and Pennsauken Township.

For Monmouth County customers, the increase is attributed to the final expansion of the company's Jumping Brook Treatment Plant in Neptune Township designed to support existing customers. Also included are projects in Monmouth County which relate to enhanced distribution during peak demand times as well as the Manasquan River Reservoir Project. Public fire service charges in Monmouth County are not affected by the rate increase.

New Jersey-American Water Co. serves approximately 300,000 customers in 110 New Jersey communities. The company's Western Division provides water service to 85,650 customer accounts in Burlington and Camden counties.

ALLENTOWN, PA (JUNE 29) PR NEWSWIRE - William F. Hecht, senior vice president-System Power & Engineering with Pennsylvania Power & Light Co. (NYSE: PPL), has been appointed the company's executive vice president-Operations, effective July 1.

Hecht will report directly to John T. Kauffman, PP&L's chairman, president and chief executive officer.

Hecht will continue to be responsible for the Power Production & Engineering, Power Supply, Construction, Engineering Services and Environmental functions. In addition, reporting to Hecht will be Bruce D. Kenyon, senior vice president-Division Operations, Harold W. Keiser, senior vice president-Nuclear, and Robert S. Gombos, vice president- Human Resource & Development.

Kauffman said that the appointment was made at this time "to help ensure continuity in the senior management level of our operations.

"Bill brings a diverse background of assignments to his new duties. In recent years, he has had a major role in shaping the decisions affecting the energy production and supply areas of our business, as well as the marketing and customer service functions.

"He also has considerable experience in the distribution and engineering phases of our operations. In addition, he has been an integral part of the rate-making function of our operations," Kauffman said.

Hecht started with PP&L in 1964 as a graduate engineer trainee and was promoted to project engineer in System Planning in 1968. After serving in various assignments, he was promoted to manager-Distribution Planning in 1975 and a year later was named executive director of PP&L's Corporate Energy Planning Council.

He became manager-System Planning in 1978 and five years later was appointed vice president-System Power. In 1987 he was made vice president-Marketing & Customer Services and early in 1989 was appointed vice president-Power Production & Engineering. He has been senior vice president-SP&E and a member of PP&L's Corporate Management Committee since September 1989.

He is a registered professional engineer in Pennsylvania and is a member of the Institute of Electrical & Electronics Engineers and the Marketing Executives' Conference, a national association of utility marketing executives. He was a part-time lecturer in electrical engineering at Lehigh University from 1973 through 1976.

He is a past chairman of the executive board of the Mid-Atlantic Area Council, the regional electric utility reliability coordination group to which PP&L belongs, and has served on the Board of Trustees of the North American Electric Reliability Council.

PP&L supplies electricity to a 10,000-square-mile area of 29 counties in Central Eastern Pennsylvania. Among the communities it serves are Allentown, Bethlehem, Harrisburg, Hazleton, Lancaster, Scranton, Wilkes-Barre and Williamsport.

SUNNYVALE, CA (JUNE 29) PR NEWSWIRE - The Chairman of the Board of Directors of DeAnza Holding Corp., E. Harrison Williams, announced today that DeAnza has signed a definitive agreement to be acquired by Citicorp (NYSE: CCI), consistent with the term of the letter of intent announced on April 30, 1990.

Citicorp intends to pay cash for all of the outstanding shares of DeAnza's common stock. Each of DeAnza's shareholders will receive payment of two times DeAnza's book value as of the closing date of the transaction. The transaction is expected to be completed as soon as practicable after the California Interstate (National) Banking Act of 1986 becomes operative, which is scheduled to be Jan. 1, 1991.

DeAnza Holding Corp. is the holding company for DeAnza Bank, a state-chartered bank with offices in Sunnyvale and Santa Clara. The total consolidated assets of DeAnza Holding Corp. for Dec. 31, 1989, were $35,126,825, with shareholder's equity of $3,523,219. Net income for the year ended Dec. 31, 1989, was $427,940, or $1.12 per share.

Citicorp is a $230 billion bank holding company and the parent of Citibank N.A. (a national bank based in New York) and Citibank, F.S.B. (a federal savings bank based in California).

Williams stated that the proposed merger is subject to approval by bank regulators and the shareholders of DeAnza Holding Corporation. DeAnza's common stock is traded on the over-the-counter market. The market makers are Bateman, Eichler, Hill Richards, Inc. and Hoefer & Arnett, Inc.

CONTACT: Robert W. Fleck, president of DeAnza Holding Corporation and chairman of the board of DeAnza Bank, (415) 493-0111.

CAMBRIDGE, MA (JUNE 29) PR NEWSWIRE - T Cell Sciences, Inc. (NASDAQ: TCEL) today reported that fourth-quarter and fiscal-year 1990 audited financial results include a record product sales level of $1.1 million in the fourth quarter ended April 30, 1990, and a record product sales level of $3.4 million for the full year, a 24 percent increase over the prior year.

Total revenues reached $3.7 million for the quarter, and $11.8 million for the year, compared to $2.9 million and $8.4 million for the same periods in the prior fiscal year.

The company reported a net operating profit of $285,000 (3 cents per share) for the quarter compared to a profit of $127,000 (2 cents per share) for the fourth quarter of fiscal 1989. The net operating loss for fiscal 1990 was slightly better than anticipated, amounting to $1 million (12 cents per share) compared to $1.1 million (13 cents per share) in fiscal 1989. The fourth-quarter profit may not be indicative of future results for fiscal 1991 as it reflects higher than usual revenues from the company's collaborative programs with SmithKline Beecham Pharmaceutical p.l.c. and Yamanouchi Pharmaceutical Co., Ltd. related to the development of the company's complement blocker therapeutic product and the development and marketing of diagnostic products.

"Product sales continued to increase this year as a result of new product introductions to the medical research market and the introduction of our FDA-approved CELLFREE(R) Interleukin-2 Receptor Bead Assay Kit to the clinical diagnostic market. We expect to see continued increases in the next fiscal year based on additional penetration of worldwide markets for our products and anticipated new product introductions," said James D. Grant, chairman and chief executive officer of T Cell Sciences. "The higher revenues from product sales and collaborative programs were applied to accelerated research and development efforts to advance the development of our complement blocker and to further the research on other potential

therapeutic compounds and our core technology in T cell and soluble receptors."

The company also reported that its unrestricted cash and marketable securities position as of April 30, 1990, was $11.3 million, an increase of $1.8 million over that available at the beginning of fiscal 1990. As previously announced, the company raised approximately $3.5 million during the second half of fiscal 1990 through the call of its public warrants originally issued as part of the company's initial public offering in 1986. "With our enhanced financial position we are well positioned to move forward with our therapeutic and diagnostic product development efforts in fiscal 1991," said Grant.

Utilizing proprietary T cell and soluble receptor technology, T Cell Sciences, Inc. is developing pharmaceutical products to treat heart disease and autoimmune diseases as well as products for diagnosing and monitoring immune system disorders and cancer. Located in Cambridge, the company currently markets products to the scientific community and an FDA-approved test kit to the diagnostic market.

JACKSONVILLE, FL (JUNE 29) PR NEWSWIRE - Edward H. Latchford has been named chairman and chief executive officer of Energy Resources & Logistics Inc. (ER&L), Robert L. Kirk, president and chief executive officer of CSX Transportation Inc. (CSXT), annnounced today.

ER&L, a CSX unit, is a Baltimore-based company that specializes in the development of cogeneration projects and transportation packages for other project developers.

Kirk said that Latchford's financial and operational experience will strengthen ER&L's management for the challenges of the '90s as the company's cogeneration portfolio increases.

In addition, Kirk said Latchford would continue as president and chief executive officer of Fruit Growers Express, another CSX unit, which owns, operates and services refrigerated and insulated boxcars.

Latchford, 42, joined the company in 1975 and has held a number of audit, finance, accounting, and planning positions within CSX and CSXT. Presently he serves as vice president-finance for CSXT. A certified public accountant, Latchford earned a master's degree in finance from Loyola College in Baltimore.

CSX Transportation Inc. and its 37,500 employees provide rail transportation and distribution services over a 19,200 route-mile network in 20 states, the District of Columbia and Ontario, Canada.

TINTON FALLS, NJ (JUNE 29) PR NEWSWIRE - Keptel, Inc. (NASDAQ: KPTL) announced today that it expects to report a loss of approximately $200,000 or 4 cents per share, on revenues just over $11 million for the quarter ending June 30, 1990.

Richard K. Laird, president and CEO, said, "A combination of unexpected events contributed to this quarter's weak performance. Firstly, Bell Telephone Company product releases against firm contracts were smaller than expected and, while planning was shifted to reduce inventory, overall production and shipments were less than planned.

"Secondly, uncertainty caused by pending legislation to re-regulate the CATV industry lead the company's largest CATV customer to sharply slow new construction. With this decision came orders to temporarily suspend shipment of virtually all of the company's CATV products.

"Thirdly, the company experienced unusually high selling expenses as a result of two nationwide exhibitions falling in the same quarter which coupled with startup costs associated with the company's new facilities in Mexico and El Paso and an improved but still weak showing from the company's newly acquired subsidiary, Comfab Technologies, all contributed to an overall weak quarter."

While the fundamentals of the business remain very strong, the company said it now expects year-end Sept. 30, 1990, earnings to be lower than its previous year.

The company said it expects to release its detailed third-quarter report during the week of July 23, 1990.

Keptel, Inc. designs, manufacturers and markets a diversified range of telecommunication and CATV test equipment as well as full range of voice and data connection products.

ELMIRA, NY (JUNE 29) PR NEWSWIRE - Artistic Greetings Incorporated (NASDAQ: ARTG) common stock will be included in the next expansion of the NASDAQ National Market System (NMS) which will take place July 3, 1990, Stuart Komer, president and chairman, announced. Komer pointed out that

Artistic's entry into NMS provides investors with the best of both worlds -- the continuous transaction data of the exchanges and the vigorous competition among multiple market makers that is the hallmark of NASDAQ. The stock will also be eligible for margin.

Stockbrokers will be able to provide last-sale prices and up-to-the-second volume information on the company's common stock for their customers throughout the trading day. Artistic will be included in the NMS newspaper stock table which shows high, low and closing prices for the most active and prominent NASDAQ securities. The quotation symbol for Artistic which had sales of $20,567,789 last year and earnings of $911,507 or $.41 per share, will remain ARTG.

Komer noted that in addition to increased market information that NMS provides, a significant advantage of being quoted on NASDAQ is the existence of multiple market makers competing with each other to execute customer orders, as opposed to a single specialist on the floor of a stock exchange. There are currently 14 firms making a market in Artistic.

Artistic Greetings Incorporated is engaged primarily in the mail order sale of personalized stationary and gift items.

NEW YORK (JUNE 29) PR NEWSWIRE - Siebe, Inc., the U.S. holding company of U.K.-based Siebe plc, announced that its wholly owned subsidiary, FX Acquisition Corp., is today commencing a tender offer for all outstanding shares of common stock of The Foxboro Company, (NYSE: FOX) at a price of $52 per share in cash. The offer, which has been unanimously approved and recommended by Foxboro's board of directors, is being made pursuant to the friendly merger agreement between the companies announced on June 25, 1990.

The tender offer, which is presently scheduled to expire at 12 midnight, New York City time, Friday June 27, 1990, unless extended, is subject to the tender by Foxboro shareholders of that number of shares which would represent at least two-thirds of the outstanding shares of Foxboro, on a fully diluted basis. The offer is also subject to other customary conditions, including approval by the shareholders of Siebe plc. A special Siebe plc. shareholder meeting for this purpose is expected to be held on July 25, 1990.

Siebe plc is one of the world's leading manufacturers of industrial and environmental controls, specialized engineering products and life support

and safety products.

The Foxboro Company is a world-wide leading supplier of process automation and control equipment serving its customers from over 100 sales and service centers throughout the world.

Copies of the offer to purchase, which contains important information is being mailed today to Foxboro's shareholders.

ANN ARBOR, MI (JUNE 29) PR NEWSWIRE - Great Lakes Bancorp (NASDAQ-NMS: GLBC) announced that its public offering of preferred units commenced today.

Great Lakes is offering 2,400,000 preferred units. In addition, the underwriters, Roney & Co. and The Ohio Company, have a 30-day option to purchase up to 360,000 additional preferred units. A preferred unit consists of one-tenth share of noncumulative perpetual preferred stock, Series A, and one warrant to purchase one-quarter share of Great Lakes' common stock. The price per unit is $10; the minimum purchase will be 100 units.

Quarterly dividends will be paid, if declared, at an annual rate of $10 per share of preferred stock through June 30, 1995. Subsequently, the dividend rate will adjust quarterly to 2.5 percent over the one-year Treasury Bill rate, multiplied by the $100 stated value of the preferred stock. However, the dividend rate for any quarterly period will not be less than $10 per annum or greater than $15 per annum.

"The response from shareowners, investors and customers has been more than gratifying," commented Roy E. Weber, Great Lakes Bancorp's chairman and chief executive officer. "Their confidence in Great Lakes allowed us to greatly exceed our initial goal of 1,500,000 units."

The offering will raise $24 million of capital for the bank, or up to $27,600,000 if the underwriters exercise their option for additional units. Great Lakes currently meets all of the new capital requirements. The additional capital will support future deposit growth and increased lending, as well as be available for possible future acquisitions.

An offering circular describing the offering is available from the underwriters: Roney & Co., 1 Griswold, Detroit, MI 48226, or from The Ohio Company, 155 E. Broad St., Columbus, Ohio 43215.

Great Lakes Bancorp has 60 branches in Michigan and Indianapolis, and operates Dollar Federal Savings Bank, a subsidiary with five branches in the north-Cincinnati area. Great Lakes also operates Great Lakes Mortgage Co., a mortgage banking subsidiary. With $3.5 billion in assets, Great Lakes Bancorp is Michigan's second-largest savings bank.

DALLAS (JUNE 29) PR NEWSWIRE - Kimberly-Clark Corporation (NYSE: KMB) and The New York Times Company (AMEX: NYT) today announced that they had reached an agreement in principle to sell their joint interests in Spruce Falls Power and Paper Company, Limited to Kruger Inc. The sale is expected to close in the third quarter of 1990. The purchase price was not disclosed.

Spruce Falls is a manufacturer of newsprint and groundwood printing papers in Kapuskasing, Ontario. Kimberly-Clark owns 50.5 percent of the company and The New York Times owns 49.5 percent.

Both owners said their decision to sell the mill was based on changing business priorities.

In a joint statement, Darwin E. Smith, chairman of the board and chief executive officer of Kimberly-Clark, and Arthur Ochs Sulzberger, chairman of The Times Company, said: "Our intent was to find a new owner for Spruce Falls who would be in a better position to capitalize on the strengths of the company and to secure the long-term future of the mill. Kruger Inc. is a Canadian company with newsprint production facilities at other Canadian locations. By joining with Kruger, Spruce Falls will be better able to cope with changing business conditions which make it difficult for a single mill in a remote location to effectively meet customer demands."

Kruger Inc., a Montreal-based, privately-held company, currently employs some 5,000 people in Canada and owns and operates pulp and paper mills in Montreal, Bromptonville and Three-Rivers, Quebec, as well as Toronto, Ontario, and Corner Brook, Newfoundland.

Spruce Falls, the parent companies and Kruger Inc. will work closely with local, provincial and federal government officials to insure a successful transition. Spruce Falls will continue to operate normally during this period.

Spruce Falls employs about 1,800 people at its mill and related woodlands operations.

#90180p0964 06/29/1990 ~PR Newswire

COLUMBUS, IN (JUNE 29) PR NEWSWIRE - Arvin Industries, Inc. (NYSE: ARV) announced today the cash purchase of the engine-manifold and exhaust-tube business of Tubauto, S.A., a unit of the Vallourec Group in Paris, France.

The acquired business, with sales of approximately $20 million, currently manufactures exhaust components for Renault and PSA Group (Peugeot and Citroen) and other automakers, from a plant employing over 200 in Joigny, about 80 miles southeast of Paris.

According to Arvin President L.K. Evans, Tubauto's French production facility adds to Arvin's ability to serve European car assembly points and complements the manufacturing capabilities of Arvin's European subsidiary, Cheswick International.

Cheswick currently operates four exhaust-system facilities in the U.K., and one each in Spain and Holland. This year Cheswick began construction of a new catalytic converter plant in Born, Holland, a companion to the new Preston, England, plant.

Although Arvin operates tire valve and accessory plants in Pontarlier and Dijon, France, and a shock absorber plant in Bonneval, the Tubauto plant will be Arvin's first exhaust system plant in France.

Evans points out, "With vehicle build in Europe running about 20 percent higher than in the U.S., Tubauto's geographical location and its established position as a supplier to leading European automakers, open up additional opportunities for Arvin business.

"French manufacturing capability is important to our becoming a major supplier of exhaust system components to French automakers. We expect companies like Renault, a new Arvin catalytic converter customer, will find complete exhaust systems, produced locally, featuring Arvin's advanced technology, an attractive prospect.

"Cheswick, with more facilities in more countries than any other European OE supplier, is fulfilling its strategic vision as a global supplier for the 1990s."

Arvin Industries, Inc., an Indiana corporation, is a global company whose products are sold in more than 100 countries in North and South America,

the European Common Market, the Pacific Rim and the Third World.

#90180p0968 06/29/1990 ~PR Newswire

EUGENE, OR (JUNE 29) PR NEWSWIRE - Bohemia Inc. (OTC: BOHM) announced today it will permanently close its Culp Creek plywood facility, which had temporarily suspended operations on Jan. 16, 1990.

The facility, which employs 248 people, will be restarted on July 9 for at least 60 days, and these close permanently. For the nine months in which it operated last year, the plant accounted for $20 million of Bohemia's fiscal 1990 revenues of $350 million.

Bohemia said the closure is due to high raw material costs resulting from continuing log shortages and low plywood prices. The log supply situation is expected to worsen due to a recent decision by a federal agency to list the Northern spotted owl a threatened species.

Richard D. Tinney, president and chief executive officer, noted that the supply of old growth timber available to the forest products industry has been sharply reduced and the Culp Creek facility is dependent on old growth logs for its raw material.

It was still a difficult decision to make, he stated, and was only at this time due to compelling external economic circumstances. "In spite of their efforts, 248 dedicated, hard-working long-time Bohemia employees will be out of work," Tinney said. "We will place as many of these people as possible in our other facilities."

Bohemia, established in 1916, operates forest products manufacturing facilities in Oregon and California.

CONTACT: Tom Leach of Bohemia Inc., (503) 342-6262; or Melvyn S. Rifkind of Rifkind Pondel & Parsons, (213) 207-9300, for Bohemia.

#90180p0969 06/29/1990 ~PR Newswire

BOSTON (JUNE 29) PR NEWSWIRE - Bank of New England (NYSE: NEB) today announced plans to sell or consolidate more than 95 branch offices by the end of the year in a move to streamline its branch network and improve service to customers.

The action is a part of the company's strategic plan announced last April and similar to a program developed last fall, and is the result of an

analysis of the company's branches located in Massachusetts and Connecticut.

"This supports key elements of our strategic recovery plan - our plans to emphasize retail and community banking in Massachusetts and Connecticut, and our ongoing effort to strengthen our relationship with our customers," said BNEC Chairman Lawrence K. Fish.

"These changes will be of enormous benefit in offering our customers a more efficient branch network. By concentrating our focus on locations with the most potential, we will improve customer service while reducing our operating costs."

The company intends to consolidate 39 branches into nearby offices and offer 13 branches for sale in Massachusetts, while it intends to consolidate 19 branches and offer six branches for sale in Connecticut. Additional consolidation and sales of more than a dozen branches will occur in both states by the end of the year.

The company expects future revisions to its branch system to be incremental, the result of a continuous review. This would include establishing branches in towns and neighborhoods where it has not previously operated, moving some existing branches to better locations, and expanding consolidated branches that need more space.

With respect to the sales, the company said it was particularly interested in finding buyers who will maintain an emphasis on the local community and continue to be sensitive to customer concerns.

The company will also ask prospective buyers to employ the staffs assigned to the branches being sold. For those employees in branches being consolidated, the company will attempt to find comparable positions within the bank.

Bank of New England is a Boston-based interstate bank holding company will assets of $25 billion and banking offices in four New England states. Its common stock is listed on the New York Stock Exchange and is traded under the symbol NEB.

ROCHESTER, NY (JUNE 29) PR NEWSWIRE - Rochester Telephone (NYSE: RTC) and Xerox Corporation (NYSE: XRX) have signed a ten-year agreement under which

Rochester Telephone will provide Xerox's Local Telecommunications Network and an array of enhanced services such as Integrated Services Digital Network (ISDN) to Xerox facilities throughout the metropolitan Rochester area.

"Xerox has been one of our valued customers for many years, and we are pleased that they have chosen to continue the relationship," said David C. Mitchell, president of Rochester Tel's Telephone Group. "Xerox is a company that takes great pride in the quality of service they offer their customers, so we're also proud that they have given us an opportunity to provide them with their telecommunications service in the Rochester area."

Under the agreement, Rochester Telephone will provide Xerox with Enhanced CENTREX service. Xerox currently has a mix of CENTREX and PBX services at its various locations within the Rochester Telephone service area. The largest are the Joseph C. Wilson Campus in the Rochester suburb of Webster, N.Y. and Xerox Square in downtown Rochester.

The network's distributed architecture will enable Xerox employees in the Rochester area to use a uniform set of CENTREX features regardless of their work locations.

"Advanced Digital CENTREX services will provide Xerox with a state-of-the-art telecommunications system that will enable us to control our network with greater efficiency," said Robert Michna, director of Data Processing and Telecommunications at Xerox. "This is made possible through Rochester Telephone's commitment to upgrading its network in order to deliver the highest possible level of capabilities to its customers."

The agreement also gives Xerox other enhanced services such as Local Area Signaling Services (LASS), currently being test-marketed in a Rochester suburb, and ISDN service. The LASS features are expected to become available throughout the area within the next 12 to 18 months.

More than 95 percent of Rochester Telephone's access lines are served by digital switches, contributing to its reputation as a leader in the utilization of advanced network technology. With more than 4,500 miles of fiber optic cable and rapid deployment of ISDN, Rochester Telephone's Rochester metropolitan network is among the most modern in the nation.

CHICAGO (JUNE 29) PR NEWSWIRE - United Airlines will begin non-stop service between Oakland, Calif. and Honolulu on Sunday, July 1.

"This flight is further evidence of the ongoing growth of United Airlines and its strong commitment of service to the state of California," said Stephen M. Wolf, chairman and president.

The Oakland-Honolulu service starting Sunday follows closely the launching of shuttle service every half hour between San Francisco and Los Angeles and every hour between San Francisco and Seattle plus other new California intrastate, interstate and international services.

United Flight 143 will depart from Oakland at 1:30 p.m. and arrive in Honolulu at 3:45 p.m. Flight 142 will depart from Honolulu at 10 p.m. and arrive in Oakland at 5:55 a.m. the following day and will continue to Chicago. Passengers flying the inaugural flight to Honolulu Sunday will receive mementos of the occasion.

The carrier will use long-range stretch DC-8 aircraft on this route, and it plans to operate the service during peak summer and winter periods of the year.

Including the new flight, United will offer 30 daily departures from Oakland with non-stop service to eight destinations: Burbank, Chicago, Denver, Honolulu, Los Angeles, Ontario, Portland and Seattle. United became the leading carrier serving Oakland in July 1989.

DALLAS (JUNE 29) PR NEWSWIRE - Metro Airlines Inc. (NASDAQ: MAIRC) today announced financial results for its fiscal year and fourth quarter ended April 30, 1990.

For the year, revenues were $194.6 million, up 31.9 percent from $147.5 million a year ago. In 1990, the company lost $19.5 million, or $3.20 per share, compared to a loss in 1989 of $2.7 million, or 47 cents per share. The 1989 results included income of $8.0 million, or $1.36 per share, from the effect of a change in the company's method of accounting for aircraft engine overhauls. Metro attributed the 1990 loss primarily to its Atlanta operations, where the company operates under a service agreement with Eastern Air Lines.

For the fourth quarter, Metro's revenues totaled $55.1 million, up 60.0 percent from $34.4 million in the prior year. The net loss in the most recent quarter was $4.2 million, or 69 cents per share, compared to a loss of $9.2 million, or $1.54 per share, in the year-earlier fourth quarter.

Metro's results include the operations of Metro Air Northeast, formerly Brockway Air, since its purchase by the company in April 1989.

Metro Airlines Inc., one of the nation's largest regional airlines, operates 110 turboprop aircraft and serves 71 cities in the southwestern and eastern United States and the Caribbean. Metro operates as American Eagle from its Dallas/Fort Worth hub, as Eastern Metro Express at the Atlanta and San Juan hubs, and as Trans World Express in the northeast.

NEW YORK (JUNE 29) PR NEWSWIRE - Corroon & Black Corporation (NYSE: CBL) today announced the promotion of Richard S. Vernale to the position of vice president, real estate and facilities planning.

In this position, Vernale is responsible for the corporation's real property and facilities in more than 100 locations across the nation. He is also responsible for the corporation's national accounts program.

In announcing Vernale's promotion, C. Jackson Blair, senior vice president human resources and administration, commented: "As Corroon & Black continues the rapid expansion of the recent past, the corporation's real estate and facilities needs become increasingly important. Dick's promotion is a reflection of the excellent job he has done in the planning necessary to meet our needs."

Vernale has been with Corroon & Black since 1984, most recently as assistant vice president, facilities & real estate. He is a graduate of Queens College, and has done post-graduate studies in International Economics at Baruch College. Vernale is a member of the National Association of Corporate Real Estate Executives and the Industrial Development Research Council.

Corroon & Black Corporation, headquartered in New York City, is one of the world's largest full-service insurance intermediaries, providing insurance brokerage, risk management services, reinsurance brokerage, and employee benefits, compensation, and actuarial consulting to individuals, local governments, professions, business, and industry. It has subsidiaries across the United States and affiliated offices throughout the world. The corporation was founded in 1905 in New York City.

DALLAS (JUNE 29) PR NEWSWIRE - Dallas-based Apollo Resources Inc., a Delaware corporation, (OTC) announced today that it has acquired all of the outstanding stock of FirstSouth Commercial Corp., a Texas corporation. In connection with that acquisition, Apollo is changing its name to FirstSouth Commercial Corp. FirstSouth Commercial Corp. offers factoring services to medical providers, to medical insurance claims processors, and to a variety of other businesses.

During the four months ended April 30, 1990, FirstSouth Commercial Corp. had a net income of $39,339 on income of $90,000.

Under the terms of the Agreement Plan of Reorganization, Apollo acquired all of the outstanding shares of FirstSouth Commercial Corp. in exchange for Apollo Resources Inc., common stock. In addition to changing its name to FirstSouth Commercial Corp., Apollo will undertake a 1-for-2 reverse stock split. The effective date of the reverse split is June 26, 1990.

LOS ANGELES (JUNE 29) PR NEWSWIRE - MedGroup, Inc. (NASDAQ: MDGP), operator and manager of Workers' Compensation (I.P.A.) and physical occupational therapy facilities, announced today that it has acquired the assets and business of an industrial medical clinic in San Carlos, Calif., for an undisclosed amount of cash and stock.

F. Briton McConkie, chief executive officer of MedGroup, said, "This acquisition gives us a presence in Northern California, a major marketing area, and enables us to meet the growing demand for the diverse therapy services we provide to insurance companies, self-insured corporations and other third party payers of injury or disease claims."

The company is a preferred provider for a group of physicians organized as California Industrial Medicine Associates (IMA), and is applying a portion of the proceeds from its recent initial public offering to development and acquisition of additional facilities.

MedGroup also operates five physical therapy centers in the Los Angeles area and two in Milwaukee and manages physical therapy facilities in three acute care hospitals, one medical clinic and one free-standing clinic owned by an acute care hospital. In addition, MedGroup provides physical

therapy to patients in approximately 70 nursing homes.

KALAMAZOO, MI (JUNE 29) PR NEWSWIRE - Daniel R. Smith, chairman and chief executive officer of First of America Bank Corp., confirmed the company's listing on the New York Stock Exchange, effective today.

First of America Bank Corp.'s common stock will be listed using the symbol FOA. The company's convertible preferred issues will continue to trade on the NASDAQ OTC market.

The stock transfer agent, for both common and preferred issues, is American Stock Transfer and Trust Co., 99 Wall St., New York, N.Y. Bocklett and Co. is the specialist firm for common stock.

Smith explained that "The change was studied carefully by the board of directors. We believe that the move gives First of America's shareholders greater liquidity and should, therefore, enhance the long-term performance of our stock."

He added, "Our common stock had been traded through the NASDAQ system since 1978. At that time, we were at $1.6 billion in assets and had approximately 5,000 shareholders. First of America now has $12.7 billion in assets, over 17,000 shareholders and is the nation's 44th-largest bank holding company. Over the years, we have been served well by the system and an extensive list of respected names in the financial community have made a market in our stock. Because of our growth, our board of directors determined that listing on the New York Stock Exchange would have a positive effect on our stock and better serve the interest of our expanding shareholder base."

First of America Bank Corp. is a Kalamazoo-based bank holding company with $12.7 billion in assets. The company's 37 banks provide financial services to more than 250 communities in Michigan, Indiana and Illinois through over 400 offices.

NEW YORK (JUNE 29) PR NEWSWIRE - Amerada Hess Corporation (NYSE: AHC) today announced that a Canadian company owned jointly by its subsidiary, Amerada Minerals Corporation of Canada Ltd., and Poco Petroleums Ltd., a Canadian public company, has reached an agreement with Placer Dome Inc. (NYSE: PDG) to purchase Placer Cego Petroleum Holdings Limited, for a cash purchase price of $305.5 million Canadian (approximately $260 million U.S.).

Placer Cego's oil and gas holdings consist of producing properties and exploration acreage principally in British Columbia and Alberta. Placer Cego also operates nine gas producing plants in British Columbia and Alberta. The acquisition includes net proved and probable reserves of approximately 237 billion cubic feet of natural gas, 9 million barrels of crude oil and natural gas liquids and approximately 250,000 net undeveloped acres located in British Columbia and Alberta. Production rates net of royalties currently average about 40,000 mcf of natural gas per day. Placer Cego has working capital of about $15 million Canadian and no debt.

Placer Cego Petroleum Holdings Limited will be reorganized and Amerada Minerals will acquire most of the exploration acreage and approximately 80 percent of the producing properties. Poco Petroleums will retain the ownership of Placer Cego Petroleum Holdings, which will hold the balance of the producing properties.

CLEVELAND (JUNE 29) PR NEWSWIRE - Bearings, Inc. (NYSE: BER) announced today that it has completed its acquisition of all capital stock of King Bearing, Inc. from MLS Industries, Inc., a subsidiary of Leroy-Somer, S.A. for a purchase price of $17 million, plus repayment of $54 million in intercompany debt due MLS Industries, Inc.

King Bearing, headquartered in Corona, Calif., is a leading distributor of

bearings, electrical, mechanical and fluid power transmission components and industrial rubber products, with 94 branches in nine states located primarily in the western and southwestern United States.

For its year ended Dec. 31, 1989, King Bearing recorded sales of $223,700,000, with total assets of approximately $107,800,000.

Bearings, Inc. is the nation's leading independent distributor of bearings power transmission products and related industrial specialty items, with 269 branches located in 35 states and Puerto Rico. For its fiscal year ended June 30, 1989, Bearings reported sales of $630,300,000, with sales for the first three quarters ended March 31, 1990 reported at $486,400,000. Bearings, Inc. had total assets of $259,850,000.

Bearings, Inc. Chairman and Chief Executive Officer, George L. LaMore, described the acquisition as follows: "King Bearing, Inc. will provide us expanded coverage in the western and southwestern regions of the country. The company anticipates that through combined operating efficiency, the acquisition of King Bearing will enhance its overall strategic position for the long-term."

CHICAGO (JUNE 29) PR NEWSWIRE - United Airlines set two traffic records yesterday, boarding the most passengers and recording the most revenue passenger miles in a single day in its 64-year history.

"It is gratifying to note that the flying public values the services of United Airlines," said Stephen M. Wolf, chairman and president. "I also would like to recognize the superb, professional job being done by our 73,000 employees worldwide in handling such large numbers of customers."

Yesterday, United boarded 217,705 passengers, breaking a record of 216,210 that has stood since Dec. 22, 1988.

The airline also recorded 276,011,321 revenue passenger miles, surpassing the previous mark of 263,172,698 set just last Thursday. A revenue passenger mile is one revenue-paying passenger flown one mile.

Helping to make the records possible, United's capacity is up more than 10 percent over last year's level. On June 8, United reached a record 1,945 flights a day for its summer schedule. United is the fastest-growing airline of the top five airlines in the United States and is taking delivery of one new aircraft, on average, each week this year.

MOBILE, AL (JUNE 29) PR NEWSWIRE - Morrison Incorporated (NASDAQ-NMS: MORR) announced that its total revenues for the 52 weeks ended June 2 were $900.5 million as compared with $829.2 million last year.

Income from continuing operations for the 52 weeks was $46.5 million as compared with $50.4 million last year.

Earnings per share from continuing operations for the 52 weeks ended June 2 were $1.75 as compared with $1.79 per share the prior year.

Revenues for the 13 weeks ended June 2 were $235.6 million as compared with $230.6 million for the same period last year. Net income from continuing operations for the 13 weeks ended June 2 was $11.9 million as compared with $13.1 million the prior year.

Earnings per share from continuing operations for the 13 weeks were 46 cents as compared with 49 cents the prior year.

The board of directors of Morrison Inc. at a meeting on Friday, June 29, in Mobile, Ala., declared a regular cash dividend of 16 cents per share on the common stock payable on July 31 to shareholders of record at the close of business on July 13, 1990. The company has paid continuous cash dividends on its common stock since 1936.

The company at year end operated 174 Family Dining units, 111 Ruby Tuesdays, 25 L&N Seafood Grills and eight Silver Spoons.

For Fiscal 1991, the company has identified and negotiated sites for 36 Ruby Tuesdays, 10 L&N Seafood Grills, four Silver Spoons and two Family Dining units. These restaurants represent the greatest number of new units in the company's history.

E. Eugene Bishop, chairman and chief executive officer, stated, "Our major priorities for Fiscal 1991 include company-wide emphasis on performance and operational objectives, strong merchandising and marketing programs, and improved financial results."

#90180p1002 06/29/1990 ~PR Newswire

CLEVELAND (JUNE 29) PR NEWSWIRE - John C. (Jack) Robinson has been named executive vice president and general manager of King Bearing, Inc., the California-based distributor recently acquired by Bearings, Inc. (NYSE: BER).

Bearings, Inc. completed its acquisition of King Bearing from its parent company, MLS Industries, Inc., a California corporation, on June 29, 1990. King Bearing is a distributor of bearings, electrical, mechanical and fluid power transmission components and industrial rubber products. It operates 94 branches in nine states located primarily in the western and southwestern United States.

In making the appointment, Bearings, Inc. Chairman and Chief Executive Officer George LaMore said, "King Bearing is the largest single acquistion we have ever made. We chose Jack to head up this important acquisition because he has the right mix of background and management skills to provide a smooth transition as King integrates with the rest of our organization."

Robinson, 47, has been with Bearings, Inc. since 1964, and has served in many management capacities throughout the organization before being named vice president in 1989 with primary responsibilities for strategic planning.

In commenting on his new appointment, Robinson stated, "This is an exciting challenge, not only for myself, but for the many managers within our two organizations who will be involved in the transition. Separately, King and Bearings, Inc. each have areas of strength. Those areas will be shared throughout the combined organization as we proceed with the transition. The addition of King will add major strengths to our targeted product categories."

Bearings, Inc. is the largest independent distributor of replacement bearings, power transmission components, electrical products and related specialty items in the United States. With the acquisition of King Bearing, the company now has more than 360 branches in 37 states and Puerto Rico. Bearings, Inc. common stock is listed on the New York Stock Exchange, ticker symbol BER.

OKLAHOMA CITY, OKLA. (JUNE 29) PR NEWSWIRE - Beard Oil Co. (AMEX: BOC) today announced the appointment of three employees to new positions of

responsibility.

Jack A. Martine has joined Beard Oil as treasurer and tax manager. Prior to joining the company, Martine was secretary-treasurer and controller for Panhandle Royalty Co. He previously served as tax manager for BDO Seldman and as tax manager and assistant secretary for Texas International Co. A certified public accountant, Martine has also served as a manager and senior in the tax department of Arthur Andersen & Co.

Randy D. Thacker, who has most recently been serving as treasurer and tax manager of Beard Oil, has moved to the company's carbon dioxide subsidiary Carbonic Reserves, where he is now serving in the capacity of chief financial officer. Thacker, also a certified public accountant, has served as tax manager of the company since 1985.

Rhonda K. Carretero has joined Beard Oil as assistant controller. Prior to joining the company, Carretero was vice president and tax manager of American First Corp. She previously worked as tax manager for Anta Corp. A certified public accountant, Carretero has also served as a staff accountant for Deloitte Haskins & Sells.

Beard Oil is a diversified natural resource development company headquartered in Oklahoma City. Its principal business is oil and gas exploration and production. The company is also involved in carbon dioxide (CO2) and iodine production. Beard Oil's common stock is traded on the American Stock Exchange under the symbol: BOC.

#90180p1013 06/29/1990 ~PR Newswire

PHILADELPHIA (JUNE 29) PR NEWSWIRE - The Philadelphia Gas Works (PGW) today filed with the Philadelphia Gas Commission its 1990-1991 operating budget which includes a request for a $31 million rate increase (6.2 percent of gas revenues) to become effective Sept. 1, 1990.

For the largest number of PGW customers, residential heating accounts, the proposed increase would result in a 7.4 percent rise over present rates (from $67.91 to $72.93 per month). The proposed increase would be only the second PGW increase in base rates since September 1982; the other occurred in 1987. If this increase is granted, the typical residential heating customer's bill will still be lower than it was in September of 1982.

During the period from September 1987 to April 1990, the Consumer Price Index for all items increased by 13.1 percent. Food and beverage

increased by 15.4 percent; shelter by 18.1 percent; public transportation increased by 16.3 percent; and medical care increased by 21.4 percent; however, during the same time period, a typical PGW "full use" residential heating bill increased less than 1 percent, from $67.29 to $67.91.

According to PGW Executive Vice President Alfred P. Degen, "Without an increase in base rates, revenue bond debt service coverage will be below the bond covenant requirement of 1.50x and significantly below the 1.80x targeted coverage level adopted by the Philadelphia Gas Commission in the 1988 rate decision."

In addition to concerns over its bond coverage, if PGW does not get a rate increase, the company will have an operating cash shortage of $18 million in fiscal year 1991, which would place the full payment of the city's $18 million annual fee in jeopardy.

During the past two years, PGW's management has implemented extensive cost-cutting measures in compliance with and, in some instances, exceeding the commission's directives of October 1988, given when it rejected PGW's request for a base rate increase and instead ordered a $2 million reduction.

PGW is a non-profit natural gas utility owned by the City of Philadelphia. It is managed by the Philadelphia Facilities Management Corp. and supplies gas service within the city limits to its 518,000 residential, commercial and industrial customers. It is regulated by the Philadelphia Gas Commission.

#90180p1015 06/29/1990 ~PR Newswire

WASHINGTON (JUNE 29) PR NEWSWIRE - The Office of Thrift Supervision today placed Pioneer Savings and Loan Company, Marietta, Ohio, in receivership and chartered a new federal mutual institution to take its place.

The new institution, Pioneer Federal Savings and Loan Association, will assume certain assets and liabilities of the old thrift and will operate in conservatorship under the management of the Resolution Trust Corporation.

The receivership did not result in any interruption of Pioneer's day-to-day operations. The institutions will remain open for business as usual. Holders of insured accounts are not affected by the action, which was taken by OTS to protect insured depositors and the interests of the thrift insurance fund.

OTS initiated the action because Pioneer was operating in an unsafe and unsound condition and has suffered losses that have depleted substantially all of its capital, with no prospect of replenishment without federal assistance.

Pioneer's insolvency is due primarily to the default of three participation loans the institution purchased from Citizens Building, Loan and Savings, Mt. Vernon, Ohio, in 1983 and 1984. At the time, the loans amounted to 30 percent of Pioneer's assets.

As of March 31, 1990, assets totaling $3.4 million, or 34 percent of Pioneer's asset base -- including the three participation loans -- were classified as substandard, doubtful or loss. The institution reported net losses in eight of nine quarters ending March 31, 1990.

Pioneer Savings was a state-chartered stock association owned by Marietta Franklin Securities Co., a holding company. Stockholders will retain no interest in the new institution.

As of June 15, 1990, Pioneer had assets of $7.79 million, liabilities of $7.84 million and tangible capital of negative $350,109, for a tangible capital-to-assets ratio of negative 0.45 percent.

TORRANCE, Calif. (JUNE 29) PR NEWSWIRE - Computer Communications Inc. (NASDAQ: CCMM) Senior Vice President, Dr. Ervin K. Dorff, announced that the company has been awarded a contract from the Oklahoma Department of Public Safety for a law enforcement data communications system. CCMM was awarded this new contract following an industry competitive bid evaluation.

Under the terms of the contract, CCMM will provide a message switching system based on the company's new Data Express (tm) family of high performance communications processors during the first part of 1991. The Data Express (tm) system will be installed for the Oklahoma Law Enforcement Telecommunications System (OLETS) and will allow law enforcement and criminal justice personnel to exchange information intrastate and interstate. In addition, the system will provide direct communications with the FBI's National Crime Information Center (NCIC), National Law Enforcement Telecommunications System (NLETS), and will service the recently developed nationwide Commercial Drivers License Information System (CDLIS).

The system will communicate with a wide variety of terminals utilizing

most major protocols. It will handle a throughput of up to 90,000 messages per hour. The system includes a Data Base Management System (DBMS) with a Fourth Generation Language (4GL) for applications development. It also includes a Message Handling System (MHS) which is compatible with the CCITT X.400 international standard for message switching and electronic mail.

The company, in its 24th year, is a leading independent producer of equipment and systems which are an integral part of high-speed data communications networks serving a broad spectrum of users.

HAMILTON, BERMUDA (JUNE 29) PR NEWSWIRE - Challenger International, Ltd. (NASDAQ: CSTIF; Toronto Stock Exchange: CTT), today reported a net loss of $392,000, or 8 cents per share for the second quarter ended April 30, 1990 resulting in a loss for the six-month period of $854,000 or 17 cents per share.

Challenger's performance at this time mainly reflects the operations of its wholly-owned Savage Arms subsidiary which manufactures and markets sporting rifles. This business, which Challenger acquired on Nov. 1, 1989, has been progressing generally as planned; however, profit generation has been delayed longer than initially expected, primarily due to slower shipments in the early phase of the annual sales cycle. Order bookings have remained close to target; but high volume contract customers with sophisticated inventory management systems have been scheduling product shipment dates closer to traditional retail sales periods in the third and fourth quarters. The correspondingly reduced shipment levels lowered cost absorption in manufacturing operations.

Challenger's special restricted voting shares are traded on NASDAQ and the Toronto Stock Exchange. The Class A restricted voting shares are traded on the Toronto Stock Exchange (CTTA).

MIAMI (JUNE 29) PR NEWSWIRE - Eastern Airlines will extend until Sept. 30 the money-back unconditional satisfaction guarantee for its "Y-Not" first class fares.

When the guarantee was introduced in May it was scheduled to expire tomorrow (June 30). "Our success in attracting business travelers buying first class tickets convinced us of the need for a longer guarantee," according to George Brennan, senior vice president-marketing.

He said tens of thousands of passengers have flown at "Y-Not" rates under the program. Only 126 passengers requested refunds amounting to $43,425 through June 28.

The "Y-Not" program offers first class accommodations for an average 15 percent below standard coach fares.

Among the reasons cited by passengers requesting refunds were: and outdated magazine, the texture of a croissant, soft ice cream, "no corkscrew for wine," and "noise" during boarding in the first class cabin.

#90180p1034 06/29/1990 ~PR Newswire
CHICAGO (JUNE 29) PR NEWSWIRE - Santa Fe Pacific Corporation ("Santa Fe") (NYSE: SFX) and Santa Fe Pacific Pipeline Partners, L.P. (the "Partnership") (NYSE: SFL), jointly announced today the filing by SFP Pipeline Holdings, Inc. ("Holdings"), of a registration statement with the Securities and Exchange Commission relating to an offering by Holdings of $210 million of variable rate exchangeable debentures due 2010. Goldman, Sachs & Company will be the managing underwriter of such offering. Santa Fe said the offering could be made as early as August 1990.

The debentures would bear interest at a variable rate, payable quarterly in arrears, and will be exchangeable under certain circumstances for an aggregate of 8,148,148 presently outstanding common units which represent an approximate 42 percent limited partner interest in the Partnership. The interest payable on a debenture for a particular quarter is generally equal to the greater of (i) distributions of cash from operations declared by the Partnership for such quarter on the number of common units for which such debenture is then exchangeable, or (ii) 2 percent of the average unpaid principal balance of such debenture (8 percent on an annual basis). The debentures will be unsecured general obligations of Holdings.

Holdings would use approximately one-half of the net proceeds from the sale of the debentures to pay a dividend to Santa Fe and would loan the remaining net proceeds to Sante Fe at a variable rate equal to the Federal Funds rate plus 1 percent. Santa Fe intends to use such amounts to reduce a portion of the indebtedness represented by its 16 percent redeemable senior subordinated debentures.

According to the registration statement, Holdings, a newly formed subsidiary of Santa Fe, will own all of the capital stock of Santa Fe Pacific Pipelines, Inc., the general partner of the Partnership (the "General Partner"). The General Partner presently owns the 8,148,148 outstanding common units and also owns a 2 percent general partner interest in the Partnership. The Partnership's preference units, which are traded on the New York Stock Exchange under the symbol "SFL," represent the remaining 56 percent limited partner interest in the Partnership.

ATLANTA (JUNE 29) PR NEWSWIRE - Telecom USA Inc. (NYSE: TTT) today announced that its shareholders have approved the merger agreement under which Telecom USA would merge with MCI Capital Inc., a wholly owned subsidiary of MCI Communications Corp. (NASDAQ: MCIC).

The affirmative vote was received today at the company's 1990 annual meeting of stockholders held in Atlanta.

Under the agreement, MCI will acquire all outstanding shares of Telecom USA common stock for cash at a price of $42 per share. The total purchase price is approximately $1.25 billion.

The merger remains subject to certain regulatory approvals. Shareholders should not send in stock certificates until they have received a letter of transmittal, which will be sent to them when the merger is consummated.

Telecom USA, the nation's fourth-largest long distance company, provides a wide range of long distance services to customers throughout the country. Headquartered in Atlanta, the company has approximately 5,000 employees and 1989 revenue of $713 million.

MCI Communications Corp., the nation's second-largest long distance services provider, offers a full array of long distance and related telecommunications services to both domestic and international customers. Headquartered in Washington, D.C., MCI has approximately 19,500 employees and 1989 revenue of $6.5 billion.

WASHINGTON (JUNE 29) PR NEWSWIRE - The Office of Thrift Supervision (OTS) today placed First Jackson Savings Bank, FSB, Jackson, Miss., in receivership and chartered a new federal mutual institution to take its place.

The new institution, First Jackson Federal Savings Bank, will assume certain assets and liabilities of the old thrift and will operate in conservatorship under the oversight of the Resolution Trust Corporation.

The receivership did not result in any interruption of First Jackson's day-to-day operations. The institution and its three branches will remain open for business as usual. Holders of insured accounts are not affected by the action, which was taken by OTS to protect insured depositors and the interests of the thrift insurance fund. Deposits remain insured to the $100,000 legal limit.

OTS initiated the action because First Jackson was operating in an unsafe and unsound condition and has suffered losses that have depleted substantially all of its capital, with no prospect of replenishment without federal assistance.

The institution is insolvent in that it has negative tangible, core and risk-based capital.

First Jackson's condition is due primarily to the charge-off of

approximately $8.5 million in supervisory goodwill in December 1989. The goodwill was assumed in the original acquisition of the institution by MS Diversified Corporation in 1983 and in the supervisory merger of First Jackson with Homestead Savings and Loan Association, Jackson, in 1987.

First Jackson is a federally chartered stock association. Shareholders will retain no interest in the new association.

As of March 31, 1990, First Jackson reported assets of $116.5 million, liabilities of $113.6 million and tangible capital of negative $5.43 million, for a tangible capital-to-assets ratio of negative 5.07 percent.

PORTLAND, ORE. (JUNE 29) PR NEWSWIRE - The State of Oregon today released details of its State Office Building settlement with Melvin Mark Companies the companies said today.

At a press conference held at the headquarters of the Melvin Mark Companies, Melvin "Pete" Mark Jr. issued a prepared statement. "We believe the terms of the settlement are reasonable and clearly in the best interest of Oregon taxpayers," said Mark.

Mark indicated that when Gov. Goldschmidt called upon the parties involved to negotiate a settlement, they entered the negotiation process with two principal objectives:

1) To reform the State's procedures for the acquisition and development of public properties; 2) To locate a State Office Building in Northwest Portland. "As Judge Gooding's order concluded, the State made serious errors in the selection process and the Northwest site should have been selected," explained Mark.

"With assurances by the State that every effort will be made to locate a building in Northwest Portland and that it will reform its selection process, we are satisfied with all the terms and conditions of the settlement agreement," continued Mark.

Other terms of the settlement include the following: 1) Construction of the new State Office Building will recommence at 800 NE Oregon St. 2) The Department will approve change orders in the existing construction contract which authorizes an additional $400,000. 3) The State will pay Mark $750,000 for damages, attorneys, fees and costs. 4) As directed by the court in its opinion, the Department will sell the existing state office building and parking structure to Mark for Mark's final bid of $11,025,000. 5) The lawsuit will be dismissed.

SECAUCUS, NJ (JUNE 29) PR NEWSWIRE - Vikonics Inc. (NASDAQ: VKSI), headquartered here, today reported net sales of $4,314,000 for the year ended March 31, 1990, as compared to net sales of $4,010,000 in the prior year. The company attributed this increase in sales, primarily, to a large volume of shipments in the beginning of the fiscal year against the company's contract at the U.S. Army Base at Fort Drum.

Operating costs and expenses of $2,460,000 for fiscal 1990 decreased slightly from fiscal 1989 expenses of $2,489,000.

The net loss for the year ended March 31, 1990, was $767,000, or $.36 per share, compared to a net loss of $1,175,000, or $.55 per share, for the year ended March 31, 1989.

Vikonics designs, manufactures, markets, installs and supports a line of sophisticated, computer-based security systems. The company markets its systems to defense contractors and government agencies as well as general commercial customers.

#90180p1051 06/29/1990 ~PR Newswire
WICHITA, KS (JUNE 29) PR NEWSWIRE - Following an in-depth review of its loan portfolio and in light of several factors now impacting the banking industry in general, Fourth Financial Corp. (NASDAQ: FRTH) announced today that it has increased its loan loss reserve by $10 million. As a result of this decision, second quarter earnings are expected to be approximately $1 million; and earnings for the six months ending June 30, 1990 will be about $9.6 million.

Fourth Financial Chairman Jordan L. Haines said, "We want to emphasize that this increase in reserves is not the result of our current expansion program. To the contrary, the majority of our asset growth can be attributed to acquiring core deposits from failed savings and loans -- not bad loans. In fact, we have retained only seasoned residential loans from these thrifts. We are increasing our reserves because of several external and certain isolated internal circumstances. It is our conviction that increasing reserves is both prudent and conservative. It is appropriate that Fourth Financial follow the national trend toward providing additional reserves to insulate the company against real estate exposure." Haines went on to explain that today's action will provide a ratio of

loan loss reserves to non-performing assets of approximately 100 percent and a ratio of reserves to non-performing loans of approximately 172 percent.

External circumstances cited for today's decision to increase reserves for potential real estate loan losses include: a softening real estate market in Kansas which has been adversely effected by the sale of insolvent savings and loan assets by the Resolution Trust Corp.; risks associated with loans linked to environmental hazards; and the effect of statewide reappraisal and reclassification on Kansas commercial real estate values.

Internally, losses associated with a major car-leasing borrower of the company's Kansas City affiliate bank and a potential loss from the sale of other real estate owned contributed to the company's decision for the special $10 million provision.

Haines added that the effect of today's action will not impact the company's cash dividends or its plans for expansion. "Rather than reacting, we are taking a proactive stance. The fact that we have expanded our reserves is a management decision which will only impact second quarter earnings. Long-term, these additional reserves, combined with our conservative lending practices and an improving loan portfolio, should enhance future earnings. We are, and will continue to be, cautious in our credit extensions at every level."

Non-performing assets will be approximately $30 million at the end of the current quarter, as compared to $25.8 million on March 31, 1990. This increase occurred principally in the commercial real estate loan portfolio. Of Fourth Financial's $2.2 billion loan portfolio, approximately 13 percent are in the commercial real estate category and the vast majority of these loans are on Kansas properties.

During the last 12 months, Fourth Financial has grown substantially. Since June 30, 1989, the company's assets have increased by 52 percent, from $2.7 billion to $4.1 billion; and its deposit size has grown by 59 percent, from $2.2 billion to $3.6 billion. During this period, the acquisition of six Kansas banks increased assets by $425 million. Additionally, $1 billion in deposits of five Kansas savings and loans were acquired from the Resolution Trust Corp. These deposits were acquired for an aggregate premium of $8.9 million, or .89 percent of total deposits.

These acquisitions and the resulting growth in its franchise have been made possible by Fourth Financial's capital strength. At June 30, 1990, shareholders' equity totaled approximately $281 million. Even with the substantial increase in assets, the corporation's risk profile remains low. Its risk-based capital ratio will be approximately 11.10 percent at June 30, 1990 as compared to the banking system regulators' minimum of 7.25 percent, which will be effective Dec. 31, 1990. This strong capital

base combined with the enhanced reserve for loan losses and historical earnings performance, provide additional capacity for growth.

This announcement is being made by management to inform shareholders, market analysts, and customers of the anticipated second quarter earnings decline prior to releasing the corporation's usual second quarter results on July 20.

Fourth Financial is the largest bank holding company in Kansas with 12 banking affiliates. The company's common stock is traded in the national over-the-counter market under the symbol FRTH.

NEWTOWN SQUARE, PA. (JUNE 29) PR NEWSWIRE - ARCO Chemical Co. (NYSE: RCM) confirmed that the Federal Trade Commission has voted to authorize its staff to take legal action with regard to the company's proposed acquisition of the urethane polyols and propylene glycol businesses of Union Carbide Chemicals and Plastics Co. Inc.

The company stated that it does not expect this action to result in litigation at this time, but is confident that its position would be upheld by a court, and the acquisition permitted to proceed, if suit were brought.

"We have been actively negotiating with the FTC staff in this matter," an ARCO Chemical spokesperson said, "And we will continue to deal with the commission in a good faith effort to resolve the issues between us."

The company noted that the Union Carbide transaction was presented to the commissioners a month ago by the staff. "We believe that the negotiations are proceeding and that the commissioners' vote was intended only to authorize litigation in the event the matter cannot otherwise be resolved " the spokesperson added.

ARCO Chemical Co. is 83 percent owned by Atlantic Richfield Co.

SAN FRANCISCO (JUNE 29) PR NEWSWIRE - The Pacific Stock Exchange (PSE) announced that Stephen R. Schoenfeld, a senior vice president with Shearson Lehman Hutton in New York, has been elected to the PSE Board of Governors. Schoenfeld was elected at the scheduled monthly meeting of the Board.

"Steve's comprehensive knowledge of day-to-day exchange trading and floor operations is a definite plus for the PSE," said Lee Korins, chairman and chief executive officer of the PSE. "As a governor, he'll provide greater insight into how we can meet both our customers' needs and those of the overall marketplace," Korins added.

Schoenfeld said that he was pleased by his election to the PSE Board. "Serving as a governor of the Pacific should be a fairly natural extension of my ongoing work with Shearson. I understand the trading floor environment, as well as the importance of regional exchanges and their contributions to the industry," he said.

At Shearson, Schoenfeld oversees the operation and administration of the firm's options floor operations at the Chicago Board Options Exchange, and the American, Philadelphia, Pacific, and New York stock exchanges.

#90180p1065 06/29/1990 ~PR Newswire

DALLAS (JUNE 29) PR NEWSWIRE - Royal International Optical and U.S. Vision jointly announced that on June 28, 1990, the merger of the two firms was completed and the surviving company will be known as Royal International Optical Inc.

Royal's new common stock will be traded in the over-the-counter market under the NASDAQ trading symbol RIOC.

The merged firm will operate 865 retail optical stores under the names Royal, Wall & Ochs, and as a licensee of a number of major department store chains including J.C. Penney, Montgomery Ward, May Co., Marshall Field, Famous Barr, Burdines, Dillards and others.

Under the terms of the merger, previous holders of Royal International Optical common stock as a group will receive $12.50 per share in cash for 80 percent of their shares and shares equal to 25 percent of the new company.

Following the merger, William A. Schwartz Jr. will be chairman and chief executive of the new firm, and Donald Gross will be president.

Royal, which is based in Dallas, operates about 645 stores in 40 states and also manufactures, imports and distributes optical frames. U.S. Vision based in Glendora, N.J., also manufactures frames and operates about 220 retail optical stores in 24 states. Together, the merged firms employ about 3,750 people.

With the purchase of Royal for about $70 million in cash and stock representing approximately 25 percent of the new Royal company, Schwartz

said he has achieved his first goal, which is to have almost a thousand retail optical outlets across the country. "You need that kind of size to be viable in this industry today," he said. In terms of numbers, Royal is second in size only to privately held Pearle Vision, which reportedly has 915 units in the United States. Schwartz said he expects to "take about a year to combine certain functions, what with operations centered in Dallas and Glendora, but I don't think we'll have any problems of overlap." He currently anticipates that approximately 70 to 80 new units a year will be opened over the next five years.

"You need national coverage to be effective in this field," Schwartz said. "With almost 1,000 outlets nationwide, we are a major player in this industry. We are already one of the nation's largest operators of optical outlets in department stores and malls, and we expect additional growth in that sector."

In structuring the merger deal, U.S. Vision obtained $70 million in senior and subordinated financing from Westinghouse Credit Corp.

Royal Optical was represented by Goldman Sachs in the merger negotiations and U.S. Vision was represented by Wheat First, Butcher & Singer and Hill & Co.

Management of new company will include Gayle Schmidt, executive vice president; George McHenry, chief financial officer, and James McGrath, executive vice president-retail. Directors include William Schwartz; Donald Gross; Vernon W. Hill II, chairman of Commerce Bank; Kenneth Macrae; Harvey Johnson, Edward Shukur and Gene Schanbaum, former chairman of Royal.

OKLAHOMA CITY, OK (JUNE 29) PR NEWSWIRE - Beard Oil Co. (AMEX: BOC) today announced that it has consummated the purchase of substantially all of the assets of Carbotherm Ltd. through its 80.6 percent-owned subsidiary, Carbonic Reserves, which is based in Amarillo, Texas.

The purchase by Carbonic Reserves includes Carbotherm's sales outlets in Denver; Billings, Mont.; Salt Lake City; Albuquerque, N.M.; Wichita, Kan.; and Austin, Corpus Cristi and San Antonio, Texas. Financial details were not disclosed.

Herb Mee Jr., president, stated, "As a result of this purchase Carbonic Reserves has become one the largest distributors of dry ice west of the Mississippi. Our customers, both new and old, will benefit from improved operating efficiencies as we combine the operating capabilities of Carbotherm with the marketing talents of Carbonic Reserves. Carbonic Reserves will now be focusing all of its attention and efforts on the growth and development of the dry ice manufacturing and distribution business."

Beard Oil is a diversified natural resource development company headquartered in Oklahoma City. Its principal business is oil and gas exploration and production, with an emphasis on secondary recovery operations. The company is also involved in carbon dioxide (CO2) and iodine production. Beard Oil's common stock is traded on the American Stock Exchange under the symbol: BOC.

MINNEAPOLIS (JUNE 29) PR NEWSWIRE - N. Charles Fuhrman has been appointed chief operating officer of Grand Metropolitan Foodservice USA, a subsidiary of Grand Metropolitan Food Sector. The announcement was made by Russell J. Bragg, chairman of Grand Metropolitan Foodservice. The appointment is effective immediately.

"Chuck's extensive experience in both the consumer goods and hotel and

restaurant industries is an excellent background for Grand Met's Foodservice," said Bragg. "His expertise in human resources will also be key to developing a first-class management and sales team to lead Foodservice in the '90s."

Fuhrman, 38, was most recently senior vice president human resources of Pillsbury Inc., also a subsidiary of Grand Metropolitan. He joined Grand Metropolitan in 1988, as vice president human resources of Pearle, Inc., the world's largest retailer of eyecare products and services.

Before joining Grand Metropolitan, Fuhrman held several senior management positions at Motel 6, Boise Cascade and Nestle Enterprises.

Fuhrman will be based at the company's headquarters in Minneapolis. Grand Metropolitan Foodservice USA, with sales in excess of $200 million, markets Pillsbury and Green Giant products to both commercial (restaurants hotels, bakeries) and non-commercial (airlines, hospitals, universities) markets.

Grand Metropolitan PLC, one of the largest international companies in the United Kingdom and a world leader in drinks, retailing and food, has sales in excess of $15 billion. Other US subsidiaries include ALPO Petfoods, Burger King, Carillon Importers, Haagen-Dazs, Heublein, The Paddington Corporation, Pearle, Inc., and Pillsbury.

NORCROSS, Ga. (JUNE 29) PR NEWSWIRE - Stockholder Systems Inc. (NASDAQ: SSIAA), the financial software company, today announced a 33 percent increase in earnings per share for its fiscal fourth quarter ended March 31.

For the quarter, net income was $1.8 million, or 44 cents per share, on revenues of $9 million compared with income of $1.3 million, or 33 cents per share, on revenues of $7 million for the same period a year ago. For the year, net income was $3.6 million, or 90 cents per share, on revenues of $25.7 million compared with a net income of $3.7 million, or 92 cents per share, on revenues of $22.1 million for the previous fiscal year.

On April 26, SSI and NYNEX Information Solutions Group announced that they had agreed in principle to the acquisition by NYNEX of SSI in a pooling transaction in which SSI shareholders will receive NYNEX common stock having a value of not less than $15 nor more than $16.20 for each share of common stock of SSI. The agreement in principle is conditioned upon execution and approval by the respective boards of directors of NYNEX and SSI of a definitive agreement containing customary terms and conditions and approval of the transaction by the SSI shareholders.

Founded in 1971, SSI designs, markets and supports a line of financial application software for IBM and IBM-compatible computers. SSI has over 1,200 customers who use SSI's software for check processing, securityholder recordkeeping, electronic funds transfer, cash management, lease accounting, loan origination, safe box accounting, loan recovery, loan servicing and secondary marketing.

CLEVELAND (JUNE 29) PR NEWSWIRE - The East Ohio Gas Company is advising its customers to seek proper photo identification to verify the employment of anyone posing as an East Ohio Gas employee.

In rare instances, con artists have tried to pass themselves off as East Ohio Gas or other utility employees, and have dishonestly made their way into homes or cheated innocent consumers of their hard-earned dollars. The company is advising customers to avoid the possibility of being bilked by exercising a little caution.

Customers should know that the only service people East Ohio Gas sends into homes are employees of the company. They are easily identified by their dark green uniforms with East Ohio Gas "sunshine" patches. All company meter readers and customer service representatives wear the company uniforms.

Employees without uniforms, such as the construction and maintenance personnel, may also have reason to call upon customers. They can be identified by the company vehicles they drive, which are white with the company's "sunshine" logo.

In order to protect the safety and integrity of the gas pipeline equipment the construction and maintenance people routinely check company lines and customer-owned service lines for leaks. These employees can be identified by the orange "sunshine" logo hats they wear.

All employees carry an East Ohio Gas Company photo identification card. Customers should always ask to see the workers' identification if they are uncertain about their true identity.

East Ohio Gas Company employees sometimes make telephone calls to customers to verify service appointments or to conduct surveys. If a customer gets a call from someone claiming to represent East Ohio Gas, he

should verify the call if he questions its legitimacy. This can be done by getting the person's name and calling the company back at the East Ohio Gas Company phone number listed in his local telephone directory or on the back of his gas bill, rather than calling a number given by the caller.

Finally, customers should never allow anyone in their home to do work that will cost them money, without first checking to make certain the service call was initiated by East Ohio Gas.

NEW YORK (JUNE 29) PR NEWSWIRE - Ramtron Australia Ltd. (NASDAQ: MEMRY) said today that its Australian shareholders have approved a private placement of special preference shares for up to U.S. $10 million by issuing up to 5 million special preference shares at U.S. $2 per share. U.S. $5 million will be taken up by Oren Benton of Denver, whose business interests are in banking, resource trading and venture capital. This new capital will enable Ramtron Australia to continue to maintain its majority ownership control of its U.S. microelectronics subsidiary, Ramtron International Corporation.

In addition, Brian Harcourt, chairman of Ramtron Australia, said that due to the transferring of previously projected revenues to the new Ramtron/NMB joint venture company, and other revenue deferrals, Ramtron is now expected to report for the year ending June 30, 1990, total revenue of approximately U.S.$4.9 million and a group consolidated loss of several million dollars. This differs from the results previously anticipated by the company.

"Despite this change in expected fiscal 1990 financial results," Harcourt said, "the company remains financially strong and expects to release the first series of Ferroelectronic Random Access Memory (FRAM) products later this year.

"The critical data storage family of products comprising 1 kilobit through 16 kilobit FRAM chips will be entering production at the company's new U.S. $20 million facility in Colorado Springs and is also being brought up to production status at ITT semiconductors in West Germany and Seiko-Epson Corporation in Japan. In addition, we are also moving forward with our recently announced joint venture with NMB Semiconductor Company Ltd. for the design and development of 16-megabit DRAMs."

Ramtron Australia Ltd., through its majority-owned subsidiary Ramtron International Corporation, develops leading-edge semi-conductor memory

products based on proprietary ferroelectronic materials and advanced processing and design technologies. Ramtron's products include non-volatile Ferroelectronic Random Access Memories (FRAMs) and high-performance Dynamic Random Access Memories (DRAMs).

BIRMINGHAM, ALA. (JUNE 29) PR NEWSWIRE - Southern Natural Gas Company, a unit of Sonat Inc. (NYSE: SNT), today announced that it has made a filing with the Federal Energy Regulatory Commission (FERC) to increase its sales and transportation rates by approximately $58 million annually. The filing is expected to become effective January 1, 1991, after the required one-month notice period and five-month suspension period normally imposed by the FERC.

Southern Natural stated that its rate change filing is designed to restructure its rates consistent with new federal policies on rate design and to recover the increased capital and operational costs incurred by it in providing sales and transportation service. The filing, which represents a 7.8 percent increase in Southern Natural's total costs, is the first overall increase in Southern Natural's rates (exclusive of gas costs) since October of 1986. Because of overall decreases in most of Southern Natural's costs since 1986, including gas costs, Southern Natural's new rate case will produce significantly lower annual revenues than the 1986 rate increase filing.

Southern Natural Gas, headquartered in Birmingham, operates an 8,600-mile

natural gas pipeline network serving seven Southeastern states. It is a subsidiary of Sonat Inc., also headquartered in Birmingham. Sonat is a worldwide energy company involved in natural gas transmission and marketing, oil and gas exploration and production, and oil services.

#90180p1121 06/29/1990 ~PR Newswire

DANBURY, CONN. (JUNE 29) PR NEWSWIRE - Union Carbide Chemicals and Plastics Company Inc. (UCC&P) (NYSE: UK) said today it believes the agreement providing for the sale of its worldwide urethane polyols and propylene glycols businesses to ARCO Chemical Company (NYSE: RCM) will stand. Today the Federal Trade Commission (FTC) voted to approve the issuance of a complaint seeking to block the proposed sale and rescind the agreement.

The $220 million purchase price for the businesses has been paid by ARCO Chemical. All regulatory risk, including the disposition of any non-transferable assets involved in the transaction, has been assumed by ARCO Chemical.

UCC&P said it made all pre-merger notification filings on a timely basis, and that there is no precedent for rescission of the agreement under these circumstances. The company believes concerns of the FTC will be resolved through continued negotiations.

Urethane polyols are used to make polyurethane foam found in furniture cushioning and other products. Propylene glycols are used to make personal care products such as shampoo.

#90180p1123 06/29/1990 ~PR Newswire

LOUISVILLE, KY. (JUNE 29) PR NEWSWIRE - Louisville Gas & Electric Company (NYSE: LOU) today filed a proposal with the Public Service Commission of Kentucky to adjust its gas and electric prices. The primary purpose for the requested price adjustment is to include in rates the costs associated with 75 percent of the Company's Trimble County electric generating station. The Trimble County station, which is expected to begin commercial operation by January 1, 1991, will provide a reliable, environmentally sound source of energy well into the next century to meet the expanding needs of the community.

The Company's proposal would increase revenues by $35.5 million, and would

result in an overall price increase of 5.1 percent. If LG&E's proposal is approved, the monthly electric bill of an average residential customer would increase by $3.82, and the average monthly gas bill would go up by $1.23. We expect final prices approved by the Commission to become effective January 1, 1991.

LG&E has not increased its rates since July 1988, when an increase of 3.5 percent was granted. In fact, LG&E reduced its electric rates by $8.5 million in January 1990 as a result of the Trimble County settlement. If the Company's proposed increase is approved, a typical residential gas and electric bill will still be lower than it was five years ago.

LG&E's proposed price increase is consistent with two key provisions of the Trimble County settlement of October 1989: first, LG&E would not increase its base electric rates before January 1, 1991, and second, any new electric rates that might become effective after the Trimble County plant begins commercial operation would include full recovery of and a return on 75 percent of the Company's investment in the Trimble County plant. As part of the Trimble County settlement, LG&E refunded $2.5 million to its electric customers during the third quarter of 1989 as well as reducing its electric rates in January.

In an effort to determine and respond to its customer's needs, LG&E is pursuing with its constituent groups the possibility of negotiating a settlment that can be presented to the Public Service Commission for approval. The Company believes this approach will result in greater customer satisfaction and involvement, which will allow us to provide customers with a better value in energy services.

#90180p1126 06/29/1990 ~PR Newswire

PITTSBURGH (JUNE 29) PR NEWSWIRE - National Intergroup Inc. (NII) (NYSE: NII), today announced that it has completed the sale of its Genix Enterprises, Inc. subsidiary for $20 million in cash and notes.

The sale is expected to result in a non-recurring pre-tax gain of approximately $13 million.

The Genix Enterprises subsidiary was purchased by MCN Corp. (NYSE: MCN), a holding company for Michigan Consolidated Gas Co., which is a natural gas distribution, transmisson and storage company serving communities throughout Michigan, and for MCN Investment Corp. which owns subsidiaries involved in data processing, natural gas technology and energy services.
